

GRAND JUNCTION, COLORADO MINUTES OF THE REGULAR MEETING OF THE CITY COUNCIL

OCTOBER 7, 1992

The City Council of the City of Grand Junction, Colorado, convened in regular session the 7th day of October, 1992 at 7:30 p.m. in the City/County Auditorium at City Hall. Those present were Jim Baughman, John Bennett, Bill Bessinger, Paul Nelson, Conner Shepherd, and President of the Council Reford Theobold. Councilman Bill McCurry was absent. Also present were City Manager Mark Achen, City Attorney Dan Wilson, and City Clerk Neva Lockhart.

Council President Theobold called the meeting to order and Councilman Paul Nelson led in the Pledge of Allegiance. The audience remained standing during the invocation by Rev. Jack Olsen, Columbus Evangelical Church.

PROCLAMATION DECLARING OCTOBER 15, 1992, AS "DAY IN COURT" IN THE CITY OF GRAND JUNCTION

PROCLAMATION DECLARING OCTOBER 4-11, 1992, AS "NATIONAL HOUSING WEEK" IN THE CITY OF GRAND JUNCTION

RECOGNITION OF CITY EMPLOYEES INVOLVED IN CLOTHING DRIVE

Certificates of appreciation were awarded to the following employees for their commitment to the recent clothing drive which was conducted by the City:

Randy McAninch, Parks Department

Mark Angelo, Police Department

Leslie Tucker, Visitors & Convention Bureau

June Ericksen, Administrative Services

APPOINTMENTS TO RIVERFRONT COMMISSION

Upon motion by Councilman Shepherd, seconded by Councilman Nelson and carried, Carol Hanna was appointed to fill the unexpired term of Ward Scott (expires July, 1994), on the Riverfront commission, and Carl Zimmerman and William D. Prakken were appointed to 3-year terms on the Riverfront Commission, contingent upon approval by the Mesa County Commissioners.

CONSENT ITEMS

Upon motion by Councilman Bennett, seconded by Councilman Bessinger and carried, the following Consent Items 1-6 were approved:

1. Approve the minutes of the Regular Meeting September 16, 1992

2. Award of Contract for City Hall Remodel - PA/DS - Delbert McClure Construction - \$31,200

There were two bidders on this project. Bids were as follows:

Delbert McClure Construction	\$31,200
Sun King Management Corporation	\$54,585
Architect's Estimate	\$34,138

This project, all in the North Wing of City Hall, provides for moving the lunch room to what is now the lower area storage area, creating space for two offices in the existing lunch room area, installing doors which meet ADA requirements in the basement corridor, bringing the basement corridor up to building standards (including HVAC) and making computer room modifications which will provide for storage of data processing supplies.

3. Authorize purchase of two (2) V-Box Salt Spreaders for the Streets Division which are scheduled for, and budgeted for, replacement in 1993

Bids were solicited from two companies for the purchase and installation of two V-Box Salt Spreaders. The low bid was submitted by the local company, West Park Truck Equipment, in the amount of \$10,100

4. Authorize purchase of 300,000 copies of the 1993 VCB Visitor Guide from A.B. Hirschfeld Press of Denver, for \$33,854

Bids were opened October 1, 1992, for the set-up, production and delivery of the full-color 1993 Visitor Guide. Eleven (11) invitation for bids were distributed; two (2) bids were received. The low bid was submitted by A.B. Hirschfeld Press in the amount of \$33,854. Hirschfeld printed the 1991 Visitor Guide.

5. Ratification of Amendment No. 1 to the Grant Agreement for Airport Improvement Program Project No. 3-08-0027-11 at the Walker Field Airport

This amendment changes the described airport development to add, "Instal airport signage and lighting controls."

6. Proposed Ordinance - Amending Article VIII, Section 17-108 of the Code of Ordinances, amending requirements for insurance on concrete contractors

Article VIII - Sidewalk and Curbing Contractors, of the Code of Ordinances requires any person performing concrete work with the City rights-of-way to be licensed and obtain a permit for any specific work. This ordinance would add the provision that the permitted for the work, or permittee's contractor, is to procure and maintain workers compensation and employers liability insurance in conformance with applicable statutes or requirements of the State of Colorado.

