

Purchasing Division

ADDENDUM NO. 2

DATE: March 31, 2021
FROM: City of Grand Junction Purchasing Division
TO: All Interested Parties
RE: Tandem Axle Dump Truck w/ Snow Removal Equipment IFB-4899-21-KH

Bidders responding to the above referenced solicitation are hereby instructed that the requirements have been clarified, modified, superseded and supplemented as to this date as hereinafter described.

Please make note of the following:

1. **Q.** "I am not seeing what length of dump body the city is requesting."
 - A. The specification is for the inside length of the dump bed to be no less than 15 foot and bed capacity to be in the 12-13 yard range.
2. **Q.** "You specified a 15' body with an 1821PL hoist. That hoist is only rated for bodies up to 12'. We can use a head lift with a small doghouse that would still fit a 14' spreader in the body. We can also use a different model underbody hoist, but the 1821PL will not work."
 - A. The City requests the best suited bed hoist for the body size requested. Preferably in the 40-ton range.
3. **Q.** "The specs call for an asphalt body and a spreader apron. Do you want a true asphalt body, or just a sloped tailgate with a spreader apron?"
 - A. It was the City's intent to remove the asphalt body description on this solicitation and failed to do so. We will accept bids for wither asphalt body, traditional body, or sloped tailgate. Spreader apron is still required for chip seal program.
4. **Q.** "What dimensions do you want for the dump box for the IFB-4899-21-KH bid?"
 - A. Please see Question 1.

The original solicitation for the project referenced above is amended as noted.

All other conditions of subject remain the same.

Respectfully,

A handwritten signature in black ink that reads "K Hackett". The signature is written in a cursive, somewhat stylized font.
