DESTRUCTION DATE: NONE

A D D E N D U M N O . 2

THIS ADDENDUM made and entered into this 13th day of JANUARY, 1986, by and between the City of Grand Junction and Mesa County, hereinafter referred to as the Client, and ARIX, A Professional Corporation, hereinafter referred to as the Consultant.

WITNESSETH:

WHEREAS the above parties have entered into an Agreement for Professional Services dated May 2, 1984, and amended July 22, 1985, providing for performance by the Consultant of certain engineering services in connection with updating the Grand Junction and Mesa County Joint Sewage System Facilities Plan; and

WHEREAS the scope of services of the original contract was reduced from \$23,902 to \$8,007 to reflect changes in the local economy while still fulfilling special condition 5 of EPA Grant C080337-260; providing a status report on the new Persigo Wash Wastewater Treatment Plant; evaluating the potential use of the old West Side Plant; and proposing impact items the City/County should look at when reviewing a major development outside the 201 boundary; and

WHEREAS the scope of services of Addendum No. 2 was reduced from \$15,895 to \$13,900 to reflect the lack of data base available to develop an interceptor sewer model; and

WHEREAS the parties now desire to modify the Agreement to provide for ongoing engineering assistance.

IT IS HEREBY AGREED by the parties hereto that Article 2.1 of said Agreement shall be amended to provide the following provisions:

Article 2.1.6 It is important that the City/County develop a better understanding of the nature of flows derived from the various sanitation and metro districts. We will assist the City staff as to which manholes should have a permanent flow monitoring system to identify flows developed by each district. As part of this effort we will provide a standard design and a cost estimate for these permanent flow monitoring stations, if requested by the City/County.

Article 2.1.7 Assist the City/County staff in revising and updating the sewer rate computer program, as requested.

Article 5.1 Shall be amended to include the following provisions:

Services described in Article 2.1.6 and 2.1.7 shall be remunerated based on the following rates:

Senior Engineer	\$50.00/hr.
Project Engineer	35.00/hr.
Drafter	25.50/hr.
Secretary	20.00/hr.
Computer Time	10.00/hr.
Xerox Copies	.10/ea.

ALL OTHER PROVISIONS of the Agreement dated May 2, 1984, and amended July 22, 1985, shall remain in effect.

IN WITNESS WHEREOF, the parties hereto have executed the Agreement the day and year first written above.
