Subject: Citadel Security Group
Insurance Rate/Premium Increases

To Whom It May Concern:

OneDigital is the current broker for Citadel Security Group (CSG) on their Workers Compensation and Auto Insurance coverage. We are also were the broker for those policies last year, as well as for the General Liability and Excess Liability coverages. As you may be aware, the insurance marketplace is in a "hard" market currently. As such, it is commonplace to see large rate increases on renewals for these insurance coverages. Further, some industries, such as security guards are seeing even more increases than other industries. This is mostly due to the increase in the claims that the Security Industry is facing. While Citadel's loss history is positive, unfortunately they are not immune to the large rate increases that insurance carriers are giving on renewals.

Below is a summary of the Current and Prior premiums for the coverages that we place on behalf of Citadel. As you will see, there have been some drastic premium increases.

Line of Coverage	2023-2024	2022-2023
Workers Compensation	\$167,347	\$133,307
Auto Insurance	\$165,286	\$87,675
General Liability	Other Broker	\$121,424
Excess Liability	Other Broker	\$71,629

Please let me know if you have any questions.

Sincerely,

- 4.4.4.** The security officers assigned to the 2022 JUCO Tournament will be deployed as follows:
- 4.4.4.1. Night Security**
- Private Security will provide one officer to monitor activity at the ballpark from 2100 hours through 0700 hours beginning on Friday, May 27, 2022 and

continuing throughout the duration of the tournament. This position will no longer be needed after the final championship game is completed. This security officer's responsibility will include the vigilant observation of the area for any criminal activity such as theft, trespass or criminal mischief. Any suspicious activity should be reported to the Grand Junction Police Department as soon as possible.

Private Security will be issued a police radio for use during this assignment. This security post will have a radio call sign on the Grand Junction Police Department's primary radio frequency of "Security One". At the beginning of the security officer's shift, it will be their responsibility to notify dispatch they are on duty. The terminology to be used is "Security One is on duty". At 0700 hours the security officer should call off duty utilizing similar terminology.

Dispatch may periodically check on the security officer's status by saying over the air "Security One, radio check". If the security officer is ok, they should respond by saying "Security One, Code 4".

If a problem is observed or the security officer needs assistance, they should use the issued radio to call for assistance. The proper way of talking on the radio would be to initiate the contact by saying "Security One". Once dispatch acknowledges the call, the security officer should clearly and concisely state in plain English the problem and wait for instructions from dispatch or a patrol supervisor. Please be as brief as possible as available airtime is very limited.

Dispatch and Communication

Our 24 hour, 7 days a week, Dispatch Center will offer office-to-field communication ability to all personnel in the field and an alternative to concerns, which are not immediate or are routine in nature. All concerns are analyzed via metrics with the solutions or pending concerns addressed via professional forum for future proactive management measures. This allows for nearly instant action to ensure the needs of our clients are met in a timely manner and with confirmation. This also allows unprecedented follow-up of any incident or emergency call made from the field and offers our officers immediate assistance to respond to issues that are not a police emergency. Our project team will be available to be contacted 24/7 for all key-stake holders and officers assigned to the contract.

Emergency "Ramp Up" Coverage

Our organization was built on providing our clients with on-call availability they can rely on. In the past year Citadel Security provided over 25,000 hours of services required with less than a 24-hour notice. Citadel Security can provide our clients with additional security officers with the ability to deploy with short notice. This flexibility has allowed us to support JUCO, in past years, with additional officers to cover needed positions during game days as well as additional coverage overnights.

Incident and Activity Reporting

Track Tik Guard Tour module enables us to take an all-encompassing look at our security operations and develop a strategy that maximizes the value you deliver to stakeholders.

Working with our stakeholders, we identify their most valuable assets and tailor your guard tour accordingly. Define your checkpoints based on this analysis to make sure we are covering your customer's priorities and define the actions required at each point. Track Tik allows you to define what happens at each checkpoint, including logging, displaying a message, opening a report form, asking exception questions, or triggering an incident alert

TRACK TIK

Track Tik's incident reporting capabilities make it easier than ever for your security personnel to compile accurate reports. Set up customized form and sub form templates and link these to predefined incident severity levels and incident types. This helps ensure established incident response protocols are closely followed and helps guide your officers to provide the reporting information needed per incident type and severity. You can further reinforce your response rules by incorporating required actions as part of your reporting process
