SUBJECT: Sole Source Narrative for MedEng Bomb Suit

Since the inception of the Grand Junction Police Department Bomb Squad, MedEng EOD bomb suits and helmets have been used. The MedEng company is located in Ottawa, Ontario Canada and services all of the United States with their bomb suits. MedEng has outstanding customer service and is very prompt in bringing several sizes of bomb suits for us to try on whenever we request a fitting. Every Public Safety/Military Bomb Squad in the Front Range area and the Hazardous Devices School in Huntsville, Alabama uses MedEng bomb suits. They are the industry standard bomb suit and the MedEng name is well known across the United States.

There is one other manufacturer of bomb suits and that is Morgan Advanced Materials and they are located in Coventry, United Kingdom. Morgan Advanced Materials primarily services British Special Forces and has a few bomb suits in the United States. The Grand Junction Police Department Bomb Squad has not had any contact with this company for any reason.

I would recommend we remain with MedEng bomb suits as the current bomb technicians are familiar with the donning/doffing procedures of the bomb suit and all related accessories that are attached to our current MedEng bomb suits.
