## PART 21

### NONRESIDENT VIOLATOR COMPACT

**24-60-2101. Compact approved and ratified.** The general assembly hereby approves and ratifies and the governor shall enter into a compact on behalf of the state of Colorado with any of the United States or other jurisdictions legally joining therein in the form substantially as follows:

#### ARTICLE I

##### **Findings, Declaration of Policy, and Purpose**

- (a) The party jurisdictions find that:
- (1) In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than his home jurisdiction:
    - (i) Must post collateral or bond to secure appearance for trial at a later date; or
    - (ii) If unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or
    - (iii) Is taken directly to court for his trial to be held.
  - (2) In some instances, the motorist's driver's license may be deposited as collateral to be returned after he has complied with the terms of the citation.
  - (3) The purpose of the practices described in paragraphs (1) and (2) above is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue on his way after receiving the traffic citation, could return to his home jurisdiction and disregard his duty under the terms of the traffic citation.
  - (4) A motorist receiving a traffic citation in his home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to immediately continue on his way after promising or being instructed to comply with the terms of the citation.
  - (5) The practice described in paragraph (1) above causes unnecessary inconvenience and, at times, a hardship for the motorist who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some arrangement can be made.
  - (6) The deposit of a driver's license as a bail bond, as described in paragraph (2) above, is viewed with disfavor.
  - (7) The practices described herein consume an undue amount of law enforcement time.
- (b) It is the policy of the party jurisdictions to:
- (1) Seek compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles in each of the jurisdictions.
  - (2) Allow motorists to accept a traffic citation for certain violations and proceed on their way without delay whether or not the motorist is a resident of the jurisdiction in which the citation was issued.

(3) Extend cooperation to its fullest extent among the jurisdictions for obtaining compliance with the terms of a traffic citation issued in one jurisdiction to a resident of another jurisdiction.

(4) Maximize effective utilization of law enforcement personnel and assist court systems in the efficient disposition of traffic violations.

(c) The purpose of this compact is to:

(1) Provide a means through which the party jurisdictions may participate in a reciprocal program to effectuate the policies enumerated in paragraph (b) above in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of traffic violators operating within party jurisdictions in recognition of the motorist's right of due process and the sovereign status of a party jurisdiction.

(a) Upon receipt of a report of a failure to comply from the licensing authority of the issuing jurisdiction, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction's procedures, to suspend the motorist's driver's license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority. Due process safeguards will be accorded.

(b) The licensing authority of the home jurisdiction shall maintain a record of actions taken and make reports to issuing jurisdictions as provided in the compact manual.

#### ARTICLE V

##### **Applicability of Other Laws**

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board

## ARTICLE X

### Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes stated herein. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party jurisdiction or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the compact shall not be affected thereby. #### ARTICLE 1

#### FINDINGS AND PURPOSE

A. The party states agree that each state is responsible for providing for the management of low-level radioactive waste generated within its borders, except for waste generated as a result of defense activities of the federal government or federal research and development activities. Moreover, the party states find that the United States Congress, by enacting the "Low-level Radioactive Waste Policy Act" (P.L. 96-573), has encouraged the use of interstate compacts to provide for the establishment and operation of facilities for regional management of low-level radioactive waste.

B. It is the purpose of the party states, by entering into an interstate compact, to establish the means for cooperative effort in managing low-level radioactive waste; to ensure the availability and economic viability of sufficient facilities for the proper and efficient management of low-level radioactive waste generated within the region while preventing unnecessary and uneconomic proliferation of such facilities; to encourage reduction of the volume of low-level radioactive waste requiring disposal within the region; to restrict

management within the region of low-level radioactive waste generated outside the region; to distribute the costs, benefits and obligations of low-level radioactive waste management equitably among the party states; and by these means to promote the health, safety and welfare of the residents within the region.

B. Low-level waste generated within the region shall be managed at regional facilities without discrimination among the party states; provided, however, that a host state may close a regional facility when necessary for public health or safety.

C. Each party state which, according to reasonable projections made by the board, is expected to generate twenty percent or more in cubic feet except as otherwise determined by the board of the low-level waste generated within the region has an obligation to become a host state in compliance with subsection D of this article.

D. A host state, or a party state seeking to fulfill its obligation to become a host state, shall:

(1) Cause a regional facility to be developed on a timely basis as determined by the board, and secure the approval of such regional facility by the board as provided in Article 4 before allowing site preparation or physical construction to begin;

(2) Ensure by its own law, consistent with any applicable federal law, the protection and preservation of public health and safety in the siting, design, development, licensure or other regulation, operation, closure, decommissioning and long-term care of the regional facilities within the state;

(6) Notify the board immediately if any exigency arises requiring the possible temporary or permanent closure of a regional facility within the state at a time earlier than was projected in the state's most recent annual report to the board.

E. Once a party state has served as a host state, it shall not be obligated to serve again until each other party state having an obligation under subsection C of this article has fulfilled that obligation. Nevada, already being a host state, shall not be obligated to serve again as a host state until every other party state has so served.

F. Each party state:

(1) Agrees to adopt and enforce procedures requiring low-level waste shipments originating within its borders and destined for a regional facility to conform to packaging and transportation requirements and regulations. Such procedures shall include but are not limited to:

(a) Periodic inspections of packaging and shipping practices;

(b) Periodic inspections of waste containers while in the custody of carriers; and

(c) Appropriate enforcement actions with respect to violations;

(2) Agrees that after receiving notification from a host state that a person in the party state has violated packaging, shipping or transportation requirements or regulations, it shall take appropriate action to ensure that violations do not recur. Appropriate action may include but is

not limited to the requirement that a bond be posted by the violator to pay the cost of repackaging at the regional facility and the requirement that future shipments be inspected;

(3) May impose fees to recover the cost of the practices provided for in paragraphs (1) and (2) of this subsection;

(4) Shall maintain an inventory of all generators within the state that may have low-level waste to be managed at a regional facility; and

(5) May impose requirements or regulations more stringent than those required by this subsection.

##### BOARD APPROVAL OF REGIONAL FACILITIES

A. Within ninety days after being requested to do so by a party state, the board shall approve or disapprove a regional facility to be located within that state.

B. A regional facility shall be approved by the board if and only if the board determines that:

(1) There will be, for the foreseeable future, sufficient demand to render operation of the proposed facility economically feasible without endangering the economic feasibility of operation of any other regional facility; and

(2) The facility will have sufficient capacity to serve the needs of the region for a reasonable period of years.

#### ARTICLE 5

##### SURCHARGES

A. The board shall impose a "compact surcharge" per unit of waste received at any regional facility. The surcharge shall be adequate to pay the costs and expenses of the board in the conduct of its authorized activities and may be increased or decreased as the board deems necessary.

B. A host state may impose a "state surcharge" per unit of waste received at any regional facility within the state. The host state may fix and change the amount of the state surcharge subject to approval by the board. Money received from the state surcharge may be used by the host state for any purpose authorized by its own law, including but not limited to costs of licensure and regulatory activities related to the regional facility, reserves for decommissioning and long-term care of the regional facility and local impact assistance.

#### ARTICLE 6

##### THE BOARD

A. The "Rocky Mountain low-level radioactive waste board", which shall not be an agency or instrumentality of any party state, is created.

B. The board shall consist of one member from each party state. Each party state shall determine how and for what term its member shall be appointed, and how and for what term any alternate may be appointed to perform that member's duties on the board in the member's absence.

C. Each party state is entitled to one vote. A majority of the board constitutes a quorum. Unless otherwise provided in this compact, a majority of the total number of votes on the board is necessary for the board to take any action.

D. The board shall meet at least once a year and otherwise as its business requires. Meetings of the board may be held in any place within the region deemed by the board to be reasonably convenient for the attendance of persons required or entitled to attend and where adequate accommodations may be found. Reasonable public notice and opportunity for comment shall be given with respect to any meeting; provided, however, that nothing in this subsection shall preclude the board from meeting in executive session when seeking legal advice from its attorneys or when discussing the employment, discipline, or termination of any of its employees.

E. The board shall pay necessary travel and reasonable per diem expenses of its members, alternates and advisory committee members.

F. The board shall organize itself for the efficient conduct of its business. It shall adopt and publish rules consistent with this compact regarding its organization and procedures. In special circumstances the board, with unanimous consent of its members, may take actions by telephone; provided, however, that any action taken by telephone shall be confirmed in writing by each member within thirty days. Any action taken by telephone shall be noted in the minutes of the board.

G. The board may use for its purposes the services of any personnel or other resources which may be offered by any party state.

H. The board may establish its offices in space provided for that purpose by any of the party states or, if space is not provided or is deemed inadequate, in any space within the region selected by the board.

I. Consistent with available funds, the board may contract for necessary personnel services and may employ such staff as it deems necessary to carry out its duties. Staff shall be employed without regard for the personnel, civil service or merit system laws of any of the party states and shall serve at the pleasure of the board. The board may provide appropriate employee benefit programs for its staff.

J. The board shall establish a fiscal year which conforms to the extent practicable to the fiscal years of the party states.

K. The board shall keep an accurate account of all receipts and disbursements. An annual audit of the books of the board shall be conducted by an independent certified public accountant, and the audit report shall be made a part of the annual report of the board.

L. The board shall prepare and include in the annual report a budget showing anticipated receipts and disbursements for the ensuing year.

M. Upon legislative enactment of this compact, each party state shall appropriate seventy thousand dollars (\$70,000) to the board to support its activities prior to the collection of sufficient funds through the compact surcharge imposed pursuant to subsection A of article 5 of this compact.

N. The board may accept any donations, grants, equipment, supplies, materials or services, conditional or otherwise, from any source. The nature, amount and condition, if any, attendant upon any donation, grant or other resources accepted pursuant to this subsection, together with the identity of the donor or grantor, shall be detailed in the annual report of the board.

O. In addition to the powers and duties conferred upon the board pursuant to other provisions of this compact, the board:

(1) Shall submit communications to the governors and to the presiding officers of the legislatures of the party states regarding the activities of the board, including an annual report to be submitted by December 15;

(2) May assemble and make available to the governments of the party states and to the public through its members information concerning low-level waste management needs, technologies and problems;

(3) Shall keep a current inventory of all generators within the region, based upon information provided by the party states;

(4) Shall keep a current inventory of all regional facilities, including information on the size, capacity, location, specific wastes capable of being managed and the projected useful life of each regional facility;

(5) May keep a current inventory of all low-level waste facilities in the region, based upon information provided by the party states;

(6) Shall ascertain on a continuing basis the needs for regional facilities and capacity to manage each of the various classes of low-level waste;

(7) May develop a regional low-level waste management plan;

(8) May establish such advisory committees as it deems necessary for the purpose of advising the board on matters pertaining to the management of low-level waste;

(9) May contract as it deems appropriate to accomplish its duties and effectuate its powers, subject to its projected available resources; but no contract made by the board shall bind any party state;

(10) Shall make suggestions to appropriate officials of the party states to ensure that adequate emergency response programs are available for dealing with any exigency that might arise with respect to low-level waste transportation or management;

(11) Shall prepare contingency plans, with the cooperation and approval of the host state, for management of low-level waste in the event any regional facility should be closed;

(12) May examine all records of operators of regional facilities pertaining to operating costs, profits or the assessment or collection of any charge, fee or surcharge;

(13) Shall have the power to sue; and

(14) When authorized by unanimous vote of its members, may intervene as of right in any administrative or judicial proceeding involving low-level waste.

## ARTICLE 7

### PROHIBITED ACTS AND PENALTIES

A. It shall be unlawful for any person to dispose of low-level waste within the region, except at a regional facility; provided, however, that a generator who, prior to January 1, 1982, had been disposing of only his own waste on his own property may, subject to applicable federal and state law, continue to do so.

B. After January 1, 1986, it shall be unlawful for any person to export low-level waste which was generated within the region outside the region unless authorized to do so by the board. In determining whether to grant such authorization, the factors to be considered by the board shall include, but not be limited to, the following:

- (1) The economic impact of the export of the waste on the regional facilities;
  - (2) The economic impact on the generator of refusing to permit the export of the waste;
- and
- (3) The availability of a regional facility appropriate for the disposal of the waste involved.

C. After January 1, 1986, it shall be unlawful for any person to manage any low-level waste within the region unless the waste was generated within the region or unless authorized to do so both by the board and by the state in which said management takes place. In determining whether to grant such authorization, the factors to be considered by the board shall include, but not be limited to, the following:

- (1) The impact of importing waste on the available capacity and projected life of the regional facilities;
- (2) The economic impact on the regional facilities; and
- (3) The availability of a regional facility appropriate for the disposal of the type of waste involved.

D. It shall be unlawful for any person to manage at a regional facility any radioactive waste other than low-level waste as defined in this compact, unless authorized to do so both by the board and the host state. In determining whether to grant such authorization, the factors to be considered by the board shall include, but not be limited to, the following:

- (1) The impact of allowing such management on the available capacity and projected life of the regional facilities;
- (2) The availability of a facility appropriate for the disposal of the type of waste involved;
- (3) The existence of transuranic elements in the waste; and
- (4) The economic impact on the regional facilities.

E. Any person who violates subsection A or B of this article shall be liable to the board for a civil penalty not to exceed ten times the charges which would have been charged for disposal of the waste at a regional facility.

F. Any person who violates subsection C or D of this article shall be liable to the board for a civil penalty not to exceed ten times the charges which were charged for management of the waste at a regional facility.

G. The civil penalties provided for in subsections E and F of this article may be enforced and collected in any court of general jurisdiction within the region where necessary jurisdiction is obtained by an appropriate proceeding commenced on behalf of the board by the attorney general of the party state wherein the proceeding is brought or by other counsel authorized by the board. In any such proceeding, the board, if it prevails, is entitled to recover reasonable attorney's fees as part of its costs.

H. Out of any civil penalty collected for a violation of subsection A or B of this article, the board shall pay to the appropriate operator a sum sufficient in the judgement of the board to compensate the operator for any loss of revenue attributable to the violation. Such compensation may be subject to state and compact surcharges as if received in the normal course of the operator's business. The remainder of the civil penalty collected shall be allocated by the board. In making such allocation, the board shall give first priority to the needs of the long-term care funds in the region.

I. Any civil penalty collected for a violation of subsection C or D of this article shall be allocated by the board. In making such allocation, the board shall give first priority to the needs of the long-term care funds in the region.

J. Violations of subsection A, B, C, or D of this article may be enjoined by any court of general jurisdiction within the region where necessary jurisdiction is obtained in any appropriate proceeding commenced on behalf of the board by the attorney general of the party state wherein the proceeding is brought or by other counsel authorized by the board. In any such proceeding, the board, if it prevails, is entitled to recover reasonable attorney's fees as part of its costs.

K. No state attorney general shall be required to bring any proceeding under any subsection of this article, except upon his consent.

### ELIGIBILITY, ENTRY INTO EFFECT, CONGRESSIONAL

### CONSENT, WITHDRAWAL, EXCLUSION

A. Arizona, Colorado, Nevada, New Mexico, Utah and Wyoming are eligible to become parties to this compact. Any other state may be made eligible by unanimous consent of the board.

B. An eligible state may become a party state by legislative enactment of this compact or by executive order of its governor adopting this compact; provided, however, a state becoming a party by executive order shall cease to be a party state upon adjournment of the first general session of its legislature convened thereafter, unless before such adjournment the legislature shall have enacted this compact.

C. This compact shall take effect when it has been enacted by the legislatures of two eligible states. However, subsections B and C of article 7 shall not take effect until Congress has by law consented to this compact. Every five years after such consent has been given, Congress may by law withdraw its consent.

D. A state which has become a party state by legislative enactment may withdraw by legislation repealing its enactment of this compact; but no such repeal shall take effect until two years after enactment of the repealing legislation. If the withdrawing state is a host state, any regional facility in that state shall remain available to receive low-level waste generated within the region until five years after the effective date of the withdrawal; provided, however, this provision shall not apply to the existing facility in Beatty, Nevada.

E. A party state may be excluded from this compact by a two-thirds' vote of the members representing the other party states, acting in a meeting, on the ground that the state to be excluded has failed to carry out its obligations under this compact. Such an exclusion may be terminated upon a two-thirds' vote of the members acting in a meeting.

(a) The department may acquire by gift, transfer, or purchase any and all lands, buildings, and grounds reasonably necessary for a regional low-level radioactive waste facility.

(b) To ensure that a suitable regional low-level radioactive waste facility is established, the department shall conduct a statewide assessment and evaluation of potential areas for the location of a facility. The assessment and evaluation shall consider all applicable federal and state laws and regulations and shall consider but need not be limited to the following factors:

- (I) Physical and chemical characteristics of strata;
- (II) Surface and subsurface hydrology;
- (III) Topography and drainage;
- (IV) Meteorology and climatology;

(d) The department shall not approve any facility for the disposal of low-level radioactive waste outside of the areas identified pursuant to this subsection (1) or an area recommended by a board of county commissioners under section 24-60-2206 unless the site applicant demonstrates to the satisfaction of the department that the proposed site is at least as technically suitable as the areas identified pursuant to this subsection (1).

(e) The department may, by lease or license, provide for the operation of facilities for the implementation of the purposes of this part 22. No facility may be licensed until designated pursuant to part 1 of article 20 of title 30, C.R.S., by the board of county commissioners of the county in which the proposed facility is to be located. In the event that no county has recommended a facility site or an application for such site has not been submitted by January 1, 1985, the department shall prepare an alternative plan for facility development. Said alternative plan shall be submitted to the general assembly no later than January 1, 1986, for review and approval. In the submission of an alternative plan to the general assembly, the department shall also request authority to acquire a site for a facility.

No licensee shall commence operations at a facility until the agreement for the annual fee is executed by the county or municipality and the licensee or such fee is waived by the county or municipality. In the event that the licensee fails to comply with the terms of the executed agreement, the board of county commissioners or the governing body of the

municipality may petition the department to suspend the facility's license in the manner provided in article 4 of this title until the agreement has been fully complied with.

**24-60-2212. Regulation of fees.** (1) All rates, charges, and classifications made, demanded, or received in the operation of a licensed facility located in the state of Colorado shall be just and reasonable. Every unjust or unreasonable charge made, demanded, or received with respect to such operation is prohibited.

(2) The power and authority is hereby vested in the state board of health and it is hereby made the duty of the board in promoting public health and safety to adopt necessary rules and regulations to govern and regulate the rates, charges, and classifications of every facility in this state and to prevent unjust, unreasonable, and discriminatory rates, charges, and classifications of every such facility.

(3) (a) Under such rules and regulations as the state board of health may prescribe, any person operating a facility in this state shall file with the state board of health, at least sixty days prior to the proposed effective date and in such form and with such filing fee as the state board of health may designate, proposed schedules showing all rates, charges, and classifications

All filings shall be kept open for public inspection with new schedules stating plainly the changes to be made in the schedules then in force and the time when the changes will go into effect.

(b) The board shall not approve or disapprove a filing without a public hearing. If the board does not disapprove or schedule a hearing on a filing within sixty days of receipt by the board, the filing shall automatically become effective.

(c) During the sixty-day review period, the board may conclude that it is in the public interest to hold a public hearing, or an interested person may request a public hearing by so petitioning the board. Such hearings shall be held in the manner provided in article 4 of this title.

(5) (a) Whenever the board after a hearing upon its own motion or upon petition finds, based upon the record and investigation by the board, that the rates, charges, or classifications collected or enforced or to be collected or enforced by any facility are unjust, unreasonable, discriminatory, or violative of any provision of law or that such rates, charges, or classifications are insufficient, the board shall determine the just, reasonable, or sufficient rates, charges, classifications, rules, regulations, or practices to be thereafter observed and in force and shall fix the same by order of the board.

(b) The board has the power, after a hearing upon its own motion or upon complaint, to investigate a single rate, charge, classification, or practice or the entire schedule of rates, charges, classifications, or practices of any facility and to establish new rates, charges, classifications, or practices in lieu thereof.

### WILDLIFE VIOLATOR COMPACT

**24-60-2601. Short title.** This part 26 shall be known and may be cited as the "Wildlife Violator Compact".

**Source: L. 89:** Entire part added, p. 1085, § 1, effective April 12.

**24-60-2602. Execution of compact.** The general assembly hereby approves and the governor is authorized to enter into a compact on behalf of this state with any other state or states legally joining therein in the form substantially as follows:

#### ARTICLE I

##### Findings, Declaration of Policy, and Purpose

- (a) The participating states find that:
- (1) Wildlife resources are managed in trust by the respective states for the benefit of all residents and visitors.
  - (2) The protection of the wildlife resources of a state is materially affected by the degree of compliance with state statutes, laws, regulations, ordinances, and administrative rules relating to the management of such resources.
  - (3) The preservation, protection, management, and restoration of wildlife contributes immeasurably to the aesthetic, recreational, and economic aspects of such natural resources.
  - (4) Wildlife resources are valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife preservation, protection, management, and restoration laws, ordinances, and administrative rules and regulations of the participating states as a condition precedent to the continuance or issuance of any license to hunt, fish, trap, or possess wildlife.
  - (5) Violation of wildlife laws interferes with the management of wildlife resources and may endanger the safety of persons and property.
  - (6) The mobility of many wildlife law violators necessitates the maintenance of channels of communication among the various states.
  - (7) In most instances, a person who is cited for a wildlife violation in a state other than his home state:
    - (i) Is required to post collateral or a bond to secure appearance for a trial at a later date;or
    - (ii) Is taken into custody until the collateral or bond is posted; or
    - (iii) Is taken directly to court for an immediate appearance.
  - (8) The purpose of the enforcement practices set forth in paragraph (7) of this article is to ensure compliance with the terms of a wildlife citation by the cited person who, if permitted to

continue on his way after receiving the citation, could return to his home state and disregard his duty under the terms of the citation.

(9) In most instances, a person receiving a wildlife citation in his home state is permitted to accept the citation from the officer at the scene of the violation and immediately continue on his way after agreeing or being instructed to comply with the terms of the citation.

(10) The practices described in paragraph (7) of this article cause unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial, or pay a fine, and thus is compelled to remain in custody until some alternative arrangement is made.

(11) The enforcement practices described in paragraph (7) of this article consume an undue amount of law enforcement time.

(b) It is the policy of the participating states to:

(1) Promote compliance with the statutes, laws, ordinances, regulations, and administrative rules relating to management of wildlife resources in their respective states.

(2) Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and treat such suspension as if it had occurred in their state.

(3) Allow a violator, except as provided in paragraph (b) of article III, to accept a wildlife citation and, without delay, proceed on his way, whether or not a resident of the state in which the citation was issued, provided that the violator's home state is party to this compact.

(4) Report to the appropriate participating state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state.

(5) Allow the home state to recognize and treat convictions recorded against its residents, which convictions occurred in a participating state, as though they had occurred in the home state.

(6) Extend cooperation to its fullest extent among the participating states for enforcing compliance with the terms of a wildlife citation issued in one participating state to a resident of another participating state.

(7) Maximize effective use of law enforcement personnel and information.

(8) Assist court systems in the efficient disposition of wildlife violations.

(c) The purpose of this compact is to:

(1) Provide a means through which participating states may join in a reciprocal program to effectuate the policies enumerated in paragraph (b) of this article in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of wildlife violators operating within participating states in recognition of the violator's right to due process and the sovereign status of a participating state.

## **ARTICLE I PURPOSE**

(a) The compacting states to this interstate compact recognize that each state is responsible for the supervision of adult offenders in the community who are authorized pursuant to the by-laws and rules of this compact to travel across state lines both to and from each compacting state in such a manner as to track the location of offenders, transfer supervision authority in an orderly and efficient manner, and, when necessary, return offenders to the originating jurisdictions. The compacting states also recognize that Congress, by enacting the "Crime Control Act", 4 U.S.C. sec. 112 (1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.

(c) In addition, this compact will: Create an interstate commission that will establish uniform procedures to manage the movement between states of adults placed under community supervision and released to the community under the jurisdiction of courts, paroling authorities, corrections, or other criminal justice agencies which will promulgate rules to achieve the purpose of this compact; ensure an opportunity for input and timely notice to victims and to jurisdictions where defined offenders are authorized to travel or to relocate across state lines; establish a system of uniform data collection, access to information on active cases by authorized criminal justice officials, and regular reporting of compact activities to heads of state councils, state executive, judicial, and legislative branches and criminal justice administrators; monitor compliance with rules governing interstate movement of offenders and initiate interventions to address and correct noncompliance; and coordinate training and education regarding regulations of interstate movement of offenders for officials involved in such activity.

(d) The compacting states recognize that there is no right of any offender to live in another state and that duly accredited officers of a sending state may at all times enter a receiving state and there apprehend and retake any offender under supervision subject to the provisions of this compact and by-laws and rules promulgated hereunder. It is the policy of the compacting states that the activities conducted by the interstate commission created herein are the formation of public policies and are therefore public business.

- (4) Establishing the titles and responsibilities of the officers of the interstate commission;
- (5) Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the interstate commission. Notwithstanding any civil service or other similar laws of any compacting state, the by-laws shall exclusively govern the personnel policies and programs of the interstate commission;
- (6) Providing a mechanism for winding up the operations of the interstate commission and the equitable return of any surplus funds that may exist upon the termination of the compact after the payment or reserving of all of its debts and obligations;
- (7) Providing transition rules for "start up" administration of the compact; and
- (8) Establishing standards and procedures for compliance and technical assistance in carrying out the compact.

(b) **Officers and staff.** (1) The interstate commission, by a majority of the members, shall elect from among its members a chairperson and a vice chairperson, each of whom shall have such authorities and duties as may be specified in the by-laws. The chairperson or, in his or her absence or disability, the vice chairperson, shall preside at all meetings of the interstate commission. The officers so elected shall serve without compensation or remuneration from the interstate commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for any actual and necessary costs and expenses incurred by them in the performance of their duties and responsibilities as officers of the interstate commission.

(2) The interstate commission, through its executive committee, shall appoint or retain an executive director for such period, upon such terms and conditions and for such compensation as the interstate commission may deem appropriate. The executive director shall serve as secretary to the interstate commission and hire and supervise such other staff as may be authorized by the interstate commission, but shall not be a member.

(c) **Corporate records of the interstate commission.** The interstate commission shall maintain its corporate books and records in accordance with the by-laws.

(d) **Qualified immunity, defense, and indemnification.** (1) The members, officers, executive director, and employees of the interstate commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused or arising out of any actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities; provided that nothing in this paragraph (d) shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of any such person.

(2) The interstate commission shall defend the commissioner of a compacting state, or his or her representatives or employees, or the interstate commission's representatives or employees, in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities; provided that the actual or alleged act, error, or omission did not result from intentional wrongdoing on the part of such person.

(3) The interstate commission shall indemnify and hold the commissioner of a compacting state, the appointed designee, or employees or the interstate commission's representatives or employees harmless in the amount of any settlement or judgment obtained against such persons arising out of any actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities; provided that the actual or alleged act, error, or omission did not result from gross negligence or intentional wrongdoing on the part of such person.

## **ARTICLE VII ACTIVITIES OF THE INTERSTATE COMMISSION**

(a) The interstate commission shall meet and take such actions as are consistent with the provisions of this compact.

(b) Except as otherwise provided in this compact and unless a greater percentage is required by the by-laws, in order to constitute an act of the interstate commission, such act shall have been taken at a meeting of the interstate commission and shall have received an affirmative vote of a majority of the members present.

(c) Each member of the interstate commission shall have the right and power to cast a vote to which that compacting state is entitled and to participate in the business and affairs of the interstate commission. A member shall vote in person on behalf of the state and shall not delegate a vote to another member state. However, a state council shall appoint another authorized representative, in the absence of the commissioner from that state, to cast a vote on behalf of the member state at a specified meeting. The by-laws may provide for members' participation in meetings by telephone or other means of telecommunication or electronic communication. Any voting conducted by telephone or other means of telecommunication or electronic communication shall be subject to the same quorum requirements of meetings where members are present in person.

(d) The interstate commission shall meet at least once during each calendar year. The chairperson of the interstate commission may call additional meetings at any time and, upon the request of a majority of the members, shall call additional meetings.

(e) The interstate commission's by-laws shall establish conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure any information or official records to the extent they would adversely affect personal privacy rights or proprietary interests. In promulgating such rules, the interstate commission may make available to law enforcement agencies records and information otherwise exempt from

disclosure and may enter into agreements with law enforcement agencies to receive or exchange information or records subject to nondisclosure and confidentiality provisions.

(f) Public notice shall be given of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The interstate commission shall promulgate rules consistent with the principles contained in the "Government in Sunshine Act", 5 U.S.C. sec. 552b, as may be amended. The interstate commission and any of its committees may close a meeting to the public where it determines by two-thirds vote that an open meeting would be likely to:

(1) Relate solely to the interstate commission's internal personnel practices and procedures;

(2) Disclose matters specifically exempted from disclosure by statute;

(3) Disclose trade secrets or commercial or financial information which is privileged or confidential;

(4) Involve accusing any person of a crime or formally censuring any person;

(5) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(6) Disclose investigatory records compiled for law enforcement purposes;

(7) Disclose information contained in or related to examination, operating, or condition reports prepared by, or on behalf of or for the use of, the interstate commission with respect to a regulated entity for the purpose of regulation or supervision of such entity;

(8) Disclose information, the premature disclosure of which would significantly endanger the life of a person or the stability of a regulated entity;

(9) Specifically relate to the interstate commission's issuance of a subpoena or its participation in a civil action or proceeding.

(g) For every meeting closed pursuant to this provision, the interstate commission's chief legal officer shall publicly certify that, in his or her opinion, the meeting may be closed to the public and shall reference each relevant provision authorizing closure of the meeting. The interstate commission shall keep minutes that shall fully and clearly describe all matters discussed in any meeting and shall provide a full and accurate summary of any actions taken and the reasons therefor, including a description of each of the views expressed on any item and the record of any roll call vote (reflected in the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

(h) The interstate commission shall collect standardized data concerning the interstate movement of offenders as directed through its by-laws and rules which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements.

## **ARTICLE VIII RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION**

(a) The interstate commission shall promulgate rules in order to effectively and efficiently achieve the purposes of the compact, including transition rules governing administration of the compact during the period in which it is being considered and enacted by the states.

(b) Rulemaking shall occur pursuant to the criteria set forth in this article and the by-laws and rules adopted pursuant thereto. Such rulemaking shall substantially conform to the

principles of the federal "Administrative Procedure Act", 5 U.S.C.S. sec. 551 et seq., and the federal "Advisory Committee Act", 5 U.S.C.S. app. 2, sec. 1 et seq., as may be amended (hereinafter "APA"). All rules and amendments shall become binding as of the date specified in each rule or amendment.

(c) If a majority of the legislatures of the compacting states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

(d) When promulgating a rule, the interstate commission shall:

(1) Publish the proposed rule stating with particularity the text of the rule which is proposed and the reason for the proposed rule;

(2) Allow persons to submit written data, facts, opinions, and arguments, which information shall be publicly available;

(3) Provide an opportunity for an informal hearing; and

(4) Promulgate a final rule and its effective date, if appropriate, based on the rulemaking record. Not later than sixty days after a rule is promulgated, any interested person may file a petition in the United States District Court for the District of Columbia or in the federal District Court where the interstate commission's principal office is located for judicial review of such rule. If the court finds that the interstate commission's action is not supported by substantial evidence, as defined in the APA, in the rulemaking record, the court shall hold the rule unlawful and set it aside. Subjects to be addressed within twelve months after the first meeting must at a minimum include:

(i) Notice to victims and opportunity to be heard;

(ii) Offender registration and compliance;

(iii) Violations and returns;

(iv) Transfer procedures and forms;

(v) Eligibility for transfer;

(vi) Collection of restitution and fees from offenders;

(vii) Data collection and reporting;

(viii) The level of supervision to be provided by the receiving state;

(ix) Transition rules governing the operation of the compact and the interstate commission during all or part of the period between the effective date of the compact and the date on which the last eligible state adopts the compact;

(x) Mediation, arbitration, and dispute resolution.

(e) The existing rules governing the operation of the previous compact superceded by this act shall be null and void twelve (12) months after the first meeting of the interstate commission created hereunder.

(f) Upon determination by the interstate commission that an emergency exists, it may promulgate an emergency rule that shall become effective immediately upon adoption; provided that the usual rulemaking procedures provided hereunder shall be retroactively applied to said rule as soon as reasonably possible, in no event later than ninety (90) days after the effective date of the rule.

## **ARTICLE IX OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION**

## BY THE INTERSTATE COMMISSION

(a) **Oversight.** (1) The interstate commission shall oversee the interstate movement of adult offenders in the compacting states and shall monitor such activities being administered in non-compacting states which may significantly affect compacting states.

(2) The courts and executive agencies in each compacting state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. In any judicial or administrative proceeding in a compacting state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the interstate commission, the interstate commission shall be entitled to receive all service of process in any such proceeding and shall have standing to intervene in the proceeding for all purposes.

(b) **Dispute resolution.** (1) The compacting states shall report to the interstate commission on issues or activities of concern to them and cooperate with and support the interstate commission in the discharge of its duties and responsibilities.

(2) The interstate commission shall attempt to resolve any disputes or other issues that are subject to the compact and that may arise among compacting states and non-compacting states.

(3) The interstate commission shall enact a by-law or promulgate a rule providing for both mediation and binding dispute resolution for disputes among the compacting states.

(c) **Enforcement.** The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions of this compact using any or all means set forth in Article XII (b) of this compact.

## ARTICLE X FINANCE

(a) The interstate commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

(b) The interstate commission shall levy on and collect an annual assessment from each compacting state to cover the cost of the internal operations and activities of the interstate commission and its staff which must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, taking into consideration the population of the state and the volume of interstate movement of offenders in each compacting state and shall promulgate a rule binding upon all compacting states which governs said assessment.

(c) The interstate commission shall not incur any obligations of any kind prior to securing the funds adequate to meet the same, nor shall the interstate commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.

(d) The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its by-laws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

## ARTICLE XI

**COMPACTING STATES,  
EFFECTIVE DATE, AND AMENDMENT**

(a) Any state, as defined in Article II of this compact, is eligible to become a compacting state.

(b) The compact shall become effective and binding upon legislative enactment of the compact into law by no less than thirty-five (35) of the states. The initial effective date shall be the later of July 1, 2001, or upon enactment into law by the thirty-fifth (35th) jurisdiction. Thereafter it shall become effective and binding, as to any other compacting state, upon enactment of the compact into law by that state. The governors of non-member states or their designees will be invited to participate in interstate commission activities on a nonvoting basis prior to adoption of the compact by all states and territories of the United States.

(c) Amendments to the compact may be proposed by the interstate commission for enactment by the compacting states. No amendment shall become effective and binding upon the interstate commission and the compacting states unless and until it is enacted into law by unanimous consent of the compacting states.

**ARTICLE XII  
WITHDRAWAL, DEFAULT, TERMINATION,  
AND JUDICIAL ENFORCEMENT**

(a) **Withdrawal.** (1) Once effective, the compact shall continue in force and remain binding upon each and every compacting state; provided that a compacting state may withdraw from the compact ("withdrawing state") by enacting a statute specifically repealing the statute that enacted the compact into law.

(2) The effective date of withdrawal is the effective date of the repeal.

(3) The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall notify the other compacting states of the withdrawing state's intent to withdraw within sixty days of its receipt thereof.

(4) The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including any obligations, the performance of which extend beyond the effective date of withdrawal.

(5) Reinstatement following withdrawal of any compacting state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

(b) **Default.** (1) If the interstate commission determines that any compacting state has at any time defaulted ("defaulting state") in the performance of any of its obligations or responsibilities under this compact, the by-laws, or any duly promulgated rules, the interstate commission may impose any or all of the following penalties:

(i) Fines, fees, and costs in such amounts as are deemed to be reasonable as fixed by the interstate commission;

(ii) Remedial training and technical assistance as directed by the interstate commission;

(iii) Suspension and termination of membership in the compact. Suspension shall be imposed only after all other reasonable means of securing compliance under the by-laws and rules have been exhausted. Immediate notice of suspension shall be given by the interstate

commission to the governor, the chief justice or chief judicial officer of the state, the majority and minority leaders of the defaulting state's legislature, and the state council.

(2) The grounds for default include, but are not limited to, failure of a compacting state to perform such obligations or responsibilities imposed upon it by this compact, interstate commission by-laws, or duly promulgated rules. The interstate commission shall immediately notify the defaulting state in writing of the penalty imposed by the interstate commission on the defaulting state pending a cure of the default. The interstate commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the interstate commission, in addition to any other penalties imposed herein, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of suspension. Within sixty days of the effective date of termination of a defaulting state, the interstate commission shall notify the governor, the chief justice or chief judicial officer, the majority and minority leaders of the defaulting state's legislature, and the state council of such termination.

(3) The defaulting state is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination including any obligations, the performance of which extends beyond the effective date of termination.

(4) The interstate commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon between the interstate commission and the defaulting state. Reinstatement following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the interstate commission pursuant to the rules.

(c) **Judicial enforcement.** The interstate commission, by majority vote of the members, may initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its offices to enforce compliance with the provisions of the compact, its duly promulgated rules, and by-laws against any compacting state in default. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

(d) **Dissolution of compact.** (1) The compact dissolves effective upon the date of the withdrawal or default of the compacting state that reduces membership in the compact to one compacting state.

(2) Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be wound up and any surplus funds shall be distributed in accordance with the by-laws.

### **ARTICLE XIII SEVERABILITY AND CONSTRUCTION**

(a) The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

(b) The provisions of this compact shall be liberally constructed to effectuate its purposes.

**ARTICLE XIV  
BINDING EFFECT  
OF COMPACT AND OTHER LAWS**

(a) **Other laws.** (1) Nothing herein prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact.

(2) All compacting states' laws conflicting with this compact are superseded to the extent of the conflict.

(b) **Binding effect of the compact.** (1) All lawful actions of the interstate commission, including all rules and by-laws promulgated by the interstate commission, are binding upon the compacting states.

(2) All agreements between the interstate commission and the compacting states are binding in accordance with their terms.

(3) Upon the request of a party to a conflict over meaning or interpretation of interstate commission actions, and upon a majority vote of the compacting states, the interstate commission may issue advisory opinions regarding such meaning or interpretation.

(4) In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any compacting state, the obligations, duties, powers, or jurisdiction sought to be conferred by such provision upon the interstate commission shall be ineffective and such obligations, duties, powers, or jurisdiction shall remain in the compacting state and shall be exercised by the agency thereof to which such obligations, duties, powers, or jurisdiction are delegated by law in effect at the time this compact becomes effective.

PART 29

EMERGENCY MANAGEMENT ASSISTANCE COMPACT

**24-60-2901. Short title.** This part 29 shall be known and may be cited as the "Emergency Management Assistance Compact".

**Source: L. 2001:** Entire part added, p. 187, § 1, effective August 8.

**24-60-2902. Compact approved and ratified.** The general assembly hereby approves and ratifies and the governor shall enter into a compact on behalf of the state of Colorado with any of the United States or other jurisdictions legally joining therein in the form substantially as follows:

## ARTICLE I

### **Purpose and Authorities**

This compact is made and entered into by and between the participating member states that enact this compact, hereinafter called party states. For the purposes of this compact, the term "states" is taken to mean the several states, the Commonwealth of Puerto Rico, the District of Columbia, and all United States territorial possessions.

The purpose of this compact is to provide for mutual assistance among the states entering into this compact in managing any emergency disaster that is duly declared by the Governor of the affected state, whether arising from natural disaster, technological hazard, man-made disaster, civil emergency aspects of resources shortages, community disorders, insurgency, or enemy attack.

This compact shall also provide for mutual cooperation in emergency-related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' National Guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between or among states.

## ARTICLE II

### **General Implementation**

Each party state entering into this compact recognizes that many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies that require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all articles of this compact shall be understood.

On behalf of the Governor of each state participating in the compact, the legally designated state official who is assigned responsibility for emergency management shall be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

## ARTICLE III

### **Party State Responsibilities**

A. It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this article. In formulating such plans and in carrying them out, the party states, insofar as practical, shall:

1. Review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, emergency aspects of resource shortages, civil disorders, insurgency, or enemy attack;

2. Review party states' individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency;

3. Develop interstate procedures to fill any identified gaps and resolve any identified inconsistencies or overlaps in existing or developed plans;

4. Assist in warning communities adjacent to or crossing the state boundaries;

5. Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services, and resources, both human and material;

6. Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness; and

7. Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

B. The authorized representative of a party state may request assistance from another party state by contacting the authorized representative of that state. The provisions of this compact shall only apply to requests for assistance made by and to authorized representatives. Requests may be oral or in writing. If oral, the request shall be confirmed in writing within thirty days after the oral request. Requests shall provide the following information:

1. A description of the emergency service function for which assistance is needed, including, but not limited to, fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue;

2. The amount and type of personnel, equipment, materials and supplies needed, and a reasonable estimate of the length of time they will be needed; and

3. The specific place and time for staging of the assisting party's response and a point of contact at that location.

C. There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States Government, with free exchange of information, plans, and resource records relating to emergency capabilities.

#### ARTICLE IV

##### **Limitations**

Any party state that is asked to render mutual aid, or to conduct exercises and training for mutual aid, shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof, on the understanding that the state rendering aid may withhold resources to the extent reasonably necessary for its own protection.

Each party state shall afford to the emergency forces of any party state, while operating within its borders under the terms and conditions of this compact, the same powers, duties, rights, and privileges as are afforded forces of the state in which they are performing emergency services, except the power of arrest unless specifically authorized by the receiving state. Emergency forces shall continue under the command and control of their regular leaders, but the organizational units shall come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only after a declaration of a state of emergency or disaster by the Governor of the party state that is to receive assistance or after the commencement of exercises or training for mutual aid, and shall continue so long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect, or loaned resources remain in the receiving state, whichever is longer.

## ARTICLE V

### **Licenses and Permits**

Whenever any person holds a license, certificate, or other permit issued by any state party to the compact that evidences the meeting of qualifications for professional, mechanical, or other skills, and when such assistance is requested by the receiving party state, such person shall be deemed licensed, certified, or permitted by the state requesting assistance to render aid involving such skill to meet a declared emergency or disaster, subject to such limitations and conditions as the Governor of the requesting state may prescribe by executive order or otherwise.

## ARTICLE VI

### **Liability**

Officers or employees of a party state rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes. No party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

## ARTICLE VII

### **Supplementary Agreements**

Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that among the states that are party hereto, this compact contains elements of a broad base common to all states, and nothing herein shall preclude any state from entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation, and communications personnel and equipment and supplies.

## ARTICLE VIII

### **Compensation**

Each party state shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that state and representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

## ARTICLE IX

### **Reimbursement**

Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to, or expense incurred in the operation of, any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with such requests; except that any aiding party state may assume in whole or in part such loss, damage, expense, or other cost or may loan such equipment or donate such services to the receiving party state without charge or cost; and except that any two or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Article VIII expenses are not reimbursable under this article.

## ARTICLE X

### **Evacuation**

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency management/services directors of the various jurisdictions where any type of incident requiring evacuations might occur. Such plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the provision of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies, and all other relevant factors. Such plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines, and medical care, and like items. Such expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of such evacuees.

## ARTICLE XI

## Implementation

A. This compact shall become effective immediately upon its enactment into law by any two states. Thereafter, this compact shall become effective as to any other state upon its enactment by such state.

B. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until thirty days after the Governor of the withdrawing state has given notice in writing of such withdrawal to the Governors of all other party states. Such action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

C. Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states and with the Federal Emergency Management Agency and other appropriate agencies of the United States Government.

## ARTICLE XII

### Validity

This act shall be construed to effectuate the purposes stated in Article I. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be affected.

## ARTICLE XIII

### Additional Provisions

Nothing in this compact shall authorize or permit the use of military force by the National Guard of a state at any place outside that state in any emergency for which the President is authorized by law to call into federal service the militia, or for any purpose for which the use of the Army or the Air Force would, in the absence of express statutory authorization, be prohibited under 18 U.S.C. sec. 1385.

ARTICLE VII.

RULES & OPERATING PROCEDURES:

RULEMAKING FUNCTIONS OF THE COMMISSION

AND OPTING OUT OF UNIFORM STANDARDS

1. Rulemaking Authority. The Commission shall promulgate reasonable Rules, including Uniform Standards, and Operating Procedures in order to effectively and efficiently achieve the purposes of this Compact. Notwithstanding the foregoing, in the event the Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this Act, or the powers granted hereunder, then such an action by the Commission shall be invalid and have no force and effect.

2. Rulemaking Procedure. Rules and Operating Procedures shall be made pursuant to a rulemaking process that conforms to the Model State Administrative Procedure Act of 1981 as amended, as may be appropriate to the operations of the Commission. Before the Commission adopts a Uniform Standard, the Commission shall give written notice to the relevant state legislative committee(s) in each Compacting State responsible for insurance issues of its intention to adopt the Uniform Standard. The Commission in adopting a Uniform Standard shall consider fully all submitted materials and issue a concise explanation of its decision.

3. Effective Date and Opt Out of a Uniform Standard. A Uniform Standard shall become effective ninety (90) days after its promulgation by the Commission or such later date as the Commission may determine; provided, however, that a Compacting State may opt out of a Uniform Standard as provided in this Article. "Opt out" shall be defined as any action by a Compacting State to decline to adopt or participate in a promulgated Uniform Standard. All other Rules and Operating Procedures, and amendments thereto, shall become effective as of the date specified in each Rule, Operating Procedure or amendment.

4. Opt Out Procedure. A Compacting State may opt out of a Uniform Standard, either by legislation or regulation duly promulgated by the Insurance Department under the Compacting State's Administrative Procedure Act. If a Compacting State elects to opt out of a Uniform Standard by regulation, it must (a) give written notice to the Commission no later than ten (10) business days after the Uniform Standard is promulgated, or at the time the State becomes a Compacting State and (b) find that the Uniform Standard does not provide reasonable protections to the citizens of the State, given the conditions in the State. The Commissioner shall make specific findings of fact and conclusions of law, based on a preponderance of the evidence, detailing the conditions in the State which warrant a departure from the Uniform Standard and determining that the Uniform Standard would not reasonably protect the citizens of the State. The Commissioner must consider and balance the following factors and find that the conditions in the State and needs of the citizens of the State outweigh: (i) the intent of the legislature to participate in, and the benefits of, an interstate agreement to establish national uniform consumer protections for the Products subject to this Act; and (ii) the presumption that a Uniform Standard adopted by the Commission provides reasonable protections to consumers of the relevant Product.

Notwithstanding the foregoing, a Compacting State may, at the time of its enactment of this Compact, prospectively opt out of all Uniform Standards involving long-term care insurance products by expressly providing for such opt out in the enacted Compact, and such an opt out shall not be treated as a material variance in the offer or acceptance of any State to participate in this Compact. Such an opt out shall be effective at the time of enactment of this Compact by the Compacting State and shall apply to all existing Uniform Standards involving long-term care insurance products and those subsequently promulgated.

5. Effect of Opt Out. If a Compacting State elects to opt out of a Uniform Standard, the Uniform Standard shall remain applicable in the Compacting State electing to opt out until such time the opt-out legislation is enacted into law or the regulation opting out becomes effective.

Once the opt out of a Uniform Standard by a Compacting State becomes effective as provided under the laws of that State, the Uniform Standard shall have no further force and effect in that State unless and until the legislation or regulation implementing the opt-out is repealed or otherwise becomes ineffective under the laws of the State. If a Compacting State opts out of a Uniform Standard after the Uniform Standard has been made effective in that State, the opt-out shall have the same prospective effect as provided under Article XIV for withdrawals.

6. Stay of Uniform Standard. If a Compacting State has formally initiated the process of opting out of a Uniform Standard by regulation, and while the regulatory opt-out is pending, the Compacting State may petition the Commission, at least fifteen (15) days before the effective date of the Uniform Standard, to stay the effectiveness of the Uniform Standard in that State. The Commission may grant a stay if it determines the regulatory opt-out is being pursued in a reasonable manner and there is a likelihood of success. If a stay is granted or extended by the Commission, the stay or extension thereof may postpone the effective date by up to ninety (90) days, unless affirmatively extended by the Commission; provided, a stay may not be permitted to remain in effect for more than one (1) year unless the Compacting State can show extraordinary circumstances which warrant a continuance of the stay, including, but not limited to, the existence of a legal challenge which prevents the Compacting State from opting out. A stay may be terminated by the Commission upon notice that the rulemaking process has been terminated.

7. Not later than thirty (30) days after a Rule or Operating Procedure is promulgated, any person may file a petition for judicial review of the Rule or Operating Procedure; provided, that the filing of such a petition shall not stay or otherwise prevent the Rule or Operating Procedure from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Commission consistent with applicable law and shall not find the Rule or Operating Procedure to be unlawful if the Rule or Operating Procedure represents a reasonable exercise of the Commission's authority.

#### ARTICLE VIII.

### COMMISSION RECORDS AND ENFORCEMENT

1. The Commission shall promulgate Rules establishing conditions and procedures for public inspection and copying of its information and official records, except such information and records involving the privacy of individuals and insurers' trade secrets. The Commission may promulgate additional Rules under which it may make available to federal and state agencies, including law enforcement agencies, records and information otherwise exempt from disclosure, and may enter into agreements with such agencies to receive or exchange information or records subject to nondisclosure and confidentiality provisions.

2. Except as to privileged records, data and information, the laws of any Compacting State pertaining to confidentiality or nondisclosure shall not relieve any Compacting State Commissioner of the duty to disclose any relevant records, data or information to the Commission; provided, that disclosure to the Commission shall not be deemed to waive or otherwise affect any confidentiality requirement; and further provided, that, except as otherwise

expressly provided in this Act, the Commission shall not be subject to the Compacting State's laws pertaining to confidentiality and nondisclosure with respect to records, data and information in its possession. Confidential information of the Commission shall remain confidential after such information is proved to any Commissioner.

3. The Commission shall monitor Compacting States for compliance with duly adopted Bylaws, Rules, including Uniform Standards, and Operating Procedures. The Commission shall notify any non-complying Compacting State in writing of its noncompliance with Commission Bylaws, Rules or Operating Procedures. If a non-complying Compacting State fails to remedy its noncompliance within the time specified in the notice of noncompliance, the Compacting State shall be deemed to be in default as set forth in Article XIV.

4. The Commissioner of any State in which an Insurer is authorized to do business, or is conducting the business of insurance, shall continue to exercise his or her authority to oversee the market regulation of the activities of the Insurer in accordance with the provisions of the State's law. The Commissioner's enforcement of compliance with the Compact is governed by the following provisions:

a. With respect to the Commissioner's market regulation of a Product or Advertisement that is approved or certified to the Commission, the content of the Product or Advertisement shall not constitute a violation of the provisions, standards or requirements of the Compact except upon a final order of the Commission, issued at the request of a Commissioner after prior notice to the Insurer and an opportunity for hearing before the Commission.

b. Before a Commissioner may bring an action for violation of any provision, standard or requirement of the Compact relating to the content of an Advertisement not approved or certified to the Commission, the Commission, or an authorized Commission officer or employee, must authorize the action. However, authorization pursuant to this Paragraph does not require notice to the Insurer, opportunity for hearing or disclosure of requests for authorization or records of the Commission's action on such requests.

#### ARTICLE IX.

### DISPUTE RESOLUTION

The Commission shall attempt, upon the request of a Member, to resolve any disputes or other issues that are subject to this Compact and which may arise between two or more Compacting States, or between Compacting States and Non-compacting States, and the Commission shall promulgate an Operating Procedure providing for resolution of such disputes.

#### ARTICLE X.

### PRODUCT FILING AND APPROVAL

1. Insurers and Third-Party Filers seeking to have a Product approved by the Commission shall file the Product with, and pay applicable filing fees to, the Commission. Nothing in this Act shall be construed to restrict or otherwise prevent an Insurer from filing its Product with the insurance department in any State wherein the Insurer is licensed to conduct the business of insurance, and such filing shall be subject to the laws of the States where filed.

