

2006 - 2007 Biennial Budget

Serving the Community Together

GOVERNMENT FINANCE OFFICERS ASSOCIATION

Distinguished Budget Presentation Award

PRESENTED TO

City of Grand Junction Colorado

For the Biennium Beginning

January 1, 2004

Presiden

Edward Harry han

Jeffrey R. Engr

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award of Distinguished Presentation to the City of Grand Junction for its biennial budget for the fiscal year beginning January 1, 2004.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communication device.

The City of Grand Junction's Biennial Budget document serves as the primary source of budget information for the City. This document contains appropriation documents and detailed information about the City's government, its budget, and the services it provides. It is designed to inform the public about the government of the City of Grand Junction and its current financial plan.

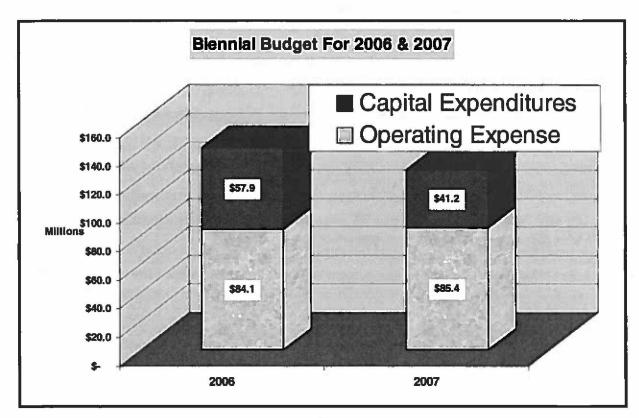

March 14, 2006

Honorable Mayor and Members of the City Council:

I am pleased to present to you the City Council adopted Biennial Budget for the two fiscal years 2006 and 2007. This budget represents the City of Grand Junction's continued commitment to the needs of the community, the provision of quality services and prudent fiscal management. The budget has been prepared in accordance with all applicable City Ordinances, State and Federal Laws and internal policies. Since 1990 each of the City's official budget documents have been reviewed for, and received, the Distinguished Budget Presentation Award from the Government Finance Officers Association of the United States and Canada. As part of our continuous improvement efforts, the 2006-2007 document includes enhancements from the previous report. Also, we have included our Performance Measurement worksheets that include primary goals and objectives of our organization.

I believe this document, as well as the "Budget In Brief," is an important means of communication with our citizens and taxpayers. This budget will serve as a policy and operations guide for City Council and staff as it represents the City's financial plan for 2006 and 2007.

As adopted by the City Council on December 21, 2005, the total budget for the year beginning January 1, 2006 is \$142 million. The budget for fiscal year 2007 totals \$126.6 million. The use of ten year financial models for each of the major funds continues to be an important tool used in the City's budget development process.

The following are just a few important indicators of the growth of service demand and the level of general economic activity taking place in our community over the last fourteen years. To a large extent, this activity drives the revenue projections and expenditure levels found in this budget.

Key Statistical Measures	1990	2004	% CHANGE	RATE OF ANNUAL GROWTH
SALES TAX LICENSES	1,933	3,700	91%	4.75%
LANE MILES OF STREETS	380	973	156%	6 95%
SQUARE MILES	14.8	33.7	128%	6.05%
POPULATION	29,081	47,100	62%	3 50%
DEVELOPMENT ACTIVITY	365	1,106	203%	8.24%
POLICE CALLS FOR SERVICE	29,163	53,908	85%	4.49%
NUMBER OF HOUSING UNITS	13,698	21,056	54%	3.12%
TRASH CUSTOMERS	9,375	13,188	4196	2.4796
AVERAGE GROWTH OF WORKLOAD I	NDICATORS	1990-2004		4.95%
FULL-TIME CITY EMPLOYEES	370	579	56.0%	3.25%

This document contains a wealth of information about the City's financial processes, policies and controls, together with revenue and expenditure summaries by fund, department, organization and category. The following section identifies the highlights of our financial and operating plan for the next two years.

Financial Highlights

- Fund balances are projected to decrease by \$33.2 million in 2006 and increase by \$3.6 million in 2007, which is a direct result of our commitment to ongoing capital improvements, especially the Riverside Parkway.
- Overall municipal services revenues are expected to be \$93.9 million in 2006, an increase of 9% over 2005, while 2007 is expected to grow to \$116.8 million, or 24%, over 2006.
- Operating costs for all municipal services before capital costs and debt service are expected to be \$67.2 million and \$68.6 million in 2006 and 2007 a 7.2% increase in 2006, and 2.1% increase in 2007.
- City Sales & Use Tax Revenue is expected to grow at a sustainable rate in the future, and is estimated at 5.7% in 2006 and 2007, while 2005 is expected to achieve a 6.3% growth rate.
- The budget includes an increase of 17 full-time positions in 2006, and 7 positions in 2007. Five positions are revenue self-supporting; 4 are reclassifications from part-time to full-time; 13 of the 24 are in the Police Department; 6 are due to development review.
- This budget fully funds our market driven pay plan with an estimated 2% in 2006, and 3% in 2007, together with the one-time market catch-up of 2.8% applied in 2006. An increase of 11% in health insurance rates is budgeted in 2006.

- Major capital spending will continue at very high levels in 2006 and 2007, at \$57.9 million, and \$41.2 million, respectively.
- We do not expect to realize an excess revenue position relative to TABOR revenue limits in either 2006 or 2007, except for property tax amounts which will grow significantly next year due to a 21% increase in assessed value.
- Utility rate increases are being proposed for 2006 and 2007 for water (2% each year), sewer (2.5% each year), solid
 waste (4% in 2007), and irrigation (3% in 2007). Also, Sewer Plant Investment fees are going up both years at \$250 per
 year, as planned.
- Three full-time positions at the Lincoln Park Golf Course are being eliminated or reduced below full-time, in the next two years in order to keep the operations in the black.
- ♦ General Fund revenues are expected to grow to \$48.9 million or 4.8% in 2006, and grow to \$51.6 million, or another 5.5% in 2007.
- Non-personnel operating costs of the General Fund will grow to \$14.1 million over the next two years, or 6% on average.
- ◆ Total operating costs in the General Fund are projected to increase 12% to \$47.2 million in 2006, and increase 1.0% to \$47.8 million in 2007. This average of 6.5% approximates our historic average.
- The General Fund uncommitted fund balance is expected to meet the minimum working capital of 16.7% in 2006, 2007, and beyond, as reflected in the General Fund long-range financial plan.

The talented and dedicated staff of the City of Grand Junction will continue to strive for improvements in the services we provide to the community. This can be achieved through employee involvement and training, the use of modern tools and equipment, and automated management information and communication systems. This two year budget supports recommendations from every department for improving the efficiency and effectiveness of our operations, while tracking our progress through performance measurement and other data gathering techniques. This budget addresses the City Council priorities for the next two years including transportation corridors such as the 29 Road project, the Big Pipe Stormwater Project, and the Riverside Parkway projects; emphasis on infill and redevelopment, affordable housing, beautification of entrances, and development of neighborhood organizations and identifying their needs.

While this budget emphasizes capital projects in the next two years, it also addresses the operating needs of individual departments to the extent resources were identified.

Preparation of this two year budget plan represents a significant effort on the part of Department Directors and their staff. Thanks to all who participated in this effort, especially Lanny Paulson and Sarah Lee. Thanks also to those employees who make spending decisions every day; their commitment to making the most of every taxpayer dollar is key to successful budgeting and financial management. The City Council approved resolution and ordinance adopting this budget can be found beginning on page 195.

Respectfully submitted,

Kelly Arnold City Manager

City of Grand Junction Strategic Plan Update

Summer ~ Fall, 2004

Background

The City of Grand Junction initiated the development of its long-range Strategic Plan in early 2002 to identify both long-term direction for the City, and shorter-term goals, objectives and action steps for the City organization. The Plan is intended to specifically build on, but not be limited by, the broad Grand Valley Vision 20/20 Plan.

The overriding commitment inherent in this Plan is the City's continued support of the strong services and programs residents expect from the City, and the superior service standards the City expects of itself.

Plan Development

In 2002, a Strategic Plan Team was formed composed of all seven members of the City Council, the City Manager, and Assistant City Managers, the City Attorney, and the City's senior staff. This team developed Strategic Issues and directions that would be critical to the City of Grand Junction during the next 10 years. The development of the original Plan included a review of approximately 20 plans from other organizations in the Valley, in order to identify common themes, administration of a statistically valid telephone survey of 435 residents, and nine neighborhood meetings to review the Plan directions, and ask for their response.

The final Plan was adopted by the City Council in January 2003, and included specific Action Steps to be accomplished during 2003, and 2004.

Solution: Balance of Character, Economy and Environment

Goals:

- Develop and maintain public and private sector partnerships which enhance economic partnerships.
- Emphasize neighborhood and area citizen-based planning. Adhere to plans once adopted, and emphasize high quality development.
- Continue to promote conservation, reuse and development of our resources.

- Put in place strategies that enhance the small town atmosphere of our community.
- Continue to provide exceptional services to all areas of our community as we continue to grow.

Solution: Efficient Transportation

Goals:

- Develop a strategy to gain Colorado Department of Transportation support for better local utilization of I-70 as a transportation corridor.
- Develop a long-term Master Road Plan, maximizing flexibility of the network.
- Encourage the RTC to pursue a stable revenue stream to fund the Grand Valley Transit system.
- Explore a wide range of funding options (including bonds) to accelerate road construction.
- Encourage coordination and development of air, rail, and surface transportation, both passenger and commercial/freight with providers of such services.
- Develop a strategy of implementation plan for major transportation corridors (e.g., Highway-50 Orchard Mesa, I-70B, Highway 340, North Avenue).

Solution: Open Spaces and Community Appearance

Goals:

- Develop and implement a plan for the beautification of Entrances to the City of Grand Junction.
- Continue to support the efforts that maintain the buffer Zones between Grand Junction, Palisade, and Fruita.
- Maintain active participation with other entities when Appropriate and/or implement identified opportunities with City properties to preserve open space in the Grand Valley.
- Re-evaluate the Parks Master Plan.
- Facilitate efforts that sustain the historic character of the community.
- Evaluate and redefine the problem and level of effort Required to manage weeds.

Solution: Responsible Young Citizens

Goals:

- Engage, listen and respond to youth.
- Continue to support community partnerships that promote positive behaviors in youth.
- Continue supporting opportunities for youth to become involved in community affairs.
- Support our youth council that is representative of all young citizens in our community.

Solution: Shelter and Housing That Are Adequate

Goals:

 Implement results of the Affordable Housing Forum with final adoption by participating partners of a common methodology to address housing issues throughout Mesa County.

Solution: Vital Neighborhoods

Goals:

- Adopt a plan to implement a neighborhood program.
- Foster a small town community atmosphere by promoting and strengthening the neighborhood program to provide a framework for friendly cooperation.
- Expand the partnerships and broaden the strategy for joint development of public facilities, including neighborhood parks.

CITY OF GRAND JUNCTION STATISTICAL REVIEW

Form of Government Council/City Manager

Population

City Proper 47,100 Urbanized 120,000 (est.) Average Growth Rate: 2.5%

Economic Trends

Grand Junction is the wholesale, manufacturing, and retail center of a territory covering 60,000 square miles. Its growing establishments answer many of the needs of the immensely rich trade territory. Added to normal industrial applications are construction, public services, and tourism.

Single family home sales in Grand Junction have gone from an average price of \$160,000 in 2003, to \$173,000 in 2006, an average annual increase of 9%. The per capita income in 2001 averaged \$25,366, and increased to \$32,170 in November 2004, across all occupations. Retail sales growth has averaged 9% the last ten years, and was 7.4% in 2005. Per capita retirement income in Mesa County is higher than the state and national averages.

Retail sales in Grand Junction continue to grow at a signifiant rate and reveals the City's vital role as a regional economic hub attracting shoppers from western Colorado and eastern Utah!

The Mesa County labor force has steadily increased from 69,129 in 2003, to 69,842 in 2006, and unemployment moved from 5.2% in 2003, to 4.8% in 2006.

State of Colorado
Hilltop Community Resources, Inc.
Grand Junction Regional Center
Halliburton

Mesa State College

A four-year state institution offering a full baccalaureate degree program, various Master's Degrees, transfers and vocational/technical offerings. Mesa State has an annual enrollment of around 5,800 students.

Two Rivers Convention Center

A multi-purpose center which facilitates the needs of any group from a two-person conference to a 2,000 person convention. An ideal location for trade shows, car shows, and other display type gatherings. Two Rivers has the capability of serving a full course dinner for up to 1,500. The remodel completed in 2001 added needed meeting space and trippled the kitchen size at a total cost of \$6 million.

National Attractions

The country's newest National Park, the Black Canyon of the Gunnison is an hour and a half drive due south of Grand Junction and offers visitors a spectacular canyon formed by centuries of natural water erosion. The Colorado National Monument on the West, Grand Mesa and the Uncompangre National Forest to the east and southwest, and Unaweep Canyon to the south, afford recreational and scenic variety.

Four miles west of Grand Junction is the Colorado National Monument. This 18,000-acre area is scenically and geologically breathtaking. Persistent erosion has produced corridor like canyons lined with sheer cliffs, towering monoliths, and unusual rock formations. Hiking, backpacking, picnicking, and camping (without reservations) are just a few of the favorite activities of visitors. Rim Rock Drive, the scenic 23-mile route across the monument, is also popular with bicycle enthusiasts.

Open year-round, the park's Visitor Center features exhibits of the geology, plants, animals, and history of the area. A 12 minute slide show starts every 30 minutes or upon request. Campfire programs are presented nightly in the Saddlehorn Amphitheater.

The Grand Mesa is the world's largest flattop mountain with 34,000 acres of timber and over 200 lakes and ponds. Approximately 120 of the lakes on Grand Mesa are stocked with rainbow, native, and brook trout. Fishing gear, supplies and boats are available. In season, deer, bear, and elk are

CITY OF GRAND JUNCTION STATISTICAL REVIEW

hunted. Recreational facilities, public campgrounds and rental cabins are available. The Powderhorn ski area operates for five months in the year-round playground.

A 100-mile drive circles from Grand Junction via the town of Mesa over the top on Skyway Drive and back over Land's End Road to Grand Junction. At Land's End Shelter House, the panorama of the Grand Valley with orchards and ranches one mile below can be seen. On the horizon are the Wilson and Ragged Wilderness areas, the Uncompandere and San Miguel Mountains in Colorado and the LaSalle and Blue Mountains in Utah.

Recreation

Golf courses, swimming pools, tennis courts, river rafting, mountain and road biking, camping, fishing, hunting and many other recreational opportunities are available in Grand Junction. Suplizio Field, a lighted athletic field and stadium, is the site of the annual National Junior College Baseball World Series. Newly completed Canyon View Park is a sports complex with soccer fields, lighted baseball fields and even an in-line skating area. There are also scenic river front bike and hiking trails. Some of the major special events in Grand Junction include Colorado Mountain Winefest, Art & Jazz Festival, Downtown Farmer's Market, Oktoberfest and the Marching Band competition, and the Parade of Lights.

Colorado National Monument; Grand Mesa National Forest, home of Powderhom Ski Area; Highline Lake; Island Acres; Colorado River and Vega State Park areas are all a short distance from Grand Junction. You can also enjoy art galleries, wineries; theaters; Museum of Western Colorado; Cross Orchards Historic Site; the Grand Junction Symphony; Mesa State College Theater; the Western Colorado Center for the Arts; rodeos and horse shows.

Theaters and the Arts

Western Colorado Center for the Arts, the Avalon Theater, and the Mesa State College Theater all offer Grand Junction the finest of entertainment and programs.

Art on the Corner is Colorado's largest and most diverse outdoor display of sculptured art. This hands-on exhibit is part of Grand Junction's unique Downtown Shopping Park along Main Street.

Music

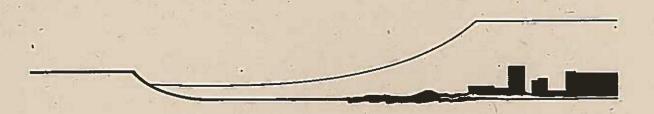

Grand Junction is noted for its musical opportunities and musical programs. Studios, with competent instructors, offer courses in piano, voice, wind and string instruments and organ. Band, orchestra, and glee club groups are open to students interested in these activities. The Community Concert Association brings the world's outstanding artists to the city. The Grand Junction Musical Arts Association sponsors the Grand Junction Community Symphony, the Centennial Band, the Western Colorado Chorale, and the Grand Valley Children's Choir.

The Museum of the West

A professionally accredited, museum of social and natural history, the museum features displays depicting the story of Western Colorado. An old west firearms display and the historic Placerville Post Office, moved in its entirety to the Museum, are just a couple of extraordinary displays. The Museum provides seminars, classes, programs and educational tours to local and regional destinations. The museum coordinated the activities for Cross Orchards Historic Site and an exhibit at the Dinamation Center in Fruita, Colorado.

This Page Intentionally Left Blank

This section has been prepared to assist the reader in understanding the organization's legal requirements, short-term financial policies, and long-term strategies. This section also includes a discussion about the City's budget process including budget development, review, approval, changes and control.

I. LEGAL REQUIREMENTS

The form of government provided by the City Charter for the City of Grand Junction is the Council-Manager Form. This government combines the political leadership of an elected City Council with the managerial experience of an appointed City Manager. The City of Grand Junction is a Home Rule City, governed by City Charter, The State Constitution and City Ordinances as adopted by the general public, which designate the powers and authority of both the City Council and the City Manager.

Biennial expenditure budgets are adopted for all governmental funds except the Special Assessment Debt Service Funds. The City Charter does not require appropriations for these funds.

The City Manager is required to submit a proposed budget to the City Council for each budget year (January 1 - December 31). The proposal, accompanied with an explanatory message, is submitted in early November of odd numbered years. The proposed budget provides a complete financial plan for each fund for each year and includes appropriate financial statements showing comparative figures for the last completed fiscal year, the current year, and the City Manager's recommendation for the ensuing two years.

The proposed budget estimates are open to the public for inspection and a limited number of copies are made available.

By the end of November the City Council conducts public hearings, and then prior to December 31st, adopts the biennial budget by resolution and the passage of an appropriation ordinance for the ensuing year.

Although adopted appropriations set legal limits that cannot be exceeded on a total fund basis, the City Council may amend the appropriation ordinance at any time during the year, as a result of any casuality, accident or unforeseen event. Budget reallocations between funds require City Council approval of a supplemental appropriation ordinance.

In November of 1992, the people of Colorado adopted a Constitutional Amendment of Article X, Section 20 of the Colorado Constitution. This amendment, known as TABOR, restricts local governments and others from the issuance of debt and increases in tax rates without a subsequent vote of the taxpayers affected. It also restricts the growth of Property Tax Revenue and overall general government revenues to the annual growth in the Denver/Boulder CPI plus the growth in actual value of all real property from new construction and inclusions.

A copy of the resolution adopting the budget for 2006 and 2007 and the ordinance appropriating the budgeted amounts for each Fund for the fiscal year ending December 31, 2006 are included in the Related Information section.

II. BUDGET DEVELOPMENT Budget Strategies

The City of Grand Junction's budget is based on a diversified, flexible revenue plan and an expenditure plan that minimizes expenditures at the lowest level consistent with maintaining basic services and infrastructure. Every attempt is made to relate the budget to both the short and long-term goals of the City Council. Formal documents include a Ten-Year Capital Improvements Plan, and the Biennial Budget Document.

Realizing that there will always be imbalances between service demands and available resources, solutions to potential budget problems must involve a combination of four actions on the behalf of the City; 1) enhance the stability of local revenue sources by maintaining the current tax rates and increasing user charges as deemed appropriate, 2) reducing operating costs through productivity improvements which include technological enhancements and progressive personnel practices, 3) maintaining a high level of commitment to improve and protect the City's important investment in infrastructure, and 4) adjusting the level, rather than the quality, of City services provided. Each of the City's funds are balanced separately with all transfers and operating subsidies between funds requiring Council approval.

The City of Grand Junction has developed and utilizes long range planning for each of the City's major operating funds. These projections are used to determine if future impacts of the current proposed budget are fiscally sound. Using these fiscal impact models, we continuously test the effects of current financial decisions on future year's financial conditions when approving funding requests throughout the organization.

There are many variables and factors which comprise these models, the six (6) major components include; Beginning Working Capital, Revenue Projections, Operating Expenditures, Capital Expenditures, Ending Working Capital, and the level of Required Minimum Working Capital.

The process begins with the estimated beginning working capital balance for the proposed budget year. Projected revenues and proposed operating and capital expenditures are applied to the beginning balance to calculate the ending balance for that year. This process is continued for the next ten years. The resulting calculation of the ending balance in

year ten is compared to the calculation of the minimum required balance.

Revenue and expenditure projections for the various funds are based on historical trends, various economic and inflation forecasts, and known changes in operation, legislation, rate changes, etcetera. The bottom line is that each fund should maintain a fund balance that is equal to, or above the required minimum balance of working capital in the tenth year.

A historically volatile economic environment coupled with prudent financial leadership has lead to a conservative approach in determining the level of working capital that the City believes is necessary to maintain the various funds. The most important variable used in determining the required minimum balance is the stability of the major revenue sources applicable to the various accounting funds. For example; the long range plan for the General Fund provides for a required minimum balance that equals 16.7 percent of operating expenditures for each year, compared to a level equal to 5 to 15 percent of operating expenditures for the City's various Enterprise Funds. The rational for the difference in the required minimum balance is that the General Fund's major revenue source (sales and use taxes) is highly volatile in contrast to the more predictable charges for service in the Enterprise Funds.

The comparison of ending balances to the required minimum in year ten reveals whether or not adjustments in the current level of proposed expenditures are necessary in order to maintain long-term financial stability. If the ending balance is equal to or greater than the required minimum, no adjustment in the current proposed budget is probably necessary. However, if there is a considerable discrepancy between the ending fund balance and the required minimum, a decision to eliminate either one-time capital expenditures, reduce on-going operating expenditures, or some combination of the two must be made.

The difference between ongoing (operating) and one-time (capital) expenditures leads to the realization that a change in the level of operating expense in the current year's budget has a greater impact on the fund's ending balance in year ten than does a like change in capital expenditures. This relationship becomes very important in the final budgeting process.

For example, assume that after inputting the projected revenues and proposed expenditures into the Ten-Year Projection Model, the variance from the required minimum balance is a negative \$1 million. Under this scenario, for the ending balance to equal the required minimum either a \$675,000 decrease in capital spending or a \$80,000 reduction in operating expenditures in the current year's budget would be necessary.

The realization that this or any other such model is only as accurate as the projections used is apparent. However, financial leadership of the City of Grand Junction believes that fiscal responsibility includes taking a long-term viewpoint of the City's current operations. In summary, the application of these long-range financial projections identifies the allowed spending levels in the current year, provides insight on the future impacts of current financial decisions and lends itself to modifications necessary in this ever changing environment.

Maintaining an adequate fund balance provides a certain level of insurance against fluctuating revenue sources and changes in future demands for service. Likewise, appropriated Contingency fund amounts are reserved in the current year's budget for the purpose of responding to unanticipated needs and/or emergencies. Each year the General Fund budget contains Contingency funds in amounts deemed appropriate by the City Manager and Council.

Another important financial strategy incorporated by the City of Grand Junction is the provision for protecting the current level of investment in the City's infrastructure. The level of general government capital expenditures for the current year is based on revenue projections associated with the ¾ cent portion of the 2 ¾ percent Sales and Use Tax, plus additional funding sources such as bond proceeds and project grants. A ¾ of one percent increase in the City Sales and Use Tax rate was instituted January 1, 1988, for the specific purpose of funding economic development and general capital projects.

Specific policies for the development of the annual budgets are provided to each department in the annual Budget Preparation Guide. This guide contains a budget message from the Finance Director, detailed instructions for the submission of budget requests and the budget timetable. The issuance of the Budget Preparation Guide provides consistency in the development of department budgets.

Two-Year Budgeting

The City's fiscal year starts on January 1st and ends on December 31st of each year. Although the City legally appropriates its budget on an annual basis, a two-year budget process has been developed which results in the City Council approving a two-year budget plan by Resolution. This two-year budget will be the eighth time the process has been used by the City. The genesis of the two-year budget process stems from the enormous amount of staff time and resources required to produce the annual budget at the level of quality and detail necessary to determine the most effective allocation of our resources. In general, detail line item budget requests are prepared in alternate years by each department for the current year revised, next year proposed budget, and a second year proposed budget for the year after. During other years, only revisions due to unforeseen events, pay plan modifications, and program or operational changes which effect the current and subsequent budget are reviewed.

In addition to developing an effective budget in a more efficient manner, the two-year budget process directs additional focus on the future impacts of current decisions. When managers present their budget, they are in effect presenting their operational plan for the next two years.

The concept of a two-year officially adopted budget is a product of the ten-year long range models the City uses for all of its Operating and Capital Funds. It was decided that if we could plan and project ten-years out we should at least be adopting a two-year spending plan.

