

REGULAR MEETING

GRAND JUNCTION PLANNING COMMISSION

Wednesday - November 24, 1965 - 8:00 A.M.

CONFERENCE ROOM - CITY HALL

Members present: Mrs. Grace Smith, Chairman; Mrs. Barbara Hyde, Charles Love, Robert Baker, James Golden, and Richard Stranger.

Others present: Don Warner, Development Director; and Paul Walker, Acting Regional Planner.

I. MINUTES APPROVED

The minutes of the October 27, 1965 meeting were declared approved as written.

II. SUGGESTED CHANGE IN MEETING TIME OF REGIONAL PLANNING COMM.

The Chairman asked for this group's opinion about changing the meeting time of the Regional Planning Commission. She noted that although the present time seemed to be satisfactory with the County Planning Commission, it was confusing to the public to have the two meetings held on the same evening, and also one meeting runs into the other.

After discussion, it was the consensus of those present that it was important that the two meetings be separated. The group agreed that a meeting at 4:00 p.m. on either the first or third Thursday of the month would be their choice of a meeting time.

III. GENERAL DISCUSSION

The balance of the meeting was taken up with informal discussion on the following topics:

Horizon Drive Sewer. Some question was raised as to why this group was not asked to participate in the Horizon Drive sewer planning. Development Director Warner said the pressure of time was the main reason. He noted that the matter had been presented to the group informally by the City Manager at the last meeting.

Bicycle Routes. Mr. Warner said that something definite on this would be worked out as soon as Mr. Byrom is available.

Lilac Park. Mrs. Hyde reported that the planting of lilacs in Lilac Park would start the 1st of next April. She noted that this will be a very beautiful and unique park since efforts are being made to secure all species of lilacs from all over the world.

Museum. Mr. Stranger noted that the Museum is progressing very nicely and suggested that this group visit this facility, perhaps next time. Mr. Warner will make arrangements for the tour.

IV. ADJOURNMENT - The meeting adjourned at 9:15 a.m.

Don Warner, Development Director
