Capabilities & Experience

GameTime is a leading designer of commercial playground equipment, outdoor fitness products, custom recreation spaces, and site furnishings. We strive to create the kinds of places people love and where people love to play. Play and recreation is a fundamental human right, and we take our role in helping communities create active, healthy places seriously. We focus on inclusion, diversity and equity in our playground designs, align our products with the research of leading play, health, and wellness experts, and advocate tirelessly for the advancement of safer, more accessible and fun places that bring people together. This is our mission since 1929: to build the highest quality products, design the most memorable play and recreation experiences, and to lead the industry with innovative solutions that help people of all ages, all abilities, and all backgrounds realize the transforming power of play. We offer an in-house design team including CAD, order entry, customer service, warehousing & certified installation.

ABOUT GAMETIME

GameTime creates fun, healthy and active places where all children and families become physically, emotionally and socially strong.

GameTime is a leading designer of commercial playground equipment, outdoor fitness products, custom recreation spaces, and site furnishings. We strive to create the kinds of places people love and where people love to play.

Play and recreation is a fundamental human right, and we take our role in helping communities create active, healthy places seriously. We focus on inclusion, diversity and equity in our playground designs, align our products with the research of leading play, health, and wellness experts, and advocate tirelessly for the advancement of safer, more accessible and fun places that bring people together.

This is our mission since 1929: to build the highest quality products, design the most memorable play and recreation experiences, and to lead the industry with innovative solutions that help people of all ages, all abilities, and all backgrounds realize the transforming power of play.

COMPLIANCE

Industry standards set a minimum level that playground manufacturers must meet. We meet or exceed those standards, because we understand that the ultimate playground offers peace of mind, as well as playful experiences.

AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM)

Several key people at GameTime, including our Manager of Compliance and Standards, serve on the ASTM committee that sets the standards for the entire playground industry. GameTime products conform to that standard, ASTM F1487-07, the Standard Consumer Safety Performance Specification for Playground Equipment for Public Use.

CPSC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to inform the public of current product safety performance information and recommended practices. The CPSC first published their guidelines for public playgrounds in 1981 and have updated their publication since then. The current CPSC Handbook for Public Playground Safety, publication #325, is an excellent guide for owners and operators of public play environments.

IPEMA EQUIPMENT CERTIFICATION

GameTime is one of the founding members of IPEMA, and several of our people serve as board members, committee members and chairpersons of the association. In the interest of public playground safety, IPEMA provides a 3rd party certification, to validate conformance to established standards. Our use of the IPEMA seal is your assurance that GameTime has received written validation from an independent lab that the products associated with the seal conform with the ASTM standard, as well as the Canadian CSA standard CAN Z-614. A list of our validated products may be found on the IPEMA website, www.ipema.org.

IPEMA SURFACING CERTIFICATION

GameTime's GT Impax product provides you with the assurance that our surfacing has been certified as compliant to the appropriate ASTM standard. In the interest of public playground safety, IPEMA provides a third party certification to validate a manufacturer's conformance to the ASTM F-1292-99 Standard Specification for Impact Attenuation of Surface Systems Under And Around Playground Equipment. The use of the IPEMA Certification Seal displayed above signifies that the manufacturer has received written validation from the independent laboratory that the product associated with the use of the seal conforms with the requirements of ASTM F1292-99. A complete list of our validated products may be found on the IPEMA website at www.ipema.com.

ADA

GameTime is the only manufacturer to have a lab partnership with an Institute for children with special needs, so that we can develop and test our accessible products for superiority before bringing them to market. GameTime is also the only manufacturer to meet accessibility guidelines on all of its pre-designed PowerScape Plus and PrimeTime playground plans. We also recommend accessible surfacing options. For more information, log on to www.access-board.gov

ISO 9001:2000

GameTime is the first playground manufacturer to obtain the ISO9001:2000 standard. In order to obtain this certification, the company's manuals, policies, objectives and quality procedures are closely examined during a surveillance audit by ISO representatives. Strict attention is paid to policies and procedures in manufacturing, communication channels, system monitoring, customer relations and order processing, which are reviewed for consistency and standards. Companies who meet the standard are awarded the ISO designation.