Biennial budgeting is a practice that works well in stable economic times, works very well when economic conditions are improving, and needs to be closely managed in a declining economic period. The City of Grand Junction has been fortunate to have adopted their biennial budgets during periods of significant revenue growth. Some Advantages to a two-year budget are that it:

- provides reactive time to respond to major fiscal changes
- minimizes the affect of budget fluctuations on service delivery
- eliminates perpetual budgeting
- shifts the emphasis to longer-range planning
- de-emphasizes the budget in election years
- focuses on policy decisions rather than bean counting
- saves time and staff

Budget Basis

Biennial budgets for governmental funds (General, Special Revenue and Debt Service Funds) are prepared separately using the Modified Accrual basis of accounting. Modified accrual accounting is where revenues are recognized in the accounting period in which they became available and measurable, and expenditures are recognized in the accounting period when a liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Biennial budgets are also adopted for all Enterprise, Internal Service and Non-expendable Trust Funds. The basis used to budget these funds is also a Modified Accrual basis of accounting which includes capital expenditures and current debt service principal payments and excludes depreciation, amortization, and adjustments for accrued compensated absences.

The City of Grand Junction implemented the new GASB 34 reporting requirements for the fiscal year ending December 31, 2002. The City also implemented the GASB infrastructure reporting requirements at that time. Although the budget basis for the City of Grand Junction will not change in regard to the accounting requirements, the implications of those changes have been taken into account with the development of the 2006/2007 Biennial Budget.

Budaet Method

The City uses a **Departmental Line Item** method for budgeting whereby programs are budgeted in separate cost centers and individual projects make use of project accounting. This comprehensive detailed method involves the participation of almost everyone in the organization, insures that each item is properly itemized and justified, and allows each department to compare their actual expenditures against approved uses at a detailed level.

Budget Process

The City's budget development process provides a comprehensive and coordinated methodology for the creation of a budget plan that meets the needs of the community through the effective management of City resources. In order to manage resources effectively, the management team reviews all changes in service levels to assure reasonable continuity of community services. All proposals are evaluated on both a short and long term financial basis. As previously discussed, ten -year financial projections have been developed for all major funds and are

used extensively to analyze the long term impact of budget decisions.

By *mid-Year*, in odd numbered years, the City Council begins the budget process with a goal setting retreat. During the retreat, Council reviews important issues and establishes goals in order to define City service policy for the coming year. Afterwards, the management team begins developing operational goals and objectives that implement the Council's service goals and objectives. During July each department evaluates current programs and budgets in order to prepare action plans.

The process described below and on subsequent pages is an intense time-consuming process. We not only conclude the process with a balanced two-year budget, but all levels of the organization achieve an enhanced level of understanding about the other department's priorities, processes, and procedures.

As departments are completing their action plans, detail budget preparation materials are provided to each department in the form of the *Budget Preparation Guide*. Materials include worksheets for budget preparation, capital improvements, staffing changes, and detail line item justifications. Departments use these materials to quantify estimated costs and revenues for revising the current year's budget and for the development of proposed expenditure budgets.

Since revenues are the single most important factor in determining the level of the budget, revenue projections are reviewed for validity first. Fee based revenues such as service charges for water, sewer, trash and recreation fees are reviewed to determine the reliability of the forecast. Tax based revenues, such as sales tax, use tax, and property tax are reviewed in terms of known historical trends and current information regarding economic conditions. Revenues from outside sources such as grants and local shares of State and Federal revenues are reviewed in light of current or pending legislation affecting these revenue sources. The General Fund targets spending levels for personnel, operating costs and operating capital which are established for the biennial period based on the 10 year projected revenues.

Department supervisors are responsible for preparing the detail for each line item by listing individual items, estimated quantities, and by forecasting each cost based on unit prices provided by either the Purchasing Division or from the actual

objectives and goals to determine specific items and quantities needed. The Department Directors and their management staff review each revenue and expenditure line item until a consensus is reached regarding need, quantity, and probable cost or revenue. Since this process requires numerous meetings and extensive research, this process takes Management Team then meets to balance the budget using several weeks to complete.

By mid-August, departments finalize their current year revised estimates and the following year's proposed budgets. Concurrently, the City's management team, consisting of department directors, finalizes the review schedule. Two budget review teams are created for the detail budget review • and final balancing. The first team is the City Management Team, and all Department Directors. A second team of several department directors and division managers is formed to review all internal service and enterprise funds. First, internal service funds are reviewed, finalized and approved by the teamsince their charges affect all other fund budgets. Next, all enterprise funds are reviewed, finalized and approved by the same team since these funds are self supporting through user fees not general tax dollars. These budget reviews include an evaluation of the Business Plans and 10-year financial projections for each fund. The first team evaluates capital and personnel requests.

At the beginning of September, the second team begins their review of the General Fund department proposals. Each expenditure and revenue line item is reviewed until concurrence is reached on the need for each line item and the reliability of the estimates used. Detail review of these proposals involves extensive direct participation by all members of the budget review team.

All operating expenses are reviewed for validity. Personnel, routine operating, and operating equipment costs are each analyzed separately. The first Management Team establishes citywide priorities for staff level changes and operating equipment items.

Capital Improvement Project costs are submitted by each department; the City Management Team analyzes and priorities these requests on a Citywide basis. Results are presented to the City Council for review and direction.

In order to finalize proposed City-wide priorities for the budget, the management team and City Council tour various facilities and work sites, observe demonstrations, examine reports, hear presentations, and discuss alternatives as

provided by requesting departments.

Toward the **end of September** the City Manager Team completes their review of department proposals and the proposed base operating budget is summarized. The City the following basic criteria.

- The total proposed routine operating expenses, including operating capital, cannot exceed the previously agreed upon percent and/or dollar increases.
- Subsidies from the general fund to other funds must be reviewed and approved.
- Capital Improvement Projects will be primarily funded by the ¾ cent portion of the 2 ¾% sales tax; the use of fund balance requires review and approval by City Council.

Once the preliminary reviews have been completed, the budget is reviewed for conformance to long range projections. Typically, the initial budget does not conform. As a result, priority lists are developed by each department to pare costs. The management team then reviews the changes as recommended by each department to determine which changes should be incorporated into the budget proposal.

This process is repeated until the proposed budget is in conformance with the established guidelines. During these revision activities, department directors, supervisors and the City Manager generally, review and evaluate numerous alternatives; individual and team efforts are used to refine and select the best options. The City Management Team in a group process evaluates all balancing actions, reductions and additions.

By early **November** the budget conforms to guidelines and is submitted to City Council for review, comment, and direction. Any changes requested by Council go through the process described above so a revised balanced budget can be prepared and resubmitted.

After submitting the proposed budget to Council, the management team prepares an executive presentation of the proposed budget to City Council and the public. Following this presentation, the Council makes a final decision regarding acceptability of the proposed budget. Once the Council accepts the proposed budget they finalize the property tax mill levy, get public input on the proposed levy, and provide the levy to the County Commissioners by December 15 for certification.

After acceptance of the budget by City Council, the budget is published and citizen input is provided for at several public hearings. After finalizing any changes due to public input, Council passes a city ordinance titled "The Annual Appropriation Ordinance" by December 31st.

On *January 1st* each year, the adopted budget is incorporated into the accounting system which enables administrative budget controls to take effect.

III. BUDGET & ACCOUNTING CONTROL

Once the Council adopts the budget, the automated accounting system is used as the major tool for monitoring activity. Quarterly financial and statistical reports are prepared which allow the City's management team to review financial results by comparing actual expenditures and revenues against the budgeted amounts. Balancing all expenditures to budgeted amounts by fund on a City wide basis ensures that expenditures are within the legal limits set by the Budget Ordinance.

Adequate systems for collecting, recording, and reporting of revenues have been developed and will continue to be maintained. In addition, an aggressive policy of prompt, efficient collection of taxes, fees, and other types of revenues will be followed.

Proper systems for recording, controlling, and reporting expenses have been developed and will be maintained using generally accepted accounting principles and financial records are audited annually by a certified public accounting firm. In addition, the Purchasing, Risk Management and Personnel polices and practices are reviewed annually to assure proper control of expenditures.

The official source of financial information is the central accounting system as operated and maintained by the Administrative Services Department. Accounting records are maintained in accordance with all legal requirements and on a basis consistent with standards for local governmental accounting. The automated accounting system, policies and procedures, and the organizational structure provide multiple controls on expenditure of funds. City staff has continuous access to the automated accounting systems for reviewing the current status of all revenue and expenditure transactions and balances. The following list of controls is representative, but not all-inclusive.

- Formal written bids are required for all purchases of \$10,000 or more.
- Informal bidding is required for all purchases greater than \$5,000 and less than \$10,000.
- All individual items costing \$5,000 or more and having a useful life of one year or more are capitalized and inventoried.
- The accounting system uses a modified accrual basis under generally accepted accounting principles.
- Encumbrance accounting is used to ensure expenditures do not exceed appropriations on a line item basis.
- The purchasing function is performed by a central Purchasing Division to assure quality products at the

- lowest price.
- The automated payroll system provides control on changes to approved staffing and individual pay levels.
- All contracts of \$50,000 or more must be approved by the City Council.
- The Budget & Accounting Division reviews selected transactions to ensure conformance to City policy.
- Various receivable systems produce delinquent account reports for management action.
- All supplemental appropriation requests are submitted to City Council for their acceptance or rejection at regularly scheduled public meetings.
- All transfers from the contingency account of \$50,000 or more must be authorized by City Council, with all transfers less than \$50,000 requiring the City Manager's approval.

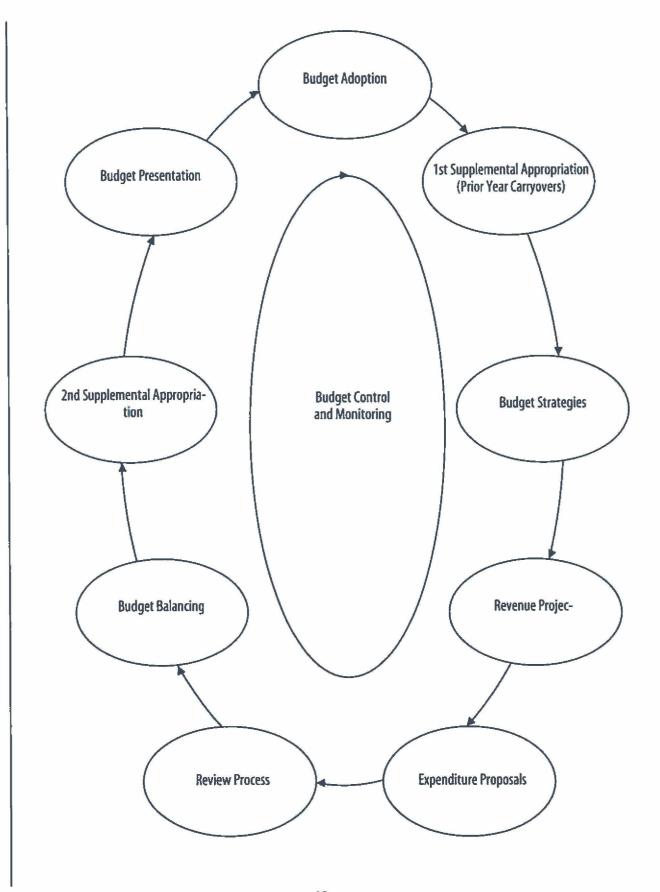

In addition to the many internal controls, the City employs two methods for external review of financial records, practices, and policies.

- The City employs a Certified Public Accounting firm to audit all accounting records annually.
- The City submits its accounting reports to the Government Finance Officer's Association for review regarding conformance to accounting standards. The City has received the Certificate of Achievement for Excellence in Financial Reporting each year since 1984.

IV. BUDGET CHANGES

Once the budget is adopted appropriation transfers between line items for regular operating expenses, within funds and departments, can be accomplished with the approval of the department's director. Transfers to or from Personnel, Operating Equipment, or Capital Project accounts require the approval of the requesting department's director, the Finance Director, and the City Manager.

In addition to the original appropriation, the City generally adopts two supplemental appropriations during the year. The first supplemental which is adopted in April, is used to reappropriate portions of the previous year's ending balance. This is only allowed for projects which were not completed during the prior year and for which appropriations were remaining. The second supplemental appropriation is generally approved in November. This revised appropriation is used to fine-tune the budget and allows for previously unforeseen events. These supplemental appropriations are, of course, subject to the same legal requirements as the original appropriation.

This section contains summary information of all revenues and expenditures included in the two year budget. The Financial Overview includes both narrative and graphic descriptions of all major revenue sources, and all expenditures by major category.

As we begin this biennial budget period, the City of Grand Junction's financial condition is generally sound. Reasons for our favorable position include a relatively healthy economy. a strong and effective operating and capital budgeting process, consistently conservative financial leadership by policy-making officials and strong administrative financial management.

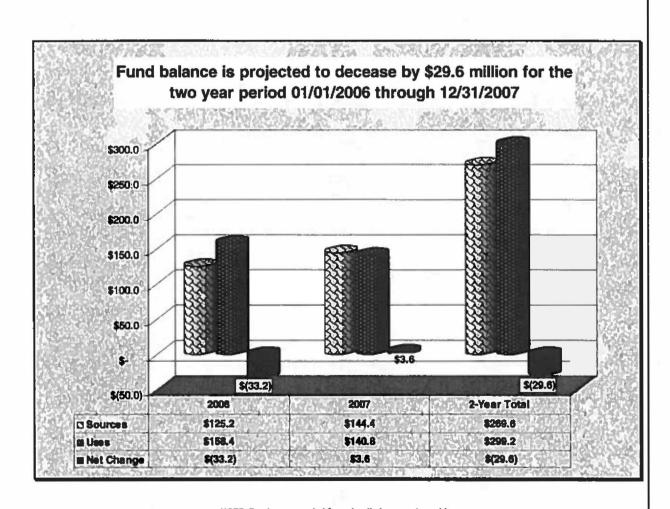

Maintaining the City's healthy financial position will continue to be a primary challenge of our City's Administration. Like many other cities across the country. Grand Junction is undergoing a challenging period as several complicated realities impact the City's financial condition. Such issues as the demand to lessen the burden on local taxpayers, as evidenced by the passage of Amendment #1, (Colorado's version of California's Proposition #13) is coupled with a greater demand for locally provided services.

The City's financial strength and long-range financial planning strategies will be tested in the coming years as population growth, both within and outside the incorporated area, requires expanding services and investment in the infrastructure necessary to properly serve all citizens.

A decrease in total fund balances of approximately \$29.6

million is projected over the next two years. The majority of the use of fund balance can be attributed to expending bond proceeds for the Riverside Parkway.

The following pages will provide summary analysis of the projected revenues and budgeted expenditures for the years 2006 and 2007. Additional detail information can be found in the Fund and Department summary sections of this document.

This section provides information regarding projected revenue sources and is subtitled by major category. Further breakdown and analysis of revenues can be found throughout this section.

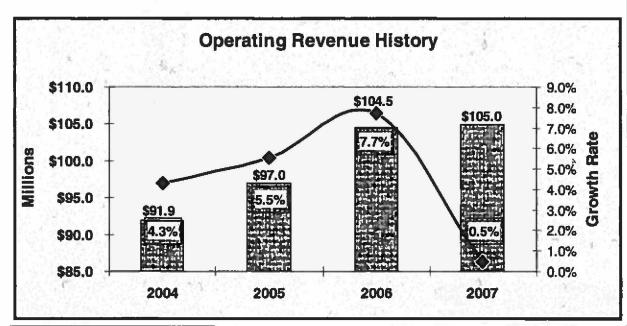

REVENUES

Total operating revenue for the City of Grand Junction is projected at \$104.5 million for 2006 (a 7.7% increase over 2005) and \$105 million in 2007 (a 0.5% increase over 2006). Total revenue for Municipal Services (which excludes Internal Service Operations and Special Districts) equals \$93.9 million and \$116.8 million for the two years, respectively.

The revenue source experiencing the most dollar growth is sales and use tax collections. Charges for Services are also projected to grow steadily over the next two years, corresponding with a growing customer base.

The projected increase in both of these major revenue sources is a direct result of what is happening in the local economy. All other revenue sources (with the exception of Intergovernmental Revenue) are projected to remain relatively flat in 2006 and 2007.

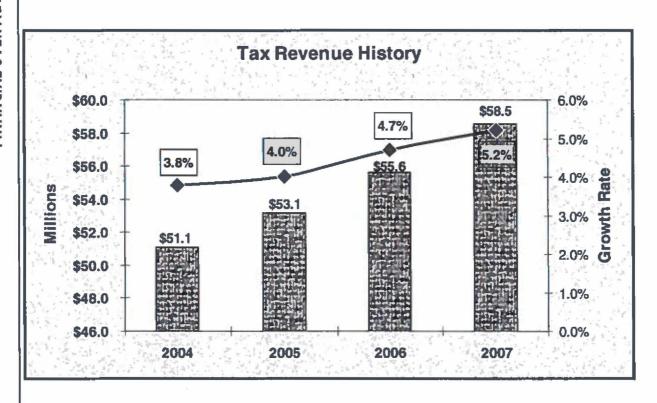

The following section provides additional information regarding projected revenue sources and is subtitled by major category. Further breakdown and analysis of revenues by fund can be found throughout the Fund Summary section of this document.

SALES AND USE TAX

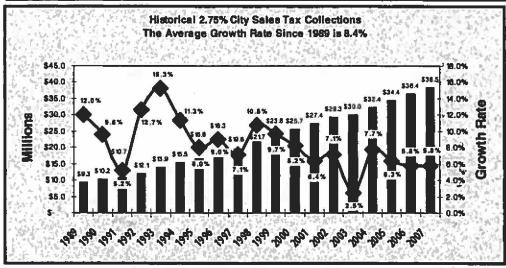

The City Sales & Use Tax rate is 2.75 percent, the City also receives about one-sixth (or 16%) of Mesa County's collections from their 2.0 percent Sales Tax.

The 2.0% portion of the City's Sales and Use Tax rate, as well as the City's Share of the County's Sales Tax, is collected in the General Fund to partially finance the operating costs associated with providing general governmental type services to the community.

The .75% portion (the 3/4 Cent Sales & Use Tax) is collected in the Sales Tax Capital Improvement Projects Fund. In 1987, the Grand Junction City Council adopted an ordinance which increased the City Sales and Use Tax rate by 3/4 of one percent, from 2.0 to 2.75 percent.

This tax increase, as supported by the voters, was instituted for the specific purpose of funding economic development and general capital improvement projects. This annual stream of revenue has sufficiently replaced the revenue that was lost when Congress eliminated the Federal Revenue Sharing Program in 1987.

This graph illustrates the growth the City of Grand Junction is experiencing in City Sales Tax revenue.

<u>Projection Method</u>: Since Sales & Use Taxes represent such a large portion of our general governmental revenue, considerable time and effort is spent projecting and monitoring these revenues. The City budgeting staff uses several different economic and statistical models when developing sales and use tax projections (i.e. Time Series and Multiple Regression and Correlation analysis).

The results from these models are then scrutinized by the budget review team members and modified based on expected or known changes in the economy. In addition, since this source is relatively volatile a downward adjustment is generally made for reasons of conservatism.

PROPERTY TAX

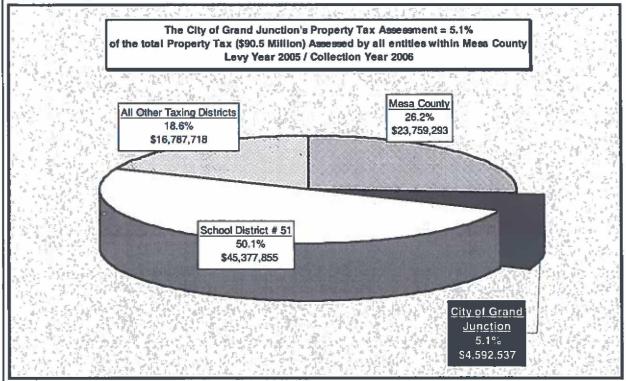

The City's Property Tax rate for the levy years 2006 and 2007 will remain at 8.000 mills (excluding any credit mill levy required to refund excess revenue under the TABOR Amendment). All property tax revenue from this levy is included in the General Fund.

Total Property Tax revenue will amount to \$5.3 million in 2006 and \$5.5 million in 2007. As depicted on the accompanying chart, the City is not property tax driven like

many government entities. The City's levy constitutes approximately 5% of the total Property Tax assessed in Mesa County.

<u>Projection Method</u>: Property Tax revenue is projected based on the assessed value data as determined by the Mesa County Assessor.

Tax Revenue City Property Tax	Actual 2004	Rev. Budget 2005	Budget <u>2006</u>	Budget 2007	% of Total for 2006 & 2007

FRANCHISE FEES

Franchise Fees are taxes collected and paid by the local gas and electric utility, telephone, and cable television companies. The City of Grand Junction has granted these franchises, a non-exclusive right to furnish, sell and distribute these goods and services to the City and its residents. According to the franchise agreements, in consideration for the grant to operate, these companies pay

a percent of their monthly revenue to the City. As depicted in the following table, the City of Grand Junction anticipates collecting approximately \$4 million over the next two years from Franchise Fees.

<u>Projection Method</u>: Franchise Fee projections are based on revenue estimates provided by the franchise companies.

Tax Revenue Franchise Fees		Actual 2004	Re	v. Budget	Budget		Budget		% of Total for 2006

SPECIAL DISTRICT TAXES

The City also receives and passes through property taxes levied by the Downtown Development Authority, Ridges Metropolitan District, and the Grand Junction West Water and Sanitation District.

<u>Projection Method</u>: Special District property taxes are based on the assessed values as determined by the Mesa County Assessor and the appropriate district's mill levy.

Tax Revenue Special District Taxes	Actual <u>2004</u>		Rev. Budget 2005		Budget 2006		Budget 2007	% of Total for 2006 <u>& 2007</u>

LODGING TAX

The voters approved a Hotel/Motel Lodging Tax which became effective January 1, 1990. These funds are collected in the Visitor & Convention Bureau Fund and are dedicated for direct promotional activities and projects. The City expects to collect approximately \$935,000 in each of the next two years from this source.

<u>Projection Method</u>: Projections for Lodging Tax revenue are based on local economic indicators (i.e. vacancy and room rates) in combination with state-wide expected growth rates for the tourism industry.

<u>OTHER TAXES</u>

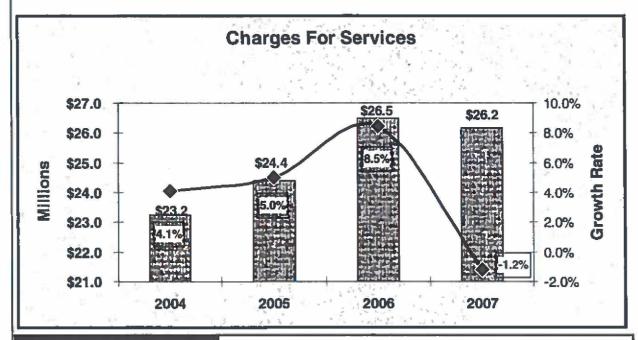

The majority of these revenues are taxes collected by the state then partially shared with local governments based on population or street miles. Other miscellaneous taxes include the City's share of Motor Vehicle Registration and Cigarette Taxes, Highway Users Tax, Mineral Leasing Severance taxes and the Mesa County Road and Bridge Tax.

<u>Projection Method</u>: Projections for state shared taxes are based on estimates from the State Department of Revenue, population and area changes, and known changes in the allocation formulas. Projections for other taxes are based on historical data.

CHARGES FOR SERVICE

Whenever possible, user fees are collected for City services to wholly or partially cover the cost from those who directly benefit from the service.

The City of Grand Junction expects to collect more than \$26 million in user charges for both 2006 and 2007, respectively. This equates to 22% of total City revenue.

CHARGES FOR SERVICE continued

UTILITY CHARGES

The largest share (49%) of revenue from service charges is generated by the City's water, sewer and sanitation utilities. The Water Fund anticipates collecting \$3.7 million per year in user fees for 2006 and 2007 from water sales and other user charges. The City/County Joint Sewer Fund is projecting \$6.6 and \$6.9 million respectively, per year from monthly service charges. The Sanitation Division has projected approximately \$2.4 million per year in the Solid Waste Removal Fund for residential and commercial refuse removal charges.

<u>Projection Method</u>: Utility revenues are projected based on estimated consumption and utility rates. Consumption estimates are based on historical trends and changes in the customer base due to growth (i.e. annexation and new development).

OTHER ENTERPRISE OPERATIONS

Two Rivers Convention Center

This facility is utilized extensively by business and civic groups for luncheons, trade shows, concerts and numerous special events. Revenues come from the following charges; rental of space and amenities, food and beverage service, set-up and clean-up for a variety of uses.

Swimming Pools & Golf Courses

The City of Grand Junction owns and operates two municipal golf courses and the Lincoln Park-Moyer Swimming Pool. In addition, in conjunction with Mesa County and School District #51 the City operates the Orchard Mesa Community Swimming Pool. User Fees from these enterprise operations for the next two budget years total over \$1 million in swimming pool and water slide admissions. Approximately \$2 million per year in green fees, season passes, and cart rentals are projected from the Lincoln Park and Tiara Rado Golf Courses.

Other

Charges for Services from other enterprise activities are projected at approximately \$438,000 per year. These activities include Downtown Parking and Irrigation Systems.

