

Grand Junction, Colorado  
May 20, 1953

The City Council of the City of Grand Junction met in regular session at 7:30 P. M. Councilmen present and answering roll call were McCormick, Harper, Severson, Walt, Wright, Lowe, and President Colescott. Also present were City Attorney Groves, City Manager Toyne and Blanche Stringer. City Clerk Tomlinson was absent.

It was moved by Councilman Harper and seconded by Councilman Severson that the minutes of the regular meeting held May 6, 1953 be approved as written. Motion carried.

GRANT SCHIESSWOHL LAYBACK CURB. Mr. R. H. Schiesswohl, who owns the Phillips "66" Service Station at 6th and Colorado, had presented a request for a layback curb on Colorado at the last meeting with action postponed to this meeting in order to give the Council a chance to see this property. This would necessitate removing two parking meters. City Manager Toyne gave a comprehensive report of a survey which had been conducted over the past ten days on the use of the meters involved and the whole block between 5th and 6th Streets on Colorado Avenue which showed that these meters were vacant 56% of the time. The Council desired further information but Mr. Schiesswohl was not present.

It was moved by Councilman Walt that Mr. Schiesswohl be granted a layback curb limited to the space of one meter. Councilman McCormick, with the consent of Councilman Walt, amended the motion to include that the driveway to the west of the meters involved be closed and a meter installed there. This motion was seconded, as amended, by Councilman Wright. Motion carried.

GRANT EXCHANGE CLUB USE OF LINCOLN PARK FOR RODEO. The request of the Exchange Club of Grand Junction to use the facilities at Lincoln Park for a rodeo July 13, 14 and 15, 1953 which had been tabled at the last meeting was again brought up. Mr. Ralph Stocker, Park Superintendent, was present and presented to the Council a report of a trip he had made to Durango, Colo. to see the stadium where such rodeos had been held. He made a comparison of the different soil and climatic conditions for turf culture.

Mr. Gene Hanson, Director of Recreation, was present and told the Council of the recreation schedule which was planned for the use of park facilities. He stated that the Eagles Baseball Club had a game contracted for July 15th, one of the days of the rodeo, which if not played would cost the Club \$150. Also, that an out-of-state Softball Tournament would start two days after the rodeo and he questioned if the field could be reconditioned in that time. He also stressed the fact that the Park is used by Mesa College, the High School, Junior High and grade schools for athletics such as football, track, baseball, etc., by the Recreation Commission for many of their activities, and that putting sand on the grass would not make the field good for football and other athletics.

A delegation was present from the Exchange Club. Mr. Wm. B. Chick, President, presented photostatic copies of letters from other cities which had allowed the rodeo to show; also a diagram of the proposed layout for the use of the Park. Mr. Swanny Kerby, who is in charge of putting on the rodeo, spoke outlining how the Club proposed to handle the stock, and stated that every precaution would be taken to prevent damage to the park and a layer of sand would be put on the grass. Mr. Geo. Murch and Mr. Robt. Rait spoke of the Club's desire to make this an annual event with the purpose of promoting the Western Slope and to start a fund for the construction of an Auditorium.

After considerable discussion, it was moved by Councilman Wright and seconded by Councilman McCormick that if the Exchange Club would carry what is determined as an adequate amount of liability insurance, the amount to be determined by the City Attorney, and will, immediately after the performance of the rodeo, get the area in shape, filling all post holes, etc., in time for the next activity that their request be granted for the use of the facilities of Lincoln Park for a rodeo. Roll was called on the motion with the following results:

Councilmen voting "AYE:" Severson, Wright, Lowe and President Colescott  
Councilmen voting "NAY:" McCormick, Harper and Walt

A majority of Councilmen voting "AYE," the President declared the motion carried. City Manager Toyne then asked the Council about the costs the Club would pay and it was agreed that the Club would pay the usual 10% plus the lights.