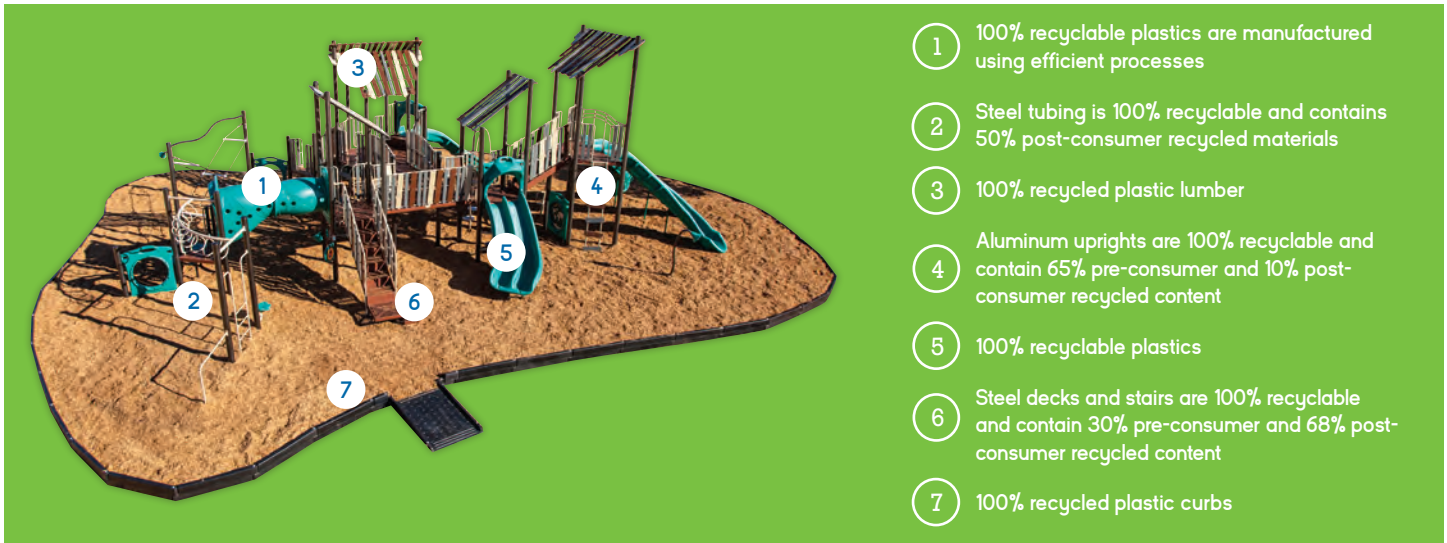

TUV

An international organization that is a European Union Notified and Competent Body, providing testing and certification. Use of the TUV seal demonstrates that products have passed a comprehensive testing procedure based upon the European Harmonized Standard for Commercial Playground Equipment, and that the GameTime plant is regularly monitored by TUV.

ENVIRONMENTAL RESPONSIBILITY

Environmentally responsible play systems that last for decades, not years.

OUR PLAYGROUNDS ARE DESIGNED FOR FAMILIES AND TO MINIMIZE THE IMPACT ON THE PLANET WHERE WE PLAY.

It's our responsibility to act as stewards of our planet and its natural resources. It's also our mission to create fun, active, and innovative places for families to gather and play. Our environmental sustainability efforts are intended to help ensure children of today can take their grandchildren to playgrounds in the future. Our approach to stewardship and sustainability encompasses every aspect of our company - from the way we manufacture our products to how we do business. Children learn many valuable life skills on playgrounds. We've learned some important lessons, too. We continuously strive to be environmentally responsible and to make sure future generations benefit from our efforts.

125,000 INDIVIDUAL PARTS 400,000 SQUARE FEET ONE ENVIRONMENTAL COMMITMENT

- We work with our suppliers to source the most environmentally preferable materials for our products.
- We include as much pre-consumer and post-consumer recycled content in our products as possible - without compromising the quality, durability, and performance.
- We're updating light fixtures, upgrading air compressors, and conducting energy audits because every small improvement leads to significant reductions in our overall environmental impact.
- We've implemented a variety of initiatives to reduce water consumption in our facilities, including the use of high-efficiency technology for product painting and washing.
- We recycle the vast majority of waste at our manufacturing facility, including 100% of manufacturing process waste like scrap metal, rotationally molded plastic and paper. We recycle the majority of our administrative waste, too.

MODERN CITY

Inspired play that inspires play.

MODERN PLAY FOR MODERN CITIES

Introducing a new kind of play system for the modern city at play.

Modern City® makes a strong visual statement, attracts children and families, and encourages and empowers children to be physically, mentally and socially active. Architecturally-inspired with square steel uprights that tower up to 16-feet, it looks at home in a city park or a suburban green space and celebrates the best of traditional play structures while offering flexible options to enjoy playful movement.

With three series to choose from, Modern City is a beautiful, scalable play solution for any age group, budget or space.

