

Purchasing Division

ADDENDUM NO. 4

DATE: June 17, 2024
FROM: City of Grand Junction Purchasing Division
TO: All Offerors
RE: Purdy Mesa Flowline Replacement IFB-5431-24-DD

Offerors responding to the above referenced solicitation are hereby instructed that the requirements have been clarified, modified, superseded, and supplemented as to this date as hereinafter described.

Please make note of the following clarifications:

1. The City inadvertently posted an incorrect Bid Schedule in addendum 3 for this project. Therefore, the timeline will be amended to allow all bidders to recalculate their bids to the correct bid schedule. Line Items 27, 29, 42 & 47 should be 120 days, NOT 60 days. Please use the attached revised bid schedule when posting your bid to BidNet.

Revised Submittal Deadline for Proposals July 2, 2024 1:00 PM

Bid Opening Purdy Mesa Flowline Replacement

Revised City Council Approval Date July 17, 2024

Revised Notice of Award and Contract Execution July 19, 2024

Revised Bonding and Insurance Cert Due July 31, 2024

2. Question: There has been the addition of “pipe bell joint restraints” shown on the plans. There were not mentioned or called out previously to the revised plan sheets. This will require more than 70 restraints to accomplish what is shown. They are expensive and we wish to know, will they be provided by the City as other items called out in Addendum #2, or will they need to be procured by the contractor as stated in 3.4 of the project specifications?

Answer: The City will be providing the bell restraints.

The original solicitation for the project noted above is amended as noted. All other conditions of the subject remain the same.

Respectfully,

Dolly Daniels, Senior Buyer
City of Grand Junction, Colorado

Revised Bid Schedule: Purdy Mesa Flowline - Addendum 4

Item No.	CDOT, City Ref.	Description	Quantity	Units	Unit Price	Total Price
1	103.15	Imported Bedding and Haunch Materials (Type A) (Crushed Rock) (Includes haul and disposal of unsuitable excavated material) (Includes furnishing and placement of cutoff walls every 200' per Section 103.10)	2,100.	Ton	\$ _____	\$ _____
