SECTION 4.0: SPECIFICATIONS/SCOPE OF SERVICES

- 4.1. General/Background:** The purpose of this RFP is to obtain proposals from qualified professional firms or individuals to create a Pedestrian and Bicycle Master Plan (“Plan”) and to update the City of Grand Junction (City) Transportation Engineering Design Standards (TEDS) Manual. The harmonization of these two documents is instrumental to helping advance the City’s mobility goals. While the Plan will help define a long-range vision for the City’s active transportation programs, mobility and multimodal infrastructure, the TEDS Manual will play an integral role in implementing that vision through specific transportation design standards and regulations. It is the City’s intent that the development of the Plan and TEDS Manual be closely coordinated and aligned.

To that end, the City seeks a firm that has experience creating pedestrian and bicycle plans and infrastructure standards that optimize safe, convenient, accessible and equitable multimodal travel throughout the City. Firms should have experience:

- Developing, through broad public input, multi-modal transportation plans;
- translating plans into implementable actions and strategies;
- engineering and design solutions for all users;
- using evidence-based methods; and
- facilitating interjurisdictional cooperation, including work with Departments of Transportation.

The focus of the Plan shall be to identify strategies, policies, and performance measures to guide the planning, funding, and implementation of future active transportation projects, and to encourage increased non-motorized trips across all ages and abilities. The focus of the TEDS Manual update will be to bring the Manual up to current industry standards, heavily focused on implementing best and progressive practices in Complete Streets design, and include lessons learned by the consultant, City Staff and the community. The consultant shall determine the best approach to meet the City’s needs. Recommendations for updating the TEDS Manual may include standards for topical areas not currently addressed in the existing manual.

The selected firm shall provide recommendations for the public outreach and drafting of both the Plan and the TEDS and whether the work occurs concurrently or in phases. The selected consulting firm or individual shall help the City develop a coordinated stakeholder engagement strategy to help align the two efforts and ensure the correct stakeholders are consulted throughout the project. The consultant shall ensure that the engagement strategy allows for periodic check-ins between the two efforts to guarantee internal document alignment.

- 4.2. Price/Fees:** Project pricing shall be all inclusive, to include, but not be limited to: labor, materials, equipment, travel, design, drawings, engineering work, shipping/freight, licenses, permits, fees, etc.

The City shall not pay nor be liable for any other additional costs including but not limited to: taxes, shipping charges, insurance, interest, penalties, termination payments, attorney fees, liquidated damages, etc.

Provide a not to exceed cost using Solicitation Response Form found in Section 7, accompanied by a complete list of cost breakdown and rates sheet.

All fees will be considered by the City to be negotiable.

4.3. Specifications/Scope of Services: The consultant shall review existing City documents to determine how the Plan and the TEDS Manual will integrate with and complement them. Appropriate documents include, but are not limited to, those listed below. Links to the documents are found in Section 4.6.