<u>Projection Method</u>: These revenues are projected on a cost-reimbursement basis. A variety of methods are used to project these revenues based on the estmated number of users and the various fees or rate structures.

OTHER CHARGES

Other user fees totaling approximately \$8.9 and \$7.9 million per year respectively, include fees derived from the following sources; Emergency 911 Telephone Charges, development fees, parking meter revenue, and a contract for services with the Grand Junction Rural Fire Protection District.

<u>Projection Method</u>: Projection methods vary depending upon the type of revenue. Some are derived directly from contracts for service while others are based on set recovery rates and/or the projected growth in the number of customers.

OTHER OPERATING REVENUES

All other revenue sources combined account for approximately 18% of total City revenue. The types of

revenue included in this category are identified in the table below and detailed on the following pages.

OTHER OPERATING REVENUES

INTERFUND CHARGES

Interfund Charges totaling \$9.7 million in 2006 and \$9.9 million in 2007 represents funds received by one fund for services rendered to another. Internal Service Funds are used to account for the financing of goods and services provided by one department to other City departments, on a cost-reimbursement basis. For example, the Data Processing Department bills each of the operating departments for their respective share of the total cost of providing centralized computer and communication services. Since these transactions are essentially taking money from one pocket and transferring into another, it does not represent additional sources of income to the City as a whole. However, these shifts are necessary to accurately reflect the

true costs incurred by the individual operating/accounting funds as required by generally accepted accounting principles.

The General Fund receives annual revenue from each of the major operating funds in order to partially recoup the cost of providing city-wide general administrative, legal, accounting and financial services. This amount totals approximately \$1 milion annually and is calculated based on a percentage of the respective fund's projected operating revenue.

<u>Projection Method</u>: These revenues are calculated on a cost-reimbursement basis.

OTHER OPERATING REVENUES

INTEREST INVESTMENT INCOME

Pooled interest income totaling approximately \$2.6 million annually (2.2% of total revenue) represents interest earnings on all of the City's short and long-term cash investments. Cash balances in each of the City's accounting funds are pooled and invested in various financial instruments in a manner consistent with the City of Grand Junction's official investment policies. The graph below depicts the make-up of the City of Grand Junction's investment portfolio.

<u>Projection Method</u>: interest income for each of the individual funds are projected from the estimated average fund balance, using the combined yields on long-term investments and the anticipated change in interest rates.

CAPITAL PROCEEDS

These revenue sources include the sale of assets, water and Projection Method: Tap Fee revenues are projected based sewer tap sales and debt proceeds.

on expected development activity. Loan proceeds are determined by planned financing activities.

This Page Intentionally Left Blank

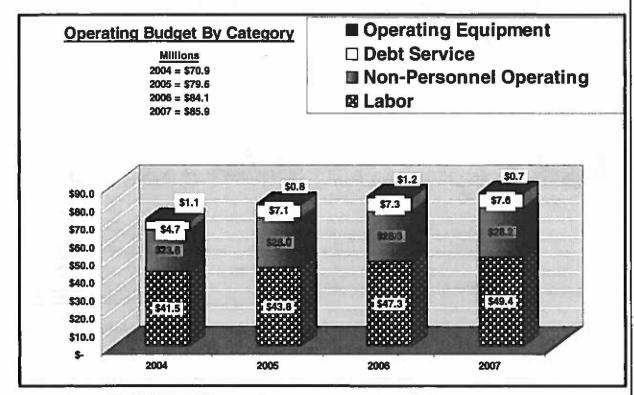

The following section provides information regarding budgeted operating expenditures. Information on the City's capital improvement program is included under the Capital Expenditures tab. The Department Summary section provides operating expenses by department and category. Additional expenditure data can be found throughout the Department and Fund Summary sections.

OPERATING EXPENDITURES

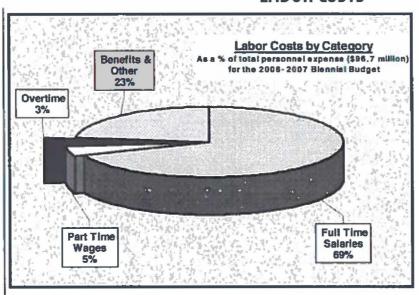

The City of Grand Junction has budgeted operating expenditures for all funds totaling approximately \$84.1 million in 2006, and \$85.9 million in 2007. These figures include amounts budgeted in the Internal Service Funds and therefore over-states the City's planned use of resources. The operating budget for Municipal Services totals \$73.3 million and \$75.4 million in 2006 and 2007 respectively. The following section provides additional information

regarding budgeted operating expenditures by category. Information on the City's capital improvement program is included under the Capital Projects tab. The Department Summary section of this document provides a more detailed analysis of operating expenses by department and category, additional expenditure data can be found throughout the Fund Summary section of this document,

LABOR COSTS

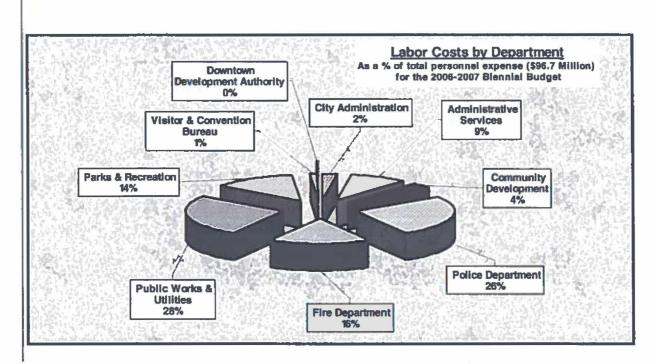

Personnel services represent the largest expenditure category requiring \$96.7 million over the next two years, 57% of operating expenditures, 36% of the total City budget.

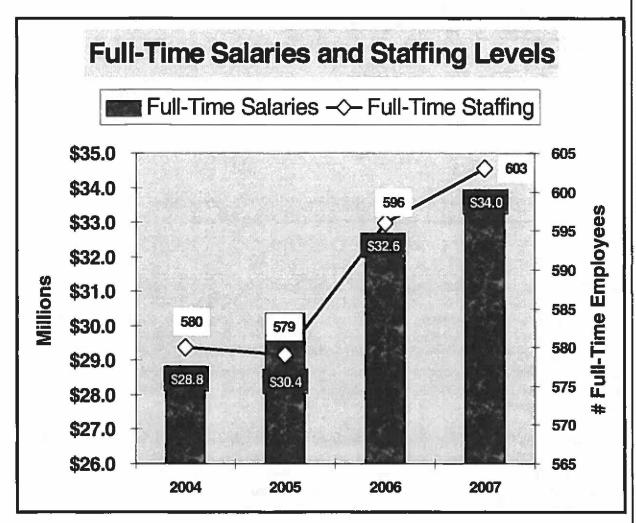

Salaries and wages for full-time, parttime, and overtime employees account for 77% of the total personnel expense. Employee benefits (retirement, health, and dental insurance plans) represent approximately 13%, and employer contributions (social security, worker's compensation, etc.) account for 10% of the total expense for personnel services.

LABOR COSTS

The \$47.3 million year 2006 budget for personnel expenditures represents a 7.9% increase over 2005 while the \$49.4 million 2007 personnel budget reflects a 4.6% increase over 2006. These changes are primarily due to the reasons described in the following Memorandum titled, "Summary of 2006-07 Pay, Benefit and New Position Recommendations", by Claudia Hazelhurst, the City's Human Resources Manager.

Memorandum

TO:

Kelly Arnold City Manager

FROM:

Claudia Hazelhurst, Human Resources Manager

DATE:

October 17, 2005

SUBJECT:

Summary of 2006-07 Pay, Benefit and New Position Recommendations

PAY

Every other year the City conducts a comprehensive market survey. The survey consists of 20 employers including 10 Colorado cities that are comparable to Grand Junction in terms of size, services provided and number of comparable jobs to Grand Junction and 10 local employers in both the public and private sector. Local employers selected to be surveyed are larger employers that have established pay plans, potential matches to City positions and are willing to share salary data with us. The survey includes 32 benchmark positions which are used as the foundation for the 32 job families that make up the City's pay plan. In addition, data is collected on 31 non-benchmark positions. Non-benchmarks are evaluated in order to determine if they are aligned appropriately in relation to other positions in their job families and to ensure that the pay rates for non-benchmark positions are also competitive.

Pay adjustments for 2006 include changes (increases or decreases) that have occurred in the market for each benchmark position as of January 1, 2005, plus the percentage that wages are expected to grow from January 2005 to January 2006, the date on which the pay adjustments will actually take effect. Market changes that occurred in 2005 vary by benchmark, from 0% to 9.8%. Based on historical data, information provided by Mountain States Employers Council and "best guess" estimates from our market organizations, 2005 market data should be adjusted by 2% to account for wage growth anticipated from 2005 to 2006.

The weighted average increase, including the 2% added for anticipated wage growth in 2005, is 4.8% for all benchmarks. The total financial impact included in the labor budget for 2006 based on wages only is \$1.48MM. General fund impact is approximately \$983K (66%). A 3% projection for pay increases will be used as a placeholder for the 2007 labor budget.

The 2006 annual salaries earned by City employees (excluding department heads) range from \$28,824, to \$98,640.

In an effort to address concerns that our market comparisons do not adequately represent the private sector, particularly in the local market, a comparison was conducted of City wage rates to those reported in both the Mountain States Employers Council Western Slope Survey and the Front Range Survey. The results of this survey showed that even with larger numbers of private sector companies included in the data, the salaries paid by the City of Grand Junction were predominantly lower than those paid in the market, even on the Western Slope.

BENEFITS

In an effort to hold down projected health insurance increases, changes in plan design are being made for 2006. The maximum out-of-pocket expense will increase on our most popular health plan (from \$750 to \$2,000 for individual, double that for family) as well as on the retiree health plan. In addition, at the underwriter's recommendation, the retiree health plan premium will be set equal to the premium charged for the lower option plan offered to active employees even though the retiree plan is a lower tier plan. These measures will reduce the anticipated rate increase from 17% down to 11%. The budget impact of this increase will be \$356K, \$236K General Fund.

Due to higher than expected utilization, our long-term disability rates will increase 5% in 2006 at a cost of \$12K, \$8K General Fund. No increases in rates for dental insurance or life insurance are projected for 2006.

No other benefit changes have been included in the 2006-2007 budget.

In August of this year, the Budget Review Team met to review and prioritize 2006-07 new position requests. Sixty-seven full-time positions had been requested along with eleven regular part-time and seasonal requests. The larger Budget Review Team was broken out into smaller groups and each was tasked with developing a list of their 20 highest priority positions, followed by the next set of 20 and finally a third tier group of 20 positions. Following this exercise the various teams met again to share the results of their work. Each of the teams' position priorities were then compiled into a master list of positions we would attempt to fund in the 2006-07 budget. A final meeting was held on new positions during which decisions about 2006 versus 2007 funding were discussed. As a result of the above efforts, 19 full-time positions were recommended to be included in the 2006 budget and 8 in the 2007 budget. Three position reductions are slated for 2006 and 2007 in Golf Course operations resulting in a net increase in the City's full-time complement of 17 in 2006 and 7 in 2007.

2006 New Full-Time Positions

Staff Attorney
Administrative Clerk — Human Resources
Tax Enforcement Officer (self-supporting)
Associate Planner
Senior Planner
Fire Prevention Officer
Recreation Coordinator
Leisure Services Representative
Building Maintenance Worker — Two Rivers Convention Center
Police Officer - Patrol (4)
Police Officer - Traffic (2) (self-supporting)
911 Telecommunicator
Crime Analyst
Development Inspector
Specialty Equipment Operator - Solid Waste

2007 New Full-Time Positions

Administrative Assistant — Planning
Administrative Clerk — Code Enforcement
Equipment Operator — Parks
Police Officer - Investigations
Police Officer - Traffic (2) (self-supporting)
Police Services Technician
Administrative Clerk — Crime Lab

The following new position requests were not recommended for approval.

Paralegal (2) **Development Processing Clerk** Senior Planner Code Enforcement Officer **Fire Operations Officer** Recreation Coordinator — Senior Programs Parks Equipment Operator — Horticulture (2) Forestry Equipment Operator Grounds Equipment Operator - Canyon View Police Officer Patrol (11) **Police Officer Narcotics** Police Officer School Resource Police Recruit (6) Police Services Technician (4) 911 Telecommunicator **Administrative Clerk Investigations Development Engineer** Specialty Equipment Operator — Streets **Facilities Maintenance Technician**

6 GIS positions were moved from Public Works & Community Development to Administrative Services mid-year, in 2005.

NON-PERSONNEL COSTS

This category is comprised of all non-personnel operating expenditures and ranges from items such as paper and pencils, to business trips, and contract services. Combined these expense items represent approximately 33% of all budgeted operating expenditures, or \$28 million per year.

The following table shows the amounts budgeted in each of the non-personnel operating expense categories. The makeup of these various categories is further identified below.

DEBT SERVICE

This category includes all debt service principal and interest payments for the entire City, the City/County Joint Sewer System, and related special districts (the Downtown Development Authority, the Ridges Metropolitan District, and the Grand Junction West Water and Sanitation District).

The City has traditionally adhered to a conservative debt management policy that carefully controls the amount of outstanding debt. Because of our strong capital improvement budgeting process and a pay-as-you-go approach, the City has been able to maintain and improve its infrastructure while avoiding unreasonable debt burdens. The City's General Obligation Bond rating from Moody's is A2, while Standard & Poor's has given the City an A+. Also, the recent 2004 General Fund Revenue Bond Obligation of the City received an AA- rating from Standard & Poor's.

Colorado State Statutes limit the total amount of General Obligation debt to three percent (3%) of the jurisdictions actual value. The City of Grand Junction continues to maintain a zero level of debt that is applicable to this margin. This table has been provided to show the computation of the City's "Legal Debt Margin."

Estimated Actual Value (Determined by the County Assessor)

Multiplied By 0.03

Legal Debt Limit = 3% of Actual Value

Total General Obligation Debt:

Less: Special Taxing District Debt

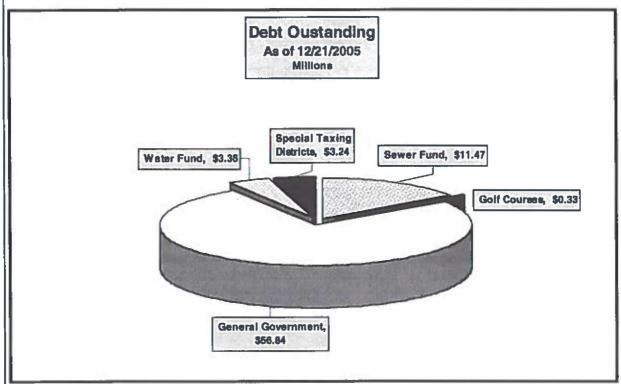

Total Applicable to the Legal Debt Margin

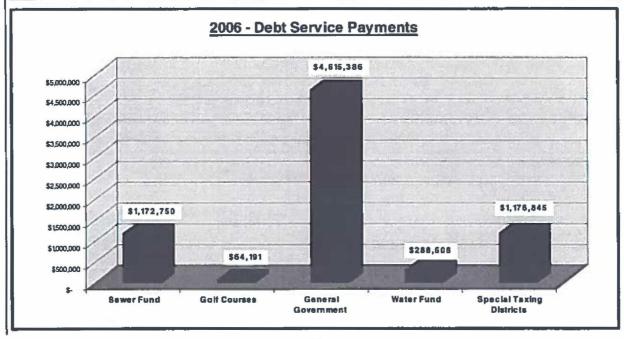

\$131,689,002

DEBT SERVICE

As of December 31, 2005, The City of Grand Junction and its related entities has \$75.2 million in outstanding debt. Of this amount only \$56.8 million represents General Government debt. The largest portion, \$56 million is the liability for the Riverside Parkway Project. The special taxing districts have a combined total of approximately

\$3.2 million in debt. The remaining outstanding debt is in the various enterprise funds. Total Debt Service payments of approximately \$7.4 million in 2006 and in 2007, represents 8.8% of total operating expenditures.

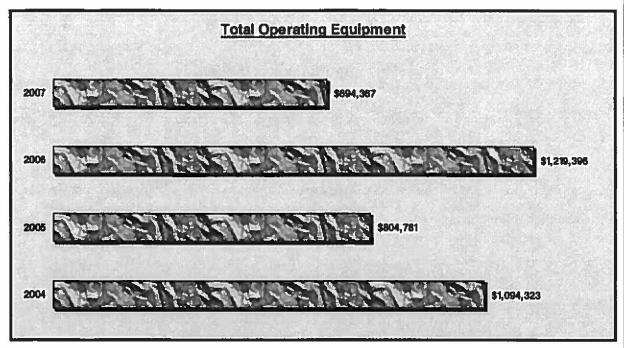

OPERATING EQUIPMENT & OTHER USES

Amounts budgeted for operating equipment in each department represent investments in tools, automation and technology which promote efficiency and higher quality services. These types of expenditures include the purchase of computer equipment, furniture and fixtures, specialty tools, etc., with a per unit cost between \$500 and \$10,000 and which have a useful life of more than one year. All such items under the \$500 limit are budgeted as regular operating expenditures, all such expenditures over the \$10,000 threshold and that have a useful life of more than one year, are subjected to the capital improvement budgeting process.

Operating equipment items in the 2006 budget total \$1,219,396 and include such items as personal computers, construction and maintenance equipment, and specialty police and fire equipment. Approximately \$700K is included in the 2007 budget for these types of expenditures.

A complete listing of approved equipment purchases, by fund and department, is included in the Related Information section.

Contingency

The General Fund Contingency Account contains funds that are appropriated but which are not committed to any particular expenditure type or department within the City. Each year the budget contains contingency funds in the amount deemed necessary by the City Manager and Council, \$972,000 and \$525,000 has been budgeted in 2006 and 2007, respectively. The purpose for reserving these amounts is to respond to unanticipated needs and/or emergencies.

The use of these funds can be requested by department directors upon written request to the City Manager. The City Manager may approve amounts up to \$50,000 for any purpose deemed necessary. No direct expenditures are made from the Contingency Account. Requests for amounts in excess of the limits must be approved by the City Council.

Approved contingency requests are transferred to the requesting department's cost center and object code in order to maintain accurate budget accounting.

Budgeted Savings

Budgeted Savings represent a reduction in the net use of funds the City anticipates occurring in a particular year. The majority of these savings generally arise on the expenditure side from unanticipated vacancies in the authorized staffing level. Savings can also be generated from the revenue side, resulting from higher than projected revenue growth. An estimated level of Budget Savings is identified annually in the General Fund and is programmed as part of the transfer to Sales Tax Capital Improvement Project Fund.

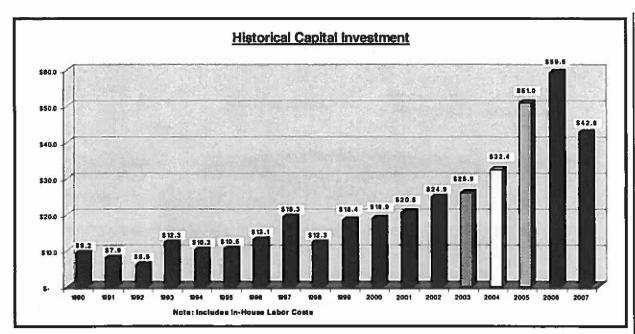

This Page Intentionally Left Blank

This section contains summary information on the City's Capital Improvement Program (CIP). The project listing includes capital expenditures for all funds.

Additionally, a separate CIP Document is prepared annually which includes detail project sheets for all projects currently approved in the City's ten-year capital plan.

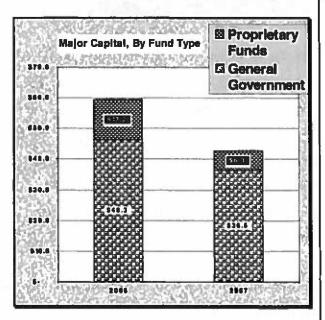

The second largest expenditure category for the City continues to be Capital Outlay. Capital improvement projects totaling \$102.3 million (including budgeted labor) over the next two years represents forty-two percent (42%) of the total two-year budget. The citizenry of Grand Junction is fortunate because of our ability to maintain a high level of commitment towards improving and maintaining the City's important infrastructure without impairing the quality or level of services provided. The community demonstrated its foresight when the voters supported the continuation of the 4 cent Sales & Use Tax increase through an advisory vote in 1989, and again in 2003 when the citizens authorized the issuance of \$80 million in debt for the Riverside Parkway Project.

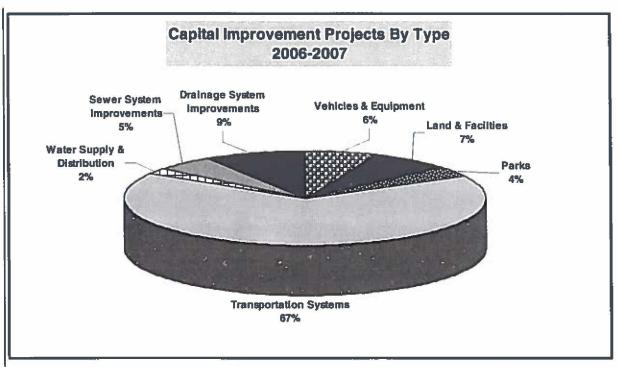

The level of general government capital projects is based on the revenue projections for the ¾ percent portion of the City's 2¾ percent Sales & Use Tax, plus any additional funding sources such as project grants, cost sharing with other funds or agencies, and the annual transfer of additional resources from the City's General Fund. The total of these capital funding sources is then decreased by the annual contribution to the Economic Development Fund and the amount required for general capital debt service. The net amount represents resources available for general capital improvement projects in the ensuing budget year.

The level of capital expenditures in the utility, other enterprise, and internal service funds is determined based on resources available in excess of operating requirements.

Approved projects are those which are necessary to reduce future maintenance costs and/or improve service delivery.

Determining which of the proposed capital projects get approved is the result of committee meetings, which include members of the City Council, to prioritize the City's current and future capital needs. Projects such as Contract Street Maintenance and Road and Bridge Replacements receive the highest priority. Since deferring such maintenance would result in deterioration of existing infrastructure and higher costs in the future, these projects are generally approved first.

After ensuring the protection of the City's existing projected capital revenues for the next ten years. This infrastructure, capital improvements and additions are then program is a major financial planning tool and helps in prioritized based on public safety needs, productivity identifying and prioritizing the capital improvements improvements, and enhancements to the City's capital assets.

Each year the City of Grand Junction develops a Ten Year The following table identifies the most significant projects Capital Improvements Program (CIP) which contains a approved in the City's Ten-Year Capital Improvement detailed listing of proposed capital expenditures and Program for the next two years.

BY TYPE				
	 2006	2007	2	2-Year Total
Vehicles & Equipment	\$ 4,470,840	\$ 1,993,310	\$	6,464,150
General Land & Facilties	\$ 6,220,500	\$ 1,236,000	\$	7,456,500
Park & Recreation Land & Facilities	\$ 2,164,100	\$ 1,643,200	\$	3,807,300
Transportation Systems	\$ 37,496,900	\$ 30,353,500	\$	67,850,400

Sewer System Improvements	\$ 2,641,885	\$ 2,643,069	\$	5,284,954
Drainage System Improvements	\$ 5,070,000	\$ 4,325,000	\$	9,395,000
	\$ 59,464,225	\$ 42,834,079	\$	102,298,304
Note: Includes In-House Labor Costs		•		

Changes in the level of operating expenditures that are directly related to a particular capital project and are onetime costs, are included in the cost estimates for capital improvement projects. Personnel costs that are directly related to capital projects, such as engineering, are also included in the budgeted amount for the specific project(s). The inclusion of ongoing operating type expenditures resulting from capital projects (i.e. additional personnel or annual maintenance costs) in the Ten-Year Projections help in determining the long-term financial impact of capital project requests.

The Public Works & Utilities Department employs a sophisticated pavement management program which provides vital information about the life expectancy and structural soundness of approximately 200 miles of paved streets. The results and recommendations received from this system are subsequently incorporated into the Ten Year CIP as part of the street reconstruction and overlay program.

The remainder of this section contains graphs and tables which depict the types and amounts of capital projects and the source of revenue for the General Capital Improvement Program. Also included is a capital improvement project listing, by fund and department, for all projects approved in the 2006 - 2007 biennial budget.

Major Capital Improvement Project Listing

Riverside Parkway

This is the most significant transportation project in the history of the City. The project entails building a loop around the City from I-70 at 29 Road, south on 29 Road to D Road, west on D Road connecting to 5th Street, continuing west on Riverside Drive connecting to Hwy-340, west on the Frontage Road (with a major interchange at 25 Road) to 24 Road and then North on 24 Road to Interstate 70. Voters approved the a ballot measure authorizing the City to issue \$80 million in bonds to fund the majority of this project. The parkway is scheduled to be completed in 2009.

Major Capital Improvement Project Listing

Street Overlay / Maintenance Program

Includes contracted services for hot mix asphalt overlays, recycled asphalt overlays, chip-seal, patching and minor street reconstructions. This is an annual program designed to maintain the quality of existing streets. A computerized pavement management system is used to evaluate pavement quality and prioritize street maintenance needs. The parameters used to determine the pavement quality index includes; ride quality, structural integrity and surface stress. These parameters are remeasured every two years. The funding level is adjusted annually based on the quality index and additional lane miles.

