## KRAIG ANDREWS

## GRAND JUNCTION CITY COUNCIL

Thank you for the opportunity to apply for the District E City council seat.

As a resident of the Grand Valley for the past 25 years I believe I have a great blend of experience and connections throughout our valley that I can put to good use as an added asset to the council.

As I look at the makeup of the current Council I see a diverse group of men and women. Diverse as they are, I believe I will add another layer of understanding and knowledge that is unique in its own right. I have over 14 yrs. of construction experience. I have seen the ebb and flow of this valley through feast and famine.

I have had the benefit of working with our local Dept. of Energy on the Cheney site, our airport in various projects, along with in both commercial and residential construction over the years. I believe these experiences will be a benefit to the council by providing another view point in which to make decisions as we help move this Valley forward.

I strive to be an active member of my community. I believe that I can change the world around by simply striving for a positive impact in the lives around me. Currently I am a member of multiple community boards. To include: being a Diplomat with the Grand Junction Chamber where I work to recruit new members and attend Ribbon cuttings along with multiple networking events. I work with and volunteer my time with

multiple non-profits as well. One such is FHFH (Farmers & Hunters Feeding Hungry). A new non-profit to the Western slope that asks hunters to donate part of their wild game harvest to help feed those in need. In our first year we had over 200 lbs. of meat donated to the Catholic Outreach soup kitchen. As you can see, community involvement is extremely important to me.

In closing, I'd like to thank you for your time and consideration as you review my application. I look forward to the next step in this process!
