This meeting was called in order that the Board might consider the application of Amos L. Raso for variation from the requirements of Sec 8 (e2) to permit erection of an addition to 337 Main to the alley. It is necessary to extend this building in order for Sparkman Electric Company to conduct their business.

After discussion, and after making an on-the-spot inspection, motion was made by Laird Smith, seconded by Claud Smith, that this Application be approved, with the recommendation that Mr. Raso consult with Mr. Day regarding some phases of the construction of this building. Motion carried.

Meeting adjourned.

R. E. Cheever, Secretary