Assessments

Bookcliff School Gymnasium

In conjunction with the School Districts construction of the new Bookcliff Middle School the City wil pay for the construction of a new gymnasium and office space. The City will staff the facility to provide recreation programs for the general public.

	Rev. 2005	Bu	dget 2006	Budget 2007	Funding Source
Capital Outlay	\$ 81,000	\$	525,000	\$ 527,000	3/4 Cent Sales Tax

Recreation program costs and facility maintenance

Lincoln Park Irrigation System Replacement

Replace the existing outdated irrigation system at the Lincoln Park Golf Course. This improvement will allow for the more efficient use of water and reduce the amount of down time for system repairs.

	e e	Rev. 2005	But	dget 2006	Budget 2007	1	Funding Source

The Sales Tax Capital Improvement Fund provides for several important accounting functions. This fund is used to account for most of the general governmental resources used for the acquisition and construction of major capital facilities. In particular, this fund is used to account for the 3/4 cent portion of the City's 2 3/4 percent Sales & Use Tax which is dedicated to general capital imporvements, economic

development, and general debt service. Other major revenue sources include grants from other governments, interest income and transfers-in from other funds. The majority of the resources generated by the 3/4 cent Sales & Use Tax are used to improve and maintain the important investment in streets, buildings, and infrastructure.

This section contains the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

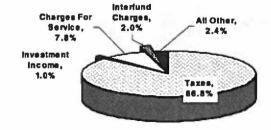

General Fund expenditures include those necessary for providing basic municipal services.

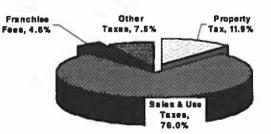

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. General Fund revenue includes collections from the 2.0% portion of the City's 2.75% Sales and Use Tax rate, Property Taxes, Charges for Service, and various other types of revenue. General Fund expenditures include those necessary for providing basic municipal services including police and fire protection, street and traffic services, parks and recreation activities, community planning, and general administration.

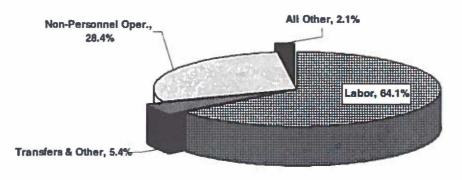

On an annual basis, General Fund revenues are sufficient to cover General Fund expenditures. The net use of funds is a result of transfers-out to other funds. The General Fund provides annual operating subsidies to the Two Rivers Convention Center, and Swimming Pools. The most significant transfer is to the Sales Tax CIP Fund, this amount is determined to be additional one-time resources and is used to bolster the City's level of capital investment in the community. The amount to be transferred for major capital is determined annually and is a product of the City's long range financial projection model.

This section provides summary information on revenues and expenditures for all municipal type services, as budgeted by fund, for the City of Grand Junction. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise assets, liabilities, fund equity, revenues and expenditures. Financial resources are allocated to, and accounted for, in these funds based upon the purposes for which they are to be expended.

This section is divided into four major subsections.

- General Government Funds
- Enterprise Funds
- Internal Service Funds
- Special Taxing Districts Funds

This section of the biennial budget document presents summary information on revenues and expenditures for all services and operations provided by the City of Grand Junction. These operations are accounted for by Fund: An accounting entity that has a set of self-balancing accounts that record all financial transactions for specific activities or functions. Financial resources are accounted for and allocated to individual funds based on the purpose for which they are to be expended.

This section is divided into four major subsections, or account type groupings; <u>General Governmental</u> funds, <u>Enterprise</u> funds, <u>Internal Service</u> funds, and <u>Special Taxing District</u> funds. Further fund type and individual fund descriptions are provided within the respective subsection.

This group of funds is used to account for the revenues and expenditures associated with providing all general governmental type of services to the public. These types of services include; general administrative and support services, police and fire protection, street and traffic services, planning, parks, and recreational activities. These services are provided to, and for the benefit of, the entire community and are primarily funded through the assessment and collection of taxes.

TOTAL: GENERAL GOVERNMENT FUNDS

DESCRIPTION:

This section contains the funds used to account for the revenues and expenditures associated with providing all general governmental type services to the public. These type of services include: General Administrative and Support Services, Police and Fire Protection, Street & Traffic Services, Planning, Parks, and Recreational Activities. These services are provided to, and for the benefit of, the entire community and are primarily funded through the assessment and collection of taxes. The accounting funds included within this section are identified below.

GENERAL FUND #100

DESCRIPTION:

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. General Fund revenue includes collections from the 2.0% portion of the City's 2.75% Sales and Use Tax rate, Property Taxes, Charges for Service, and various other types of revenue. General Fund expenditures include those necessary for providing basic municipal services including police and fire protection, street and traffic services, parks and recreation activities, community planning, and general administration.

On an annual basis, General Fund revenues are sufficient to cover General Fund expenditures. The net use of funds is a result of transfers-out to other funds. The General Fund provides annual operating subsidies to Two Rivers Convention Center and the Swimming Pool funds. The most significant transfer is to the Sales

Tax CiP Fund, this amount is determined to be additional one-time resources and is used to bolster the City's level of capital investment in the community. The amount to be transferred for major capital is determined annually and is a product of the City's long range financial projection model.

VISITOR & CONVENTION BUREAU #102

DESCRIPTION:

The purpose of the Visitor & Convention Bureau Fund is to account for revenue accumulated from the Lodging Tax (a voter approved tax which became effective January 1, 1990) and other resources to fund the operation of the Grand Junction Visitors and Convention Bureau. The Bureau's primary function is to promote conventions and tourism in the local area.

Lodging Tax receipts account for approximately 67% of this fund's revenue while the vendor's fee portion of the City Sales Tax constitutes 30%.

GRANT DISTRIBUTIONS #104

DESCRIPTION:

The Community Development Fund is used to account for the resources and expenditures of the City's CDBG "Entitlement" funds, the rental housing rehabilitation program grant administered by the Energy Office, a revolving loan fund grant administered by the Western Colorado Business Development Corporation, and other pass through grants applied for and received on behalf of other agencies such as the Grand Junction Housing Authority. The "transfer-out" is to reimburse the General Fund for direct CDBG Program administrative costs.

PARKLAND EXPANSION #105

DESCRIPTION:

The Parkland Expansion Fund is used to account for resources accumulated by the City resulting from Open Space Fees required to be paid by land developers.

These funds are used to acquire and improve parks and green space within the City of Grand Junction. The majority of these resources are transferred to the Sales Tax Capital Improvement Fund, and are expended for park acquisition and development.

ECONOMIC DEVELOPMENT #108

DESCRIPTION:

The purpose of the Economic Development Fund is to accumulate resources to further economic development efforts in the City of Grand Junction and the Grand Valley area. In conjunction with the voter supported 3/4 of one percent increase in the City Sales & Use Tax rate (effective January 1, 1988. The source of funds is an annual transfer from the Sales Tax CIP Fund, where the 3/4 cent Sales & Use Tax is deposited.

Since the fund's inception, the majority of these funds that have been expended have been through the Mesa County Economic Development Council as incentives for businesses locating to this area. Beginning in 1996, an annual amount of \$250,000 (for a period of ten years) was approved to assist Mesa State College with land acquisition and expansion. This program is partially funded by a \$150K annual transfer-in from the General Fund. The disbursement of these funds is dependent upon the college meeting specific criteria as established by the City Council.

Beginning in 2004, a portion of a full-time position who's responsibility includes economic development efforts will be funded with these resources.

CONSERVATION TRUST FUND #110

DESCRIPTION:

Due to requirements of the State of Colorado, Department of Local Affairs, a separate fund was created in 2005 specifically for reporting monies received from local lottery funds, and to track expenditures of those funds for eligible projects. Interest and investment income related to these monies are also reported in the new fund.

These funds are used to acquire and improve parks and green space within the City of Grand Junction. A portion of these resources are transferred to the Sales Tax CIP Capital Improvement Fund, and are expended for park acquisition and development. Another significant portion of these funds is transferred to the Grand Junction Public Finance Corporation Fund to pay debt service on the certificates of participation that were issued when the City purchased the "Matchett Property" for future park development. The entire allocation is expended on an annual basis.

SALES TAX CIP FUND #201

DESCRIPTION:

The Sales Tax Capital Improvement Fund provides for several important accounting functions. This fund is used to account for most of the general governmental resources used for the acquisition and construction of major capital facilities. In particular, this fund is used to account for the 3/4 cent portion of the City's 2.75 percent Sales & Use Tax which is dedicated to general capital improvements, economic development, and general debt service. Other major revenue sources include grants from other governments, interest income and transfers-in from other funds. The majority of the resources generated by the 3/4 cent Sales & Use Tax are used to improve and maintain our important investment in streets, buildings, and infrastructure.

STORM DRAINAGE IMPROVEMENTS #202

DESCRIPTION:

The Storm Drainage Improvement Fund was established in 1993 by the City Council for the purpose of accumulating resources to defray the costs of improving storm drainage systems throughout the City.

Although the City collects annual revenue from development fees, the majority of funding is derived from transfers from the Sales Tax CIP Fund. A \$3 million grant award from FEMA is anticipated in 2007 to help fund the "Big Pipe Project", which is necessary to remove the floodplain designation for properties along 24 1/2 Road, and Mesa Mall.

PARKWAY PROJECT CIP FUND #204

DESCRIPTION:

The Parkway Project Capital Improvement Fund was established to account for all revenue and expenditures associated with the Riverside Parkway project. The Riverside Parkway is the largest project in the history of the City of Grand Junction and will result in a beltway around the City. In 2003 the voters authorized the City to issue bonds up to \$80 million to finance the majority of this project. \$57 million in bonds were issued in 2004 for this purpose and the remaining \$23 million is expected to be issued early in 2007.

The Parkway will provide an attractive and continuous alternative route for through traffic around the downtown area. Through traffic that presently congests downtown streets, particularly Ute and Pitkin avenues, will flow more openly; and the I-70 Business Route will again be able to provide unobstructed access to adjacent busi-

nesses. On completion, the Parkway will provide a direct connection between SH 50 on the south and Interstate 70 on the north via 29 Road.

FUTURE STREET IMPROVEMENTS #207

DESCRIPTION:

The Future Street Improvement Fund is used to accumulate resources for future street capacity improvements and to finance the City's share of petitioned street improvement districts.

The fund's primary source of revenue is from the assessment of Transportation Capacity Impact Fees paid by developers and from development improvement agreements.

These resources are subsequently transferred to the Sales Tax CIP Fund where the expenditures for designated improvement projects are made.

FACILITIES CAPITAL FUND #208

DESCRIPTION:

The Facilities Capital Fund was established in the fiscal year beginning January 1, 2004, for the purpose of isolating and accumulating resources to fund future improvements for City facilities.

Seed money for the fund is derived from a \$2.5 Million transfer from the Equipment Fund's fund balance for equipment replacement. It was determined that reserves in this fund were more than adequate to meet City's equipment replacement needs on an annual basis. An additional \$250,000 annual transfer from the Sales Tax CIP Fund is scheduled to begin in 2005.

GENERAL DEBT SERVICE #610

DESCRIPTION:

The General Debt Service Fund is used to account for all resources which are used to pay for general long-term principal and interest payments maturing in future years, other than long-term debt accounted for in enterprise, special district, or internal service funds, or where a separate debt service fund is legally mandated.

Resources used to make the annual debt service payments are received as transfers-in from the Sales Tax Capital Improvement Fund.

GJ Public Finance Corporation Fund #614

DESCRIPTION:

The GJ Public Finance Corp. Fund is used to account for debt service payments incurred in the financing of open space land. Specifically, the certificates of participation issued to purchase the Matchett Property. The final debt service payment is scheduled for December, 2006

Resources used to make the annual debt service payments are Lottery Funds passed through by the State of Colorado and received as transfers-in from the City's Conservation Trust Fund #110.

PARKS IMPROVEMENT ADVISORY BOARD #703

DESCRIPTION:

The Parks Improvement Advisory Board (P.I.A.B.) Fund is an agency type fund that is used to provide the custodial function of accounting for operations of the PIAB Board. The source of revenue includes contributions from; Mesa State College, Mesa County Valley School District #51, the National Junior College Athletic Association, and the City of Grand Junction. These resources are used for improvements to Stocker Stadium, Suplizio Field, and other City parks.

CEMETERY PERPETUAL CARE FUND #704

DESCRIPTION:

The Cemetery Perpetual Care Fund was established to accumulate resources to fund the perpetual care and maintenance of the Orchard Mesa and Municipal Cemeteries.

Perpetual care fees associated with the sale of cemetery lots are accumulated in this fund, interest income thereon is used to help fund the annual maintenance costs of the cemeteries and is reflected as a transfer-out, previously to the Cemetery Fund, and beginning in 2004 to the General Fund.

This non-expendable trust fund provides a financing vehicle for the maintenance of the cemeteries for perpetuity.

TIARA RADO GOLF COURSE FUND #306

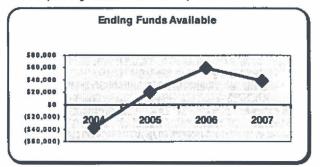

DESCRIPTION:

The purpose of this fund is to account for the revenues and expense associated with the operation and maintenance of the municipally owned Tiara Rado Golf Course.

The scope of services provided include public golfing, course rental for tournaments, various golf leagues, equipment sales and rental, private and group lessons, food and beverage concessions, and clubhouse rental for special events.

Tiara Rado is an eighteen hole championship golf course which is fully self sufficient and receives no general operating subsidy.

The golf industry has been through a couple of lean years recently. As a result the golf course operations have been streamlined to reduce operating costs in an effort to improve the bottom line.

CITY CEMETERIES FUND #307

DESCRIPTION:

The Cemetery Fund was used to account for the revenue and expense associated with the operation and maintenance of all municipally owned cemeteries. It was determined that the operations of the Cemetery would never be self-sufficient and that it was in the best interests to abolish this fund beginning in 2004. Going forward, the revenues and expenditures associated with the City owned cemeteries have been accounted for in the General Fund.

PARKING FUND #308

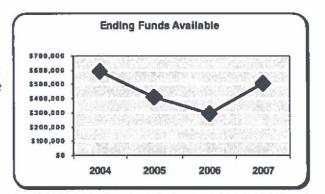

DESCRIPTION:

The Parking Fund is used to account for the revenue and expense associated with the operation of all municipally owned and leased parking facilities.

The Administrative Services Department is responsible for parking meter maintenance and revenue collection. The Police Department is responsible for the enforcement of City parking regulations, while the Public Works Department is responsible for the maintenance and improvements to all City parking facilities.

The construction of a new parking garage in the downtown is scheduled for 2006. This project will be a joint effort between the City, the Downtown Development Authority and downtown busi-

nesses. The City's portion of the project will be funded primarily by an inter fund Loan.

IRRIGATION SYSTEMS FUND #309

DESCRIPTION:

The Irrigation Systems Fund is used to account for the revenue and expense associated with operating and maintaining the irrigation system within the Ridges Metropolitan District.

The residents of the Ridges are assessed annual charges to cover the costs of providing them with irrigation water and for the maintenance and improvement costs to this independent system. The City of Grand Junction agreed to take over and is responsible for maintaining the system, on a cost reimbursement basis, pursuant to the 1992 annexation agreement.

JOINT SEWER FUND #900

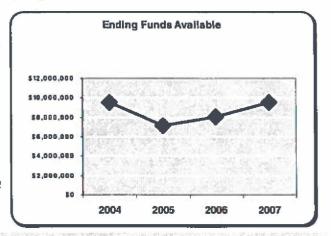

DESCRIPTION:

The purpose of this fund is to account for the revenues and expenses associated with the operation of the City/County Joint Sewer System.

In 1980, the City of Grand Junction and Mesa County agreed to participate in a joint venture arrangement called the City of Grand Junction / Mesa County Joint Sewer System, in order to provide wastewater collection and treatment facilities for the metropolitan area of the Grand Valley. Although the City operates and maintains the Joint Sewer System the annual operating and capital budget is approved by both the Grand Junction City Council and the Mesa County Board of Commissioners.

The scope of services include operation of the Persigo Wastewater Treatment Plant which services the entire 201-Sewer Area, the Quality Control Laboratory, and the maintenance, replacement, and construction of sewer-lines.

In 2002 the Joint Sewer System issued debt in the amount of \$13,490,000 to fund the cost of the Combined Storm-Sewer Elimination Project (CSEP) and the Septic System Elimination Project (SSEP).

- Enhanced 911 Fund
- Data Processing Fund
- Equipment Fund
- Stores Fund
- Self Insurance Fund
- Communications Center Fund

These funds are used to account for the financing of goods and services provided by one department to other City departments and agencies, on a cost-reimbursement basis.

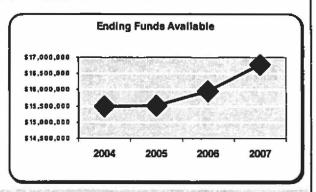

Since charges for Internal Service Funds are included in the budget of the operating fund receiving such service, their inclusion constitutes the double counting of expenditures.

TOTAL: INTERNAL SERVICE FUNDS

DESCRIPTION:

Internal Service Funds are used to account for the financing of goods and services provided by one department to other City departments and agencies, on a cost-reimbursement basis.

Since charges from Internal Service Funds are included in the budget of those funds receiving the service, their inclusion constitutes the double counting of expenditures. The accounting funds included within this section are identified below.

ENHANCED 911 SPECIAL REVENUE FUND #101

DESCRIPTION:

The Enhanced-911 Fund is a special revenue fund used by the City of Grand Junction to account for the resources received from the monthly telephone surcharge paid on all telephone service accounts within Mesa County, as enacted through Colorado State Statute #29-11.

The statute restricts the use of these resources to expenditures for the maintenance of and improvements to the Emergency 911 Communications Center. The allocation of resources for these expenditures are reflected as transfer-out / reimbursement from the Enhanced-911 Fund into the Communications Center Fund.

DATA PROCESSING FUND #401

DESCRIPTION:

The Data Processing Fund is used to account for the expenses associated with the operations of the data processing and telecommunication functions and the related charges for these services. The Information Services Division provides service to all City departments.

This fund is operated on a cost-reimbursement basis receiving its revenue through interfund service charges to other departments or funds.

EQUIPMENT FUND #402

DESCRIPTION:

The Equipment Fund is used to accumulate resources and account for the expenses associated with the replacement, operation and maintenance of City owned vehicles and equipment and the related charges for these equipment items.

This fund operates on a cost-reimbursement basis for services and accumulates funds for equipment replacement through monthly equipment rental charges which are based on the estimated life and replacement cost of the individual assets. \$2.5 Million is being transferred from the Equipment Fund's fund balance in 2004 to Fund #208 to serve as seed money for the newly established Facilities Capital Improvement Fund. It was determined that reserves in the Equipment Fund were more than adequate to meet City's equipment replacement needs on an annual basis.

STORES FUND #403

DESCRIPTION:

The Stores Fund is used to account for the expenses of purchasing and maintaining an inventory of frequently used or essential materials and supplies, and the related charges for these materials and supplies.

This fund was also used to account for the City's Print Shop which is similarly operated on a cost-reimbursement basis. Beginning in 2006 print shop services will be provided by an outside vendor.

SELF INSURANCE FUND #404

DESCRIPTION:

The purpose of this fund is to account for the expenses associated with providing the City's self-funded worker's compensation and excess property and liability insurance coverage, commensurate with the related charges to the various departments of the City for these services.

The Self Insurance Fund is also used to accumulate reserves for losses. Reserves are accumulated for the payment of losses which fall below, or that are in excess of, the City's retention levels for worker's compensation, property, and liability, and medical claims.

COMMUNICATIONS CENTER FUND #405

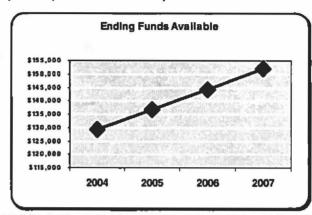

DESCRIPTION:

The Communications Center Fund is used to account for the expense associated with the operations of the Grand Junction Regional Emergency 911 Communications Center and the related charges for its operation to the City Police and Fire Departments, as well as various other local governments which use its services.

The Communications Center is a division of the Police Department and provides emergency dispatch services to all such providers in the local region. The Advisory Communications Center Board, representing the user agencies, provides input to the Police Chief regarding these operations.

In 1989, an intergovernmental agreement was signed by all the taxing entities in Mesa County having responsibility for the provisions of public safety services. This agreement allowed the board to set the collection amount for and oversee the expenditures

of the Emergency Telephone Services Surcharge in Mesa County, as provided for in CRS 29-11. These funds are accounted for in the Enhanced-911 Fund (101) and transferred to this fund for approved expenditures to the E-911 system.

DOWNTOWN DEVELOPMENT AUTHORITY OPERATING FUND #103

DESCRIPTION:

This fund is used to account for the revenues and expenditures associated with the operations of the Downtown Development Authority (DDA).

The DDA was established through a special election in 1977 to promote the development and redevelopment of the downtown area. Primary sources of revenue include property tax from the 5.0 mill levy assessed against properties within the DDA's boundary, enterprise zone donations, federal and state grants.

DOWNTOWN TIF SPECIAL REVENUE FUND #109

DESCRIPTION:

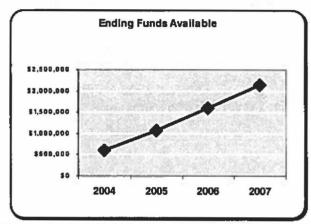

The purpose of this fund is to account for property and sales tax revenue generated within the Downtown Tax Increment Financing District.

Property tax is assessed on the incremental increase in total assessed value of property within the TIF District resulting from redevelopment efforts. Incremental (above the TIF area's original base) sales tax collected by the City and transferred into this fund. These revenues have been pledged to reduce debt incurred for downtown improvements.

Funds sufficient to pay the annual debt service on the outstanding Tax Increment Financing Bonds are transferred to the TIF Debt Service Fund. Investment income is transferred to the DDA Operating Fund #103.

Two outstanding bond issues (Series 1996 and 1999) were effectively decreased in 2003 prior to the call dates in May, 2004. This

was done in conjunction with the issuance of \$2,995,000 in additional TIF debt. The increased transfer-out in 2003 represents the defeasance while the transfer increases in 2004 and 2005 reflect the debt service requirements on the 2003 bond issue. Bond proceeds were recorded in the TIF Capital Fund #203.

DOWNTOWN BUSINESS IMPROVEMENT DISTRICT #111

DESCRIPTION:

A new business improvement district was formed in 2005 for the purpose of promoting the downtown business park. To faciltate the creation the Grand Junction City Council will act as the board of directors for the district until a new board can be appointed. Consequently, the City has appropriated the district's budget for the year 2006. Once the new Board of Director's is in place the City will no longer need to appropriate the district's budget as it will not be an agency of the City. The primary revenue source for the B.I.D. will be special assessments against the individual property owners whom elected to form the district.

D.D.A. DEBT SERVICE FUND #611

DESCRIPTION:

The Downtown Tax Increment Financing (TIF) Debt Service Fund is used to account for principal and interest payments on the TIF bonds.

Both of these series were effectively decreased in 2003 in conjunction with the issuance of the 2003 series bonds. The 2003 bonds consist of four bonds maturing in 2004 thru 2007.

Resources used for the annual debt service on these capital improvement bonds are received as a transfer-in from the TIF special revenue fund which are derived from incremental property and sales taxes generated within the Downtown Tax Increment Financing District.

In 1996 the City, in accordance with the Plan of Development, issued a third series of TIF Bonds for \$1.3 million. Subordinate debt in the amount of \$2,000,000 was issued in 1999, this issue consists of five jumbo bonds maturing annually through the year 2006.

G.J.W.W.S.D. DEBT SERVICE FUND #612

DESCRIPTION:

This fund is used to account for the property tax and standby fees assessed property owners in the Grand Junction West, Water and Sanitation District. These revenues are used to accumulate resources to pay debt principal and interest payments on the special district's bonds maturing through the year 2007.

As part of the 1993 annexation agreement, the GJWWS District was effectively abolished except for the payment of its outstanding debts. The City pledged its sales tax as additional credit in lieu of many individual guarantors.

The annexation agreement does not subject the City of Grand Junction, or its taxpayers, to any additional costs necessary to pay the special district's current debt. Upon retirement of its current obliquations, the GJWWS District will be totally dissolved.

RIDGES METRO DISTRICT DEBT SERVICE FUND #613

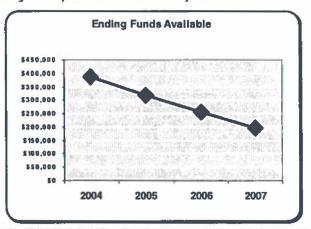

DESCRIPTION:

The fund is used to account for the property tax revenue from property owners in the Ridges Metropolitan District. These revenues are used to accumulate resources to pay debt principal and interest payments on the special district's bonds maturing through the year 2013.

