5-2-1 Drainage Authority Regular Board Meeting February 24, 2010

Mesa County Courthouse 544 Rood Avenue, Training Room B, Grand Junction, Colorado 3:00 – 5:00 pm

AGENDA

Board Roll Call

Adopt Agenda

Consent Agenda

The Consent Agenda is intended to allow the Board to spend its time on more complex items. These items are generally perceived as non-controversial and can be approved by a single motion. Any member of the public or any Board Member may ask that an item be removed from the Consent Agenda for individual consideration. The Chairman will ask if there is anyone present who has objection to such procedure as to certain items. All items not removed from the consent section will then be approved. A member of the Board may vote no on specific items without asking that they be removed from the consent section for full discussion. Any item that is removed from the consent agenda will be placed at the end of the regular agenda.

- 1. Minutes
- 2. Financial Reports

End of Consent Agenda

Discussion Items

- 3. Comment letter to EPA regarding proposed rulemaking
- 4. 5-2-1 Drainage Authority asset disposal

Called to Order

Chairman Walker called the meeting to order at 3:00 p.m. Roll was called and a quorum declared with no Mesa County or City of Grand Junction voting member present.

Review and Adoption of the Agenda:

Motion to adopt the agenda: Chairman Walker

Seconded: Director Bowman

Motion passed with voice vote of 3-0

Consent Agenda:

- 1. Agenda Item 1 Review and adopt minutes of the December 30, 2009, Regular Meeting of the 5-2-1 Drainage Authority Board Meeting
- 2. Agenda Item 2 Financial Reports

Minutes

There were three minor changes to the December 30, 2009 minutes – Jim Shanks

- Page 2 Motion to adopt Consent Agenda change from Chairman Todd and Chairman Bowman to Director Todd and Director Bowman.
- Page 4 Remove: Is it in the BMP?
 Add: Issue deferred to Manager for recommendation.
- Page 2 Remove: declined Mesa County employment Leave: Manager will receive severance package.

Financial Reports

Overview of Financials - Jim Shanks

- 1. Expenses for the 5-2-1 Drainage Authority will be minimal-City of Grand Junction will manage most expenses.
- 2. Savings and checking accounts reconciled with last month statements
- 3. American National Bank Credit card processing fee for December
- 4. Home Loan & Investment CPACK policy renewal for 2010.
- 5. KJCT TV 8 PSA's 10/19/09 thru 12/20/09
- 6. Xerox Capital December copier lease and copy charges. Copier lease has been canceled.
- 7. Qwest Payment for December phone service Have a \$600 disconnect fee for phone lines fee-see if attorney can negotiate
- 8. Westcrete Cache, LLC January lease and utilities
- 9. Revenue and expenses for training stay with the 5-2-1 Drainage Authority as per the budget
- 10. Mesa County is compiling financial documentation for the unaccounted \$125,000 discrepancy and should have something for the next meeting
- 11.The City of Grand Junction prepared an invoice for payment for \$50,000 from 5-2-1 Drainage Authority for the first quarter installment. A check will be prepared for signatures at the next board meeting.
- 12. The board asked that there be no abbreviations of titles on checks

Motion passed for adoption of Consent Agenda: Director Bowman Seconded: Director Mulder Motion passed with voice vote of 3-0

End of Consent Agenda

Overview of 5-2-1 Drainage Authority set up - Jim shanks

- 1. Currently the 5-2-1 Drainage Authority is managed by Jim Shanks, Mary Sparks, Administrative Assistant, and Mark Barslund, Inspector.
- 2. City of Grand Junction has many resources of expertise available such as IT Department, GIS Mapping, Finance and Attorneys.
- 3. Manager Shanks is working on a contract to provide consultant services to the City of Grand Junction.
- 4. The 5-2-1 Drainage Authority office is on the second floor at City Hall in Public Works where Manager Shanks has an office.