2. The Commission shall establish appropriate filing and review processes and procedures pursuant to Commission Rules and Operating Procedures. Notwithstanding any

provision herein to the contrary, the Commission shall promulgate Rules to establish conditions and procedures under which the Commission will provide public access to Product filing information. In establishing such Rules, the Commission shall consider the interests of the public in having access to such information, as well as protection of personal medical and financial information and trade secrets, that may be contained in a Product filing or supporting information.

3. Any Product approved by the Commission may be sold or otherwise issued in those Compacting States for which the Insurer is legally authorized to do business.

#### ARTICLE XI.

### REVIEW OF COMMISSION

#### DECISIONS REGARDING FILINGS

1. Not later than thirty (30) days after the Commission has given notice of a disapproved Product or Advertisement filed with the Commission, the Insurer or Third-Party Filer whose filing was disapproved may appeal the determination to a review panel appointed by the Commission. The Commission shall promulgate Rules to establish procedures for appointing such review panels and provide for notice and hearing. An allegation that the Commission, in disapproving a Product or Advertisement filed with the Commission, acted arbitrarily, capriciously, or in a manner that is an abuse of discretion or otherwise not in accordance with the law, is subject to judicial review in accordance with Article III, Section 4.

2. The Commission shall have authority to monitor, review and reconsider Products and Advertisement subsequent to their filing or approval upon a finding that the Product does not meet the relevant Uniform Standard. Where appropriate, the Commission may withdraw or modify its approval after proper notice and hearing, subject to the appeal process in Section 1 above.

#### ARTICLE XII.

### FINANCE

1. The Commission shall pay or provide for the payment of the reasonable expenses of its establishment and organization. To fund the cost of its initial operations, the Commission may accept contributions and other forms of funding from the National Association of Insurance Commissioners, Compacting States and other sources. Contributions and other forms of funding from other sources shall be of such a nature that the independence of the Commission concerning the performance of its duties shall not be compromised.

2. The Commission shall collect a filing fee from each Insurer and Third-Party Filer filing a product with the Commission to cover the cost of the operations and activities of the Commission and its staff in a total amount sufficient to cover the Commission's annual budget.

3. The Commission's budget for a fiscal year shall not be approved until it has been subject to notice and comment as set forth in Article VII of this Compact.

4. The Commission shall be exempt from all taxation in and by the Compacting States.

5. The Commission shall not pledge the credit of any Compacting State, except by and with the appropriate legal authority of that Compacting State.

6. The Commission shall keep complete and accurate accounts of all its internal receipts, including grants and donations, and disbursements of all funds under its control. The internal financial accounts of the Commission shall be subject to the accounting procedures established under its Bylaws. The financial accounts and reports including the system of internal controls and procedures of the Commission shall be audited annually by an independent certified public accountant. Upon the determination of the Commission, but no less frequently than every three (3) years, the review of the independent auditor shall include a management and performance audit of the Commission. The Commission shall make an Annual Report to the Governor and legislature of the Compacting States, which shall include a report of the independent audit. The Commission's internal accounts shall not be confidential and such materials may be shared with the Commissioner of any Compacting State upon request, provided, however, that any work papers related to any internal or independent audit and any information regarding the privacy of individuals' and insurers' proprietary information, including trade secrets, shall remain confidential.

7. No Compacting State shall have any claim to or ownership of any property held by or vested in the Commission or to any Commission funds held pursuant to the provisions of this Compact.

#### ARTICLE XIII.

#### COMPACTING STATES, EFFECTIVE DATE AND AMENDMENT

1. Any State is eligible to become a Compacting State.

2. The Compact shall become effective and binding upon legislative enactment of the Compact into law by two Compacting States; provided, the Commission shall become effective for purposes of adopting Uniform Standards for, reviewing, and giving approval or disapproval of, Products filed with the Commission that satisfy applicable Uniform Standards only after twenty-six (26) States are Compacting States or, alternatively, by States representing greater than forty percent (40%) of the premium volume for life insurance, annuity, disability income and long-term care insurance products, based on records of the NAIC for the prior year. Thereafter, it shall become effective and binding as to any other Compacting State upon enactment of the Compact into law by that State.

3. Amendments to the Compact may be proposed by the Commission for enactment by the Compacting States. No amendment shall become effective and binding upon the Commission and the Compacting States unless and until all Compacting States enact the amendment into law.

#### ARTICLE XIV.

#### WITHDRAWAL, DEFAULT AND TERMINATION

1. Withdrawal

a. Once effective, the Compact shall continue in force and remain binding upon each and every Compacting State; provided, that a Compacting State may withdraw from the Compact ("Withdrawing State") by enacting a statute specifically repealing the statute which enacted the Compact into law.

b. The effective date of withdrawal is the effective date of the repealing statute. However, the withdrawal shall not apply to any product filings approved or self-certified, or any

Advertisement of such products, on the date the repealing statute becomes effective, except by mutual agreement of the Commission and the Withdrawing State unless the approval is rescinded by the Withdrawing State as provided in Subsection e. of this Section.

c. The Commissioner of the Withdrawing State shall immediately notify the Management Committee in writing upon the introduction of legislation repealing this Compact in the Withdrawing State.

d. The Commission shall notify the other Compacting States of the introduction of such legislation within ten (10) days after its receipt of notice thereof.

e. The Withdrawing State is responsible for all obligations, duties and liabilities incurred through the effective date of withdrawal, including any obligations, the performance of which extend beyond the effective date of withdrawal, except to the extent those obligations may have been released or relinquished by mutual agreement of the Commission and the Withdrawing State. The Commission's approval of Products and Advertisement prior to the effective date of withdrawal shall continue to be effective and be given full force and effect in the Withdrawing State, unless formally rescinded by the Withdrawing State in the same manner as provided by the laws of the Withdrawing State for the prospective disapproval of Products or Advertisement previously approved under state law.

f. Reinstatement following withdrawal of any Compacting State shall occur upon the effective date of the Withdrawing State reenacting the Compact.

## 2. Default

a. If the Commission determines that any Compacting State has at any time defaulted ("Defaulting State") in the performance of any of its obligations or responsibilities under this Compact, the Bylaws or duly promulgated Rules or Operating Procedures, then, after notice and hearing as set forth in the Bylaws, all rights, privileges and benefits conferred by this Compact on the Defaulting State shall be suspended from the effective date of default as fixed by the Commission. The grounds for default include, but are not limited to, failure of a Compacting State to perform its obligations or responsibilities, and any other grounds designated in Commission Rules. The Commission shall immediately notify the Defaulting State in writing of the Defaulting State's suspension pending a cure of the default. The Commission shall stipulate the conditions and the time period within which the Defaulting State must cure its default. If the Defaulting State fails to cure the default within the time period specified by the Commission, the Defaulting State shall be terminated from the Compact and all rights, privileges and benefits conferred by this Compact shall be terminated from the effective date of termination.

b. Product approvals by the Commission or product self-certifications, or any Advertisement in connection with such Product, that are in force on the effective date of termination shall remain in force in the Defaulting State in the same manner as if the Defaulting State had withdrawn voluntarily pursuant to Paragraph 1 of this Article.

c. Reinstatement following termination of any Compacting State requires a reenactment of the Compact.

## 3. Dissolution of Compact

a. The Compact dissolves effective upon the date of the withdrawal or default of the Compacting State which reduces membership in the Compact to one Compacting State.

## PART 31

### COMPACT FOR PORTABILITY OF HEALTH-CARE PROFESSIONAL LICENSES - AUTHORIZATION

**24-60-3101. Legislative declaration.** The general assembly hereby finds that a lack of access to quality, affordable health-care services is an increasing problem, both in Colorado and nationwide, and contributes to the spiraling costs of health care for individuals and businesses. Therefore, it is desirable to authorize the executive director of the department of regulatory agencies, together with the Colorado medical board created in section 12-240-105 and the state board of nursing created in section 12-255-105, and in consultation with representatives of other relevant state agencies, to negotiate one or more interstate compacts endorsing model legislation to facilitate the efficient distribution of health-care services across state lines.

## PART 33

### INTERSTATE COMPACT FOR THE PREVENTION AND CONTROL OF FOREST FIRES

**Editor's note:** This part was originally numbered as part 32 in Senate Bill 06-096 but has been renumbered on revision for ease of location.

**24-60-3301. Execution of compact.** The governor may enter into a compact on behalf of the state with any other state or states legally joining therein in the form substantially as follows:

#### ARTICLE I

The purpose of this compact is to promote effective prevention and control of forest fires in the great plains region of the United States by the maintenance of adequate forest fire fighting services by the member states, and by providing for reciprocal aid in fighting forest fires among

the compacting states of the region, including South Dakota, North Dakota, Wyoming, Colorado, and any adjoining state of a current member state.

#### ARTICLE II

This compact is operative immediately as to those states ratifying it if any two or more of the member states have ratified it.

#### ARTICLE III

In each state, the state forester or officer holding the equivalent position who is responsible for forest fire control may act as compact administrator for that state, consult with like officials of the other member states, and implement cooperation between the states in forest fire prevention and control. The compact administrators of the member states may organize to coordinate the services of the member states and provide administrative integration in carrying out the purposes of this compact. Each member state may formulate and put in effect a forest fire plan for that state.

#### ARTICLE IV

If the state forest fire control agency of a member state requests aid from the state forest fire control agency of any other member state in combating, controlling, or preventing forest fires, the state forest fire control agency of that state may render all possible aid to the requesting agency, consonant with the maintenance of protection at home.

#### ARTICLE V

(1) If the forces of any member state are rendering outside aid pursuant to the request of another member state under this compact, the employees of the state shall, under the direction of the officers of the state to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges, and immunities as comparable employees of the state to which they are rendering aid.

(2) No member state or its officers or employees rendering outside aid pursuant to this compact is liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection with rendering the outside aid.

(3) All liability, except as otherwise provided in this compact, that may arise either under the laws of the requesting state or under the laws of the aiding state or under the laws of a third state on account of or in connection with a request for aid, shall be assumed and borne by the requesting state.

(4) Any member state rendering outside aid pursuant to this compact shall be reimbursed by the member state receiving the aid for any loss or damage to, or expense incurred in the operation of, any equipment used in answering a request for aid, and for the cost of all materials, transportation, wages, salaries, and maintenance of employees and equipment incurred in connection with the request. However, nothing in this compact prevents any assisting member state from assuming the loss, damage, expense, or other cost, from loaning the equipment, or from donating the services to the receiving member state without charge or cost.

(5) Each member state shall assure that workers compensation benefits in conformity with the minimum legal requirements of the state are available to all employees and contract firefighters sent to a requesting state pursuant to this compact.

(6) For the purposes of this compact, the term "employee" includes any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding state under the laws of the aiding state.

(7) The compact administrators may formulate procedures for claims and reimbursement under the provisions of this article in accordance with the laws of the member states.

#### ARTICLE VI

(1) Ratification of this compact does not affect any existing statute so as to authorize or permit curtailment or diminution of the forest fighting forces, equipment, services, or facilities of any member state.

(2) Nothing in the compact authorizes or permits any member state to curtail or diminish its forest fire fighting forces, equipment, services, or facilities. Each member state shall maintain adequate forest fire fighting forces and equipment to meet demands for forest fire protection within its borders in the same manner and to the same extent as if this compact were not operative.

(3) Nothing in this compact limits or restricts the powers of any state ratifying the compact to provide for the prevention, control, and extinguishment of forest fires, or to prohibit the enactment or enforcement of state laws, rules, or regulations intended to aid in the prevention, control, and extinguishment in the state.

(4) Nothing in this compact affects any existing or future cooperative relationship or arrangement between the United States forest service and a member state or states.

#### ARTICLE VII

Representatives of the United States forest service may attend meetings of the compact administrators.

#### ARTICLE VIII

The provisions of articles IV and V of this compact that relate to reciprocal aid in combating, controlling, or preventing forest fires are operative as between any state party to this compact and any other state which is party to this compact and any other state that is party to a regional forest fire protection compact in another region if the legislature of the other state has given its assent to the mutual aid provisions of this compact.

#### ARTICLE IX

This compact shall continue in force and remain binding on each state ratifying it until the legislature or the governor of the state takes action to withdraw from the compact. Such action is not effective until six months after notice of the withdrawal has been sent by the chief executive of the state desiring to withdraw to the chief executives of all states then parties to the compact.

#### ARTICLE IV - EDUCATIONAL RECORDS & ENROLLMENT

A. Course placement includes but is not limited to Honors, International Baccalaureate, Advanced Placement, vocational, technical and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

B. Educational program placement - The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services - 1) In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C.A. Section 1400 et seq, the receiving state shall initially provide comparable services to a student with disabilities based on his/her current Individualized Education Program (IEP); and 2) In compliance with the requirements of Section 504 of the Rehabilitation Act, 29 U.S.C.A. Section 794, and with Title II of the Americans with Disabilities Act, 42 U.S.C.A. Sections 12131-12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility - Local education agency administrative officials shall have flexibility in waiving course/program prerequisites, or other preconditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities - A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has

2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

3. A transitioning military child, placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he/she was enrolled while residing with the custodial parent.

A. Waiver requirements - Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams - States shall accept: 1) exit or end-of-course exams required for graduation from the sending state; or 2) national norm-referenced achievement tests or 3) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her Senior year, then the provisions of Article VII, Section C shall apply.

C. Transfers during Senior year - Should a military student transferring at the beginning or during his or her Senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this Article.

#### ARTICLE VIII - STATE COORDINATION

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies and military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member state may determine the membership of its own State Council, its membership must include at least: the state superintendent of education, superintendent of a school district with a high concentration of military children, representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the State Council.

B. The State Council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the Governor or as otherwise determined by each member state.

D. The compact commissioner and the military family education liaison designated herein shall be ex-officio members of the State Council, unless either is already a full voting member of the State Council.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex-officio, non-voting representatives who are members of interested organizations. Such ex-officio members, as defined in the bylaws, may include but not be limited

to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel and other interstate compacts affecting the education of children of military members.

Members of the executive committee shall serve a one year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The U.S. Dept. of Defense, shall serve as an ex-officio, nonvoting member of the executive committee.

F. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

G. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

The Interstate Commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. Shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. Such methods of data collection, exchange and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. Shall create a process that permits military officials, education officials and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission or any member state.

The executive director shall serve as secretary to the Interstate Commission, but shall not be a Member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

1. The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the Constitution and laws of that state for state officials, employees, and agents. ## ARTICLE XII - RULEMAKING FUNCTIONS

### OF THE INTERSTATE COMMISSION

A. Rulemaking Authority - The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this Compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this Act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

B. Rulemaking Procedure - Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act," of 1981 Act, Uniform Laws Annotated, Vol. 15, p.1 (2000) as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the legislatures of the compacting states rejects a Rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

## ARTICLE XIII - OVERSIGHT, ENFORCEMENT,

### AND DISPUTE RESOLUTION

#### A. Oversight

1. The executive, legislative and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law, and shall be reviewed annually by the state, veterans, and military affairs committees of the house of representatives and the senate, or any successor committees, and the department of education, beginning January 30, 2010.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities or actions of the Interstate Commission.

3. The Interstate Commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact or promulgated rules.

B. Default, Technical Assistance, Suspension and Termination - If the Interstate Commission determines that a member state has defaulted in the performance of its obligations

or responsibilities under this compact, or the bylaws or promulgated rules, the Interstate Commission shall:

2. Provide remedial training and specific technical assistance regarding the default.

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

5. The state which has been suspended or terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination.

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

#### C. Dispute Resolution

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states and between member and non-member states.

2. The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

#### D. Enforcement

1. The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. The Interstate Commission, may by majority vote of the members, initiate legal action in the United State District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the compact, its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

#### ARTICLE XIV - FINANCING OF THE

#### INTERSTATE COMMISSION

A. The Interstate Commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization and ongoing activities.

B. The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

#### ARTICLE XV - MEMBER STATES, EFFECTIVE

#### DATE AND AMENDMENT

A. Any state is eligible to become a member state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than ten (10) of the states. The effective date shall be no earlier than December 1, 2007. Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of non-member states or their designees shall be invited to participate in the activities of the Interstate Commission on a non-voting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

#### ARTICLE XVI - WITHDRAWAL AND DISSOLUTION

A. Withdrawal

1. Once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact specifically repealing the statute, which enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same and written notice of the withdrawal has been given by the withdrawing state to the Governor of each other member jurisdiction.

3. The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

#### B. Dissolution of Compact

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one (1) member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

### ARTICLE XVII - SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

### ARTICLE XVIII - BINDING EFFECT OF

#### COMPACT AND OTHER LAWS

#### RECOGNITION OF EMERGENCY MEDICAL SERVICES PERSONNEL LICENSURE INTERSTATE COMPACT

#### SECTION 1

#### PURPOSE

The purpose of this compact is to protect the public through verification of competency and ensure accountability for patient care-related activities of all states' licensed emergency medical services (EMS) personnel, such as emergency medical technicians (EMTs), advanced EMTs, and paramedics. This compact is intended to facilitate the day-to-day movement of EMS personnel across state boundaries in the performance of their EMS duties as assigned by an appropriate authority and authorize state EMS offices to afford immediate legal recognition to EMS personnel licensed in a member state. This compact recognizes that states have a vested interest in protecting the public's health and safety through their licensing and regulation of EMS personnel and that such state regulation shared among the member states will best protect public health and safety. This compact is designed to achieve the following purposes and objectives:

1. Increase public access to EMS personnel;
2. Enhance the states' ability to protect the public's health and safety, especially patient safety;
3. Encourage the cooperation of member states in the areas of EMS personnel licensure and regulation;
4. Support licensing of military members who are separating from an active duty tour and the spouses of military members;
5. Facilitate the exchange of information between member states regarding EMS personnel licensure, adverse action, and significant investigatory information;

6. Promote compliance with the laws governing EMS personnel practice in each member state; and

7. Invest all member states with the authority to hold EMS personnel accountable through the mutual recognition of member state licenses.

2. Has a mechanism in place for receiving and investigating complaints about individuals;

3. Notifies the commission, in compliance with the terms of the compact, of any adverse action or significant investigatory information regarding an individual, which notification does not waive confidentiality of the investigatory records protected under section 25-3.5-205 (4), C.R.S.;

D. Except as provided in subsection C of this section 4, an individual practicing in a remote state is subject to the remote state's authority and laws. A remote state may, in accordance with due process and that state's laws, restrict, suspend, or revoke an individual's privilege to practice in the remote state and may take any other necessary actions to protect the health and safety of its citizens. If a remote state takes action, the remote state shall promptly notify the home state and the commission.

### RELATIONSHIP TO EMERGENCY

#### MANAGEMENT ASSISTANCE COMPACT

Upon a member state's governor's declaration of a state of emergency or disaster that activates the Emergency Management Assistance Compact (EMAC), all relevant terms and provisions of EMAC apply, and to the extent any terms or provisions of this compact conflict with EMAC, the terms of EMAC prevail with respect to any individual practicing in the remote state in response to the emergency or disaster declaration.

## SECTION 7

### VETERANS, SERVICE MEMBERS SEPARATING

#### FROM ACTIVE DUTY MILITARY, AND THEIR SPOUSES

A. Member states shall consider a veteran, active military service member, member of the National Guard and Reserves separating from an active duty tour, and a spouse of the veteran or member, who holds a current, valid, and unrestricted NREMT certification at or above the level of the state license being sought, as satisfying the minimum training and examination requirements for licensure.

B. Member states shall expedite the processing of a license application submitted by:

2. The spouse of a veteran or member described in paragraph 1 of this subsection B.

C. All individuals functioning with a privilege to practice under this section remain subject to the adverse actions provisions of section 8 of this compact.

## SECTION 8

D. An individual currently subject to an adverse action in the home state shall not practice in any remote state without prior written authorization from both the home state and remote state's EMS authority.

E. A member state shall report adverse actions and any occurrences that the individual's compact privileges are restricted, suspended, or revoked to the commission in accordance with the rules of the commission.

F. A remote state may take adverse action on an individual's privilege to practice within that state.

G. Any member state may take adverse action against an individual's privilege to practice in that state based on the factual findings of another member state, as long as each state follows its own procedures for imposing an adverse action.

H. A home state's EMS authority shall investigate and take appropriate action with respect to reported conduct in a remote state as it would if the conduct had occurred within the home state. In these cases, the home state's law controls in determining the appropriate adverse action.

I. Nothing in this compact overrides a member state's decision that participation in an alternative program may be used in lieu of adverse action and that participation remains confidential if required by the member state's laws. Member states must require individuals who enter any alternative programs to agree not to practice in any other member state during the term of the alternative program without prior authorization from the other member state.

A. A member state's EMS authority, in addition to any other powers granted under state law, is authorized under this compact to:

1. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses and the production of evidence. Subpoenas issued by a member state's EMS authority for the attendance and testimony of witnesses or the production of evidence from another member state are enforceable in the remote state by any court of competent jurisdiction, according to that court's practice and procedure in considering subpoenas issued in its own proceedings. The issuing state's EMS authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence are located; and

2. Issue cease-and-desist orders to restrict, suspend, or revoke an individual's privilege to practice in the state.

The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

4. Nothing in this compact waives sovereign immunity.

B. Membership, voting, and meetings.

1. Each member state has and is limited to one delegate. The responsible official of the state EMS authority or his or her designee shall be the delegate to this compact for each member state. Any delegate may be removed or suspended from office as provided by the law of the state from which the delegate is appointed. A vacancy occurring in the commission must be filled in accordance with the laws of the member state in which the vacancy occurs. If more than one board, office, or other agency with the legislative mandate to license EMS personnel at and above the level of EMT exists, the governor of the state will determine which entity is responsible for assigning the delegate.

2. Each delegate is entitled to one vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the commission. A delegate shall vote in person or by other means as provided in the bylaws. The bylaws may provide for delegates' participation in meetings by telephone or other means of communication.

- h. Disclosure of investigatory records compiled for law enforcement purposes;
- i. Disclosure of information related to any investigatory reports prepared by or on behalf of or for use of the commission or other committee charged with investigating or determining compliance issues pursuant to the compact; or
- j. Matters specifically exempted from disclosure by federal or member state statute.

6. If a meeting or portion of a meeting is closed pursuant to this section, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a closed meeting and shall provide a full and accurate

summary of actions taken and the reasons for the actions, including a description of the views expressed. All documents considered in connection with an action must be identified in the minutes. All minutes and documents of a closed meeting must remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

C. The commission shall, by a majority vote of the delegates, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of the compact, including:

  - a. For establishment and meetings of other committees; and
  - b. Governing any general or specific delegation of any authority or function of the commission;
3. Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings, and providing an opportunity for attendance of commission meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the commission members vote to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting, revealing the vote of each member with no proxy votes allowed;
4. Establishing the titles, duties, and authority, and reasonable procedures for the election of the officers of the commission;
5. Providing reasonable standards and procedures for establishing the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any member state, the bylaws exclusively govern the personnel policies and programs of the commission;
6. Promulgating a code of ethics to address permissible and prohibited activities of commission members and employees; and
7. Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of the compact and after the paying or reserving of all of its debts and obligations.

D. The commission shall publish its bylaws and file a copy of its bylaws and any amendments to the bylaws with the appropriate agency or officer in each of the member states, if any.

E. The commission shall maintain its financial records in accordance with the bylaws.

F. The commission shall meet and take actions consistent with this compact and commission bylaws.

G. The commission has the following powers:

1. To promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules have the force and effect of law and are binding in all member states.
2. To bring and prosecute legal proceedings or actions in the name of the commission; except that the standing of any state EMS authority or other regulatory body responsible for EMS personnel licensure to sue or be sued under applicable law is not affected;
3. To purchase and maintain insurance and bonds;

4. To borrow, accept, or contract for services of personnel, including employees of a member state;

5. To hire employees, elect or appoint officers, fix compensation, define duties, grant those individuals appropriate authority to carry out the purposes of the compact, and establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;

6. To accept any appropriate donations and grants of money, equipment, supplies, materials, and services and to receive, utilize, and dispose of donations and grants; except that at all times the commission shall strive to avoid any appearance of impropriety or conflict of interest;

7. To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use any real, personal, or mixed property; except that at all times the commission shall strive to avoid any appearance of impropriety;

8. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any real, personal, or mixed property;

9. To establish a budget and make expenditures;

10. To borrow money;

11. To appoint committees, including advisory committees, composed of members, state regulators, state legislators or their representatives, consumer representatives, and other interested persons as may be designated in this compact and the bylaws;

12. To provide and receive information from, and to cooperate with, law enforcement agencies;

13. To adopt and use an official seal; and

14. To perform other functions as may be necessary or appropriate to achieve the purposes of this compact that are consistent with the state regulation of EMS personnel licensure and practice.

H. Financing of the commission.

1. The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

2. The commission may accept any appropriate revenue sources, donations, and grants of money, equipment, supplies, materials, and services.

3. The commission may levy on and collect an annual assessment from each member state or impose fees on other parties to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount must be allocated based upon a formula to be determined by the commission, which shall promulgate a rule binding upon all member states.

4. The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the member states, except by and with the authority of the member state.

5. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission are subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission must be audited yearly by a certified or licensed public accountant, and the report of the audit must be included in and become part of the commission's annual report.

I. Qualified immunity, defense, and indemnification.

1. The members, officers, executive director, employees, and representatives of the commission are immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities. Nothing in this paragraph 1 protects any person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person.

2. The commission shall defend any member, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, unless the actual or alleged act, error, or omission resulted from that person's intentional or willful or wanton misconduct. Nothing in this paragraph 2 prohibits that person from retaining his or her own counsel.

3. The commission shall indemnify and hold harmless any member, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, unless the actual or alleged act, error, or omission resulted from the intentional or willful or wanton misconduct of that person.

SECTION 11

COORDINATED DATABASE

A. The commission shall provide for the development and maintenance of a coordinated database and reporting system containing licensure, adverse action, and significant investigatory information on all licensed individuals in member states.

B. Notwithstanding any other provision of state law to the contrary, a member state shall submit a uniform data set to the coordinated database on all individuals to whom this compact is applicable as required by the rules of the commission, including:

1. Identifying information;
2. Licensure data;
3. Significant investigatory information;
4. Adverse actions against an individual's license;
5. An indicator that an individual's privilege to practice is restricted, suspended, or revoked;
6. Nonconfidential information related to alternative program participation;
7. Any denial of an application for licensure and the reason for the denial; and
8. Other information that may facilitate the administration of this compact, as determined by the rules of the commission.

C. The coordinated database administrator shall promptly notify all member states of any adverse action taken against, or significant investigative information on, any individual in a member state.

D. Member states contributing information to the coordinated database may designate information that may not be shared with the public without the express permission of the contributing state.

E. Any information submitted to the coordinated database that is subsequently required to be expunged by the laws of the member state contributing the information must be removed from the coordinated database.

## SECTION 12

### RULEMAKING

A. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section 12 and the rules adopted under this section 12. Rules and amendments are binding as of the date specified in the rule or amendment.

B. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact, the rule has no further force and effect in any member state.

C. Rules or amendments to the rules must be adopted at a regular or special meeting of the commission.

D. Prior to promulgating and adopting a final rule, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

1. On the commission's website; and
2. On the website of each member state's EMS authority or the publication in which each state would otherwise publish proposed rules.

E. The notice of proposed rulemaking must include:

1. The proposed time, date, and location of the meeting in which the rule will be considered and voted upon;
2. The text of the proposed rule or amendment and the reason for the proposed rule;
3. A request for comments on the proposed rule from any interested person; and
4. The manner in which interested persons may submit to the commission notice of intent to attend the public hearing and any written comments.

F. Prior to adopting a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which the commission shall make available to the public.

G. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:

1. At least twenty-five persons;
2. A governmental subdivision or agency; or
3. An association having at least twenty-five members.

H. 1. If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time, and date of the scheduled public hearing.

2. All persons wishing to be heard at the hearing shall notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than five business days before the scheduled date of the hearing.

3. Hearings must be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

4. A transcript of the hearing is not required unless a written request for a transcript is made, in which case the person requesting the transcript shall bear the cost of producing the transcript. A recording may be made in lieu of a transcript under the same terms and conditions as a transcript. This paragraph 4 does not preclude the commission from making a transcript or recording of the hearing if it so chooses.

5. Nothing in this section requires a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

I. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

J. The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

K. If the commission does not receive written notice of intent to attend the public hearing by interested parties, the commission may proceed with promulgation of the proposed rule without a public hearing.

L. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, but the usual rulemaking procedures provided in the compact and in this section must be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this subsection L, an emergency rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;
2. Prevent a loss of commission or member state funds;
3. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or
4. Protect public health and safety.

M. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical, format, consistency, or grammatical errors. Public notice of any revisions must be posted on the commission's website. The revision is subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge must be made in writing and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision takes effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

## SECTION 13

### OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

A. Oversight.

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated under the compact have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact that may affect the powers, responsibilities, or actions of the commission.

3. The commission is entitled to receive service of process in any judicial or administrative proceeding and has standing to intervene in the proceeding for all purposes. Failure to provide service of process to the commission renders a judgment or order void as to the commission, this compact, or promulgated rules.

B. Default, technical assistance, and termination.

1. If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

a. Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default, and any other action to be taken by the commission; and

b. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in the compact may be imposed only after all other means of securing compliance have been exhausted. The commission shall give notice of intent to suspend or terminate to the governor of the defaulting state, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

4. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

6. The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the federal district where the commission has its principal offices. The court shall award all costs of the litigation, including reasonable attorney's fees, to the prevailing party.

C. Dispute resolution.

1. Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and non-member states.

2. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement.

1. The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. By majority vote, the commission may initiate legal action in the United States District Court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. If judicial enforcement is necessary, the court shall award all costs of the litigation, including reasonable attorney's fees, to the prevailing party.

3. The remedies contained in this section are not the exclusive remedies available to the commission. The commission may pursue any other remedies available under federal or state law.

SECTION 14

DATE OF IMPLEMENTATION OF THE  
INTERSTATE COMMISSION FOR EMS PERSONNEL  
PRACTICE AND ASSOCIATED RULES,  
WITHDRAWAL, AND AMENDMENT

A. The compact takes effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions that become effective at that time are limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to implement and administer the compact.

B. Any state that joins the compact after the commission's initial adoption of the rules is subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission has the full force and effect of law on the day the compact becomes law in that state.

C. 1. Any member state may withdraw from this compact by enacting a statute repealing the compact statute.

2. A member state's withdrawal does not take effect until six months after enactment of the repealing statute.

3. Withdrawal does not affect the continuing requirement of the withdrawing state's EMS authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

D. Nothing contained in this compact invalidates or prevents any EMS personnel licensure agreement or other cooperative arrangement between a member state and a non-member state that does not conflict with the provisions of this compact.

E. The member states may amend the compact. An amendment to this compact is not effective and binding upon any member state until it is enacted into the laws of all member states.

SECTION 15

## CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes of the compact. If a court finds that this compact is contrary to the constitution of any member state, the compact remains in full force and effect as to the remaining member states. Nothing in this compact supersedes state law or rules related to licensure of EMS agencies.

### INTERSTATE MEDICAL LICENSURE COMPACT

### INTERSTATE MEDICAL LICENSURE COMPACT

#### SECTION 1. PURPOSE

In order to strengthen access to health care, and in recognition of the advances in the delivery of health care, the member states of the Interstate Medical Licensure Compact have allied in common purpose to develop a comprehensive process that complements the existing licensing and regulatory authority of state medical boards, provides a streamlined process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The Compact creates another pathway for licensure and does not otherwise change a state's existing Medical Practice Act. The Compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician-patient encounter, and therefore, requires the physician to be under the jurisdiction of the state medical board where the patient is located. State medical boards that participate in the Compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the Compact.

by any other member board shall remain encumbered until that respective member board takes action to reinstate the license in a manner consistent with the Medical Practice Act of that state.

(c) If disciplinary action is taken against a physician by a member board not in the state of principal license, any other member board may deem the action conclusive as to matter of law and fact decided, and:

(ii) or pursue separate disciplinary action against the physician under its respective Medical Practice Act, regardless of the action taken in other member states.

(d) If a license granted to a physician by a member board is revoked, surrendered or relinquished in lieu of discipline, or suspended, then any license(s) issued to the physician by any other member board(s) shall be suspended, automatically and immediately without further action necessary by the other member board(s), for ninety (90) days upon entry of the order by the disciplining board, to permit the member board(s) to investigate the basis for the action under the Medical Practice Act of that state. A member board may terminate the automatic suspension of the license it issued prior to the completion of the ninety (90) day suspension period in a manner consistent with the Medical Practice Act of that state.

#### **SECTION 11. INTERSTATE MEDICAL LICENSURE COMPACT COMMISSION**

(a) The member states hereby create the "Interstate Medical Licensure Compact Commission".

(b) The purpose of the Interstate Commission is the administration of the Interstate Medical Licensure Compact, which is a discretionary state function.

(c) The Interstate Commission shall be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth in the Compact, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of the Compact.

(d) The Interstate Commission shall consist of two voting representatives appointed by each member state who shall serve as Commissioners. In states where allopathic and osteopathic physicians are regulated by separate member boards, or if the licensing and disciplinary authority is split between multiple member boards within a member state, the member state shall appoint one representative from each member board. A commissioner shall be a(n):

(1) Allopathic or osteopathic physician appointed to a member board;

(2) Executive director, executive secretary, or similar executive of a member board; or

(3) Member of the public appointed to a member board.

(e) The Interstate Commission shall meet at least once each calendar year. (f) The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

(g) Each Commissioner participating at a meeting of the Interstate Commission is entitled to one vote. A majority of Commissioners shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission. A

commissioner shall not delegate a vote to another Commissioner. In the absence of its Commissioner, a member state may delegate voting authority for a specified meeting to another person from that state who shall meet the requirements of subsection (d).

(h) The Interstate Commission shall provide public notice of all meetings and all meetings shall be open to the public. The Interstate Commission may close a meeting, in full or in portion, where it determines by a two-thirds vote of the Commissioners present that an open meeting would be likely to:

(1) Relate solely to the internal personnel practices and procedures of the Interstate Commission;

(2) Discuss matters specifically exempted from disclosure by federal statute;

(3) Discuss trade secrets, commercial or financial information that is privileged or confidential;

(4) Involve accusing a person of a crime, or formally censuring a person;

(5) Discuss information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(6) Discuss investigative records compiled for law enforcement purposes; or

(7) Specifically relate to the participation in a civil action or other legal proceeding.

(i) The Interstate Commission shall keep minutes which shall fully describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, including record of any roll call votes.

(j) The Interstate Commission shall make its information and official records, to the extent not otherwise designated in the Compact or by its rules, available to the public for inspection.

(k) The Interstate Commission shall establish an executive committee, which shall include officers, members, and others as determined by the bylaws. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. When acting on behalf of the Interstate Commission, the executive committee shall oversee the administration of the Compact, including enforcement and compliance with the provisions of the Compact, its bylaws and rules, and other such duties as necessary.

(l) The Interstate Commission may establish other committees for governance and administration of the Compact.

(g) Establish and maintain one or more offices;

(h) Borrow, accept, hire, or contract for services of personnel;

(i) Purchase and maintain insurance and bonds;

(j) Employ an executive director who shall have such powers to employ, select or appoint employees, agents, or consultants, and to determine their qualifications, define their duties, and fix their compensation;

(k) Establish personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel;

(l) Accept donations and grants of money, equipment, supplies, materials and services, and to receive, utilize, and dispose of it in a manner consistent with the conflict of interest policies established by the Interstate Commission;

(m) Lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve, or use any property, real, personal, or mixed;

(n) Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed;

(o) Establish a budget and make expenditures;

(p) Adopt a seal and bylaws governing the management and operation of the Interstate Commission;

(q) Report annually to the legislatures and governors of the member states concerning the activities of the Interstate Commission during the preceding year. Such reports shall also include reports of financial audits and any recommendations that may have been adopted by the Interstate Commission;

(r) Coordinate education, training, and public awareness regarding the Compact, its implementation, and its operation;

(s) Maintain records in accordance with the bylaws;

(t) Seek and obtain trademarks, copyrights, and patents; and

### **SECTION 13. FINANCE POWERS**

(a) The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff. The total assessment must be sufficient to cover the annual budget approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount shall be allocated upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

(b) The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet same.

(c) The Interstate Commission shall not pledge the credit of any of the member states, except by, and with the authority of, the member state.

(d) The Interstate Commission shall be subject to a yearly financial audit conducted by a certified or licensed public accountant and the report of the audit shall be included in the annual report of the Interstate Commission.

#### **SECTION 14. ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION**

(a) The Interstate Commission shall, by a majority of Commissioners present and voting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the Compact within twelve (12) months of the first Interstate Commission meeting.

(b) The Interstate Commission shall elect or appoint annually from among its Commissioners a chairperson, a vice-chairperson, and a treasurer, each of whom shall have authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson shall preside at all meetings of the Interstate Commission.

(c) Officers selected in subsection (b) shall serve without remuneration from the Interstate Commission.

(d) The officers and employees of the Interstate Commission shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of, or relating to, an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(1) The liability of the executive director and employees of the Interstate Commission or representative of the Interstate Commission, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within each person's state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(2) The Interstate Commission shall defend the executive director, its employees and subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred within the scope of Interstate Commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

(3) To the extent not covered by the state involved, member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or

that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

#### **SECTION 15. RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION**

(a) The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the Compact. Notwithstanding the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of the Compact, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

(b) Rules deemed appropriate for the operations of the Interstate Commission shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act" of 2010, and subsequent amendments thereto.

(c) Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the Interstate Commission.

#### **SECTION 16. OVERSIGHT OF INTERSTATE COMPACT**

(a) The executive, legislative, and judicial branches of state government in each member state shall enforce the Compact and shall take all actions necessary and appropriate to effectuate the Compact's purposes and intent. The provisions of the Compact and the rules promulgated hereunder shall have standing as statutory law but shall not override existing state authority to regulate the practice of medicine.

(b) All courts shall take judicial notice of the Compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the Compact which may affect the powers, responsibilities, or actions of the Interstate Commission.

(c) The Interstate Commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceedings for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, the Compact, or promulgated rules.

#### **SECTION 17. ENFORCEMENT OF INTERSTATE COMPACT**

(a) The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the Compact.

(b) The Interstate Commission may, by majority vote of the Commissioners, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the Compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

(c) The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

#### **SECTION 18. DEFAULT PROCEDURES**

(a) The grounds for default include, but are not limited to, failure of a member state to perform such obligations or responsibilities imposed upon it by the Compact or by the rules and bylaws of the Interstate Commission promulgated under the Compact.

(b) If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the Compact, or the bylaws or promulgated rules, the Interstate Commission shall:

(1) Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default; and

(2) Provide remedial training and specific technical assistance regarding the default.

(c) If the defaulting state fails to cure the default, the defaulting state shall be terminated from the Compact upon an affirmative vote of a majority of the Commissioners and all rights, privileges, and benefits conferred by the Compact shall terminate on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

(d) Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate shall be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(e) The Interstate Commission shall establish rules and procedures to address licenses and physicians that are materially impacted by the termination of a member state, or the withdrawal of a member state.

(f) The member state which has been terminated is responsible for all dues, obligations, and liabilities incurred through the effective date of termination including obligations, the performance of which extends beyond the effective date of termination.

(g) The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been terminated from the Compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

(h) The defaulting state may appeal the action of the Interstate Commission by petitioning the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

#### **SECTION 19. DISPUTE RESOLUTION**

(a) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the Compact and which may arise among member states or member boards.

(b) The Interstate Commission shall promulgate rules providing for both mediation and binding dispute resolution as appropriate.

#### **SECTION 20. MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT**

(a) Any state is eligible to become a member state of the Compact.

(b) The Compact shall become effective and binding upon legislative enactment of the Compact into law by no less than seven (7) states. Thereafter, it shall become effective and binding on a state upon enactment of the Compact into law by that state.

(c) The governors of non-member states, or their designees, shall be invited to participate in the activities of the Interstate Commission on a non-voting basis prior to adoption of the Compact by all states.

(d) The Interstate Commission may propose amendments to the Compact for enactment by the member states. No amendment shall be effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

#### **SECTION 21. WITHDRAWAL**

(a) Once effective, the Compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the Compact by specifically repealing the statute which enacted the Compact into law.

(b) Withdrawal from the Compact shall be by the enactment of a statute repealing the same, but shall not take effect until one (1) year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.

(c) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing the Compact in the withdrawing state.

(d) The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt of notice provided under subsection (c).

(e) The withdrawing state is responsible for all dues, obligations and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

(f) Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the Compact or upon such later date as determined by the Interstate Commission.

(g) The Interstate Commission is authorized to develop rules to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

#### **SECTION 22. DISSOLUTION**

(a) The Compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the Compact to one (1) member state.

(b) Upon the dissolution of the Compact, the Compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

#### **SECTION 23. SEVERABILITY AND CONSTRUCTION**

(a) The provisions of the Compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the Compact shall be enforceable.

(b) The provisions of the Compact shall be liberally construed to effectuate its purposes.

(c) Nothing in the Compact shall be construed to prohibit the applicability of other interstate Compacts to which the states are members.

**SECTION 24. BINDING EFFECT OF COMPACT AND OTHER LAWS**

(a) Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with the Compact.

(b) All laws in a member state in conflict with the Compact are superseded to the extent of the conflict.

(c) All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Commission, are binding upon the member states.

(d) All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

(e) In the event any provision of the Compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

2. The Commission shall defend any member, officer, executive director, employee or representative of the Commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of Commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of Commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining his or her own counsel; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

A. The Commission shall provide for the development, maintenance, and utilization of a coordinated database and reporting system containing licensure, adverse action, and investigative information on all licensed individuals in member states.

B. Notwithstanding any other provision of state law to the contrary, a member state shall submit a uniform data set to the data system on all individuals to whom this Compact is applicable as required by the rules of the Commission, including:

1. Identifying information;
2. Licensure data;
3. Adverse actions against a license or compact privilege;
4. Non-confidential information related to alternative program participation;
5. Any denial of application for licensure, and the reason(s) for such denial; and
6. Other information that may facilitate the administration of this Compact, as determined by the rules of the Commission.

C. Investigative information pertaining to a licensee in any member state will only be available to other party states.

D. The Commission shall promptly notify all member states of any adverse action taken against a licensee or an individual applying for a license. Adverse action information pertaining to a licensee in any member state will be available to any other member state.

E. Member states contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing state.

F. Any information submitted to the data system that is subsequently required to be expunged by the laws of the member state contributing the information shall be removed from the data system.

## **SECTION 9. RULEMAKING**

A. The Commission shall exercise its rulemaking powers pursuant to the criteria set forth in this Section and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.

B. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the Compact within 4 years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.

C. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

D. Prior to promulgation and adoption of a final rule or rules by the Commission, and at least thirty (30) days in advance of the meeting at which the rule will be considered and voted upon, the Commission shall file a Notice of Proposed Rulemaking:

1. On the website of the Commission or other publicly accessible platform; and
2. On the website of each member state physical therapy licensing board or other publicly accessible platform or the publication in which each state would otherwise publish proposed rules.

E. The Notice of Proposed Rulemaking shall include:

1. The proposed time, date, and location of the meeting in which the rule will be considered and voted upon;
2. The text of the proposed rule or amendment and the reason for the proposed rule;
3. A request for comments on the proposed rule from any interested person; and
4. The manner in which interested persons may submit notice to the Commission of their intention to attend the public hearing and any written comments.

F. Prior to adoption of a proposed rule, the Commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

G. The Commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:

1. At least twenty-five (25) persons;
2. A state or federal governmental subdivision or agency; or
3. An association having at least twenty-five (25) members.

H. If a hearing is held on the proposed rule or amendment, the Commission shall publish the place, time, and date of the scheduled public hearing. If the hearing is held via electronic means, the Commission shall publish the mechanism for access to the electronic hearing.

1. All persons wishing to be heard at the hearing shall notify the executive director of the Commission or other designated member in writing of their desire to appear and testify at the hearing not less than five (5) business days before the scheduled date of the hearing.

2. Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

3. All hearings will be recorded. A copy of the recording will be made available on request.

4. Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the Commission at hearings required by this section.

I. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the Commission shall consider all written and oral comments received.

J. If no written notice of intent to attend the public hearing by interested parties is received, the Commission may proceed with promulgation of the proposed rule without a public hearing.

K. The Commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

L. Upon determination that an emergency exists, the Commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in the Compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety (90) days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

1. Meet an imminent threat to public health, safety, or welfare;
2. Prevent a loss of Commission or member state funds;
3. Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or
4. Protect public health and safety.

M. The Commission or an authorized committee of the Commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the chair of the Commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

## **SECTION 10. OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT**

### **A. Oversight**

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this Compact and take all actions necessary and appropriate to effectuate the Compact's purposes and intent. The provisions of this Compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the Compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this Compact which may affect the powers, responsibilities or actions of the Commission.

3. The Commission shall be entitled to receive service of process in any such proceeding, and shall have standing to intervene in such a proceeding for all purposes. Failure to

provide service of process to the Commission shall render a judgment or order void as to the Commission, this Compact, or promulgated rules.

B. Default, Technical Assistance, and Termination

1. If the Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated rules, the Commission shall:

a. Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default and/or any other action to be taken by the Commission; and

b. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state may be terminated from the Compact upon an affirmative vote of a majority of the member states, and all rights, privileges and benefits conferred by this Compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

4. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the Compact, unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Commission has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

C. Dispute Resolution

1. Upon request by a member state, the Commission shall attempt to resolve disputes related to the Compact that arise among member states and between member and non-member states.

2. The Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this Compact.

2. By majority vote, the Commission may initiate legal action in the United States District Court for the District of Columbia or the federal district where the Commission has its principal offices against a member state in default to enforce compliance with the provisions of the Compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

**SECTION 11. DATE OF IMPLEMENTATION OF THE INTERSTATE COMMISSION FOR PHYSICAL THERAPY PRACTICE AND ASSOCIATED RULES, WITHDRAWAL, AND AMENDMENT**

A. The Compact shall come into effect on the date on which the Compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the Commission relating to assembly and the promulgation of rules. Thereafter, the Commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the Compact.

B. Any state that joins the Compact subsequent to the Commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the Compact becomes law in that state. Any rule that has been previously adopted by the Commission shall have the full force and effect of law on the day the Compact becomes law in that state.

C. Any member state may withdraw from this Compact by enacting a statute repealing the same.

1. A member state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute.

2. Withdrawal shall not affect the continuing requirement of the withdrawing state's physical therapy licensing board to comply with the investigative and adverse action reporting requirements of this act prior to the effective date of withdrawal.

D. Nothing contained in this Compact shall be construed to invalidate or prevent any physical therapy licensure agreement or other cooperative arrangement between a member state and a non-member state that does not conflict with the provisions of this Compact.

E. This Compact may be amended by the member states. No amendment to this Compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

**SECTION 12. CONSTRUCTION AND SEVERABILITY**

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this Compact shall be held contrary to the constitution of any party state, the Compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

## ENHANCED NURSE LICENSURE COMPACT

**24-60-3801. Short title.** The short title of this part 38 is the "Enhanced Nurse Licensure Compact".

**Source: L. 2018:** Entire part added, (SB 18-027), ch. 1, p. 1, § 2, effective January 18.

**24-60-3802. Compact approved and ratified.** The general assembly hereby approves and ratifies, and the governor shall enter into, a compact on behalf of the state of Colorado with any of the United States or other jurisdictions legally joining therein in the form substantially as follows:

### ARTICLE I

#### Findings and Declaration of Purpose

- a. The party states find that:
  1. The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;
  2. Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;
  3. The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;
  4. New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;
  5. The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states; and
  6. Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.
- b. The general purposes of this Compact are to:
  1. Facilitate the states' responsibility to protect the public's health and safety;
  2. Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;
  3. Facilitate the exchange of information between party states in the areas of nurse regulation, investigation and adverse actions;
  4. Promote compliance with the laws governing the practice of nursing in each jurisdiction;
  5. Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses;
  6. Decrease redundancies in the consideration and issuance of nurse licenses; and
  7. Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

### ARTICLE II

## Definitions

As used in this Compact:

a. "Adverse action" means any administrative, civil, equitable or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation of the licensee's practice, or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.

b. "Alternative program" means a non-disciplinary monitoring program approved by a licensing board.

c. "Coordinated licensure information system" means an integrated process for collecting, storing and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

d. "Current significant investigative information" means:

1. Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or

2. Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

e. "Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

f. "Home state" means the party state which is the nurse's primary state of residence.

g. "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

h. "Multistate license" means a license to practice as a registered or a licensed practical/vocational nurse (LPN/VN) issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

i. "Multistate licensure privilege" means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse (RN) or LPN/VN in a remote state.

j. "Nurse" means RN or LPN/VN, as those terms are defined by each party state's practice laws.

k. "Party state" means any state that has adopted this Compact.

l. "Remote state" means a party state, other than the home state.

m. "Single-state license" means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

n. "State" means a state, territory or possession of the United States and the District of Columbia.

o. "State practice laws" means a party state's laws, rules and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for

imposing discipline. "State practice laws" do not include requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

### **ARTICLE III**

#### **General Provisions and Jurisdiction**

a. A multistate license to practice registered or licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse (RN) or as a licensed practical/vocational nurse (LPN/VN), under a multistate licensure privilege, in each party state.

b. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records.

c. Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:

1. Meets the home state's qualifications for licensure or renewal of licensure, as well as, all other applicable state laws;

2. i. Has graduated or is eligible to graduate from a licensing board-approved RN or LPN/VN prelicensure education program; or

ii. Has graduated from a foreign RN or LPN/VN prelicensure education program that (a) has been approved by the authorized accrediting body in the applicable country and (b) has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program;

3. Has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening;

4. Has successfully passed an NCLEX-RN® or NCLEX-PN® Examination or recognized predecessor, as applicable;

5. Is eligible for or holds an active, unencumbered license;

6. Has submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining that state's criminal records;

7. Has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law;

8. Has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis;

9. Is not currently enrolled in an alternative program;

10. Is subject to self-disclosure requirements regarding current participation in an alternative program; and

11. Has a valid United States Social Security Number.

d. All party states shall be authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation,

suspension, probation or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

e. A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts and the laws of the party state in which the client is located at the time service is provided.

f. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this Compact shall affect the requirements established by a party state for the issuance of a single-state license.

g. Any nurse holding a home state multistate license, on the effective date of this Compact, may retain and renew the multistate license issued by the nurse's then-current home state, provided that:

1. A nurse, who changes primary state of residence after this compact's effective date, must meet all applicable Article III.c. requirements to obtain a multistate license from a new home state.

2. A nurse who fails to satisfy the multistate licensure requirements in Article III.c. due to a disqualifying event occurring after this Compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the Interstate Commission of Nurse Licensure Compact Administrators ("Commission").

#### **ARTICLE IV**

##### **Applications for Licensure in a Party State**

a. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant and whether the applicant is currently in an alternative program.

b. A nurse may hold a multistate license, issued by the home state, in only one party state at a time.

c. If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the Commission.

1. The nurse may apply for licensure in advance of a change in primary state of residence.

2. A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

d. If a nurse changes primary state of residence by moving from a party state to a non-party state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

## **ARTICLE V**

### **Additional Authorities Invested in Party State Licensing Boards**

a. In addition to the other powers conferred by state law, a licensing board shall have the authority to:

1. Take adverse action against a nurse's multistate licensure privilege to practice within that party state.

i. Only the home state shall have the power to take adverse action against a nurse's license issued by the home state.

ii. For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

2. Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state.

3. Complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board shall also have the authority to take appropriate action(s) and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

4. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as, the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state in which the witnesses or evidence are located.

5. Obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the Federal Bureau of Investigation for criminal background checks, receive the results of the Federal Bureau of Investigation record search on criminal background checks and use the results in making licensure decisions.

6. If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse.

7. Take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking such adverse action.

b. c. Nothing in this Compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. ## **ARTICLE VI**

### **Coordinated Licensure Information System and Exchange of Information**

a. All party states shall participate in a coordinated licensure information system of all licensed registered nurses (RNs) and licensed practical/vocational nurses (LPNs/VNs). c. All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications (with the reasons for such denials) and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.

d. Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party state licensing boards.

e. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

f. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

1. The Commission is an instrumentality of the party states.

2. Venue is proper, and judicial proceedings by or against the Commission shall be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the Commission is located. The Commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

3. Nothing in this Compact shall be construed to be a waiver of sovereign immunity.

- b. Membership, Voting and Meetings

1. Each party state shall have and be limited to one administrator. The head of the state licensing board or designee shall be the administrator of this Compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the Administrator is appointed. Any vacancy occurring in the Commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

2. Each administrator shall be entitled to one (1) vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the Commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

3. The Commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws or rules of the commission.

4. All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in Article VIII.

The Commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Commission or order of a court of competent jurisdiction.

4. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the Commission.

i. Qualified Immunity, Defense and Indemnification

1. 2. The Commission shall defend any administrator, officer, executive director, employee or representative of the Commission in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of Commission employment, duties or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining his or her own counsel; and provided further that the actual or alleged act, error or omission did not result from that person's intentional, willful or wanton misconduct.

Rules and amendments shall become binding as of the date specified in each rule or amendment and shall have the same force and effect as provisions of this Compact.

b. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

c. Prior to promulgation and adoption of a final rule or rules by the Commission, and at least sixty (60) days in advance of the meeting at which the rule will be considered and voted upon, the Commission shall file a notice of proposed rulemaking:

3. A request for comments on the proposed rule from any interested person; and

4. The manner in which interested persons may submit notice to the Commission of their intention to attend the public hearing and any written comments.

e. Prior to adoption of a proposed rule, the Commission shall allow persons to submit written data, facts, opinions and arguments, which shall be made available to the public.

f. The Commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

g. The Commission shall publish the place, time, and date of the scheduled public hearing.

1. Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy will be made available upon request.

2. Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the Commission at hearings required by this section.

h. If no one appears at the public hearing, the Commission may proceed with promulgation of the proposed rule.

i. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the Commission shall consider all written and oral comments received.

j. The Commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

k. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the

Commission, prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

### **Oversight, Dispute Resolution and Enforcement**

1. Each party state shall enforce this Compact and take all actions necessary and appropriate to effectuate this Compact's purposes and intent.

2. The Commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities or actions of the Commission, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the Commission shall render a judgment or order void as to the Commission, this Compact or promulgated rules.

#### **b. Default, Technical Assistance and Termination**

1. If the Commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated rules, the Commission shall:

i. Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default or any other action to be taken by the Commission; and

ii. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to cure the default, the defaulting state's membership in this Compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges and benefits conferred by this Compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in this Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

4. A state whose membership in this Compact has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

5. The Commission shall not bear any costs related to a state that is found to be in default or whose membership in this Compact has been terminated unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the commission by petitioning the U.S. District Court for the District of Columbia or the federal district in which the Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

#### **c. Dispute Resolution**

1. Upon request by a party state, the Commission shall attempt to resolve disputes related to the Compact that arise among party states and between party and non-party states.

2. The Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

3. In the event the Commission cannot resolve disputes among party states arising under this Compact:

i. The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the Compact administrator in each of the affected party states and an individual mutually agreed upon by the Compact administrators of all the party states involved in the dispute.

ii. The decision of a majority of the arbitrators shall be final and binding.

d. Enforcement

1. The Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this Compact.

2. By majority vote, the Commission may initiate legal action in the U.S. District Court for the District of Columbia or the federal district in which the Commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this Compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

3. The remedies herein shall not be the exclusive remedies of the Commission. The Commission may pursue any other remedies available under federal or state law.

## **ARTICLE X**

### **Effective Date, Withdrawal and Amendment**

a. This Compact shall become effective and binding on the earlier of the date of legislative enactment of this Compact into law by no less than twenty-six (26) states or December 31, 2018. All party states to this Compact, that also were parties to the prior Nurse Licensure Compact, superseded by this Compact, ("Prior Compact"), shall be deemed to have withdrawn from said Prior Compact within six (6) months after the effective date of this Compact.

b. Each party state to this Compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the Prior Compact until such party state has withdrawn from the Prior Compact.

c. Any party state may withdraw from this Compact by enacting a statute repealing the same. A party state's withdrawal shall not take effect until six (6) months after enactment of the repealing statute.

d. A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.

e. Nothing contained in this Compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this Compact.

f. This Compact may be amended by the party states. No amendment to this Compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

g. Representatives of nonparty states to this Compact shall be invited to participate in the activities of the Commission, on a nonvoting basis, prior to the adoption of this Compact by all states.

## ARTICLE XI

### Construction and Severability

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable, and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. #### ARTICLE I

#### PURPOSE

Whereas, states license psychologists, in order to protect the public through verification of education, training and experience and ensure accountability for professional practice; and

Whereas, this Compact is intended to regulate the day to day practice of telepsychology (i.e. the provision of psychological services using telecommunication technologies) by psychologists

across state boundaries in the performance of their psychological practice as assigned by an appropriate authority; and

Whereas, this Compact is intended to regulate the temporary in-person, face-to-face practice of psychology by psychologists across state boundaries for 30 days within a calendar year in the performance of their psychological practice as assigned by an appropriate authority;

### **CONDITIONS OF TELEPSYCHOLOGY PRACTICE**

#### **IN A RECEIVING STATE**

1. The psychologist initiates a client/patient contact in a Home State via telecommunications technologies with a client/patient in a Receiving State;
2. Other conditions regarding telepsychology as determined by Rules promulgated by the Commission.

## **ARTICLE VII**

### **ADVERSE ACTIONS**

A. A Home State shall have the power to impose adverse action against a psychologist's license issued by the Home State. A Distant State shall have the power to take adverse action on a psychologist's Temporary Authorization to Practice within that Distant State.

B. A Receiving State may take adverse action on a psychologist's Authority to Practice Interjurisdictional Telepsychology within that Receiving State. 3. Other actions may be imposed as determined by the Rules promulgated by the Commission.

D. G. No other judicial or administrative remedies shall be available to a psychologist in the event a Compact State imposes an adverse action pursuant to subsection C, above.

- B. If a majority of the legislatures of the Compact States rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the Compact, then such rule shall have no further force and effect in any Compact State.
- C. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.
- D. Prior to promulgation and adoption of a final rule or Rules by the Commission, and at least sixty (60) days in advance of the meeting at which the rule will be considered and voted upon, the Commission shall file a Notice of Proposed Rulemaking:

  2. On the website of each Compact States' Psychology Regulatory Authority or the publication in which each state would otherwise publish proposed rules.
- E. The Notice of Proposed Rulemaking shall include:
1. The proposed time, date, and location of the meeting in which the rule will be considered and voted upon;
  2. The text of the proposed rule or amendment and the reason for the proposed rule;

  3. No transcript of the hearing is required, unless a written request for a transcript is made, in which case the person requesting the transcript shall bear the cost of producing the transcript. A recording may be made in lieu of a transcript under the same terms and conditions as a transcript. This subsection shall not preclude the Commission from making a transcript or recording of the hearing if it so chooses.
  4. Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the Commission at hearings required by this section.
- I. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the Commission shall consider all written and oral comments received.

4. Protect public health and safety.

A challenge shall be made in writing, and delivered to the Chair of the Commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the Commission.

2. All courts shall take judicial notice of the Compact and the rules in any judicial or administrative proceeding in a Compact State pertaining to the subject matter of this Compact which may affect the powers, responsibilities or actions of the Commission.

3. The Commission shall be entitled to receive service of process in any such proceeding, and shall have standing to intervene in such a proceeding for all purposes. ##### **B. Default, Technical Assistance, and Termination**

1. If the Commission determines that a Compact State has defaulted in the performance of its obligations or responsibilities under this Compact or the promulgated rules, the Commission shall:

b. Provide remedial training and specific technical assistance regarding the default.

2. If a state in default fails to remedy the default, the defaulting state may be terminated from the Compact upon an affirmative vote of a majority of the Compact States, and all rights, privileges and benefits conferred by this Compact shall be terminated on the effective date of termination. A remedy of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be submitted by the Commission to the Governor, the majority and minority leaders of the defaulting state's legislature, and each of the Compact States.

4. A Compact State which has been terminated is responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including obligations which extend beyond the effective date of termination.

5. The Commission shall not bear any costs incurred by the state which is found to be in default or which has been terminated from the Compact, unless agreed upon in writing between the Commission and the defaulting state.

6. The defaulting state may appeal the action of the Commission by petitioning the U.S. District Court for the state of Georgia or the federal district where the Compact has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

FOR: 1,644,716

AGAINST: 1,498,500

(2) The popular vote for the election of the U.S. president will not become applicable and govern the appointment of presidential electors in Colorado until enough states cumulatively possessing a majority of the electoral votes for the presidential election have also approved the agreement.

**24-60-4001. Short title.** The short title of this part 40 is the "Agreement Among the States to Elect the President by National Popular Vote".

**Source: L. 2019:** Entire part added, (SB 19-042 and Proposition 113), ch. 32, p. 101, § 1, effective upon proclamation of the Governor, December 31, 2020. See L. 2021, p. 4215.

**24-60-4002. Execution of agreement.** The agreement among the states to elect the President by national popular vote is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

#### ARTICLE I -- MEMBERSHIP

Any State of the United States and the District of Columbia may become a member of this agreement by enacting this agreement.

#### ARTICLE II -- RIGHT OF THE PEOPLE IN MEMBER STATES TO VOTE FOR PRESIDENT AND VICE PRESIDENT

Each member state shall conduct a statewide popular election for President and Vice President of the United States.

#### ARTICLE III -- MANNER OF APPOINTING PRESIDENTIAL ELECTORS IN MEMBER STATES

Prior to the time set by law for the meeting and voting by the presidential electors, the chief election official of each member state shall determine the number of votes for each presidential slate in each State of the United States and in the District of Columbia in which votes have been cast in a statewide popular election and shall add such votes together to produce a "national popular vote total" for each presidential slate.

The chief election official of each member state shall designate the presidential slate with the largest national popular vote total as the "national popular vote winner."

The presidential elector certifying official of each member state shall certify the appointment in that official's own state of the elector slate nominated in that state in association with the national popular vote winner.

At least six days before the day fixed by law for the meeting and voting by the presidential electors, each member state shall make a final determination of the number of popular votes cast in the state for each presidential slate and shall communicate an official statement of such determination within 24 hours to the chief election official of each other member state.

The chief election official of each member state shall treat as conclusive an official statement containing the number of popular votes in a state for each presidential slate made by the day established by federal law for making a state's final determination conclusive as to the counting of electoral votes by Congress.

If, for any reason, the number of presidential electors nominated in a member state in association with the national popular vote winner is less than or greater than that state's number of electoral votes, the presidential candidate on the presidential slate that has been designated as the national popular vote winner shall have the power to nominate the presidential electors for that state and that state's presidential elector certifying official shall certify the appointment of such nominees.

The chief election official of each member state shall immediately release to the public all vote counts or statements of votes as they are determined or obtained.

This article shall govern the appointment of presidential electors in each member state in any year in which this agreement is, on July 20, in effect in states cumulatively possessing a majority of the electoral votes.

#### ARTICLE IV -- OTHER PROVISIONS

This agreement shall take effect when states cumulatively possessing a majority of the electoral votes have enacted this agreement in substantially the same form and the enactments by such states have taken effect in each state.

Any member state may withdraw from this agreement, except that a withdrawal occurring six months or less before the end of a President's term shall not become effective until a President or Vice President shall have been qualified to serve the next term.

The chief executive of each member state shall promptly notify the chief executive of all other states of when this agreement has been enacted and has taken effect in that official's state,

when the state has withdrawn from this agreement, and when this agreement takes effect generally.

The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence is located.

C. For purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

D. The home state shall complete any pending investigations of an occupational therapist or occupational therapy assistant who changes primary state of residence during the course of the investigations. The home state where the investigations were initiated shall also have the authority to take appropriate action(s) and shall promptly report the conclusions of the investigations to the data system. The data system administrator shall promptly notify the new home state of any adverse actions.

E. A member state, if otherwise permitted by state law, may recover from the affected occupational therapist or occupational therapy assistant the costs of investigations and disposition of cases resulting from any adverse action taken against that occupational therapist or occupational therapy assistant.

F. A member state may take adverse action based on the factual findings of the remote state, provided that the member state follows its own procedures for taking the adverse action.

G. Joint investigations.

1. In addition to the authority granted to a member state by its respective state occupational therapy laws and regulations or other applicable state law, any member state may participate with other member states in joint investigations of licensees.

2. Member states shall share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under this Compact.

H. If an adverse action is taken by the home state against an occupational therapist's or occupational therapy assistant's license, the occupational therapist's or occupational therapy assistant's Compact privilege in all other member states shall be deactivated until all encumbrances have been removed from the state license. All home state disciplinary orders that impose an adverse action against an occupational therapist's or occupational therapy assistant's license shall include a statement that the occupational therapist's or occupational therapy assistant's Compact privilege is deactivated in all member states during the pendency of the order.

I. If a member state takes an adverse action, it shall promptly notify the data system administrator. The data system administrator shall promptly notify the home state of any adverse actions by remote states.

J. Nothing in this Compact shall override a member state's decision that participation in an alternative program may be used in lieu of an adverse action.

C. If a majority of the legislatures of the member states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the Compact within four (4) years of the date of adoption of the rule, then the rule shall have no further force and effect in any member state.

D. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

If a state in default fails to cure the default, the defaulting state may be terminated from the Compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this Compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

3. Termination of membership in the Compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

4. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

I. Individuals not residing in a member state shall continue to be able to apply for a member state's single-state license as provided under the laws of each member state. Nothing in this Compact shall affect the requirements established by a member state for the issuance of a single-state license.

J. Member states may charge a fee for granting a compact privilege.

K. Member states must comply with the bylaws and rules and regulations of the Commission.

- D. The audiologist or speech-language pathologist may apply for licensure in advance of a change in primary state of residence.
- E. A license shall not be issued by the new home state until the audiologist or speech-language pathologist provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a license from the new home state.
- F. If an audiologist or speech-language pathologist changes primary state of residence by moving from a member state to a non-member state, the license issued by the prior home state shall convert to a single-state license, valid only in the former home state.

### **COMPACT PRIVILEGE TO PRACTICE TELEHEALTH**

Member states shall recognize the right of an audiologist or speech-language pathologist, licensed by a home state in accordance with Section 3 and under rules promulgated by the Commission, to practice audiology or speech-language pathology in any member state via telehealth under a privilege to practice as provided in the Compact and rules promulgated by the Commission.

## **SECTION 6**

### **ACTIVE DUTY MILITARY PERSONNEL**

#### **OR THEIR SPOUSES**

Active duty military personnel, or their spouse, shall designate a home state where the individual has a current license in good standing. The individual may retain the home state designation during the period the service member is on active duty. Subsequent to designating a home state, the individual shall only change their home state through application for licensure in the new state.

## **SECTION 7**

### **ADVERSE ACTIONS**

A. In addition to the other powers conferred by state law, a remote state shall have the authority, in accordance with existing state due process law, to:

1. Take adverse action against an audiologist's or speech-language pathologist's privilege to practice within that member state.

2. Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. Subpoenas issued by a licensing board in a member state for the attendance and testimony of witnesses or the production of evidence from another member state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

3. Only the home state shall have the power to take adverse action against an audiologist's or a speech-language pathologist's license issued by the home state.

B. For purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state. In doing so, the home state shall apply its own state laws to determine appropriate action.

C. The home state shall complete any pending investigations of an audiologist or a speech-language pathologist who changes primary state of residence during the course of the investigations. The home state shall also have the authority to take appropriate action(s) and shall promptly report the conclusions of the investigations to the administrator of the data system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any adverse actions.

D. If otherwise permitted by state law, the member state may recover from the affected audiologist or speech-language pathologist the costs of investigations and disposition of cases resulting from any adverse action taken against that audiologist or speech-language pathologist.

E. The member state may take adverse action based on the factual findings of the remote state, provided that the member state follows the member state's own procedures for taking the adverse action.

F. Joint Investigations

1. In addition to the authority granted to a member state by its respective audiology or speech-language pathology practice act or other applicable state law, any member state may participate with other member states in joint investigations of licensees.

2. Member states shall share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the Compact.

G. If adverse action is taken by the home state against an audiologist's or speech-language pathologist's license, the audiologist's or speech-language pathologist's privilege to practice in all other member states shall be deactivated until all encumbrances have been removed from the state license. All home state disciplinary orders that impose adverse action against an audiologist's or a speech language pathologist's license shall include a statement that the audiologist's or speech-language pathologist's privilege to practice is deactivated in all member states during the pendency of the order.

H. If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the home state of any adverse actions by remote states.

I. Nothing in this Compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

C. Rules or amendments to the rules shall be adopted at a regular or special meeting of the Commission.

Public notice of any revisions shall be posted on the website of the Commission. The revision shall be subject to challenge by any person for a period of thirty (30) days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the chair of the Commission prior to the end of the notice period. **24-61-102. Taxation compact between the Southern Ute Indian tribe, La Plata county, and the state of Colorado.** The general assembly hereby approves the taxation compact between the Southern Ute Indian tribe, La Plata county, and the state of Colorado, referred to in this section as the "Taxation Compact", dated March 18, 1996, and signed by Roy Romer, governor of the state of Colorado; Leonard C. Burch, chairman of the Southern Ute Indian tribal council; Fred W. Klatt, III, chairman of the La Plata county board of county commissioners; Craig Larson, La Plata county assessor; and Ed Murray, La Plata county treasurer. Said compact is as follows:

## **TAXATION COMPACT**

**between**

**THE SOUTHERN UTE INDIAN TRIBE, LA PLATA COUNTY and**

**THE STATE OF COLORADO**

THIS AGREEMENT ("Taxation Compact") is entered into this 18th day of March, 1996, by, between and among the STATE OF COLORADO, on behalf of itself, its political subdivisions, offices, and officials ("the State"), the SOUTHERN UTE INDIAN TRIBE, by and through the Southern Ute Indian Tribal Council ("the Tribe"), and the COUNTY OF LA PLATA, by and through the Board of County Commissioners of La Plata county and the La Plata County Assessor and Treasurer ("County").

### **Article One**

#### **Recitals.**

##### **1.01. Litigation.**

The parties to this Taxation Compact have been engaged in protracted litigation regarding the authority of the County and the State to tax the real or personal property owned or acquired by the Tribe within the exterior boundaries of the Southern Ute Indian Reservation ("Reservation"). That litigation ("the Litigation") has not provided the parties with definitive answers regarding

the scope of such taxing authority or the scope of tribal immunity from such taxation ("the Dispute"). In the absence of agreement, the parties will be compelled to reinstitute litigation and to incur substantial litigation costs and commitments of time and energy to such disputes.

**1.02. Intergovernmental Agreement.**

Prior to refileing the Litigation, the parties to this taxation Compact entered into good faith negotiations in an effort to resolve the Dispute amicably in a manner consistent with the respective interests of the parties. In furtherance of the negotiation efforts, the parties entered into an Intergovernmental Agreement Concerning Taxation Negotiations which addressed procedures for maintaining the status quo and preserving the legal positions of the parties pending negotiation.

**1.03. Principal Individual Interests.**

During the negotiations, the Tribe has requested recognition of its claimed immunity from State and County taxation with respect to any interests in real or personal property it owns or may acquire within the boundaries of the Reservation, regardless of whether such property is held in trust for its benefit by the United States of America. The County has taken the position that interests in real or personal property owned or acquired by the Tribe within the boundaries of the Reservation are subject to ad valorem property taxes in circumstances where those real or personal property interests within the Reservation have been previously taxed to or are taxable in non-Tribal ownership. The county has reiterated its concern that recognition of taxing immunity to the Tribe with respect to any interest in real or personal property owned or acquired by the Tribe when that property has been taxed or taxable under non-Tribal ownership will have an adverse economic impact on those governmental institutions which rely upon general ad valorem property tax revenue to carry out governmental functions, particularly if Tribal acquisition efforts continue to escalate. The State's position is that real property acquired by the Tribe and not placed or held in trust by the federal government for the benefit of the Tribe is subject to taxation. The State has attempted to assist in the identification of governmental mechanisms that could be employed by the parties to settle their Dispute reasonably in a manner that will minimize adverse economic consequences resulting from possible recognition of the Tribe's claimed immunity. As used herein, the words "tax" and "taxes" includes ad valorem and severance taxes as well as the oil and gas conservation levy and the environmental response fund surcharge.

**1.04. Mutual Interests.**

Each of the parties seeks to avoid further litigation in a manner consistent with the best interests of the respective constituents of each government. Further, in recognition of the fact that there are many substantive areas that require mutual cooperation of the parties, including social issues, economic development, land use and environmental protection, the parties seek to improve their government-to-government relationships for the present and the future.

**1.05. Educational Equalization.**

The parties acknowledge that the State maintains as part of its system of public school financing a program which is intended to provide equalization in funding for students in the various public school districts throughout the State as reflected in, inter alia, "The Public School Finance Act of 1994" (article 54 of title 22, C.R.S.). The public school finance system also establishes a state public school fund which is available to provide relief to individual school districts in the event that unforeseen difficulties in maintaining assessment levels of property within any such district or in collecting property taxes is encountered. See section 22-54-117, C.R.S. Based on the status

of public school financing, the parties acknowledge that the level of financing available for educating public school students within the boundaries of the Reservation will not be adversely affected in a material way so long as a system of State-wide equalization of student funding is maintained by the State.

**1.06. Settlement.**

Based upon the foregoing, the parties have agreed to settle the Dispute, subject to the fulfillment of certain conditions hereinafter set forth, and each party finds that the settlement reflected in this Taxation Compact is in furtherance of the individual and mutual interests of the parties.

**Article Two**

**Conditions Precedent.**

**2.01. Legislative Ratification.**

As a condition precedent to implementation of this Taxation Compact, the parties agree that the Colorado General Assembly and the Governor of the State of Colorado must approve, and the Office of the Colorado Attorney General must review, this Taxation Compact and permit the County and the State to perform the covenants herein contained. If such authorization is not obtained prior to the close of the 1996 legislative session, this Taxation Compact shall become null and void, unless otherwise agreed by the parties.

**2.02. Statutory Amendment.**

As an additional condition precedent, the parties agree that such amendments to existing State statutes needed to implement the terms of this Taxation Compact shall be enacted prior to the close of the 1996 legislative session. If such amendments are not so enacted, then this Taxation Compact shall become null and void.

**2.03. Tribal Enactment.**

As an additional condition precedent, the parties agree that the Tribe, prior to expiration of the 1996 legislative session of the Colorado General Assembly, through its Tribal Council, shall have enacted such resolutions or ordinances permitting the implementation of this Taxation Compact, including, but not limited to: Authorization for issuing annual tribal declarations of real property acquired by the Tribe, as provided in Article Five, *infra*; authorization for issuing annual payments, as provided in Article Six, *infra*; a mechanism for requiring non-Indians constructing facilities on tribal land to report to the County Assessor notice of completion of such facilities, as provided in Article Eight, *infra*; and a system for the recognition of County liens validly obtained under State law against the property of non-Indians, as well as, a system for foreclosure of such liens, as provided in Article Ten, *infra*.

**2.04. Federal Approval.**

To the extent that the Taxation Compact constitutes an agreement with an Indian Tribe related to land owned by an Indian Tribe, it is arguable that the validity of such Taxation Compact is dependent upon obtaining the approval of the Secretary of the Interior of the United States or his authorized representative pursuant to 25 U.S.C. sec. 81. Accordingly, as an additional condition precedent, prior to the close of the 1996 legislative session of the Colorado General Assembly, the parties must obtain the written approval of the Secretary of the Interior, or his authorized representative, of this Taxation Compact, or, alternatively, a written statement from such duly authorized official indicating that such written approval is not necessary or required under federal law.

### **2.05. Intergovernmental Agreement Operative.**

Until such time that each of the conditions set forth above in Paragraphs 2.01, 2.02, 2.03, and 2.04 has been satisfied, the parties agree to honor and carry out the provisions of the Intergovernmental Agreement Concerning Taxation Negotiations referenced in Paragraph 1.02, above, and the parties hereby expressly extend the duration of said Intergovernmental Agreement Concerning Taxation Negotiations until the earlier of: (a) The close of the 1996 legislative session of the Colorado General Assembly; or (b) The satisfaction of the referenced conditions. In the event that each of the aforementioned conditions is not satisfied in the time provided, then, upon the close of the legislative session, the Intergovernmental Agreement Concerning Taxation Negotiations shall terminate, unless otherwise extended by the parties in writing.

## **Article Three**

### **Tribal Immunity From Taxation.**

#### **3.01. Trust Property.**

The parties acknowledge that historically neither the State nor the County has attempted to tax real or personal property located within the Reservation when such property has been owned by the United States of America in trust for the benefit of the Tribe ("trust property"). Such exempt property has included: Surface estates; subsurface estates; tribal landowner royalty interests in mineral leases issued by the Tribe in accordance with federal laws and regulations; and any other interests acquired by the Tribe in trust property. The parties acknowledge that in the absence of express consent from the United States Congress, the Tribe, or as otherwise determined by the courts, trust property is exempt from State and local taxation. This Taxation Compact is not intended to and does not address whether there is express consent from the United States Congress and the Tribe for the taxation of trust property; however, the State and County agree to treat such trust property as exempt from State and County taxation for the duration of this Taxation Compact.

#### **3.02. Tribal Reacquisitions of Interests in Trust Property.**

The parties acknowledge that a decline in the County's assessed value will occur when the Tribe reacquires interests in real or personal property on trust property under Article 3.01 in circumstances when those property interests have been previously held by and taxable to non-Tribal parties. While the County and State agree that interests so acquired by the Tribe will be treated as not subject to taxation under Article 3.01, the Tribe and State agree to assist the County in exploring future cooperative efforts to mitigate the negative revenue impacts that may result from these Tribal acquisitions on trust lands. Those cooperative efforts will include joint efforts at seeking federal or state assistance as required to mitigate those revenue impacts and other joint revenue raising efforts acceptable to the Tribe, the State and the County.

#### **3.03. Non-Trust Tribal Property.**

So long as this Taxation Compact remains in full force and effect, the State and County shall not seek to tax any property, real or personal, owned or acquired by the Tribe and held by the Tribe in non-federal-trust status; provided that said property is located within the exterior boundaries of the Reservation. Tribal property intended by this paragraph to be treated as non-taxable includes, but is not limited to the following:

- a. Real Property Surface Estates;

- b. Real Property Subsurface Estates;
- c. Mineral Lease Working Interests;
- d. Mineral Lease Royalty Interests;
- e. Mineral Lease Production Payments;
- f. Tribal Income;
- g. Vehicles and Mobile Homes;
- h. Buildings or Improvements;
- i. Equipment;
- j. Security Interests;
- k. Other Real or Personal Property.

**3.04. Tribal Activities.**

So long as this Taxation Compact remains in full force and effect, the State and the County shall not seek to impose on the Tribe, any activity undertaken by the Tribe, or tribal property, real or personal, located within the exterior boundaries of the Reservation the following taxes: An ad valorem tax (article 1 of title 39, C.R.S.); conservation levy or environmental response fund charge (section 34-60-122, C.R.S.); or severance tax (article 29 of title 39, C.R.S.).

**3.05. Partial Interests.**

So long as this Taxation Compact remains in full force and effect, the foregoing limitations on State and County taxation shall apply to partial or undivided interests owned by the Tribe, whether such interests arise from partnerships, joint ventures, or otherwise; provided that prior to such limitation becoming applicable, the Tribe shall file with the County and the State Department of Revenue, a declaration of the name of the partnership or joint venture, together with a statement listing the partners or venturers, the ownership interest of said partners or venturers, and a schedule of the on-Reservation property subject to any such partnership or joint venture.

**3.06. Reports and Declarations by Third Parties.**

So long as this Taxation Compact remains in full force and effect, any person or entity, other than the Tribe, required to submit reports or declarations related to the assessed value of property located within the Reservation owned by the Tribe, or any person or entity otherwise required to withhold and remit taxes or estimated taxes attributable to interests owned by the Tribe shall be permitted to report such tribal interests as exempt and shall not be required to withhold any taxes or estimated taxes with respect to such tribal ownership interests in such property or income.

**3.07. State Legislative Amendments.**

The Tribe maintains that the foregoing limitations on State and County taxation are mandated by federal statutes and case law and that the State and County are bound by such rules for decision under the United States Constitution, regardless of the provisions of State law. The County has taken the position that interests in real or personal property owned or acquired by the Tribe within the boundaries of the Reservation are subject to ad valorem property taxes in circumstances where those real or personal property interests within the Reservation have been previously taxed to or are taxable in non-Tribal ownership. The State's position is that real property acquired by the Tribe and not placed or held in trust by the federal government for the benefit of the Tribe is subject to taxation. In order to carry out the terms of this Taxation Compact, the parties covenant jointly to seek legislative amendment to existing State statutory law confirming that throughout the duration of this Taxation Compact, the limitation on State and County taxation set forth above in this Article will be recognized by the State. Specifically,

the parties shall seek legislative enactments necessary to implement this Taxation compact, including the following:

Add a new section to article 3 of title 39, C.R.S., (or some other appropriate designation) which provides essentially as follows:

**Taxation Compact with the Southern Ute Indian Tribe.**

(1) The general assembly hereby finds and declares that the Taxation Compact dated March 18, 1996, entered into by and between the County of La Plata, the Southern Ute Indian Tribe, and the Governor, is in the best interests of the State of Colorado and settles in a satisfactory manner a taxation dispute which has been and would otherwise continue to be a matter of extensive litigation.

(2) The general assembly hereby ratifies said Taxation Compact subject to the conditions and covenants therein contained.

(3) Limited to the duration of said Taxation Compact, with respect to the taxes and the charges imposed by article 29 of title 39, C.R.S. (i.e., severance tax) and article 60 of title 34, C.R.S. (i.e., conservation levy and environmental response fund surcharge), and with respect to ad valorem taxes (article 1 of title 39, C.R.S.), the Southern Ute Indian Tribe and all property, real and personal, owned by the Tribe and located within the exterior boundaries of the Southern Ute Indian Reservation shall be deemed as exempt from taxation as more particularly set forth in said Taxation Compact.

(4) The State Property Tax Administrator, whose duties, powers, and authority are described in article 2 of title 39, C.R.S., shall have the authority to resolve disputes submitted to the administrator for resolution pursuant to and in the manner prescribed by the Taxation Compact dated March 18, 1996, between the County of La Plata, the Southern Ute Indian Tribe, and the State of Colorado.

(5) Any statutory change necessary concerning the school bonded indebtedness provisions of said Taxation Compact.

Should the General Assembly of the State fail to enact such statutory amendments deemed by the parties as necessary to carry out the terms of this Taxation Compact by the close of the 1996 legislative session, the Taxation Compact shall terminate for failure of satisfaction of conditions precedent, unless otherwise extended in writing by the parties.

**3.08. Limitation on Scope.**

Nothing in this Article Three shall be construed as affecting in any manner the tax liability of any entity other than the Southern Ute Indian Tribe. Nothing in this Taxation Compact shall prevent the Oil and Gas Commission from charging its conservation levy and environmental response fee against any non-Indians operating within the exterior boundaries of the Southern Ute Indian Reservation.

**Article Four**

**Real and Personal Property Interests**

**Subject to Taxation on the Reservation.**

The parties acknowledge that certain non-Indian real and personal property interests within the exterior boundaries of the Southern Ute Indian Reservation, including the interests of non-Indian partners or venturers with the Tribe, are generally subject to State and local taxation; however, the Tribe maintains that those taxes may be legally objectionable in circumstances where Congress has expressly granted an exemption from such taxation or imposition of the tax poses a serious and demonstrable threat to the economic or political security of the Tribe. The Tribe agrees not to interpose any objection for the duration of this Taxation Compact to State and local taxation of non-Indian real and personal property interests located within the Reservation boundaries under current circumstances (i.e., so long as present levels of State and local taxation of such interests do not change significantly). Specifically, those non-Indian real and personal property interests for which the Tribe does not assert exemption from State and local taxation under this Taxation Compact include:

- a. Real Property Surface Estates;
- b. Real Property Subsurface Estates;
- c. Mineral Lease Working Interests;
- d. Mineral Lease Royalty Interests;
- e. Mineral Lease Production Payments;
- f. Vehicles and Mobile Homes;
- g. Buildings or Improvements;
- h. Equipment;
- i. Security Interests;
- j. Other Real or Personal Property;
- k. Any Oil and Gas Production and Interest.

#### **Article Five**

### **Tribal Declaration of Real Property Acquisition.**

#### **5.01. Tribal Declaration.**

Following acquisition by the Tribe of any interest in real property located within the boundaries of the Reservation, in order to be entitled to the benefits of this Taxation Compact relative to such interest, the Tribe shall file a declaration of such acquisition with the County Assessor, which declaration shall contain: A legal description of the real property interest acquired, including a geographical description and a statement of the interest acquired; identification of the grantor of such interest; the date of closing of the acquisition transaction; and, with respect to interests acquired by the Tribe in non-trust real property, a statement of tribal intent of whether or not application is to be made by the Tribe to the United States of America to place ownership of such acquired interest into trust status. If the Tribe subsequently applies to have such interest placed into federal trust status, the Tribe shall so notify the County Assessor in writing, and the Tribe shall further notify the County Assessor in writing if and when such trust status is conferred.

#### **5.02. Assessor's Annual Compilation.**

No later than the thirty-first day of January of each year during which the Taxation Compact is in force, the County Assessor shall prepare a compilation of all tribally declared real property interests within the Reservation acquired during the preceding calendar year by the Tribe, which interests have not been identified by the Tribe as having been taken into trust status by the

United States of America. For each such parcel or interest listed on said compilation, the County Assessor shall prepare a schedule showing within which taxing districts such parcel or interest is located, together with a statement of the mill levy attributable to said interests by taxing district as reported on the last applicable tax or assessment notice, and a statement of the assessed or estimated assessed value of such parcel or interest based on the last applicable assessment notice. If tribally acquired interests have been shown on a previously issued annual compilation under this paragraph for the immediately preceding year, without subsequent notification by the Tribe of either a change in ownership or trust status of such interests, the County Assessor shall carry forward such interests on the then current annual compilation with such updated schedules of mill levy by taxing district for the particular carried-forward interest or parcel. For each such listed parcel or interest, the County Assessor shall also submit, with the assistance of the County Treasurer, a statement of the amount of ad valorem tax revenue that would have been collected during said applicable annual period, or part thereof during which the Tribe owned a listed interest, but for the Tribe's ownership. Upon completion of the annual compilation, the County Assessor shall promptly forward the same to the designated representative of the Tribe.

### **5.03. Tribal Valuation Protest.**

No later than forty-five days following its receipt of the County Assessor's Annual Compilation of tribally acquired interests, valuation, and statement of tax revenue, the Tribe may submit to the County Assessor a protest of the valuation estimate or statement of tax revenue for any parcel or interest which the Tribe believes is overstated in the Annual Compilation. Said protest shall be accompanied by written justification setting forth the basis for the protest. Such justification may include, for example, records of actual production and sales value of oil and gas or coalbed methane using valuation criteria similar to that employed by the State in valuing non-Indian oil and gas properties. Should the County Assessor and the Tribe not be able to reach agreement as to the proper valuation or statement of tax revenue to be assigned to any such parcel or interest, then said dispute shall be submitted to the State Property Tax Administrator for resolution. The State Property Tax Administrator shall employ such procedures he or she deems fair and reasonable for hearing the dispute, provided that in any event, both the Assessor and the Tribe shall have an effective opportunity to state their respective positions. The State Property Tax Administrator shall issue a ruling resolving said dispute no later than the first day of June of any such year, which ruling shall be binding and final. In no event shall the State Property Tax Administrator be permitted to reach a finding of valuation or a statement of tax revenue greater than that originally estimated by the County Assessor as set forth in the Annual Compilation.

## **Article Six**

### **Annual Tribal Payment in Lieu of Taxation.**

#### **6.01. Voluntary Payment.**

In consideration for the covenants herein contained, the Tribe agrees during each year that this Taxation Compact is in full force and effect to make a voluntary payment to the County as more particularly described below.

#### **6.02. Non-Public School Share and Bonded Indebtedness.**

The Tribe hereby agrees to remit to the County no later than the fifteenth day of June of each year a voluntary payment in lieu of taxes which shall be equal to the non-public school share of

annual real property ad valorem taxes, plus the portion of annual real property ad valorem taxes that are attributable to public school bonded indebtedness, for non-trust real property owned or acquired by the Tribe within the Reservation that otherwise would have been assessed and collected but for acquisition or ownership of such real property by the Tribe. The parties agree that the Colorado statutory definitions for the terms "real property" and "personal property" presently contained in article 1 of title 39, C.R.S., shall apply for purposes of this section of this Taxation Compact; provided however, the parties agree that regardless of how they are treated under Colorado law, mobile homes owned or acquired by the Tribe shall be considered personal property for purposes of this section of this Taxation Compact.

**6.03. How Determined and Reported.**

The amount of said voluntary payment will be computed based on the total sum of taxes that would have been collected for each parcel or interest listed on the County Assessor's Annual Compilation for all non-public school taxing districts. Together with the Tribe's voluntary payment, the Tribe shall submit a schedule setting forth the amount of voluntary payment being made for each parcel or interest contained on the County Assessor's Annual Compilation.

**6.04. Previously Acquired Non-Trust Real Property.**

The parties acknowledge that the County asserts a claim for seventy-seven thousand sixty-five dollars and eighty-four cents (\$77,065.84) in taxes due on non-trust real property acquired by the Tribe from and previously taxable to non-Tribal parties for the period of time prior to the 1996 tax year (i.e., prior to and including December 31, 1995). The Tribe agrees to pay the County seventy-seven thousand sixty-five dollars and eighty-four cents (\$77,065.84) in full satisfaction of any claims that the County may have against the Tribe relating to these claims. Additionally, prior to December 31, 1996, the Tribe agrees to provide to the County Assessor, in a format consistent with that described in Section 5.01, *supra*, a listing of real property interests owned by the Tribe, not held in trust, acquired by the Tribe prior to the effective date of this Taxation Compact for which the Tribe is entitled to exemption from taxation under the provisions of Section 3.03, *supra*.

**Article Seven**

**Tribal Oil and Gas Operations;**

**Reporting and Remittance for Non-Indian Parties.**

**7.01. Red Willow Production Company.**

The parties acknowledge that the Tribe serves as the operator of oil, gas, and coalbed methane wells which produce minerals associated with both trust and non-trust mineral interests located within the Reservation. Such operations have been conducted by the Tribe under the name Red Willow Production Company, which is wholly owned by the Tribe. While in most instances such operations involve mineral leases issued by the Tribe pursuant to federal law, there are situations in which the underlying leases have been issued or could have been issued by non-Indian mineral interest holders. In either instance, however, non-operating interest holders typically include non-Indians who own working interests or overriding royalty interests in the applicable leases. The parties acknowledge that nothing in this Taxation Compact shall preclude the collection of lawful and applicable taxes and charges on property and interests owned by the Tribe and located outside the exterior boundaries of the Southern Ute Indian Reservation.

### **7.02. State and County Reporting Requirements.**

Under existing State law, well operators are required to submit to State and County officials reports related to the conduct of well production activities and the disposition of produced substances. Such reports are utilized by the Colorado Oil and Gas Conservation Commission to monitor and regulate the development of oil, gas, and coalbed methane resources within the State. Additionally, such reports are available for use by the Colorado Department of Revenue and County officials to assess and collect taxes, including severance tax and ad valorem tax, from the actual holders of interests in minerals or from the beneficiaries of income derived from energy resource development. Based upon the reporting requirements imposed upon well operators, and based upon statutory provisions which require well operators to withhold and remit funds from production income to meet the tax liabilities of non-operating interest holders of such wells, compliance by well operators in submitting timely reports and remitting taxes withheld is integral to the effective operation of State tax laws with respect to non-operating interest holders.

### **7.03. Red Willow Reporting Responsibilities.**

In order to assist the State and County in obtaining information needed for the effective monitoring and regulation of resource development, the accurate valuation of taxable interests of non-Indian interest holders on the Reservation, and the collection of taxes from parties lawfully subject to State and County taxes, the Tribe d/b/a Red Willow Production Company (or in whatever name the Tribe is doing business) agrees to remit reports and declarations involving energy production activities on the Reservation over which it serves as operator on the following basis:

**a. Operational Reports.** With respect to operational reports and filings, including, for example, applications for permits to drill and sundry notices, involving mineral operations conducted by Red Willow Production Company subject to federal supervision on lands within the Reservation, the Tribe hereby consents to provide or to cause the appropriate federal agencies to provide informational copies of documents filed by Red Willow with such federal agencies to the Colorado Oil and Gas Conservation Commission. This tribal consent is intended as a supplement to joint cooperative procedures already contained in the Memorandum of Understanding and Interagency Agreement between the Tribe and the Bureau of Land Management and the Bureau of Indian Affairs and the Bureau of Land Management, dated August 22, 1991, and in the Memorandum of Understanding between the Colorado Bureau of Land Management and the Colorado Oil and Gas Conservation Commission, dated August 22, 1991.

**b. Severance Tax Reports and Withholding.** The Tribe hereby agrees to submit to the executive director of the Colorado Department of Revenue an annual report related to energy impacts as otherwise required by section 39-29-110, C.R.S. With respect to wells operated by Red Willow located on the Reservation, the Tribe agrees to withhold from income it receives for the sale of production attributable to non-Indian interests such amounts otherwise required to be withheld on a quarterly basis pursuant to section 39-29-111, C.R.S., and to remit such withholding, together with forms for related reporting, to the Colorado Department of Revenue.

**c. Ad Valorem Declarations.** With respect to any leased lands that are producing or are capable of producing oil or gas on the assessment date of each year, which are operated by Red Willow on the Reservation, the Tribe shall file with the County Assessor in accordance with section 39-7-101, C.R.S., and section 39-5-107, C.R.S., a declaration of the oil, gas, or coalbed

methane sold or transported from the premises, which declaration shall designate the Tribe's exempt share, if any, and such tax schedules normally filed by non-Indian operators designating such taxable personal property of non-operators or portions thereof over which Red Willow exercises control as operator. In preparing and filing any such declarations or schedules, the Tribe shall be entitled to list its own ownership share as exempt.

**7.04. Cooperation in Reporting.**

In order to assist the Tribe in complying with the reporting obligations of this Article Seven, officials from the State and the County shall make reasonable efforts to meet with tribal officials responsible for rendering such reports and to cooperate with said tribal officials to eliminate any unnecessary reporting obligations and to develop mutually acceptable means for facilitating the transmission of reported information. To the extent practicable and satisfactory, the parties may utilize and develop electronic reports and data retrieval systems.

**Article Eight**

**Statement of Completion of Improvements**

**By Non-Indians on Tribal Lands.**

**8.01. Tribal Consent for Surface Disturbance.**

In accordance with federal law and regulations, including 25 U.S.C. sec. 476, and the Constitution of the Southern Ute Indian Tribe, tribal consent is required as a condition for third parties to obtain valid mineral leases, surface leases, commercial leases, rights-of-way or easements, or to conduct surface disturbing activities on tribal surface lands, whether held in trust or non-trust status. The Tribe maintains that it possesses the authority to condition its approval or consent to the issuance of such rights to third parties. The County has indicated that its efforts to determine the assessed valuation of improvements constructed by third parties on tribal lands pursuant to tribal authorization have been hampered by a lack of knowledge of the completion or installation of such improvements, including pipelines and compressor stations.

**8.02. Disclosure of Completion of Improvements.**

Where the Tribe, in its sole discretion, determines that it has the legal right to do so, the Tribe covenants to establish a uniform procedure imposing, as a condition for the grant of its consent to the issuance of leases or rights-of-way on tribal lands involving the installation or construction of improvements, including pipelines or compressor stations, a requirement that the grantee or direct beneficiary of such rights shall notify the County Assessor in a timely manner of the completion of such improvements or facilities.

**8.03. Rights Withheld.**

In agreeing to require disclosure of completion of improvements by third parties on tribal land, the Tribe expressly reserves and retains all authority it possesses to control where and in what manner such improvements may be located or constructed. The disclosure requirement is solely intended as an aid to the County in conducting determinations of assessed valuation, and is not intended as conceding that the State or the County possesses the authority to tax such improvements.

**Article Nine**

**Access to Tribal Land for Assessment.**

**9.01. Conditional Consent to Cross Tribal Lands.**

Subject to the conditions hereinafter set forth, the Tribe hereby consents to permit the County Assessor and his duly authorized representatives to cross tribal lands for the purpose of performing assessment and valuation activities with respect to improvements located within the Reservation, including, but not limited to: Oil, gas, and coalbed methane wells; compressor stations; pipelines; buildings; and surface facilities or equipment.

**9.02. Annual Permit.**

Upon the effective date of this Taxation Compact, and no later than the fifteenth day of January every year thereafter, the County Assessor shall contact the Director of the Division of Natural Resources of the Tribe to obtain a written permit evidencing his authority to cross tribal lands. The County Assessor shall provide to said Director a list of names of persons acting under his authority who he intends to have cross tribal lands for the purposes specified herein, together with a description of vehicles to be used by such persons and corresponding vehicle registration numbers. The list shall be updated from time to time to reflect changes in personnel within the office of the County Assessor. The County Assessor shall require any person within his supervision acting under authority of this Article Nine to carry such permit with him while performing assessment duties within the Reservation. Said permit shall be valid for one year, and shall bear the signature of the County Assessor and the Director.

**9.03. Possession of Alcohol and Firearms Prohibited.**

Any person, while carrying out his assessment duties within the Reservation pursuant to the aforementioned permit, shall be prohibited from carrying firearms or alcoholic beverages.

**9.04. Prior Notice for Tribal Lands.**

Prior to entering upon tribal lands for the purpose of inspecting or evaluating any facility or improvement so located, the County Assessor or his authorized delegee shall notify the Director of his intentions and the approximate location of the inspection or evaluation. In the event that the facility to be inspected is related to oil, gas, or coalbed methane operations on tribal surface or mineral lands, the County Assessor shall also notify the Director of the Energy Resource Division of the Tribe.

**9.05. Permit Revocation.**

In the event that the County Assessor or his authorized delegates fail to comply with the conditions set forth in section 9.03 of this Article, the Tribal Council Chairman shall be authorized to revoke said permit, in whole or in part. In the event that the County Assessor or his authorized delegates fail to comply with the other conditions set forth in this Article, and such failure is wilful or material, the Tribal Council Chairman shall be authorized to revoke said permit, in whole or in part. Should such permit be revoked in whole, it shall not be eligible for reinstatement until the following year. Revocation of a crossing permit for cause shall not be grounds for termination of this Taxation Compact.

**Article Ten**

**Collection Procedures for Delinquent Taxes  
of Non-Indians on Tribal Lands.**

**10.01. Tribal Court Recognition Required.**

No lien created by operation of State law in any interest in Tribal real property, whether owned by the Tribe or by a non-Indian, or in personal property or improvements located on Tribal real property located within the boundaries of the Reservation, shall be recognized by the Tribe as having lawful effect unless recognized under principles of comity by the Southern Ute Tribal Court.

**10.02. How Recognition is Obtained.**

The Tribal Council hereby covenants to enact by appropriate resolution and ordinance a specially designated section of the Southern Ute Indian Tribal Code addressing recognition of State and County tax liens and the procedure by which such liens may be effectively foreclosed by said officials. Such enactment shall provide that recognition of State created liens, in interests in tribal real property or in personal property located on tribal real property, for non-payment of taxes may be obtained by the appropriate officer of the State or County by commencing an action for such recognition in the Tribal Court. Such action shall name as respondent the person or persons against whom the lien is claimed and shall set forth the basis supporting the lien. Any named respondent shall have the opportunity, in accordance with the Tribe's Civil Procedure Code, to contest the underlying jurisdictional basis of such lien, or the sufficiency of due process in its issuance. Should the named respondent fail to demonstrate an absence of jurisdiction or a lack of due process in the creation of the lien, the Tribal Court shall be required under the enactment to afford recognition to said lien effective as of the date of its creation under State law. Such recognition shall be evidenced by a judgment of recognition entered by the Tribal Court.

**10.03. Execution and Foreclosure.**

**a. Personal Property.** The Tribal enactment contemplated in the foregoing section shall provide that recognized tax liens on personal property may be executed upon in accordance with the Enforcement of Secured Transactions Code, Title 15, Southern Ute Indian Tribal Code.

**b. Real Property Interests.** The Tribal enactment contemplated in the foregoing section shall also specifically address the foreclosure on real property interests in Tribal real property in a manner that comports with both Tribal and federal law, and to the extent applicable, state law. In that regard, the transfer of an interest in Tribal real property requires both Tribal and federal written consent. Both the Tribe and the United States must be provided an opportunity to ensure that purchasers of interests foreclosed upon meet the necessary qualifications to hold such interests under Tribal and federal law. Provision shall be made in said enactment for a process of qualification of bidders at a foreclosure sale in a manner that will not unduly restrict the ability for the State and the County to foreclose on liens on Tribal real property interests owned by non-Indians within the Reservation.

**Article Eleven**

**Duration of Taxation Compact.**

**11.01. Conditions Subsequent.**

This Taxation Compact is premised upon certain conditions that currently exist or that must exist prior to its effectiveness. Certain of such conditions, once in place, are beyond the ability of the parties to control fully; however, alteration of such conditions could dramatically change the nature of the amicable agreement reflected in this Taxation Compact. Accordingly, this Article is intended to identify those conditions subsequent, which, in the absence of amendment of this

Taxation Compact will result in its termination. In order to provide the parties an opportunity to amend the Taxation Compact prior to its automatic termination, unless otherwise agreed by the parties in writing, there shall be a 120-day period between the creation of such conditions subsequent and the termination of the Taxation Compact. During the 120-day period, the parties shall meet and confer at least once in an attempt to resolve the issues created by that change in circumstance in a mutually acceptable manner. Any party that believes such a change in circumstance has occurred shall promptly notify the other parties of said occurrence in writing. The commencement of the 120-day period shall begin on the date of such written notice.

**11.02. Substantial Alteration or Repeal of Public School Financing and Equalization.**

This Taxation Compact is premised on the continuation of the equalization formula set forth under the Public School Finance Act of 1994, article 54 of title 22, C.R.S., which is intended to provide equalization payments to school districts throughout the State including the school districts in La Plata County in a manner that includes the consideration of the assessed value for real and personal property taxes. Accordingly, the parties understand that the level of funding available to school districts in La Plata County from the State of Colorado will be adjusted in accordance with the equalization formula of the Public School Finance Act in a manner that will address tax revenue losses, except for those associated with bonded indebtedness, to the school districts within La Plata County resulting from real and personal property acquisitions by the Tribe of properties that are subject to the provisions of Sections 3.01 and 3.03 of this Taxation Compact. This Taxation Compact shall terminate, in accordance with the provisions of Section 11.01, in the event that the Public School Finance Act does not in the future operate in such a manner to achieve the results set forth in this Section 11.02.

