The Mesa County Fire Chief's Association has been working with Matrix Consulting to complete a fire services study. The purpose of the study is to examine how the fire service currently exists and operates within Mesa County and to make recommendations on system enhancements and changes that are likely to benefit the fire service and citizens in the future. Ten of the 11 fire departments in Mesa County are participating in the study. Over the last three months there have been three public meetings and a public survey to collect feedback for the study.

The final presentation will be held Tuesday, September 18, at Grand Junction City Hall Auditorium from 7:00-9:00pm.

Meeting is open to the media and the public and will review the final recommendations of the study. Please let me know if you have any questions.
