Based on such observations and the Contractor's Application for Payment, the Owner will determine the amounts owing to the Contractor and will issue Certificates for Payment in such amounts, as provided in the contract. The Owner will have authority to reject work which does not conform to the Contract documents. If, prior to the award of the contract, the Owner has a reasonable and substantial objection to any person or organization on such list, and refuses in writing to accept such person or organization, the successful Contractor may, prior to the award, withdraw their proposal without forfeiture of proposal security. If the successful Contractor submits an acceptable substitute with an increase in the proposed price to cover the difference in cost occasioned by the substitution, the Owner may, at their discretion, accept the increased proposal or may disqualify the Contractor. If, after the award, the Owner refuses to accept any person or organization on such list, the Contractor shall submit an acceptable substitute and the contract sum shall be increased or decreased by the difference in cost occasioned by such substitution and an appropriate Change Order shall be issued. However, no increase in the contract sum shall be allowed for any such substitution unless the Contractor has acted promptly and responsively in submitting a name with respect thereto prior to the award.

It will be necessary for each Bidder to satisfy the City of its ability to complete the Work within the Contract Time set forth in the Contract Documents. The Contract Time is the period of time allotted in the Contract Documents for completion of the work. The date of commencement of the work is the date established in a Notice to Proceed. If there is no Notice to Proceed, it shall be the date of the Contract or such other date as may be established therein, or as established as entered on the Bid Form. - 2.15. Performance & Payment Bonds:** After design & construction documents completion, but prior to construction commencement, Contractor shall furnish a Performance and a Payment Bond, each in an amount at least equal to that specified for the contract amount as security for the faithful performance and payment of all Contractor's obligations under the Contract Documents. - 2.16. Retention:** The Owner will deduct money from the partial payments in amounts considered necessary to protect the interest of the Owner and will retain this money until after completion of the entire contract. The amount to be retained from partial payments will be five (5) percent of the value of the completed work, and not greater than five (5) percent of the amount of the Contract. When the retainage has reached five (5) percent of the amount of the Contract no further retainage will be made and this amount will be retained until such time as final payment is made.
- 2.17. Liquidated Damages for Failure to Enter Into Contract:** Should the Successful Bidder fail or refuse to enter into the Contract within ten Calendar Days from the issuance of the Notice of Award, the City shall be entitled to collect the amount of such Bidder's Bid Guaranty as Liquidated Damages, not as a penalty but in consideration of the mutual release by the City and the Successful Bidder of all claims arising from the City's issuance of the Notice of Award and the Successful Bidder's failure to enter into the Contract and the costs to award the Contract to any other Bidder, to readvertise, or otherwise dispose of the Work as the City may determine best serves its interest.
- 2.18. Liquidated Damages for Failure to Meet Project Completion Schedule:** Once a construction schedule is set and agreed upon by both Owner and Contractor, if the Contractor does not achieve Final Completion by the required date, whether by neglect, refusal or any other reason, the parties agree and stipulate that the Contractor shall pay liquidated damages to the City for each such day that final completion is late. As provided elsewhere, this provision does not apply for delays caused by the City. The date for Final Completion may be extended in writing by the Owner.

The Contractor agrees that as a part of the consideration for the City's awarding of this Contract liquidated damages in the daily amount of **\$1,500.00** is reasonable and necessary to pay for the actual damages resulting from such delay. The parties agree that the real costs and injury to the City for such delay include hard to quantify items such as: additional engineering, inspection and oversight by the City and its agents; additional contract administration; inability to apply the efforts of those employees to the other work of the City; perceived inefficiency of the City; citizens having to deal with the construction and the Work, rather than having the benefit of a completed Work, on time; inconvenience to the public; loss of reputation and community standing for the City during times when such things are very important and very difficult to maintain.

