

CITY OF GRAND JUNCTION, COLORADO

ORDINANCE NO. 4640

AN ORDINANCE AMENDING SECTION 13.04.370 (d) OF THE GRAND JUNCTION MUNICIPAL CODE PERTAINING TO INDUSTRIAL PRETREATMENT REGULATIONS CONCERNING MASS-BASED LOCAL LIMITS

RECITALS:

The United States Environmental Protection Agency (USEPA) requires the City's Persigo Wastewater Treatment Facility to have an Industrial Pretreatment Program to prevent certain pollutants from entering the wastewater system. The pollutants of concern are those that can interfere with the operation of the wastewater treatment process, pass through the wastewater treatment system without adequate treatment or contaminate treatment plant biosolids.

The City's Wastewater and Industrial Pretreatment Regulations in Section 13.04.370 (d) of the Grand Junction Municipal Code (Code) is being amended to comply with federal Pretreatment requirements.

In compliance with the USEPA Pretreatment requirements and with USEPA approval, City staff has made the required revisions relating to Industrial Pretreatment to the Grand Junction Municipal Code and now requests that the City Council approve the proposed changes to the Code.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GRAND JUNCTION THAT:

Dear Ms. List:

The Environmental Protection Agency public noticed your request for a substantial modification of the City of Grand Junction's Pretreatment program on November 19, 2014, as required by 40 CFR Section 403.18. Our records indicate that no significant comments were received and that the modifications, as public noticed, have remained unchanged. The City of Grand Junction should evaluate and update its procedures or permits to ensure these adequately implement the program modification, as required in 40 CFR 403.8(f)(2).