- 5. The hotline and regular phone number for the 5-2-1 Drainage Authority has been set up on its own phone line with a unique ring tone.
- 6. Working to update the website
- 7. Post 5-2-1 Drainage Authority signage on the office door.
- 8. Maintain the 5-2-1 Drainage Authority identity.
- 9. Trent Prall, TAC Member for City of Grand Junction will fill in for Manager Shanks in his absence from February 1 through February 12, 2010.
- 10. Exploring option for inspections by other City Inspectors
- 11. Implement 5-2-1 permitting into new permitting system with all information available in one spot and goal is to have the system in place by the end of this year.

Director Mulder asked how hotline calls are being handled. 5-2-1 is responsible to forward the illicit discharge and good housekeeping calls to the respective agencies. 5-2-1 will then audit follow up responses.

Action Items

Amended Agenda Item 3

Set Annual Meeting for March 24, 2010

Open Public Hearing

Board elections

Meeting will be at Mesa County Courthouse, 544 Rood Avenue, Multi-purpose Room

Motion passed to set Annual Meeting for March 24, 2010: Chairman Walker

Seconded: Director Mulder

Motion passed with voice vote of 3-0

Amended Agenda Item 4

Lease termination

Letter prepared with 6 month notice – notice given by February 1. Give Broker key to the office

Amended Agenda Item 5

5-2-1 Drainage Authority assets

Continue to store furniture and inventory at the office Need estimated costs associated to the assets on the inventory list Vehicles are stored at City shops-see no need to keep vehicles

Paying for space anyway-no hurry to move inventory. Evaluate and discuss what to do with assets at next meeting.

Motion passed to send lease termination letter: Director Mulder

Seconded: Director Bowman

Motion passed with voice vote of 3-0

Amended Agenda Item 6

Department of Local Governments budget message

Will send Federal Express budget message to Department of Local Affairs (DOLA) on Thursday, January 27, 2010

Motion passed to send Department of Local Governments budget message: Director Mulder Seconded: Director Bowman Motion passed with voice vote of 3-0

Amended Agenda Item 7

Board Meeting Frequency

Continue to have monthly board meetings with the next scheduled for February 24.

Amended Agenda Item 8

Insurance Coverage

Update with Jamie Hamilton from Home Loan & Investments and prorate coverage as needed.

Amended Agenda Item 9

2009 Audit

Have money in the 5-2-1 Drainage Authority 2010 budget to contract with the auditor used from past year

Amended Agenda Item 10

Managers Report

Public Education: Kristin Winn the City of Grand Junction Public Information Coordinator for Public Works will be working on the public education program for 5-2-1 Drainage Authority. Cobb and Associates, Inc. will be taking a look at what they could offer as a consulting firm for public education and advertising. Director Mulder would like a report by the next board meeting.

Training: The next scheduled Inspectors classes are scheduled for April 6, 7, 8, 9 and tentatively scheduled training in July. The Colorado Stormwater Council may fund up to \$3,000 for training and help with recruitment.

Hotline: Since 5-2-1 now holds the MS4 permit, it is the auditor for hotline calls. Need a system or process for follow up on permits and hotline calls. The City of Grand Junction is working on a new system that has the capability to house all permits in one spot linked to the GIS base system for all to view. This process should be operable by the end of this year.

Website: Working to update and revise the 5-2-1 Drainage Authority website.

Operational Summary (Jan 4-22): Active permits-118, Plan reviews-3, Inspections-1, Compliance Advisory-1, Permits issued-0

Colorado Storm Water Council/MS4 Meeting: Jim Shanks and TAC Member Trent Prall attended the Colorado Stormwater Council on January 20th.

Stormwater Council-EPA draft regulations and where it's going; construction storm water either retain off site or infiltrated on site.

CDPHE Meeting / Jim Shanks and TAC Member Trent Prall met with Nathan Moore of CDPHE on January 20th.

- MS4 permits- IGA's where all signed, all sent to Colorado Department of Public Health & Environment
- Sent termination letters for the existing permits.
- Address need for addition inspectors. Revise program description to increase inspectors.