The Contractor must complete the Work and achieve final completion included under the Bid Schedule in the number of consecutive calendar days after the City gives is written

Notice to Proceed. When the Contractor considers the entire Work ready for its intended use, Contractor shall certify in writing that the Work is substantially complete. In addition to the Work being substantially complete, Final Completion date is the date by which the Contractor shall have fully completed all clean-up, and all items that were identified by the City in the inspection for final completion. Unless otherwise stated in the Special Conditions, for purposes of this liquidated damages clause, the Work shall not be finished and the Contract time shall continue to accrue until the City gives its written Final Acceptance.

If the Contractor shall fail to pay said liquidated damages promptly upon demand thereof after having failed to achieve Final Completion on time, the City shall first look to any retainage or other funds from which to pay said liquidated damages; if retainage or other liquid funds are not available to pay said liquidated damages amounts, the Surety on the Contractor's Performance Bond and Payment Bond shall pay such liquidated damages. In addition, the City may withhold all, or any part of, such liquidated damages from any payment otherwise due the Contractor.

Liquidated damages as provided do not include any sums to reimburse the City for extra costs which the City may become obligated to pay on other contracts which were delayed or extended because of the Contractor's failure to complete the Work within the Contract Time. Should the City incur additional costs because of delays or extensions to other contracts resulting from the Contractor's failure of timely performance, the Contractor agrees to pay these costs that the City incurs because of the Contractor's delay, and these payments are separate from and in addition to any liquidated damages.

The Contractor agrees that the City may use its own forces or hire other parties to obtain Substantial or Final Completion of the work if the time of completion has elapsed and the Contractor is not diligently pursuing completion. In addition to the Liquidated Damages provided for, the Contractor agrees to reimburse the City for all expenses thus incurred.

- 2.19. Contingency/Force Account:** Contingency/Force Account work will be authorized by the Owner's Project Manager and is defined as minor expenses to cover miscellaneous or unforeseen expenses related to the project. The expenses are not included in the Drawings, Specifications, or Scope of Work and are necessary to accomplish the scope of this contract. Contingency/Force Account Authorization will be directed by the Owner through an approved form. Contingency/Force Account funds are the property of the Owner and any Contingency/Force Account funds, not required for project completion, shall remain the property of the Owner. Contractor is not entitled to any Contingency/Force Account funds, that are not authorized by Owner or Owner's Project Manager.

This notice shall be given by the Contractor before proceeding to execute the work, except in an emergency endangering life or property in which case the Contractor shall precede in accordance with the regulations on safety. No such claim shall be valid unless so made. Any change in the contract sum or contract time resulting from such claim shall be authorized by Change Order.

- 2.21. Field Orders:** The Owner may issue written Field Orders which interpret the Contract Documents in accordance with the specifications, or which order minor changes in the work in accordance with the agreement, without change in the contract sum or time. The Contractor shall carry out such Field Orders promptly.
- 2.22. Progress & Completion:** The Contractor shall begin work on the date of commencement as defined in the Contract, and shall carry the work forward expeditiously with adequate forces and shall complete it within the contract time.
- 2.23. Payment & Completion:** The Contract Sum is stated in the Contract and is the total amount payable by the Owner to the Contractor for the performance of the work under the Contract Documents. Upon receipt of written notice that the work is ready for final inspection and acceptance and upon receipt of application for payment, the Owner's Project Manager will promptly make such inspection and, when they find the work acceptable under the Contract Documents and the Contract fully performed, the Owner shall make payment in the manner provided in the Contract Documents. Partial payments will be based upon estimates, prepared by the Contractor, of the value of Work performed and materials placed in accordance with the Contract Documents. The work performed by Contractor shall be in accordance with generally accepted professional practices and the level of competency presently maintained by other practicing professional firms in the same or similar type of work in the applicable community. The work and services to be performed by Contractor hereunder shall be done in compliance with applicable laws, ordinances, rules and regulations.