As part of a 1992 annexation agreement, the Ridges Metro District was able to refinance its existing debt using the City's sales tax credit enhancement, effectively lowering the districts annual debt service payments and the associated mill levy. In return, the City was able to annex this rather large residential development which was in need of the urban services provided by the City.

The annexation agreement does not subject the City of Grand Junction, or its taxpayers, to any additional costs to pay the special dis-

trict's current debt. Upon retirement of its current obligations, the Ridges Metropolitan District will be totally dissolved.

The following section is offered to assist in the understanding of the scope and magnitude of each of the City's departments. This section includes an overview of operating expenditures by department, division, and category, along with historical personnel information. Included in narrative form is an overview of the functions of each department, and discussion regarding the department's major accomplishments, significant budget issues, and future outlook. This section includes goals and objectives for the coming two years for each of the department's divisions.

6 GIS positions were moved from Public Works & Community Development to Administrative Services mid-year, in 2005.

- City Council City Manager City Attorney

SIGNIFICANT BUDGET ISSUES

How do we balance growth in Grand Junction with the ability to continue to provide high quality services to our customers?

How do we balance needs in the Capital Improvement Project plan with needs for additional personnel in City departments?

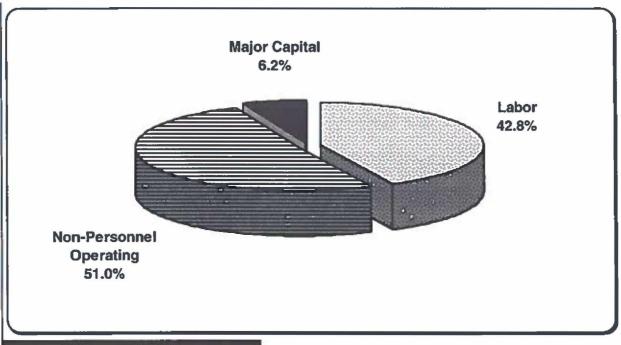

The City Attorney's proposed budget contains a request for a new Staff Attorney position to assist the Community Development Department with an increased workload.

The PDR Committee (Buffer Zone) is requesting increased funding from each entity in the Valley.

The City's contribution to Grand Valley Transit is proposed to increase by approximately \$300,000 over the next two years.

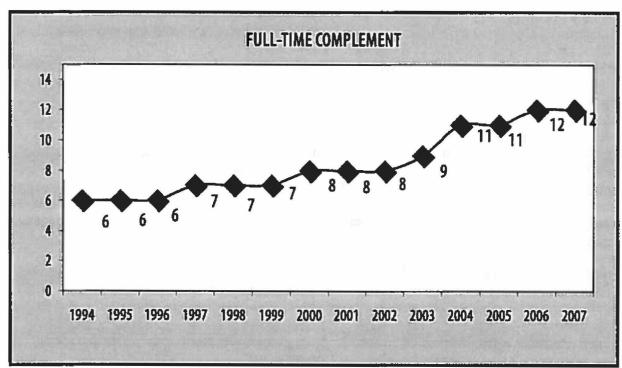

The proposed budget contains funds for a telephone citizen survey in 2006 and a mailed citizen survey in 2007. This continues the use of surveys which have been conducted in the past few years and will enable a 2007 update of the Strategic Plan.

Diverse demands in all areas of economic development will continue to require flexibility and responsiveness throughout the budget cycle.

City Administration

City Administration provides policy direction and organizational leadership for the City.

The seven-member City Council is elected on a nonpartisan basis to four-year overlapping terms. Five members are elected at large, but must reside in a district, and two members are elected at large, without a district requirement. The Mayor and Mayor Pro Tem are selected from among the Council for one-year terms.

The Council serves as the community's legislative body and is responsible for enacting City Ordinances, appropriating funds to conduct City business, and providing policy direction to City Staff. The Council appoints the City Manager, City Attorney, and Municipal Court Judge.

The City Manager provides administrative leadership for the organization, directs and coordinates all City services, presents information and recommendations to the Council and implements policies and goals set by the City Council.

The City Attorney provides legal services to the City Council and to the various City operating departments and represents the City in legal actions. The City Attorney serves in an advisory capacity by interpreting federal, state, and local laws as they pertain to the conduct of City business.

The Assistant City Manager serves as the City Manager's chief assistant in coordinating the operations of City departments, supporting the City Council, analyzing policy, preparing long-range strategy, and maintaining relations with other governmental units, employees and citizens.

The Assistant City Attorney is the legal counsel for the Liquor Licensing Authority and the Planning Commission and advises City departments on various legal issues.

The Assistant to the City Manager serves as the City specialist on issues regarding economic development, affordable housing, and neighborhood programs.

The Staff Attorney is the prosecuting attorney for municipal prosecutions and the Liquor Licensing Authority, advises and administers the Teen Court, and provides legal research assistance to the City Attorney.

The Communications & Community Relations Coordinator assists the Council, City management and departments on communications with the City's many external and internal customers. The Public Communications Coordinator manages the City's overall communications activities, disseminates information to the media and publishes the City's newsletter.

The Paralegal conducts legal research assistance in support of the work of the City Attorney's Office.

The Management Intern is responsible for a wide range of special projects relative to all City functions including the City Youth Council.

FUTURE OUTLOOK

Construction of a 400+ space parking garage in partnership with the Downtown Development Authority is planned to begin in 2006.

Work will continue on implementing the strategic plan objectives as staff has incorporated them into the 2006/2007 budget.

Construction of the Riverside Parkway will continue through

The 7th Street Project will continue to shape the look and transportation ease of the 7th Street and Main Street area.

The City will continue to assess how to fund several facilities projects that were identified as high priority in the Facilities Study.

Progress will continue on the 5-year 29 Road and I-70B interchange project with the assistance of Mesa County. This project is part of the 29 Road Corridor Improvement Project that will eventually link 29 Road to I-70.

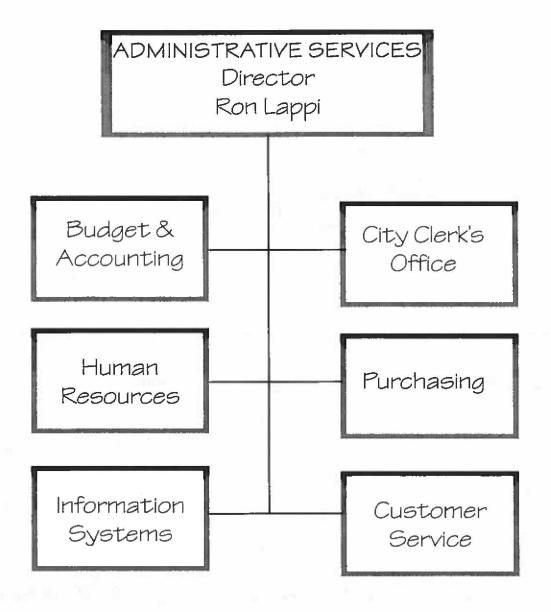

City staff will continue to assess the Development Review process to determine how it can be streamlined and more customer focused.

The City Manager's office will coordinate the City's Economic Development efforts with other Economic Development organizations in the Valley.

- Administration
- Budget & Accounting
- City Clerk's Office
- Customer Service
- Information Systems
- Human Resources
- Purchasing

The mission of the Administrative Services Department is to provide quality administrative support and services to the public and the departments and employees of the City in an efficient, effective, and accommodating manner to the end that all direct service providers have the management information and support they need to deliver their services in the most appropriate manner. These support services include financial and personnel resource management, as well as technical support in accounting, procurement, systems automation and information retrieval.

SIGNIFICANT BUDGET ISSUES

Increased clerical staff support in Risk Management and Human Resources to work with professional staff work load growth.

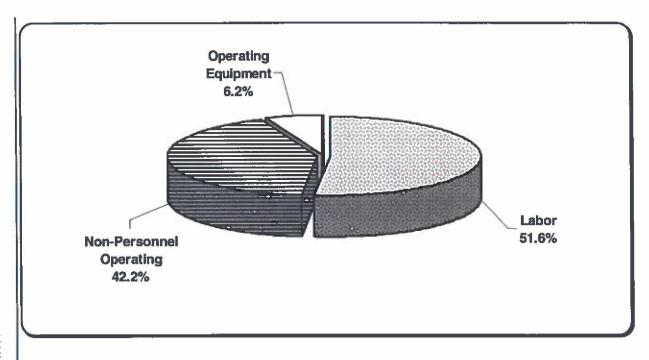

Closing of the central Copy Shop 1/1/06, includes contracting some services, and the placement of advanced, convenient copiers.

Funding a new Tax Enforcement Officer for field work on retail businesses and follow-up on all delinquencies.

Automated code projects for City Clerk ordinances, Community Development, and Public Works codes and manuals.

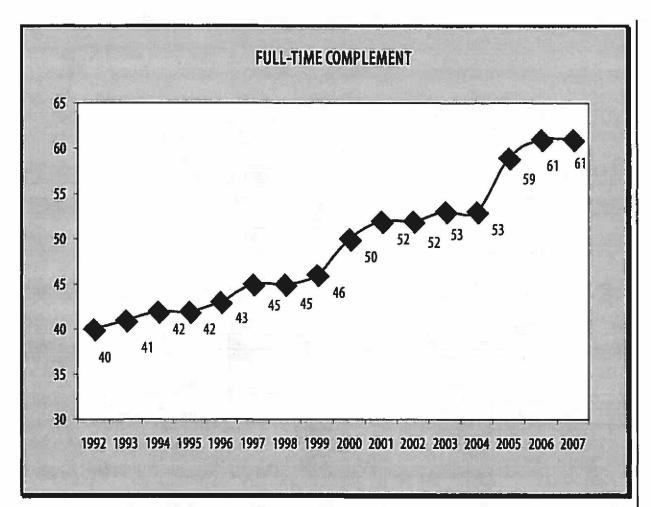

Additional debt issuance to complete the Riverside Parkway.

Added staff to handle the projected doubling of traffic enforcement efforts.

The Administrative Services Department of the City of Grand Junction is a multifaceted support department providing numerous services to the public and to other City departments. Seven divisions comprise Administrative Services including Administration, Budget & Accounting, City Clerk's Office, Customer Service, Human Resources, Information Systems, and Purchasing.

The entire department's General Fund budget is proposed at approximately \$3.7 million for 2006 and \$3.8 for 2007, a 6.1% increase per year. Two new positions have been requested for 2006 - a Tax Enforcement Officer for the Customer Service Division, and an Administrative Clerk position for Human Resources/Risk Management. The department's budget including its portion of the water and parking, as well as self insurance, data processing and stores funds, is requested at \$8.6 million for both 2006 and 2007. The average increase for each of these two years is 0.7%

The Administration Division is comprised of the Director, the Auditor, and an Administrative Specialist. The Director is responsible for management and coordination of the various divisions and the interrelationships with other City Departments, and the communication with the City Manager and City Council.

The Budget & Accounting Division provides services made up of accounting, budget, cash management, reporting, payroll processing, and controlling functions. Accounting includes journal entries, expenditure control and recording through purchase order entry and invoicing, petty cash check control and processing, accounts receivable functions, delinquency and bad check collections, debt payments, fixed asset recording and transfers. Budget functions include analytical and technical support to all departments as well as budget control and balancing. Cash Management includes revenue and expenditure processes, bank reconciliations, and investments. Financial reports are prepared for many individuals and organizations including the Comprehensive Annual Financial Report. Payroll is processed and distributed citywide. Controlling functions are included in all of the above as internal controls.

The City Clerk's Office primary functions are to maintain the City's official records and the City's Code of Ordinances, conduct municipal elections, process and issue liquor licenses, and prepare and staff City Council meetings. In addition, this division responds to a major portion of citizen inquiries

concerning City policies, ordinances and procedures and provides centralized mail processing.

The Customer Service Division includes Utility Billing, Sales Tax, Cashiering, Municipal Court and Parking Meter Maintenance. All of the Customer Service Representatives in this area are extensively cross-trained to assist customers with their needs in any or all of the five areas mentioned above. However, specific people have been allocated to specific funds to simplify budgeting and personnel processes.

The Human Resources Division ensures effective selection, development and retention of the City's work force. This includes recruitment; testing and selection; salary and fringe benefit administration; and policy and procedure development. Additional services include coordination of citywide training programs; administration of recognition and incentive programs; and employee counseling. Risk Management is included in this division and handles safety, loss control and property/liability programs and the administration of the City's self-funded worker's compensation and health insurance programs.

The Information Systems Division currently supports the data information processing and voice communications services for all of the City's departments. The data information processing needs are met citywide by a networked system connected by a sophisticated system of leased lines, modems, network hubs, and multi-protocol routers. The systems include financial, human resource, utility billing, sales tax, email, GIS, word processing, spreadsheet, database, AutoCad, citation management, cemetery management, ISYS Records Management and other programs. The support of the City's Geographical Information System was transferred to this Division in 2005, which added six positions. These positions were transferred from Public Works and Community Development.

Voice communications are supported through the use of several programmable PBX systems which have been linked into a citywide network through the use of leased dedicated extension lines, digital T1 lines, and City owned lines.

In addition, to support of all of the basic hardware and software, they also provide user education and custom programming support for the approximately 500 City employees. Support is provided for 55 distinct network servers and approximately \$2 million in computer hardware and \$2 million in computer software.

The Purchasing Division is comprised of purchasing, stores, and print shop. Purchasing responsibilities include the administration of the city's formal bid processes for the procurement of all goods and services over \$5,000, cost control and monitoring of general purchasing within the City government, and purchasing stock for City Stores. The City's purchasing card program is administered and monitored by this division. City Stores is a maintained inventory of frequently used or essential materials that are issued to City departments and occasionally other government agencies. The Print Shop provides central duplicating and printing services including the preparation of an extensive variety of books, pamphlets, binders, and forms for the various City departments.

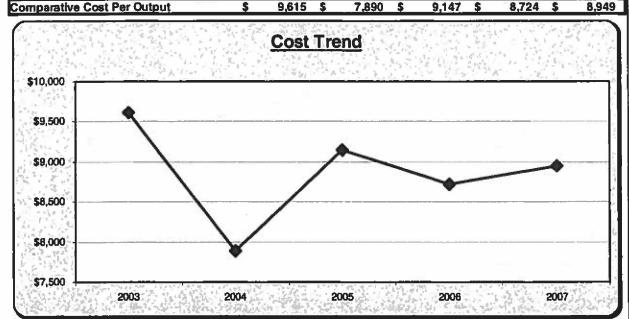

Strategic Plan

- Economic Development Wage Study as part of the Economic Development strategy and efforts.
- Exceptional Service E-Gov strategies for on-line processing of payments.
- Exceptional Service Customer service training, and culture of customer service for all employees.
- Solution: A balance of character, economy, and environment. Our department as a whole, with Budget & Accounting, Human Resources, Information Systems, Purchasing, Customer Service, and the City Clerk's Office supports this Strategic Plan solution area.

Future Outlook

- Continued emphasis on workforce training.
- Evaluation of the City's Central Stores operation for our major users Public Works & Parks and Recreation.
- Continued development and enhancement of our Internet and Intranet sites.
- Wellness programs that improve our workforce's health and happiness long-term.
- E-Gov applications for employment on-line, payment processing, and web-based development permitting.
- Work to address future financial needs, while dealing with TABOR issues and options.

PRIMARY GOALS & OBJECTIVES FOR 2006 AND 2007

- Continue emphasis on workforce training.
- Evaluate the City's Central Stores operation for our major users (Public Works and Parks & Recreation).
- Continue development and enhancement of our Internet and Intranet sites.
- Continue to maintain an atmosphere of individual worth and involvement.
- Implement wellness programs that improve our workforce's long-term health and happiness.
- Implement E-Gov applications for employment on-line, payment processing, and web-based development permitting.
- To accomplish City required solicitations in the most ethical and honest manner, consistent with national standards, practices and procedures.
- Work to address future financial needs, while dealing with TABOR issues and options.
- Complete additional debt issuance to complete the Riverside Parkway.

PRIMARY GOALS & OBJECTIVES FOR 2006 AND 2007

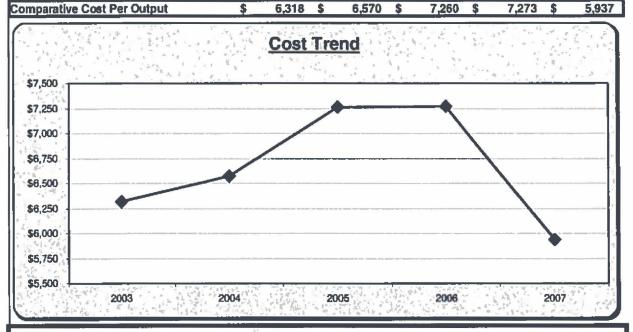

- Continue to monitor self-insured employee health benefits and communicate health cost reduction strategies and goals to employees. If results warrant, begin employee reward sharing via premium reductions, wellness incentives and/or benefit enhancements.
- Evaluate and bid Third Party Claims Adjusting contract for City self-insured workers' compensation program.
- Effectively communicate goals of safety award program and coordinate with other employee recognition programs to enhance effectiveness. Follow up and monitor results of safety award programs.
- Continue to research and evaluate property and liability insurance options; determine and select optimum
 coverage and levels of self-insured retention.
- Coordinate with Riverside Parkway Project to secure optimum insurance coverage packages for the construction phases.

- City of Grand Junction Stores Operations has a goal of reducing stock-outs by effectively and efficiently
 managing inventory levels consistent with EOQs for each individual inventory item based on standard re-order
 policies and inventory elimination policies.
- To educate City employees concerning electronic ordering of inventory items by use of the on-line, real-time catalog.
- To provide exemplary next day delivery services for City of Grand Junction stores customers.
- To eliminate inventory that does not meet the criteria of critical to the City mission, long lead times for special equipment, not readily available locally or not used by multiple departments.
- To organize the records management area to make it more readily accessible to our customers.
- To facilitate the storage and movement of surplus property for disposal or auction.

- Complete phone system upgrades at City Hall, Shops and Fire Substation #4.
- Install new network connections and reconfigure systems to compensate for new copier/printer program.
- Redesign network addressing design.
- Implement Banner Finance system upgrades (Versions 7 & 8).
- Implement GroupWise E-mail system upgrade.
- Assist Fire Department in selection and installation of new Fire Records Management System.
- Implement E-Gov applications for web site to provide on-line utility bills and payments, web-based development permitting, and self service employment applications.
- Investigate possibility of installing a system to provide wireless access to our networks and systems to meet the needs of the Police, Fire and Public Works Departments.
- Complete sewer system and storm sewer maps.

- Development Services
- Code Enforcement
- Community Planning

Facilitate the creation and implementation of plans, policies and programs that promote the orderly growth and development of Grand Junction in order to preserve and enhance the quality of life for the community.

SIGNIFICANT BUDGET ISSUES

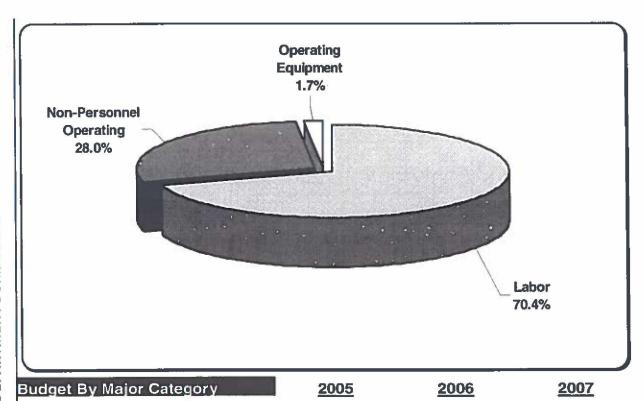

Four positions are being recommended for the 2006 – 2007 budget period: One Senior Planner, one Associate Planner, one Administrative Assistant and one Administrative Clerk. The addition of the planning staff will directly impact the development review workload as well as the proposed community planning projects. The Administrative Clerk will be assigned to Code Enforcement to provide customer service as well as assisting with the paperwork associated with the growing enforcement caseload.

The addition of two planners will directly impact the development review workload. The Senior Planner will primarily be assigned to development review which will allow a more reasonable workload among the planning staff resulting in more thorough, accurate and timely review of development projects. Depending on the workload at mid-year when the Associate Planner is assigned, this position will most likely be more evenly split between development review and community planning projects.

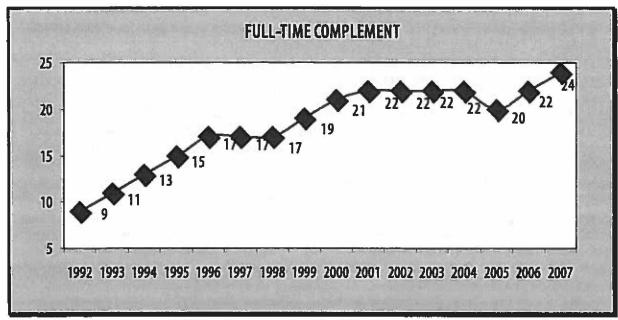

For the last 18 months, the number of development applications has resulted in the delay of community planning projects. The addition of planning and ciercal staff and the resulting decrease of individual workloads should result in the ability to undertake these projects again. Highlights of the proposed plans for the next two years include:

North Avenue Redevelopment Plan South Downtown/Riverside/El Poso Area Plan Mesa State Area Plan Downtown Plan (with the DDA)

In the absence of additional enforcement personnel, Code Enforcement's ability to do proactive enforcement will continue to decrease as their complaint workload increases. Officers will be participating in the neighborhood program as it continues to grow and neighborhoods are encouraged to resolve their own issues, especially in areas that are Zoning and Development Code related.

The structure of the Community Development Department consists of the Administration, Planning and Code Enforcement divisions. The Planning Division is further divided into Community Planning activities (neighborhood plans, historic preservation, corridor planning) and Development Services (review of annexation and development proposals). A series of organization codes are used to separately account for specific Community Planning projects.

ADMINISTRATION

Administration provides overall direction and coordination for the department. In addition, this division provides assistance to the general public and neighborhood groups, provides technical assistance to City Council, the Planning Commission, Board of Appeals and other boards and commissions, and is responsible for the department's budget development and control. The department is headed by a Director who has a full-time Administrative Specialist for support.

PLANNING DIVISION

The Planning Division is currently assigned four full-time Planning Technicians, three Associate Planners, three Senior Planners, one Principal Planner, one Supervisor and a Planning Manager.

DEVELOPMENT SERVICES

The Development Services Division leads a team of city departments and outside agencies in the review of development proposals to ensure comprehensive reviews and to the elimination of regulatory overlap and conflicting provisions. The division provides the front line resources to assist customers in obtaining various permits for development, as well as providing information on properties regarding zoning, setbacks, etc. The Development Services Division works with our customers as partners and is committed to helping design projects that achieve our customers' goals and objectives, as well as those of the community.

Community Planning & Project Planning

The purpose of the Community Planning Division is to initiate and facilitate long-range planning efforts for the City. The division oversees and updates the Grand Junction Growth Plan, which is the community's vision for the urban area. Implementation of the Growth Plan, including area plans and code and policy updates, are also coordinated by the Community Planning Division. Other functions include management of the City's Historic Preservation program,

annexations, the Community Development Block Grant program and providing back up for the review of development applications.

CODE ENFORCEMENT / WEED ABATEMENT DIVISION

The Code Enforcement Division focuses on promoting community appearance standards adopted through various area plans and in the City Council's strategic plan. The division ensures compliance with the City of Grand Junction Zoning and Development Code and provisions of the Code of Ordinances. The division's approach is to support Community Based Policing standards and the recently established Neighborhood Program in nurturing neighborhood and business associations. This approach is implemented by providing education about adopted codes, maintaining a usable webpage, attending neighborhood meetings on request, operating a pro-active weed abatement program for weed violations and responding to citizen's zoning and nuisance complaints. The division also supports Development Services activities through review of site plans, sign and fence permit inspections and assisting planning staff in enforcement actions. There are five full-time employees in this Division consisting of a Code Enforcement Supervisor, three Enforcement Officers and an Administrative Assistant. Three part-time seasonal employees join the workforce during the summer months in the weed abatement program.

DEPARTMENT WORK PROGRAM 2005-2007

2005 PROJECTS

- Jarvis Property Master Plan
- Procedures Manual
- 24 Road Corridor Plan
- ZDC Amendments

2006 PROPOSED PROJECTS

- South Downtown / Riverside / El Poso Area Plan
- 5 Year Consolidated Plan (Mandatory to be adopted by June, 2006)
- North Avenue Redevelopment Plan (consultant) access, visual, amenities
- SSID Manual Update

2007 PROPOSED PROJECTS

- Community Appearance Standards / Telecommunications / Westside Downtown Plan Implementation
- Enclaves
- 29 Road Corridor Plan
- Mesa State Area Plan
- Prepare for Growth Plan Update consider comprehensive plan versus growth plan

ON-GOING PROJECTS AND ACTIVITIES

- Development Review
- Code Enforcement
- CDBG
- Historic Preservation
- Zoning and Development Code Updates

FUTURE OUTLOOK

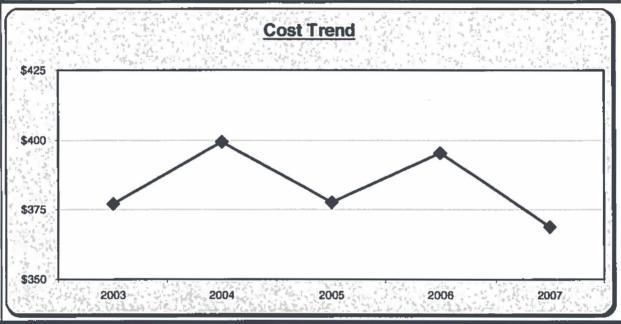

The following three items are examples of issues that the Community Development Department will be looking towards in the future:

The City's Growth Plan is due to be updated beginning in 2008 which will require some up front activity during late 2007. There has been some consideration that the update should take the form of a comprehensive plan with multiple elements (for example: land use, transportation, housing, sewer, water, parks and recreation, etc) rather than continuing as a single element land use plan in its current form. The City Manager's Office will be managing a project that considers the impacts of the current annexation trends as a prelude to determining the timing and extent of the Plan update.

