#### Recitals:

Colorado Department of Transportation's (CDOT) *Multimodal Options for a Vibrant, Equitable (MOVE) Western Slope* project (Project) will advance a regional approach to improving multimodal network connectivity in rural communities along the I-70 corridor in Western Colorado. The Grand Junction Mobility Corridor project, along with the other projects included in the *MOVE Western Slope* initiative, will make travel safer, more accessible, and more active in the City of Grand Junction and across the Western Slope.

The Project focuses on the creation of a mobility hub that will provide a centralized hub to facilitate between travel modes, improve local and regional connectivity, provide greater access, improve safety for all travel modes, improve connectivity between residential areas and employment, extend the transit and multi-modal network, support the stability of local neighborhoods and businesses, and facilitate a visitor experience that does not require a vehicle. The Project also includes CDOT's I-70B Phase 6 and the 2<sup>nd</sup> Street Promenade helping to economically revitalize an underutilized area of Downtown.