When or where any direct or indirect damage or injury is done to public or private property by or on account of any act, omission, neglect, or misconduct by the Contractor in the execution of the work, or in consequence of the non-execution thereof by the Contractor, they shall restore, at their own expense, such property to a condition similar or equal to that existing before such damage or injury was done, by repairing, rebuilding, or otherwise restoring as may be directed, or it shall make good such damage or injury in an acceptable manner.
- 2.25. Changes in the Work:** The Owner, without invalidating the contract, may order changes in the work within the general scope of the contract consisting of additions, deletions or other revisions, the contract sum and the contract time being adjusted accordingly. All such changes in the work shall be authorized by Change Order and shall be executed under the applicable conditions of the contract documents. A Change Order is a written order to the Contractor signed by the Owner issued after the execution of the contract, authorizing a change in the work or an adjustment in the contract sum or the contract time. The contract sum and the contract time may be changed only by Change Order.
- 2.26. Claims for Additional Cost or Time:** If the Contractor wishes to make a claim for an increase in the contract sum or an extension in the contract time, he shall give the Owner

written notice thereof within a reasonable time after the occurrence of the event giving rise to such claim. This notice shall be given by the Contractor before proceeding to execute the work, except in an emergency endangering life or property in which case the Contractor shall precede in accordance with the regulations on safety. No such claim shall be valid unless so made. Any change in the contract sum or contract time resulting from such claim shall be authorized by Change Order.

- 2.27. Minor Changes in the Work:** The Owner shall have authority to order minor changes in the work not involving an adjustment in the contract sum or an extension of the contract time and not inconsistent with the intent of the contract documents.

The Owner shall give such notice promptly after discovery of condition. All such defective or non-conforming work under the above paragraphs shall be removed from the site where necessary and the work shall be corrected to comply with the contract documents without cost to the Owner. The Contractor shall bear the cost of making good all work of separate Contractors destroyed or damaged by such removal or correction. If the Owner prefers to accept defective or non-conforming work, he may do so instead of requiring its removal and correction, in which case a Change Order will be issued to reflect an appropriate reduction in the payment or contract sum, or, if the amount is determined after final payment, it shall be paid by the Contractor.
- 2.29. Acceptance Not Waiver:** The Owner's acceptance or approval of any work furnished hereunder shall not in any way relieve the proposer of their present responsibility to maintain the high quality, integrity and timeliness of his work. The Owner's approval or acceptance of, or payment for, any services shall not be construed as a future waiver of any rights under this Contract, or of any cause of action arising out of performance under this Contract.

The Contractor shall be solely responsible for any deductible losses under any policy required above.

SECTION 4.0: SPECIFICATIONS/SCOPE OF SERVICES

4.1. General/Background: The general scope of services to be obtained as a result of this RFP includes preconstruction services, value engineering, construction management ("CM") and general contractor ("GC") services relative to the renovation construction of Stocker Stadium & Suplizio Field. The selected CM/GC will work collaboratively with the design team (led by Perkins&Will) and the Owner in the development of the design, recommending cost saving strategies and system selections to best meet the intent and schedule as described herein. The CMGC shall consistently review the design documents, including drawings and specifications for appropriateness to means and methods, cost efficiencies and overall schedule control.. The selection of the CM/GC is expected to be concluded and approved by the City Council on June 2, 2021.

The timeline for this project is ambitious. All planning, design and construction efforts will be expedited to the extent possible. The Owner intends to establish a Not to Exceed Price for all Pre-Construction Services, and a Guaranteed Maximum Price for the Construction portion of this project.

In 2019, the Parks Improvement Advisory Board (PIAB) comprised of the City of Grand Junction, Mesa County, School District 51, Colorado Mesa University and Grand Junction Baseball, conducted a Master Plan process that identified improvements, repairs and renovation priorities at the Stadium.

Stocker Stadium: Opening in 1949, Ralph Stocker Stadium is run by the City of Grand Junction and is the home of the Colorado Mesa University Mavericks football team and local high school football. Other activities held on the field include high school and college commencements, Special Olympics Summer Colorado State Games and the Western Colorado Marching Band Festival.

The field has lights for the football teams to play night games in the early part of the hot, fall season in Grand Junction. The field is covered in the latest brand of field turf and is set up on a great draining system allowing for reduced maintenance.