**11.03. Escalation of Non-Public School Taxation District Average Percentage of County Mill Levy above 33-1/3 Percent.**

This Taxation Compact is premised on the fact that the average portion of total real property tax levies assessed and collected by the County and its officials attributable to public school taxing districts for any taxed parcel or interest is approximately 70% of the total real property tax assessed and collected by the County and its officials for such parcel or interest. Accordingly, in estimating the voluntary payment that may be due in any annual period of this Taxation Compact for any parcel listed in the Assessor's Annual Compilation, the Tribe anticipates paying an amount that will not exceed approximately 30% of the total mill levy that would have been applicable, but for the Tribe's ownership. Should the aggregate average percentage of non-public school district taxes, as reflected in the Assessor's Annual Compilation, exceed 33-1/3% of the total taxes that would have been assessed with respect to the properties therein listed, the Tribe shall be required to remit as its annual voluntary payment in lieu of taxes an amount no greater than 33-1/3% of the aggregate total tax that would have been assessed, but for the Tribe's ownership. In said event, and upon receipt of the Tribe's annual voluntary payment and accompanying report, the County shall have the option to accept said payment in full satisfaction of the Tribe's contractual liabilities under this Taxation Compact for the immediately preceding tax year, or the County may notify the parties of the occurrence of a condition subsequent in accordance with Section 11.01 above. Should the parties be unable to make mutually satisfactory amendments to this Taxation Compact caused by the change in percentage of non-public school district taxation of total taxation, then this Taxation Compact shall terminate. In said event, the annual voluntary payment tendered by the Tribe shall be held in escrow in an account

established by the State, to be distributed in accordance with the order of a court of competent jurisdiction or in accordance with the mutual written agreement of the parties.

**11.04. Escalation of Annual Tribal Payment in Lieu of Taxes Above One Million Dollars (\$1,000,000).**

Should the annual voluntary payment of the Tribe, computed in accordance with this Taxation Compact, ever exceed the amount of one million dollars (\$1,000,000), then the Tribe shall have the option in any such year to either make the payment or notify the parties of termination of the Taxation Compact in accordance with Section 11.01 above. Should the parties be unable to make mutually satisfactory amendments to this Taxation Compact caused by the unanticipated amount of such annual voluntary payment, then this Taxation Compact shall terminate.

**11.05. Voluntary Termination by State, County, or Tribe.**

Upon one year's notice in writing as set forth in this Taxation Compact, any of the parties may choose to voluntarily terminate this Compact. Upon the notice of such voluntary termination which shall include a statement of reasons and issues as to why the party is terminating this Compact, the matter shall be subjected to the alternative dispute resolution process set forth in Article 12 of this Taxation Compact. Upon any voluntary termination of this Taxation Compact by any of the parties to this Taxation Compact, other than pursuant to sections 11.01-11.04, the Tribe shall make payment to the County pursuant to Section 6.02 calculated up to the end of the tax year preceding the year in which the notice of such termination occurs and the County shall accept such payment in full satisfaction of any obligation the Tribe may have for payment of taxes to the County for the tax year preceding the year in which the notice of such voluntary termination occurs.

**Article Twelve**

**Dispute Resolution.**

**12.01. Dispute Resolution Mechanism.**

The parties shall attempt to promptly and in good faith resolve any dispute arising out of or relating to the matters addressed in the Taxation Compact. Any party may give the other parties written notice of any dispute not resolved in the normal course of business which notice shall include a statement of reasons and issues for the proposed termination as set forth in Article Ten. Upon the receipt of such notice, a meeting at a mutually acceptable place and time shall be scheduled within 15 days after delivery of such notice and will be attended by the Governor of the State of Colorado, the Chairman of the Southern Ute Indian Tribal Council, the Chairman of the La Plata County Board of County Commissioners or their respective designees, and said officials or their designees shall meet to exchange information relating to the dispute and to attempt to resolve the dispute. If the parties are unable to reach agreement to resolve the dispute within 60 days from the date of the notice invoking the provisions of this Article Twelve, the parties within 15 days after the passage of such 60-day period shall agree upon a single arbitrator to render a recommended decision to the parties concerning the resolution of the dispute. The arbitrator shall render his or her decision within 120 days of the date of notice invoking the provisions of this Article Twelve. The decision of the arbitrator shall then be implemented by the parties, provided however, that the State's obligation to implement the decision shall be subject to State constitutional limitations, unless affirmatively rejected by any of the parties in writing

setting forth that party's conclusions and reasons for such rejection within 30 days of the arbitrator's recommended decision.

## **Article Thirteen**

### **Miscellaneous.**

#### **13.01. Third Party Rights Unaffected.**

Except as provided herein, this Taxation Compact is not intended by the parties to affect the individual rights of third parties or entities, including rights of individual members of the Tribe or the rights of persons subject to taxation by the State, County, or Tribe.

#### **13.02. Amendments.**

The parties may amend this Taxation Compact from time to time in writing, provided that such amendment must bear the signature of an authorized representative of each party. This provision for amendment, however, is not intended to grant to any party individually or to the parties collectively any legislative authority to change State or Tribal law without the concurrence of the appropriate legislative body.

#### **13.03. Annual Review.**

On the anniversary date of this Taxation Compact or the first business day thereafter, or on some other mutually agreed upon date, but in no event less than annually, the parties to this Taxation Compact agree to meet and confer to discuss compliance, progress in implementation, whether amendments are necessary, and other issues related to this Taxation Compact.

## **Article Fourteen**

### **Post-Compact Non-Waiver and Preservation.**

#### **14.01. Preservation of Rights, Claims, and Defenses.**

Upon the termination of the Taxation Compact, the parties may wish to reinstitute litigation concerning any claims and defenses relating to taxation within the exterior boundaries of the Reservation, and if that occurs, the parties understand and agree that all issues relating to State and local taxation may be litigated *de novo* including any and all claims and defenses related to the taxation of all real and personal property interests within the Reservation as set forth in Articles Three and Four of the Taxation Compact. The parties acknowledge, understand and agree that this Taxation Compact, the prior litigation and the settlement negotiations leading up to this Taxation Compact shall not operate as a bar, waiver of any rights of the parties, or in any respect affect the ability of any party to this Taxation Compact to institute litigation and seek declaratory or injunctive relief or damages. The parties acknowledge, understand and agree that this Taxation Compact and the conduct of the parties pursuant to this Taxation Compact shall not be used in discovery or admissible into evidence, and all negotiations relating to this Taxation Compact and efforts to resolve any disputes relating to this Taxation Compact under Article Eleven shall be treated as compromise in settlement negotiations for purposes of the Federal Rules of Evidence, State Rules of Evidence, or Tribal Rules of Evidence. Notwithstanding the foregoing, however, for every annual period during which the Tribe makes and the County accepts, without contest, an annual voluntary payment in lieu of taxes, the Tribe shall be barred from asserting as a claim the sum of such payment, and the County and State shall be barred

from seeking any taxes from the Tribe attributable to property, real or personal, owned by the Tribe within the Reservation.

**IN WITNESS WHEREOF**, the parties set forth their hands and seals on the date first above written.

## ARTICLE 62

### Intergovernmental Agreement Between the Southern Ute Indian Tribe and the State of Colorado Concerning Air Quality Control on the Southern Ute Indian Reservation

**Law reviews:** For article, "Air Pollution Control on the Southern Ute Indian Reservation", see 42 Colo. Law. 85 (Aug. 2013).

**24-62-101. Intergovernmental agreement between the Southern Ute Indian tribe and the state of Colorado concerning air quality control on the Southern Ute Indian reservation.** The general assembly hereby approves the intergovernmental agreement between the Southern Ute Indian tribe and the state of Colorado, referred to in this section as the

"Agreement", dated December 13, 1999, and signed by Bill Owens, governor of Colorado; Howard D. Richards, Sr., vice-chairman of the Southern Ute Indian tribal council; and Ken Salazar, attorney general of Colorado. Said compact is as follows:

**INTERGOVERNMENTAL AGREEMENT**  
**between**  
**THE SOUTHERN UTE INDIAN TRIBE**  
**and THE STATE OF COLORADO**  
**CONCERNING AIR QUALITY CONTROL**  
**ON THE SOUTHERN UTE INDIAN RESERVATION**

THIS INTERGOVERNMENTAL AGREEMENT is made and entered into by and between the SOUTHERN UTE INDIAN TRIBE ("Tribe") and the STATE OF COLORADO ("State").

**Article I**  
**Purpose and Summary of the Agreement.**

The purpose of this Agreement is to establish a single air quality program applicable to all lands within the exterior boundaries of the Southern Ute Indian Reservation ("the Reservation Air Program"). The Southern Ute Indian Tribe/State of Colorado Environmental Commission ("Commission") established under this Agreement shall promulgate rules and regulations for the Reservation Air Program and shall conduct review of appealable administrative actions, pursuant to laws enacted by both parties. Any United States Environmental Protection Agency ("EPA") delegation to the Tribe as contemplated in this Agreement shall be contingent upon and shall last only so long as this Agreement is in effect and shall be exercised pursuant to this Agreement. The Commission shall be the air quality policy making and the administrative review entity for the Reservation Air Program. When all conditions and terms of this Agreement are fully in effect, the Tribe and the State intend that the Reservation Air Program shall be implemented and administered by the Tribe, pursuant to a delegation from the EPA, through the use of the staff of the Tribe's Environmental Programs Division ("EPD"), with the participation of the State's Air Pollution Control Division as outlined in this Agreement.

**Article II**  
**Background.**

The Southern Ute Indian Reservation ("Reservation") is located in southwest Colorado in the southern portions of La Plata and Archuleta Counties. Congress confirmed the boundaries of the Reservation in the Act of May 21, 1984, Pub. L. No. 98-290, 98 Stat. 201, 202 (found at "Other Provisions" note to 25 U.S.C.S. § 668) ("P.L. 98-290"). The Reservation encompasses approximately 681,000 acres, of which approximately 308,000 surface acres are held in trust by the United States for the benefit of the Tribe. Additionally, the Tribe owns the mineral estate underlying a majority of Reservation lands. As the result of the historical allotment, homesteading, and restoration of undisposed of lands to tribal ownership, the Reservation is a checkerboard of land ownerships, including: lands held in trust by the United States for the Tribe's benefit; lands held in trust by the United States for the benefit of individual tribal

members; lands owned in fee by members of the Tribe; lands owned in fee by non-Indians; and National Forest lands.

The Clean Air Act directs EPA to promulgate regulations specifying those Clean Air Act provisions for which Indian tribes may be treated in the same manner as states for the purposes of primacy in the development and implementation of air quality programs, 42 U.S.C. § 7601 (d). EPA promulgated such regulations on February 12, 1998, 63 Fed. Reg. 7253. Pursuant to the Clean Air Act and EPA regulations, tribes have the flexibility to assume responsibility for administering some, but not necessarily all, Clean Air Act programs and preserving that flexibility is important to the Tribe.

In July, 1998, the Tribe submitted an application for treatment as a state ("TAS application"). In its application, the Tribe requested it be treated as a state with respect to the administration of Clean Air Act programs over all land located within the exterior boundaries of the Reservation. The specific purposes of the TAS application were to receive grant funding under section 105 of the Clean Air Act and recognition as an "affected State" to comment on draft operating permits. The Tribe asserted in its TAS application that it has jurisdiction to regulate all sources of air pollution located within the Reservation's exterior boundaries under the Clean Air Act, including non-Indian owned sources located on fee lands.

In its comments on the Tribe's TAS application, the State has objected insofar as the application requests tribal Clean Air Act authority over non-Indian owned sources located on fee land within the exterior boundaries of the Reservation. The State asserts that P.L. 98-290 establishes its jurisdiction to regulate non-Indian owned sources located on fee lands within the Reservation boundaries. There is no dispute as to the Tribe's jurisdictional authority to regulate sources of air pollution located on trust lands within the Reservation and Indian-owned sources located on fee land within the Reservation.

The purpose of P.L. 98-290 was to avoid long and costly litigation over issues dependent on reservation or Indian country status by confirming the boundaries of the Southern Ute Indian Reservation and defining jurisdiction within such reservation. Despite the enactment of P.L. 98-290, the Tribe and the State do not agree as to territorial and regulatory jurisdiction concerning the administration of Clean Air Act programs relative to non-Indian air pollution sources on fee land within the boundaries of the Reservation. Notwithstanding the Tribe's and the State's conflicting jurisdictional assertions regarding the regulation of non-Indian sources of air pollution located on fee lands within the boundaries of the Reservation, the Tribe and the State wish to work cooperatively to develop a comprehensive air quality program applicable to all lands within the boundaries of the Reservation to improve and protect the air quality on the Reservation. It is agreed that the air quality program to be developed pursuant to this Agreement should reflect the particular interests of the Tribe, yet remain compatible with State air quality goals. The State and the Tribe, as governments that share contiguous physical boundaries, recognize that it is in the interest of the environment and all residents of the Reservation and the State of Colorado to work together to ensure consistent and comprehensive air quality regulation on the Reservation without threat of expensive and lengthy jurisdictional litigation.

The Tribe and State agree that the establishment of a single collaborative authority for all lands within the exterior boundaries of the Reservation best advances rational, sound, air quality management and will minimize duplicative efforts and expenditures of monetary and program resources by the Tribe and the State. The State and the Tribe also agree that the establishment of such an air program would create the most readily defined regulatory environment for sources on

the Reservation. Therefore, this Agreement encompasses the regulation of all air pollution sources on the Reservation.

### **Article III Authorities.**

The Tribe is a federally recognized Indian tribe that is organized under a constitution, approved by the Secretary of the Interior, pursuant to the Indian Reorganization Act of 1934, ch. 576, 48 Stat. 984 (codified as amended at 25 U.S.C. §§ 461, et seq.). The Tribal Council of the Southern Ute Indian Tribe is authorized to act for the Tribe by the Constitution adopted by the Southern Ute Indian Tribe and approved by the Secretary of the Interior on November 4, 1936, and approved as amended on October 1, 1975.

Colorado is a state admitted to the United States of America on an equal footing, pursuant to Art. IV, § 3 of the Constitution of the United States of America. The State of Colorado was duly formed in 1876 under its Constitution and Enabling Act. The Governor of the State of Colorado is empowered to act on behalf of the State pursuant to Art. IV of the Colorado Constitution and other authorities.

In the Clean Air Act, Congress encourages cooperative activities and agreements between adjoining governments for the prevention and control of air pollution, 42 U.S.C. § 7402. Moreover, EPA strongly encourages tribal and State cooperation in the development of air programs, 64 Fed. Reg. 8253.

### **Article IV Preservation of Jurisdiction and Sovereign Immunity.**

Nothing in this Intergovernmental Agreement shall affect the respective jurisdictions of the Tribe and the State as set forth in P.L. 98-290, until and unless changed by federal legislation. By entering into this Agreement, neither the State nor the Tribe concedes or waives any legal arguments concerning the authority to regulate non-Indian air pollution sources located on fee lands within the boundaries of the Reservation. Upon termination of this Agreement, the parties acknowledge, understand and agree that this Agreement shall not operate as a bar, waiver of any rights of the parties, or in any respect affect the ability of any party to this Agreement to assert its arguments in support of its authority to regulate non-Indian air pollution sources located on fee lands within the boundaries of the Reservation.

Nothing in this Agreement shall be construed as constituting a waiver of any immunity by either the Tribe or State for any purpose whatsoever.

### **Article V Process for Establishing the Reservation Air Program.**

The Tribe and the State agree that establishing the Reservation Air Program will take many steps and occur in phases. The parties set forth the phases here to serve as a context for the remainder of the terms of this Agreement. A description of the phases also clarifies the particular aspects of this Agreement that are operative at any given time.

**A. Formation Phase.** The Formation Phase is the time between execution of this Agreement and the enactment of tribal and State legislation that approves of this Agreement and creates the Commission as provided in Articles VII and VIII. In the Formation Phase, the Tribe and the State will seek the enabling legislation. If EPA grants the portion of the Tribe's TAS application seeking grant authority only for the limited purpose of determining that the Tribe is eligible to receive grant funding under section 105 of the Clean Air Act, the State will not contest this limited EPA finding. To implement the terms and conditions of this Agreement, the EPA will also have to find that the Tribe has authority to and is eligible to implement a regulatory program under the Clean Air Act. The Tribe will incorporate this Agreement and the Commission's role under this Agreement in any amended TAS application or request for EPA delegation to the Tribe of Clean Air Act programs. The Tribe and the State agree that they will cooperate to obtain this further finding and approval from EPA as is necessary for and subject to the performance of this Agreement. The parties will also seek federal legislation as set forth in this Agreement. During the Formation Phase, the Tribe and the State will work cooperatively to administer and enforce an air quality program for the Reservation, as provided in Article IX.

**B. Development Phase.** The Development Phase is the time period after enactment of the tribal and State legislation creating the Commission and its authority and before adoption of federal legislation and delegation by the EPA of any Clean Air Act programs. In the Development Phase, the Commission will determine which parts of the Clean Air Act or other air programs to incorporate into the Reservation Air Program, based on State or other regulations as modified by the Commission to address the particular local circumstances of the Reservation. The Tribe will then apply for delegation of those programs from EPA, such delegation being conditioned upon compliance with this Agreement, including the Commission's authority to participate under this Agreement in the administration of the Reservation Air Program. The Commission will also adopt procedural rules and regulations for the Reservation Air Program. The Commission will work cooperatively with the Tribe's EPD staff in the administration and implementation of the Reservation Air Program, as set forth in Articles VII and VIII. The parties shall also diligently seek federal legislation during the development phase.

**C. Program Phase.** The program phase is that time period after enactment of federal legislation and after actual delegation of Clean Air Act Programs by the EPA. At that point all components of this Agreement will be in effect.

## **Article VI Conditions.**

**A. Legislative Ratification.** As a condition to implementation of this Agreement, the parties agree that this Agreement must be approved by the Colorado General Assembly.

**B. State Statutory Enactment.** As an additional condition, the parties agree that the state legislation needed to implement the terms of this Agreement, including authorization for creation of a joint Southern Ute Indian Tribe/State of Colorado Environmental Control Commission, shall be enacted by the Colorado General Assembly during the Second Regular Session of the Sixty-Second General Assembly.

**C. Tribal Enactment.** As an additional condition, the parties agree that the Tribe, through its Tribal Council, shall enact such resolutions or ordinances approving and permitting the implementation of this Agreement, including authorization for creation of a joint Southern

Ute Indian Tribe/State of Colorado Environmental Control Commission, no later than January 26, 2000.

**D. Agreement for Federal Enactment.** The parties agree to support and to seek the passage of federal legislation, as provided in Article XI. The parties agree to seek and support passage of such federal legislation during the Congressional session held during the years 2000, 2001, and 2002. As an additional condition, if such federal legislation is not enacted within three years of the effective date of this Agreement, this Agreement shall become null and void.

## **Article VII**

### **The State/Tribe Environmental Commission.**

The Tribe and the State shall establish a joint Southern Ute Indian Tribe/State of Colorado Environmental Control Commission ("Commission"), by the enactment of legislation by each party. The Commission is not an agency of the State of Colorado nor the Southern Ute Indian Tribe, but is a separate entity.

The Commission shall consist of six members, three of whom shall be appointed by the Tribal Council of the Tribe and three of whom shall be appointed by the Governor. Commission members shall serve for the terms and under the conditions specified in the enabling legislation. The Commission shall annually elect a person to preside as chair. The chair shall alternate annually between a tribal and State member. During their term of service, a member may be removed with or without cause only by the authority that appointed that member.

The Commission shall only act by a majority vote of all of its members.

The purpose of the Commission is to establish the rules and regulations applicable to the Reservation Air Program and conduct review of appealable administrative actions. Both the Tribe and the State may advocate any particular interest or viewpoint to the Commission, but the Commission is empowered to make rules and regulations for the Reservation Air Program and to review appealable administrative actions taken by the Tribe. While this Agreement is in effect, the Tribe and the State shall recognize and abide by the Commission's decisions, and its rules and regulations.

To carry out its functions, the Commission may call upon the employees of the Tribe's Environmental Programs Division and the State's Air Pollution Control Division, as more fully set forth in Article VIII of this Agreement.

The duties of the Commission shall include the responsibility to:

(a) Determine the specific programs under the Clean Air Act, or other air programs, that should apply to the Reservation, by taking into account the specific environmental, economic, geographic, and cultural needs of the Reservation;

(b) Promulgate rules and regulations that are necessary for the proper implementation and administration of those programs, including determining which administrative actions are appealable to the Commission;

(c) Establish procedures the Commission will follow in promulgating rules and regulations, and for review of appealable administrative actions taken by the Tribe;

(d) Review and approve of a long-term plan, initially prepared by the Tribe, for improving and maintaining air quality within the Reservation, which also takes into account regional planning in the La Plata and Archuleta County region;

- (e) Monitor the relationships among the State and tribal environmental protection agencies to facilitate information sharing, technical assistance and training;
- (f) Review administrative actions according to the Commission's adopted administrative procedures;
- (g) Approve and adopt fees for permits and other regulatory services conducted by the Tribe or the State, after considering a proposed fee schedule prepared by the Tribe, and direct payment of fees by air pollution sources to the Tribe;
- (h) Ensure consistency and adherence to applicable standards and resolve disputes involving third parties;
- (i) Review emission inventories as developed by the Tribe and State;
- (j) Conduct public hearings pertaining to the adoption of rules and regulations, or relating to review of appealable administrative actions, and issue orders resulting from those proceedings;
- (k) Request tribal staff to perform any administrative or clerical functions necessary to issue orders and conduct Commission business, or the Commission at its option may appoint a technical secretary to perform such duties, except that no authority shall be delegated to adopt, promulgate, amend or repeal standards or regulations, or to make determinations, or to issue or countermand orders of the Commission;
- (l) Any other duties necessary to accomplish the purposes of this Agreement, and as authorized by the State and tribal enabling legislation.

### **Article VIII**

#### **Administration of the Reservation Air Program.**

The Commission is the policy making and administrative review authority for the Reservation Air Program. The Commission may call upon either tribal or State staff for assistance in carrying out its responsibilities pursuant to this Agreement. The Tribe and the State agree that during the Development and Program Phases, tribal employees shall assume the primary role for day-to-day administration and enforcement.

**A. Duties of Tribe.** The State and Tribe agree that the day-to-day administration and enforcement of the Reservation Air Program shall be the responsibility of the Tribe. The Tribe agrees that it shall administer and enforce the standards, rules and regulations adopted by the Commission for the Reservation Air Program. The Tribe may also promulgate rules and regulations that are consistent with the rules and regulations adopted by the Commission and necessary for the Tribe to maintain its delegations from EPA obtained to perform this Agreement.

In addition to other responsibilities that the parties may agree are necessary for the effective implementation of this Agreement, it is agreed that the administrative and enforcement responsibilities of the Tribe shall include the responsibility to:

- (a) Prepare initial drafts of rules and regulations for the Reservation Air Program for review by the State and, ultimately, for consideration by the Commission;
- (b) Administer all activities related to permits including, for example, permit application review, permit issuance, permit modification procedures, and conduct all permit processing;

(c) Collect data, by means of field studies and air monitoring conducted by the Tribe or by individual stationary sources and mobile air pollution sources, and determine the nature and quality of existing ambient air throughout the Reservation;

(d) Conduct inspections of any property, premises, or place within the Reservation with respect to any actual, suspected, or potential source of air pollution or for ascertaining compliance or noncompliance with any applicable requirements;

(e) Furnish technical advice and services relating to air pollution problems and control techniques;

(f) Initiate enforcement actions when the results of atmospheric tests conducted establish that the ambient air or source of emission of smoke or air pollution fails to meet the applicable standards;

(g) Develop a long-term plan, for approval by the Commission, for improving and maintaining air quality within the Reservation, which also takes into account regional planning in the La Plata and Archuleta County region;

(h) Prepare a fee schedule for approval by the Commission, and to collect said fees as are necessary for the administration of the Reservation Air Program and the Commission expenses, consistent with sub-section (B) of this article VIII;

(i) Expend and account for funds, either collected from air pollution sources or granted to the Tribe by the EPA to administer the Reservation Air Program, for reasonable and necessary expenses to administer the Reservation Air Program;

(j) Establish emission inventories;

(k) Issue permits and enforce the terms and conditions of permits;

(l) Gather information from sources of air pollution;

(m) Issue cease and desist orders, and take other emergency actions as may be necessary to protect the public health, welfare, and the environment;

(n) Issue notices of violation as may be required;

(o) Require any air pollution source to furnish information related to source emissions or to any investigation authorized by law or regulation, and to obtain from a court of appropriate jurisdiction a subpoena to compel the production of necessary documents to obtain such information;

(p) Prepare applications for delegation of programs from EPA, in furtherance of this Agreement.

The Tribe shall afford the State, through its Air Quality Control Division and Air Quality Control Commission, the opportunity to participate in the carrying out of such responsibilities by the Tribe, through appropriate notice, comment, and consultation.

**B. Funding for Commission and Program Costs.** Once the Commission is established and during the Program Phase of this Agreement, it is the intent of the Tribe and the State that funding for administration of the Reservation Air Program and the Commission's expenses shall come from fees and grants. Pursuant to Article VII, the Commission shall establish fees for air pollution sources and direct payment of those fees to the Tribe. The Tribe shall apply for and may receive grants from EPA for administration of the Reservation Air Program. From these revenues (i.e., fees and grants), the Tribe shall fund the staff and program costs necessary to perform the Tribe's duties under this Agreement. The Tribe shall pay the State for the personal services costs, at a rate of compensation determined by contract, of any State employee who participates in the administration of the Reservation Air Program pursuant to this Article VIII. It

is the intent of the Tribe and the State that fees shall also be sufficient to cover the Commission's necessary expenses. The parties agree that they may also jointly seek funding from EPA for the necessary expenses of the Commission to perform its duties. To the extent such EPA funding is not obtained or if funding from fees is not allowed by the Clean Air Act, the State and the Tribe each will be responsible for funding associated with the participation of their representatives on the Commission. However, State funding for its expenses is conditioned upon appropriation or the availability of other state-only funds that the State could use for this purpose.

**Article IX**  
**Tribal and State Cooperation**  
**During the Formation and Development Phases**  
**of the Reservation Air Program.**

The parties recognize that the fulfillment of the purposes of this Agreement will require communication, collaboration, and cooperation among the State, Tribe, and federal governments, State agencies such as the Department of Public Health and Environment and the Air Pollution Control Division, the Tribe's Environmental Programs Division, EPA, and the Commission. Such cooperation is especially needed during the formation and development phases of this Agreement.

**A. Air Program During the Formation and Development Phases.** During the Formation and Development Phases, the Tribe will work cooperatively with EPA to allow direct EPA implementation of Clean Air Act requirements for sources located on trust lands and Indian sources located on fee lands within the Reservation. With regard to Fee Lands, the Tribe will not jurisdictionally challenge the State's administration of such programs with respect to non-Indian owned air pollution sources located on fee lands within the Reservation. During the formation and development phases, for regulation of non-Indian air pollution sources on fee lands, the State and the Tribe shall participate together in regulatory activities. In its administration of permits for non-Indian air pollution sources on fee lands, the State shall:

(a) Notify the Tribe upon receipt of permit applications and afford the Tribe an opportunity to participate in the review of permit applications;

(b) Afford the Tribe the opportunity to review and comment, within thirty (30) days, on draft notices of violation, draft consent orders, draft compliance orders, and draft air pollution source permits prepared by the APCD;

(c) Afford the Tribe the opportunity to participate in source inspections and in surveillance activities;

(d) Notify the Tribe and provide for tribal participation in decisions concerning potential enforcement actions, including penalties to be assessed, and participation in all notice of violation conferences.

**1. Funding during the Formation and Development Phases.** During the Formation Phase, the State will continue to assess and collect fees as provided by Colorado statute and will expend such funds to administer the State program for non-Indian sources on fee lands. The Tribe will use its own funds or may apply for EPA grants to fund its activities. During the Development Phase, permitting fees and any other fees for non-Indian owned sources located on fee lands will be divided between the Tribe and State in a manner that is commensurate with the responsibilities, costs incurred, and time spent by each party with respect to such permits and

such division of fees shall be authorized pursuant to the State and tribal legislation contemplated herein. The parties shall endeavor to reach agreement on the appropriate division of fees prior to the conduct of any work related to such permits.

**B. Other Cooperation during the Formation and Development Phases.** During the time period that the Commission is being created by State and tribal legislation, and prior to the time that EPA delegates specific programs to the Tribe, the Tribe and the State agree to cooperate as follows:

**1. Technical Assistance.** The State, by and through the APCD, will advise the Tribe about the kinds of technical assistance that it can provide. The Tribe, with the assistance of the APCD, will develop technical assistance priorities. The APCD will make available technical expertise from all APCD program areas to assist the Tribe in the development and management of the Reservation Air Program and to assist the Tribe in developing its own technical expertise in air resource management. The Tribe and the APCD agree to exchange technical expertise regarding matters of mutual interest. Unless otherwise required by state or federal law, the APCD shall not share or release to any other governmental or private agency or person, without the written consent of the Tribe, any information obtained by the APCD from the Tribe or information generated by the APCD through technical assistance to the Tribe; provided, however, this confidentiality requirement shall not apply to information which has already been disclosed to the public by the Tribal Council or its representatives and information that the Tribe specifically approves for distribution to the public. If the APCD receives a request under the state Open Records Act to disclose confidential information, the APCD shall notify the Tribe of the request within a time sufficient to enable the Tribe to assert its claim to confidentiality prior to the APCD producing any requested documents.

**2. Training.** Upon request, the Tribe will help APCD employees improve their understanding of Southern Ute traditional values and practices, natural resource values, treaty and other federally reserved rights, and relevant law enforcement policy issues. The APCD will provide the Tribe with access to APCD training programs. To facilitate the attendance of tribal personnel at APCD training programs, the APCD shall notify the Tribe in advance of such programs.

**3. Funding.** During the Program Phase, the Reservation Air Program shall be funded as set forth in Article VIII.

## **Article X Enforcement and Judicial Review.**

**A. During Formation and Development Phase.** Prior to the formation of the Commission and the adoption of the federal legislation and actual EPA delegation of Clean Air Act programs, the parties agree that the State may exercise civil and criminal enforcement jurisdiction over non-Indians on fee lands within Reservation boundaries for violations of applicable air quality regulations. Appeals of State air enforcement action and other air quality related decisions may be brought in State court consistent with State law and regulation. Pursuant to P.L. 98-290, the Tribe may exercise jurisdiction over Indians on all lands within the boundaries of the Reservation, and over non-Indians on trust land, for violations of applicable tribal air quality regulations. Nothing herein is intended as restricting, diminishing or defining the jurisdiction of EPA.

## **B. During the Program Phase.**

**1. Civil Enforcement Action.** Following the adoption of the federal legislation and EPA delegation of Clean Air Act programs contemplated by this agreement, the Tribe will exercise civil enforcement jurisdiction over any persons on all lands within Reservation boundaries for violations of the Reservation air quality program, subject to administrative review by the Commission. Consistent with the federal legislation contemplated by this Agreement, final decisions of the Commission will be subject to review in federal district court in accord with the provisions of the federal Administrative Procedure Act.

**2. Criminal Enforcement Action.** Following the formation of the Commission and the adoption of the federal legislation contemplated by this agreement, it is the intent of the parties that EPA will exercise criminal enforcement jurisdiction over any persons on all lands with Reservation boundaries for violations of the Reservation Air Program.

## **Article XI Federal Legislation.**

The State and Tribe agree to seek cooperatively federal legislation to confirm the eligibility of the Tribe to receive a delegation of authority to administer programs under the Clean Air Act for all lands within the boundaries of the Reservation, contingent upon the continued existence of this Agreement. The purpose of the federal legislation will be to facilitate the delegation of authority to the Tribe pursuant to the terms and conditions of this Agreement and to provide an effective mechanism for the enforcement of program requirements and for administrative and judicial review. It is agreed that the parties will seek legislation whereby, notwithstanding any limitation contained in P.L. 98-290 or any other limitation contained in federal law, the Tribe will be authorized to be treated as a State for Clean Air Act purposes for all lands within the Reservation and recognized as eligible to receive a delegation of authority from EPA to administer programs pursuant to the Clean Air Act, provided that this Agreement and the joint Southern Ute Indian Tribe/State of Colorado Environmental Control Commission, established pursuant to State and tribal law as provided herein, remains in effect.

## **Article XII Tribal Treatment as a State Applications and Requests for Program Approval.**

During the Development Phase, the Tribe shall apply to EPA for approval of Clean Air Act programs and delegation to the Tribe of the authority to administer such programs with respect to all lands within the Reservation, as determined by the Commission and subject to the terms of this Agreement. The State agrees that it will not jurisdictionally challenge the Tribe's requests to EPA for approval of these programs or delegation to the Tribe of the authority to administer Clean Air Act programs with respect to the Reservation, including non-Indian facilities located or non-Indian activities conducted on fee lands within the boundaries of the Reservation, provided such requests are pursuant to the determination of the Commission and subject to the terms of this Agreement.

For Indian tribes establishing eligibility pursuant to 40 C.F.R. § 35.220 (a), EPA may provide financial assistance in an amount up to 95 percent (95%) of the approved costs of

planning, developing, establishing, or approving an air pollution control program, and up to 95 percent (95%) of the approved costs of maintaining that program, 40 C.F.R. § 35.205.

The Tribe and the State agree to cooperate in seeking from EPA any recognition of or delegation to the Tribe necessary to carry out the terms and conditions of this Agreement. The State agrees that it will support an amended or additional TAS application or request for program delegation by the Tribe which incorporates the terms of this Agreement. The Tribe agrees that it will not submit a request for approval of a Clean Air Act program or for approval of partial elements of a Clean Air Act program unless asked to do so by the Commission and in accordance with the requirements contained in this Agreement.

### **Article XIII Miscellaneous.**

**A. Effective Date.** This Agreement shall begin and become effective when executed by both parties.

**B. Amendment.** The parties may amend this Agreement from time to time in writing, provided that such amendment must bear the signature of an authorized representative of each party. This provision for amendment is not intended to grant to any party individually or to the parties collectively any legislative authority to change State or Tribal law without the concurrence of the appropriate legislative body.

**C. Termination.** This Agreement shall continue in effect until terminated by joint agreement of the parties, provided, however, that either party may terminate the agreement contained herein by giving advance written notice of one year to the other party. Any termination of this Agreement shall serve to end the delegation from EPA to the Tribe to administer any Clean Air Act programs delegated pursuant to this Agreement. The termination of this Agreement shall also operate as an automatic repeal of the State and tribal legislation enacted pursuant to Article VI of this Agreement.

**D. Notices.** Notices hereunder shall be in writing and shall be given by personal delivery or by deposit in the United States mail by certified mail, return receipt requested, postage prepaid and addressed to the Tribe and the State at the addresses set forth below, or such other place as is provided to the other parties by written notice:

(2) 40 C.F.R. § 35.220 (a) referenced in the second paragraph of Article XII of this compact is no longer contained in the Code of Federal Regulations. However, said section did exist in the 1998 Code of Federal Regulations.

**24-62-102. Legislative declaration.** (1) The general assembly hereby:

(a) Finds that sub-section (D) of article VI of the "Intergovernmental Agreement between the Southern Ute Indian Tribe and the State of Colorado Concerning Air Quality Control on the Southern Ute Indian Reservation" originally specified that if federal legislation authorizing the treatment of the tribe as a state for federal "Clean Air Act" purposes was not enacted by December 13, 2002, then the agreement would become null and void;

(b) Determines that, pursuant to sub-section (B) of article XIII of the agreement, the parties to the agreement modified sub-section (D) of article VI of the agreement in December 2001, December 2002, and December 2003, to extend for one year the deadline for passage of the federal legislation, and the final deadline for such passage according to the agreement as modified is December 13, 2004; and

(c) Declares that, whereas the federal legislation contemplated by the agreement, "The Southern Ute and Colorado Intergovernmental Agreement Implementation Act of 2004" (P.L. 108-336), was approved on October 18, 2004, the contingency contemplated by sub-section (D) of article VI of the agreement and section 25-7-1309 (1)(c), C.R.S., is moot.

## PART 2

### AREAS AND ACTIVITIES DESCRIBED - CRITERIA FOR ADMINISTRATION

**24-65.1-201. Areas of state interest as determined by local governments.** (1) Subject to the procedures set forth in part 4 of this article, a local government may designate certain areas of state interest from among the following:

- (a) Mineral resource areas;
- (b) Natural hazard areas;
- (c) Areas containing, or having a significant impact upon, historical, natural, or archaeological resources of statewide importance; and
- (d) Areas around key facilities in which development may have a material effect upon the key facility or the surrounding community.

**Source: L. 74:** Entire article added, p. 341, § 1, effective May 17.

**24-65.1-202. Criteria for administration of areas of state interest.** (1) (a) Mineral resource areas designated as areas of state interest shall be protected and administered in such a manner as to permit the extraction and exploration of minerals therefrom, unless extraction and exploration would cause significant danger to public health and safety. If the local government having jurisdiction, after weighing sufficient technical or other evidence, finds that the economic value of the minerals present therein is less than the value of another existing or requested use, such other use should be given preference; however, other uses which would not interfere with the extraction and exploration of minerals may be permitted in such areas of state interest.

(b) Areas containing only sand, gravel, quarry aggregate, or limestone used for construction purposes shall be administered as provided by part 3 of article 1 of title 34, C.R.S.

(c) The extraction and exploration of minerals from any area shall be accomplished in a manner which causes the least practicable environmental disturbance, and surface areas disturbed thereby shall be reclaimed in accordance with the provisions of article 32 of title 34, C.R.S.

(d) Repealed.

(2) (a) Natural hazard areas shall be administered as follows:

(I) (A) Floodplains shall be administered so as to minimize significant hazards to public health and safety or to property. The Colorado water conservation board shall promulgate a model floodplain regulation no later than September 30, 1974. Open space activities such as agriculture, horticulture, floriculture, recreation, and mineral extraction shall be encouraged in the floodplains. Any combination of these activities shall be conducted in a mutually compatible manner. Building of structures in the floodplain shall be designed in terms of the availability of flood protection devices, proposed intensity of use, effects on the acceleration of floodwaters, potential significant hazards to public health and safety or to property, and other impact of such development on downstream communities such as the creation of obstructions during floods. Activities shall be discouraged that, in time of flooding, would create significant hazards to public health and safety or to property. Shallow wells, solid waste disposal sites, and septic tanks and sewage disposal systems shall be protected from inundation by floodwaters. Unless an activity of state interest is to be conducted therein, an area of corrosive soil, expansive soil and rock, or siltation shall not be designated as an area of state interest unless the Colorado conservation board, through the local conservation district, identifies such area for designation.

(B) Nothing in sub-subparagraph (A) of this subparagraph (I), as amended by House Bill 05-1180, as enacted at the first regular session of the sixty-fifth general assembly, shall be

construed as changing the property tax classification of property owned by a horticultural or floricultural operation.

(II) Wildfire hazard areas in which residential activity is to take place shall be administered so as to minimize significant hazards to public health and safety or to property. The Colorado state forest service shall promulgate a model wildfire hazard area control regulation no later than September 30, 1974. If development is to take place, roads shall be adequate for service by fire trucks and other safety equipment. Firebreaks and other means of reducing conditions conducive to fire shall be required for wildfire hazard areas in which development is authorized.

(III) In geologic hazard areas all developments shall be engineered and administered in a manner that will minimize significant hazards to public health and safety or to property due to a geologic hazard. The Colorado geological survey shall promulgate a model geologic hazard area control regulation no later than September 30, 1974.

(b) After promulgation of guidelines for land use in natural hazard areas by the Colorado water conservation board, the Colorado conservation board through the conservation districts, the Colorado state forest service, and the Colorado geological survey, natural hazard areas shall be administered by local government in a manner that is consistent with the guidelines for land use in each of the natural hazard areas.

(3) Areas containing, or having a significant impact upon, historical, natural, or archaeological resources of statewide importance, as determined by the state historical society, the department of natural resources, and the appropriate local government, shall be administered by the appropriate state agency in conjunction with the appropriate local government in a manner that will allow man to function in harmony with, rather than be destructive to, these resources. Consideration is to be given to the protection of those areas essential for wildlife habitat. Development in areas containing historical, archaeological, or natural resources shall be conducted in a manner which will minimize damage to those resources for future use.

(4) The following criteria shall be applicable to areas around key facilities:

(a) If the operation of a key facility may cause a danger to public health and safety or to property, as determined by local government, the area around the key facility shall be designated and administered so as to minimize such danger; and

(b) Areas around key facilities shall be developed in a manner that will discourage traffic congestion, incompatible uses, and expansion of the demand for government services beyond the reasonable capacity of the community or region to provide such services as determined by local government. Compatibility with nonmotorized traffic shall be encouraged. A development that imposes burdens or deprivation on the communities of a region cannot be justified on the basis of local benefit alone.

(5) In addition to the criteria described in subsection (4) of this section, the following criteria shall be applicable to areas around particular key facilities:

(a) Areas around airports shall be administered so as to:

(I) Encourage land use patterns for housing and other local government needs that will separate uncontrollable noise sources from residential and other noise-sensitive areas; and

(II) Avoid danger to public safety and health or to property due to aircraft crashes.

(b) Areas around major facilities of a public utility shall be administered so as to:

(I) Minimize disruption of the service provided by the public utility; and

(II) Preserve desirable existing community patterns.

(c) Areas around interchanges involving arterial highways shall be administered so as to:  
(I) Encourage the smooth flow of motorized and nonmotorized traffic;  
(II) Foster the development of such areas in a manner calculated to preserve the smooth flow of such traffic; and

(III) Preserve desirable existing community patterns.

(d) Areas around rapid or mass transit terminals, stations, or guideways shall be developed in conformance with the applicable municipal master plan adopted pursuant to section 31-23-206, C.R.S., or any applicable master plan adopted pursuant to section 30-28-108, C.R.S. If no such master plan has been adopted, such areas shall be developed in a manner designed to minimize congestion in the streets; to secure safety from fire, floodwaters, and other dangers; to promote health and general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; and to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. Such development in such areas shall be made with reasonable consideration, among other things, as to the character of the area and its peculiar suitability for particular uses and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the jurisdiction of the applicable local government.

**24-65.1-203. Activities of state interest as determined by local governments.** (1) Subject to the procedures set forth in part 4 of this article, a local government may designate certain activities of state interest from among the following:

- (a) Site selection and construction of major new domestic water and sewage treatment systems and major extension of existing domestic water and sewage treatment systems;
- (b) Site selection and development of solid waste disposal sites except those sites specified in section 25-11-203 (1), C.R.S., sites designated pursuant to part 3 of article 11 of title 25, C.R.S., and hazardous waste disposal sites, as defined in section 25-15-200.3, C.R.S.;
- (c) Site selection of airports;
- (d) Site selection of rapid or mass transit terminals, stations, and fixed guideways;
- (e) Site selection of arterial highways and interchanges and collector highways;
- (f) Site selection and construction of major facilities of a public utility;
- (g) Site selection and development of new communities;
- (h) Efficient utilization of municipal and industrial water projects;
- (i) Conduct of nuclear detonations; and
- (j) The use of geothermal resources for the commercial production of electricity.

**Editor's note:** Amendments to subsection (1)(b) by Senate Bill 79-335 and House Bill 79-1156 were harmonized, effective January 1, 1980.

**24-65.1-204. Criteria for administration of activities of state interest.** (1) (a) New domestic water and sewage treatment systems shall be constructed in areas which will result in the proper utilization of existing treatment plants and the orderly development of domestic water and sewage treatment systems of adjacent communities.

(b) Major extensions of domestic water and sewage treatment systems shall be permitted in those areas in which the anticipated growth and development that may occur as a result of such extension can be accommodated within the financial and environmental capacity of the area to sustain such growth and development.

(2) Major solid waste disposal sites shall be developed in accordance with sound conservation practices and shall emphasize, where feasible, the recycling of waste materials. Consideration shall be given to longevity and subsequent use of waste disposal sites, soil and wind conditions, the potential problems of pollution inherent in the proposed site, and the impact on adjacent property owners, compared with alternate locations.

(3) Airports shall be located or expanded in a manner which will minimize disruption to the environment of existing communities, minimize the impact on existing community services, and complement the economic and transportation needs of the state and the area.

(4) (a) Rapid or mass transit terminals, stations, or guideways shall be located in conformance with the applicable municipal master plan adopted pursuant to section 31-23-206, C.R.S., or any applicable master plan adopted pursuant to section 30-28-108, C.R.S. If no such master plan has been adopted, such areas shall be developed in a manner designed to minimize congestion in the streets; to secure safety from fire, floodwaters, and other dangers; to promote health and general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; and to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. Activities shall be conducted with reasonable consideration, among other things, as to the character of the area and its peculiar suitability for particular uses and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout the jurisdiction of the applicable local government.

(b) Proposed locations of rapid or mass transit terminals, stations, and fixed guideways which will not require the demolition of residences or businesses shall be given preferred consideration over competing alternatives.

(c) A proposed location of a rapid or mass transit terminal, station, or fixed guideway that imposes a burden or deprivation on a local government cannot be justified on the basis of local benefit alone, nor shall a permit for such a location be denied solely because the location places a burden or deprivation on one local government.

(5) Arterial highways and interchanges and collector highways shall be located so that:

(a) Community traffic needs are met;

(b) Desirable community patterns are not disrupted; and

(c) Direct conflicts with adopted local government, regional, and state master plans are avoided.

(6) Where feasible, major facilities of public utilities shall be located so as to avoid direct conflict with adopted local government, regional, and state master plans.

(7) When applicable, or as may otherwise be provided by law, a new community design shall, at a minimum, provide for transportation, waste disposal, schools, and other governmental services in a manner that will not overload facilities of existing communities of the region. Priority shall be given to the development of total communities which provide for commercial and industrial activity, as well as residences, and for internal transportation and circulation patterns.

(8) Municipal and industrial water projects shall emphasize the most efficient use of water, including, to the extent permissible under existing law, the recycling and reuse of water. Urban development, population densities, and site layout and design of storm water and sanitation systems shall be accomplished in a manner that will prevent the pollution of aquifer recharge areas.

(9) Nuclear detonations shall be conducted so as to present no material danger to public health and safety. Any danger to property shall not be disproportionate to the benefits to be derived from a detonation.

OF STATE INTEREST AND FOR CONDUCT OF  
ACTIVITIES OF STATE INTEREST

**24-65.1-501. Permit for development in area of state interest or to conduct an activity of state interest required.** (1) (a) Any person desiring to engage in development in an area of state interest or to conduct an activity of state interest shall file an application for a permit with the local government in which such development or activity is to take place. A reasonable fee determined by the local government sufficient to cover the cost of processing the

application, including the cost of holding the necessary hearings, shall be paid at the time of filing such application.

(b) The requirement of paragraph (a) of this subsection (1) that a public utility obtain a permit shall not be deemed to waive the requirements of article 5 of title 40, C.R.S., that a public utility obtain a certificate of public convenience and necessity.

(c) The local government may maintain a mailing list and send notice of hearings relating to permits in a manner similar to that described in section 24-65.1-404 (2)(b).

(d) If the development or activity involves the construction or expansion of transmission facilities for which the applicant has sought a certificate of public convenience and necessity from the public utilities commission pursuant to section 40-2-126, the local government shall approve or deny issuance of the permit within one hundred eighty days after the application is deemed complete and public notice of the application is given. If the local government does not deny issuance of the permit within that period, the application is deemed approved.

(3) The local government may approve an application for a permit to engage in development in an area of state interest if the proposed development complies with the local government's guidelines and regulations governing such area. If the proposed development does not comply with the guidelines and regulations, the permit shall be denied.

(4) The local government may approve an application for a permit to conduct an activity of state interest if the proposed activity complies with the local government's regulations and guidelines for conduct of such activity. If the proposed activity does not comply with the guidelines and regulations, the permit shall be denied.

(5) The local government conducting a hearing pursuant to this section shall:

(a) State, in writing, reasons for its decision, and its findings and conclusions; and

## ARTICLE 65.5

### Notification of Surface Development

**Law reviews:** For article, "Oil and Gas Title Searches and Notice Under the Surface Development Notification Act", see 31 Colo. Law. 113 (Oct. 2002).

**24-65.5-101. Legislative declaration - intent.** The general assembly recognizes that the surface estate and the mineral estate are separate and distinct interests in real property and that one may be severed from the other. It is the intent of the general assembly that this article provide a streamlined procedure for providing notice to owners of mineral interests concerning impending surface development and to facilitate the negotiation of a surface use agreement providing for the joint use of the surface and a mechanism for resolution if an agreement is not reached. Further, it is the intent of the general assembly to include local governments in this process without creating additional liabilities for local governments.

**Source: L. 2001:** Entire article added, p. 486, § 2, effective July 1. **L. 2007:** Entire section amended, p. 2111, § 1, effective August 3.

**24-65.5-102. Definitions - legislative declaration.** As used in this article, unless the context otherwise requires:

(1) "Applicant" means a person who submits an application for development to a local government.

(1.5) "Affiliate" means a person controlling, controlled by, or under common control with another person and any officer, director, shareholder, member, partner, or owner of any such person.

(2) (a) "Application for development" means an initial application for a sketch plan, a preliminary or final plat for a subdivision, a planned unit development, or any other similar land use designation that is used by a local government. "Application for development" includes applications for general development plans and special use permits or any applications for zoning or rezoning to a planned unit development that would change or create lot lines where such applications are in anticipation of new surface development, but does not include amendments to an urban growth boundary, applications for annexation and zoning, applications for zoning or rezoning that will not change or create lot lines, an application for development that is a special use permit for the extraction of construction materials, as that term is defined in section 34-32.5-103, C.R.S., building permit applications, applications for a change of use for an existing structure, applications for boundary adjustments, applications for platting of an additional single lot, applications for lot site plans, or applications with respect to electric lines,

crude oil or natural gas pipelines, steam pipelines, chilled and other water pipelines, or appurtenances to said lines or pipelines.

(b) (I) The general assembly hereby finds that:

(A) Pursuant to section 2-4-202, C.R.S., statutes are presumed to have only prospective effect, and under applicable case law this presumption applies unless the general assembly's contrary intent is clearly expressed; and

(B) House Bill 01-1088, which enacted this article, did not contain an applicability clause and was silent with regard to the issue of whether the requirements of this article apply to applications for development that were pending on July 1, 2001, the effective date of House Bill 01-1088.

(II) The general assembly hereby determines that, notwithstanding the fact that House Bill 01-1088 did not clearly express any intent of the general assembly that the requirements of this article would apply retroactively, there is uncertainty concerning whether such requirements should apply retroactively.

(III) To clarify its intent, the general assembly hereby declares that this article was intended to apply, and should only be applied, to applications for development that were filed on or after July 1, 2001, except as specified in subparagraphs (IV) and (V) of this paragraph (b).

(IV) To further clarify its intent, the general assembly hereby declares that the provisions of section 24-65.5-103 as amended on August 3, 2007, are intended to apply, and should only be applied, to applications for development where the initial public hearing had not been held prior to August 3, 2007, and that nothing in section 24-65.5-103 shall be deemed to supersede or modify the provisions of any surface use agreement or the provisions of any oil and gas or mineral lease entered into prior to August 3, 2007.

(V) To further clarify its intent, the general assembly hereby declares that nothing in this article shall be deemed to affect or establish the application of the doctrine of reasonable accommodation to determine the respective rights and obligations of the surface owner or mineral estate owner except upon lands that are qualifying surface developments burdened by oil and gas operations areas under section 24-65.5-103.5.

**24-65.5-103. Notice requirements.** (1) Not less than thirty days before the date scheduled for the initial public hearing by a local government on an application for development, the applicant shall send notice, by certified mail, return receipt requested, or by a nationally recognized overnight courier, to:

(a) (I) A mineral estate owner who either:

(A) Is identified as a mineral estate owner in the county tax assessor's records, if those records are searchable by parcel number or by section, township, and range numbers or other legally sufficient description; or

(B) Has filed in the office of the county clerk and recorder in which the real property is located a request for notification in the form specified in subsection (3) of this section.

(II) Such notice shall contain the time and place of the initial public hearing, the nature of the hearing, the location and legal description by section, township, and range of the property that is the subject of the hearing, and the name of the applicant.