* * * END OF CONSENT CALENDAR * * *

* * * ITEMS NEEDING INDIVIDUAL CONSIDERATION * * *

AUTHORIZATION FOR EXPENDITURE OF \$18,832 IN LOTTERY FUNDS FOR THE CONSTRUCTION OF AN OUTDOOR BASKETBALL/VOLLEYBALL COURT COMPLEX AT THE NEW REDLANDS MIDDLE SCHOOL

The Parks and Recreation Advisory Board recommended the above item at their August meeting. The complex will be similar to the one that was cooperatively completed at West Middle School several years ago. School District 51 will fund \$28,832 and Hans Schmolt, an interested resident of the Ridges, will donate \$10,000. The facility will remain open for public use and all maintenance will be done by School District 51.

Upon motion by Councilman Bessinger, seconded by Councilman Nelson and carried with Councilman BAUGHMAN voting NO, the expenditure of \$18,832 in lottery funds for the construction of an outdoor basketball/volleyball court complex at the new Redlands Middle School was authorized.

PROPOSED ORDINANCE - PROVIDING FOR THE REGULATION OF THE RIVERFRONT PROPERTY AND TRAILS IN THE CITY OF GRAND JUNCTION - ADOPTION OF RULES AND REGULATIONS FOR THE RIVERFRONT TRAILS

Staff representatives of the Parks and Recreation Department, the Community Development Department, the Police Department and the City Attorney's office have held several meetings with representatives of the Mesa County Facilities Management Division, the Mesa County Sheriffs Office, Colorado State Parks and the Riverfront Commission. The goal of these meetings was to create an ordinance and uniform rules and regulations for use of the riverfront trail system that could be enforced by each of the jurisdictions governing sections of the trail.

The adoption of this ordinance will allow, on trail sections and adjoining City properties within the city limits, the enforcement of rules and regulations that are not specifically identified through an existing ordinance or are currently identified within the section addressing parks, yet need to be applied to trails which are not dedicated parks.

Upon motion by Councilman Bennett, seconded by Councilman

Bessinger and carried, the proposed ordinance was passed for publication and the Rules and Regulations for the Riverfront Trails were adopted.

RESOLUTION NO. 66-92 - ESTABLISHING A RECYCLED PRODUCT PROCUREMENT POLICY FOR THE CITY OF GRAND JUNCTION

The resolution establishes guidelines for the procurement of recycled, reusable, recyclable and remanufactured products for the operational needs of all city departments. The resolution establishes a dollar preference equal to 5% of the bid amount to each vendor that provides written certification of the content of recycled materials in their goods, supplies, equipment, materials and printing, as set forth in city bid specifications. The resolution also adopts the use of EPA guidelines, when available, to establish the allowable minimum percentage of recycled content to be eligible for the 5% preference.

Upon motion by Councilman Nelson, seconded by Councilman Bennett and carried by roll call vote, Resolution No. 66-92 was passed and adopted.

RESOLUTION NO. 67-92 APPROVING THE LAW ENFORCEMENT ASSISTANCE FUND (LEAF) GRANT CONTRACT FOR 1993

Upon motion by Councilman Bennett, seconded by Councilman Bessinger and carried by roll call vote, Resolution No. 67-92 was passed and adopted.

ORDINANCE NO. 2600 - BELLA VISTA #2 ANNEXATION, LOCATED NORTH OF G ROAD AND WEST OF 27 ROAD

A hearing was held after proper notice. There was no one present to speak. Upon motion by Councilman Shepherd, seconded by Councilman Baughman and carried by roll call vote, Ordinance No. 2600 was passed and adopted.

ORDINANCE NO. 2601 - ROUND HILL ANNEXATION, LOCATED NORTH OF HORIZON DRIVE AND EAST OF 7TH STREET

A hearing was held after proper notice. There was no one present to speak. Upon motion by Councilman Bennett, seconded by Councilman Bessinger and carried by roll call vote, Ordinance No. 2601 was passed and adopted.

