Grand Junction Planning Commission

Regular Session

Item #

Meeting Date: October 4, 2022

Presented By: Kristen Ashbeck, Principal Planner/CDBG Admin

Department: Community Development

Submitted By:

Information

SUBJECT:

Consider a request for a Certificate of Appropriateness to replace roof shingles on an accessory structure located at 428 North 7th Street.

RECOMMENDATION:

Staff recommends approval of the request.

EXECUTIVE SUMMARY:

The property at 428 North 7th Street is a Contributing Structure in the North Seventh Street Historic Residential District (District) known historically as the Allsion House. The house was constructed in 1900. The property includes a primary residence and two outbuildings. The home and one of the outbuildings presently have composite shingle roofs. The owners propose to replace the wooden shake shingles on the other outbuilding with composite shingles to match the other two buildings on the site.

BACKGROUND OR DETAILED INFORMATION:

The Applicants, Jeffrey and Melodee Bergin, have owned the home at 428 North 7th Street (just north of the First Baptist Church) since 2014 and have continued to restore and upgrade the property since their purchase. The home and one of the outbuildings presently have composite shingle roof material that is gray in color. The second outbuilding has a wooden shake shingle roof that is in need of replacement. The owners propose to replace the shingles on the outbuilding with the same composite product as that on the house and other outbuilding and are seeking approval of a Certificate of Appropriateness in order to do so. Refer to the current photograph of the house and proposed product information provided by the Applicant. No other alterations to the home or property are proposed at this time.

ANALYSIS

1. Zoning and Development Code. There are no Zoning and Development Code regulations that apply to the roof material replacement proposal.

2. North Seventh Street Historic Residential District Guidelines and Standards.

Per Section 26.08.040, the property at 428 North 7th Street is a Contributing Structure in the District. The Guidelines and Standards include one standard that applies to contributing properties only which is stated below.

Section 26.24.090 (b) Standards – Roof forms and materials

(1) Materials on a new roof or replacement roof should be similar to materials found on roofs in the District.

The replacement of the shingles on the outbuilding with the same material as currently exists on the home and other outbuilding is similar to materials found on roofs in the District. This standard has been met.

FINDINGS OF FACT AND RECOMMENDATION

After reviewing the 428 North 7th Street roof shingle replacement application, file number COA-2022-617 for a Certificate of Appropriateness to replace the roof shingles on one of the outbuildings with the same material as presently exists on the home and another outbuilding, staff makes the following findings of fact and conclusions:

1. The proposed replacement of roof shingles meets the applicable standard of the North Seventh Street Historic Residential District Guidelines and Standards.

SUGGESTED MOTION:

Mr. Chairman, on item COA-2022-617, an application for a Certificate of Appropriateness for proposed replacement of roof shingles on an outbuilding on the property at 428 North 7th Street, I move we approve the proposal as presented.