Other issues

- Stormwater Management Manual (SWMM) update needs to be completed this quarter
- Orchard Mesa PDM Grant application was submitted and accepted on December 1, 2009
- City of Grand Junction will prepare a proposal for city engineering to redesign the Bosley Wash detention pond for the board's consideration at the March 24' 2010 meeting

Tom Kenyon emphasized the importance of accountability in following through on hotline calls to maintain credibility.

The next regular 5-2-1 Drainage Authority Board Meeting will be held February 24, 2010 at 3:00 p.m. at the Mesa County Courthouse in Training Room B.

Adjourn at 4:42 p.m.

5-2-1 Drainage Authority AGENDA ITEM COVER SHEET

AGENDA ITEM COVER SHEET
TITLE OF ITEM: Agenda Item 3 - Comment letter to EPA regarding proposed rulemaking
RECOMMENDED BOARD ACTION: X Approve by motion Approve by Resolution Deny by Motion Continue to next meeting
BACKGROUND/DISCUSSION: The US Environmental Protection Agency has initiated a rulemaking to amend its stormwater program. One of their proposed changes is to use "Stormwater control measures that harvest, infiltrate, and evapotransporate stormwater,, to reduce the volume of pollutant loading of small storms." Final action is anticipated in late 2012.
ATTACHMENTS: Draft Comment letter, USEPA Listening Session slides.
APPLICABILITY TO AUTHORITY GOALS AND OBJECTIVES
RECOMMENDED FORM OF MOTION

Approve

The 5-2-1 Drainage Authority takes water quality very seriously. Established Best Management Practices (BMPs) for stormwater management are leading to positive impacts on water quality in Mesa County and in the State of Colorado. The 5-2-1 Drainage Authority respectfully requests that the EPA works as a partner with local and state governments to make the regulations that are currently in place work better versus pursuing wholesale stormwater regulation changes. Through this approach, all parties can work to support stormwater regulations that are both environmentally and economically sustainable and sound.

Sincerely,

David R. Walker, Chairman 5-2-1 Drainage Authority

Ce: City of Grand Junction
Mesa County
City of Fruita
Town of Palisade
Grand Valley Drainage District

1. Expand the universe of regulated discharges beyond urbanized area

- What is the best way to expand the universe of regulated discharges beyond Jrbanized Area?
- Is there an appropriate jurisdictional boundary for permit coverage, such as municipality or county?
- •What criteria could be used to identify areas (e.g., % of impervious cover)?
 - Should States decide the areas to include?
- discharges from particular types or sizes of development that are not covered by In addition to expanding area should EPA consider regulating stormwater an MS4 permit?

3. Develop a single set of consistent requirements for all regulated MS4s

- Many Phase I & II MS4s address issues that are similar, but the regulatory requirements are different.
- Should EPA apply the requirements to all MS4s?
- Should EPA apply 6 minimum measures to Phase Is?
- control discharges from industrial facilities. Should this Phase I MS4s are required to implement a program to requirement be extended to all MS4s?
- What additional requirements should be considered?

How to Give Public Comments During the Webcast

- Submit a request to speak through the Question box at the bottom of the console (include first name, last name, and organization).
- You will receive a private message through the Webcast console with the call-in number about 10-15 minutes before your speaking time.
- Call the number and give the event number (187267) your name and affiliation to the operator. 3
- The operator will place you on hold for a short time while the person before you finishes giving their comments.
- The operator will introduce you and you may give your public comment (up to 3 5

NOTE: You can only make verbal comments during this webcast. Please do not use the question box to submit written comments.

1-800-833-2812 (US domestic) 1-415-829-5211 (international) Webcast Event Number: 187267

Submit written comments to www.regulations.gov, Docket ID No. EPA-HQ-OW-2009-0817 by February 26, 2010

How to Give Public Comments During the Webcast

- Submit a request to speak through the Question box at the bottom of the console (include first name, last name, and organization).
- You will receive a private message through the Webcast console with the call-in number about 10-15 minutes before your speaking time.
- Call the number and give the event number (187267) your name and affiliation to the operator.
- The operator will place you on hold for a short time while the person before you finishes giving their comments.
- The operator will introduce you and you may give your public comment (up to 3 minutes). 5

NOTE: You can only make verbal comments during this webcast. Please do not use the question box to submit written comments.