(b) The local government considering the application for development. Such notice shall contain the name and address of the mineral estate owners to whom notices were sent in accordance with paragraph (a) of this subsection (1).

(1.5) If an applicant files more than one application for development for the same new surface development with a local government, the applicant shall only be required to send notice pursuant to subsection (1) of this section of the initial public hearing scheduled for the first application for development to be considered by the local government. Local governments shall, pursuant to section 24-6-402 (7), provide notice of subsequent hearings to mineral estate owners who register for such notification.

(2) (a) The applicant shall identify the mineral estate owners entitled to notice pursuant to this section by examining the records in the office of the county tax assessor and clerk and recorder of the county in which the real property is located, including the appropriate request for notification pursuant to subsection (3) of this section. Notice shall be sent to the last-known address of the mineral estate owner as shown by such records.

(b) If such records do not identify any mineral estate owners, including their addresses of record, the applicant shall be deemed to have acted in good faith and shall not be subject to further obligations under this article. The applicant shall not be liable for any errors or omissions in such records.

(3) A mineral estate owner who requests or desires to obtain notice under this article or the mineral estate owner's agent may file in the office of the county clerk and recorder of the county in which the real property is located a request for notification form that identifies the mineral estate owner's mineral estate and the corresponding surface estate by parcel number and by section, township, and range numbers or other legally sufficient description. The clerk and recorder shall file request for notification forms in the real estate records for the county and shall also keep an index of request for notification forms by section, township, and range numbers or by subdivision lots and blocks.

(4) Prior to convening an initial public hearing on an application for development, a local government shall require the applicant to certify that notice has been provided to the mineral estate owner pursuant to subsection (1) of this section.

(5) A mineral estate owner may waive the right to notice under this section in writing to the applicant. Failure of a mineral estate owner to be identified in the records described in paragraph (a) of subsection (1) of this section or to file a request for notification under subsection (3) of this section shall not waive the right of such mineral estate owner to file an objection with the local government to such application for development no later than thirty days following the initial public hearing for approval of the application for development or to exercise the remedies set forth in section 24-65.5-104.

(6) Before completing the sale of a mineral estate, a mineral estate owner who has received notice as the owner of the mineral estate of a pending public hearing with respect to an application for development pursuant to this section shall notify the buyer of the mineral estate of the existence of the application for development. A transfer of an interest in a mineral estate by a mineral estate owner following the filing of a request for notification pursuant to subsection (3) of this section shall not modify the address to which the applicant may deliver notice under paragraph (a) of subsection (1) of this section until the transferee of such interest has filed an amendment to the request for notification describing the address to which such notices shall be sent.

**24-65.5-103.3. Local government approval.** (1) A local government shall, as a condition of final approval of an application for development, require the applicant to certify:

(a) That notice has been provided to mineral estate owners pursuant to section 24-65.5-103; and

(b) With respect to qualifying surface developments, that either:

(I) No mineral estate owner has entered an appearance or filed an objection to the proposed application for development within thirty days after the initial public hearing on the application;

(II) The applicant and any mineral estate owners who have filed an objection to the proposed application for development or have otherwise filed an entry of appearance in the initial public hearing regarding such application no later than thirty days following the initial public hearing on the application have executed a surface use agreement related to the property included in the application for development, the provisions of which have been incorporated into the application for development or are evidenced by a memorandum or otherwise recorded in the records of the clerk and recorder of the county in which the property is located so as to provide notice to transferees of the applicant, who shall be bound by such surface use agreements; or

(III) The application for development provides:

(A) Access to mineral operations, surface facilities, flowlines, and pipelines in support of such operations existing when the final public hearing on the application for development is held by means of public roads sufficient to withstand trucks and drilling equipment or thirty-foot-wide access easements;

(B) An oil and gas operations area and existing wellsite locations in accordance with section 24-65.5-103.5; and

(C) That the deposit for incremental drilling costs described in section 24-65.5-103.7 has been made.

(2) A local government approval of an application for development without the certification required by subsection (1) of this section when a mineral owner has timely entered an appearance or filed an objection shall be suspended and shall not constitute a valid final approval until the required certification is provided, any required local government proceedings following notice to affected mineral estate owners are held, and the local government approval is confirmed, amended, or revoked in response to the certification.

**24-65.5-103.5. Oil and gas operations areas.** (1) (a) Within the boundaries of a qualifying surface development, an oil and gas operations area shall meet at least one of the following requirements:

(I) If three or more wells have been or are being drilled in three separate drilling windows in any governmental quarter section, the oil and gas operations area shall provide for a setback not to exceed:

(A) A two-hundred-fifty-foot radius around one of the existing wells located in each of three separate drilling windows;

(B) A two-hundred-foot radius around any other existing wells;

(C) A two-hundred-foot perimeter around tanks; and

(D) An adequate right-of-way or easement for existing and future flowlines and pipelines and a nonexclusive right-of-way for roads reasonably necessary to access the wells and operations located within such areas; or

(II) If two or fewer wells have been or are being drilled in any governmental quarter section, the oil and gas operations area shall provide for:

(A) A six-hundred-foot by six-hundred-foot area, referred to in this paragraph (a) as the six-hundred-foot window, the center of which shall be located no further than two hundred feet from the center of the governmental quarter section. The six-hundred-foot window shall establish a setback from wells and tanks not to exceed two hundred feet from any occupied

structure, one-hundred-fifty feet of such setback to be located inside the boundary of the oil and gas operations area and fifty feet to be located outside the boundary of the oil and gas operations area.

(B) A two-hundred-foot radius around any existing wells located outside of the six-hundred-foot window;

(C) A two-hundred-foot perimeter around tanks; and

(D) An adequate right-of-way or easement for existing and future flowlines and pipelines and roads reasonably necessary to access the wells and operations located within such areas.

(b) The oil and gas operations area configured under subparagraph (I) or (II) of paragraph (a) of this subsection (1) shall be the exclusive area for the location of wells and associated surface production facilities, including tanks. The approved plat may provide that the outer fifty feet of any setback of two hundred feet or more may be used by the surface owner for underground utilities, sidewalks, trails, and parking and may be landscaped with grasses or shallow-root landscaping and irrigated by sprinklers, all at the cost of the surface owner and without any liability to the mineral estate owner in the event of any damage to such improvements from the resumption or continuation of oil and gas operations. The surface owner shall cooperate with the operator to ensure that any sidewalks, trails, or parking areas within the outer fifty feet of any setback are restricted from public access during active oil and gas operations requiring use of the area by heavy equipment.

(2) A surface owner may not encroach on an oil and gas operations area or interfere with the mineral estate owner's use of an oil and gas operations area or any associated rights of way or easements designated in a plat or other application for development approved for recordation except as specified in this section.

(3) In addition to the criteria specified in subsection (1) of this section, the area included within an oil and gas operations area may be modified or moved as reasonably necessary to take into account legal, topographical, or existing surface development restrictions if such modification or movement does not adversely affect oil and gas operations, but an oil and gas operations area may not be reduced or increased in area.

(4) If the development plan contained in an approved application for development containing an approved oil and gas operations area is vacated, a mineral estate owner owning a mineral estate within the boundaries of such development shall thereafter be free to conduct operations within such boundaries in accordance with article 60 of title 34, C.R.S., and the commission's rules then or thereafter existing and subject to the provisions of any applicable surface use agreement.

(5) Nothing in this section impairs or overrides the authority of the commission to establish, amend, or otherwise regulate with respect to the establishment, modification, or elimination of drilling windows or any other matter within the commission's jurisdiction.

**24-65.5-103.7. Deposit for incremental drilling costs.** (1) The deposit for incremental drilling costs required under section 24-65.5-103.3 (1)(b)(III)(C) shall be an amount for each well in an approved oil and gas operations area that is required to be drilled directionally in order

to access a bottom-hole location in one of the five drilling windows permitted by the commission under its greater Wattenberg rule, 2 CCR 404-1, rule 318A, as in effect on August 3, 2007, excluding directional wells required by the commission's greater Wattenberg rule, 2 CCR 404-1, rule 318A (e), as such rule was in effect on December 31, 2006, to be drilled at the operator's expense, up to a total of four wells per governmental quarter section, and shall be determined in accordance with the following criteria:

(a) The amount deposited by the applicant for incremental drilling costs shall be eighty-seven thousand five hundred dollars per well, which amount shall be increased or decreased on July 1 of each year in accordance with corresponding percentage increases or decreases in the Denver-Aurora-Lakewood consumer price index, or its applicable predecessor or successor index, published by the United States department of labor, bureau of labor statistics.

(b) As a condition of obtaining approval to record the final plat, the applicant shall provide confirmation to the local government that the applicant has deposited into an escrow account maintained at a commercial financial institution approved by the commission the amount determined under paragraph (a) of this subsection (1) to defray incremental drilling costs to be incurred by mineral estate owners for drilling wells to prospective formations accessible from the oil and gas operations area that could otherwise have been vertically drilled within drilling windows established by the commission that are not included in such oil and gas operations area. As an alternative to such deposit, the applicant may post a letter of credit or other security for such costs in such manner as the commission shall determine to be adequate. An applicant's failure to make such deposit shall not otherwise rescind, curtail, abrogate, or restrict any final approval of an application for development. If a directional well is commenced within the oil and gas operations area after final plat approval by the local government and before recordation of the final plat, the operator shall give written notice to the applicant of such commencement and the applicant shall be required to make the escrow deposit required under this section within ten days after the commencement for each well that is so commenced.

(c) At the end of three years after recording the plat, subject to extension for a period of up to one year during the pendency of any federal, state, or local drilling permit filed within such three-year period, any funds in escrow or posted as security for which a claim has not been made by a mineral estate owner shall be released or returned to the applicant or its designated successor.

(d) A mineral estate owner that begins to drill a well pursuant to a drilling permit approved no later than three years after final plat approval, as such period may be extended as provided in paragraph (c) of this subsection (1), is entitled to draw on the incremental drilling cost account the amount of its actual incremental drilling costs up to eighty-seven thousand five hundred dollars per directional well, as such amount may be adjusted pursuant to paragraph (a) of this subsection (1) and by allocation of earned interest, by presenting to the commission confirmation that the well has been drilled directionally and confirmation regarding the amount of incremental drilling costs it has incurred with respect to such well. Incremental drilling costs eligible for reimbursement shall not include a mark-up for overhead, administrative, or managerial costs in excess of the actual costs directly incurred as the result of directional drilling of wells within oil and gas operations areas. No mineral estate owner is entitled to recover more than the amount of incremental drilling costs initially deposited in the escrow account, plus its proportionate share of accrued interest, divided by the number of wells for which the deposit was initially made. Upon the commission's approval of such information, the commission shall issue

a directive to the escrow account holder or security holder to release the designated incremental drilling costs for such well to such mineral estate owner.

(e) Exhaustion of the incremental drilling funds in an escrow account or termination of the account shall not modify the availability of designated oil and gas operations areas for further drilling and other oil and gas operations or the protection afforded well sites, tanks, access roads, flowlines, and pipelines pursuant to section 24-65.5-103.5. The commission shall resolve disputes between the applicant and a mineral estate owner regarding the amount of incremental drilling costs to be deposited in escrow or the amount of such costs for which reimbursement is sought.

**24-65.5-104. Enforcement - remedies.** (1) (a) If an applicant certifies to the local government that such applicant has complied with the notice requirements of section 24-65.5-103 and that no mineral estate owner has entered an appearance or filed an objection as provided in this article to the applicant and to the local government, after the final approval of the application for development, no development or related activities contemplated by such application, no permit or other approval by such local government, and no permit or other approval by any other local government or agency that approves or permits such development or related activities or any aspect thereof shall, except as provided in subparagraphs (I) and (II) of this paragraph (a), be rescinded, curtailed, abrogated, or otherwise restricted in connection with any purported noncompliance with the notice requirements of section 24-65.5-103 that may be alleged by any party. If the applicant complies with the publication and posting notice requirements of the local government reviewing its application for development, and if an applicant certifies that it has provided the required notice as provided in section 24-65.5-103 in a timely manner, mineral estate owners shall be deemed to have constructively received notice of the application for development. In such event, if the applicant otherwise complies with this article, the applicant shall not have any liability to a mineral estate owner for any legal or equitable remedy or relief arising from, in connection with, or otherwise relating to the application for development, any development activities commenced on the surface of the real property, any inability or impediment or other hindrance to drilling operations or other development of the mineral estate or any portion thereof, or any actual failure to receive any notice required by section 24-65.5-103 or 31-23-215, C.R.S., unless:

(I) The applicant knowingly and willfully provides a false certification with respect to the provision of notice, the existence of a surface use agreement, the designation of oil and gas operations areas, or the establishment of an escrow account as required by this article, in which case any local government approval of the application for development is null and void and all aggrieved parties shall have all legal and equitable remedies available to them;

(II) The certification by the applicant with respect to the provision of notice is incorrect due to the negligence of the applicant or its agent in identifying the mineral estate owners entitled to actual notice under this article, in which case a mineral owner entitled to actual notice that was not sent such notice in the manner required by section 24-65.5-103 is entitled to file an objection to the application for development at any time prior to the final approval of the

application for development and to seek compensatory damages only thereafter, in accordance with paragraph (b) of this subsection (1); or

(III) A mineral estate owner, who received constructive notice only and did not enter an appearance or file an objection with the applicant and the local government within thirty days after the initial public hearing on the application for development, files suit for compensatory damages within one year after the posting of the property with a sign indicating that the application for development has received final approval by the local government.

(b) With respect to actions brought under subparagraph (II) or (III) of paragraph (a) of this subsection (1), a mineral estate owner may not recover special, punitive, or other extraordinary damages and is not entitled to equitable remedy or relief. The prevailing party in such action is entitled to an award of reasonable attorney fees.

(2) A mineral estate owner entitled to notice pursuant to section 24-65.5-103 has standing to enforce the requirements of that section, and, except as provided in this subsection (2) with respect to qualifying surface developments, has standing to make claims as may be available at law or equity for noncompliance. With respect to qualifying surface developments:

(a) A mineral estate owner has standing to move for the vacation of the final plat covering an area in which the mineral estate owner owns a mineral estate after depletion of the incremental drilling funds in an escrow account posted under section 24-65.5-103.7 in connection with the recording of such plat only to the extent of areas encompassed within commission-approved drilling windows, and upon the granting of such vacation by the local government has the right to conduct oil and gas drilling and production operations within such commission-approved drilling windows, if such mineral estate owner establishes to the satisfaction of the local government that there is no reasonable likelihood that the surface development approved in such plat will occur and if all other local government requirements for vacating the plat are met.

(b) If a mineral estate owner believes that the oil and gas operations area designated by the applicant for land in which such mineral estate owner owns a mineral estate does not satisfy the criteria specified in section 24-65.5-103.5, such person may register an objection with the local government within thirty days after the public hearing at which the oil and gas operations area is designated, and may appeal the designation to the district court having jurisdiction of the land covered by such application within thirty days after the decision of the local government with respect to such objection.

"Provisions of the plan" means the written and graphic materials referred to in this definition.

(3) "Planned unit development" means an area of land, controlled by one or more landowners, to be developed under unified control or unified plan of development for a number of dwelling units, commercial, educational, recreational, or industrial uses, or any combination of the foregoing, the plan for which does not correspond in lot size, bulk, or type of use, density, lot coverage, open space, or other restriction to the existing land use regulations.

**Source: L. 72:** p. 509, § 1. **C.R.S. 1963:** § 106-6-3.

**24-67-104. Implementation of article.** (1) Any county with respect to territory within the unincorporated portion of the county or any municipality with respect to territory within its corporate limits may authorize planned unit developments by enacting a resolution or ordinance which:

(a) Refers to this article;

(b) Includes a statement of objectives of development;

(c) Designates the board, which may be a commission, board, or the governing body of the county or municipality, authorized to review planned unit development applications as set forth in this article;

(d) Sets forth standards of development consistent with the provisions of section 24-67-105;

(e) Sets forth the procedures pertaining to the application for, hearing on, and tentative and final approval of a planned unit development which shall afford procedural due process to interested parties. The resolution or ordinance shall establish maximum time periods within which any application shall be reviewed and approved, disapproved, or conditionally approved. At least one public hearing shall be held by the board designated pursuant to paragraph (c) of this subsection (1) prior to approval, disapproval, or conditional approval of a planned unit development. Public notice of the public hearing shall be given in the manner prescribed by section 30-28-116 or 31-23-304, C.R.S., whichever is applicable, for the amendment of zoning

resolutions and ordinances. Written notice of the public hearing shall be delivered or mailed, first-class postage prepaid, at least fifteen days prior to the public hearing to adjoining landowners.

(f) Requires a finding by the county or municipality that such plan is in general conformity with any master plan or comprehensive plan for the county or municipality.

**24-67-105. Standards and conditions for planned unit development.** (1) Every resolution or ordinance adopted pursuant to the provisions of this article shall set forth the standards and conditions by which a proposed planned unit development shall be evaluated, which shall be consistent with the provisions of this section. No planned unit development may be approved by a county or municipality without the written consent of the landowner whose properties are included within the planned unit development.

(2) Such resolution or ordinance shall set forth the uses permitted in a planned unit development and the minimum number of units or acres which may constitute a planned unit development.

(3) Such resolution or ordinance may establish the sequence of development among the various types of uses.

(4) Such resolution or ordinance shall establish standards governing the density or intensity of land use, or methods for determining such density or intensity, in a planned unit development.

(5) Such resolution or ordinance shall specify information which shall be submitted with the planned unit development application to ensure full evaluation of the application, and the board designated pursuant to section 24-67-104 (1)(c) may require such additional relevant information as it may deem necessary.

(6) (a) Such resolution or ordinance may provide standards for inclusion of common open space.

(b) The ordinance or resolution may require that the landowner provide for and establish an organization for the ownership and maintenance of any common open space or that other adequate arrangements for the ownership and maintenance thereof be made.

(c) In the event that the organization established to own and maintain common open space, or any successor organization, fails at any time after establishment of the planned unit development to maintain the common open space in reasonable order and condition in accordance with the plan, the county or municipality may serve written notice upon such organization or upon the residents of the planned unit development setting forth the manner in which the organization has failed to maintain the common open space in reasonable condition, and said notice shall include a demand that such deficiencies of maintenance be cured within thirty days thereof and shall state the date and place of a hearing thereon which shall be held within fourteen days of the notice. At such hearing the county or municipality may modify the

terms of the original notice as to deficiencies and may give an extension of time within which they shall be cured. If the deficiencies set forth in the original notice or in the modifications thereof are not cured within said thirty days or any extension thereof, the county or municipality, in order to preserve the taxable values of the properties within the planned unit development and to prevent the common open space from becoming a public nuisance, may enter upon said common open space and maintain the same for a period of one year. Said entry and maintenance shall not vest in the public any right to use the common open space except when the same is voluntarily dedicated to the public by the owners. Before the expiration of said year, the county or municipality shall, upon its initiative or upon the written request of the organization theretofore responsible for the maintenance of the common open space, call a public hearing upon notice to such organization or to the residents of the planned unit development to be held by the board designated by the county or municipality, at which hearing such organization or the residents of the planned unit development shall show cause why such maintenance by the county or municipality shall not, at the election of the county or municipality, continue for a succeeding year. If the board designated by the county or municipality determines that such organization is ready and able to maintain said common open space in reasonable condition, the county or municipality shall cease to maintain said common open space at the end of said year. If the board designated by the county or municipality determines that such organization is not ready and able to maintain said common open space in a reasonable condition, the county or municipality may, in its discretion, continue to maintain said common open space during the next succeeding year and, subject to a similar hearing and determination, in each year thereafter.

(d) The cost of such maintenance by the county or municipality shall be paid by the owners of properties within the planned unit development that have a right of enjoyment of the common open space, and any unpaid assessments shall become a tax lien on said properties. The county or municipality shall file a notice of such lien in the office of the county clerk and recorder upon the properties affected by such lien within the planned unit development and shall certify such unpaid assessments to the board of county commissioners and county treasurer for collection, enforcement, and remittance in the manner provided by law for the collection, enforcement, and remittance of general property taxes.

(7) Design, construction, and other requirements applicable to a planned unit development may be different from or modifications of the requirements otherwise applicable by reason of any zoning or subdivision regulation, resolution, or ordinance of the county or municipality as long as such requirements substantially comply with the subdivision provisions of part 1 of article 28 of title 30 or part 2 of article 23 of title 31, C.R.S., whichever is applicable, and appropriate regulations promulgated thereunder. Subdivision regulations applicable to planned unit developments may differ from those otherwise applicable.

**24-67-105.5. Review of planned unit development.** (1) The county planning commission or governing body may request redesign of all or any portion of a planned unit development submitted for approval, but any such request shall include specific, objective criteria. If the applicant redesigns the planned unit development in accordance with the request,

no further redesign shall be required unless necessary to comply with a duly adopted county resolution, ordinance, or regulation.

(2) Nothing in this section shall be construed to preclude a county from taking any action permitted by law based on the consideration of the rights and privileges of the owners of subsurface mineral interests and their lessees pursuant to section 30-28-133 (10), C.R.S.

(3) Any required public hearing on any planned unit development shall be conducted expeditiously and concluded when all those present and wishing to testify have done so. No public hearing shall continue for more than forty days from the date of commencement without the written consent of the applicant. Any continuation of a public hearing shall be to a date certain.

(4) Unless withdrawn by the applicant, any planned unit development that has been neither approved, conditionally approved, nor denied within a time certain mutually agreed to by the county and the applicant at the time of filing shall be deemed approved. Such time period may be extended by the county to receive a recommendation from an agency to which a planned unit development was referred, but such extension shall not exceed thirty days unless the agency has notified the county that it will require additional time to complete its recommendation.

(5) Any requirement set forth in this section may be waived in writing by the applicant.

**Source: L. 96:** Entire section added, p. 1838, § 2, effective June 5.

**24-67-106. Enforcement and modification of provisions of the plan.** (1) To further the mutual interest of the residents, occupants, and owners of a planned unit development and of the public in the preservation of the integrity of the plan, the provisions of the plan relating to the use of land and the location of common open space shall run in favor of the county or municipality and shall be enforceable at law or in equity by the county or municipality without limitation on any power or regulation otherwise granted by law.

(2) All provisions of the plan shall run in favor of the residents, occupants, and owners of the planned unit development, but only to the extent expressly provided in the plan and in accordance with the terms of the plan, and, to that extent, said provisions, whether recorded by plat, covenant, easement, or otherwise, may be enforced at law or in equity by residents, occupants, or owners acting individually, jointly, or through an organization designated in the plan to act on their behalf. However, no provisions of the plan shall be implied to exist in favor of residents, occupants, and owners except as to those portions of the plan which have been finally approved.

(3) All those provisions of the plan authorized to be enforced by the county or municipality may be modified, removed, or released by the county or municipality, subject to the following:

(a) No modification, removal, or release of the provisions of the plan by the county or municipality shall affect the rights of the residents, occupants, and owners of the planned unit development to maintain and enforce those provisions at law or in equity as provided in subsection (1) of this section.

(b) Except as otherwise provided in paragraph (b.5) of this subsection (3), no substantial modification, removal, or release of the provisions of the plan by the county or municipality shall be permitted except upon a finding by the county or municipality, following a public hearing called and held in accordance with the provisions of section 24-67-104 (1)(e) that the

modification, removal, or release is consistent with the efficient development and preservation of the entire planned unit development, does not affect in a substantially adverse manner either the enjoyment of land abutting upon or across a street from the planned unit development or the public interest, and is not granted solely to confer a special benefit upon any person.

(b.5) (I) Subject to the requirements of subparagraph (II) of this paragraph (b.5), in the case of any land located within a planned unit development that has been set aside for a governmental use or purpose as specified in the plan, the plan agreement, or related documents, a governmental entity that holds legal title to the land may, with the approval of the county or municipality in which the land is located, as applicable, and following a public hearing called for and held in accordance with the provisions of section 24-67-104 (1)(e), do any of the following, singularly or in combination:

(A) Subdivide all or any portion of the land;

(B) Remove or release all or any portion of the land from any limitations on its use or purpose by the governmental entity as specified in the plan, the plan agreement, or related documents; or

(C) Sell or otherwise dispose of all or any portion of the land.

(II) Any action authorized in accordance with the requirements of subparagraph (I) of this paragraph (b.5) shall only be undertaken upon a finding by the county or municipality, as applicable, following the public hearing required pursuant to subparagraph (I) of this paragraph (b.5) that all or any portion of the land is not reasonably expected to be necessary for a governmental use or purpose or that the governmental use or purpose will be furthered by disposal of the land. Notwithstanding any other provision of this paragraph (b.5), where action has been undertaken in accordance with the requirements of this paragraph (b.5), the future use of all or any portion of the land shall in all other respects be consistent with the efficient development and preservation of the entire planned unit development and with the plan.

(c) Residents and owners of the planned unit development may, to the extent and in the manner expressly authorized by the provisions of the plan, modify, remove, or release their rights to enforce the provisions of the plan, but no such action shall affect the right of the county or municipality to enforce the provisions of the plan.

**Editor's note:** Section 2 of chapter 200, Session Laws of Colorado 2005, provides that the act amending subsection (3)(b) and enacting subsection (3)(b.5) applies to any planned unit development approved prior to, on, or after June 1, 2005.

**24-67-107. Application and construction of article.** (1) The provisions of this article shall apply to home rule municipalities unless superseded by charter or ordinance enactment.

(2) Any county or municipality which has enacted, prior to May 21, 1972, a resolution or ordinance providing for planned unit developments may continue to follow the provisions established therein, and any amendments thereto in lieu of electing to follow the provisions of this article.

(3) Nothing in this article shall be construed to impair, affect, or invalidate any rights vested in connection with planned unit developments for which applications were filed prior to May 21, 1972.

(4) Nothing in this article shall be construed to waive the requirements for substantial compliance by counties and municipalities with the subdivision requirements of part 1 of article 28 of title 30 and part 2 of article 23 of title 31, C.R.S., respectively, and appropriate regulations promulgated thereunder. Counties and municipalities, including home rule cities, shall comply with the requirements of article 65.5 of this title. Subdivision regulations applicable to planned unit developments may differ from those otherwise applicable. In order to facilitate processing of applications, however, a county or municipality, pursuant to resolution or ordinance, may provide for concurrent or simultaneous processing of planned unit development and subdivision applications.

(5) No county or municipality shall adopt pursuant to this article any resolution or ordinance which limits development exclusively to planned unit development districts.

(6) This article shall be liberally construed in furtherance of the purposes of this article and to the end that counties and municipalities shall be encouraged to utilize planned unit developments. Enactment of this article by the general assembly is declared to be for the purpose of supplementing the provisions of part 1 of article 28 of title 30 and article 23 of title 31, C.R.S., as the same relate to and authorize planned unit developments.

## ARTICLE 68

### Vested Property Rights

**Law reviews:** For article, "Vested Property Rights in Colorado: The Legislature Rushes in Where . . . .", see 66 Den. U.L. Rev. 31 (1988); for article, "Colorado Establishes a Statutory Vested Property Rights Scheme", see 17 Colo. Law. 263 (1988); for article, "Changes to Colorado's Vested Property Rights Law", see 28 Colo. Law. 83 (July 1999).

**24-68-101. Legislative declaration.** (1) The general assembly hereby finds and declares that:

(a) It is necessary and desirable, as a matter of public policy, to provide for the establishment of vested property rights in order to ensure reasonable certainty, stability, and fairness in the land use planning process and in order to stimulate economic growth, secure the reasonable investment-backed expectations of landowners, and foster cooperation between the public and private sectors in the area of land use planning.

(b) The ability of a landowner to obtain a vested property right after local governmental approval of a site specific development plan will preserve the prerogatives and authority of local government with respect to land use matters, while promoting those areas of statewide concern described in paragraph (a) of this subsection (1).

(c) The establishment of vested property rights will promote the goals specified in this subsection (1) in a manner consistent with section 3 of article II of the state constitution, which guarantees to each person the inalienable right to acquire, possess, and protect property, and is therefore declared to be a matter of statewide concern.

**Source: L. 87:** Entire article added, p. 1837, § 1, effective January 1, 1988.

**24-68-102. Definitions.** As used in this article, unless the context otherwise requires:

(1) "Application" means a substantially complete application for approval of a site specific development plan that has been submitted to a local government in compliance with applicable requirements established by the local government. For local governments that have provided for the review and approval of site specific development plans in multiple stages, "application" means the original application at the first stage in any process that may culminate in the ultimate approval of a site specific development plan.

(1.5) "Landowner" means any owner of a legal or equitable interest in real property, and includes the heirs, successors, and assigns of such ownership interests.

(2) "Local government" means any county, city and county, city, or town, whether statutory or home rule, acting through its governing body or any board, commission, or agency thereof having final approval authority over a site specific development plan, including without limitation any legally empowered urban renewal authority.

(3) "Property" means all real property subject to land use regulation by a local government.

(4) (a) "Site specific development plan" means a plan that has been submitted to a local government by a landowner or such landowner's representative describing with reasonable certainty the type and intensity of use for a specific parcel or parcels of property. Such plan may be in the form of, but need not be limited to, any of the following plans or approvals: A planned unit development plan, a subdivision plat, a specially planned area, a planned building group, a general submission plan, a preliminary or general development plan, a conditional or special use plan, a development agreement, or any other land use approval designation as may be utilized by a local government. What constitutes a site specific development plan under this article that would trigger a vested property right shall be finally determined by the local government either pursuant to ordinance or regulation or upon an agreement entered into by the local government and the landowner, and the document that triggers such vesting shall be so identified at the time of its approval.

(b) "Site specific development plan" shall not include a variance, a preliminary plan as defined in section 30-28-101 (6), C.R.S., or any of the following:

(I) A sketch plan as defined in section 30-28-101 (8), C.R.S.;

(II) A final architectural plan;

(III) Public utility filings; or

(IV) Final construction drawings and related documents specifying materials and methods for construction of improvements.

(5) "Vested property right" means the right to undertake and complete the development and use of property under the terms and conditions of a site specific development plan.

**24-68-102.5. Applications - approval by local government.** (1) Except as otherwise provided in subsection (2) of this section, an application for approval of a site specific development plan as well as the approval, conditional approval, or denial of approval of the plan shall be governed only by the duly adopted laws and regulations in effect at the time the application is submitted to a local government. For purposes of this section, "laws and regulations" includes any zoning law of general applicability adopted by a local government as well as any zoning or development regulations that have previously been adopted for the particular parcel described in the plan and that remain in effect at the time of the application for approval of the plan.

(2) Notwithstanding the limitations contained in subsection (1) of this section, a local government may adopt a new or amended law or regulation when necessary for the immediate preservation of public health and safety and may enforce such law or regulation in relation to applications pending at the time such law or regulation is adopted.

**Source: L. 99:** Entire section added, p. 861, § 2, effective May 24.

**24-68-103. Vested property right - establishment - waiver.** (1) (a) Each local government shall specifically identify, by ordinance or resolution, the type or types of site specific development plan approvals within the local government's jurisdiction that will cause property rights to vest as provided in this article. Any such ordinance or resolution shall be consistent with the provisions of this article. Effective January 1, 2000, if a local government has not adopted an ordinance or resolution pursuant to section 24-68-102 (4) specifying what constitutes a site specific development plan that would trigger a vested property right, then rights shall vest upon the approval of any plan, plat, drawing, or sketch, however denominated, that is substantially similar to any plan, plat, drawing, or sketch listed in section 24-68-102 (4).

(b) A vested property right shall be deemed established with respect to any property upon the approval, or conditional approval, of a site specific development plan, following notice and public hearing, by the local government in which the property is situated.

(c) A vested property right shall attach to and run with the applicable property and shall confer upon the landowner the right to undertake and complete the development and use of said property under the terms and conditions of the site specific development plan including any amendments thereto. A local government may approve a site specific development plan upon such terms and conditions as may reasonably be necessary to protect the public health, safety, and welfare. Such conditional approval shall result in a vested property right, although failure to abide by such terms and conditions will result in a forfeiture of vested property rights. A site specific development plan shall be deemed approved upon the effective date of the local government legal action, resolution, or ordinance relating thereto. Such approval shall be subject to all rights of referendum and judicial review; except that the period of time permitted by law for the exercise of such rights shall not begin to run until the date of publication, in a newspaper

of general circulation within the jurisdiction of the local government granting the approval, of a notice advising the general public of the site specific development plan approval and creation of a vested property right pursuant to this article. Such publication shall occur no later than fourteen days following approval.

(2) Zoning that is not part of a site specific development plan shall not result in the creation of vested property rights.

**Source: L. 87:** Entire article added, p. 1838, § 1, effective January 1, 1988. **L. 99:** (1) amended, p. 861, § 3, effective May 24.

**24-68-104. Vested property right - duration - termination.** (1) A property right which has been vested as provided for in this article shall remain vested for a period of three years. This vesting period shall not be extended by any amendments to a site specific development plan unless expressly authorized by the local government.

(2) Notwithstanding the provisions of subsection (1) of this section, local governments are hereby authorized to enter into development agreements with landowners providing that property rights shall be vested for a period exceeding three years where warranted in light of all relevant circumstances, including, but not limited to, the size and phasing of the development, economic cycles, and market conditions. Such development agreements shall be adopted as legislative acts subject to referendum.

(3) Following approval or conditional approval of a site specific development plan, nothing in this article shall exempt such a plan from subsequent reviews and approvals by the local government to ensure compliance with the terms and conditions of the original approval, if such reviews and approvals are not inconsistent with said original approval.

**Source: L. 87:** Entire article added, p. 1839, § 1, effective January 1, 1988.

**24-68-105. Subsequent regulation prohibited - exceptions.** (1) A vested property right, once established as provided in this article, precludes any zoning or land use action by a local government or pursuant to an initiated measure which would alter, impair, prevent, diminish, impose a moratorium on development, or otherwise delay the development or use of the property as set forth in a site specific development plan, except:

(a) With the consent of the affected landowner;

(b) Upon the discovery of natural or man-made hazards on or in the immediate vicinity of the subject property, which hazards could not reasonably have been discovered at the time of site specific development plan approval, and which hazards, if uncorrected, would pose a serious threat to the public health, safety, and welfare; or

(c) To the extent that the affected landowner receives just compensation for all costs, expenses, and liabilities incurred by the landowner after approval by the governmental entity, including, but not limited to, costs incurred in preparing the site for development consistent with the site specific development plan, all fees paid in consideration of financing, and all architectural, planning, marketing, legal, and other consultants' fees, together with interest thereon at the legal rate until paid. Just compensation shall not include any diminution in the value of the property which is caused by such action.

(2) The establishment of a vested property right shall not preclude the application of ordinances or regulations which are general in nature and are applicable to all property subject to land use regulation by a local government, including, but not limited to, building, fire, plumbing, electrical, and mechanical codes.

**Source: L. 87:** Entire article added, p. 1839, § 1, effective January 1, 1988. **L. 95:** IP(1) and (1)(c) amended, p. 1153, § 1, effective May 31.

**24-68-106. Miscellaneous provisions.** (1) As used in this article, the term "development" includes redevelopment.

(2) A vested property right arising while one local government has jurisdiction over all or part of the property included within a site specific development plan shall be effective against any other local government which may subsequently obtain or assert jurisdiction over such property.

(3) Nothing in this article shall preclude judicial determination, based on common law principles, that a vested property right exists in a particular case or that a compensable taking has occurred.

(4) This article shall apply only to site specific development plans approved on or after January 1, 1988.

**24-70-103. Requisites of legal newspaper.** (1) Any and every legal notice or advertisement shall be published only in a daily, a triweekly, a semiweekly, or a weekly newspaper of general circulation and printed or published in whole or in part in the county in which such notice or advertisement is required to be published, except as provided in this section. The newspaper, if published triweekly, semiweekly, or weekly, shall have been so published in such county, except as provided in this section, continuously and uninterruptedly during the period of at least fifty-two consecutive weeks next prior to the first issue thereof containing any such notice or advertisement; and the newspaper, if published daily, shall have been so published in such county, uninterruptedly and continuously, during the period of at least six months next prior to the first issue thereof containing any such notice or advertisement. In the case of a municipality having territory in two counties, each of which counties has one or more legal newspapers within the municipality, the publication by such municipality of its legal notices and advertisements in one of such newspapers shall be construed as valid publication under this part 1.

(2) The mere change in the name of any newspaper or the removal of the principal business office or seat of publication of any newspaper from one place to another in the same

If there is no newspaper in any adjoining county that has been published for the prescribed period at the time when any such notice or advertisement is required to be published, a required notice or advertisement may be published in a newspaper having general circulation within the county.

(4) Notwithstanding any other provision of this part 1, if no newspaper is published within the territorial boundaries of a municipality that satisfies the requirements for a legal publication as specified in section 24-70-102, but a newspaper that provides local news and that would satisfy the requirements to be admitted to the United States mails with periodicals mailing privileges but for the absence of paid circulation is distributed within such territorial boundaries, the municipality may publish any legal notice or advertisement required by law in such newspaper.

Competency of newspapers - publication periods construed.** (1) Except as otherwise provided by law in express terms or by necessary implication, daily, weekly, semiweekly, and triweekly newspapers shall all be equally competent as the media for the publication of all legal notices and advertisements. Except where the publication of any such legal notice or advertisement at intervals of less than one week is required by law, publication once each week on the same weekday in any such daily, weekly, semiweekly, or triweekly newspaper for the required number of times shall constitute publication in accordance with the law.

(2) For the purpose of defining and clarifying ambiguities in the various statutes requiring the publication of legal notices and advertisements, but not for the purpose of increasing any period of publication or the number of publications required by any statute, the meaning and intent of any law governing the publication of legal notices and advertisements, except as otherwise expressly provided, is declared to be as follows, where publication is required for:

(a) Ten days, publication once each week for three successive weeks in any daily, weekly, semiweekly, or triweekly newspaper shall be sufficient;

(b) Two weeks, publication once each week for three successive weeks in any daily, weekly, semiweekly, or triweekly newspaper shall be sufficient;

(c) Three weeks, publication once each week for four successive weeks in any daily, weekly, semiweekly, or triweekly newspaper shall be sufficient;

**24-71.3-107. Legal recognition of electronic records, electronic signatures, and electronic contracts.** (1) A record or signature may not be denied legal effect or enforceability solely because it is in electronic form.

(2) A contract may not be denied legal effect or enforceability solely because an electronic record was used in its formation.

(3) If a law requires a record to be in writing, an electronic record satisfies the law.

**24-71.3-108. Provision of information in writing - presentation of records.** (1) If parties have agreed to conduct a transaction by electronic means and a law requires a person to provide, send, or deliver information in writing to another person, the requirement is satisfied if

the information is provided, sent, or delivered, as the case may be, in an electronic record capable of retention by the recipient at the time of receipt. An electronic record is not capable of retention by the recipient if the sender or its information processing system inhibits the ability of the recipient to print or store the electronic record.

(2) If a law other than this article requires a record to be posted or displayed in a certain manner, to be sent, communicated, or transmitted by a specified method, or to contain information that is formatted in a certain manner, the following rules apply:

(a) The record must be posted or displayed in the manner specified in the other law.

(b) Except as otherwise provided in paragraph (b) of subsection (4) of this section, the record must be sent, communicated, or transmitted by the method specified in the other law.

(c) The record must contain the information formatted in the manner specified in the other law.

(3) If a sender inhibits the ability of a recipient to store or print an electronic record, the electronic record is not enforceable against the recipient.

(4) The requirements of this section may not be varied by agreement, but:

(a) To the extent a law other than this article requires information to be provided, sent, or delivered in writing but permits that requirement to be varied by agreement, the requirement under subsection (1) of this section that the information be in the form of an electronic record capable of retention may also be varied by agreement; and

(b) A requirement under a law other than this article to send, communicate, or transmit a record by first-class mail, postage prepaid, or regular United States mail may be varied by agreement to the extent permitted by the other law.

**24-71.3-109. Attribution and effect of electronic record and electronic signature.** (1)

An electronic record or electronic signature is attributable to a person if it was the act of the person. (2) The effect of an electronic record or electronic signature attributed to a person under subsection (1) of this section is determined from the context and surrounding circumstances at the time of its creation, execution, or adoption, including the parties' agreement, if any, and otherwise as provided by law.

**Source: L. 2002:** Entire article added, p. 850, § 1, effective May 30.

**24-71.3-110. Effect of change or error.** (1) If a change or error in an electronic record occurs in a transmission between parties to a transaction, the following rules apply:

(a) If the parties have agreed to use a security procedure to detect changes or errors and one party has conformed to the procedure, but the other party has not, and the nonconforming party would have detected the change or error had that party also conformed, the conforming party may avoid the effect of the changed or erroneous electronic record.

(b) In an automated transaction involving an individual, the individual may avoid the effect of an electronic record that resulted from an error made by the individual in dealing with

the electronic agent of another person if the electronic agent did not provide an opportunity for the prevention or correction of the error and, at the time the individual learns of the error, the individual:

(I) Promptly notifies the other person of the error and that the individual did not intend to be bound by the electronic record received by the other person;

(II) Takes reasonable steps, including steps that conform to the other person's reasonable instructions, to return to the other person or, if instructed by the other person, to destroy the consideration received, if any, as a result of the erroneous electronic record; and

(III) Has not used or received any benefit or value from the consideration, if any, received from the other person.

(c) If neither paragraph (a) nor paragraph (b) of this subsection (1) applies, the change or error has the effect provided by other law, including the law of mistake, and the parties' contract, if any.

(d) Paragraphs (b) and (c) of this subsection (1) may not be varied by agreement.

**24-71.3-111. Notarization and acknowledgment.** If a law requires a signature or record to be notarized, acknowledged, verified, or made under oath, the requirement is satisfied if the electronic signature of the person authorized to perform those acts, together with all other information required to be included by other applicable law, is attached to or logically associated with the signature or record.

**Source: L. 2002:** Entire article added, p. 851, § 1, effective May 30.

**24-71.3-112. Retention of electronic records - originals.** (1) If a law requires that a record be retained, the requirement is satisfied by retaining an electronic record of the information in the record that:

(a) Accurately reflects the information set forth in the record after it was first generated in its final form as an electronic record or otherwise; and

(b) Remains accessible for later reference.

(2) A requirement to retain a record in accordance with subsection (1) of this section does not apply to any information the sole purpose of which is to enable the record to be sent, communicated, or received.

(3) A person may satisfy subsection (1) of this section by using the services of another person if the requirements of said subsection (1) are satisfied.

(4) If a law requires a record to be presented or retained in its original form, or provides consequences if the record is not presented or retained in its original form, that law is satisfied by an electronic record retained in accordance with subsection (1) of this section.

(5) If a law requires retention of a check, that requirement is satisfied by retention of an electronic record of the information on the front and back of the check in accordance with subsection (1) of this section.

(6) A record retained as an electronic record in accordance with subsection (1) of this section satisfies a law requiring a person to retain a record for evidentiary, audit, or like purposes

unless a law enacted after May 30, 2002, specifically prohibits the use of an electronic record for the specified purpose.

(7) This section does not preclude a governmental agency of this state from specifying additional requirements for the retention of a record subject to the agency's jurisdiction.

**24-71.3-113. Admissibility in evidence.** In a proceeding, evidence of a record or signature may not be excluded solely because it is in electronic form.

**Source: L. 2002:** Entire article added, p. 852, § 1, effective May 30.

**24-71.3-114. Automated transaction.** (1) In an automated transaction, the following rules apply:

(a) A contract may be formed by the interaction of electronic agents of the parties, even if no individual was aware of or reviewed the electronic agents' actions or the resulting terms and agreements.

(b) A contract may be formed by the interaction of an electronic agent and an individual, acting on the individual's own behalf or for another person, including by an interaction in which the individual performs actions that the individual is free to refuse to perform and that the individual knows or has reason to know will cause the electronic agent to complete the transaction or performance.

(c) The terms of the contract are determined by the substantive law applicable to it.

**Source: L. 2002:** Entire article added, p. 852, § 1, effective May 30.

**24-71.3-115. Time and place of sending and receipt.** (1) Unless otherwise agreed between the sender and the recipient, an electronic record is sent when it:

(a) Is addressed properly or otherwise directed properly to an information processing system that the recipient has designated or uses for the purpose of receiving electronic records or information of the type sent and from which the recipient is able to retrieve the electronic record;

(b) Is in a form capable of being processed by that system; and

(c) Enters an information processing system outside the control of the sender or of a person that sent the electronic record on behalf of the sender or enters a region of the information processing system designated or used by the recipient that is under the control of the recipient.

(2) Unless otherwise agreed between a sender and the recipient, an electronic record is received when:

(a) It enters an information processing system that the recipient has designated or uses for the purpose of receiving electronic records or information of the type sent and from which the recipient is able to retrieve the electronic record; and

(b) It is in a form capable of being processed by that system.

(3) Subsection (2) of this section applies even if the place the information processing system is located is different from the place the electronic record is deemed to be received under subsection (4) of this section.

(4) Unless otherwise expressly provided in the electronic record or agreed between the sender and the recipient, an electronic record is deemed to be sent from the sender's place of business and to be received at the recipient's place of business. For purposes of this subsection (4), the following rules apply:

(a) If the sender or recipient has more than one place of business, the place of business of that person is the place having the closest relationship to the underlying transaction.

(b) If the sender or the recipient does not have a place of business, the place of business is the sender's or recipient's residence, as the case may be.

(5) An electronic record is received under subsection (2) of this section even if no individual is aware of its receipt.

(6) Receipt of an electronic acknowledgment from an information processing system described in subsection (2) of this section establishes that a record was received but, by itself, does not establish that the content sent corresponds to the content received.

(7) If a person is aware that an electronic record purportedly sent under subsection (1) of this section or purportedly received under subsection (2) of this section was not actually sent or received, the legal effect of the sending or receipt is determined by other applicable law. **24-72-203. Public records open to inspection.** (1) (a) All public records shall be open for inspection by any person at reasonable times, except as provided in this part 2 or as otherwise provided by law, but the official custodian of any public records may make such rules with reference to the inspection of such records as are reasonably necessary for the protection of such records and the prevention of unnecessary interference with the regular discharge of the duties of the custodian or the custodian's office.

(b) Where public records are kept only in miniaturized or digital form, whether on magnetic or optical disks, tapes, microfilm, microfiche, or otherwise, the official custodian shall:

(I) Adopt a policy regarding the retention, archiving, and destruction of such records;  
and

(II) Take such measures as are necessary to assist the public in locating any specific public records sought and to ensure public access to the public records without unreasonable delay or unreasonable cost. Such measures may include, without limitation, the availability of viewing stations for public records kept on microfiche; the provision of portable disk copies of computer files; or direct electronic access via online bulletin boards or other means.

(2) (a) If the public records requested are not in the custody or control of the person to whom application is made, such person shall forthwith notify the applicant of this fact, in writing if requested by the applicant. In such notification, the person shall state in detail to the best of the person's knowledge and belief the reason for the absence of the records from the person's custody or control, the location of the records, and what person then has custody or control of the records.

(b) If an official custodian has custody of correspondence sent by or received by an elected official, the official custodian shall consult with the elected official prior to allowing inspection of the correspondence for the purpose of determining whether the correspondence is a public record.

(3) (a) If the public records requested are in the custody and control of the person to whom application is made but are in active use, in storage, or otherwise not readily available at the time an applicant asks to examine them, the custodian shall forthwith notify the applicant of this fact, in writing if requested by the applicant. If requested by the applicant, the custodian shall set a date and hour at which time the records will be available for inspection.

(b) The date and hour set for the inspection of records not readily available at the time of the request shall be within a reasonable time after the request. As used in this subsection (3), a "reasonable time" shall be presumed to be three working days or less. Such period may be extended if extenuating circumstances exist. However, such period of extension shall not exceed seven working days. A finding that extenuating circumstances exist shall be made in writing by the custodian and shall be provided to the person making the request within the three-day period. Extenuating circumstances shall apply only when:

(I) A broadly stated request is made that encompasses all or substantially all of a large category of records and the request is without sufficient specificity to allow the custodian reasonably to prepare or gather the records within the three-day period; or

(II) A broadly stated request is made that encompasses all or substantially all of a large category of records and the agency is unable to prepare or gather the records within the three-day period because:

(A) The agency needs to devote all or substantially all of its resources to meeting an impending deadline or period of peak demand that is either unique or not predicted to recur more frequently than once a month; or

(B) In the case of the general assembly or its staff or service agencies, the general assembly is in session; or

(III) A request involves such a large volume of records that the custodian cannot reasonably prepare or gather the records within the three-day period without substantially interfering with the custodian's obligation to perform his or her other public service responsibilities.

(c) In no event can extenuating circumstances apply to a request that relates to a single, specifically identified document.

(3.5) (a) Except as otherwise required by subsection (3.5)(b) of this section:

(I) If a public record is stored in a digital format that is neither searchable nor sortable, the custodian shall provide a copy of the public record in a digital format.

(II) If a public record is stored in a digital format that is searchable but not sortable, the custodian shall provide a copy of the public record in a searchable format.

(III) If a public record is stored in a digital format that is sortable, the custodian shall provide a copy of the public record in a sortable format.

(b) A custodian is not required to produce a public record in a searchable or sortable format in accordance with subsection (3.5)(a) of this section if:

(I) Producing the record in the requested format would violate the terms of any copyright or licensing agreement between the custodian and a third party or result in the release of a third party's proprietary information; or

(II) After making reasonable inquiries, it is not technologically or practically feasible to permanently remove information that the custodian is required or allowed to withhold within the requested format, it is not technologically or practically feasible to provide a copy of the record in a searchable or sortable format, or if the custodian would be required to purchase software or create additional programming or functionality in its existing software to remove the information.

(c) If a custodian is not able to comply with a request to produce a public record that is subject to disclosure in a requested format specified in subsection (3.5)(a) of this section, the custodian shall produce the record in an alternate format or issue a denial under section 24-72-204 and shall provide a written declaration attesting to the reasons the custodian is not able to produce the record in the requested format. If a court subsequently rules the custodian should have provided the record in the requested format, attorney fees may be awarded only if the custodian's action was arbitrary or capricious.

(d) Altering an existing public record, or excising fields of information pursuant to this subsection (3.5) to remove information that the custodian is either required or permitted to withhold, does not constitute the creation of a new public record.

(e) Nothing in this subsection (3.5) relieves or mitigates the obligations of a custodian to produce a public record in a format accessible to individuals with disabilities in accordance with Title II of the federal "Americans with Disabilities Act of 1990", 42 U.S.C. sec. 12131 et. seq., and other federal or state laws.

(4) Nothing in this article shall preclude the state or any of its agencies, institutions, or political subdivisions from obtaining and enforcing trademark or copyright protection for any public record, and the state and its agencies, institutions, and political subdivisions are hereby specifically authorized to obtain and enforce such protection in accordance with the applicable federal law; except that this authorization shall not restrict public access to or fair use of copyrighted materials and shall not apply to writings which are merely lists or other compilations.

**24-72-204. Allowance or denial of inspection - grounds - procedure - appeal - definitions - repeal.** (1) The custodian of any public records shall allow any person the right of inspection of such records or any portion thereof except on one or more of the following grounds or as provided in subsection (2) or (3) of this section:

(a) Such inspection would be contrary to any state statute.

(b) Such inspection would be contrary to any federal statute or regulation issued thereunder having the force and effect of law.

(c) Such inspection is prohibited by rules promulgated by the supreme court or by the order of any court.

(d) Such inspection would be contrary to the requirements of any joint rule of the senate and the house of representatives pertaining to lobbying practices.