As the current phase of the Jarvis Property Master Plan is completed, Council will be deciding what role they will take in the future development. While that role is currently not known, the Department will continue to play a major role as necessary Growth Plan amendments and re-zonings are processed and the property is entitled for development. The expected timelines for various steps in the entitlement process could affect the ability to complete other proposed projects.

The Department will continue to address perceived issues that are seen as disincentives to economic development and continued development in the City. Community Development staff and the development engineers are currently involved in training to identify how we can address the "negative attitude" issue that was highlighted in the Listening To Business survey. Changes in the review process timelines may be considered. Increased staffing levels will result in more thorough and accurate reviews.

PERFORMANCE MEASUREMENT								
	2003 Actual		2004 Actual		2005 Revised	2006 Budget		2007 Budget
GENERAL FUND		_		_			_	
Operating Budget \$	1,819,557	\$	2,001,368	\$	2,187,624	\$ 2,501,415	\$	2,486,779
Inflation Index	186.8	3	187.0)	190.9	195.9		201.8
Percentage Change from Base Year	Base	€	0.11%		2.19%	4.87%	,	8.03%

Primary Workload/Output Measures								
# of Applications & permits processed	1,530		1,535		1,510	1,614		1,663
# of Code & Weed cases	3,295		3,470		4,154	4,405		4,538
Total Output Measured	4,825		5,005		5,664	6,019		6,201
Comparative Cost Per Output \$	377	\$	399	\$	378	\$ 395	S	369

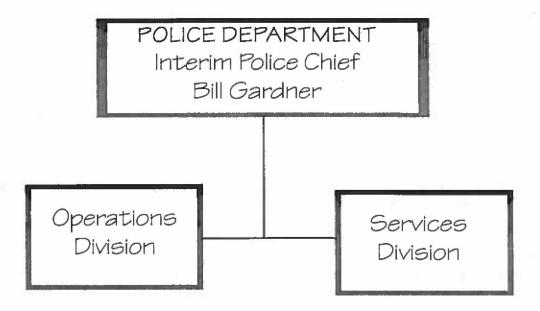

- Initiate and complete plans for Riverside, El Poso and South Downtown areas (2006).
- Complete 5-year Consolidated Plan (mandatory to be adopted June, 2006).
- Complete North Avenue Redevelopment Plan (2006).
- SSID Manual update (2006).
- Implement community appearance standards, telecommunications, Westside Downtown plan (2007).
- 29 Road Corridor Plan, Mesa State Area Plan, Downtown Plan (2007).
- Prepare for Growth Plan update consider comprehensive plan vs. growth plan (2007).
- Ongoing development review, code enforcement, administration of CDBG program, and historic preservation efforts.
- Zoning and development code updates.

- Services
- Operations

Maintaining quality of life in the community, while continuing to respect individual liberties and personal dignity, will be the benchmark used to gauge our success in the delivery of law enforcement services. Remaining mindful of the people's will and continuing to be responsive to the community's needs will be the standards that our performance is measured against. The abatement of criminal activity as it affects quality of life is our mission, and it will continue to be so long as crime deprives every citizen of the right to feel secure in their homes and in their lives.

The delivery of timely, courteous, quality service is our mandate to the men and women of the Grand Junction Police Department, always without the use of unnecessary force, and always with the intent to solve the problems that people call us for assistance. Our pledge is to embrace the community in solving problems. And in doing so, solicit their input and their ideas with the ultimate goal being open communications and positive relations between the community, and the law enforcement professionals that serve the community, so that problem solving becomes the cooperative effort that it must certainly be.

SIGNIFICANT BUDGET ISSUES

Increase traffic enforcement via dedicated traffic enforcement officers.

Acquire the National Guard Armory on River Road, to include remodeling and obtaining a shelving system, and then move the Property / Evidence section into the building. The current lab area will be remodeled during this time as well.

With our growing population, expanding City boundaries (annexations), increased calls for service, and the added responsibilities of community policing, we have seen an immense impact on the ability of the Grand Junction Police Department to effectively accomplish its mission. Calls for service per patrol officer is expected to continue to grow, but the addition of officers in 2006 will temporarily bring this to a manageable level.

Another measure of the impact of annexation and call load is the response time to calls for service. The expanding time range between when a citizen calls for service and when a police officer arrives on the scene has lengthened in all categories, while the response time for the highest priority calls still average around 10 minutes. Since 1997 response time to emergency calls for service (Priority 1) have increased by 55% from an average of 6.5 minutes to over 10 minutes.

The Grand Junction Regional Communication Center must keep up with constant changing technology in order to continue to provide excellent public safety service. Over the next year, the Communication Center will be able to locate those who dial 9-1-1 using their wireless telephone or their internet phone line (Voice over IP {VoIP}).

- Continued from previous page -

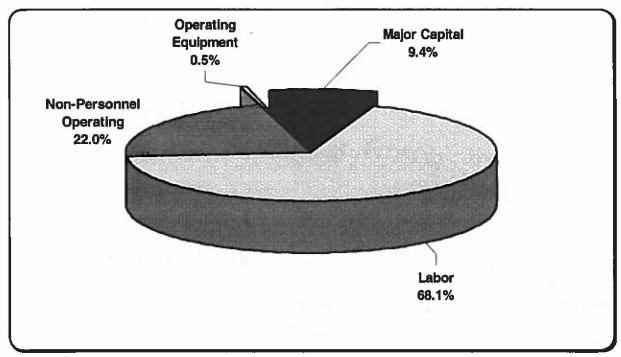

The Grand Junction Regional Communication Center has received a grant award for \$200,000 from Department of Local Affairs (DOLA) to assist with the purchase of a Mobile Communication Vehicle. It will provide a portable communication center for emergency situations or Communication Center failures of some sort.

Much of the growth in the 2006/2007 Police Budget are tied to technological advancements and equipment which make the operation more efficient and enhance officer safety.

In 2005 we installed and implemented the latest version of our records management system and implemented a comprehensive document imaging system. We are in the process of finishing this project with the purchase of an interface and upgrade to the field based reporting system. This final piece will provide us with an integrated wireless reporting system that will show advances in efficiency and will eliminate the need for staff to enter data into computers at the station.

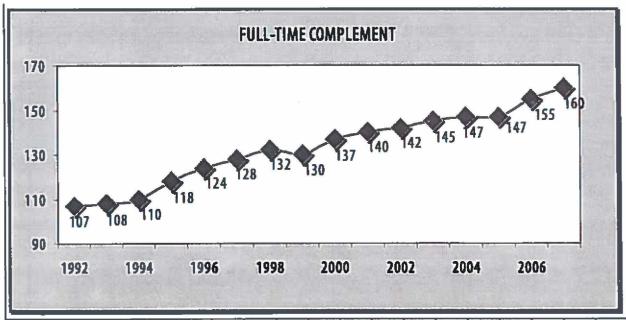

The Colorado West Mental Health is planning to open sometime in December of 2005. Upon opening, all services related to mental health care and detoxification will be transferred from St. Mary's Hospital to Colorado West Mental Health. This switch in service providers will afford some increased benefit, in terms of secured facilities for both detoxification and mental health care.

Mesa County is committed to funding a Methamphetamine Treatment Center to treat people who are addicted to the drug methamphetamine (meth). Due to the scope of this problem, the City will most likely be asked to assist in funding the treatment center or other commitments to the program in the near future.

The Police Department is comprised of several major operational units that include the Uniformed Patrol Section, the Investigations Section, the Records Section, the Crime Laboratory and Property Unit, the Professional Standards Unit, a Community Advocacy Unit, and the county-wide 9-1-1 Communications Center.

The Chief of Police is responsible for the overall leadership, coordination and management of the Department. The office is also the liaison with other City Departments, City Manager, City Council and other agencies. Two Police Captains administer their respective Divisions, Operations and Services, and are responsible for the operational supervision of the Department.

Strategic Plan Linkage

- Continue public education with community partners about transient issues, including panhandling.
- Research methods to facilitate more efficient and personal contact and communication between the City and its residents.
- Communicate with neighborhoods to assess their views and needs for services.
- Identify partnerships, and appropriately support their needs and make the partnerships known to the youth.
- Develop specific events and activities in each neighborhood to build and enhance relationships.

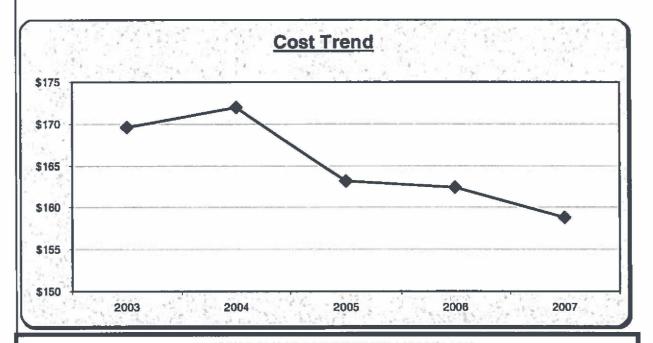

Future Outlook

- The Department will be faced with new challenges in selecting a new Police Chief.
- The need for a new police building is well documented; but how to fund this significant undertaking presents many challenges.
- The Grand Junction Regional Communication Center will provide a recommendation to the Communication Center Board regarding future staffing needs and will ad-

dress how to deal with training new employees based on changing technology, and new EMS protocols.

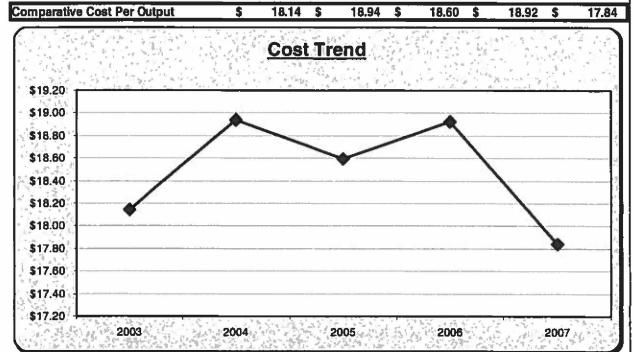

- The Emergency Telephone Service Authority Board plans to make a decision as to what year migration toward a Digital Trunked Radio System should begin so that funding can be planned and grant assistance sought.
- The Colorado Bureau of Investigation (CBI) is planning to move its facilities to Grand Junction by 2008. We are currently exploring options of merging our Lab operations with theirs.
- Continue to develop a local police academy in collaboration with Mesa State College. Challenges in the recruiting of police officers requires long term planning to develop a recruiting model that incorporates the advantages of developing individuals from within the community with those who are certified officers. This collaboration is viewed as a step forward in addressing these challenges which is a further commitment of the department's community policing strategy. The success in our current noncertified recruitment program has also encouraged us be part of this collaboration.
- Maintain Accreditation of the Police Department by the Colorado Association of Chiefs of Police (CACP).
- Continue Training of Department personnel to meet emerging technological, social and criminal justice issues.

- Enhance emergency patrol response times to provide timely, quality and courteous police services.
- Enhance current community policing initiatives and problem solving policing philosophies.
- Maintain accreditation of the Police Department by the Colorado Assn. of Chiefs of Police (CACP).
- Consolidation and integration of the Information Management Systems, both internally and externally.
- Continue training of department personnel to meet emerging technological, social and criminal justice issues.
- Plan for a new police facility.
- Increase traffic enforcement via dedicated traffic enforcement officers.
- Address service delivery challenges due to growth and annexation impacts.
- Collaborate with Mesa State College for the creation of a local police academy.
- Continue discussions with the Colorado Bureau of Investigations for the purposes of combining crime laboratories on the Western Slope.
- Continue to improve on the expertise, efficiency, services and analysis provided by Crime Lab and Property section.

- Continue working with Mesa County to integrate the Computer Aided Dispatch System (CAD) with the Mesa County Sheriff's Office Records Management System.
- Keep up with constantly changing technology, including the ability to locate those who dial 911 using wireless or internet phone lines (Wireless Phase II).
- Purchase a Mobile Communication Vehicle (partially funded by a grant award from DOLA), to serve as
 an evacuation point should the center suffer a catastrophic failure or be unable to function.
- Development of radio transmit and receive sites and microwave radio connectivity to enhance the availability
 and quality of public safety radio communications in the rural areas of Mesa County. This project is in partnership with the State of Colorado and partially funded by a grant from the Wireless Interoperability Network.
- Become fully staffed and trained, including the addition of 1 additional 911 telecommunicator in 2006.
- Continue to upgrade and replace outdated radio equipment

The Grand Junction Fire Department strives to preserve and enhance the quality of life in the community we serve by responding to public need in matters of fire protection, medical emergencies, and natural and man-made disasters, while also mitigating the effects of these potential emergencies through educational programs, fire loss prevention, and emergency response.

SIGNIFICANT BUDGET ISSUES

Mesa County EMS Resolution

- Implementation of structural elements
- Selection of an ambulance provider for the Grand Junction Ambulance Service Area

Grand Junction Rural Fire Protection District

Debt service for fire apparatus/equipment

Technology improvements

- County-wide EMS records management system
- Automatic Vehicle Location (AVL) link with Dispatch
- Mobile data terminals (MDT) capability in response vehicles

sonnel. The Training Officer also provides support for the Department's promotional and recruitment processes on a bi-annual basis. In 2004, 13,926 hours of training were documented. Training of the Department's personnel is key to its ability to appropriately respond to and mitigate major emergency events.

Fire Suppression — Fire control is a complex process involving a number of activities carried out simultaneously. In addition to extinguishing the fire, fire fighters rescue trapped individuals, minimize loss by covering or removing personal property, and coordinate the efforts of multiple agencies during an incident. In 2004, the Department responded to 83 structure fires and 246 miscellaneous fires with a total estimated dollar loss of \$837,939.

Hazardous Material Response - Chemicals, biological agents and radioactive materials continuously move through our community. Accidental release events involving a hazardous material(s) are guite varied and have the potential to adversely impact our citizens, property, environment and economy. Hazardous material events occur with limited frequency and therefore preparation, training, and interagency coordination are vital to responding to and mitigating incidents. In 2000, the Department and Grand Junction Police Department jointly developed the Hazardous Device Team. This team is a logical role within the Department's hazardous material responsibility and is comprised of specially trained individuals who render safe explosives and improvised explosive devices. In 2004, the Department responded to 11 hazardous material events involving releases of materials that were above federal reportable quantity levels.

Emergency Medical Services Response — Currently, the Department provides services within a "two-tier" system. This approach uses Department paramedic resources as a first-responders as the first tier and a private ambulance transport agency as the second tier (transport of the patient). This type of system is a fairly common system design and allows fire responders to provide rapid response and initial treatment and

stabilization of patients. On calls where the patient's condition is considered serious/critical the Department's paramedic is available to ride in and assist ambulance personnel with patient care. Otherwise, the system is designed to allow fire personnel to return to service in a relatively shot amount of time. This use of resources allows the system to maintain a high level of capacity to handle emergency events. The Section also provides coordination and support of medical services in the following major categories: Continuing Quality Assurance/Improvement: EMS training/continuing education; National, State, County regulation compliance; data collection/analysis; private ambulance permit oversight; local/regional EMS coordination; Medical Surveillance Program coordination; multiple casualty incident planning/preparation; EMS planning; EMS budget preparation/oversight. A major consideration for the future of the Department's EMS delivery system is related to the Mesa County EMS Resolution that took effect in January 2005. The Resolution provides new requirements and formal structure of EMS services within Mesa County. A major decision related to the Resolution is the selection of an Ambulance Service Provided for the Grand Junction Ambulance Service Area. The City is in the process of making a selection and recommendation to Mesa County.

Technical Rescue — The relative isolation of the area, varying terrain, and recreational activities of the public require preparation for virtually any emergency. Specialized rescue includes rope, water, and confined space rescue.

<u>Grand Junction City Council Strategic Plan Linkage /</u> Customer Service

The Grand Junction Fire Department (GJFD) embraces the City of Grand Junction's mission statement:

"Our mission is to create a great community. We will:

Act with openness, respect, integrity, accountability and
equality;

Preserve and promote health, safety and quality of life; Provide exceptional municipal services.

"Expanding on this concept, the mission of the GJFD is, "To ensure the quality of life for our community through prevention and effective mitigation of emergencies which threaten life and property." The above mission statements set the Department's direction and drive its goals and objectives.

To this end, the Department is concerned with our citizens, as well as agency feedback. The City's 2005 Citizen Survey provided some insight into how citizens view the Departments provision of fire and medical services. The Department is very proud and pleased that the results of the survey show a general improvement and high value of services.

City Council Strategic Plan Linkage — While there are no goals or objectives specific to the Fire Department in the Strategic Plan, the Department is impacted by several solution areas contained in the plan.

- Develop and maintain public and private sector partner ships which enhance economic opportunities.
- Continue to provide exceptional services to all areas of our community as we continue to grow.
- Communicate with neighborhoods to assess their views and needs for services.
- Educate citizens about City services currently being provided.
- Engage, listen and respond to youth.
- Continue to support community partnerships that promote positive behaviors in youth.

 Expand the partnerships and broaden the strategy for joint development of public facilities, including neighborhood parks.

Future Outlook

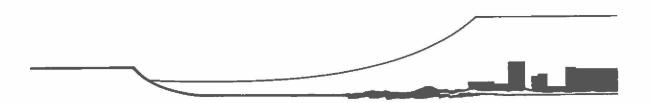

Continued consideration of recommendation from the Emergency Services Consulting Study for Mesa County

Planning for the impacts of growth Changing mandates and citizen expectations

PERFORMANCE MEASUREMENT								
	2003 Actual		2004 Actual		2005 Revised		2006 Budget	2007 Budget
GENERAL FUND								
Operating Budget \$	7,303,457	\$	7,981,544	\$	8,739,926	\$	9,345,397	\$ 9,612,950
Inflation Index	186.8	3	187.0	}	190.9		195.9	201.8
Percentage Change from Base Year	Base	3	0.11%	,	2.19%)	4.87%	 8.03%
Inflation Adjusted Operating Budget \$	7,303,457	\$	7,972,998	\$	8,548,097	\$	8,890,134	\$ 8,841,032
Primary Workload/Output Measures								
Medical Responses	6,148		6,189		6,460		6,797	7,124
Fire & Other Response	1,480		1,514		1,770		1,612	1,664
Total Output Measured	7,628		7,703		8,230		8,410	8,788
Comparative Cost Per Output \$	957	\$	1,035	\$	1,039	\$	1,057	\$ 1,006

- Continue to focus on valuable relationships such as the joint fire/police hazardous device team, hazardous
 material response and mitigation agreements with Mesa County and the BLM, mutual and/or automatic aid
 agreements with other emergency response agencies, and the pending move toward a county-wide records
 management system.
- Evaluate the impact of the Mesa County EMS Resolution.
- Reevaluate cost share agreement with Grand Junction Rural Fire Protection District.
- Provide leadership and direction to appropriate Fire Department team members on department-specific plan objectives and meet all plan deadlines for 2006.
- Maintain and improve training standards and certification requirements, including national standards on service delivery.
- Continue involvement with youth through the Fall School Program, scheduled classes, station tours, career fairs, SOBER Grad, and various other events geared to youth.

- **►** Wastewater Services
- ♠ Water Services

The City of Grand Junction is into its second century of addressing the quality of life issues that makes this City a "grand" place to live. Public Works and Utilities is responsible for insuring that traffic runs smoothly, that safe drinking water is available, that trash is collected, that leaves are picked up, that sewage services are available, and that the City's capital improvements are completed with a minimum of disruption to our customers - the City residents.

There is an ever-increasing public expectation for smooth streets, safe bridges, welllit neighborhoods, sidewalks, curbs and gutters, clear street identification, and traffic control signalization. This has resulted in Public Works meeting objectives that ensure that the public is getting the quality of life it expects.

Trained employees with an attitude toward public service have helped the Department meet these objectives.

Public Works Division

Growth and Annexations continue to impact Public Works operations. While the number of single lane miles has increased 6% per year since 2002, the number of employees has remained constant. As a result, some program changes, primarily in street cleaning, will be implemented in 2006 and 2007 that will reduce the level of service provided by the Department.

- Spring Clean-up Program This popular program continues to increase in size and cost. Over the past 10 years, the program has increased by 10% per year. The 2006 & 2007 budgets include an 8% increase for this program.
- Street Sweeping This program will continue to focus on arterial and collector street cleaning at a frequency of 2 times per month per street. Residential streets are currently cleaned 4 times per year. As the number of lane miles of arterial and collector streets increase, residential street cleaning will be reduced to a point in 2008-09 where we will only be cleaning the arterial and collector street system.
- Leaf Program In response to comments from the 2005 Household Survey requesting more frequent pick up of leaves, this program will provide weekly pick up of leaves beginning in 2006.

Chip & Seal Program — While the City street system continues to grow, a recent analysis of this program indicates the present in-house resources are adequate to provide this service internally in 2006 and 2007. Recent changes in the program have reduced the time loose chips are left on the street.

SIGNIFICANT BUDGET ISSUES - continued -

Utilities Division

There were no utility rate increases between 1996 and 2002. In January, 2006 water revenues are expected to be met by a .50 cent increase in the minimum rate block, increasing this from \$7.00 to \$7.50. An additional 2% rate adjustment is expected in January 2007. Solid Waste's rates will remain "as is" for 2006 with a 4% increase projected for 2007. Irrigation Service rates will remain unchanged for 2006, but with a 5% increase in 2007 to reflect a significant increase in electric charges. Wastewater rates are projected to increase 2.5% in 2006 and 2007. Wastewater plant investment fees will increase from \$1,500 to \$1,750 per single family equivalent unit in 2006. An update to the 2001 rate study is expected to be completed shortly after the first of the year.

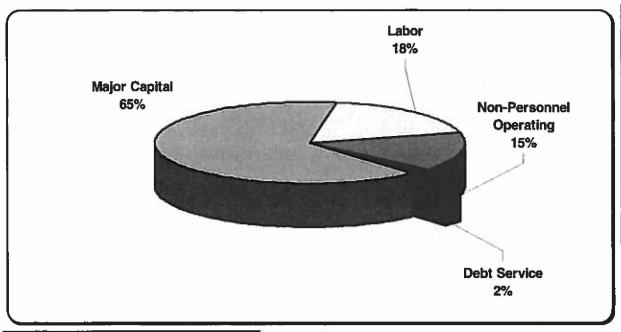

- Funding for water conservation educational efforts will continue in 2006 and 2007 as well as projects supplying additional water to the Grand Junction system, such as the Somerville supply diversion.
- Because of significant water line replacements in the past two years, Water Services is expected to reduce funded positions by 2.5 persons during the 2006-2007 period.
- Water Services has also averaged a 3.8% per year <u>reduction</u> in non-personnel operating expenses between the years 2001 and 2007.
- Wastewater Services is updating the wastewater rate study which is expected to be published in January 2006. Use of
 excess methane gas at the Persigo Plant will result in significant reductions in electrical costs and special revenue sharing
 funds of \$417,930 per year are budgeted for the special sanitation districts for upgrades to their collection systems.
 Solid Waste will add an additional truck and driver to its system in 2006, resulting from growth in residential collection from
 additional containers to successes in residential competition in the post 1994 areas.

Engineering Division

The 2006-07 CIP budget (excluding the Riverside Parkway) provides \$16,293,000 for improvement of the City's street system, including: 29 Road Viaduct (final design and right-of-way acquisition), Landscaping at I-70 and Horizon Drive Landscaping at I-70 and 24 Road, EI Poso Street Improvement District, 7th & Main Streetscape Project, Orchard (Normandy to 29 Road), The Intersection of G and 26 ½ Roads, and Ranchmen's Ditch Flood Control Project.

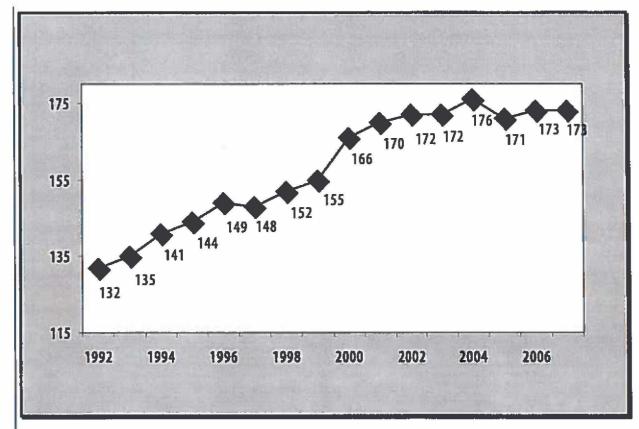

Riverside Division

The primary budget issues for the Riverside Parkway focus around cost of construction. Recent regional cement shortages and the national cost of petroleum have had substantial impacts on the price and availability of key components of road and pipeline construction products. Key local factors include the full employment of construction trades due to the oil and gas industry demands. Escalating rising real estate values will be a challenge for the real estate acquisition associated with the 29 Road and 1-70B interchange in 2006 and 2007.