Briefing Outline

- Background on Federal Stormwater Program
- Stormwater Challenges
- The National Research Council (NRC) Report
- Stormwater Rulemaking Schedule
- Preliminary Considerations for Rulemaking

Stormwater Challenges

Much progress has been made; however, significant challenges remain to protect water bodies from impact of stormwater discharges

Urban stormwater is the primary source of water quality impairment:

- ➤ 13% of all rivers and streams
- ➤ 18% of all lakes
- ➤ 32% of all estuaries

KEY NRC Report Recommendations

- waterbody impairment would be to use flow or a surrogate, like "A straightforward way to regulate stormwater contributions to impervious cover, as a measure of stormwater loading
- "Efforts to reduce stormwater flow will automatically achieve responsible for additional erosion and sedimentation that reductions in pollutant loading. Moreover, flow is itself adversely impacts surface water quality."
- evapotranspirate stormwater are critical to reducing the volume "Stormwater control measures that harvest, infiltrate, and and pollutant loading of small storms."

Rain Gardens

EPA Initiated Stormwater Rulemaking

- Primary impetus protect waterbodies from stormwater impact of urbanization
- Oct. 30, 2009 Federal Register (FR) notice announcing EPA's intent to distribute questionnaires (Information Collection Request (ICR)) seeking data to inform the rulemaking from the following groups:
- Owners, operators, developers, and contractors of developed sites
- Owners or operators of MS4s
- States and territories
- Jan. Mar. 2010 Listening Sessions input on preliminary rulemaking considerations (FR Notice published Dec. 28, 2009)
- Spring 2010 EPA expects to publish a final FR ICR notice with 30-day comment period and distribute questionnaires in the summer
- Late 2011 EPA expects to propose a rule to be published in the FR for public comment
- Late 2012 EPA expects to take final action

Input on Stormwater Practices

- Design, performance, operation and maintenance, capital and lifetime cost for stormwater retention practices used to control discharges from new development, redevelopment and retrofit.
- Cost comparisons of different stormwater management approaches for specific sites.
- Monitoring information that may have been collected to show the impacts of stormwater control measures on water quality and/or flow rates in the receiving waterbody.

Meeting Date:February 24, 2010	_XAction Item
	Discussion Item
	Report

5-2-1 Drainage Authority

AGENDA ITEM COVER SHEET
TITLE OF ITEM: Agenda Item 4 – Discussion of 5-2-1 Drainage Authority Assets
RECOMMENDED BOARD ACTION: X Approve by motion Deny by Motion Continue to next meeting
BACKGROUND/DISCUSSION: Discuss the disposition of Authority assets including vehicles, office equipment and furniture. The City/County combine their surplus auctions and contract with Buster Cattles Auction service. They plan an auction in April. The City of Fruita would like to use the ArcEditor software. They will have to pay the \$1500 annual fee. Grand Valley Drainage District would like to keep the digital camera. The Town of Palisade is interested in any surplus equipment that we might have. Eric Mende offered to purchase the Manager's computer system for \$650. The attached list shows a number of items that the City of GJ has been using to support Board meetings and public education/information efforts.
ATTACHMENTS: 2009 end of year inventory list with estimated value and proposed disposition. Eric Mende letter.
APPLICABILITY TO AUTHORITY GOALS AND OBJECTIVES

Grand Valley Drainage District

Keep these items to use for Board meetings, financial documents and public education City of Fruita wants to use this license (they พูปู่ pay the \$1500 annual fee) January 29, 2010

Mr. Jim Shanks, Manager 521 Drainage Authority P.O. Box 3389 Grand Junction, Colorado 81502

Dear Mr. Shanks:

This is an unsolicited offer to purchase certain surplus equipment owned by the Authority, as discussed at the Board meeting on January 27, 2010. Basically, this offer is for the used laptop and accessories in the Inspectors office, and the used printer that is in the Mangers office. If the offer is acceptable to you and the Board, please have the Board chairman sign below, and I will coordinate with you for payment and receipt of the equipment.