(2) (a) The custodian may deny the right of inspection of the following records, unless otherwise provided by law, on the ground that disclosure to the applicant would be contrary to the public interest:

(I) Any records of the investigations conducted by any sheriff, prosecuting attorney, or police department, any records of the intelligence information or security procedures of any sheriff, prosecuting attorney, or police department, or any investigatory files compiled for any other law enforcement purpose;

(II) Test questions, scoring keys, and other examination data pertaining to administration of a licensing examination, examination for employment, or academic examination; except that written promotional examinations and the scores or results thereof conducted pursuant to the state personnel system or any similar system shall be available for inspection, but not copying or reproduction, by the person in interest after the conducting and grading of any such examination;

(III) The specific details of bona fide research projects being conducted by a state institution, including, without limitation, research projects undertaken by staff or service agencies of the general assembly or the office of the governor in connection with pending or anticipated legislation;

(IV) The contents of real estate appraisals made for the state or a political subdivision thereof relative to the acquisition of property or any interest in property for public use, until such time as title to the property or property interest has passed to the state or political subdivision; except that the contents of such appraisal shall be available to the owner of the property, if a condemning authority determines that it intends to acquire said property as provided in section 38-1-121, C.R.S., relating to eminent domain proceedings, but, in any case, the contents of such appraisal shall be available to the owner under this section no later than one year after the condemning authority receives said appraisal; and except as provided by the Colorado rules of civil procedure. If condemnation proceedings are instituted to acquire any such property, any owner of such property who has received the contents of any appraisal pursuant to this section shall, upon receipt thereof, make available to said state or political subdivision a copy of the

contents of any appraisal which the owner has obtained relative to the proposed acquisition of the property.

(V) Any market analysis data generated by the department of transportation's bid analysis and management system for the confidential use of the department of transportation in awarding contracts for construction or for the purchase of goods or services and any records, documents, and automated systems prepared for the bid analysis and management system;

(VI) Records and information relating to the identification of persons filed with, maintained by, or prepared by the department of revenue pursuant to section 42-2-121, C.R.S.;

(VII) Electronic mail addresses provided by a person to an agency, institution, or political subdivision of the state for the purposes of future electronic communications to the person from the agency, institution, or political subdivision; and

(VIII) (A) Specialized details of either security arrangements or investigations or the physical and cyber assets of critical infrastructure, including the specific engineering, vulnerability, detailed design information, protective measures, emergency response plans, or system operational data of such assets that would be useful to a person in planning an attack on critical infrastructure but that does not simply provide the general location of such infrastructure. Nothing in this subsection (2)(a)(VIII) prohibits the custodian from transferring records containing specialized details of either security arrangements or investigations or the physical and cyber assets of critical infrastructure to the division of homeland security and emergency management in the department of public safety, the governing body of any city, county, city and county, or other political subdivision of the state, or any federal, state, or local law enforcement agency; except that the custodian shall not transfer any record received from a nongovernmental entity without the prior written consent of the entity unless such information is already publicly available.

(B) Records of the expenditure of public moneys on security arrangements or investigations, including contracts for security arrangements and records related to the procurement of, budgeting for, or expenditures on security systems, shall be open for inspection, except to the extent that they contain specialized details of security arrangements or investigations. A custodian may deny the right of inspection of only the portions of a record described in this sub-subparagraph (B) that contain specialized details of security arrangements or investigations and shall allow inspection of the remaining portions of the record.

(C) If an official custodian has custody of a public record provided by another public entity, including the state or a political subdivision, that contains specialized details of security arrangements or investigations, the official custodian shall refer a request to inspect that public record to the official custodian of the public entity that provided the record and shall disclose to the person making the request the names of the public entity and its official custodian to which the request is referred.

(IX) (A) Any records of ongoing civil or administrative investigations conducted by the state or an agency of the state in furtherance of their statutory authority to protect the public health, welfare, or safety unless the investigation focuses on a person or persons inside of the investigative agency.

(B) Upon conclusion of a civil or administrative investigation that is closed because no further investigation, discipline, or other agency response is warranted, all records not exempt pursuant to any other law are open to inspection; except that the custodian may remove the name

or other personal identifying or financial information of witnesses or targets of such closed investigations from investigative records prior to inspection.

(C) Notwithstanding any other provision of this subparagraph (IX), a record is not subject to withholding on the grounds that it is maintained or kept in a civil or administrative investigative file except pursuant to paragraph (a) of subsection (6) of this section if the record was publicly disclosed; was filed with an agency of the state by a regulated entity under a statutory, regulatory, or permit requirement; or was received from a governmental entity and would be available if requested directly from the transmitting entity.

(D) Nothing in this subparagraph (IX) prohibits an agency from disclosing information or materials during an open investigation if it is in the interest of public health, welfare, or safety.

(b) If the right of inspection of any record falling within any of the classifications listed in this subsection (2) is allowed to any officer or employee of any newspaper, radio station, television station, or other person or agency in the business of public dissemination of news or current events, it shall be allowed to all such news media.

(c) Notwithstanding any provision to the contrary in subparagraph (I) of paragraph (a) of this subsection (2), the custodian shall deny the right of inspection of any materials received, made, or kept by a crime victim compensation board or a district attorney that are confidential pursuant to the provisions of section 24-4.1-107.5.

(d) Notwithstanding any provision to the contrary in subparagraph (I) of paragraph (a) of this subsection (2), the custodian shall deny the right of inspection of any materials received, made, or kept by a witness protection board, the department of public safety, or a prosecuting attorney that are confidential pursuant to section 24-33.5-106.5.

(e) Notwithstanding any provision to the contrary in subparagraph (I) of paragraph (a) of this subsection (2), the custodian shall deny the right of inspection of any materials received, made, or kept by the safe2tell program, as described in section 24-31-606.

(3) (a) The custodian shall deny the right of inspection of the following records, unless otherwise provided by law; except that the custodian shall make any of the following records, other than letters of reference concerning employment, licensing, or issuance of permits, available to the person in interest in accordance with this subsection (3):

(I) Medical, mental health, sociological, and scholastic achievement data, and electronic health records, on individual persons, other than scholastic achievement data submitted as part of finalists' records as set forth in subsection (3)(a)(XI) of this section and exclusive of coroners' autopsy reports and group scholastic achievement data from which individuals cannot be identified; but either the custodian or the person in interest may request a professionally qualified person, who shall be furnished by the said custodian, to be present to interpret the records;

(II) (A) Personnel files; but such files shall be available to the person in interest and to the duly elected and appointed public officials who supervise such person's work.

(B) The provisions of this subparagraph (II) shall not be interpreted to prevent the public inspection or copying of any employment contract or any information regarding amounts paid or benefits provided under any settlement agreement pursuant to the provisions of article 19 of this title.

(III) Letters of reference;

(IV) Trade secrets, privileged information, and confidential commercial, financial, geological, or geophysical data, including a social security number unless disclosure of the number is required, permitted, or authorized by state or federal law, furnished by or obtained from any person;

(V) Library and museum material contributed by private persons, to the extent of any limitations placed thereon as conditions of such contributions;

(VI) Except as provided in section 1-2-227, addresses and telephone numbers of students in any public elementary or secondary school;

(VII) Library records disclosing the identity of a user as prohibited by section 24-90-119;

(VIII) Repealed.

(IX) Names, addresses, telephone numbers, and personal financial information of past or present users of public utilities, public facilities, or recreational or cultural services that are owned and operated by the state, its agencies, institutions, or political subdivisions; except that nothing in this subparagraph (IX) shall prohibit the custodian of records from transmitting such data to any agent of an investigative branch of a federal agency or any criminal justice agency as defined in section 24-72-302 (3) that makes a request to the custodian to inspect such records and who asserts that the request for information is reasonably related to an investigation within the scope of the agency's authority and duties. Nothing in this subparagraph (IX) shall be construed to prohibit the publication of such information in an aggregate or statistical form so classified as to prevent the identification, location, or habits of individuals.

(X) (A) Any records of sexual harassment complaints and investigations, whether or not such records are maintained as part of a personnel file; except that, an administrative agency investigating the complaint may, upon a showing of necessity to the custodian of records, gain access to information necessary to the investigation of such a complaint. This sub-subparagraph (A) shall not apply to records of sexual harassment complaints and investigations that are included in court files and records of court proceedings. Disclosure of all or a part of any records of sexual harassment complaints and investigations to the person in interest is permissible to the extent that the disclosure can be made without permitting the identification, as a result of the disclosure, of any individual involved. This sub-subparagraph (A) shall not preclude disclosure of all or part of the results of an investigation of the general employment policies and procedures of an agency, office, department, or division, to the extent that the disclosure can be made without permitting the identification, as a result of the disclosure, of any individual involved.

(B) A person in interest under this subparagraph (X) includes the person making a complaint and the person whose conduct is the subject of such a complaint.

(C) A person in interest may make a record maintained pursuant to this subparagraph (X) available for public inspection when such record supports the contention that a publicly reported, written, printed, or spoken allegation of sexual harassment against such person is false.

(D) Repealed.

(X.5) Records created, maintained, or provided to a custodian by the office of legislative workplace relations created in section 2-3-511 that are related to a workplace harassment complaint or investigation, a complaint under the workplace expectations policy, or an inquiry or request concerning workplace harassment or conduct, whether or not the records are part of a formal or informal complaint or resolution process;

(XI) (A) Except as provided in subsection (3)(a)(XI)(D) of this section, records submitted by or on behalf of an applicant or candidate for any employment position, including an applicant for an executive position as defined in section 24-72-202 (1.3) who is not a finalist. For purposes of this subsection (3)(a)(XI), "finalist" means an applicant or candidate for an executive position as the chief executive officer of a state agency, institution, or political subdivision or agency thereof who is named as a finalist pursuant to section 24-6-402 (3.5).

(B) This subsection (3)(a)(XI) shall not be construed to prohibit the public inspection or copying of any records submitted by or on behalf of a finalist or the applications of past or current employees; except that letters of reference or medical, psychological, and sociological data concerning finalists or past or current employees shall not be made available for public inspection or copying.

(C) This subsection (3)(a)(XI) applies to employment selection processes for all employment and executive positions, including, but not limited to, selection processes conducted or assisted by private persons or firms at the request of a state agency, institution, or political subdivision.

(D) Notwithstanding subsection (3)(a)(XI)(A) of this section, a custodian shall allow public inspection of the demographic data of a candidate who was interviewed by the state public body, local public body, or search committee for an executive position as defined in section 24-72-202 (1.3), but is not named as a finalist pursuant to subsection 24-6-402 (3.5). For purposes of this subsection (3)(a)(XI)(D), "demographic data" means information on a candidate's race and gender that has been legally requested and voluntarily provided on the candidate's application and does not include the candidate's name or other information.

(XII) Any record indicating that a person has obtained an identifying license plate or placard for persons with disabilities under section 42-3-204, C.R.S., or any other motor vehicle record that would reveal the presence of a disability;

(XIII) Records protected under the common law governmental or "deliberative process" privilege, if the material is so candid or personal that public disclosure is likely to stifle honest and frank discussion within the government, unless the privilege has been waived. The general assembly hereby finds and declares that in some circumstances, public disclosure of such records may cause substantial injury to the public interest. If any public record is withheld pursuant to this subparagraph (XIII), the custodian shall provide the applicant with a sworn statement specifically describing each document withheld, explaining why each such document is privileged, and why disclosure would cause substantial injury to the public interest. If the applicant so requests, the custodian shall apply to the district court for an order permitting him or her to restrict disclosure. The application shall be subject to the procedures and burden of proof provided for in subsection (6) of this section. All persons entitled to claim the privilege with respect to the records in issue shall be given notice of the proceedings and shall have the right to appear and be heard. In determining whether disclosure of the records would cause substantial injury to the public interest, the court shall weigh, based on the circumstances presented in the particular case, the public interest in honest and frank discussion within government and the beneficial effects of public scrutiny upon the quality of governmental decision-making and public confidence therein.

(XIV) Veterinary medical data, information, and records on individual animals that are owned by private individuals or business entities, but are in the custody of a veterinary medical practice or hospital, including the veterinary teaching hospital at Colorado state university, that

provides veterinary medical care and treatment to animals. A veterinary-patient-client privilege exists with respect to such data, information, and records only when a person in interest and a veterinarian enter into a mutual agreement to provide medical treatment for an individual animal and such person in interest maintains an ownership interest in such animal undergoing treatment. For purposes of this subsection (3)(a)(XIV), "person in interest" means the owner of an animal undergoing veterinary medical treatment or such owner's designated representative. Nothing in this subsection (3)(a)(XIV) shall prevent the state agricultural commission, the state agricultural commissioner, or the state board of veterinary medicine from exercising their investigatory and enforcement powers and duties granted pursuant to section 35-1-106 (1)(h), article 50 of title 35, and section 12-315-106 (5)(e), respectively. The veterinary-patient-client privilege described in this subsection (3)(a)(XIV), pursuant to section 12-315-120 (5), may not be asserted for the purpose of excluding or refusing evidence or testimony in a prosecution for an act of animal cruelty under section 18-9-202 or for an act of animal fighting under section 18-9-204.

(XV) Nominations submitted to a state institution of higher education for the awarding of honorary degrees, medals, and other honorary awards by the institution, proposals submitted to a state institution of higher education for the naming of a building or a portion of a building for a person or persons, and records submitted to a state institution of higher education in support of such nominations and proposals;

(XVI) (Deleted by amendment, L. 2003, p. 1636, § 1, effective May 2, 2003.)

(XVII) Repealed.

(XVIII) (A) Military records filed with a county clerk and recorder's office concerning a member of the military's separation from military service, including the form DD214 issued to a member of the military upon separation from service, that are restricted from public access pursuant to 5 U.S.C. sec. 552 (b)(6) and the requirements established by the national archives and records administration. Notwithstanding any other provision of this section, if the member of the military about whom the record concerns is deceased, the custodian shall allow the right of inspection to the member's parents, siblings, widow or widower, and children.

(B) On and after July 1, 2002, any county clerk and recorder that accepts for filing any military records described in sub-subparagraph (A) of this subparagraph (XVIII) shall maintain such military records in a manner that ensures that such records will not be available to the public for inspection except as provided in sub-subparagraph (A) of this subparagraph (XVIII).

(C) Nothing in this subparagraph (XVIII) shall prohibit a county clerk and recorder from taking appropriate protective actions with regard to records that were filed with or placed in storage by the county clerk and recorder prior to July 1, 2002, in accordance with any limitations determined necessary by the county clerk and recorder.

(D) The county clerk and recorder and any individual employed by the county clerk and recorder shall not be liable for any damages that may result from good faith compliance with the provisions of this part 2.

(XIX) (A) Except as provided in subsection (3)(a)(XIX)(C) of this section, applications for a marriage license submitted pursuant to part 1 of article 2 of title 14 and, except as provided in subsection (3)(a)(XIX)(C) of this section, applications for a civil union license submitted pursuant to article 15 of title 14. A person in interest under this subsection (3)(a)(XIX) includes an immediate family member of either party to the marriage application. As used in this subsection (3)(a)(XIX), "immediate family member" means a person who is related by blood, marriage, or adoption. Nothing in this subsection (3)(a)(XIX) is construed to prohibit the

inspection of marriage licenses or marriage certificates or of civil union certificates or to otherwise change the status of those licenses or certificates as public records.

(B) Repealed.

(C) Upon application by any person to the district court in the district wherein a record of an application for a marriage license or a civil union license is found, the district court may, in its discretion and upon good cause shown, order the custodian to permit the inspection of such record.

(XX) Repealed.

(XXI) All records, including, but not limited to, analyses and maps, compiled or maintained pursuant to statute or rule by the department of natural resources or its divisions that are based on information related to private lands and identify or allow to be identified any specific Colorado landowners or lands; except that summary or aggregated data that do not specifically identify individual landowners or specific parcels of land shall not be subject to this subparagraph (XXI);

(XXII) Personal information, as defined in section 18-9-313 (1)(e), in a record for which the custodian has received a request under section 18-9-313;

(XXIII) Records, including analyses and maps, compiled or maintained in accordance with article 73 of title 35 that are based on information related to private lands and identify or allow to be identified any specific Colorado landowners, land managers, agricultural producers, or parcels of land; except that the custodian may release or authorize inspection of summary or aggregated data that do not specifically identify individual landowners, land managers, agricultural producers, or parcels of land.

(b) Nothing in this subsection (3) shall prohibit the custodian of records from transmitting data concerning the scholastic achievement of any student to any prospective employer of such student, nor shall anything in this subsection (3) prohibit the custodian of records from making available for inspection, from making copies, print-outs, or photographs of, or from transmitting data concerning the scholastic achievement or medical, psychological, or sociological information of any student to any law enforcement agency of this state, of any other state, or of the United States where such student is under investigation by such agency and the agency shows that such data is necessary for the investigation.

(c) Nothing in this subsection (3) shall prohibit the custodian of the records of a school, including any institution of higher education, or a school district from transmitting data concerning standardized tests, scholastic achievement, disciplinary information involving a student, or medical, psychological, or sociological information of any student to the custodian of such records in any other such school or school district to which such student moves, transfers, or makes application for transfer, and the written permission of such student or his or her parent or guardian shall not be required therefor. No state educational institution shall be prohibited from transmitting data concerning standardized tests or scholastic achievement of any student to the custodian of such records in the school, including any state educational institution, or school district in which such student was previously enrolled, and the written permission of such student or his or her parent or guardian shall not be required therefor.

(d) This subsection (3)(d) applies to all public schools and school districts that receive funding under article 54 of title 22. Notwithstanding subsection (3)(a)(VI) of this section, under policies adopted by the local board of education, the names, addresses, and home telephone numbers of students in any secondary school must be released to a recruiting officer for any

branch of the United States armed forces who requests such information, subject to the following:

(I) Each local board of education shall adopt a policy to govern the release of the names, addresses, and home telephone numbers of secondary school students to military recruiting officers that provides that such information shall be released to recruiting officers unless a student submits a request, in writing, that such information not be released.

(II) The directory information requested by a recruiting officer shall be released by the local board of education within ninety days of the date of the request.

(III) The local board of education shall comply with any applicable provisions of the federal "Family Educational Rights and Privacy Act of 1974" (FERPA), 20 U.S.C. sec. 1232g, and the federal regulations cited thereunder relating to the release of student information by educational institutions that receive federal funds.

(IV) Actual direct expenses incurred in furnishing this information shall be paid for by the requesting service and shall be reasonable and customary.

(V) The recruiting officer shall use the data released for the purpose of providing information to students regarding military service and shall not use it for any other purpose or release such data to any person or organization other than individuals within the recruiting services of the armed forces.

(e) (I) This subsection (3)(e) applies to all public schools and school districts. Notwithstanding subsection (3)(a)(I) of this section, under policies adopted by each local board of education, consistent with applicable provisions of the federal "Family Educational Rights and Privacy Act of 1974" (FERPA), 20 U.S.C. sec. 1232g, and all federal regulations and applicable guidelines adopted thereto, information directly related to a student and maintained by a public school or by a person acting for the public school must be available for release if the disclosure meets one or more of the following conditions:

(A) The disclosure is to other school officials, including teachers, working in the school at which the student is enrolled who have specific and legitimate educational interests in the information for use in furthering the student's academic achievement or maintaining a safe and orderly learning environment;

(B) The disclosure is to officials of a school at which the student seeks or intends to enroll or the disclosure is to officials at a school at which the student is currently enrolled or receiving services, after making a reasonable attempt to notify the student's parent or legal guardian or the student if he or she is at least eighteen years of age or attending an institution of postsecondary education, as prescribed by federal regulation;

(C) The disclosure is to state or local officials or authorities if the disclosure concerns the juvenile justice system and the system's ability to serve effectively, prior to adjudication, the student whose records are disclosed and if the officials and authorities to whom the records are disclosed certify in writing that the information shall not be disclosed to any other party, except as otherwise provided by law, without the prior written consent of the student's parent or legal guardian or of the student if he or she is at least eighteen years of age or is attending an institution of postsecondary education;

(D) The disclosure is to comply with a judicial order or a lawfully issued subpoena, if a reasonable effort is made to notify the student's parent or legal guardian or the student if he or she is at least eighteen years of age or is attending a postsecondary institution about the order or subpoena in advance of compliance, so that such parent, legal guardian, or student is provided an

opportunity to seek protective action, unless the disclosure is in compliance with a federal grand jury subpoena or any other subpoena issued for a law enforcement purpose and the court or the issuing agency has ordered that the existence or contents of the subpoena or the information furnished in response to the subpoena not be disclosed;

(E) The disclosure is in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals, as specifically prescribed by federal regulation.

(II) Nothing in this paragraph (e) shall prevent public school administrators, teachers, or staff from disclosing information derived from personal knowledge or observation and not derived from a student's record maintained by a public school or a person acting for the public school.

(3.5) (a) Effective January 1, 1992, any individual who meets the requirements of this subsection (3.5) may request that the address of such individual included in any public records concerning that individual which are required to be made, maintained, or kept pursuant to the following sections be kept confidential:

(I) Sections 1-2-227 and 1-2-301, C.R.S.;

(II) (Deleted by amendment, L. 2000, p. 1337, § 1, effective May 30, 2000.)

(III) Section 24-6-202.

(b) (I) An individual may make the request of confidentiality allowed by this subsection (3.5) if such individual has reason to believe that such individual, or any member of such individual's immediate family who resides in the same household as such individual, will be exposed to criminal harassment as prohibited in section 18-9-111, C.R.S., or otherwise be in danger of bodily harm, if such individual's address is not kept confidential in accordance with this subsection (3.5).

(II) A request of confidentiality with respect to records described in subparagraph (I) of paragraph (a) of this subsection (3.5) shall be made in person in the office of the county clerk and recorder of the county where the individual making the request resides. Requests shall be made on application forms approved by the secretary of state, after consultation with county clerk and recorders. The application form shall provide space for the applicant to provide his or her name and address, date of birth, and any other identifying information determined by the secretary of state to be necessary to carry out the provisions of this subsection (3.5). In addition, an affirmation shall be printed on the form, in the area immediately above a line for the applicant's signature and the date, stating the following: "I swear or affirm, under penalty of perjury, that I have reason to believe that I, or a member of my immediate family who resides in my household, will be exposed to criminal harassment, or otherwise be in danger of bodily harm, if my address is not kept confidential." Immediately below the signature line, there shall be printed a notice, in a type that is larger than the other information contained on the form, that the applicant may be prosecuted for perjury in the second degree under section 18-8-503, C.R.S., if the applicant signs such affirmation and does not believe such affirmation to be true.

(III) The county clerk and recorder of each county shall provide an opportunity for any individual to make the request of confidentiality allowed by this subsection (3.5) in person at the time such individual makes application to the county clerk and recorder to register to vote or to make any change in such individual's registration, and at any other time during normal business hours of the office of the county clerk and recorder. The county clerk and recorder shall forward a copy of each completed application to the secretary of state for purposes of the records

maintained by him or her pursuant to subparagraph (I) of paragraph (a) of this subsection (3.5). The county clerk and recorder shall collect a processing fee in the amount of five dollars of which amount two dollars and fifty cents shall be transmitted to the secretary of state for the purpose of offsetting the secretary of state's costs of processing applications forwarded to the secretary of state pursuant to this subparagraph (III). All processing fees received by the secretary of state pursuant to this subparagraph (III) shall be transmitted to the state treasurer, who shall credit the same to the department of state cash fund.

(IV) The secretary of state shall provide an opportunity for any individual to make the request of confidentiality allowed by paragraph (a) of this subsection (3.5), with respect to the records described in subparagraph (III) of paragraph (a) of this subsection (3.5). The secretary of state may charge a processing fee, not to exceed five dollars, for each such request. All processing fees collected by the secretary of state pursuant to this subparagraph (IV) or subparagraph (III) of this paragraph (b) shall be transmitted to the state treasurer, who shall credit the same to the department of state cash fund.

(V) Notwithstanding the amount specified for any fee in subparagraph (III) or (IV) of this paragraph (b), the secretary of state by rule or as otherwise provided by law may reduce the amount of one or more of the fees credited to the department of state cash fund if necessary pursuant to section 24-75-402 (3), to reduce the uncommitted reserves of the fund to which all or any portion of one or more of the fees is credited. After the uncommitted reserves of the fund are sufficiently reduced, the secretary of state by rule or as otherwise provided by law may increase the amount of one or more of the fees as provided in section 24-75-402 (4).

(c) The custodian of any records described in subsection (3.5)(a) of this section that concern an individual who has made a request of confidentiality pursuant to this subsection (3.5) and paid any required processing fee shall deny the right of inspection of the individual's address contained in such records on the ground that disclosure would be contrary to the public interest; except that the custodian shall allow the inspection of the records by the individual, by any person authorized in writing by that individual, and by any individual employed by one of the following entities who makes a request to the custodian to inspect the records and who provides evidence satisfactory to the custodian that the inspection is reasonably related to the authorized purpose of the employing entity:

(I) A criminal justice agency, as defined by section 24-72-302 (3);

(II) An agency of the United States, the state of Colorado, or of any political subdivision or authority thereof;

(III) A person required to obtain such individual's address in order to comply with federal or state law or regulations adopted pursuant thereto;

(IV) An insurance company which has a valid certificate of authority to transact insurance business in Colorado as required in section 10-3-105 (1), C.R.S.;

(V) A collection agency which has a valid license as required by section 5-16-115 (1);

(VI) A supervised lender licensed pursuant to section 5-1-301 (46), C.R.S.;

(VII) A bank as defined in section 11-101-401 (5), C.R.S., a trust company as defined in section 11-109-101 (11), C.R.S., a credit union as defined in section 11-30-101 (1), C.R.S., a domestic savings and loan association as defined in section 11-40-102 (5), C.R.S., a foreign savings and loan association as defined in section 11-40-102 (8), C.R.S., or a broker-dealer as defined in section 11-51-201 (2), C.R.S.;

(VIII) An attorney licensed to practice law in Colorado or his representative authorized in writing to inspect such records on behalf of the attorney;

(IX) A manufacturer of any vehicle required to be registered pursuant to the provisions of article 3 of title 42, C.R.S., or a designated agent of such manufacturer. Such inspection shall be allowed only for the purpose of identifying, locating, and notifying the registered owners of such vehicles in the event of a product recall or product advisory and may also be allowed for statistical purposes where such address is not disclosed by such manufacturer or designated agent. No person who obtains the address of an individual pursuant to this subparagraph (IX) shall disclose such information, except as necessary to accomplish said purposes.

(d) Notwithstanding any provisions of this subsection (3.5) to the contrary, any person who appears in person in the office of any custodian of records described in paragraph (a) of this subsection (3.5) and who presents documentary evidence satisfactory to the custodian that such person is a duly accredited representative of the news media may verify the address of an individual whose address is otherwise protected from inspection in accordance with this subsection (3.5). Such verification shall be limited to the custodian confirming or denying that the address of an individual as known to the representative of the news media is the address of the individual as shown by the records of the custodian.

(e) No person shall make any false statement in requesting any information pursuant to paragraph (a) or (b) of this subsection (3.5).

(f) Any request of confidentiality made pursuant to this subsection (3.5) shall be kept confidential and shall not be open to inspection as a public record unless a written release is executed by the person who made the request.

(g) Prior to the release of any information required to be kept confidential pursuant to this subsection (3.5), the custodian shall require the person requesting the information to produce a valid Colorado driver's license or identification card and written authorization from any entity authorized to receive information under this subsection (3.5). The custodian shall keep a record of the requesting person's name, address, and date of birth and shall make such information available to the individual requesting confidentiality under this subsection (3.5) or any person authorized by such individual.

(4) If the custodian denies access to any public record, the applicant may request a written statement of the grounds for the denial, which statement shall cite the law or regulation under which access is denied and shall be furnished forthwith to the applicant.

(5) (a) Except as provided in subsection (5.5) of this section, any person denied the right to inspect any record covered by this part 2 or who alleges a violation of section 24-72-203 (3.5) may apply to the district court of the district wherein the record is found for an order directing the custodian of such record to show cause why the custodian should not permit the inspection of such record; except that, at least fourteen days prior to filing an application with the district court, the person who has been denied the right to inspect the record shall file a written notice with the custodian who has denied the right to inspect the record informing the custodian that the person intends to file an application with the district court. During the fourteen-day period before the person may file an application with the district court under this subsection (5)(a), the custodian who has denied the right to inspect the record shall either meet in person or communicate on the telephone with the person who has been denied access to the record to determine if the dispute may be resolved without filing an application with the district court. The meeting may include recourse to any method of dispute resolution that is agreeable to both

parties. Any common expense necessary to resolve the dispute must be apportioned equally between or among the parties unless the parties have agreed to a different method of allocating the costs between or among them. If the person who has been denied access to inspect a record states in the required written notice to the custodian that the person needs to pursue access to the record on an expedited basis, the person must provide such written notice, including a factual basis of the expedited need for the record, to the custodian at least three business days prior to the date on which the person files the application with the district court and, in such circumstances, no meeting to determine if the dispute may be resolved without filing an application with the district court is required.

(b) Hearing on the application described in subsection (5)(a) of this section must be held at the earliest practical time. Unless the court finds that the denial of the right of inspection was proper, it shall order the custodian to permit such inspection and shall award court costs and reasonable attorney fees to the prevailing applicant in an amount to be determined by the court; except that no court costs and attorney fees shall be awarded to a person who has filed a lawsuit against a state public body or local public body and who applies to the court for an order pursuant to subsection (5)(a) of this section for access to records of the state public body or local public body being sued if the court finds that the records being sought are related to the pending litigation and are discoverable pursuant to chapter 4 of the Colorado rules of civil procedure. In the event the court finds that the denial of the right of inspection was proper, the court shall award court costs and reasonable attorney fees to the custodian if the court finds that the action was frivolous, vexatious, or groundless.

(5.5) (a) Any person seeking access to the record of an executive session meeting of a state public body or a local public body recorded pursuant to section 24-6-402 (2)(d.5) shall, upon application to the district court for the district wherein the records are found, show grounds sufficient to support a reasonable belief that the state public body or local public body engaged in substantial discussion of any matters not enumerated in section 24-6-402 (3) or (4) or that the state public body or local public body adopted a proposed policy, position, resolution, rule, regulation, or formal action in the executive session in contravention of section 24-6-402 (3)(a) or (4). If the applicant fails to show grounds sufficient to support such reasonable belief, the court shall deny the application and, if the court finds that the application was frivolous, vexatious, or groundless, the court shall award court costs and attorney fees to the prevailing party. If an applicant shows grounds sufficient to support such reasonable belief, the applicant cannot be found to have brought a frivolous, vexatious, or groundless action, regardless of the outcome of the in camera review.

(b) (I) Upon finding that sufficient grounds exist to support a reasonable belief that the state public body or local public body engaged in substantial discussion of any matters not enumerated in section 24-6-402 (3) or (4) or that the state public body or local public body adopted a proposed policy, position, resolution, rule, regulation, or formal action in the executive session in contravention of section 24-6-402 (3)(a) or (4), the court shall conduct an in camera review of the record of the executive session to determine whether the state public body or local public body engaged in substantial discussion of any matters not enumerated in section 24-6-402 (3) or (4) or adopted a proposed policy, position, resolution, rule, regulation, or formal action in the executive session in contravention of section 24-6-402 (3)(a) or (4).

(II) If the court determines, based on the in camera review, that violations of the open meetings law occurred, the portion of the record of the executive session that reflects the

substantial discussion of matters not enumerated in section 24-6-402 (3) or (4) or the adoption of a proposed policy, position, resolution, rule, regulation, or formal action shall be open to public inspection.

(6) (a) If, in the opinion of the official custodian of any public record, disclosure of the contents of said record would do substantial injury to the public interest, notwithstanding the fact that said record might otherwise be available to public inspection or if the official custodian is unable, in good faith, after exercising reasonable diligence, and after reasonable inquiry, to determine if disclosure of the public record is prohibited pursuant to this part 2, the official custodian may apply to the district court of the district in which such record is located for an order permitting him or her to restrict such disclosure or for the court to determine if disclosure is prohibited. Hearing on such application shall be held at the earliest practical time. In the case of a record that is otherwise available to public inspection pursuant to this part 2, after a hearing, the court may, upon a finding that disclosure would cause substantial injury to the public interest, issue an order authorizing the official custodian to restrict disclosure. In the case of a record that may be prohibited from disclosure pursuant to this part 2, after a hearing, the court may, upon a finding that disclosure of the record is prohibited, issue an order directing the official custodian not to disclose the record to the public. In an action brought pursuant to this paragraph (a), the burden of proof shall be upon the custodian. The person seeking permission to examine the record shall have notice of said hearing served upon him or her in the manner provided for service of process by the Colorado rules of civil procedure and shall have the right to appear and be heard. The attorney fees provision of subsection (5) of this section shall not apply in cases brought pursuant to this paragraph (a) by an official custodian who is unable to determine if disclosure of a public record is prohibited under this part 2 if the official custodian proves and the court finds that the custodian, in good faith, after exercising reasonable diligence, and after making reasonable inquiry, was unable to determine if disclosure of the public record was prohibited without a ruling by the court.

(b) In defense against an application for an order under subsection (5) of this section, the custodian may raise any issue that could have been raised by the custodian in an application under paragraph (a) of this subsection (6).

(7) (a) Except as permitted in subsection (7)(b) of this section, the department of revenue or an authorized agent of the department shall not allow a person, other than the person in interest, to inspect information contained in a driver's license application under section 42-2-107, a driver's license renewal application under section 42-2-118, a duplicate driver's license application under section 42-2-117, a commercial driver's license application under section 42-2-403, an identification card application under section 42-2-302, a motor vehicle title application under section 42-6-116, a motor vehicle registration application under section 42-3-113, an identification document under section 42-2-505, or other official record or document maintained by the department under section 42-2-121.

(b) Notwithstanding subsection (7)(a) of this section, only upon obtaining a completed requester release form under section 42-1-206 (1)(b), the department may allow inspection of the information referred to in subsection (7)(a) of this section for the following uses:

(I) For use by any government agency, including any court or law enforcement agency, in carrying out its functions, or any private person or entity acting on behalf of a federal, state, or local agency in carrying out its functions; except that this subsection (7)(b)(I) does not apply to a request made for the purpose of investigating for, participating in, cooperating with, or assisting

in federal immigration enforcement, including enforcement of civil immigration laws, 8 U.S.C. sec. 1325, and 8 U.S.C. sec. 1326, except as required by federal or state law or as required to comply with a court-issued subpoena, warrant, or order;

(II) For use in connection with matters of motor vehicle or driver safety and theft; motor vehicle emissions; motor vehicle product alterations, recalls, or advisories; performance monitoring of motor vehicles, motor vehicle parts and dealers; motor vehicle market research activities, including survey research; and removal of non-owner records from the original owner records of motor vehicle manufacturers;

(III) For use in the normal course of business by a legitimate business or its agents, employees, or contractors, but only:

(A) To verify the accuracy of personal information submitted by the individual to the business or its agents, employees, or contractors; and

(B) If such information as so submitted is not correct or is no longer correct, to obtain the correct information, but only for the purposes of preventing fraud by, pursuing legal remedies against, or recovering on a debt or security interest against, the individual;

(IV) For use in connection with any civil, criminal, administrative, or arbitral proceeding in any federal, state, or local court or agency or before any self-regulatory body, including the service of process, investigation in anticipation of litigation, and the execution or enforcement of judgments and orders, or pursuant to an order of a federal, state, or local court; except that this subsection (7)(b)(IV) does not apply to a request made for the purpose of investigating for, participating in, cooperating with, or assisting in federal immigration enforcement, including enforcement of civil immigration laws, 8 U.S.C. sec. 1325, and 8 U.S.C. sec. 1326, except as required by federal or state law or as required to comply with a court-issued subpoena, warrant, or order;

(V) For use in research activities, and for use in producing statistical reports, so long as the personal information is not published, redisclosed, or used to contact the parties in interest;

(VI) For use by any insurer or insurance support organization, or by a self-insured entity, or its agents, employees, or contractors, in connection with claims investigation activities, anti-fraud activities, rating or underwriting;

(VII) For use in providing notice to the owners of towed or impounded vehicles;

(VIII) For use by any private investigator licensed pursuant to section 12-160-107, licensed private investigative agency, or licensed security service for any purpose permitted under this subsection (7)(b);

(IX) For use by an employer or its agent or insurer to obtain or verify information relating to a party in interest who is a holder of a commercial driver's license;

(X) For use in connection with the operation of private toll transportation facilities;

(XI) For any other use in response to requests for individual motor vehicle records if the department has obtained the express consent of the party in interest pursuant to section 42-2-121 (4), C.R.S.;

(XII) For bulk distribution for surveys, marketing or solicitations if the department has obtained the express consent of the party in interest pursuant to section 42-2-121 (4), C.R.S.;

(XIII) For use by any requester, if the requester demonstrates he or she has obtained the written consent of the party in interest;

(XIV) For any other use specifically authorized under the laws of the state, if such use is related to the operation of a motor vehicle or public safety; or

(XV) For use by the federally designated organ procurement organization for the purposes of creating and maintaining the organ and tissue donor registry authorized in section 15-19-220.

(c) (I) For purposes of this paragraph (c), "law" shall mean the federal "Driver's Privacy Protection Act of 1994", 18 U.S.C. sec. 2721 et seq., the federal "Fair Credit Reporting Act", 15 U.S.C. sec. 1681 et seq., section 42-1-206, C.R.S., and this part 2.

(II) If the requester release form indicates that the requester will, in any manner, use, obtain, resell, or transfer the information contained in records, requested individually or in bulk, for any purpose prohibited by law, the department or agent shall deny inspection of any motor vehicle or driver record.

(III) In addition to completing the requester release form under section 42-1-206 (1)(b), C.R.S., and subject to the provisions of section 42-1-206 (3.7), C.R.S., the requester shall sign an affidavit of intended use under penalty of perjury that states that the requester shall not obtain, resell, transfer, or use the information in any manner prohibited by law. The department or the department's authorized agent shall deny inspection of any motor vehicle or driver record to any person, other than a person in interest as defined in section 24-72-202 (4), or a federal, state, or local government agency carrying out its official functions, who has not signed and returned the affidavit of intended use.

(d) Notwithstanding paragraph (b) of this subsection (7), the department of revenue or an authorized agent of the department shall allow inspection of records maintained by the department pursuant to section 42-2-121.5, C.R.S., only by the person in interest or by an officer of a law enforcement or public safety agency in accordance with section 42-2-121.5 (3), C.R.S.

(8) (a) A designated election official shall not allow a person, other than the person in interest, to inspect the election records of any person that contain the original signature, social security number, month of birth, day of the month of birth, or identification of that person, including electronic, digital, or scanned images of a person's original signature, social security number, month of birth, day of the month of birth, or identification.

(b) Nothing in paragraph (a) of this subsection (8) shall be construed to prohibit a designated election official from:

(I) Making such election records available to any law enforcement agency or district attorney of this state in connection with the investigation or prosecution of an election offense specified in article 13 of title 1, C.R.S.;

(II) Making such election records available to employees of or election judges appointed by the designated election official as necessary for those employees or election judges to carry out the duties and responsibilities connected with the conduct of any election; and

**24-72-204.5. Adoption of electronic mail policy.** (1) On or before July 1, 1997, the state or any agency, institution, or political subdivision thereof that operates or maintains an electronic mail communications system shall adopt a written policy on any monitoring of electronic mail communications and the circumstances under which it will be conducted.

(2) The policy shall include a statement that correspondence of the employee in the form of electronic mail may be a public record under the public records law and may be subject to public inspection under section 24-72-203.

**Source: L. 96:** Entire section added, p. 1485, § 7, effective June 1.

**24-72-205. Copy, printout, or photograph of a public record - imposition of research and retrieval fee.** (1) (a) In all cases in which a person has the right to inspect a public record, the person may request a copy, printout, or photograph of the record. The custodian shall furnish a copy, printout, or photograph and may charge a fee determined in accordance with subsection (5) of this section; except that, when the custodian is the secretary of state, fees shall be determined and collected pursuant to section 24-21-104 (3), and when the custodian is the executive director of the department of personnel, fees shall be determined and collected pursuant to section 24-80-102 (10). Where the fee for a certified copy or other copy, printout, or photograph of a record is specifically prescribed by law, the specific fee shall apply.

(b) Upon request for records transmission by a person seeking a copy of any public record, the custodian shall transmit a copy of the record by United States mail, other delivery service, facsimile, or electronic mail. No transmission fees may be charged to the record requester for transmitting public records via electronic mail. Within the period specified in section 24-72-203 (3)(a), the custodian shall notify the record requester that a copy of the record is available but will only be sent to the requester once the custodian either receives payment or makes arrangements for receiving payment for all costs associated with records transmission and for all other fees lawfully allowed, unless recovery of all or any portion of such costs or fees has been waived by the custodian. Upon either receiving such payment or making arrangements to receive such payment at a later date, the custodian shall send the record to the requester as soon as practicable but no more than three business days after receipt of, or making arrangements to receive, such payment.

(2) If the custodian does not have facilities for making a copy, printout, or photograph of a record that a person has the right to inspect, the person shall be granted access to the record for the purpose of making a copy, printout, or photograph. The copy, printout, or photograph shall be made while the record is in the possession, custody, and control of the custodian thereof and shall be subject to the supervision of the custodian. When practical, the copy, printout, or photograph shall be made in the place where the record is kept, but if it is impractical to do so, the custodian may allow arrangements to be made for the copy, printout, or photograph to be made at other facilities. If other facilities are necessary, the cost of providing them shall be paid by the person desiring a copy, printout, or photograph of the record. The custodian may establish a reasonable schedule of times for making a copy, printout, or photograph and may charge the

same fee for the services rendered in supervising the copying, printing out, or photographing as the custodian may charge for furnishing a copy, printout, or photograph under subsection (5) of this section.

(3) If, in response to a specific request, the state or any of its agencies, institutions, or political subdivisions has performed a manipulation of data so as to generate a record in a form not used by the state or by said agency, institution, or political subdivision, a reasonable fee may be charged to the person making the request. Such fee shall not exceed the actual cost of manipulating the said data and generating the said record in accordance with the request. Persons making subsequent requests for the same or similar records may be charged a fee not in excess of the original fee.

(4) If the public record is a result of computer output other than word processing, the fee for a copy, printout, or photograph thereof may be based on recovery of the actual incremental costs of providing the electronic services and products together with a reasonable portion of the costs associated with building and maintaining the information system. Such fee may be reduced or waived by the custodian if the electronic services and products are to be used for a public purpose, including public agency program support, nonprofit activities, journalism, and academic research. Fee reductions and waivers shall be uniformly applied among persons who are similarly situated.

(5) (a) A custodian may charge a fee not to exceed twenty-five cents per standard page for a copy of a public record or a fee not to exceed the actual cost of providing a copy, printout, or photograph of a public record in a format other than a standard page.

(b) Notwithstanding paragraph (a) of this subsection (5), an institution, as defined in section 24-72-202 (1.5), that is the custodian of scholastic achievement data on an individual person may charge a reasonable fee for a certified transcript of the data.

(6) (a) A custodian may impose a fee in response to a request for the research and retrieval of public records only if the custodian has, prior to the date of receiving the request, either posted on the custodian's website or otherwise published a written policy that specifies the applicable conditions concerning the research and retrieval of public records by the custodian, including the amount of any current fee. Under any such policy, the custodian shall not impose a charge for the first hour of time expended in connection with the research and retrieval of public records. After the first hour of time has been expended, the custodian may charge a fee for the research and retrieval of public records that shall not exceed thirty dollars per hour.

(b) On July 1, 2019, and by July 1 of every five-year period thereafter, the director of research of the legislative council appointed pursuant to section 2-3-304 (1) shall adjust the maximum hourly fee specified in subsection (6)(a) of this section in accordance with the percentage change over the period in the United States department of labor, bureau of labor statistics, consumer price index for Denver-Aurora-Lakewood for all items and all urban consumers, or its successor index. The director of research shall post the adjusted maximum hourly fee on the website of the general assembly.

**24-72-205.5. Public inspection of ballots - stay period - recounts - rules governing public inspection of ballots - legislative declaration - definitions.** (1) (a) By enacting this section, the general assembly intends to permit the inspection of ballots under the conditions specified in this section and to protect the integrity of the election process while protecting voter privacy and preserving secrecy in voting in accordance with the provisions of section 8 of article VII of the state constitution.

(b) In order to facilitate and ensure a consistent application of the provisions of this section across the state, the matters addressed in this section are matters of statewide concern.

(2) As used in this section, unless the context otherwise requires:

(a) "Ballot" means a ballot voted by any acceptable, applicable, or legal method that is in the custody of an election official. "Ballot" includes any digital image or electronic representation of votes cast.

(b) "Designated election official" has the same meaning as set forth in section 1-1-104 (8), C.R.S.

(c) "Interested party" means:

(I) Any candidate who was in an election contest that is the subject of a recount or the political party or political organization as defined in section 1-1-104 (24), C.R.S., of such candidate;

(II) Any petition representative identified pursuant to section 1-40-113 or 31-11-106 (2), C.R.S., as applicable, in connection with a ballot issue or ballot question that is the subject of the recount;

(III) The governing body that referred a ballot question or ballot issue to the electorate that is the subject of the recount; or

(IV) The agent of an issue committee that is required to report contributions pursuant to the "Fair Campaign Practices Act", article 45 of title 1, C.R.S., that either supported or opposed a ballot question or ballot issue that is the subject of the recount.

(3) (a) Except as otherwise provided in paragraph (b) of this subsection (3), the designated election official shall not fulfill a request under this part 2 for the public inspection of ballots during the period commencing with the forty-fifth day preceding election day and concluding with the date either by which the designated election official is required to certify an official abstract of votes cast for the applicable candidate contest or ballot issue or ballot question pursuant to section 1-10-102 or 31-10-1205 (1), C.R.S., as applicable, or by which any recount conducted in accordance with article 10.5 of title 1, C.R.S., or section 31-10-1207, C.R.S., is completed, as applicable, whichever date is later. The denial of public inspection of ballots authorized pursuant to this paragraph (a) shall also apply to any internal batch reports generated by a designated election official for the specific purpose of auditing ballots received in the course of conducting an election.

(b) Notwithstanding any other provision of this section, the denial of public inspection of ballots authorized pursuant to paragraph (a) of this subsection (3) shall apply to a recount that is

conducted in accordance with the provisions of article 10.5 of title 1, C.R.S., or section 31-10-1207, C.R.S., as applicable; except that, during the period described in paragraph (a) of this subsection (3), an interested party may inspect and request copies of ballots in connection with such recount without having to obtain a court order granting such inspection. In connection with an inspection by an interested party as authorized by this paragraph (b), an interested party may witness the handling of ballots involved in the recount to verify that the recount is being conducted in a fair, impartial, and uniform manner so as to determine that all ballots that have been cast are accurately interpreted and counted; except that an interested party is not permitted to handle the original ballots. Except as specified in this paragraph (b), nothing in this section shall be construed to prohibit an interested party from requesting copies of ballots in connection with a recount, to affect the conduct of a recount, or to affect the rights of an interested party in connection with a recount.

(c) Notwithstanding any other provision of this section, nothing in this section shall be construed to restrict the public inspection of election records as defined in section 1-1-104 (11), C.R.S.; except that, for purposes of this section, election records shall not include ballots.

(4) (a) In accordance with the provisions of section 24-72-203 (1)(a) and in addition to any other requirements that are applicable to a person requesting the inspection of public records under this part 2, prior to and later than the stay period described in paragraph (a) of subsection (3) of this section, ballots shall be available for inspection by the public in accordance with the requirements of this part 2.

(b) In connection with the public inspection of the ballots to which this section pertains:

(I) The original ballots shall at all times remain in the custody of the designated election official or his or her designee. In the discretion of the designated election official or his or her designee, and subject to the provisions of paragraph (a) of this subsection (4) and this part 2, the designated election official or his or her designee shall determine the manner in which such ballots may be viewed by the public.

(II) The designated election official or his or her designee shall cover or redact, based upon the most practical means available, any markings or message on a ballot that may identify the particular elector who cast the ballot before the ballot may be made available for public inspection;

(III) To protect the privacy of particular electors, any ballots cast by electors within groups of discrete individuals who are more susceptible of being personally identified, such as military and overseas electors, shall be made available for public inspection only to the extent such ballots may be duplicated without identifying elector information. Insofar as such ballots are not able to be duplicated without identifying elector information, they are not available for public inspection. Notwithstanding any other provision of this section, no ballot, or any portion thereof, may be made available for inspection where the ballot, or any requested portion thereof, is identical in printed form, considering a combination of the election contests at issue and precinct coding, to only nine or fewer ballots, or comparable portions thereof, among all ballots used in the same election. However, any such ballot, or any requested portion thereof, that is identical in printed form to ten or more ballots, or comparable portions thereof, used in the same election may be inspected.

(IV) To protect the privacy of particular electors, ballots made available for inspection may be presented in random order selected by the designated election official or his or her designee;

(V) For the purpose of minimizing the costs of making ballots available for public inspection, the person seeking the inspection may indicate the candidate contest, ballot issue, or ballot question for which the person seeks to inspect the ballots; and

(VI) Any actual costs incurred by the office of the designated election official in making the ballots available for inspection in accordance with the requirements of this section may be charged to the person requesting inspection of the ballots. If the designated election official selects a person other than an employee of his or her office to conduct the duties required by this section, the actual costs to be charged the person seeking inspection shall not exceed the actual costs that would have been incurred if the work involved in complying with the requirements of this section was completed by an employee of the designated election official.

(5) Notwithstanding any other provision of this section, nothing in this section affects either the rights of a watcher set forth in the provisions of titles 1 and 31, C.R.S., or the operation of a canvass board in accordance with the provisions of articles 1 to 13 of title 1, C.R.S.

(1) Each official action as defined in this part 3 shall be recorded by the particular criminal justice agency taking the official action. Such records of official actions shall be maintained by the particular criminal justice agency which took the action and shall be open for inspection by any person at reasonable times, except as provided in this part 3 or as otherwise provided by law. The official custodian of any records of official actions may make such rules and regulations with reference to the inspection of such records as are reasonably necessary for the protection of such records and the prevention of unnecessary interference with the regular discharge of the duties of the custodian or his office.

(2) If the requested record of official action of a criminal justice agency is not in the custody or control of the person to whom application is made, such person shall forthwith notify the applicant of this fact in writing, if requested by the applicant. In such notification, he shall state, in detail to the best of his knowledge and belief, the agency which has custody or control of the record in question.

(3) If the requested record of official action of a criminal justice agency is in the custody and control of the person to whom application is made but is in active use or in storage and therefore not available at the time an applicant asks to examine it, the custodian shall forthwith notify the applicant of this fact in writing, if requested by the applicant. If requested by the applicant, the custodian shall set a date and hour within three working days at which time the record will be available for inspection.

(4) (a) Upon completion of an internal investigation, including any appeals process, that examines the in-uniform or on-duty conduct of a peace officer, as described in part 1 of article 2.5 of title 16, related to an incident of alleged misconduct involving a member of the public, the

entire investigation file, including the witness interviews, video and audio recordings, transcripts, documentary evidence, investigative notes, and final departmental decision is open for public inspection upon request; except that the custodian may first provide the requester with a summary of the investigation file and if, after reviewing the summary, the requester requests access to the investigation file, the custodian shall provide access to the entire investigation file subject to the provisions of subsections (4)(b), (4)(c), and (4)(d) of this section.

(b) Prior to providing access to the internal investigation file pursuant to subsection (4)(a) of this section, the custodian shall redact or remove the following information from the disclosed records:

(I) Any personal identifying information as defined by section 6-1-713 (2)(b);

(II) Any identifying or contact information related to confidential informants, witnesses, or victims;

(III) The home address, personal phone number, and personal e-mail address of a peace officer;

Whenever possible, the video should be redacted or blurred to protect the privacy interest while still allowing public release.

However, nothing in this subsection (4)(c)(I)(E) justifies or permits the redaction or withholding of information describing or depicting use of force by a peace officer on a member of the public.

(II) If a record contains information redacted pursuant to this subsection (4)(c), the applicant may request a written explanation of the reasons for the redaction.

(d) A witness, victim, or criminal defendant may waive in writing the individual privacy interest that may be implicated by public release. Upon receipt of such a written waiver,

accompanied by a request for release of the records, the custodian shall not redact, remove, or withhold records to protect the waived privacy interest.