The Public Works and Utilities Department of the City of Grand tion. A staff of 12 employees performs the aforementioned Junction provides a wide variety of services to the public. The services. department is divided into four main divisions; the Public Works Division, Utilities Division, Engineering Division, and Riverside Parkway Division.

PUBLIC WORKS DIVISION

The Public Works Division provides a wide range of services and is separated into Street Systems, Transportation Engineering, Fleet and Facility Maintenance, Development Engineering and Public Information. Street Systems provides the maintenance for three of the complex infrastructure systems mentioned above. The other divisions provide support services for the infrastructure systems and other City departments.

The Public Works Manager performs the administration of the division with the assistance of the Public Works and Utilities Director and Senior Administrative Assistant. There are 93.75 employees working for this division which would make it the second largest department in the City of Grand Junction, next to the Police Department.

Street Systems Division: Street Systems has the maintenance responsibility for the following infrastructure systems: street systems, storm drain systems, and irrigation road crossings. Most of the services provided fall into ten (10) major categories. Some categories are seasonally driven for example leaf pickup, snow/ice removal, spring cleanup, seal coating, irrigation systems maintenance/improvements, and sidewalk grinding activities. Other categories that continue year around are asphalt patching, street cleaning, crack filling, and storm drain system maintenance improvements. Some categories are performed on an as needed basis such as responding to emergencies caused by flooding or property damage. The division employs 26 employees that perform the tasks necessary to maintain these systems.

Transportation Engineering Division: Transportation Engineering provides two major services to the City of Grand Junction; transportation engineering and maintenance/operations. Traffic Services provides the operation and maintenance of the traffic facilities. These include striping and marking of City streets and parking lots, an inventory of 11,869 signs, 88 traffic signals, 25 school flashers and street lighting. Transportation Engineering provides services in transportation planning, signal timing, traffic studies and data collection, new street lighting, development review, pedestrian educa-

Fleet and Facility Maintenance Division: Fleet and Facility Maintenance provides two major services to the City of Grand Junction. Fleet Maintenance operations consist of the maintenance and repair of most City-owned vehicles and equipment. A staff of 14.75 employees performs the fleet and facility services outlined above. Facilities Maintenance provides for the repair and maintenance of most City-owned buildings and facilities including janitorial services.

Public Information: The Public Information Coordinator is responsible for two-way communication between the City's Public Works and Utilities department and residents of the City and region. A wide variety of communication tools are used, including providing information to the media, newsletter articles, City Page articles, press releases, direct mail, utility bill stuffers, brochures, use of the City's website, and public meetings. Time is also spent on internal communications within the department and with other departments of the City, and a monthly report is produced. Much time is spent on public involvement activities, including hosting open house meetings and creating a public process for citizens to give us input and feedback on major capital improvement projects such as the Riverside Parkway and the 29 Road/I-70B interchange. In addition, the Public Information Coordinator provides communications advice and consulting for the 5-2-1 Drainage Authority and public education on such topics as storm water, recycling, and the Drought Response Information Project.

Development Engineering: The Development Engineering Division is located within the Community Development Department and provides technical review of subdivision plats, construction plans, specifications and engineering reports for residential, commercial and industrial developments. The Division also participates in the development of long range area or community plans. These plans provide the framework for future developments and ensure proper public infrastructure including roads, bridges and drainage improvements are incorporated into these developing areas.

The development engineers attend pre-application meetings and development review meetings with City staff, developers and consultants. They also participate in Planning Commission hearings to provide technical information and advice to assigned development projects.

UTILITIES

The Utilities Division of Public Works manages four separate enterprise funds which include, Water Services, Solid Waste and Recycling, Wastewater Services (inside and outside the City limit boundaries), and Irrigation System Services for the Ridges and Redlands Mesa. Water and Wastewater also include the Environmental Laboratories Division as well as Environmental Compliance. Each of these enterprise funds are operated on revenues received from the services provided and also contribute a portion of their gross revenues to the General Fund of the City. The Utilities Division manages these funds using a ten-year financial projection of revenues and expenditures.

Water Services operates two water treatment plants and supplies treated water to the residents of the City, within the City's water service area boundary, and to customers in the Kannah Creek area. The functions of this division include watershed management, transporting raw water to the treatment plant, water treatment, pipeline maintenance and water meter reading and maintenance. Water Services also operates a small hydroelectric plant in the Kannah Creek area. Customer Service and Utility Billing is provided by the Administrative Services Department, but paid from Utility fund revenues.

Irrigation Services supplies and distributes untreated irrigation water to the Ridges and to the Redlands Mesa development, including Redlands Mesa Golf.

Solid Waste and Recycling Services provides exclusive refuse collection services to City residents who were residents of the City <u>prior</u> to April 1994. Commercial service is offered on a competitive basis with private trash haulers. The City also competes with private haulers in residential neighborhoods annexed <u>after</u> April 1994. Recycling provides recycling services to City residents through a contract with Curbside Recycling Indefinitely, Inc.

Wastewater Services operates the Persigo Wastewater Treatment Plant for service inside and outside the City limits, but within the "201 Planning" area of the Grand Valley. Functions of this division include operating the Persigo Wastewater-Treatment Plant and the maintenance and replacement of sewer collection lines. The Persigo System provides treatment only services to three special sanitation districts on a contract basis.

Environmental Lab Services provide water and wastewater analytical data and support services to all water and wastewater operations, utility management, and state and federal governments. The laboratories provide an independent assessment of treatment plant operations and ensures compliance with federal environmental safeguards; including physical, chemical, microbiological and radiological analysis of drinking water supplies.

Environmental Compliance assists the City Utility Divisions in understanding and meeting the many environmental regulations affecting water, wastewater and Stormwater operations. Environmental Compliance is currently assisting in wastewater discharge permit negotiations.

ENGINEERING

The City Engineering Division manages three operational divisions, Engineering, Real Estate and Construction Services. The City Engineering Division also manages the Capital Improvement Program (CIP) Fund.

Engineering provides design, Computer Aided Design and Drafting (CADD) and construction management services for the rehabilitation, upgrade and major maintenance of our public transportation, storm drainage, sewage collection, and water supply/distribution systems. These services are also provided for new building facilities needed to augment the City operations. The CADD team also maintains as-built drawings (14,000+) files for the City's infrastructure systems and provides information to the public and staff concerning the infrastructure systems and specific City projects.

Real Estate provides professional real estate related services for the acquisition of rights-of-way and easements for Capital Improvement Projects; survey services for all Public Works and Utilities Projects and GIS field data for general map updates; management of special improvement districts; preparation of annexation plat maps and review of plats and development plans for compliance with all survey laws and guidelines.

Construction Services provides quality control inspection and testing for all City Capital Improvement Projects and oversees quality control operations provided by consultants for new development. This division also reviews and manages all permits for work by other agencies within City right-of-way.

RIVERSIDE

The Riverside Parkway division was created following the election in November 2003 to oversee the design, right of way acquisition and construction of the seven mile minor arterial road project.

Phase I of the Riverside Parkway started construction in October 2005. This phase, encompassing the eastern four miles of the project, begins at 9th and Struthers and continues east across the proposed Las Colonias Park, north to D Road then east to 29 Road. Mesa County has also contracted with the City to include the portion of 29 Road from D Road south to the Colorado River Bridge currently under construction. Central Grand Valley Sanitation District has also contracted with the City to replace the existing 15" sanitary sewer with a 24" sanitary sewer.

Construction of the first phase is planned to be completed by November 2006, however completion of the 29 Road segment will coincide with Mesa County's Colorado River bridge opening in July 2006. Completion of the 29 Road portion will allow Orchard Mesa residents to also utilize the 29 Road corridor to get to the 30 Road underpass as an alternative to 5th Street.

The remaining two phases will be bid out in 2006. Phase II will be out to bid by April 2006 and will include the reconstruction of River Road from 24 Road to Broadway, 25 Road overpass, and a new road on the east side of the Riverside neighborhood. Phase III, the final phase, will include the interchange with 5th St (Highway 50) and will be bid out in July 2006.

With the experience working with CDOT, the railroad and the multitude of utility companies on the Riverside Parkway project, the Division was also assigned the 29 Road and I-70B interchange project. This project will extend from D Road north to North Avenue along 29 Road and will include a new viaduct over the railroad's hump yard and a new interchange with I-70B. CDOT's Interchange Approval Process (Policy Directive 1601) is proposed to be completed by January 2006 at which point staff will begin work on right of way acquisition. Final design is slated for 2007 and construction is scheduled for 2008-2009.

STRATEGIC PLAN

Public Works Division

Evaluate and redefine the problem and level of effort required to manage weeds. The Streets Division budget includes \$25,000 in 2006 and 2007 to utilize labor from the Partners Program to increase the level of hand cutting of weeds during the growing season.

Utilities

Note: These items are part of a larger document, titled Grand Junction Strategic Plan, 2005-2006 Update, published in February of 2005.

For the Utilities Division, strategic plan linkages center around Continue to promote conservation, reuse, and development of our resources.

Strategies for keeping green waste out of the landfill.
Solid Waste, during 2006, will examine a series of initiatives to manage green waste to include, but not be limited to:
A pilot curbside collection program for a small neighborhood.
Education program for dealing with green wastes at the point of generation. Working with the Mesa County landfill to provide incentives for delivery of green waste for composting by residential generators.

Alternative fuel/increased fuel efficiency.

Solid Waste estimates that, because of automated trash collection, it is using 2.5 trucks less in 2005 than when automated collection began in 1997. In the first six years of automated collection, this equates to \$10,000 per year in fuel savings and, in the last two years, \$19,000 per year in fuel savings.

Increase public education of City recycling program.

In 2006, examine a revamping of the curbside recycling program to include commingling of wastes and inclusion of the recycling fee in the regular monthly "trash bill." This will follow a general survey of City residents who are/are not recycling to determine what features it might take to increase participation in the recycling program.

Increase public information about water conservation.

Continue to fund the Drought Response Information Program (DRIP), an award-winning water conservation education effort among the City, the Ute Water Conservancy District, the Clifton Water District and the Town of Palisade.

On-going participation in the Children's Water Festival at Mesa State College. Examination of a second hydroelectric facility between the Water Treatment Plant, on Reservoir Hill and the Gunnison River Pump station.

Secure additional water storage and water rights.

2006 construction of the Somerville Supply Diversion pipeline from the City's Whitewater Creek watershed, allowing for the use of this water in the winter and preserving stored water in Juniata reservoir. Complete plans for the reconstruction and raising of the Juniata Reservoir spillway, allowing for more water storage. Participation in Western Colorado Waters, Inc. and the Colorado and Gunnison Basin Roundtable processes.

Engineering Division

The two projects to improve the I-70 interchange at 24 Road and landscape it and the one at Horizon Drive are good examples of upgrading existing interchanges and partnering with CDOT to beautify of two of our primary gateways.

The El Poso Street Improvement District is a good example of Neighborhood Planning.

CDOT & FHWA participation in the 29 Road Viaduct 1601 Review Process is a good re-cursor to the same process at 29 Road & I-70.

The 29 Road Viaduct has an MOU with CDOT and Mesa County.

Riverside Division

Both of these projects are key components of the implementation of many of the City's strategic plan objectives. Evaluate and act on funding options. The Riverside Parkway utilizes funding from the 2003 bond election as well as from Union Pacific Railroad through the Public Utilities Commission for elimination of two at-grade railroad crossings.

Negotiating MOUs with our funding partners. A MOU is in place with CDOT for the ownership and maintenance of the Riverside Parkway and Highway 50 interchange bridges.

Sign an MOU with Mesa County regarding the 29 Road Viaduct. A MOU has have been signed with Mesa County for construction of the 29 Road from D Road to North Avenue including the viaduct over the hump yard and the interchange with I-70B. Continue to examine CDOT swaps. The City has taken over ownership of North Avenue from 1° Street to just west of 30 Road in exchange for CDOT owning and maintaining the Riverside Parkway structures/bridges at Highway 50.

FUTURE OUTLOOK

Public Works Division

Public Works will be leading a review of the current PW&U Operations site on River Road. This effort will involve joint planning with other City Departments including Parks & Rec., Fire and Police to establish the best joint use for the site. Similar studies may be completed for other City owned facilities in an effort to develop a long-range facilities plan to address the replacement of older buildings.

Stormwater

The City's new ordinance becomes effective on January 1, 2006 and will require contractors, developers and home builders to comply with the new regulations.

The 5-2-1 Stormwater Authority will develop a fee schedule for storm water in 2006 and implement this new fee in 2007. Revenues from this fee will provide funding for flood control and drainage projects across the valley.

Stormwater Management Plans will be required for all new developments after January 1s. These plans and the specific components including detention basis will be inspected at the time of construction and once per year thereafter.

The Riverside Parkway will complete the first section of roadway in 2006 and a second phase in 2007. Additional operational costs for street cleaning, lighting and striping are included in the 2006/07 budgets.

Public Works will continue to monitor energy costs in 2006 & 2007. We will provide reports projecting rate increases and recommending budget adjustments as appropriate.

Streets Operations

Anticipated growth over the next two years will require the evaluation of the core maintenance functions the Division provides.

The Crack Fill and Chip & Seal programs will be re-evaluated to ensure the in-house costs are competitive with the private sector and adequate manpower is available to complete the programs.

Street Cleaning of residential streets will continue to decrease, in an effort to provide a minimum level of service to the higher order arterial and collector street system.

Utilities Division

Continued Septic System Elimination Program Improvement Districts.

Increased drinking water monitoring for unregulated contaminants, disinfection by-products and Giardia/ Cryptosporidium.

Continued efforts to protect City watersheds from increased natural gas drilling through implementation of the Memorandums of Understanding with USFS, BLM and Mesa County.

Implementation of projects to reduce the consumption of electrical power at the Persigo Wastewater Treatment Plant through utilization of excess methane gas for power generation.

Expectation of continued growth in the City's solid waste operation from second containers, in-fill growth and successful competition for new residential business in the post-1994 areas.

Continuation of an aggressive capital improvement program of water and sewer line replacements and plant upgrades.

Negotiation of NPDES permit renewal.

Engineering Division

Beyond the 2006-07 biennium, the Engineering Division is planning for:

Permitting for the 29 Road Interchange at I-70 will begin 2009.

Improving 29 Road from Patterson north to 1-70.

Partnering with CDOT to consider improvements along I-70B.

Re-constructed 1st Street (North to Ouray)

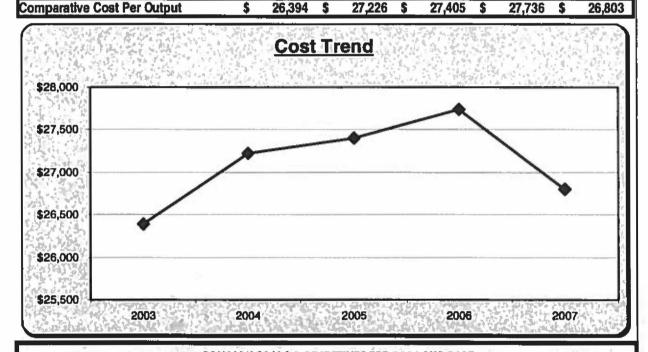

Riverside Division

In the marketing 2003 Bond Election, the Riverside Parkway was promised to be delivered within 6 years which equates to November 2009. Currently the Parkway is schedule for completion by November 2008 or a year ahead of the original schedule.

Although the Parkway will be completed by late 2008, on the operational side there will be many impacts to the Streets and Transportation Divisions of Public Works and the Parks Department personnel. Five new traffic signals, 520 street lights, 19 additional lane miles, 5.5 miles of additional storm drains, 3.3 acres of bridges, 10 miles of sidewalk will entertain public works staff beyond 2008. Parks will be responsible for almost 10 acres of granite mulch, 900 trees, 9,300 shrubs and over 15 acres of irrigated areas. Although the design calls for low water plantings utilizing "Xeric" concepts, supplemental water will be provided via five domestic water taps (two Ute Water, three City water). A "wheeling" agreement has been reached with Ute Water to provide City water through Ute lines to the irrigation taps.

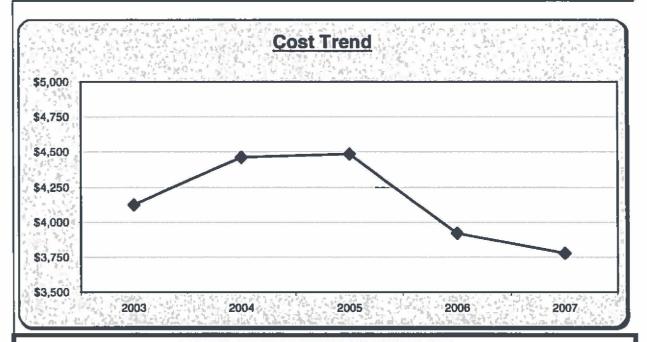

29 Road and I-708 is proposed to have final design complete in 2007 in time for construction in 2008-mid 2009.

- Complete the first phase of construction of the Riverside Parkway by November 2006 and bid out the remaining two phases in 2006.
- Utilize new CADD and project management technologies by maintaining high levels of training.
- Continue to perform quality control inspections and testing of all new construction on capital projects.
- Provide development inspection for all construction related to new development within the 201 sewer area.
- Continue improvement of watershed protection efforts through Memorandums of Understanding.
- Implementation of Stormwater management program to meet federally mandated Stormwater regulations.
- Continue monitoring of annexation activity to understand how this growth affects our ability to meet public
 expectations and our ability to deliver quality customer service.

- Continue Discharge Permit negotiations with the State of Colorado and US Fish and Wildlife Service to determine discharge limitations allowable at the Persigo facility.
- Implement a composting operation at the Persigo facility, as a result of the Biosolids Composting Pilot Study.
- Continue with industrial pre-treatment to protect wastewater system and receiving waters.
- Perform studies to examine ways to reduce electrical costs at the Persigo facility, including conservation measures and possible utilization of waste methane gas generated during treatment processes.
- Continue with collections system repairs and replacements as the need arises.
- Respond to increasing requests to amend the 201 Sewer Service Area as urbanization continues.
- Continue to meet safety and security goals

- Develop a program for composting yard debris (grass, tree trimmings, etc.) and eliminate them from being land-filled.
- Continued study of "green waste" reductions, as part of the Strategic Plan implementation.
- Implement required changes to the recycling drop-off site at the River Road facility, necessitated by the Riverside Parkway construction.
- Work with CRI in an effort to improve marketing and baling operations.
- Purchase additional automated side loader truck (2006) and add a specialty equipment operator.

- Implement compliance with the new LT2 rule to monitor for certain microbes in drinking water, as well as continue
 pursuit of USEPA certification for analysis of these microbes.
- Maximize water supply capacity by searching out opportunities to derive increasing income from raw water resources.
 This will include examination of the hydroelectric potential of water energy on City facilities on Kannah Creek and leases of water for snowmaking to the Powderhorn Ski area.
- Implement Memorandums Of Understanding with watershed partners (BLM, Palisade, U.S. Forest Service, forest grazing permittees) to identify potential sources of contamination in the watershed and implement best management practices.
- Insure flexibility in the operational and financial readiness of the City's water system to take advantage of any unification opportunities with other water providers in the Grand Valley.
- Start design work on replacement of sections of Purdy Mesa Flowline through lower stretches of Reeder Mesa.
- Actively pursue water rights acquisitions within the Kannah Creek and Whitewater Creek basins when they are in the
 best interest of the City.

- Continue to evaluate and establish operational benchmarks that will provide a means to compare Fleet Services' performance to past averages and project future budgetary needs.
- Assist with the evaluation of the City's participation within Clean Cities Coalition and participate appropriately.
- Continually review our maintenance figures to find opportunities for improvement.
- Form a Utilization Review Committee to review equipment utilization and assist with revising utilization minimum standards.

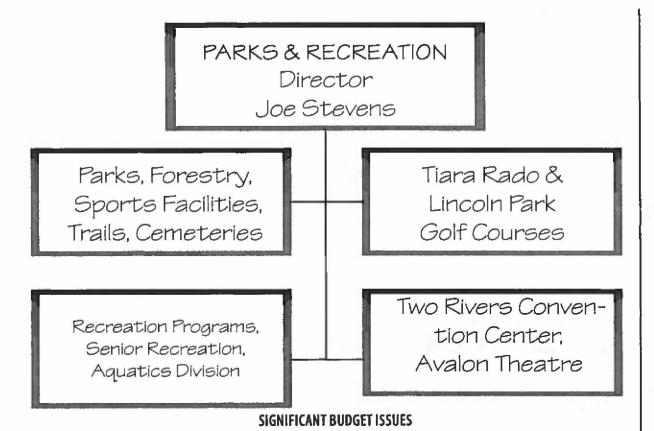

This Page Intentionally Left Blank

- Parks
- Recreation
- Two Rivers Convention Center
- Municipal Golf

The City of Grand Junction Parks and Recreation Department is dedicated to facilitating a level of municipal Parks and Recreation services and facilities that the citizens of Grand Junction want and demand, in the most efficient and effective manner possible. This includes providing a wide variety of indoor and outdoor activities in attractive, clean and safe surroundings, as well as enhancing and preserving the region's natural resources. Courteous and knowledgeable personnel strive for excellence in all aspects of administration, operation and maintenance.

Quality has been maintained over last few years but elasticity is shrinking.

- Quality Staff and Outstanding equipment have kept us on the cutting edge.
- Continued growth and demands for expansion are increasingly difficult and expansion without resources will impact maintenance standards
 City / School district partnerships have increased.

Annexation Impact

- Recreation program cost recovery of 70% is increasingly difficult while keeping programs affordable.
- Recreation program resident vs. non-resident registrations have gone from 50% resident and 50% non-resident in 2001 2002 to 54% resident and 46% non-resident.

Maintaining viable golf course fund

- Two full time positions being eliminated in 2006 and 2007.
- One Assistant Golf Professional position being reduced from full time to ¼ time.

Rising construction costs make new projects increasingly difficult to keep within budget.

Rising energy costs impacting all facilities especially Two Rivers Convention Center, Avalon Theatre, pools and Barn.

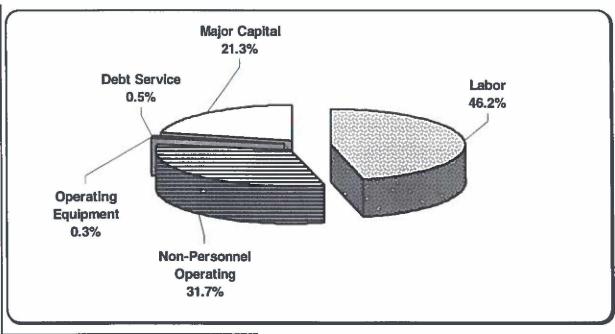

Maintaining the aging downtown shopping park

- Trees are approaching a state of decline within the context of their expected life span in the downtown shopping park environment.
- Downtown redevelopment Master Plan should be developed and time line identified.
- Planters are increasingly difficult to repair.

Coordinating the impact of concession operations in concert with events at Two Rivers and the Avalon.

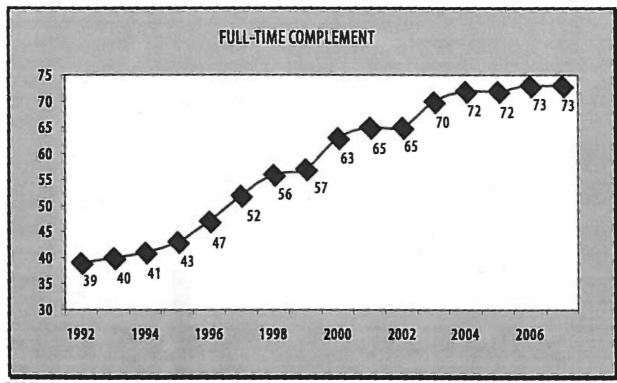

Parks and Recreation Department Fee Structure

Evaluate and consider implementing a one fee and charge structure for recreation programs, pools and golf by consolidating the non-resident and resident discount fees.

The Department's focus has been on working to improve, expand and develop parks, recreation and cultural opportunities. The Parks & Recreation master plan and the strategic plan and constant public participation have provided much of the framework for budgetary consideration. In September 2002, the Parks & Recreation Department integrated management responsibility of the Avalon Theatre into a subdivision of Two Rivers Convention Center. The continued development of Canyon View Park and a renewed interest in addressing neighborhood park issues has also been a priority of the Department and the Parks & Recreation Advisory Board. The 2003/04 operating budget in concert with the CIP, attempts to address efficiencies that will enhance water conservation efforts. The Recreation Division continues to receive a high level of interest in recreation, sports, senior, aquatic and special events programming. Special emphasis has been placed upon youth/teen programs consistent with the City's strategic plan.

