REGULAR AGENDA

Contract for Canyon View Park Pavement Reconstruction

The existing asphalt pavement in Canyon View Park has begun to exhibit significant distress, indicating it has reached the end of its useful life cycle and requires replacement.

This project will include the construction of approximately 34,405 square yards of 3" asphalt pavement, 15,000 linear feet of pavement striping and removal of the existing pavement while allowing the park to remain open and accessible for all users by phasing the work schedule.

Public Works Director Trenton Prall presented this item.

Discussion included the parking areas are 10 to 25 years old, the existing asphalt is not as thick as roads, the area has a high water table, chip/sealing is not the best option for parking lots, there was a high incidence of “cut through” traffic due to previous road construction, this has been a lower priority project that has been bumped, completion of this project will not delay the Redlands bridge project, this was not considered as a self-performance project, the City is not able to perform asphalt overlay work efficiently, and

that only one bid was received for this project.

The public comment period opened at 6:20 p.m.

The public comment period closed at 6:20 p.m.

Consider Funding Allocations for the 2023 Community Development Block Grant Program Year, and Setting a Public Hearing for Adoption of the 2023 Annual Action Plan for July 19, 2023

City Council considered which activities and programs to fund for the Community Development Block Grant (CDBG) 2023 Program Year. The City will receive \$388,985 for the 2023 Program Year that will begin once the 2023 Annual Action Plan has been completed and funds have been released by the Department of Housing and Urban Development. In addition, unexpended funds from a previous program year in the amount of \$28,443 will be reallocated with the 2023 Program Year funds.

Principal Planner/CDBG Administrator Kristen Ashbeck presented this item.

Discussion included praise for streamlining the administrative process, about 20% of this year's funds will be used toward plan administration due to transition training, this funding will complete the Palmer Street/Highway 50 sidewalk section, all CDBG funding can be used for capital projects however the City made a policy decision to use some for non-profit organizations, and the Mother Theresa Place request was for the City water tap and sewer fees.

The public hearing opened at 6:32 p.m.

Grand Valley Catholic Outreach Director of Development and Communications Beverly Lampley explained they did not have final numbers for Mother Theresa Place, so the amount requested was estimated.

The public hearing closed at 6:34 p.m.