ORDINANCE NO. 2602 - REZONE FROM RMF-64 TO PB ZONE AND FINAL PLAN FOR PROFESSIONAL OFFICES LOCATED AT 1401 N. FIRST STREET

A hearing was held after proper notice. There was no one present to speak. Upon motion by Councilman Bennett, seconded by Councilman Baughman and carried by roll call vote, Ordinance No. 2602 was passed and adopted.

ORDINANCE NO. 2603 - REZONE FROM B-3 TO RMF-32 AND FROM RMF-32 TO

B-3 PROPERTY LOCATED ON THE SOUTHEAST CORNER OF FIRST STREET AND BELFORD AVENUE

A hearing was held after proper notice. There was no one present to speak. Upon motion by Councilman Bessinger, seconded by Councilman Nelson and carried by roll call vote, Ordinance No. 2603 was passed and adopted.

ORDINANCE NO. 2604 - ZONE OF GRAND JUNCTION WEST ANNEXATION TO HEAVY COMMERCIAL (C-2) AND INDUSTRIAL (I-1) ZONES, LOCATED BETWEEN 22 AND 34-1/4 ROAD, SOUTH OF I-70, NORTH OF HIGHWAY 6 & 50

A hearing was held after proper notice. There was no one present to speak. Upon motion by Councilman Nelson, seconded by Councilman Bessinger and carried by roll call vote, Ordinance No. 2604 was passed and adopted.

ADJOURNMENT

Upon motion by Councilman Nelson, seconded by Councilman Bessinger and carried, the meeting was adjourned.

Neva B. Lockhart, CMC
City Clerk

RESOLUTION NO. 66-92

A RESOLUTION ESTABLISHING A RECYCLED PRODUCT PROCUREMENT POLICY BY THE CITY OF GRAND JUNCTION.

WHEREAS, the volume of material disposed of at area landfill(s) has been increasing annually, and

WHEREAS, sanitary landfill space is at a premium and is becoming increasingly difficult to site new landfills, and

WHEREAS, much of the material that enters the waste stream can be recycled, reused or incorporated in the manufacture of new products, and

WHEREAS, the city's participation in and promotion of recycling programs can significantly reduce the volume of material entering the waste stream thereby extending local landfill life expectancy and reducing expenses, and

WHEREAS, for recycling programs to be effective, markets must be developed for products that incorporate postconsumer materials in their manufacture, are reusable, or are designed to be recycled, and

NOW THEREFORE BE IT RESOLVED by the Council of the City of Grand Junction as follows:

That the City of Grand Junction Purchasing Manual dated July 15, 1992 is hereby amended by adding Section 18 to read as follows:

1. All City departments shall, whenever practicable, use recycled products, reusable products, recyclable products and/or remanufactured equipment/parts to meet their operational needs.
2. The Purchasing Department shall review specifications to insure there are no restrictions on the use of recycled materials, whenever feasible.
3. The City shall allow vendors that provide written certification of minimum content of recycled materials in goods, supplies, equipment, material and printing as set forth in the Invitation to Bid (IFB), Request for Proposal (RFP), Request for Quotation (RFQ), etc., a preference equal to 5% of the bid amount against any vendor that has not so certified. Percentage preference applies to recycled products, not to remanufactured or reusable.
4. When there is a tie for lowest responsible bidder, Purchasing may consider, as one factor in determining to whom to award the contract, which of the bids provides for the greatest weight of recycled content in the goods, supplies, equipment, material and printing, or such other measure of recycled content as may be set forth in the Invitation for Bids, Requests for Proposals, Requests for Quotations, etc.
5. Purchasing shall set forth a minimum percentage of recycled content for the goods, supplies, equipment, material and printing that must be certified by a vendor in order to qualify for the preference noted above.
6. For goods, supplies, equipment, material and printing for which the United States Environmental Protection Agency (EPA), has adopted procurement guidelines under the Resource Conservation and Recovery Act of 1976 (P.L. 94-580, 42 U.S.C. section 6901 et seq.) as amended, the minimum percentage of recycled content not to be less than is specified in such guidelines.
7. Purchasing shall review the recycled content specifications annually to consider increasing the percentage of recycled contents.
8. All City reports, letterhead and envelopes shall be printed on recycled paper bearing the recycling logo and the words "Printed on Recycled Paper."
9. Purchasing shall encourage city vendors, and professional organizations of which we are members, to use recycled and/or recyclable products in all marketing materials, and shipping and packaging materials.

