Subject: CANCELLATION – Design/Build Dos Rios Splash Park Project
(RFP-4996-22-DH)

Dear Firms:

The City of Grand Junction greatly appreciates the time and attention your company has invested participating in the Design/Build Dos Rios Splash Park Project (RFP) process.

However, upon review of proposals received, and taking into consideration the potential for additional project budget funding through current grant application, it was determined, and evident, that further internal scope review and development would be beneficially impactful to the desired vision and success of the project.

Therefore, it is the decision of the City to hereby cancel the solicitation process for this project (RFP-4996-22-DH). It is the intent of the City to explore a more developed and somewhat succinct scope of work for this project. This process will take some time to complete, as the finalized budget potential will have significant impact on the overall scope. It is anticipated that a future solicitation(s) will be developed later in 2022.

Please feel free to contact us with any questions at 970-244-1545.

Sincerely,

A handwritten signature in black ink, appearing to read "Duane Hoff Jr.", written over a horizontal line.