In 2012, Stocker Stadium underwent an \$8.6 million renovation including TV ready lights, expanded seating area, new press box, luxury suite, concourse, restrooms, and concession stands.

Suplizio Field: Suplizio Field is owned by the City of Grand Junction and located in the northwest corner of Lincoln Park. It is currently home to the Grand Junction Rockies Pioneer League Baseball team, and also hosts the Colorado Mesa University Baseball team as well as the Junior College World Series each year beginning Memorial Day Weekend.

Built in 1949, the stadium has been expanded several times in the past decades. The most recent expansion included a four-story tower built in 2012 between the baseball field and the Stocker football field (this is referred to as the Tower).

The City seeks to hire a CM/GC to fully collaborate with the City and selected Architectural/Engineering firm in order to provide all services necessary to perform design, engineering, construction, management, etc. for the successful completion of the project.

Therefore, the City of Grand Junction Purchasing Department is requesting proposals from CM/GC's to assist in providing collaborative design services, scope, specifications, prepare construction drawings, assist in development of bid documents, with the Architectural/Engineering firm led by Perkins & Will. The design portion of the project calls for the following:

- Preliminary Design Review (FIR) with plans for review by City and stakeholders
- Final Design Review (FOR) with Construction Drawings, Standard and Project Specifications, and Probable Opinion of Construction Costs for review by City and stakeholders
- Preparation of construction plans and documents to be included in the Solicitation for Construction Documents published by the City. Assistance with bidding services includes aiding the City Project Manager in responding to questions and completing the addenda as part of the contractor selection process.

Additional Background: The following projects in the 2-4 year improvements phase of the improvement plan reflect the top two to three priorities from the perspective of each PIAB partner. The project list has yet to be finalized but examples of projects likely to be included are as follows. The current list of probable projects is enclosed with this RFP. This current list can be found in Section 4.7 Attached Documents.

- Enhanced Entry | Circulation | Seating - This includes the demo of the north bleachers and seat pans, reconstructing the north bleachers and seat pans behind home plate with

900 chair back seats and 3,000 bleacher seats, a camera platform and scorer's box, a renovation of the main entry to create an open plaza and a new ticketing and retail/display building.

- Stocker Stadium Ticketing, Infrastructure and Bleachers - Renovations involve replacing the water main under the field, adding a new plaza and ticketing building for the west stadium entry, the demo of the west bleachers and seat pans, reconstruction of the west bleachers and seat pans for 2,500 seats, and relocation of light poles.
- Suplizio Field Outfield Replacement - The outfield quality is deteriorating, largely because of drainage issues and the proliferation of an invasive Poa species of grass, that is spreading throughout the outfield. This will replace the entire turf area of the outfield and install proper drainage infrastructure. As an alternative, we are open to exploring artificial turf as an option.
- Parking Lot and Site Improvements - With minimal changes to the curb, gutter and sidewalk, it is possible to expand the available parking from 415 to 500 spaces. Some light poles will need to be relocated.
- IT/Electrical/AV Infrastructure Upgrades - Many portions of the Stadium infrastructure are antiquated. These major upgrades will dramatically improve the function of the facility. This upgrades all IT at all ticketing locations and the Lincoln Tower Press Box, upgrades the electrical under the north bleachers, adds electrical in the endzones for VIP at Stocker, upgrades the sound system, adds audio-visual to camera platforms and plug-ins, and improves the audio-visual for the scoreboard and marquee.

The Master Plan document adopted by the Parks Improvement Advisory Board (PIAB) is included for reference. PIAB is comprised of the City of Grand Junction, Grand Junction Baseball (who organizes the annual JUCO tournament for the past 60 years), Colorado Mesa University (CMU), District 51 School District and Mesa County.