PASSED AND ADOPTED this 7th day of October, 1992.

Recycling Position Paper

The City of Grand Junction, its officers and staff personnel, recognize the need for a comprehensive solid waste management plan which includes waste reduction, separating and collecting recyclable materials and composting organic materials. The success of such plans, however, depends on establishing markets for the recycled products . . . "closing the loop." Without such markets, municipalities like Grand Junction, may be unable to reduce the waste stream and will eventually require expanded landfill capacity. With such markets, communities can reduce their landfill needs along with reducing their demands on natural resources, and possibly profit from their abundance of recyclable materials.

Other factors come into play when we speak of landfills. Certainly, we are projecting increased disposal costs; but, the major factor here is that nothing degrades at the rate we would hope or would have believed to occur in our sanitary landfills. About two-thirds of the volume going into our landfill is technically degradable; however, very little degradation actually occurs in a landfill. Recent studies where municipal landfills were excavated in various parts of the county have revealed startling facts. Many items we would have believed long decomposed were well preserved and identifiable after a decade -- and in some cases, for over fifty years. Conditions for biodegradation (breakdown of a substance by living organisms) and photodegradation (breakdown of a substance by sunlight) simply do not exist in sanitary landfills.

Only through source reduction and recycling are we going to solve the municipal solid waste problem. Collecting recyclables is only the first phase of recycling. While collection is necessary, it is no more important than the other two integral phases of recycling -- manufacturing and purchasing. In fact, collection-only programs have led many communities into market gluts of various products. And, gluts cause volatile product markets.

The markets for recycled products have, in fact, proven to be highly volatile. As a major player in the economy, governments at

all levels can greatly assist in reducing the volatility of these markets, and establishing a stable market for recycled products. The "buying power" of federal, state and local governments amounts to nearly one trillion dollars a year for goods and services. As a major player in the local economy it is the intention of the City to advocate and support this ideal with the commitment to buy recycled products, whenever practicable and in the best interest of our citizens.

In order to promote this comprehensive approach to waste management, the City of Grand Junction will seek to maximize waste reduction, materials reuse and recycling in its own day-to-day operations. To implement and encourage this program, the City adopts the following policy:

RECYCLED PRODUCTS PROCUREMENT POLICY

PURPOSE

The purpose of this policy shall be to promote the use by City offices of products with recycled content and recyclable products by establishing a preferential program.

BACKGROUND

The City of Grand Junction has made a commitment to promoting recycling and to reducing the solid waste being disposed of in regional landfills. The success of local recycling collection programs is contingent upon the availability of markets to absorb the materials collected. This policy by the City will lend support to local recycling programs by impacting secondary materials markets.

The City of Grand Junction has demonstrated its pledge to promote the procurement of recycled products. In 1990, City council passed a resolution endorsing the procurement of recycled paper by the City of Grand Junction. Council's goal of 50% recycled paper product purchases per annum by 1995 has already been reached. The city's central warehouse distributes over 30 different varieties of recycled paper stock with an emphasis on post-consumer waste content. The city's Parks Department recently purchased playground equipment made from 20,000 recycled plastic milk jugs. The city's streets have been maintained with recycled asphalt for years. Fleet Maintenance recycles anti-freeze, Freon, and parts cleaning solvent; automotive oil is sold for rerefining.

POLICIES

All City departments shall, whenever practicable, use recycled products, reusable products, recyclable products and/or remanufactured equipment/parts to meet their operational needs.

The Purchasing Department shall review specifications to insure there are no restrictions on the use of recycled materials,

whenever feasible.

The City shall allow vendors that provide written certification of minimum content of recycled materials in goods, supplies, equipment, material and printing as set forth in the Invitation to Bid (IFB), Request for Proposal (RFP), Request for Quotation (RFQ) etc., a preference equal to 5% of the bid amount against any vendor that has not so certified. Percentage preference applies to recycled products, not to remanufactured or reusable.