TAKE A CLOSER LOOK AT MODERN CITY

- The X-Frame hub cast aluminum shrouds to protect the connection hardware and to add a unique climbing activity. The uprights themselves support climbing and create multiple routes of travel to reach the upper levels.
- Modern City has multiple layers of play: ground-level, mid-level and upper level areas so more children can enjoy active play together.
- Sensory rich ground-level play activities are built into the X-Frame to encourage fine and gross motor skill development and to foster scientific and social discovery.
- The design of Modern City is intended to attract attention of children and families. It also creates open sight lines so parents and children can see one another and interact during play.
- Spinners and climbing discs are at transfer height to create comfortable access. Multiple ground level activities and a transferable slide make Modern City accessible for children of all abilities.

POWERSCAPE

GameTime's premier 5" play system for ultra-tough durability.

EVERYTHING YOU WANT FROM A PLAY SYSTEM

- 5" diameter uprights available in aluminum or galvanized steel
- Choose from an extensive offering of exclusive components and signature products
- Lifetime limited warranty on uprights, posts and hardware
- NEW Tru-Loc® offers streamlined connections with 50% less hardware for easier construction and maintenance
- Largest decks in the industry and slipresistant Tuff Clad™ deck coatings for increased footing
- Entry archways to help direct traffic and prevent inadvertent falls
- Tough, baked-on powder coat finish
- Exclusive Direct bolt technology
- IPEMA certified

THE TRU-LOC ADVANTAGE

Our patented Tru-Loc® is far superior to the average "clamp around" system!

- Next generation direct bolt features elegant, innovative engineering
- Connection offers sleeker lines and cleaner designs
- Tru-Loc® Panel Connector is ASTM/EN/CSA compliant
- Smooth "kid-friendly" connection point, no rough edges
- Connections are concealed within the sleeve, no exposed hardware

INSTALLATION EXCELLENCE

Our manufacturer-specific training course is unique and is acknowledged in the industry as a program that should be a model for all.

INSTALLERS WHO SHARE OUR VISION

We want to make sure our installers know safety regulations, industry standards, and how they apply when installing equipment. It is important to us that your installation process goes smoothly, and that everything is done to our exacting specifications. It isn't enough to send our installers to a third party certification program. We want to meet them, teach them, and make sure they know how to install products. All playground equipment is different, and we want to ensure that when they learn how to put a play structure together, they are training on one of ours.

CERTIFICATION MATTERS

GameTime's exclusive Certified Installer Training course has a two-part curriculum. First attendees learn about installation in a hands-on lab where they assemble play structures under the watchful eyes of our on-staff professionals. They learn about new products, modifications, and now industry information. They are also instructed on CPSC, ASTM, and industry regulations in relation to our products and proper installation. They learn how to properly locate and drill ground hole,

recognize and avoid underground utilities, and use the tools needed to ensure an accurate.

The course also includes a lecture series, with focuses on risk management, insurance and many other topics that will give installers the knowledge and skills to make your playground everything you expect it to be. By completing our training, we can have the confidence that no matter where they are in the US, all of our playgrounds are being installed correctly, expertly, and to the exacting standards we maintain throughout the process.

Upon completion of the course our installers sign a contract that we share with our sales force, so that when scheduling an installation our representatives know who to choose to get the job done right. This manufacturer specific training course is unique to GameTime alone, and is acknowledged in the industry as a program that should be a model for all. It's just one more thing that sets GameTime apart, and one more reason you should trust us to be your playground company.

MAINTENANCE

Our comprehensive guide will help you maintain your playground.

IMPORTANCE OF MAINTENANCE

Designing and building a GameTime playground is an important first step in creating play opportunities that enrich the lives of children and the community in which they live. Once the playground is open, however, it is equally important to perform regular inspections and maintenance to ensure your investment, and the benefits it represents, is protected.

The National Recreation and Parks Association's Certified Playground Safety Inspection Course estimates that nearly 40% of all playground injuries occur sure to improper or neglected maintenance. To help you create an inspection and maintenance program for your playground GameTime developed a comprehensive Playground Maintenance Guide to help you maintain and protect your playground.

CUSTOMIZED MAINTENANCE KIT

We provide a customized maintenance kit with every play system. Each kit includes:

- Touch up paint customized to your selected color palette to touch up nicks and scratches cause by wear and tear and/or vandalism
- Graffiti Remover designer to remove unwanted paint from plastic and metal without damaging the finish underneath
- Customized toolkit specifically for the bolts, fittings, and connections on your play system
- Instruction manual with easy-to-read assembly instructions for every component on your system

GameTime's per occurrence insurance policy is one of the strongest in the industry. By definition, a Per Occurrence policy provides coverage for an accident that occurred during the term of the policy, even if the policy is subsequently changed or terminated. This is superior to a Claims Made policy, which does not provide such coverage. The certificate pictured is for informational purposes only, and may not be current. A copy of the current certificate is available on request.