- 4.2. Budget:** The budget for this project (including all related design and construction) is estimated at approximately \$8,000,000 to \$9,000,000, depending on grant approvals. The construction cost is anticipated to be \$6.7 million after design fees and other soft costs.
- 4.3. Grants:** The City, in collaboration with the Grand Junction Baseball Committee, Colorado Mesa University and the other PIAB partners, plans to pursue a Department of Local Affairs (DOLA) grant in 2021. The City plans to pursue a \$1,000,000 grant due September 3, 2021 with an award decision in December of 2021. The grant should have a 50% match and the owner may not be under contract for construction for the elements described in the project application prior to execution of grant contract with DOLA. The A/E and CM/GC will be involved in advising the decision on what to apply for with this grant opportunity. A Federal Mineral Lease District for Mesa County (FML) as well as a Great Outdoors Colorado (GOCO) may also be pursued in the fall of 2021.
- 4.4. Designer:** The Owner has selected Perkins & Will as the design firm for this project. The Owner shall require maximum collaboration by the Architect, the Construction Manager/General Contractor and the Owner's project staff and other Stadium Improvement Committee members to insure value engineering through constructability

assessments, during the preconstruction phase, as well as the construction phase of the project.

4.5. Special Conditions/Provisions:

4.5.1 Mandatory Site Visit Meeting: A mandatory site visit meeting is required by all contractors intending to submit a response to this RFP. Any contractor that does not attend the mandatory site visit meeting shall not be eligible to submit a response to this RFP. The primary, lead CM/GC firm must be in attendance. Meeting location shall begin at Stoker Stadium Ticket Office located in the parking lot on the south side of Suplizio Field at 998 N 12th St, Grand Junction, CO on April 26, 2021 at 1:00 p.m.

4.5.2 Term of Contract: By submitting a response to this RFP, the proposer agrees and understands that payments pursuant to this Contract are subject to and contingent upon the continuing availability of funds for the purposes herein. If such funds become unavailable, the Council may terminate all or part of this Contract immediately without further liability.

4.5.3 Pricing/Fees: Pricing shall be all inclusive to include but not be limited to: all labor, equipment, supplies, materials, freight (F.O.B. Destination – Freight Pre-paid and Allowed to each site), all design related services, travel, mobilization costs, fuel, set-up and take down costs, and full-time inspection costs, general conditions, and all other costs related to the successful completion of the project.

The Owner shall not pay nor be liable for any other additional costs including but not limited to: taxes, shipping charges, insurance, interest, penalties, termination payments, attorney fees, liquidated damages, etc.

Contractor shall submit pricing as follows: Not to Exceed Price for all Pre-Construction Services for this project; and % of OH&P for Construction Services for this project; and Not to Exceed Price for all General Conditions. The Owner intends to establish a Guaranteed Maximum Price for the construction portion of this project.

For pricing purposes for this solicitation process, Firms shall presume a total project budget (to include all related design and construction) of \$8,000,000. NOTE: If grants come to fruition, then an amendment to the contract will be made as needed. Provide the above mentioned pricing using Solicitation Response Form found in Section 7.

All fees will be considered by the Owner to be negotiable.

Also see Section 5.0, paragraph H.

4.5.4 Codes: The A/E shall ensure that project design, scope and specifications meet all Federal, State, County, and City Codes.

4.6. Scope of Services: The general scope of services to be obtained as a result of this RFP includes preconstruction and Construction Services. These services shall consist of the following: (also see attached complete “as-built’ drawings for Stoker Stadium and Suplizio Field).

4.6.1 Pre-Construction Services

- a. Design Consultation During Project Development – Attend regularly scheduled meetings (as needed) with the Architect and the City during design development, and development of construction documents, to advise on site use and improvements, selection of materials, building systems and equipment. Provide recommendations on construction feasibility, availability of materials and labor, time requirements for installation and construction and factors related to cost including alternative designs or materials, preliminary budgets and possible economies. Consult with the City and the Architect to finalize construction-phasing plans based upon the preliminary project plan included with the Construction Manager’s original proposal. Present schedule and cost associated with each plan. The Construction Phasing Plan must consider construction feasibility, availability of materials and labor, coordination with the City’s on-going activities on the Project sites, and other factors related to time, cost and safety.