When there is a tie for lowest responsible bidder, Purchasing may consider, as one factor in determining to whom to award the contract, which of the bids provides for the greatest weight of recycled content in the goods, supplies, equipment, material and printing, or such other measure of recycled content as may be set forth in the Invitation for Bids, Requests for Proposals, Request for Quotations, etc.

Purchasing shall set forth a minimum percentage of recycled content for the goods, supplies, equipment, material and printing that must be certified by a vendor in order to qualify for the preference noted above.

For goods, supplies, equipment, material and printing for which the United States Environmental Protection Agency (EPA), has adopted procurement guidelines under the Resource Conservation and Recovery Act of 1976 (P.L. 94-580, 42 U.S.C. section 6901 et seq.), as amended, the minimum percentage of recycled content not to be less than is specified in such guidelines.

Purchasing shall review the recycled content specifications annually to consider increasing the percentage of recycled contents.

All City reports, letterhead and envelopes shall be printed on recycled paper bearing the recycling logo and the words "Printed on Recycled Paper."

Purchasing shall encourage city vendors to use recycled and/or recyclable products in all marketing materials, and shipping and packaging materials.

DEFINITIONS

The following shall be the standard specifications of terms used in conjunction with this policy:

Cotton Fiber: minimum of 25% cellulose fiber from lint cotton, cotton liners and cotton or linen cloth cuttings.

Mill Broke: paper that is part of the manufacturing process and as such is specifically excluded from the term "recovered material."

Postconsumer Material: any product that has served its intended

and use and which has been separated from the solid waste stream.

Practicable: shall have the following meanings: 1) performance in accord with applicable specifications, 2) available at a reasonable price, 3) available in a reasonable time, and 4) maintain a satisfactory level of competition.

Preconsumer Waste: paper products that are part of the manufacturing process that have not left the manufacturer's location and are reused as part of the normal manufacturing process.

Precycling: reducing the amount of waste initially.

Recovered Material: material recovered or diverted from the solid waste stream but does not include material or by-products from the commonly reused within a manufacturing process, as mill broke.

Recyclable Product: a product which after its intended use can be demonstrably and economically diverted from the solid waste stream for use as a raw material in the manufacture of another product.

Recyclable Content: goods, supplies, equipment, material and printing containing postconsumer material.

Recycling: collection, separation, recovery and sale and/or re-use of material which would otherwise be disposed of as municipal waste or separated as fuel for operation of energy.

Reusable: a product that can be used several times for the intended end use before being discarded, (washable, refillable, etc.)

Secondary Waste Paper Materials: fragments of products or finished products of the manufacturing process which have converted virgin resource into a commodity of real economic value and includes postconsumer waste.

Solid Waste: all putrescible and non-putrescible solid and semi-solid waste normally disposed of in either landfills or incinerated.

Waste Paper: includes all postconsumer waste as well as two types of preconsumer waste; 1) dry paper and paperboard generated after the completion of the papermaking process, and 2) obsolete stock of papers.

EXEMPTIONS

A department head has the authority to waive the use of recycled goods, supplies, equipment, material and printing when the recycled goods, supplies, equipment, material and printing, 1) do not conform adequately to their intended end use, or, 2) are not available at the quality required for a given use. When required,

the department head will be required to provide the City Manager with written justification for such exemptions.

Only through a spirit of teamwork and cooperation by all concerned will we attain the goals contained herein. All employees are encouraged to communicate with Purchasing regarding the availability of recycled or remanufactured products that can possibly replace virgin products currently in use.

The recycling industry is awash with new and creative ideas. Numerous new recycled products are entering the marketplace every year. By networking with other environmentally conscious communities, by utilizing the services of professional organizations, by staying abreast of market developments, by buying recycled, the City of Grand Junction will lead the community in "closing the loop." Our goal is waste management; our purpose is maintaining the community's quality of life for our children's children.

