

ORDINANCE NO. 37.

An Ordinance Granting Certain Privileges to the Colorado Telephone Company in the City of Grand Junction, State of Colorado.

Be it Ordained by the City Council of the City of Grand Junction, Colorado:

Section 1. That from and after the date of passage of this ordinance, and for the full and complete period of twenty years, The Colorado Telephone Company, a corporation organized and existing under the laws of the State of Colorado, shall have and it is hereby granted

the right, privilege and license to erect in the City of Grand Junction such poles, wires and fixtures and construct such underground conduits as may be necessary for the operation of a telephone exchange in said city.

Section 2. That the right and privilege is hereby granted to the Colorado Telephone Company upon, along or under all streets and alleys and public ways and to all extensions of same, provided that all lines shall be constructed in the alleys, except where the use of the same is impracticable, for the placing of poles, posts, underground conduits, manholes, cables and wires and other necessary fixtures for maintaining and operating said telephone exchange and lines connected therewith. Providing, however, that no pole or poles, or other fixtures shall be placed where the same will interfere with any gas lamp, electric light or water hydrant, nor shall any such pole or other fixtures be placed in any street except at the outer edge of the sidewalk or in any alley except close to the line of the lot abutting on said alley, and then in such a manner as not to interfere with vehicles passing through such alley, or with other necessary use of the same.

Section 3. The privilege and license hereby granted and the construction of the said telephone lines shall at all times be subject to such police power, reasonable dominion and regulations as the City Council of said city may by resolution or ordinance hereafter provide, and the City Council of said city reserves to itself the right to require said Telephone Company, at any time, to elevate or lower the wires connected therewith at any place in said city to such height above the surface of the street as it may deem necessary, which right may be exercised by said City Council by resolution, prescribing the height of the lowest wires above the surface of the street, in any specified locality.

Section 4. In consideration of the granting of said franchise the said Company agrees to furnish during the life of the same, to the said city, one instrument free of charge for the use of the fire department to be placed in the fire department room of the City Hall, and also agrees to allow the said city to string wire on the poles of said Company free of charge for a fire alarm system whenever the same shall be established, such work to be done under the supervision of the said Company.

Approved this 12th day of June, A. D. 1894.

W. S. WALLACE,

President of Council.
