SECTION 4.0: SPECIFICATIONS/SCOPE OF SERVICES

- 41. General/Background:** The City of Grand Junction, Co. is seeking request for proposals for a bicycle playground located in the Riverfront at Dos Rios area.

The bicycle playground design and equipment proposed by the Offeror should be innovative; state of the art; durable for longevity and safe; uv resistant; and as vandal resistant as possible.

Numerous grant funders have come together, including the Colorado Health Foundation, to renovate Riverside Park and progress the development of the Dos Rios property. The City has \$120,000 budgeted for this project. Dos Rios is adjacent to the Riverside Neighborhood, which is in between Dos Rios and Riverside Park. Although renovation Riverside Park is nearing completion, the central feature, the bicycle playground still needs to be built and installed. The City of Grand Junction is looking to contract with a bicycle playground provider to supply the new amenity.

The area that we have to work with for the bicycle playground install is included in this packet of information. It will be surrounded by a mixed used development, the Riverfront at Dos Rios. The Riverfront at Dos Rios project restores and revitalizes 58 acres on the City-owned land along the Colorado River just west of the heart of Grand Junction, located in the River District. The Dos Rios project consists of 15.8 acres of parks and open space, 9.5 acres for light industrial/commercial and 10.2 acres for mixed use development.

Grand Junction is one of the final places in Colorado to develop the riverfront, to seize upon the virtue of its namesake with the confluence of the Gunnison and Colorado rivers in a Grand Junction. This is a transformative project. Dos Rios was formerly home to 8500 junk cars and a municipal landfill as recently as the 1980s. After millions of dollars invested to date and with millions to be invested in the coming years, Dos Rios will become a hub for commerce and quality of life that all of Grand Junction can be proud. The contrast between future and past could not be more stark.

Various facilities and park amenities have been constructed within and nearby to date, including upgrades to Riverside Park, including a new section of riverfront trail that will connect to the trail that runs through and will be enhanced within the proposed Riverfront at Dos Rios development. The City has already constructed some infrastructure improvements within Dos Rios including portions of the streets and utilities that are needed to serve parcels that have already been deeded to the first two anchor tenants. In addition, there is already a hard surface trail through the proposed Dos Rios area.

Shortly after leaving the Riverside neighborhood to the west, residents may now also go under State Highway 340 and head southwest on a new 10-foot trail separated from vehicles all the way to the popular Lunch Loop trail system. This project again tapped

into GOCO for a \$1.5M grant that paid for the bulk of this trail that will connect Downtown directly to the Lunch Loop trail system less than two miles away. This complex is home to extensive mountain biking, trail running and hiking, all within close proximity to the city center. Suffice it to say, Dos Rios will be tied to an amazing network of trails.

4.3. Specifications/Scope of Services:

Project Vision

Youth in the Riverside Neighborhood next to Dos Rios expressed concern about the amazing trails not too far from their homes being out of their reach. Most of these mountain biking trails require skills that take years to learn. The idea was born to provide a bicycle playground next to the Riverside neighborhood, so these local youth,

along with riders of a more beginner level from across Grand Junction, could develop their skills in a lower consequence environment.

In this RFP, we seek innovative bike playground proposals that include a diversity of interesting and desirable features. The goal is to accommodate beginning levels of riders to more intermediate and confident riders. From young kids on striders to less bike proficient adults, we want this new playground to provide fun opportunities to further biking skills for all less experienced riders.

The bicycle playground should consist of a variety of sustainable features including low, risk, low-lying obstacles such as ladder bridges, small jumps, rollers, and turn features. Many of the features should be designed to imitate what a rider might experience out on a trail, providing youth and beginner riders the opportunity to practice and build confidence in a lower risk environment. Some features should also be of a more intermediate level with even a few that are more advanced, to ensure the bike playground can serve a diversity of abilities. The goal is to develop riders to tackle the blue and black trails as shown on MTB project at the Lunch Loop Trail Network only two miles away.

Proposal Requirements

Itemize in your proposal the cost of each element, its dimensions, cost for shipping and cost of installation. The City of Grand Junction is a tax exempt entity. Parks and recreation crews, along with members of the Project Team from Public Works, may be available for install on this project. Although not experienced in bicycle playground equipment installation, these staff members are skilled in completing small capital projects such as commercial playground installation and street maintenance. Please include upgrade options to the Bike Playground assuming most of the installation is possible with City staff.

Include project references that can speak to your experience with this type of specialty work as well as years of experience. The more references for similar projects the better. The playground should employ elements with a track record of durability and high utilization in other communities. Please include project references of similar projects and include description of features, a project cost and a completion date. Pictures are also always helpful.

Proposals should include dirt work. Site work will be completed by the City.