(e) Notwithstanding the provisions of subsection (4)(a) of this section, the custodian of an internal investigation file as described in subsection (4)(a) of this section may deny inspection of the file if there is an ongoing criminal investigation or criminal case against a peace officer related to the subject of the internal investigation. The investigation file must be open for public inspection upon the dismissal of all charges or upon a sentence for a conviction.

(f) Any person who has been denied access to any information in a completed internal affairs investigation file may file an application in the district court in the county where the records are located for an order directing the custodian thereof to show cause why the withheld or redacted information should not be made available to the applicant. The court shall set the hearing on the order to show cause at the earliest practical time. If the court determines, based on its independent judgment, applying de novo review, that any portion or portions of the completed internal affairs investigation file were improperly withheld pursuant to this section, the court shall order the custodian to provide the applicant with a copy of those portions that were improperly withheld.

(g) Notwithstanding the provisions of subsections (4)(a) and (4)(e) of this section, the custodian of an internal investigation file as described in subsection (4)(a) of this section may deny inspection of the file if the inspection is prohibited by rules promulgated by the Colorado supreme court or by a court order.

**24-72-702. Expungement of arrest records in case of mistaken identity - definitions.**

(1) (a) Notwithstanding any other provision of law, a court shall expunge the arrest and criminal records information of a person who was arrested as a result of mistaken identity and who did not have charges filed against him or her.

(b) No later than ninety days after an investigation by a law enforcement agency finds that a person was arrested as a result of mistaken identity and no charges were filed, the law enforcement agency that made the arrest shall petition the district court in the judicial district where the person was arrested for an expungement order for the arrest and criminal records information made as a result of the mistaken identity, at no cost to the person arrested. A petition filed pursuant to this subsection (1)(b) is not subject to a filing fee.

(c) No later than ninety days after receiving the petition, the court shall order the expungement of the arrest and criminal records information and all other administrative records of the law enforcement agency relating to the person's arrest as a result of mistaken identity.

(2) The courts shall direct any order entered pursuant to subsection (1)(c) of this section to every custodian who may have custody of any part of the arrest and criminal records information that is the subject of the order. When a court enters an order expunging criminal records pursuant to subsection (1)(c) of this section, the petitioner shall provide the Colorado bureau of investigation and every custodian of such records with a copy of the order. The petitioner shall provide a private custodian with a copy of the order and send the private custodian an electronic notification of the order. Each private custodian that receives a copy of the order from the petitioner shall remove the records that are subject to the order from its database. Thereafter, the court may issue an order sealing the civil case in which the records were sealed.

(3) Upon the entry of an order to expunge the records, the petitioner and all criminal justice agencies may properly reply, upon any inquiry into the matter, that no such records exist with respect to the person.

(4) Employers, educational institutions, state and local government agencies, officials, and employees shall not, in any application or interview or in any other way, require an applicant to disclose any information contained in expunged records. An applicant need not, in answer to any question concerning arrest and criminal records information that has been expunged, include a reference to or information concerning the expunged information and may state that no such action has ever occurred. Such an application may not be denied solely because of the applicant's refusal to disclose arrest and criminal records information that has been expunged.

**24-72-703. Sealing of arrest and criminal records - general provisions - order applicability - discovery and advisements.** (1) **Applicability.** The provisions of this section shall apply to the sealing of arrest and criminal records pursuant to sections 24-72-704 to 24-72-710.

(2) **Effect of a sealing order.** (a) (I) An order sealing arrest or other criminal records does not deny access to the criminal records of a petitioner or defendant by any court, law enforcement agency, criminal justice agency, prosecuting attorney, or party or agency required by law to conduct a criminal history record check on an individual.

(II) An order sealing conviction records does not vacate a conviction.

(III) A conviction sealed pursuant to this article 72 may be used by a criminal justice agency, law enforcement agency, court, or prosecuting attorney for any lawful purpose relating to the investigation or prosecution of any case, including but not limited to any subsequent case that is filed against the petitioner or defendant, or for any other lawful purpose within the scope of his, her, or its duties. A party or agency required by law to conduct a criminal history record check is authorized to use any sealed conviction for the lawful purpose for which the criminal history record check is required by law.

(IV) Criminal justice information and criminal justice records in the possession of a criminal justice agency may be shared with any other criminal justice agency when an inquiry concerning the arrest and criminal justice information or records is made.

(V) If a defendant is convicted of a new criminal offense after an order sealing conviction records is entered, the court shall order the conviction records to be unsealed.

(b) Except as otherwise provided in subsection (2)(a)(I) of this section, upon the entry of an order to seal the criminal records, the defendant and all criminal justice agencies may properly reply, upon an inquiry into the matter, that public criminal records do not exist with respect to the petitioner or defendant.

(c) Except as otherwise provided in subsection (2)(a)(I) of this section, inspection of the records included in an order sealing criminal records may thereafter be permitted by the court only upon petition by the petitioner or defendant.

(d) (I) Except as otherwise provided in subsection (2)(a)(I) of this section, employers, state and local government agencies, officials, landlords, and employees shall not require an applicant to disclose any information contained in sealed conviction records in any application or interview or in any other way. An applicant does not need to include a reference to or information concerning the sealed conviction records in answer to any question concerning conviction records that have been sealed and may state that the applicant has not been criminally convicted. An application may not be denied solely because of the applicant's refusal to disclose conviction records that have been sealed.

(II) Subsection (2)(d)(I) of this section does not preclude the bar committee of the Colorado state board of law examiners from making further inquiries into the fact of a conviction

that comes to the attention of the bar committee through other means. The bar committee of the Colorado state board of law examiners has a right to inquire into the moral and ethical qualifications of an applicant, and the applicant has no right to privacy or privilege that justifies his or her refusal to answer any question concerning arrest and criminal records information that has come to the attention of the bar committee through other means.

(III) Notwithstanding the provisions of subsection (2)(d)(I) of this section, the department of education shall require a licensed educator or an applicant for an educator's license who files a petition to seal a criminal record to notify the department of education of the pending petition to seal. The department of education has the right to inquire into the facts of the criminal offense for which the petition to seal is pending. The educator or applicant has no right to privacy or privilege that justifies his or her refusal to answer any questions of the department of education concerning the arrest and criminal records information contained in the pending petition to seal.

(3) A person may only file a petition with the court for sealing of each case once every twelve-month period, unless otherwise provided by the court.

(4) Nothing in this part 7 regarding sealing of records authorizes the physical destruction of any conviction records.

(5) (a) Inspection of the court records included in an order sealing criminal records may be permitted by the court only upon petition by the petitioner or the defendant who is the subject of the records or by the prosecuting attorney and only for those purposes named in the petition. This petition to inspect the criminal justice records must be filed by the petitioning party within the case in which the sealing order was entered.

(b) Notwithstanding the provisions of subsections (2)(b) and (2)(c) of this section, the prosecuting attorney or the law enforcement agency may release to the victim in the sealed case copies of police reports or any protection orders issued in the sealed case if the victim demonstrates to the prosecuting attorney or law enforcement agency a need for the reports or court orders for a lawful purpose. The prosecuting attorney, including staff of the prosecuting attorney's office or a victim or witness assistance program, or the staff of a law enforcement agency or law enforcement victim assistance program, may discuss the sealed case, the results of the sealing proceedings, and information related to any victim services available to the victim.

(c) Notwithstanding any other provision of this section, any member of the public may petition the court to unseal any court file of a criminal conviction that has previously been sealed upon a showing that circumstances have come into existence since the original sealing and, as a result, the public interest in disclosure now outweighs the defendant's interest in privacy.

(6) For the purpose of protecting the author of any correspondence that becomes a part of criminal justice records, the court having jurisdiction in the judicial district in which the criminal justice records are located may, in its discretion, with or without a hearing, enter an order to seal any information, including but not limited to basic identification information contained in the correspondence that is part of the record in the criminal case. However, the court may, in its discretion, enter an order that allows the disclosure of sealed information to defense counsel or, if the defendant is not represented by counsel, to the defendant.

(7) **Rules of discovery - rules of evidence - witness testimony.** Court orders sealing records of official actions pursuant to this part 7 do not limit the operations of:

(a) The rules of discovery or the rules of evidence promulgated by the supreme court of Colorado or any other state or federal court;

(b) The provisions of section 13-90-101 concerning witness testimony.

(8) **Service of sealing order.** The court shall direct a sealing order entered pursuant to this part 7 to each custodian who may have custody of any part of the conviction records that are the subject of the order. Whenever a court enters an order sealing conviction records, the defendant shall provide the Colorado bureau of investigation and each custodian of the conviction records with a copy of the order. The petitioner shall provide a private custodian with a copy of the order and send the private custodian an electronic notification of the order. Each private custodian that receives a copy of the order from the petitioner shall remove the records that are subject to an order from its database. The defendant shall pay to the bureau any costs related to the sealing of his or her criminal conviction records in the custody of the bureau. Thereafter, the defendant may request and the court may grant an order sealing the civil case in which the conviction records were sealed.

(9) **Advisements.** (a) Whenever a defendant is sentenced following a conviction for an offense described in sections 24-72-706 to 24-72-708, the court shall provide him or her with a written advisement of his or her rights concerning the sealing of his or her conviction records pursuant to this section if he or she complies with the applicable provisions of this section.

(b) In addition to, and not in lieu of, the requirement described in subsection (9)(a) of this section:

(I) If a defendant is sentenced to probation following a conviction for an offense described in sections 24-72-706 to 24-72-708, the probation department, upon the termination of the defendant's probation, shall provide the defendant with a written advisement of his or her rights concerning the sealing of his or her conviction records pursuant to this section if he or she complies with the applicable provisions of this section; or

(II) If a defendant is released on parole following a conviction for an offense described in sections 24-72-706 to 24-72-708, the defendant's parole officer, upon the termination of the defendant's parole, shall provide the defendant with a written advisement of his or her rights concerning the sealing of his or her conviction records pursuant to this section if he or she complies with the applicable provisions of this section.

(10) If the person in interest has successfully completed a veterans treatment program established pursuant to section 13-5-144 in the case that is the subject of the petition to seal, the court shall consider such factor favorably in determining whether to issue an order to seal records pursuant to this section.

(10.5) If the person in interest has entered into or successfully completed a substance use disorder treatment program licensed pursuant to section 27-80-205 in the case that is the subject of the petition to seal, the court shall consider such factor favorably in determining whether to issue an order to seal records pursuant to this section.

(11) A defendant shall not be required to waive his or her right to file a motion to seal pursuant to the provisions of this section as a condition of a plea agreement in any case.

(12) **Exclusions.** (a) (I) Notwithstanding any provision in this part 7 to the contrary, in regard to any conviction of the defendant resulting from a single case in which the defendant is convicted of more than one offense, records of the conviction may be sealed pursuant to the provisions of this part 7 only if the records of every conviction of the defendant resulting from that case may be sealed pursuant to the provisions of this part 7.

(II) If a criminal case is dismissed or if a criminal offense is not charged due to a plea agreement in a separate case, the records are eligible for sealing at such time as the criminal case

in which the conviction was entered is eligible for sealing pursuant to the provisions of this part 7.

(b) Conviction records must not be sealed if the defendant still owes restitution, fines, court costs, late fees, or other fees ordered by the court in the case that is the subject of the motion to seal, unless the court that entered the order has vacated the order.

(c) Sealing is not available for cases when the only charges were as follows:

(I) A class 1 or 2 misdemeanor traffic offense; or

(II) A class A or B traffic offense.

(d) Sealing is not available for:

(I) Records pertaining to a deferred judgment and sentence concerning the holder of a commercial driver's license as defined in section 42-2-402 or the operator of a commercial motor vehicle as defined in section 42-2-402; and

(II) Records pertaining to a deferred judgment and sentence for a felony offense for the factual basis involved in unlawful sexual behavior as defined in section 16-22-102 (9).

**24-72-704. Sealing of arrest records when no charges filed - automatic sealing. (1)**

(a) Any person in interest may petition the district court of the district in which any arrest and criminal records information pertaining to the person in interest is located for the sealing of all of the records, except basic identification information, if the records are a record of official actions involving a criminal offense for which the person in interest:

(I) Completed a diversion agreement pursuant to section 18-1.3-101 and no criminal charges were ever filed;

(II) Was not charged and the statute of limitations for the offense for which the person was arrested that has the longest statute of limitations has run; or

(III) Was not charged and the statute of limitations has not run but the person is no longer being investigated by law enforcement for commission of the offense.

(b) Any petition to seal criminal records shall include a listing of each custodian of the records to whom the sealing order is directed and any information that accurately and completely identifies the records to be sealed.

(c) (I) Upon the filing of a petition, the court shall review the petition and determine whether the petition is sufficient on its face. If the court determines that the petition on its face is insufficient or if the court determines that, after taking judicial notice of matters outside the petition, the petitioner is not entitled to relief pursuant to this section, the court shall enter an order denying the petition and mail a copy of the order to the petitioner or, as permitted, serve the order pursuant to Colorado supreme court rules. The court's order must specify the reasons for the denial of the petition.

(II) If the court determines that the petition is sufficient on its face and that no other grounds exist at that time for the court to deny the petition pursuant to this section, the court shall set a date for a hearing at least thirty-five days after the determination and notify the prosecuting attorney, the arresting agency, and any other person or agency identified by the petitioner of the hearing date. If no objection is received by the court seven days prior to the

hearing date, the court shall vacate the hearing and order such records, except for basic identification information, to be sealed. If an objection is filed and the court determines at a hearing or otherwise that the objection provides facts that make the petitioner ineligible for sealing of the arrest records, the court shall deny the petition and provide a copy of the order to the petitioner. The court's order must specify the reasons for the denial of the petition. If the objection does not provide facts that make the petitioner ineligible for sealing of the arrest records, the court shall order such records, except basic identification information, to be sealed.

(d) Inspection of the records included in an order sealing criminal records may be permitted by the court only upon petition by the person who is the subject of the records or by the prosecuting attorney and only for those purposes named in the petition.

(2) (a) For arrests on or after January 1, 2022, the Colorado bureau of investigation in the department of public safety shall automatically seal an arrest record that is in its custody and control of a person when no criminal charges have been filed within one year of the date of the person's arrest. If the Colorado bureau of investigation does not receive documentation of the filing of criminal charges matching arrest records in its custody and control from a court or another state or local agency or office within one year of the date of arrest, the bureau shall seal the arrest records. The Colorado bureau of investigation is not required to conduct any independent investigation of whether criminal charges have been filed and is not required to seal any arrest records not in its custody and control. An arrest record eligible for sealing pursuant to this subsection (2)(a) must be sealed within sixty days after the year has passed since the person's arrest date. If the Colorado bureau of investigation receives notice of filed charges after it sealed the record, the bureau shall immediately unseal the record.

(b) (I) For arrests without a conviction after January 1, 2019, but before January 1, 2022, the Colorado bureau of investigation shall automatically seal an arrest record that is in its custody and control of a person when no criminal charges have been filed:

(A) Within three years after the date of arrest for a felony offense for which the statute of limitations is three years; or

(B) Within eighteen months after the date of arrest for a misdemeanor offense, a misdemeanor traffic offense, a petty offense, a municipal ordinance violation for which the statute of limitations is eighteen months or less, or if there is no indication of the classification of the crime in the arrest data.

(II) If the Colorado bureau of investigation does not receive documentation from a court or another state or local agency or office that criminal charges have been filed within the time periods provided in subsection (2)(b)(I) of this section, the bureau shall seal the arrest records in its custody and control. The Colorado bureau of investigation is not required to conduct any independent investigation of whether criminal charges have been filed and is not required to seal any arrest records not in its custody and control. If the Colorado bureau of investigation receives notice of filed charges after it sealed the record, the bureau shall immediately unseal the record.

(III) This subsection (2)(b) only applies to criminal arrest records that the Colorado bureau of investigation has custody and control over in an electronic format.

(IV) (A) For arrest records with no conviction that are from 2013 to 2018, the Colorado bureau of investigation shall seal the records by January 1, 2023.

(D) For arrest records with no conviction that are from 1997 to 2002, the Colorado bureau of investigation shall seal the records by January 1, 2026.

(E) For any other arrest records with no conviction, the Colorado bureau of investigation shall seal the records by January 1, 2027.

(V) Arrest records for a felony offense with a statute of limitations of more than three years or with no statute of limitations pursuant to section 16-5-401 are not eligible for sealing under this subsection (2).

(3) Notwithstanding subsection (2) of this section, the Colorado bureau of investigation shall develop a process to allow an approved treatment provider providing treatment pursuant to section 16-11.7-103 (4) or 16-11.8-103 (4) access to sealed arrest records. A treatment provider shall not use records accessed pursuant to this subsection (3) for any other purpose.

(4) The provisions of section 24-72-703 (2) apply to an arrest record sealed pursuant to this section.

(5) Sealing of arrest records under this section does not impair the ability of the department of education to access and use sealed records in connection with background checks, investigations, and disciplinary actions conducted under article 60.5 of title 22.

(c) If the defendant moves pursuant to subsection (1)(a) of this section to seal his or her criminal justice records pursuant to the expedited procedures of this section, the court shall promptly process the defendant's request to seal the criminal justice records within the criminal case without the filing of an independent civil action and without any further evidence except for evidence of the dismissal or acquittal. Motions filed pursuant to this section are procedural in nature, and sealing pursuant to this section applies retroactively for all eligible cases when the case has been completely dismissed or the defendant has been acquitted of all counts in a state or municipal criminal case.

(d) Notwithstanding the provision of subsection (1)(c) of this section, if the defendant is acquitted or if the case dismissed is a crime enumerated in section 24-4.1-302 (1) in which notice of a hearing on a motion to seal is required pursuant to section 24-4.1-303 (11)(b.7), the court shall allow the district attorney the opportunity to inform the victim that the record will be sealed and shall set a return date for the sealing motion no later than forty-two days after receipt of the motion.

(c) When the motion to seal the criminal case is filed in municipal court, the processing fees collected pursuant to subsection (2)(a) of this section must be reported and paid as municipal costs and must be transmitted to the treasurer of the municipality and deposited in the general fund of the municipality pursuant to section 13-10-115.

**24-72-706. Sealing of criminal conviction records. (1) Sealing of conviction records.**

(a) Subject to the limitations described in subsection (2) of this section, a defendant may file a motion in the criminal case in the court in which any conviction records pertaining to the defendant are located for the sealing of the conviction records, except basic identification information, if the motion is filed within the time frame described in subsection (1)(b) of this section and proper notice is given to the district attorney.

(b) (I) If the offense is a petty offense or a drug petty offense, the motion may be filed one year after the later of the date of the final disposition of all criminal proceedings against the defendant or the release of the defendant from supervision concerning a criminal conviction.

(II) If the offense is a class 2 or class 3 misdemeanor or any drug misdemeanor, the motion may be filed two years after the later of the date of the final disposition of all criminal proceedings against the defendant or the release of the defendant from supervision concerning a criminal conviction.

(III) If the offense is a class 4, class 5, or class 6 felony, a level 3 or level 4 drug felony, or a class 1 misdemeanor, the motion may be filed three years after the later of the date of the final disposition of all criminal proceedings against the defendant or the release of the defendant from supervision concerning a criminal conviction.

(IV) Subject to the limitations in subsection (2) of this section, for all other offenses, the petition may be filed five years after the later of the date of the final disposition of all criminal

proceedings against the defendant or the release of the defendant from supervision concerning a criminal conviction.

(c) A motion to seal conviction records pursuant to this section shall include a listing of each custodian of the records to whom the sealing order is directed and any information that accurately and completely identifies the records to be sealed. The defendant shall submit a verified copy of the defendant's criminal history, current through at least the twentieth day before the date of the filing of the petition to the court, along with the motion at the time of filing, but in no event later than the tenth day after the motion is filed. The defendant shall pay for his or her criminal history record.

(d) Upon the filing of any motion pursuant to this section, the court shall initially review the motion and determine whether there are grounds pursuant to this section to proceed to a hearing on the motion. If the court determines that the motion on its face is insufficient or if the court determines that, after taking judicial notice of matters outside the motion, the defendant is not entitled to relief pursuant to this section, the court shall enter an order denying the motion and mail a copy of the order to the defendant. The court's order shall specify the reasons for the denial of the motion. If the court determines that the motion is sufficient on its face and that no other grounds exist at that time for the court to deny the motion pursuant to this section, the court shall proceed pursuant to the provisions of this section.

(e) Conviction records may not be sealed if the defendant still owes restitution, fines, court costs, late fees, or other fees ordered by the court in the case that is the subject of the motion to seal conviction records, unless the court that entered the order for restitution, fines, court costs, late fees, or other fees vacated the order.

(f) (I) If a motion is filed for the sealing of a petty offense, petty drug offense, or, notwithstanding any provision of this part 7 to the contrary, an offense for the possession of marijuana, the court shall order that the records be sealed after the motion is filed and the criminal history filed with the court documents to the court that the defendant has not been convicted of a criminal offense since the date of the final disposition of all criminal proceedings against the defendant or since the date of the defendant's release from supervision, whichever is later.

(II) If a motion is filed for the sealing of a class 2 or class 3 misdemeanor or any drug misdemeanor, the defendant shall provide notice of the motion to the district attorney. The district attorney shall determine whether to object to the motion after considering the factors in subsection (1)(g) of this section. If the district attorney does not object and the offense is not a crime enumerated in section 24-4.1-302 (1), the court shall order that the records be sealed if the criminal history filed with the court documents to the court that the defendant has not been convicted of a criminal offense since the date of the final disposition of all criminal proceedings against him or her or since the date of the defendant's release from supervision, whichever is later. The district attorney shall advise the court of a victim's objection and request for hearing when known. If the district attorney objects to the motion or the offense is a crime enumerated in section 24-4.1-302 (1) and the victim requests a hearing, the court shall set the matter for hearing. The court may only seal the records if the criminal history filed with the motion as required by subsection (1)(c) of this section documents to the court that the defendant has not been convicted of a criminal offense since the date of the final disposition of all criminal proceedings against him or her or since the date of the defendant's release from supervision,

whichever is later. The court shall decide the motion after considering the factors in subsection (1)(g) of this section.

(III) If a motion is filed for the sealing of a class 4, class 5, or class 6 felony, a level 3 or level 4 drug felony, or a class 1 misdemeanor, the defendant shall provide notice of the motion to the district attorney. The district attorney shall determine whether to object to the motion after considering the factors in subsection (1)(g) of this section. If the district attorney does not object and the offense is not a crime enumerated in section 24-4.1-302 (1), the court may grant the motion with or without the benefit of a hearing. The district attorney shall advise the court of a victim's objection and request for hearing when known. If the district attorney objects to the motion or the offense is a crime enumerated in section 24-4.1-302 (1) and the victim requests a hearing, the court shall set the matter for hearing. The court may only seal the records if the criminal history filed with the motion as required by subsection (1)(c) of this section documents to the court that the defendant has not been convicted of a criminal offense since the date of the final disposition of all criminal proceedings against him or her or since the date of the defendant's release from supervision, whichever is later. The court shall decide the motion after considering the position of the district attorney and the factors in subsection (1)(g) of this section.

(IV) If a motion is filed for any other offense, the defendant shall provide notice of the petition to the district attorney. The district attorney shall determine whether to object to the motion after considering the factors in subsection (1)(g) of this section. The court shall set any motion filed for a hearing. The court shall decide the motion after consideration of the position of the district attorney and the factors in subsection (1)(g) of this section.

In making this determination, the court shall, at a minimum, consider the severity of the offense that is the basis of the conviction records sought to be sealed, the criminal history of the defendant, the number of convictions and dates of the convictions for which the defendant is seeking to have the records sealed, and the need for the government agency to retain the records.

(h) A defendant who files a motion to seal criminal justice conviction records pursuant to this section shall pay a processing fee of sixty-five dollars to cover the actual costs related to the sealing of the criminal justice records, which the court may waive upon a determination of indigency. The defendant shall pay to the Colorado bureau of investigation any costs related to the sealing of his or her criminal conviction records in the custody of the bureau.

(b) Notwithstanding the provisions of this section, a misdemeanor offense ineligible pursuant to the provisions of this section or subsection (2)(a) of this section is eligible for sealing pursuant to this section if the district attorney consents to the sealing or if the court finds, by clear and convincing evidence, that the petitioner's need for sealing of the record is significant and substantial, the passage of time is such that the petitioner is no longer a threat to public safety, and the public disclosure of the record is no longer necessary to protect or inform the public.

(II) Notwithstanding the provisions of subsection (1)(a)(I)(B) of this section, a defendant may petition the district court of the district in which any conviction records pertaining to the defendant for a municipal violation, except a municipal assault or battery offense in which the underlying factual basis involves domestic violence, as defined in section 18-6-800.3 (1), or any other municipal violation in which the underlying factual basis involves domestic violence, as defined in section 18-6-800.3 (1), or petty offense are located for the sealing of the conviction records, except basic identification information, if:

(B) That offense occurred within three years of the date of the final disposition of all criminal proceedings against him or her related to the conviction that the defendant is seeking to have sealed or within three years of the date of the defendant's release from supervision related to the conviction that the defendant is seeking to have sealed, whichever is later; and

The court's order shall specify the reasons for the denial of the motion.

(b) If the court determines that the petition is sufficient on its face and that no other grounds exist at that time for the court to deny the petition pursuant to this section, the court shall set a date for a hearing and the court shall notify by certified mail the prosecuting attorney, the arresting agency, and any other person or agency identified by the defendant.

(3) After the hearing described in subsection (2) of this section is conducted and if the court finds that the harm to the privacy of the defendant or the dangers of unwarranted, adverse consequences to the defendant outweigh the public interest in retaining public access to the conviction records, the court may order the conviction records, except basic identification information, to be sealed. If the multiple conviction records are in different jurisdictions, the defendant shall file a petition in each jurisdiction with a conviction record that includes a copy of each petition filed in the other jurisdictions and provide notice of the petition to each district attorney.

(b) A motion to seal conviction records pursuant to this section must include a listing of each custodian of the records to whom the sealing order is directed and any information that accurately and completely identifies the records to be sealed. The defendant shall submit a verified copy of their criminal history, current through at least the twentieth day before the date of the filing of the petition to the court, along with the motion at the time of filing, but in no event later than the tenth day after the motion is filed. The defendant shall pay for his or her criminal history record.

(2) (a) If the offense or highest offense of the multiple offenses is an eligible petty offense or eligible petty drug offense, the petition may be filed two years after the later of the date of the final disposition of all criminal proceedings against the defendant or the release of the

defendant from supervision concerning the conviction, or the latest in time criminal conviction of the multiple convictions.

(b) If the offense or highest offense of the multiple offenses is an eligible misdemeanor or eligible misdemeanor drug offense, or eligible level 4 drug felony, the petition may be filed five years after the later of the date of the final disposition of all criminal proceedings against the defendant or the release of the defendant from supervision concerning the conviction, or the latest in time criminal conviction of the multiple convictions.

(4) (a) The defendant shall pay the processing fee to the court and provide notice of the petition to the district attorney. The district attorney shall determine whether to object to the petition after considering the factors in section 24-72-706 (1)(g). The district attorney shall advise the court of a victim's objection and request for hearing when known. If the district attorney does not object and the offense is not a crime enumerated in section 24-4.1-302 (1), the court may decide the petition with or without the benefit of a hearing. If the district attorney objects to the petition or the offense is a crime enumerated in section 24-4.1-302 (1) and the district attorney requests a hearing on behalf of a victim, the court shall set the matter for hearing. To order the record sealed, the criminal history filed with the petition must document to the court that the defendant has not been convicted of a criminal offense since the date of the final disposition of all criminal proceedings against him or her or since the date of the defendant's release from supervision, whichever is later. The court shall decide the petition after considering the factors in section 24-72-706 (1)(g).

(b) Conviction records may not be sealed if the defendant still owes restitution, fines, court costs, late fees, or other fees ordered by the court in the case that is the subject of the petition to seal conviction records, unless the court that entered the order for restitution, fines, court costs, late fees, or other fees has vacated the order.

**24-72.4-103. Web-based system - enhancements - procedure for challenging exclusions.** (1) The chief information officer shall modify the web-based system to meet the following requirements:

(a) Except as set forth in paragraphs (g) and (i) of this subsection (1), the state expenditures and revenues data included in the web-based system shall be the expenditure and revenue data included in the state's official book of record;

(b) The web-based system shall be accessible from the website maintained by the state, and each state agency with a website shall provide a link on the website home page to the system;

(c) The information on the web-based system shall be updated every five business days to include new expenditure and revenue data;

(d) The web-based system reports shall be available for download in a structured data format, such as extensible markup language;

(e) The web-based system shall include a method for users to provide feedback about the system;

(f) The web-based system shall include archived revenue and expenditure data for the ten prior state fiscal years; except that no data shall be required for any state fiscal year prior to July 1, 2009, and, for the 2009-10 state fiscal year only, no state revenue data shall be required to be archived;

(g) The web-based system shall not include the following information:

(I) Any information that is not a public record or that is exempt from disclosure pursuant to the "Colorado Open Records Act", part 2 of article 72 of this title, or pursuant to part 3 of article 72 of this title;

(II) Any information that is confidential pursuant to state or federal law;

(III) Any information contained in an unstructured data field; or

(IV) Any information that the chief financial officer of a state agency or the director or head of a state agency requests to not be disclosed because the potential injury to the public interest arising from the disclosure of such information on the web-based system outweighs the public interest in having such information publicly available on the web-based system. For purposes of this subparagraph (IV), the public interest arising from the disclosure of information shall include the protection of the privacy, safety, and security of individuals.

(h) For any information excluded from the web-based system pursuant to paragraph (g) of this subsection (1), the web-based system shall include:

(I) A description of the information excluded;

(II) The basis for exclusion; and

(III) The state agency that requested the exclusion;

(i) Regardless of the form of the data in the state's official book of record, the web-based system may provide access to aggregated information where:

(I) Access to each individual transaction is likely to hinder, rather than foster, the goal of accountability and transparency;

(II) An individual transaction includes information that is only partially excludable pursuant to paragraph (g) of this subsection (1); or

(III) An accounting code contained in the state's official book of record includes both includable and excludable transactions pursuant to paragraph (g) of this subsection (1);

(j) The web-based system shall include a link to the online database; and

(k) The web-based system shall include county expenditure and revenue data in accordance with section 24-72.4-106.

(2) (a) An individual may challenge the exclusion of information from the web-based system pursuant to paragraph (g) of subsection (1) of this section by sending written notice to the state agency that requested the exclusion. The notice shall set forth the basis for challenging the exclusion and shall cite this section.

(b) Within thirty calendar days of receiving a challenge to an exclusion pursuant to paragraph (a) of this subsection (2), the state agency receiving the challenge shall respond in writing to the challenger. In the response, the state agency may:

(I) Agree to withdraw the exclusion;

(II) Deny the challenge; or

(III) Agree to withdraw the exclusion, in part, and deny the challenge, in part.

(c) If, in response to the challenge, the state agency agrees to withdraw the exclusion, in whole or in part, then the state agency shall inform the state controller in writing within two working days of the date the response is sent to a challenger pursuant to paragraph (b) of this subsection (2), and the state controller shall make the appropriate information available on the web-based system promptly, which in no case shall be later than ten working days of receipt.

(d) If the state agency denies a challenge brought pursuant to paragraph (a) of this subsection (2), in whole or in part, or fails to respond to a challenge in writing within thirty calendar days, then a challenger may apply to the district court for the city and county of Denver

for an order directing the state agency denying the challenge to show cause why the challenged exclusion is proper; except that an action may not be initiated pursuant to this paragraph (d) if a state agency has first initiated an action pursuant to paragraph (e) of this subsection (2) with respect to the same exclusion. Upon a finding that information was improperly excluded from the web-based system, the court shall order the state agency to withdraw the exclusion and the state controller to make the excluded information available on the web-based system. In order to prevail in an application brought under this paragraph (d), a challenger shall bear the burden of proving by a preponderance of the evidence that the office or agency improperly excluded information from the web-based system.

(e) If the state agency, acting in good faith and after receiving notice of a challenge pursuant to paragraph (a) of this subsection (2), is unable to determine whether exclusion of information on the web-based system is proper pursuant to paragraph (g) of subsection (1) of this section, the state agency may apply to the district court for an order permitting the state agency to exclude information from the web-based system or for the court to determine that the exclusion is prohibited. In an action brought pursuant to this paragraph (e), the burden of proof shall be upon the state agency asserting the exclusion to prove by a preponderance of the evidence that the information may be properly excluded from the web-based system. A challenger shall have notice of the action served upon him or her in the manner provided for service of process by the Colorado rules of civil procedure and shall have the right to appear and be heard.

(f) (I) Except as set forth in subparagraph (II) of this paragraph (f), if a court determines that a state agency improperly excluded information from the web-based system, the court shall award reasonable attorney fees and costs to a challenger who appears in the court proceeding.

(II) The attorney fees provision of subparagraph (I) of this paragraph (f) shall not apply in cases brought pursuant to paragraph (e) of this subsection (2) if the court finds that the state agency acted in good faith and, after exercising reasonable diligence and making reasonable inquiry, was unable to determine if exclusion from the web-based system was proper without a ruling by the court.

(b) Confidential pursuant to state or federal law.

(3) The chief information officer shall separately include the most recent budget and the most recent revenue and expenditure data for each county in the web-based system in a data format that is similar to that for the state revenue and expenditures. The chief information officer shall archive past available county information in the same location as state archived revenue and expenditure data is stored. The chief information officer may aggregate a county's data if:

(a) Access to each individual transaction is likely to hinder, rather than foster, the goal of accountability and transparency; or

(2) **Disclosure of breach.** (a) A governmental entity that maintains, owns, or licenses computerized data that includes personal information about a resident of Colorado shall, when it becomes aware that a security breach may have occurred, conduct in good faith a prompt investigation to determine the likelihood that personal information has been or will be misused. The governmental entity shall give notice to the affected Colorado residents unless the investigation determines that the misuse of information about a Colorado resident has not occurred and is not reasonably likely to occur. Notice must be made in the most expedient time possible and without unreasonable delay, but not later than thirty days after the date of determination that a security breach occurred, consistent with the legitimate needs of law enforcement and consistent with any measures necessary to determine the scope of the breach and to restore the reasonable integrity of the computerized data system.

(b) In the case of a breach of personal information, notice required by this subsection (2) to affected Colorado residents must include, but need not be limited to, the following information:

(I) The date, estimated date, or estimated date range of the security breach;

(I) Direct the person whose personal information has been breached to promptly change his or her password and security question or answer, as applicable, or to take other steps appropriate to protect the online account with the person or business and all other online

accounts for which the person whose personal information has been breached uses the same username or e-mail address and password or security question or answer.

(II) For log-in credentials of an e-mail account furnished by the governmental entity, the governmental entity shall not comply with this section by providing the security breach notification to that e-mail address, but may instead comply with this section by providing notice through other methods, as defined in subsection (1)(f) of this section, or by clear and conspicuous notice delivered to the resident online when the resident is connected to the online account from an internet protocol address or online location from which the governmental entity knows the resident customarily accesses the account.

(e) A governmental entity that is required to provide notice pursuant to this subsection (2) is prohibited from charging the cost of providing such notice to individuals.

(f) Nothing in this subsection (2) prohibits the notice described in this subsection (2) from containing additional information, including any information that may be required by state or federal law.

(g) If a governmental entity uses a third-party service provider to maintain computerized data that includes personal information, then the third-party service provider shall give notice to and cooperate with the governmental entity in the event of a security breach that compromises such computerized data, including notifying the governmental entity of any security breach in the most expedient time and without unreasonable delay following discovery of a security breach, if misuse of personal information about a Colorado resident occurred or is likely to occur. Cooperation includes sharing with the covered entity information relevant to the security breach; except that such cooperation does not require the disclosure of confidential business information or trade secrets.

(h) Notice required by this section may be delayed if a law enforcement agency determines that the notice will impede a criminal investigation and the law enforcement agency has notified the governmental entity that operates in Colorado not to send notice required by this section. Notice required by this section must be made in good faith, in the most expedient time possible and without unreasonable delay, but not later than thirty days after the law enforcement agency determines that notification will no longer impede the investigation, and has notified the governmental entity that it is appropriate to send the notice required by this section.

(i) If a governmental entity is required to notify more than one thousand Colorado residents of a security breach pursuant to this section, the governmental entity shall also notify, in the most expedient time possible and without unreasonable delay, all consumer reporting agencies that compile and maintain files on consumers on a nationwide basis, as defined by the federal "Fair Credit Reporting Act", 15 U.S.C. sec. 1681a (p), of the anticipated date of the notification to the residents and the approximate number of residents who are to be notified. Nothing in this subsection (2)(i) requires the governmental entity to provide to the consumer reporting agency the names or other personal information of security breach notice recipients. This subsection (2)(i) does not apply to a person who is subject to Title V of the federal "Gramm-Leach-Bliley Act", 15 U.S.C. sec. 6801 et seq.

(j) A waiver of these notification rights or responsibilities is void as against public policy.

(k) (I) The governmental entity that must notify Colorado residents of a data breach pursuant to this section shall provide notice of any security breach to the Colorado attorney general in the most expedient time possible and without unreasonable delay, but not later than thirty days after the date of determination that a security breach occurred, if the security breach is reasonably believed to have affected five hundred Colorado residents or more, unless the investigation determines that the misuse of information about a Colorado resident has not occurred and is not likely to occur.

(II) The Colorado attorney general shall designate a person or persons as a point of contact for functions set forth in this subsection (2)(k) and shall make the contact information for that person or those persons public on the attorney general's website and by any other appropriate means.

(l) The breach of encrypted or otherwise secured personal information must be disclosed in accordance with this section if the confidential process, encryption key, or other means to decipher the secured information was also acquired or was reasonably believed to have been acquired in the security breach.

(3) **Procedures deemed in compliance with notice requirements.** (a) Pursuant to this section, a governmental entity that maintains its own notification procedures as part of an information security policy for the treatment of personal information and whose procedures are otherwise consistent with the timing requirements of this section is in compliance with the notice requirements of this section if the governmental entity notifies affected Colorado residents in accordance with its policies in the event of a security breach; except that notice to the attorney general is still required pursuant to subsection (2)(k) of this section.

(b) A governmental entity that is regulated by state or federal law and that maintains procedures for a security breach pursuant to the laws, rules, regulations, guidances, or guidelines established by its state or federal regulator is in compliance with this section; except that notice to the attorney general is still required pursuant to subsection (2)(k) of this section. In the case of a conflict between the time period for notice to individuals, the law or regulation with the shortest notice period controls.

(4) **Violations.** The attorney general may bring an action for injunctive relief to enforce the provisions of this section.

(5) **Attorney general criminal authority.** Upon receipt of notice pursuant to subsection (2) of this section, and with either a request from the governor to prosecute a particular case or with the approval of the district attorney with jurisdiction to prosecute cases in the judicial district where a case could be brought, the attorney general has the authority to prosecute any criminal violations of section 18-5.5-102.

## ARTICLE 74

### Protection of Personal Identifying Information

**24-74-101. Legislative declaration.** (1) The general assembly hereby finds and declares that:

(a) State agencies increasingly collect residents' personal information to be able to provide a variety of services, including education, healthcare, financial assistance, and regulatory and enforcement activities designed to ensure the safety of Colorado residents;

(b) Colorado residents have a reasonable expectation that state agencies will not disclose this information with outside actors for unintended purposes;

(c) Coloradans' access to government services, including services that can be crucial in a time of crisis, is key to the collective health and wellness of the state;

(d) All Coloradans should feel welcome to be the recipients of state services without fear of abuse of their privacy or data;

(e) Any role that a state agency plays in enforcing federal immigration laws can undermine public trust and deter persons from accessing these services offered by state agencies;

(f) The United States and Colorado constitutions guarantee persons a legitimate expectation of privacy from unreasonable government intrusions;

(g) The federal government does not have the authority to command state or local officials to enforce or administer a federal regulatory program, as doing so would violate the tenth amendment to the United States constitution; and

(h) This article 74 is not intended to interfere with criminal investigations and proceedings authorized by judicial process or with the collection or sharing of information that may be necessary to provide Coloradans with government services and benefits.

(2) The general assembly further finds and declares that it is necessary to adopt this article 74 to protect individual rights and to further the preservation of the peace, health, and safety of Colorado residents.

**24-75-109. Controller may allow expenditures in excess of appropriations - limitations - appropriations for subsequent fiscal year restricted - repeal.** (1) For the purpose of closing the state's books, and subject to the provisions of this section, the controller may, on or after May 1 of any fiscal year and before the forty-fifth day after the close thereof, upon approval of the governor, allow any department, institution, or agency of the state, including any institution of higher education, to make an expenditure in excess of the amount authorized by an item of appropriation for such fiscal year if:

(a) The overexpenditure is for medicaid programs; or

(a.5) The overexpenditure is by the department of health care policy and financing for the children's basic health plan established pursuant to article 8 of title 25.5, C.R.S.; except that, to the extent that the overexpenditure allowed pursuant to this paragraph (a.5) is from the general fund, the overexpenditure from the general fund shall not exceed two hundred fifty thousand dollars in any fiscal year; or

(a.6) The overexpenditure is by the department of health care policy and financing for the required state contribution payment pursuant to the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003", Pub.L. 108-173; or

(b) The overexpenditure is by the department of human services for any purpose other than medicaid programs, but the total of all overexpenditures allowed pursuant to this paragraph (b) shall not exceed one million dollars in any fiscal year; or

(c) The overexpenditure is for any purpose of a department, institution, or agency of the executive branch other than the department of human services, but the total of all overexpenditures allowed pursuant to this paragraph (c) shall not exceed three million dollars in any fiscal year; or

(c.5) The overexpenditure is for the workers' compensation self-insurance program of the department of human services established pursuant to section 8-44-203, C.R.S.; or

(d) The overexpenditure is for any purpose of the judicial department, but overexpenditures allowed pursuant to this paragraph (d) shall be subject to the limitation in section 24-75-110; or

(e) The overexpenditure is by the department of corrections for the purchase of pharmaceuticals and the purchase of medical services from other medical facilities as part of the medical services subprogram for department institutions. The overexpenditure authorized by this paragraph (e) shall only be allowed for the 2001-02 fiscal year.

(1.5) For the purposes of this section, an overexpenditure includes any instance in which the total expenditures charged to a specific line item of appropriation are in excess of the total spending authority appropriated for that line item and any instance in which sufficient cash or cash-exempt reserves have not been earned to cover related expenditures and there is no statutory fund balance to cover such expenditures.

(2) Overexpenditures allowed pursuant to subsection (1) of this section shall be subject to the following requirements:

(a) Except as specifically provided in this section, overexpenditures shall be consistent with all statutory provisions applicable to the program, function, or purpose for which the overexpenditure is made, including the provisions of appropriation acts.

(b) No overexpenditure shall be allowed in excess of the unencumbered balance of the fund from which the overexpenditure is made as of the date of the expenditure.

(c) For fiscal years commencing on or after July 1, 2014, no overexpenditure is allowed under paragraph (a) or (a.5) of subsection (1) of this section for any appropriation in the annual general appropriation act to the department of health care policy and financing that is in a line item for the executive director's office or in a line item that the general assembly has labeled as ineligible for an overexpenditure under said paragraphs.

(3) For any overexpenditure, whether or not allowed by the controller in accordance with subsection (1) of this section, the controller shall restrict, in an amount equal to said overexpenditure, the corresponding item or items of appropriation that are made in the general appropriation act for the fiscal year following the fiscal year for which the overexpenditure that is allowed occurs. For the purposes of determining such corresponding item or items of appropriation, the controller shall consider, in order of importance, the fund from which the overexpenditure was allowed, the department, institution, or agency that was allowed to make the overexpenditure, and the purpose for which the overexpenditure was allowed. The department, institution, or agency shall not be allowed to expend any amount restricted pursuant to this subsection (3) unless such restriction is released in accordance with subsection (4) of this section.

(4) (a) The department, institution, or agency whose appropriation is restricted may request a supplemental appropriation for the fiscal year in which the overexpenditure occurred for the amount of any overexpenditure allowed pursuant to this section. If a supplemental appropriation is enacted for the overexpenditure or some portion thereof, the restriction on the succeeding fiscal year's appropriation shall be released in the amount of the supplemental appropriation enacted.

(b) If the amount of the restriction imposed pursuant to subsection (3) of this section was based on an estimate of the amount of the overexpenditure and the amount of such restriction exceeds the actual amount of the overexpenditure, the controller shall release that portion of the restricted amount that exceeds the actual amount of the overexpenditure.

(5) The limitation on general fund appropriations and the requirement for a general fund reserve contained in section 24-75-201.1 shall not apply to overexpenditures from the general fund for medicaid programs allowed pursuant to paragraph (a) of subsection (1) of this section or to supplemental general fund appropriations for medicaid programs enacted pursuant to subsection (4) of this section. Overexpenditures for all other purposes allowed pursuant to subsection (1) of this section and supplemental general fund appropriations for all other purposes enacted pursuant to subsection (4) of this section shall be considered appropriations for the fiscal year in which the overexpenditure was allowed and shall accordingly be subject to the limitations and requirements of section 24-75-201.1.

(6) The controller may allow overexpenditures pursuant to this section only for the fiscal years beginning on or after July 1, 1998, but prior to July 1, 2025. This section is repealed, effective September 1, 2025.

(b) For any overexpenditure allowed by the controller in accordance with subsection (1) of this section that is in regard to a capital construction budget item, the controller shall restrict,

"nonmonetary adjustment" means a change that does not affect the amount of the appropriation, including a name change, an extension of time for completion, a scope change, a transfer between departments, or other such similar changes.

(2) For fiscal years commencing on or after July 1, 2015, the controller may allow any department, institution, or agency of the state, including any institution of higher education, to expend moneys differently from the authority granted by an item of appropriation for a capital construction budget item or an information technology capital project if the capital construction, controlled maintenance, capital renewal project, or information technology capital project that the appropriation was for requires a nonmonetary adjustment for its timely continuation and the nonmonetary adjustment is due to unforeseen circumstances arising while the general assembly is not meeting in regular or special session during which such nonmonetary adjustment would be legislatively addressed, under the following circumstances:

(a) If the nonmonetary adjustment is in regard to a capital construction budget item and is requested by a department, institution, or agency of the state other than the department of law, the department of the treasury, the department of state, the judicial department, or the legislative department:

(I) The request for the nonmonetary adjustment has been submitted to the office of state planning and budgeting for approval and the office of state planning and budgeting has approved the nonmonetary adjustment, in whole or in part; and

(II) Upon approval by the office of state planning and budgeting, the request for the nonmonetary adjustment has been submitted to the capital development committee for consideration; and

Such provisions are intended to be binding portions of the items of appropriation to which they relate to the extent that those purposes, conditions, or limitations are integral to the appropriation and are not, in accordance with the Colorado supreme court decision in Colorado General Assembly v. **24-75-112.5. Appropriation clauses - general provisions - legislative declaration - definition.** (1) The general assembly hereby finds, determines, and declares that:

(a) The mechanism through which the general assembly commonly authorizes state agencies to spend moneys, the appropriation clause, has remained essentially unchanged for over a century;

(b) The typical appropriation clause employed prior to the 2015 regular legislative session features certain stock phrases that make ascertaining essential information more difficult;

(c) Legislation should, whenever possible, be written clearly and concisely; and

(d) It is therefore the intent of the general assembly, in enacting this section:

(I) To enhance comprehensibility of appropriation clauses by omitting the identified phrases formerly used in standard appropriation clauses; and

(II) To continue undisturbed the operation and legal effect of these phrases by codifying versions of them in a statute of general applicability.

(2) (a) Unless the context otherwise requires, and regardless of whether the law is statutory or noncodified, the following provisions apply to an appropriation made in a duly enacted law of the state:

(I) The appropriation is made in addition to any other appropriation;

(II) The appropriation is made from moneys that are not otherwise appropriated; and

(III) A state agency is only required to spend so much of the appropriation as may be necessary.

(b) As used in any appropriation clause, "C.R.S." means the Colorado Revised Statutes.

(3) This section applies to legislation enacted on or after January 1, 2015.

(2) No moneys derived from the increase in state revenues resulting from the passage of House Bill 10-1191, enacted in 2010, shall be appropriated for the purpose of funding additional full-time equivalent state employees.

(3) Repealed.

(4) No moneys derived from the increase in state revenues resulting from the passage of House Bill 10-1193, enacted in 2010, shall be appropriated for the purpose of funding additional full-time equivalent state employees, except for any full-time equivalent state employees necessary to enforce the provisions of said House Bill 10-1193.

(5) No moneys derived from the increase in state revenues resulting from the passage of House Bill 10-1194, enacted in 2010, shall be appropriated for the purpose of funding additional full-time equivalent state employees.

## PART 2

### GENERAL FUND

**24-75-201. General fund - general fund surplus - custodial moneys.** (1) There is hereby created and established the general fund, to which shall be credited and paid all revenues and moneys not required by the state constitution or the provisions of any law to be credited and paid into a special fund. The surplus fund created before June 30, 1971, is hereby merged into the general fund. Any unrestricted balance remaining in the general fund at the end of any fiscal year shall be designated as the general fund surplus.

(2) (a) The general fund surplus shall be determined based upon the accrual system of accounting, as enunciated by the governmental accounting standards board; except that:

(1) For state fiscal years commencing before July 1, 2003, any general fund revenues that are designated as state revenues in excess of the constitutional limitation on state fiscal year spending shall be included as unrestricted revenues in the general fund surplus for the fiscal year in which such excess revenues were accrued. Such excess revenues shall be restricted in the next

fiscal year to preserve their availability for refund unless voters have authorized the state to retain such excess revenues.

(II) General fund revenues shall be restricted only upon the issuance of a commitment voucher to the state controller by the department of health care policy and financing for the payment of a sufficient claim that warrants reimbursement in accordance with the "Colorado Medical Assistance Act", articles 4, 5, and 6 of title 25.5, C.R.S., from general fund revenues appropriated for any nonadministrative expenditure that qualifies for federal financial participation under Title XIX of the federal "Social Security Act", except for expenditures under the program for the medically indigent, article 3 of title 25.5, C.R.S., or for the contributions required by 42 U.S.C. sec. 1396u-5 (c).

(III) (A) General fund revenues shall be restricted only upon actual payment on the first and fifteenth working day of July of salaries of state employees for the month of June from general fund revenues.

(B) General fund revenues shall be restricted only upon actual payment in July of any bimonthly salaries of state employees for which all or a portion thereof is for work performed during the month of June from general fund revenues.

(C) For purposes of this subparagraph (III), "state employee" means a person employed by the state whether or not a classified employee in the state personnel system.

(IV) (A) For the state fiscal year commencing July 1, 2010, and each state fiscal year thereafter, general fund revenues shall be restricted only upon payment for the purchase of services in July from the office of information technology created in section 24-37.5-103 in an amount reported to state agencies by the office of information technology as required in sub-subparagraph (B) of this subparagraph (IV). State agencies shall report to the office of information technology by June 30, 2010, the amounts for positions that restricted general fund revenues in the 2009-10 fiscal year.

(B) The office of information technology created in section 24-37.5-103 shall calculate and report to state agencies by June 30, 2011, and each June 30 thereafter, according to the office of information technology's accepted billing methodology, the amount of information technology billings related to the current costs that are comparable to the general fund personal services payments for work performed by information technology employees of any state agency in June 2010. The calculation shall be limited to amounts for positions that would have restricted general fund revenues in the state fiscal year that commences July 1, 2010, if not for those revenues subsequently being reappropriated due to the consolidation of information technology services required by Senate Bill 08-155, enacted in 2008.

(b) (Deleted by amendment, L. 2003, pp. 1899, 2638, §§ 1, 1, effective July 1, 2003.)

(3) (a) Custodial moneys do not include moneys granted by the federal government to the state for the support of general or essential state government services of the type for which expenditures are made in the most recently approved annual general appropriation act, including, but not limited to, additional payments received by the state under the federal "Jobs and Growth Tax Relief Reconciliation Act of 2003", as amended, (Pub.L. 108-27), received by the state on or after April 30, 2004.