b. Cost Estimating, Scope Management and Value Engineering

The CM-GC shall prepare a cost estimate based on the Schematic Design package and provide a complete review and comparison with the Perkins & Will’s cost estimates as reflected in the 2019 Stadium Master Plan document. The CM-GC can use whatever means and methods deemed necessary to develop the estimate, including use of subcontractor pricing, historical unit costs, etc. The estimate shall be sufficiently detailed to enable review, by the City and the Architect, of all site and building components and systems. The CM-GC shall be expected to identify and present scope adjustment, value engineering or cost reduction ideas generated as a result of the estimating process. The CM-GC will work with the City and the Architect to develop a scope of work that fits within City’s available budget for site and building construction. Any pre-qualified and likely bidders (design-build, in some instances) for major elements of the renovation, such as bleachers (including thoughts on pursuing aluminum bleachers) and AV systems should be included in the proposal.

The CM-GC shall prepare similar cost estimate at completion of Design Development.

- c. Scheduling – Develop a Project Time Schedule that coordinates and integrates the Architect’s design efforts with construction schedules. Update the Project Time Schedule incorporating details for the construction operations of the project, including realistic activity sequences and durations, allocation of labor and materials, processing of shop drawings, and samples and delivery of products requiring long lead-time procurement. The schedule shall include the City’s other construction activities (i.e. Abatement, FF&E, Data/Telecommunications, e t c .) necessary for coordination and occupancy requirements showing portions of the Project having occupancy priority.

The schedule shall take into account all uses as the stadium and work towards minimizing interruption to the many events, seasons and leagues by the various users. The CM/GC and A/E will work collaboratively to coordinate the work of the sub-contractors in a way that minimizes cost while also minimizing interruption of normal seasonal activities. Some items may be postponed, rescheduled or held elsewhere while others require maximum facility availability such as the JUCO World Series. This will be a balance that will require regular communication and joint decision making between the Owner, the A/E and the CM/GC.

As of April 2021, we know a general idea of what the seasons will look like, but as we continue to work through COVID-19 restrictions, we hope to have more information and detail. Here is a rough outline of the schedule of regular events in a non COVID year (2020 looked vastly different than most years).

- d. Site Investigation – After receiving Construction Documents, Construction Manager shall conduct a walkthrough of the project to familiarize itself with the proposed Scope of Work and document the existing conditions of the facilities and/or site. The Construction Manager shall provide a written report to the City of any discrepancies or issues and their affects to the project identified during the site investigation walk through.

survey of drawings and available specifications. Update and refine the construction estimate for the City's approval and acceptance as the development of the drawings and specifications proceeds. Provide detailed construction costs estimates at the completion of 100% Schematic Design (SD) and 100% Design Development (DD) documents produced by the Architect. Estimate shall include the bid amounts and construction contingencies.

- f. It is anticipated that an early release package (Design Development) is needed to ensure project schedule adherence, therefore Contractor shall provide cost/pricing at the completion of the Design Development phase, at which point an initial contract shall be established (upon City Council approval). Guaranteed Maximum Price shall be submitted for approval upon completion of the Construction Documents, at which point a change order shall be established (upon City Council approval).

A written report of findings, including recommended revisions and/or value engineering proposals, shall be submitted to the City and the Architect within one week of receipt of said documents. Verify that all identified deficiencies and/or revisions authorized by the City are acknowledged by the Architect and incorporated in all subsequent documents presented and in the final Construction Documents.

- h. Construction Logistic Plan – Throughout the course of design & bidding, develop (with the input from the Architect and City) options regarding the execution of the work that will be performed within the existing occupied facility. Upon the completion of design, and as part of the amendments to the contract sum, document and/or identify in the appropriate detail as required and/or approved by the City, construction sequencing and actions required to mitigate adverse effects to ongoing daily operations of areas affected by construction activities.
- i. Subcontractor Pre-Qualification – Develop and implement a subcontractor pre-qualification process, with the cooperation and approval of the City and the Architect. Recommend early pre-qualification of critical subcontractors as deemed advisable, especially for stadium seating/bleachers and mechanical and electrical work.