Purchase Agreement:

For good and valuable consideration, as specified below, Eric W. Mende agrees to purchase the following surplus equipment from the 521 Drainage Authority, as-is, where-is, with no warranties express or implied:

- 1 Laptop computer, Gateway -143X, including installed software and software discs, and including the following accessories: 3M Laptop riser, computer docking station, Targus Mobile Power Inverter, mouse, and laptop messenger bag.
- 1 19" flat panel external monitor for laptop.
- 1 Brother MFC6490CW inkjet printer/fax/scanner/copier

Total purchase price for the above equipment shall be \$650 USD (Six Hundred and Fifty Dollars and no cents), payable in cash.

This offer is valid through February 26, 2010.

AGENDA ITEM COVER SHEET
TITLE OF ITEM: Agenda Item 5 – City of Grand Junction proposal for redesign of Bosley Wash
RECOMMENDED BOARD ACTION: X Approve by motion Deny by Motion Continue to next meeting
BACKGROUND/DISCUSSION: Mesa County was unable to acquire a parcel of private property that would accommodate the proposed Bosley Wash detention basin. Mesa County discussed a solution which includes a property trade. This trade will necessitate the reconfiguration of the detention basin and access road. The City of Grand Junction has provided a proposal to perform this design work for the actual labor costs. There is a possibility that half of this cost will be reimbursed by the Colorado Water Conservation Board if the work is completed by the end of May, 2010.
ATTACHMENTS: Scope of Services, Project Schedule, Cost Estimate, Fee Schedule
APPLICABILITY TO AUTHORITY GOALS AND OBJECTIVES Meet the Authority's goal of completing regional drainage improvement within a basin study area.

Exh	ibit A – Fee Schedule (attached)	

Proposal for Bosley Wash Flood Protection Re-Design Project

SECTION 1.0: Project Understanding

It is the City of Grand Junction Public Works & Planning Department's understanding that 1.1 the 5-2-1 Authority (Authority) has received a design for a storm water detention facility located along the Bosley Wash drainage north of the I-70 corridor. The current design has been completed and submitted to the Authority and Division of Water Resources (DWR) for review. A property owner that holds title to the land where the proposed detention facility is to be located has indicated to the Authority that it would like to reconfigure the pond to allow for more efficient use of the property. This proposal will address re-configuration of the detention facility. We understand that the hydrologic and hydraulic design has been completed and has been reviewed by the Division of Water Resources, and that no further hydrologic evaluation will be required, and that previous submittals to the DWR are available in electronic format (Word 2007, Excel 2007, and Auto CADD version 2010). We also understand that there is adequate survey information available to allow for reconfiguration of the detention facility without the need for further survey work. A site for stockpiling of excess material generated during this project has been identified by the Authority. We understand that the stockpile site is located approximately 1/2 mile from the project site. Negotiation with the property owner (s) affected by this proposed re-design will be the responsibility of the Authority and will not be accounted for with this proposal.

SECTION 2.0: Scope of Services

2.1 Survey Data Collection: This proposal includes some survey effort in the event that there is not adequate survey information available to complete the re-design effort. If this component is not needed it may be removed from the scope of services and cost proposal.

In the event additional survey information is required, we assume that there is adequate survey control available to complete additional topographic mapping for the re-design area. If sufficient survey control information is not available there will be additional work components added to complete transfer of survey control datum to the site.