GRANT PROPOSAL (Part B)

The Grand Junction Police Department proposes to engage in DUI detection/apprehension measures by staffing a specially marked DUI patrol car with one off-duty officer working overtime an average of one night per week, four hours per night, for 52 weeks. This equals 208 hours per year. Officers will also be assigned to at least one sobriety check point which would require an additional 40 hours and an additional 40 hours to increase DUI enforcement on those evenings adversely impacted by local special events. This would allow us to balance our weekly DUI Enforcement efforts with those currently being conducted on weekend nights.

Our goal is to meet the arrest level of 492 established in 1991. This level was reached while we were experiencing an increase in calls for service and a reduction in the number of uniformed officers available. We expect to have new officers hired and trained prior to spring of 1993 which provides us a reasonable opportunity to meet that goal.

We also propose to send our departmental accident reconstructionist to two refresher courses at the Institute for Police Technology and Management in Florida. The department accident reconstructionist is the primary investigator for all serious injury or fatal accidents occurring in the City of Grand Junction and is assigned all vehicular homicide/assault cases. He also acts as a resource for other local agencies including the Colorado State Patrol, the Colorado National Monument rangers, as well as the Fruita and Palisade police departments. He has been certified several times as an expert witness in our municipal court as well as county and district courts. To date, all vehicular homicide/assault cases he has investigated have resulted in a 100% conviction rate with sentences given in the aggravated range between 12-18 years. The reconstructionist has not been to a formalized school since 1989. It is imperative that this expertise be maintained to sustain the credibility of the reconstructionist. The reconstructionist has taken all the accident investigation series through the Traffic Institute at Northwestern University. We propose to send the reconstructionist to two advanced accident investigation courses at IPTM. This will balance out the training he has received and prepare him to meet challenges put to him in court by other outside investigators striving to get their client out of a conviction. The cost for this training is an estimate including the price of air fare, per diem, lodging, and course fees.

This project will be administered by the evening station commander of the police department. The station commander holds the rank of lieutenant and is directly responsible for the activities of the

uniformed patrol force during the periods of 1900-0700 hours.

INTRODUCTION

The City of Grand Junction, located in Mesa County, is the largest city in Western Colorado with a population of about 32,000. Grand Junction continues to experience population and business growth in 1992. This is over five years of continuous growth in and around Grand Junction. Long range estimates indicate continued economic and population growth for the next several years. Current trends have met or exceeded growth expectations.

Grand Junction continues to be a hub for business and recreational activity in Western Colorado. The service population of Grand Junction frequently exceeds 100,000 when tourist, college, and business traffic is included in the population base. This grant application represents the third year of a three year funding period.

RESOLUTION NO. 67-92

A RESOLUTION APPROVING THE LAW ENFORCEMENT ASSISTANCE FUND (LEAF) CONTRACT L-12-93

WHEREAS, the City of Grand Junction, on behalf of the Grand Junction Police Department, has submitted an application to the Colorado Department of Transportation, Office of Transportation Safety for funding a LEAF project for the prevention of drunken driving and the enforcement of laws pertaining to the driving under the influence of alcohol or other drugs, pursuant to § 43-4-401 through 404, CRS and to LEAF Rules at 2CCR 602.1; and

WHEREAS, the State has approved the application and has prepared LEAF Contract L-12-93 which requires the City of Grand Junction to provide certain matching funds for this project; and

WHEREAS, the City of Grand Junction has the authority and responsibility to fund the Grand Junction Police Department and to sign contracts on behalf of the Grand Junction Police Department; and

WHEREAS, LEAF Contract L-12-93, which requires the local agency to provide matching funds in the amount of \$3,134.00, has been presented to the City of Grand Junction for approval; and

WHEREAS, a resolution by the City of Grand Junction formally approving a LEAF Contract, obligating the required local match funds, and authorizing the proper signature to be affixed to the Contract indicating such approval is required by the State of Colorado.

NOW, THEREFORE, BE IT RESOLVED, the City of Grand Junction hereby approves the term, conditions and obligations of LEAF Contract L-12-93, obligates sufficient local funds to satisfy the local

funding requirements of the Contract, and hereby authorizes Reford C. Theobold, Mayor, to sign the LEAF Contract on behalf of the City of Grand Junction.

Reford C. Theobold, Mayor