City Clerk

A written remonstrance against the making of proposed improvements on Grand Avenue from 15th to 19th Streets had been filed which was signed by the owners of the greater percentage of the frontage to be assessed for said improvements. Mr. John Rice, Mr. M. E. McCallister, and Mr. Oliver, all property owners in the 1700 and 1800 block on Grand Avenue were present and stated the majority of the property owners in the 1700 and 1800 blocks desired to be included in this improvement district. It was explained to them that they could be included in this district by paying cash for the improvements which they felt they could not do. Mr. Rice withdrew their request when it was explained there was no legal way to include these two blocks in the district and any further delay would make it impossible to get the district constructed this year.

CREATE WATER POSITION. City Manager Toyne suggested the Council consider the employment of additional personnel to collect, coordinate and analyze all existing data on all potential water available to the City and develop an over-all master plan. He elaborated on this problem by pointing out that at the present time, it is not definitely known that the Collbran Project will come into being and even if so, the date on which the water could flow into our mains would be unknown. Several engineering firms have worked on various phases of the water problem and Frank Merrill recently

made a report on Kannah Creek. All of this is of little value unless it can be coordinated and analyzed and from this study develop a master plan to use in case of any emergency. Councilman Walt stated he felt the members who had been on the Council and who had been working with the water problem had the same thing in mind and that for the probable cost in connection with the large amounts considered in the Anderson deal, Hallenbeck, and Collbran Project, the cost of additional personnel would be justified.

The following Resolution was presented and read:

RESOLUTION  
CREATING OFFICE  
of  
WATER PRODUCTION ENGINEER

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GRAND JUNCTION that there is hereby created the position of WATER PRODUCTION ENGINEER OF SAID CITY. The Water Production Engineer shall be an engineer experienced in water development matters; his powers and duties shall be to investigate, and to report to the City Manager and City Council with respect to, sources, amounts and estimated costs of additional water and water facilities for the City of Grand Junction and any subjects incident thereto, to make recommendations with respect to such matters and to perform such other duties as may be assigned by the City Manager. The salary of the Water Production Engineer shall be a sum not in excess of \$570.00 per month. He shall file with the City Clerk a corporate surety bond in the amount of \$2,000 conditioned upon the true, honest and faithful performance of the duties of his office.

BE IT FURTHER RESOLVED that unappropriated funds in the amount of \$6,500.00 of the Water Department of the City of Grand Junction are hereby allocated to the W8 Water Shed Division of the Water Department for payment of salary and expenses of the Water Production Engineer.

It was moved by Councilman Walt and seconded by Councilman Harper that the City Attorney and City Manager look into this matter and see if an ordinance regulating the handling of gasoline should be made and report back to the Council. Motion carried.

Councilman Lowe suggested that the two members of the Council who are familiar with the safety rules and regulations pertaining to oil and gasoline should help the City Manager and City Attorney.

FISHING RODEO. Councilman Severson reported that he had presented the letter from the Better Fishing Inc. to the Recreation Commission and they advised that they would take over this project and work out the details.

GARBAGE. City Manager Toyne read a letter from Mr. Rex Phelps, who has the garbage contract, stating that it appears that the State of Colorado is taking steps to require that all garbage fed to hogs be cooked to eliminate a disease which is spreading from unknown sources though it is believed to come from raw pork in garbage. Mr. Phelps stated that the approximate additional cost to cook garbage to feed to hogs would be in the neighborhood of Four to Six Thousand Dollars depending upon how much used equipment can be used. He feels that there will probably be little time between the promulgation of the order requiring the processing of the garbage and the effective date of this order and for that reason would like to meet with the Council to consider the matter and if possible, work out a supplemental agreement.

CHAMBER OF COMMERCE. President Colescott asked Councilmen Walt, McCormick and Lowe to attend the Chamber of Commerce meetings to represent the City Council.

It was moved by Councilman Walt and duly seconded that the meeting adjourn. Motion carried.
