That same inspiration has driven 90 years of innovation, including the introductions of the first fiberglass slide (1963), the 2 foot Mega Tower® (2000s), and the Avalanche Inclusive Slide (2015). Our latest advance, the Extreme Generation adventure playground, delivers challenging physical events for kids seeking extreme play. Its design brings play to new heights, with innovative, fully-enclosed skyways that provide elaborate rope-course-inspired activities far above ground, safely adding an element of perceived risk to any play space. This never-ending dedication to innovation is the reason why, even after more than 90 years, Miracle's legacy remains focused on building yours.