The 2006/07 operating budget, as proposed, strives to maintain the city's standard as one of the best municipal parks operations, in the nation. The Department will continue to foster excellent communication, cooperation and collaboration with other units of local government, the private sector and the general public.

Parks and Recreation Department will continue to provide administrative support for/and act as a liaison with the Parks and Recreation Advisory Board, Riverfront Commission, Arts Commission, Forestry Board, Urban Trials Committee, and Parks Improvement Advisory Board.

estry Division. Overall the Forestry Division is responsible for The Cemetery Division is dedicated to meeting the needs of planting and caring for over 30,000 municipal trees. It is the families and loved ones coping with the death of a family goal of this division to educate the citizens of Grand Junction member, close friend, or business associate. Operated as an Enterprise Fund, the Cemetery Division is very dependent upon income from lot sales and burials, an increasingly difficult task as the trend from burial to cremation continues and with the opening of the new veteran's cemetery. A comprehensive advertising campaign was developed and implemented in an effort to enlighten citizens to the different burial options. The development of the Cremation garden, Rose garden, columbarium, and landscape improvements throughout the cemetery have all added to cemetery revenue but the need for a funding subsidy continues. Cemetery staff will continue to develop new strategies for marketing available services in a creative way to increase sales and build a positive public image.

Aquatics Division

The Aquatics Division provides year-round swimming oppor- Two Rivers Convention Center and Avalon Theatre are entertunities at two community pools. Strategic Plan

Open Spaces and Community Appearance

- Maintained open and beautiful spaces
- Encouraged and practiced water conservation throughout the park system and community

Support and provide opportunities for youth through recreation facilities and programs

Continue to develop and enhance City / School partnerships through projects like

- Wingate school / park school use and grounds maintenance
- Bookcliff gym and grounds maintenance
- Pear Park Elementary school gym
- Expansion enhances and recognize economic impact park and recreation programs and facilities have on the community
- Out of area attendees stay, eat, and spend income while attending conferences and events held and Two Rivers Convention Center and Avalon Theatre
- Out of town participants and fans enjoy the Grand Valley because of events held at the unique facilities in Canyon View Park, Lincoln Park, Downtown Shopping Park, and Stocker Stadium
 - Triple Crown Baseball Tournament
 - Grand Mesa Fire Classic Soccer Tournament
 - Colorado Parks and Recreation Association state conference
 - Western Colorado Horticulture Society
 - Colorado River Outfitters Association and Utah River Outfitters Association
 - Landscapes West
 - Western Slope Colorado Oil and Gas Association
 - Snow Country snow groomers
 - Rocky Mountain Lift Association lift operators
 - Emergency Preparedness
 - Gideon Society
 - JUCO Baseball

Future Outlook

City and County partnership with Long Family Memorial Park.

Evaluate and consider implementing a standardized fee for recreation programs, pools and golf.

Lincoln Park Stadium improvement plan implementation and funding with the principle users.

Evaluation and incorporation of the Moorman Avalon study.

Implement and blend the Riverside Parkway project and the revised Las Colonias Master Plan into a viable capital project.

Long-term success and viability of Lincoln Park and Tiara Rado golf courses.

Monitor and evaluate the dog park successes and shortcomings.

Providing adequate work space facilities for the work force in park operations, golf, cemetery and administration.

Securing adequate staffing for "inherited" responsibilities.

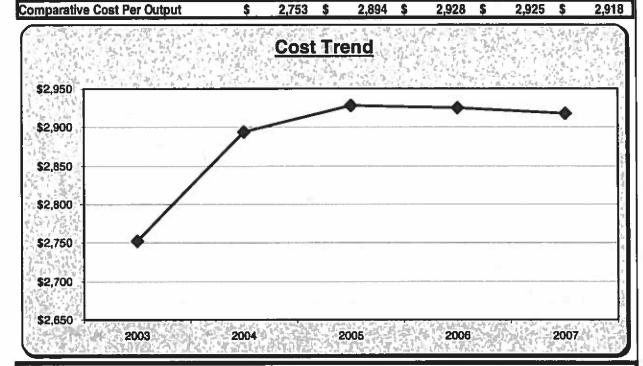

- Landscaped Parking lots
- Covered parking garage
- Medians
- Gateway improvements
- 7th Street beautification
- Main Street addition

Future of the botanical gardens.

Demand for additional breakout rooms at Two Rivers Convention Center.

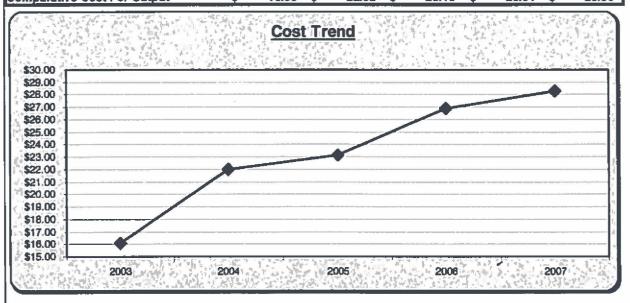

Do we continue to strive for 70% cost recovery on youth and teen recreation programs.

- Construction of Beehive Park, Bookcliff Middle School grounds and several Public Works landscape enhancement projects.
- Monitor and evaluate the Canyon View Dog Park successes and shortcomings.
- Add staffing to address additional developed acres and maintain park maintenance standards.
- Continue to identify and secure funding for capital improvement projects.
- Identify funding sources for on-going operational costs associated with capital improvements.
- Continue to monitor enterprise revenues (golf, pools, Two Rivers Convention Center, Avalon Theater).
- Motivate and retain a highly competent work force.
- Complete the first major phase of the replacement irrigation system at Lincoln Park Golf Course. This is the number one priority of the Lincoln Park Master Plan.

- Implement staffing and programming for the activity center at the new Bookcliff Middle School.
- Evaluate and consider implementing a standardized fee for recreation programs, pools and golf, thus eliminating the current resident/nonresident fee structure.
- Expand the current STARS program to include a third site at Wingate in 2006 and possibly a fourth site at Bookcliff Middle School in 2007.
- Purchase and implement a League Scheduler program to enhance existing software capabilities.
- Expand the current SCORE Camp (youth sport camp) with the addition of separated camps for different age groups and an additional camp specifically for teens.
- Increase application of customer service standards across all staff positions and programs.
- Motivate and retain a highly competent work force.

- Utilize special events to increase visibility, encouraging existing non-users to become customers; specifically target the teen population through expansion of Dive 'n Jives and other similar events.
- Evaluate the possibility of adding an indoor slide feature at the Orchard Mesa pool.
- Improve staff ownership of Aquatics by improving professional development opportunities, greater responsibility levels, increased task assignments and accountability.
- Continue improvements to preventative facility maintenance training, manual and schedule.
- Generate an operating profit from the newly acquired concession operations at Lincoln Park Moyer Pool.
- Implement fee increases in 2006.

PERFORMANCE MEASUREMENT						
	2003 Actual	2004 Actual	2005 Revised	2006 Budget	2007 Budget

- Implement a fee increase of 6% per round at both Tiara Rado and Lincoln Park, due to competition for rounds and increasing costs.
- Continue to look for new ways to reduce costs at both courses while maintaining or improving current customer service levels.
- Continue involvement in promoting junior golf programs to involve the youth of the Grand Valley. 2006 will see
 a totally new junior program, weekly clinics and golf schools.
- Complete lease agreement at Lincoln Park to provide for new gas carts in 2006. A lease of new electric carts at Tiara Rado will be completed in 2007.
- Increase practice facility usage (improved range balls, facility improvements and lesson program).
- Increase emphasis on advertising in order to compete with other courses in the region.

The Grand Junction Visitor & Convention Bureau is a department of the City of Grand Junction whose purpose is to proactively market the Grand Junction area in external markets resulting in the positive economic impact of visitor dollars.

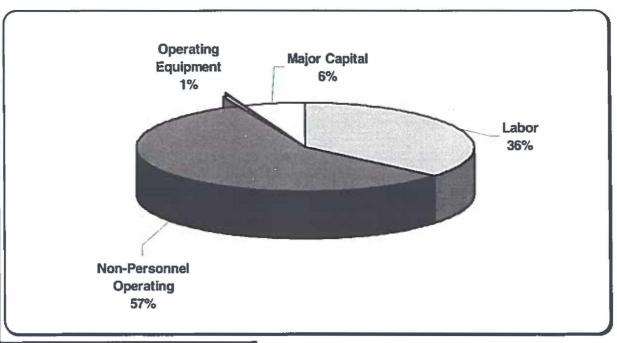

SIGNIFICANT BUDGET ISSUES

At the direction of the Board, staff conducted a review of programs/services offered and service delivery (phone/internet inquiries, sales, Visitor Center). Results of the review indicate that the physical layout of the building is no longer conducive to providing services efficiently. The Board requested a space needs/utilization analysis to make recommendations for an addition to the existing building. When the Visitor Center building was completed in 1994, staff consisted of 5 FTEs and 2 part time seasonal. There are now 9 FTEs and a seasonal intern. In addition to expanding staff work space, other issues need to be addressed: upgrades and improvements to the HVAC system; relocating the mechanical room and telephone equipment; dedicated space for the fileservers/computer network equipment; and additional storage. The 2005 Contract Services account includes \$20,000 for architectural fees for a space needs/utilization analysis. The CIP review process will address proposed expenditures for an addition to the building; if approved, construction will begin in the Fall of 2006.

The Contract Services account for 2006-2007 includes \$25,000 for the addition of a contract sales representative in Denver. This independent contractor will represent the VCB in the Front Range meetings market with the goal of developing new clients and increasing the number of sales leads to Grand Junction meetings properties by 5% per year. A subscription to the International Association of Convention & Visitor Bureau's sales lead program has been added along with an additional meetings trade show which VCB staff will attend.

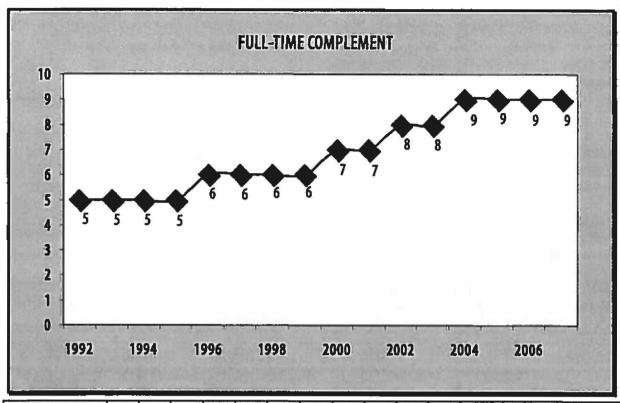

Niche marketing will continue with packages and special promotions that feature golf, winery tours (Amtrak wine weekend) and event packages. Seasonal promotions will be directed to the regional market.

Advertising contract services will increase in both 2006-2007. Additional emphasis will be placed on Internet marketing and enhancing the VCB's website; traditional advertising costs (billboards, radio, newspaper, magazine) are also expected to increase.

Tourism marketing of the Grand Valley formally began in 1983. The City of Grand Junction provided operating capital in the form of a percentage of the vendors fee (1.667%) and contracted with the Chamber of Commerce for tourism marketing services from 1983 - 1989. The vendor's fee continues VISITOR CENTER to be dedicated to tourism marketing and currently represents 38% of the GJVCB's total operating revenue. A 3% lodging tax, passed in a city-wide election in 1989, became the basis for the operating capital of the newly-created GJVCB. A nine-member advisory Board of Directors, appointed by City Council, oversees the Bureau's operations.

The VCB provides tourism marketing services for the City of Grand Junction. Since the VCB began operating in 1990, tourism has become an increasingly important part of the local economy. The nature and scope of the VCB's efforts have changed dramatically as the Bureau has developed a strong relationship with tourism industry providers not just in the Grand Valley but throughout Colorado. While all of the Bureau's marketing efforts are interrelated, operations are focused in three distinct areas:

> **Tourism Marketing Visitor Center Group Marketing and Convention Servicing**

TOURISM MARKETING

Individual leisure travelers are targeted through advertising in selected national, regional and state-wide publications. Potential visitors respond to these ads by calling the VCB's toll-free number or logging on the website to request a free visitor guide. The Visitor Guide, which is updated every year, is a four-color brochure that describes attractions, activities and lodging in the Grand Junction area. This brochure is designed to "lure" visitors to come to Grand Junction, thereby converting a telephone or website inquiry to an actual visit. Additionally, promotions are advertised on Denver television and radio stations and in regional newspapers offering special lodging rates. A dedicated public relations campaign distributes press releases to local, regional and national publications. Travel writers and other media representatives are hosted in an effort to generate articles and other news reports about Grand Junction.

The VCB's website is an increasingly important marketing tool for leisure travelers. Through September 30, over 145,000 unique users have visited the website in 2005: that number is expected to increase in coming years as more travel planning is done via the Internet. Recent research

indicates that consumers' travel planning time is very short (1-7) days for in-state travel) and that the Internet is the most widely used source of information.

The Visitor Center serves as a marketing tool to direct the leisure travel market. The displays in the Center emphasize the area's scenic resources and attractions by utilizing effective visual

displays and dynamic photographic images. Open 7 days a week, year-round, the Visitor Center is staffed by 75 volunteers who serve as local ambassadors, providing visitors with an introduction to our community. The volunteers encourage travelers to spend an additional night in Grand Junction by describing attractions to visit and suggesting various activities for visitors to enjoy.

The goal of the Visitor Center is to increase overnight stays by providing visitors with personalized information about the activities and attractions in the Grand Valley. Research shows that each party (2.5 people) spending the night in Grand Junction spends an average of \$452 compared with expenditures of \$74 for those who either drive through or spend part of a day in the city.

GROUP MARKETING AND CONVENTION SERVICING

The Group Sales Division focuses on (1) attracting meetings, conventions and tour groups to Grand Junction and (2) providing assistance to those groups while they are in our city. Prospective group clients are developed in a variety of ways:

> Personal contact with prospects at industry trade shows Direct mail campaigns Co-operative promotions Membership in industry organizations Inquiries received as a result of prospect's awareness of Grand Junction Personal sales calls Education/familiarization tours

Utilizing the sales methods listed above the VCB Group Sales Division has built a database of over 2,000 contacts. The sales staff continuously prospects, qualifies and works with these clients to convince them to bring a group or groups to Grand Junction. Once the sales staff confirms that the client will consider bringing business to this area, information about the group is sent to all local lodging properties in the form of a sales lead. It is the responsibility of each individual property to respond directly to the sales leads. The VCB sales staff continues to work with the client to insure that his or her needs have been met and the business has become a confirmed booking at a local lodging property.

Measurement of the Group Sales Division's performance is tracked by (1) the number of sales leads issued and (2) the economic impact of groups assisted by the sales staff.

	2004 Actual	<u> 2005 Goal</u>
Sales Leads Issued	102	107
Estimated Economic Impact	\$3.48 million	\$4.04 million

BUDGET REVIEW

The Visitor & Convention Bureau Board of Directors held their annual retreat in April to identify short- and long-term goals and develop strategies to achieve those goals. Discussions during the retreat as well as at monthly Board meetings provided direction to VCB staff in developing the biennial budget. The proposed budget was presented to the Board at the August 9 meeting and was approved for presentation to the Review Team.

Revenue

The travel industry has experienced a recovery in the past two years and national trends indicate continued strengthening in 2006-2007. Lodging tax receipts for 2005 were revised upward from a 5% increase to an 11% increase over 2004. Actual receipts through the 3rd quarter are up 17.4%; occupancy rates have been much stronger than anticipated and increased gasoline prices have not had the expected negative impact on Front Range travelers. A 5% increase is projected for both 2006-2007.

Future Outlook

More, More, More!!! Travelers today are bombarded with more hotel choices, more restaurant choices, more travel attractions, more travel web sites and more travel "deals". Sifting through the barrage of options steals more of the traveler's time in planning but affords the customer a wave of competitive prices that result in less expensive travel.

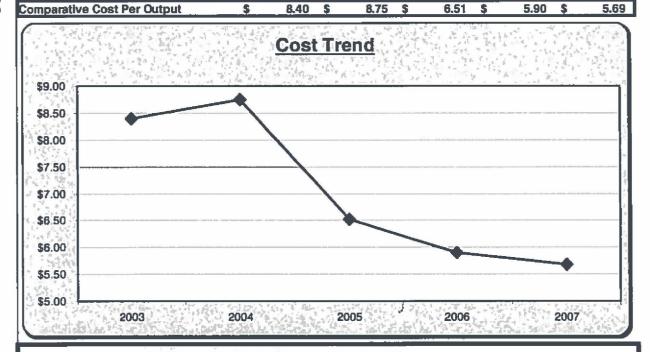

A "REAL" deal for the traveler? In the short term yes; in the long term what is the "real" impact? Those businesses directly involved in the travel and tourism industry know the "real" impact. "Deals" for the traveling public translate to less revenues for the hotels, restaurants, attractions and transportation industry. Fewer revenues mean little to no profit, reduced staffing, cutting utility expenses....cutting services. Eventually this revenue shift will become more obvious to the consumer....the "Deal" will become less of one over time. Grand Junction is no stranger to this trend with dozens of new restaurants, dozens of new retail businesses, new wineries, a new La Quinta and two new Marriott hotel properties planned to be operational in late 2006. The simple answer is just bringing in more visitors to meet the growth in new business. The reality is that growing new travel related business is a tremendous challenge that takes a community effort and thoughtful strategic marketing.....a challenge that the GJVCB, the community and area tourism partners are ready to take on!

The GJVCB's 2006 marketing efforts will work to blend the synergy of the "new products" with the value of the existing travel businesses. Billboard, radio and print advertising will expand to capture the interest of new markets in Colorado Springs and continue efforts to keep top-of-mind awareness in the Denver Metro region. The GJVCB will continue to enhance its state of the art web site with improved navigation, photography and Customer Relationship Management software designed to increase web site rankings, increase visitors to the site and appeal to customers with a personal approach.

Targeted special promotions will be at the core of attracting new business. Grand Junction customers will again hop aboard the "Colorado Wine Country" Amtrak train in 2006. Area events and special interests like golfing and biking will be featured to attract those who plan last minute getaways. Group marketing efforts will work to overcome the prevailing opinion of Front Range meeting planners that the drive to Grand Junction is six hours or more.

The City of Grand Junction will become a key partner in inviting new guests into the community in 2006, as aggressive plans continue to improve the gateway entrances to the city. These improvements, coupled with the marketing plan, the strength of the Grand Valley tourism industry partnerships and a community dedicated to "warm welcomes" and customer service, are the perfect spring board to MORE business in 2006 and beyond.

- Expand staff work space by adding an addition to the current building.
- Complete other additional improvements including upgrades and improvements to the HVAC system, relocating the mechanical room and telephone equipment, dedicated space for fileservers/computer network equipment, and additional storage.
- Contract with a sales representative in Denver to represent the VCB in Front Range marketing meetings with the goal of developing new clients and increasing the number of sales leads to Grand Junction meetings properties by 5% per year.
- Continue niche marketing with packages and special promotions.
- Continue seasonal promotions with a regional marketing focus.
- Stronger emphasis on internet marketing and enhancing the website.
- Re-direct \$50,000 to advertise to the new "impulse" travel market
- Increase lodging tax collections by 4% in 2004 and 5% in 2005

This section presents various information related to the economic and financial concerns of the City of Grand Junction. Included are the Budget Appropriation Ordinance and Resolution, tables, listings, and summary information which reflect historical trends on various statistical data, ten-year, long-range financial projection worksheets for each of the major operating funds, and a glossary of commonly used terms in government finance.

RESOLUTION NO. 197-05

A RESOLUTION ADOPTING THE BUDGET FOR THE PURPOSE OF DEFRAYING THE EXPENSES AND LIABILITIES FOR THE FISCAL YEARS ENDING DECEMBER 31, 2006 AND 2007.

WHEREAS, In accordance with the provisions of Section 59 of the Charter of the City of Grand Junction, the City Manager has submitted to the City Council a budget estimate of the revenues and expenditures of conducting the affairs of the City of Grand Junction for the fiscal years ending December 31, 2006 and 2007; and

WHEREAS, after full and final consideration of the budget estimates, the City Council is of the opinion that the budget should be approved and adopted:

NOW, THEREFORE, BE IT RESOLVED, BY THE CITY COUNCIL OF THE CITY OF GRAND JUNCTION, COLORADO:

That the budget estimate of the revenues and expenses of conducting the affairs of said City for the fiscal years ending December 31, 2006 and 2007, as submitted by the City Manager, be and the same is hereby adopted and approved for defraying the expense of and the liabilities against the City of Grand Junction, Colorado, for the fiscal years ending December 31, 2006 and 2007.

ADOPTED AND APPROVED THIS 21st day of December 2005.

hance Yein

APPROVED:

President of the Council

GLOSSARY

Accrual Accounting: A basis of accounting in which revenues and expenditures are recorded at the time they are earned or incurred as opposed to when cash is actually received or spent. For example, in accrual accounting, a revenue which was earned in December, but not collected until January, is recorded as revenue of December rather than January.

Appropriation: An authorization of a specific amount of money made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Appropriation Ordinance: The official enactment by the City Council to establish legal authority for City officials to obligate and expend resources.

Assessed Valuation: The value that is established for real or personal property by the County Assessor for the purpose of levying property taxes.

Budget: A financial plan for a specified period of time (fiscal year) that balances projected revenues and fund balance appropriations to estimated expenditures and operating transfer obligations.

Capital Improvement Project: A permanent addition to the City's assets and includes design, construction and purchase of land, buildings and facilities.

Capital Outlay: Represents expenditures which result in the acquisition or addition to fixed assets including; land, buildings, streets and street improvements, recreation facilities, sewer & water lines, and machinery or equipment with an expected life of more than one year.

Cash Accounting: A basis of accounting in which transactions are recorded when cash is either received or expended for goods and services.

Contingency: An appropriation of funds to cover unforeseen events that occur during the fiscal year.

Debt Service: The payment of principal, interest, and bond reserve requirements on borrowed funds such as notes and bonds.

Division: A group which is comprised of a specific operation within a functional area. City Departments may contain one or more divisions.

Encumbrance: An administrative control under which a commitment to purchase an item or service is recorded; thus the money is not available for new expenditure commitments. The use of encumbrances prevents overspending and permits officials to be certain of how much money is available for new commitments.

Enterprise Funds: Enterprise Funds are used to account for operations that are financed and operated similar to private business enterprises - where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The rate schedules for these services are established to ensure that revenues are adequate to meet all necessary expenditures. Enterprise Funds in the City of Grand Junction include; Water Fund, Sewer Fund, Sanitation Fund, Two Rivers Plaza, Swimming Pools, Golf Course, and the Parking Authority Fund.

Expenditure: The outflow of funds paid or to be paid for an asset obtained or goods and services obtained regardless of when the expense is actually paid. Note that an encumbrance is not an expenditure, but reserves funds to be expended.

Fiscal Year: The time period designated by the City signifying the beginning and ending period for recording financial transactions. For the City of Grand Junction, the fiscal year is the calendar Year, January I throughDecember31.

Fund: An accounting entity that has a set of self-balancing accounts and that records all financial transactions for specific activities or governmental functions. Eight commonly used fund groups in governmental accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise funds, trust and agency funds, and special assessment funds.

General Fund: The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in other funds. General Fund revenues include sales and use taxes, property taxes, licenses and permits, intergovernmental, and other types of revenue. This fund includes most of the basic operating services including police, Fire, Finance, Public Works, Parks & Recreations, and General Administration.

GLOSSARY

Interfund Transfers: Amounts transferred from one fund to another. Transfers are not expenditures and must be appropriated for expenditures in the funds receiving the transfer.

Internal Service Fund: Proprietary funds used to account for the furnishing of goods or services by one department or agency to other departments or agencies on a cost reimbursement basis; for example, Data Processing Fund, Stores Fund, and the Communications Center Fund.

Levy: To Impose taxes, special assessments, or service charges for the support of City activities.

Millage: The tax rate on real property, based on I mill equal \$ I per \$ I,000 of assessed property value.

Operating Budget: The expenditure plan for continuing every-day expenditures such as personnel, utilities, contractual services, debt service, commodities, and operating capital requirements.

Operating Capital: As identified in this document, operating capital refers to expenditures that are capital in nature (i.e. an addition to fixed assets ~, which are over \$500.00 yet under \$10,000.

Personnel Expenses: Salaries, wages, federal and state withholding and fringe benefits such as pensions and insurance.

Property Tax: A tax which is levied on both real and personal property according to that property's valuation, assessment rate, and miliage.

Reserve Fund Balance: The portion of a fund's balance that is legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Revenue: Funds the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Risk Management: An organized attempt to protect an entities assets against accidental loss in the most economical method.

Self-Insurance: The underwriting of one's own insurance rather than purchasing coverage from a private provider.

Special Assessment: A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

Tax Increment Financing: A mechanism for using property taxes to stimulate investment in economically depressed areas. This involves identifying the depressed area, then reinvesting property taxes generated as a result of new construction in projects designed to further enhance the area's economic vitality.

Unreserved Fund Balance: The portion of a fund's balance that is not restricted for a specific purpose and is available for general appropriation.
