

ADDENDUM NO. 2

Date: June 11, 2025

From: City of Grand Junction Purchasing Division

To: All Bidders

RE: *One (1) New 1-1/2 Ton Dual Rear Wheel 4x4 Extended-Cab Truck with Utility Bed and Under-Hood Air Compressor (IFB-5695-25-KF)*

Bidders responding to the above-referenced solicitation are hereby advised that certain requirements have been **clarified, modified, supplemented, or superseded** as of the date of this Addendum, as outlined below.

Please take note of the following clarifications:

1. **Q:** The solicitation calls for a VR140 from VMAC. As far as I am aware, this is not an under-deck option. There is either a "VR40" or a "VR150". Depending on your needs with the compressor, can you tell me which you would prefer?

A: The City does not have a specific preference between VMAC compressor models, provided the proposed unit meets or exceeds the performance requirements outlined in the solicitation. If you are proposing an alternative model or system, such as the VR40 or VR150, please clearly note any deviations on the Section IV – Specification/Compliance Form, along with supporting details to demonstrate equivalency.

This addendum amends the original solicitation as described above. All other terms and conditions of the solicitation remain unchanged.

Proposers must acknowledge receipt of this addendum by completing the acknowledgment section in **Section V – Solicitation Bid Form**.

Thank you for your attention to this matter.

Respectfully,

A handwritten signature in blue ink, appearing to read "K. Franklin".

Kathleen Franklin