- **Re-design of the Detention Facility:** Re-design of the detention facility will be mainly focused on horizontal and vertical reconfiguration of the structure. This effort will also include a final design report for submittal to DWR that will be an addendum to the previously submitted report. We have not included effort for re-design of the basic structural configuration of the dam.
- 2.3 Coordination with the Division of Water Resources, Ute Water & CDOT: This effort will include two meetings with DWR, Ute Water and CDOT. DWR has been involved with this project regarding the previous design. This effort assumes that DWR has some familiarity with the hydrologic study and design characteristics that will be consistent with this re-design effort. CDOT coordination is anticipated to be strictly a cooperative effort, with the understanding that CDOT would not have a jurisdictional role in this project.

- 2.4 Address DWR / Ute Water / CDOT Review Comments: We anticipate that there may be comments on final design that will need to be addressed in order to receive DWR approval. We assume that CDOT comments will be minimal and that mitigation of any concerns will likely be covered with the DWR review.
- **2.5** Prepare Construction Documents: Construction documents will be provided in the form of standard plan sets (size D 24" x 36" and 11" x 17" reduced size), and bid documents in hard copy and electronic format (word 2007).

SECTION 3.0: Project Schedule

3.1 The proposed schedule is based on notification of award occurring on or prior to March 1, 2010.

March 8, 2010 March 15 - 19, 2010** On Site Meeting and Tour Survey information collected**

March 22, 2010

Complete re-design

April 6, 2010 April 26, 2010 April 30, 2010 Submit to DWR & CDOT for review Address DWR & CDOT Comments Complete construction documents

SECTION 4.0: Estimate of Cost

4.1. We have included costs in the amount of \$2,100 for survey work needed to complete the re-design of the detention facility. We have also included a review fee from the DWR that is conservative at \$2,500, and may be reduced by the DWR. These costs may be deleted or reduced if there is adequate survey information to complete the work to redesign the facility to the north-west of the current design, and pending DWR review fees. Total cost for this proposal is \$12,218.00. This cost is based on an assumed hourly effort and is a not to exceed cost.

End

^{**} this step may be eliminated if adequate survey information is available for re-design efforts. The schedule will remain the same due to previous committals of staff time for CADD and design effort.

5-2-1 Drainage Authority AGENDA ITEM COVER SHEET

TITLE OF ITEM:	TLE OF ITEM: Agenda Item 7 – Manager's Report		
RECOMMENDED	BOARD ACTION:	Approve by motion Deny by Motion	Approve by Resolution Continue to next meeting

BACKGROUND/DISCUSSION: Jan 28 – Feb 18 - Jim Shanks was out of town from Jan 31 until Feb 14. During that time 5-2-1 business was handled by Trent Prall, Mary Sparks and Mark Barslund. The big news was the notice from Nathan Moore from CDPHE that the MS4 permit was issued to the 5-2-1 Drainage Authority to be effective on 2/1/10. This umbrella permit replaces the individual permits that 4 of the 5 5-2-1 members held individually. The individual permits were terminated. Each of the 4 permit holders will be required to submit an annual report for 2009. The 2010 report will be prepared by the 5-2-1 Drainage Authority for the entire year even though it only covers 11 of the 12 months.

The 5-2-1 issued 2 stormwater construction permits:

- 1. 2010-GJ-001 I-70B & 31 Road Sewer Replacement to MA Concrete
- 2. 2010-GJ-002 GVIC Canal Lining 28 1/4 Road to Patterson

A notice of violation was issued on 2/11 for the University Village Apartments project located on 17th Street at the Grand Valley Canal.

Two complaints were received:

- 1. 2/9 2932 B ½ Road This complaint was referred to the City of Grand Junction who determined that it was an irrigation lateral problem between two property owners. The City of GJ and Orchard Mesa Irrigation Company met with the complainant on site.
- 2. 2/18 City Market 24 Road and Market Street Mud tracking on adjacent public streets. This is a permitted site. The 5-2-1 inspector was dispatched to the site. He had previously discussed this issue with the contractor and also attended the pre-construction meeting. A follow up inspection will be made to determine if the problem has been corrected.
