

## **One Riverfront Subcommittee updates for August 12, 2024 meeting**

### ORF Trails Completion Committee Notes

July 2, 2024 - The team met with the County and consultant to discuss the alternatives analysis, reviewed a draft memo of the analysis, and the upcoming public event to present the trail alternatives and analysis. Also reviewed the consultant's website for the project: <https://inputcentral.com/riverfront-trail>.

July 31, 2024 - Public open house for alternative routes at Clifton Library 5-7p. Well attended by the public. Public comment is still open until August 18th on the website: <https://inputcentral.com/riverfront-trail>

#### Other items:

- David Varner has made initial contact with property owners from whom we'd need an easement to access the Clifton Water property. Clifton water supports multiple routes for the trail through their property. However two of the property owners contacted by David have indicated that they would not support a trail easement. The southernmost owner has concerns about property access to the south (animals equipment), which may be mitigated with appropriate infrastructure.

ORF Marketing and Education Partnerships (MEP) Committee Notes – noting to report