(b) Nothing in this subsection (3) shall cause federal relief payments under the federal "Jobs and Growth Tax Relief Reconciliation Act of 2003", as amended, (Pub.L. 108-27), received by the state prior to April 30, 2004, to be credited or transferred to the general fund or any other fund of the state or to be subject to annual appropriation by the general assembly.

(c) All federal moneys described in paragraph (a) of this subsection (3) shall be credited and paid to the general fund unless otherwise provided by law and shall be subject to annual appropriation by the general assembly.

**24-75-201.1. Restriction on state appropriations - legislative declaration - definitions - repeal.** (1) (a) (I) For the fiscal year 1978-79 and each fiscal year thereafter ending with the fiscal year 1990-91, state general fund appropriations shall be limited to seven percent over the previous year plus such moneys as are necessary for reappraisals of any class or classes of taxable property for property tax purposes as required by section 39-1-105.5, C.R.S. The base for the calculation of the limitation on the increase in general fund appropriations for the fiscal year 1986-87 shall be state general fund appropriations for the fiscal year 1985-86 plus the amount appropriated for tax relief and for the cost of bringing civil actions pursuant to the federal "Comprehensive Environmental Response, Compensation, and Liability Act of 1980" for the fiscal year 1985-86.

(II) Except as otherwise provided for in subparagraphs (III) and (IV) of this paragraph (a), for the fiscal year 1991-92 and each fiscal year thereafter ending with the fiscal year 2008-09, the total state general fund appropriations shall be limited to such moneys as are necessary for reappraisals of any class or classes of taxable property for property tax purposes as required by section 39-1-105.5, C.R.S., plus the lesser of:

(A) An amount equal to five percent of Colorado personal income; or

(B) Six percent over the total state general fund appropriations for the previous fiscal year.

(II.5) Except as otherwise provided in subparagraphs (III) and (IV) of this paragraph (a), for the fiscal year 2009-10 and each fiscal year thereafter, the total state general fund appropriations shall be limited to such moneys as are necessary for reappraisals of any class or

classes of taxable property for property tax purposes as required by section 39-1-105.5, C.R.S., plus an amount equal to five percent of Colorado personal income.

(III) The limitation on the level of state general fund appropriations set forth in subparagraphs (II) and (II.5) of this paragraph (a) shall not apply to:

(A) Any state general fund appropriation which, as a result of any requirement of federal law, is made for any new program or service or for any increase in the level of service for an existing program beyond the existing level of service;

(B) Any state general fund appropriation which, as a result of any requirement of a final state or federal court order, is made for any new program or service or for any increase in the level of service for an existing program beyond the existing level of service; or

(C) Any state general fund appropriation of any moneys which are derived from any increase in the rate or amount of any tax or fee which is approved by a majority of the registered electors of the state voting at any general election.

(IV) (A) The limitation on the level of state general fund appropriations as set forth in subparagraphs (II) and (II.5) of this paragraph (a) may be exceeded for a given fiscal year upon the declaration of a state fiscal emergency by the general assembly. A state fiscal emergency may be declared by the passage of a joint resolution which is approved by a two-thirds majority vote of the members of both houses of the general assembly and which is approved by the governor in accordance with section 39 of article V of the state constitution.

(B) Any funds appropriated in a given fiscal year which exceed the limitation on state general fund appropriations established by subparagraphs (II) and (II.5) of this paragraph (a) because of the declaration of a state fiscal emergency by the general assembly pursuant to sub-subparagraph (A) of this subparagraph (IV) shall not be included in the calculation of the maximum level of state general fund appropriations pursuant to sub-subparagraph (B) of subparagraph (II) of this paragraph (a) for subsequent fiscal years.

(V) No state cash fund appropriation which either supplants any state general fund appropriation or, if not made, would necessitate a state general fund appropriation shall be made in order to circumvent the limitation on the level of state general fund appropriations set forth in subparagraphs (II) and (II.5) of this paragraph (a). The provisions of this subparagraph (V) shall not apply to any state cash fund appropriation:

(A) Which authorizes an increase in expenditures necessary to offset an increase in costs to provide an existing program or service due to inflation or any increase in the number of recipients which does not result from any requirement of state law which either enlarges an existing class of recipients or adds a new class of recipients; or

(B) Which is funded by user charges that do not exceed the cost of the goods or services provided, and the purchase of such goods or services by the user is voluntary.

(VI) If the general assembly significantly restructures the method by which elementary, secondary, or postsecondary education in this state is financed, the general assembly shall examine the limitation on the level of state general fund appropriations set forth in this section and shall determine whether said limitation should be modified in light of such restructuring.

(VII) For purposes of this paragraph (a), unless the context otherwise requires:

(A) "Colorado personal income" means the total personal income for Colorado, as defined and officially reported by the bureau of economic analysis in the United States department of commerce, for the calendar year preceding the calendar year immediately preceding a given fiscal year.

(B) "Increase in the level of service for an existing program" does not include any increase in expenditures necessary to offset an increase in costs to provide such service due to inflation or any increase in the number of recipients of such service unless such increase results from any requirement of federal law which either enlarges an existing class of recipients or adds a new class of recipients.

(C) "Requirement of federal law" means any federal law, rule, regulation, executive order, guideline, standard, or other federal action which has the force and effect of law and which either requires the state to take action or does not directly require the state to take action but will, according to federal law, result in the loss of federal funds if state action is not taken to comply with such federal action.

(D) "State cash fund appropriation" means any appropriation of moneys which are not general fund moneys and which are the result of the collection of any fee authorized by law.

(b) For the fiscal year 1984-85, any amount of general fund revenues in excess of seven percent plus such moneys as are necessary for reappraisals of any class or classes of taxable property for property tax purposes as required by section 39-1-105.5, C.R.S., and after retention of unrestricted general fund year-end balances of one hundred million dollars, shall be placed in a special reserve fund to be utilized for tax relief, for capital construction as defined in section 24-30-1301 (2), for construction, maintenance, and repair of highways, for water projects, and for the cost of bringing civil actions pursuant to the federal "Comprehensive Environmental Response, Compensation, and Liability Act of 1980".

(c) (I) to (IV) Repealed.

(V) For the fiscal year 1989-90 and each fiscal year thereafter ending with the fiscal year 1990-91, fifty percent of general fund revenues in excess of general fund appropriations, after retention of the reserve as required by paragraph (d) of this subsection (1), shall be transferred to the capital construction fund as of the last day of the fiscal year. The general assembly may appropriate such funds for capital construction purposes during the regular legislative session next following the actual transfer of moneys thereto; except that, for the fiscal year 1989-90 only, the general assembly may appropriate such funds during the regular legislative session held in 1990 for the purpose of alleviating prison overcrowding for the fiscal year 1989-90 or for any future fiscal year and may appropriate such funds for any other capital construction purposes during the regular legislative session next following the actual transfer of moneys to the capital construction fund. General fund revenues in excess of general fund appropriations and the required reserve which are not transferred to the capital construction fund as specified in this subparagraph (V) shall be available for appropriation for the fiscal year in which the excess is realized or for any future fiscal year, subject to the limitation on general fund appropriations set forth in paragraph (a) of this subsection (1). For the purposes of applying this subparagraph (V) to the fiscal years 1990-91 and 1991-92, the required reserve shall be considered four percent of the amount appropriated for expenditure from the general fund, notwithstanding the actual percentage reserve requirement specified in subparagraph (IV) of paragraph (d) of this subsection (1).

(c.5) (I) (Deleted by amendment, L. 2002, p. 1005, § 1, effective August 7, 2002.)

(II) (Deleted by amendment, L. 2009, (SB 09-228), ch. 410, p. 2257, § 7, effective July 1, 2009.)

(d) For each fiscal year, unrestricted general fund year-end balances must be retained as a reserve in the following amounts:

(I) For fiscal years 1985-86 and 1986-87, five percent of the amount appropriated for expenditure from the general fund for the fiscal year;

(II) For the fiscal year 1987-88, six percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(III) For the fiscal year 1988-89 and each fiscal year thereafter ending with the fiscal year 2011-12, except for the fiscal years 1990-91, 1991-92, 1992-93, 2001-02, 2002-03, 2003-04, 2006-07, 2008-09, 2009-10, and 2010-11, as provided in subparagraphs (IV), (V), (VI), (VII), (VIII), (IX), (X), (XI), and (XI.5) of this paragraph (d), four percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(IV) For the fiscal years 1990-91 and 1991-92, three percent of the amount appropriated for expenditure from the general fund for that fiscal year. The additional amount of general fund moneys made available for appropriation by the reduction in the required reserve from four percent to three percent for the fiscal year 1990-91, as provided in this subparagraph (IV), may be appropriated only for the purpose of alleviating prison overcrowding, and any such appropriation shall not be subject to the limitation on general fund appropriations set forth in paragraph (a) of this subsection (1). The additional amount of general fund moneys made available for appropriation by the reduction in the required reserve from four percent to three percent for the fiscal year 1991-92, as provided in this subparagraph (IV), may be appropriated for any lawful purpose.

(V) For the fiscal year 1992-93, three percent of the amount appropriated for expenditure from the general fund for that fiscal year reduced by fourteen million dollars. The additional amount of general fund moneys made available for appropriation by the reduction in the required reserve from four percent to the amount provided in this subparagraph (V) may be appropriated during the fiscal year 1992-93 for any lawful purpose.

(VI) For the fiscal year 2001-02, no percentage of the amount appropriated for expenditure from the general fund for that fiscal year, as no reserve shall be required for said fiscal year. The additional amount of general fund moneys made available for appropriation by the elimination of the required reserve from four percent for the fiscal year 2001-02, as provided in this subparagraph (VI), may be appropriated for any lawful purpose.

(VII) and (VIII) Repealed.

(IX) For the fiscal year 2006-07, if the resources of the general fund are inadequate to meet the reserve required by subparagraph (III) of this paragraph (d), the state controller shall accrue a transfer from the capital construction fund to the general fund in the amount necessary to meet the reserve requirement of subparagraph (III) of this paragraph (d) up to thirty million dollars. The requirements of this subparagraph (IX) shall be applied before the requirements of section 39-26-123 (4)(a)(VI)(B), C.R.S.

(X) For the fiscal year 2008-09:

(A) Except as otherwise provided in sub-subparagraph (B) of this subparagraph (X), two percent of the amount appropriated for expenditure from the general fund for that fiscal year. The additional amount of general fund moneys made available for appropriation by the reduction in the required reserve from four percent to two percent may be appropriated during the fiscal year 2008-09 for any lawful purpose.

(B) If the revenue estimate prepared for the fiscal year 2008-09 in accordance with section 24-75-201.3 (2) in June of 2009 indicates that general fund expenditures for that fiscal year based on appropriations then in effect will exceed the amount of general fund revenues

available, excluding the reserve required by sub-subparagraph (A) of this subparagraph (X), upon written order, the governor may further reduce the required reserve from two percent to either a lower percentage or to a zero percentage as is necessary to cover to the greatest extent possible any appropriations then in effect made from the general fund for which general fund moneys would not otherwise be available comprising such reserve.

(XI) For the fiscal year 2009-10, two percent of the amount appropriated for expenditure from the general fund for that fiscal year. The additional amount of general fund moneys made available for appropriation by the reduction in the required reserve from four percent to two percent may be appropriated during the fiscal year 2009-10 for any lawful purpose.

(XI.5) For the fiscal year 2010-11, two and three-tenths percent of the amount appropriated for expenditure from the general fund for that fiscal year. The additional amount of general fund moneys made available for appropriation by the reduction in the required reserve from four percent to two and three-tenths percent may be appropriated during the fiscal year 2010-11 for any lawful purpose. Notwithstanding any provision of law to the contrary, on the date on which the state controller publishes the comprehensive annual financial report of the state for the fiscal year 2010-11, the state treasurer shall transfer the general fund surplus designated in accordance with section 24-75-201 (1) for the fiscal year 2010-11, which represents the unrestricted general fund balance after the applicable amount of reserve required pursuant to this subparagraph (XI.5), as follows:

(A) Except as otherwise provided in sub-subparagraph (B) of this subparagraph (XI.5), the general fund surplus shall be transferred to the state education fund created in section 17 (4) of article IX of the state constitution.

(B) An amount equal to the additional estimated revenue shall be transferred to the state public school fund created in section 22-54-114, C.R.S.; except that the transfer pursuant to this sub-subparagraph (B) shall not exceed sixty-seven million five hundred thousand dollars. For purposes of this sub-subparagraph (B), "additional estimated revenue" means the amount by which the June 2011 estimate of general fund revenue prepared by the office of state planning and budgeting for the 2010-11 fiscal year exceeds the March 2011 estimate of general fund revenue prepared by the office of state planning and budgeting for the 2010-11 fiscal year.

(XII) For the fiscal year 2012-13, five percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XIII) For the fiscal year 2013-14, five percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XIV) For the fiscal year 2014-15, six and one-half percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XV) and (XVI) Repealed.

(XVII) For the fiscal year 2015-16, an amount equal to five and six-tenths percent of the amount appropriated for expenditure from the general fund for that fiscal year minus the total amount credited to the reserve created in section 39-29-107.8 in accordance with section 39-29-107.8 (2)(a).

(XVIII) For the fiscal year 2016-17, six percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XVIII.5) For the fiscal year 2017-18, six and one-half percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XIX) For the fiscal year 2018-19, seven and twenty-five one-hundredths percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XX) For the fiscal year 2019-20, three and seven one-hundredths percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XXI) For the fiscal year 2020-21, two and eighty-six one-hundredths percent of the amount appropriated for expenditure from the general fund for that fiscal year;

(XXII) For the fiscal year 2021-22, thirteen and four-tenths percent of the amount appropriated for expenditure from the general fund for that fiscal year; and

(XXIII) For the fiscal year 2022-23 and each fiscal year thereafter, fifteen percent of the amount appropriated for expenditure from the general fund for that fiscal year.

(e) Repealed.

(2) The basis for the calculation of the reserve as specified in this section includes all appropriations for expenditure from the general fund for such fiscal year, except for any appropriations for:

(a) Expenditure from the general fund due to a state fiscal emergency as provided for in subparagraph (IV) of paragraph (a) of subsection (1) of this section;

(b) and (c) Repealed.

(d) (I) Expenditures from the care subfund created in section 24-75-225 (1).

(II) This subsection (2)(d) is repealed, effective July 1, 2022.

(3) Any reimbursement made by a county to the state for the cost incurred by the state in reappraising any class or classes of taxable property for property tax purposes for which reimbursement is required by section 39-1-105.5, C.R.S., shall be made to the state treasurer, who shall, upon receipt thereof, credit the amount of such reimbursement to the state general fund.

(2) Notwithstanding any provision of law to the contrary, on the date on which the state controller publishes the comprehensive annual financial report of the state for the fiscal year 2012-13, the state treasurer shall transfer to the state education fund created in section 17 (4) of article IX of the state constitution the general fund surplus designated in accordance with section 24-75-201 (1) for the fiscal year 2012-13, which represents the unrestricted general fund balance after the applicable amount of reserve required pursuant to section 24-75-201.1 (1)(d).

(3) (a) The general assembly hereby finds and declares that Senate Bill 13-234, enacted in 2013, required the state treasurer to transfer moneys from the general fund to the old hire plan members' benefit trust fund created in section 31-31-701 (6), C.R.S., to satisfy the state's future required payments. This transfer reduced the amount of the general fund surplus that would otherwise have been transferred to the state education fund created in section 17 (4) of article IX of the state constitution under subsection (2) of this section. The transfers in paragraph (b) of this subsection (3) are intended to reimburse the state education fund for this reduced transfer and they represent the amount the state would have contributed to the old hire plan member's benefit trust fund in the absence of the early pay off.

(b) On April 30, 2014, the state treasurer shall transfer forty-five million three hundred twenty-one thousand seventy-nine dollars from the general fund to the state education fund created in section 17 (4) of article IX of the state constitution. The subfund consists of seventy million dollars transferred to the general fund in accordance with the governor's executive order D 2020 070. Money in the subfund is subject to appropriation by the general assembly for allowable expenditures under section 42 U.S.C. 801 (d).

(2) A state department that receives an appropriation from the care subfund shall comply with any reporting or record-keeping requirements established by the state controller or the office of state planning and budgeting for the federal funds included in the subfund.

(3) Any money transferred from the care subfund to another cash fund is subject to the reporting and record-keeping requirements set forth in subsection (2) of this section. (b) The general assembly hereby finds and declares that:

(I) The public health emergency caused by COVID-19 caused a historic increase in unemployment in the state and this has caused a dramatic increase in the number of claims for benefits from the unemployment compensation fund;

(II) As a result, it is estimated that the unemployment compensation fund will have a deficit of approximately two billion dollars by the end of the fiscal year 2020-21;

(III) These costs will not be reimbursed by the federal government, nor are they accounted for in the budget approved as of March 27, 2020;

(IV) The United States department of treasury has stated that payments to the state unemployment insurance fund are an allowable use of the money from the federal coronavirus relief fund, under section 42 U.S.C. 801 (d); and

(c) The state treasurer shall credit all interest and income derived from the deposit and investment of money in the fund to the fund.

(4) (a) The general assembly shall not appropriate money from the fund. The general assembly may transfer money in the fund to another cash fund that is established for the purpose of using the money from the federal coronavirus state fiscal recovery fund. The department of revenue shall provide the state controller with any information required by the secretary about any reductions in net tax revenue.

(b) The office and the state controller shall establish compliance requirements for any department that receives an appropriation from the fund or a recipient fund or any person that receives money from a department. If a department or person fails to comply with these requirements, then:

(II) A person shall, to the extent possible, repay any money received by the state from the fund or recipient fund that is related to the noncompliance; and

(III) The state controller may, in his or her discretion, reduce or eliminate all unexpended appropriations from the fund or a recipient fund for the department.

(c) The office and the state controller shall establish reporting and record-keeping requirements for any department that expends money from the fund or a recipient fund or any person that receives the money from a department. To expend money from the fund or recipient fund, a department and the person must comply with these requirements.

(b) The staff of the joint budget committee shall review the recommendations made by the task force to ascertain whether the recommendations will result in programs requiring ongoing appropriations of state money after the federal money has been expended and to identify whether the recommendations are duplicative of any existing state programs or appropriations, or duplicative of any existing federally funded state program.

(c) The general assembly may appropriate general fund money from the fund for the reasonable expenses of the task force.

(a) As a result of the COVID-19 public health emergency, a significant share of households across the state now face various forms of housing insecurity;

(b) Although the impacts of the COVID-19 public health emergency have been widespread, both the public health and economic impact of the pandemic have fallen most severely on disadvantaged communities and populations. Low-income communities, people of color, and tribal communities have faced higher rates of infection, hospitalization, and death, as well as higher rates of unemployment and lack of basic necessities such as food and housing. Preexisting social vulnerabilities magnified the pandemic in these communities, where a reduced ability to work from home and denser housing amplified the risk of infection.

(c) The federal government enacted the "American Rescue Plan Act of 2021" to provide support to state, local, and tribal governments in responding to the impact of COVID-19 and to assist their efforts to contain the effects of COVID-19 on their communities, residents, and businesses. Under the federal act, the state of Colorado receives over three billion dollars to be used for the purposes identified in the federal act.

(d) Regulations construing the federal act promulgated by the United States treasury identify a nonexclusive list of uses that address the disproportionate negative economic effects of the COVID-19 public health emergency, including building stronger communities through investments in housing and neighborhoods. Services in this category alleviate the immediate economic impact of the COVID-19 public health emergency on housing insecurity, while addressing conditions that contributed to poor public health and economic outcomes during the pandemic, namely concentrated areas with limited economic opportunity and inadequate or poor quality housing. Under these regulations, funds may be used for programs or services that address housing insecurity, lack of affordable and workforce housing, or homelessness, including:

(I) Supportive housing or other programs or services to improve access to stable, affordable housing among unhoused individuals;

(II) The development of affordable housing to increase the supply of affordable housing units that are livable, vibrant, and driven by community benefits; and

(III) Housing vouchers and assistance to allow individuals to relocate in neighborhoods with high levels of economic opportunity and to reduce concentrated areas of low economic opportunity.

(e) The general assembly further determines that the programs and services funded by the transfers in this section are appropriate uses of the money transferred to Colorado under the federal act. This money will be put to expeditious and efficient use in building stronger communities across the state by making investments in housing for populations, households, or geographic areas disproportionately affected by the COVID-19 public health emergency.

(f) By the enactment of this section, the general assembly intends that the money appropriated to the department of local affairs for use by the division of housing from the affordable housing and home ownership cash fund created in section 24-75-229 (3)(a) be used to finance programs and services that provide gap financing for projects financed through the housing investment trust fund created in section 24-32-717 or the housing development grant fund created in section 24-32-721. The general assembly further intends that the programs and services financed by this appropriation assist populations, households, or geographic areas disproportionately affected by the COVID-19 public health emergency in order to obtain affordable housing by the acquisition, construction, or renovation of affordable housing projects or land acquisition, thus enabling individuals and families to relocate to neighborhoods with high levels of economic opportunity and reducing concentrated areas of low economic opportunity.

(g) Pursuant to 31 C.F.R. 35.6 (b)(6), the transfer to the eviction legal defense fund required by subsection (3.5) of this section for the purpose of providing legal representation to indigent tenants to resolve civil legal matters arising on and after March 1, 2020, for an eviction or impending eviction related to the public health emergency caused by the COVID-19 public health emergency, is intended to address housing insecurity, lack of affordable housing, or homelessness to assist persons disproportionately affected by the public health emergency in obtaining affordable housing. Accordingly, the general assembly further finds, determines, and declares that the transfer required by subsection (3.5) of this section is an eligible use of money received by the state under the "American Rescue Plan Act of 2021", Pub.L. 117-2.

(2) As used in this section, unless the context otherwise requires:

(a) "American Rescue Plan Act of 2021" or "federal act" means the federal "American Rescue Plan Act of 2021", Pub.L. 117-2, as the act may be subsequently amended.

The division may use not more than three percent of any money appropriated or transferred to it under House Bill 21-1329, enacted in 2021, to cover the total administrative costs of the division in administering the programs or services for which money is appropriated or transferred to it under House Bill 21-1329, enacted in 2021.

A department, nonprofit organization, or local government, including a county, municipality, special district, or school district, or any other person who receives money from the fund shall comply with any requirements set forth in section 24-75-226.

(6) (a) The executive committee of the legislative council shall, by resolution, create a task force to meet during the 2021 interim and issue a report with recommendations to the general assembly and the governor on policies to create transformative change in the area of housing using money the state receives from the federal coronavirus state fiscal recovery fund under title IX, subtitle M of the "American Rescue Plan Act of 2021". members' participation in the task force. The task force shall not submit bill drafts as part of their recommendations.

(d) The money in the fund is continuously appropriated to the legislative branch of state government for payment of the reasonable expenses incurred by the task force subject to the approval of the executive committee of the legislative council.

**24-75-302.5. Controlled maintenance - trust fund - legislative declaration.** (1) In light of the fluctuating amounts of state revenues that have been available for controlled maintenance purposes in the past, the general assembly hereby finds and declares that a stable, predictable, and consistent source of revenues for controlled maintenance projects will better allow the state to fund such projects on a timely basis and avoid higher replacement costs. In order to provide a consistent source of revenues, the general assembly hereby further finds and declares that it is appropriate to create a trust fund which will generate an annual amount of interest which will be dedicated to controlled maintenance.

(2) (a) There is hereby created the controlled maintenance trust fund, the principal of which shall consist of any general fund revenues appropriated or transferred thereto by law, moneys credited thereto pursuant to section 24-30-1310, and proceeds of leveraged leasing agreements deposited thereto pursuant to section 24-82-1003 (3). For the 1996-97 fiscal year and fiscal years thereafter, the principal of the trust fund may constitute all or some portion of the state emergency reserve established pursuant to section 24-77-104 and may be expended in any given fiscal year as provided in said section. The principal of the trust fund shall not be expended or appropriated for any purpose other than use as part of the state emergency reserve. The state treasurer may in the state treasurer's discretion deposit, redeposit, invest, and reinvest moneys accrued or accruing to the controlled maintenance trust fund in the types of deposits and investments authorized in sections 24-36-109, 24-36-112, and 24-36-113.

(b) Beginning September 1, 1994, and on September 1 of each year thereafter, the state treasurer shall certify to the general assembly the amount of interest actually earned on the

principal of the trust fund during the previous fiscal year and shall also provide an estimate of the interest expected to be earned on such principal during the current fiscal year.

(c) Beginning with the 1996-97 fiscal year, the interest earned on the principal of the trust fund balance may be appropriated for controlled maintenance, as defined in section 24-30-1301 (4), as follows: Up to fifty percent of the amount of interest expected to be earned on the principal of the trust fund during the current fiscal year as estimated by the state treasurer and the amount of interest actually earned on the principal of the trust fund during the previous fiscal year as certified by the state treasurer, not to exceed a maximum of thirty-five million dollars in any fiscal year.

(d) The principal of the trust fund and any unappropriated interest earned on the principal of the trust fund at the close of any fiscal year must remain in the trust fund and may not revert to the general fund.

(e) (Deleted by amendment, L. 2004, p. 261, § 1, effective April 5, 2004.)

(f) Repealed.

(2.3) For the fiscal year commencing July 1, 2017, the state treasurer shall transfer twenty million dollars from the general fund to the controlled maintenance trust fund.

(2.4) For the fiscal year commencing July 1, 2018, the state treasurer shall transfer thirty million dollars from the general fund to the controlled maintenance trust fund.

(2.5) For the state fiscal year commencing July 1, 2019, the state treasurer shall transfer forty-two million dollars from the general fund to the controlled maintenance trust fund.

(2.7) (a) On December 3, 2020, the state treasurer shall transfer one hundred million dollars from the general fund to the controlled maintenance trust fund.

(b) (I) Prior to July 1, 2021, the governor may transfer to the disaster emergency fund, created in section 24-33.5-706 (2)(a), any money in the controlled maintenance trust fund transferred thereto in accordance with subsection (2.7)(a) of this section, if the money available in the disaster emergency fund is insufficient for the public health and emergency response costs associated with the COVID-19 pandemic emergency. No other transfers of this money to the disaster emergency fund are permitted.

(II) If, after the date of a transfer to the disaster emergency fund under subsection (2.7)(b)(I) of this section, the state receives a reimbursement from the federal government for any expenditures from the disaster emergency fund, the state treasurer shall deposit the reimbursement into the controlled maintenance trust fund; except that the deposited amount shall not exceed the amount transferred under subsection (2.7)(b)(I) of this section.

(3) Notwithstanding any other provision of this section to the contrary:

(a) On July 1, 2001, the state treasurer and the controller shall transfer an amount equal to the principal balance of the trust fund as of June 30, 2001, to the general fund to be expended or transferred as provided by law.

(b) If, on February 1, 2006, there is not sufficient interest earned on the principal of the trust fund to make the transfer required by paragraph (a) of this subsection (6), the state treasurer and controller shall transfer the available interest as of February 1, 2006, and shall transfer the remaining interest due as the interest accrues.

(7) Notwithstanding any provision of this section to the contrary, on July 1, 2009, the state treasurer shall deduct eight hundred three thousand six hundred ten dollars from the trust fund and transfer such sum to the general fund.

(8) Notwithstanding any provision of this section to the contrary, on July 1, 2014, the state treasurer shall deduct nine million six hundred seventy-two thousand dollars from the trust fund and transfer such sum to the general fund for the purpose of supporting a fiscal year 2014-15 appropriation for the Colorado firefighting air corps created in section 24-33.5-1228.

**24-75-303. Appropriation for capital construction.** (1) The general assembly shall make a capital construction appropriation in such form, in such amounts, and from such funds as it deems necessary and may appropriate either for construction or for planning of any project.

(2) No capital construction appropriation may be made to or expended by any state agency or state institution of higher education that has not complied with the requirements of section 24-30-1303.5, with respect to preparation and maintenance of a state inventory of real property.

(2.5) No capital construction appropriation may be made to or expended by any state agency or state institution of higher education that has not received approval of a facility management plan for a vacant facility controlled by the state agency or state institution of higher education pursuant to section 24-30-1303.5, unless the capital development committee exempts the state agency or state institution of higher education from the provisions of section 24-30-1303.5 (3.5)(f).

## PART 4

### CASH FUNDS

**Editor's note:** This part 4 was numbered as article 5 of chapter 130, C.R.S. 1963. The substantive provisions of this part 4 were repealed and reenacted in 1973, resulting in the addition, relocation, and elimination of sections as well as subject matter. For amendments to this part 4 prior to 1973, consult the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

**24-75-401. (2) The general assembly shall make appropriations out of the general fund for the fiscal year beginning July 1, 1973, for the state agencies requiring an expenditure for any purpose formerly paid out of any of the cash funds abolished by subsection (1) of this section, and thereafter each such agency shall make a budgetary request for each fiscal year as provided by law.

(c) The legislative powers of the general assembly, including but not limited to its plenary power of appropriation, authorize and require the general assembly to assure compliance with the limitation on state fiscal year spending and to make fundamental fiscal policy decisions establishing the level of activity of all departments and agencies of state government, including those funded by revenues generated from fees;

(d) Consonant with the exercise of such legislative powers, the general assembly must establish limits on the amount of uncommitted reserves that may be maintained by state agencies for cash funds and exercise any other necessary controls on cash fund revenues, including but not limited to the power of appropriation;

(e) In order to ensure compliance with the limitations on the amount of uncommitted reserves that may be maintained for any cash fund, the general assembly may require reductions in the amount of fees collected by state agencies, even though such reductions may result in some persons paying more than other persons to receive state agency services.

(d) "Excess uncommitted reserves" means the amount of uncommitted reserves for a cash fund that exceeds the maximum reserve or alternative maximum reserve for that cash fund.

(h) "Uncommitted reserves" means the fund balance of a cash fund as of June 30 of any fiscal year, minus the following:

(I) Any long-term assets credited to the cash fund, including a capital reserve identified in accordance with section 24-75-403;

(II) Any unencumbered fund balance previously appropriated for capital construction or other multiyear purposes;

(III) Any nonmonetary current assets credited to the cash fund, including but not limited to consumable inventory and prepaid expenses;

(IV) Any portion of the revenues credited to the cash fund that is estimated to be derived from non-fee sources.

(3) (a) and (b) Repealed.

(c) For the 2014-15 fiscal year and for each fiscal year thereafter, the uncommitted reserves of a cash fund at the conclusion of a given fiscal year shall not exceed the maximum reserve for that fiscal year; except that, for any cash fund for which an alternative maximum reserve is otherwise set by the joint budget committee in accordance with subsection (8) of this section or specified in the constitution or by law, the uncommitted reserves of the cash fund shall not exceed the alternative maximum reserve. If the amount of uncommitted reserves of any cash fund at the conclusion of any given fiscal year exceeds the applicable maximum reserve or alternative maximum reserve, each entity that collects one or more of the fees deposited in the cash fund shall by rule or as otherwise provided by law reduce the amount of one or more of the fees to an amount calculated to result in an amount of uncommitted reserves of the cash fund for the current fiscal year that does not exceed the corresponding maximum reserve or alternative maximum reserve.

(d) If more than one entity collects the fees that are deposited in a cash fund and the amount of said fees are required to be reduced pursuant to this subsection (3), the reduction in fees for each entity shall be proportional to the amount of fees contributed by each entity to the excess uncommitted reserves.

(e) In calculating the reduction in fees under this subsection (3), an entity may take into account increases in expenditures from the cash fund.

(4) (a) If an entity reduces the amount of a fee pursuant to subsection (3) of this section, the entity by rule or as otherwise provided by law may subsequently raise the amount of the fee so long as the projected amount of uncommitted reserves of the cash fund does not exceed the

limitations specified in subsection (3) of this section. Any such fee increase by an entity in the executive branch, prior to promulgation or adoption, shall be subject to approval by the office of state planning and budgeting. The entity shall not increase the fee beyond any amount specified in statute for the fee.

(b) Any rule adopted by an entity in the executive branch that reduces the amount of a fee pursuant to subsection (3) of this section or increases the amount of a fee pursuant to this subsection (4) shall be subject to the requirements of the "State Administrative Procedure Act", article 4 of this title.

(5) Notwithstanding any provision of this section to the contrary, the following cash funds are excluded from the limitations specified in this section:

(a) Any cash fund for which revenues are derived solely from fees, the amounts of which are established by the federal government;

(b) Any cash fund for which revenues are derived solely from fees set by the Colorado supreme court in the exercise of its exclusive authority to regulate the practice of law;

(5.5) The exclusion from the limitations specified in this section for a cash fund under subsection (5) of this section applies for the last fiscal year prior to the repeal of the exclusion.

(6) Notwithstanding any provision of this section to the contrary, the limitations specified in this section shall not apply to any cash fund used to fund a single program if the program has been in existence less than two full fiscal years.

(7) The office of state planning and budgeting shall annually review the total amount of revenues credited to cash funds, including but not limited to the amounts received from fees and from other sources, and the report of uncommitted reserves prepared by the state controller pursuant to section 24-30-207 (3).

(7.5) Upon request by an entity with a program that has a multi-year revenue-collection cycle or revenue-contract period, the state controller may average the uncommitted reserves from the cash fund related to the program over the multi-year period. Notwithstanding any other provision of this section, the uncommitted reserves are equal to the averaged amount for purposes of this section.

(8) (a) Notwithstanding the maximum reserve limitation in paragraph (c) of subsection (3) of this section, for fiscal years beginning on or after July 1, 2015, the joint budget committee may grant a waiver of the maximum reserve for up to three years for an entity that demonstrates a specific purpose for which the entity needs to maintain uncommitted reserves in an amount greater than the maximum reserve. As part of the waiver, the joint budget committee may establish an alternative maximum reserve for the cash fund or exempt the cash fund altogether from any limits on uncommitted reserves. A specific purpose that may warrant a waiver pursuant to this subsection (8) includes, but is not limited to, purchase of a particular item of equipment or operation of a short-term program.

(b) To request a waiver in accordance with this subsection (8), an entity, during the annual budget-setting process, must present a plan to the joint budget committee that at a minimum specifies the specific purpose for which the entity needs the waiver, whether it would like a maximum alternative reserve or an exemption, the time period for the waiver, and the plan for reducing any excess uncommitted reserves that may remain on completion of the waiver period. The joint budget committee, in determining whether to approve a waiver pursuant to this subsection (8), shall consider the purpose for which the entity has requested the waiver, the reasonableness of the time period for the waiver, and the effect the waiver may have on the state's ability to comply with the limitations on state fiscal year spending imposed pursuant to section 20 of article X of the state constitution.

(c) The joint budget committee may grant any waiver requested in accordance with this subsection (8) that the committee deems appropriate. In a waiver, the committee shall specify the fund for which the waiver is granted, whether there is an alternative maximum reserve or an exemption, and the time period for the waiver.

(9) to (11) Repealed.

(12) If a cash fund has excess uncommitted reserves for three or more fiscal years in a row, the state controller shall restrict spending of any appropriation from the cash fund for the next fiscal year in an amount equal to the lesser of the excess uncommitted reserve or the applicable maximum reserve or alternative maximum reserve. The entity shall not expend any amount restricted pursuant to this subsection (12) unless the restriction is released. The restriction is released when the fund is in compliance with the maximum reserve or alternative maximum reserve requirement or when the joint budget committee approves a waiver for the excess uncommitted reserves in accordance with subsection (8) of this section.

## PART 11

### TOBACCO SETTLEMENT FUNDS

**24-75-1101. Legislative declaration.** The general assembly hereby finds and declares that, pursuant to the master settlement agreement between several states, including Colorado, and certain tobacco companies, the state will receive substantial moneys for several years, and that such moneys may be reduced based on several factors, such as decreased sales of tobacco products. The general assembly further finds that such moneys will enable Colorado to enact tobacco use prevention, education, and cessation programs, related health programs, and literacy programs and that such programs must involve cost-effective programs at the state and local levels. For such purposes, the policies in this part 11 shall apply to all moneys received by the state from the master settlement agreement.

## RESTRICTIONS ON PUBLIC BENEFITS

### ARTICLE 76.5

#### Access to Public Benefits

**Editor's note:** (1) This version of article 76.5 is effective July 1, 2022.

(2) This article 76.5 was added in 2006. It was repealed and reenacted in 2021, resulting in the addition, relocation, or elimination of sections as well as subject matter. For amendments to this article 76.5 prior to 2021, consult the 2020 Colorado Revised Statutes and the Colorado statutory research explanatory note beginning on page vii in the front of this volume.

**Law reviews:** For article, "2006 Immigration Legislation in Colorado", see 35 Colo. Law. 79 (Oct. 2006).

**24-76.5-101. Legislative declaration.** [*Editor's note: This version of this section is effective July 1, 2022.*] (1) The general assembly finds and declares that:

(a) People who immigrated to the United States and live in Colorado are essential members of our communities;

(b) Every day, the state benefits from the contributions of undocumented immigrants to our society. Immigrants hold jobs that are critical to our economy and communities, and in some industries comprise more than one-third of the workforce. Immigrants make our tourism industry run; build our buildings; lay our roads; provide in-home care to our seniors, children, and people with disabilities; bring food to our tables; and bring food to our doorsteps.

(c) Immigrants comprise over nine percent of Colorado's population and contribute to the economy through the labor force and as consumers and taxpayers. In 2019, immigrants in Colorado paid almost six billion dollars in local, state, and federal taxes. In Colorado, undocumented immigrants pay nearly two hundred seventy-five million dollars in federal taxes and more than one hundred fifty million dollars in state and local taxes annually.

(d) These hardworking Coloradans are diverse and are often a part of a mixed-status family. In Colorado:

(I) The estimated population of undocumented immigrants is one hundred sixty-two thousand, and this number represents approximately eight percent of children under sixteen years of age;

(II) Additionally, an estimated two hundred seventy-six thousand five hundred eighty-nine Coloradans live with a family member who is an undocumented immigrant, including one hundred thirty thousand nine hundred fifty-eight children; and

(III) Children from immigrant families are disproportionately more likely to be from a low-income household.

(e) The 2006 special legislative session facilitated the passage of anti-immigrant legislation that left behind immigrant families, citizen families experiencing homelessness, and persons fleeing from domestic violence without the necessary public benefits, including professional and occupational licenses. Because of these policies, state and local agencies believed that they were required to verify the lawful presence of applicants for public benefits, including professional, occupational, and commercial licenses, above and beyond what is required in federal law.

(f) Undocumented immigrants who do not have the required documents to establish lawful presence are prevented in many circumstances from applying for such licenses, which, in turn, prevents these persons from fully participating in Colorado's economy and accessing state and local public benefits, including loans; grants; contracts; programs that address food, housing, and energy; and other benefits.

(g) Undocumented immigrants are ineligible for most federal benefits and were excluded from receiving federal stimulus money provided in the federal "CARES Act" Pub.L. 116-136, 134 Stat. 281 (2020), as amended. Local communities were restricted from providing their residents with crucial relief during the COVID-19 pandemic because of these anti-immigrant laws.

(h) In 2018, various industries including child care, agriculture, health care, K-12 education, and transportation averaged between one and two and one-half job openings per every unemployed worker, demonstrating a high need for a larger labor pool and workforce that can fill these gaps through contracting and small business development; and

(i) Protecting the well-being of these members of our communities and facilitating their access to important public benefits and opportunities, particularly during a global health crisis, makes our communities healthier, stronger, and more prosperous.

(2) Therefore, the general assembly declares it is the public policy of the state of Colorado that we ensure that our state-funded programs are not denied to people based on their immigration status.

(3) This article 76.5 does not affect federal public benefits. In the event a provision of this article 76.5 conflicts with federal law, federal law controls. Furthermore, while article 76.5 does not require lawful presence for local public benefits, it does not diminish any authority a local government may have to budget to meet the needs of its residents.

## ARTICLE 76.6

### Prioritizing State Enforcement of

## Civil Immigration Law

**Cross references:** For the legislative declaration in HB 19-1124, see section 1 of chapter 299, Session Laws of Colorado 2019.

**24-76.6-101. Definitions.** As used in this article 76.6, unless the context otherwise requires:

(1) "Civil immigration detainer" means a written request issued by federal immigration enforcement authorities pursuant to 8 CFR 287.7 to law enforcement officers to maintain custody of an individual beyond the time when the individual is eligible for release from custody, including any request for law enforcement agency action, warrant for arrest of alien, order to detain or release alien, or warrant of removal/deportation on any form promulgated by federal immigration enforcement authorities.

(2) "Eligible for release from custody" means that an individual may be released from custody because one of the following conditions has occurred:

(a) All criminal charges against the individual have been dropped or dismissed;  
(b) The individual has been acquitted of all criminal charges filed against him or her;  
(c) The individual has served all the time required for his or her sentence;  
(d) The individual has posted a bond or has been released on his or her own recognizance;

(e) The individual has been referred to pretrial diversion services; or

(f) The individual is otherwise eligible for release under state or municipal law.

(3) "Law enforcement officer" means a peace officer employed by the Colorado state patrol, a municipal police department, a town marshal's office, or a county sheriff's office.

(4) "Personal information" means any confidential identifying information about an individual, including but not limited to home or work contact information; family or emergency contact information; probation meeting date and time; community corrections locations; community corrections meeting date and time; or the meeting date and time for criminal court-ordered classes, treatment, and appointments.

**Source: L. 2019:** Entire article added, (HB 19-1124), ch. 299, p. 2760, § 2, effective May 28.

**24-76.6-102. Civil immigration detainees - legislative declaration.** (1) The general assembly finds and declares that:

(a) Federal immigration authorities at times submit requests to state and local law enforcement agencies to detain an inmate after the inmate is eligible for release from custody. Continued detention of an inmate under a federal civil immigration detainer constitutes a new arrest under state law and a seizure under the fourth amendment of the United States constitution.

(b) Requests for civil immigration detainers are not warrants under Colorado law. A warrant is a written order by a judge directed to a law enforcement officer commanding the arrest of the person named, as defined in section 16-1-104 (18). None of the civil immigration detainer requests received from the federal immigration authorities are reviewed, approved, or signed by a judge as required by Colorado law. The continued detention of an inmate at the request of federal immigration authorities beyond when he or she would otherwise be released constitutes a warrantless arrest, which is unconstitutional, *People v. Burns*, 615 P.2d 686, 688 (Colo. 1980).

(2) A law enforcement officer shall not arrest or detain an individual on the basis of a civil immigration detainer request.

(3) The authority of law enforcement is limited to the express authority granted in state law.

(4) Nothing in this section precludes any law enforcement officer or employee from cooperating or assisting federal immigration enforcement authorities in the execution of a warrant issued by a federal judge or magistrate or honoring any writ issued by any state or federal judge concerning the transfer of a prisoner to or from federal custody.

(5) Nothing in this section precludes any law enforcement officer from investigating or enforcing any criminal law or from participating in coordinated law enforcement actions with federal law enforcement agencies in the enforcement of local, state, or federal criminal laws.

**Source: L. 2019:** Entire article added, (HB 19-1124), ch. 299, p. 2761, § 2, effective May 28.

**24-76.6-103. Limitations on providing personal information by probation offices.**

(1) A probation officer or probation department employee shall not provide personal information about an individual to federal immigration authorities.

(2) Nothing in section 24-76.6-102 prevents law enforcement officers from coordinating telephone or video interviews between federal immigration authorities and individuals incarcerated in any county or local jail or other custodial facility, to the same extent as telephone or video contact with such individuals is allowed by the general public, if the individual has been advised, in the individual's language of choice, of certain information in writing, including but not limited to:

(a) The interview is being sought by federal immigration authorities;

(b) The individual has the right to decline the interview and remain silent;

(c) The individual has the right to speak to an attorney before submitting to the interview; and

(d) Anything the individual says may be used against him or her in subsequent proceedings, including in a federal immigration court.

(3) The written advisement described in subsection (2) of this section must be provided to the inmate again when the inmate is released.

**STATE FISCAL POLICIES RELATING TO SECTION 20  
OF ARTICLE X OF THE STATE CONSTITUTION**

**ARTICLE 77**

State Fiscal Policies Relating to Section 20  
of Article X of the State Constitution

**Cross references:** For restriction on state appropriations, see § 24-75-201.1.

**24-77-101. Legislative declaration.** (1) The general assembly hereby finds and declares that:

(a) Section 20 of article X of the state constitution, which was approved by the registered electors of this state at the 1992 general election, limits fiscal year spending of the state government;

(b) It is within the legislative prerogative of the general assembly to enact legislation which will facilitate the operation of section 20 of article X;

(c) It is a legislative prerogative to facilitate compliance with the state fiscal year spending limit and legislation to implement section 20 of article X as it relates to state government is a reasonable and necessary exercise of the legislative prerogative;

(d) In interpreting the provisions of section 20 of article X, the general assembly has attempted to give the words of said constitutional provision their natural and obvious significance;

(e) Where the meaning of section 20 of article X is uncertain, the general assembly has attempted to ascertain the intent of those who adopted the measure and, when appropriate, the intent of the proponents, as well as to apply other generally accepted rules of construction;

(f) The content of this article represents the considered judgment of the general assembly as to the meaning of the provisions of section 20 of article X as it relates to state government.

(2) The general assembly further finds and declares that:

(a) The adoption of section 20 of article X imposes a limit on state fiscal year spending and the provisions of this article were enacted to facilitate compliance with the state fiscal year spending limit;

(b) This article reflects the judgment of the general assembly regarding the meaning and implementation of section 20 of article X of the state constitution as it relates to state government;

(c) The provisions of this article should not be construed to substitute for generally accepted accounting principles which are applicable to financial documents and reports of state government;

(d) The purpose of preparing figures in accordance with this article, to ensure compliance with the state fiscal year spending limit, may differ from the purpose of preparing financial statements of the state, to determine the financial condition of the state;

(e) The financial statements of the state prepared by the state controller shall be prepared, insofar as possible, in conformity with generally accepted accounting principles; and

(f) The financial report required by this article shall be prepared in conformity with generally accepted accounting principles unless otherwise provided by law or unless an irreconcilable conflict exists between generally accepted accounting principles and the provisions of section 20 of article X in which case the provisions of said constitutional provision shall control.

(3) The general assembly further finds and declares that:

(a) When revenues exceed the state fiscal year spending limitation for any given fiscal year, section 20 (7)(d) of article X of the state constitution requires that the excess revenues be refunded in the next fiscal year unless voters approve a revenue change allowing the state to retain the revenues;

(b) It is the duty and intent of the general assembly to comply with the constitutional requirement to refund state excess revenues;

(c) It is within the legislative prerogative to facilitate compliance with the constitutional requirement to refund state excess revenues and legislation relating to the refunding of such excess revenues is a reasonable and necessary exercise of the legislative prerogative; and

(d) State excess revenues that are carried forward from the fiscal year in which they accrued shall be refunded in the next fiscal year and shall not be available for any other governmental purpose unless voters have authorized the state to retain such revenues.

**24-77-103. Limitation on state fiscal year spending - legislative declaration - report.**

(1) For fiscal year 1993-94 and each fiscal year thereafter, state fiscal year spending shall not exceed an amount equal to:

(a) State fiscal year spending for the previous fiscal year as may be adjusted pursuant to the provisions of section 24-77-103.5; as modified by

(b) An amount equal to a percentage calculated pursuant to subsection (2) of this section times the state fiscal year spending for the previous fiscal year, as adjusted for qualification and disqualification of enterprises, as adjusted pursuant to the provisions of subsection (2.3) of this section, and as reduced by an amount equal to:

(I) Annual debt service changes; and

(II) Refunds made pursuant to section 20 (1) and (3)(c) of article X of the state constitution; and

(III) The amount of any revenues resulting from approval by a majority of the registered electors of the state voting on the issue at a statewide election held after 1991; as modified by

(c) To the extent not otherwise included in state fiscal year spending for the previous fiscal year, an amount equal to:

(I) Annual debt service changes; and

(II) Refunds made pursuant to section 20 (1) and (3)(c) of article X of the state constitution; and

(III) An amount of any revenues resulting from approval by a majority of the registered electors of the state voting on the issue at a statewide election held after 1991.

(2) (a) (I) For purposes of paragraph (b) of subsection (1) of this section, and in accordance with section 20 (7)(a) of article X of the state constitution, the percentage of allowable increase in state fiscal year spending shall equal the sum of inflation as modified by the percentage change in state population in the prior calendar year.

(II) The general assembly hereby finds and declares that:

(A) Section 20 (7)(a) of article X of the state constitution requires the maximum annual percentage change in state fiscal year spending to equal inflation plus the percentage change in state population in the prior calendar year adjusted for revenue changes approved by voters.

(B) It is the considered judgment of the general assembly that the inclusion of inflation and the percentage change in state population in the prior calendar year when calculating the maximum annual percentage change in state fiscal year spending is designed to allow state fiscal year spending to increase to the extent necessary, but only to the extent necessary, to ensure that state population growth and inflation, which are factors beyond the direct control of state government, do not unduly affect the ability of the state to fund transportation projects and other projects and services needed to meet the demands of a growing population.

(III) The general assembly further finds and declares that:

(A) For the purpose of determining the maximum percentage change in state fiscal year spending for any given fiscal year, section 20 (7)(a) of article X of the state constitution requires the state to annually determine population by annual federal census estimates and to further adjust the population determined every decade to match the decennial federal census.

(B) Section 20 (7)(a) of article X of the state constitution does not specify how adjustments to population to match the decennial federal census are to be made and it is therefore within the legislative prerogative to determine the manner in which such adjustments are to be made.

(C) The results of the 2000 federal census indicate that the annual federal census estimates used to determine population for the purpose of determining the maximum annual percentage change in state fiscal year spending in the fiscal years prior to the 2001-02 fiscal year underestimated population growth in the state, which caused a cumulative reduction in the maximum annual percentage change in state fiscal year spending during the prior fiscal years, resulted in over-refunds of state revenues during the prior fiscal years, and impaired the state's ability to fund transportation projects and other projects and services needed to meet the demands of the state's growing population.

(D) It is consistent with the purposes of section 20 (7)(a) of article X of the state constitution for the general assembly to enact legislation that will ensure that the state can recoup state revenues lost because the underestimates of population growth in the state in the fiscal years prior to the 2001-02 fiscal year resulted in over-refunds of state revenues and that the state can also recoup state revenues lost in the future due to over-refunds resulting from future underestimates of population growth.

(E) The mechanism for allowing the adjustment of population every decade to match the federal census to occur over more than one fiscal year when the actual amount of state fiscal year spending for the first fiscal year in which such an adjustment can be made is insufficient to allow the state to recoup the full amount of all over-refunds resulting from underestimates of population growth that is set forth in subparagraph (II.5) of paragraph (b) of this subsection (2), is reasonable, necessary, in the best interests of the state, and consistent with the requirements and objectives of section 20 (7)(a) of article X of the state constitution.

(b) (I) Except as otherwise provided in subparagraphs (II) and (II.5) of this paragraph (b), the percentage change in state population for any given calendar year shall be the percentage change between the estimate of state population due to be issued by the United States bureau of census in December of such calendar year with a reference date of July 1 of the same calendar year and the estimate of state population due to be issued by the United States bureau of census in December of the same calendar year with a reference date of July 1 of the immediately preceding calendar year.

(II) Except as otherwise provided in subparagraph (II.5) of this paragraph (b), for any calendar year for which an estimate of state population is not issued due to the federal census of the United States bureau of census, the percentage change in state population for such calendar year shall be the percentage change between the state population as reported in the federal

census conducted by the United States bureau of census due in December of such calendar year and the estimate of state population due to be issued by the United States bureau of census in December of the same year with a reference date of July 1 of the immediately preceding calendar year.

(II.5) (A) If the limitation on state fiscal year spending for a given fiscal year is calculated with a percentage of allowable increase in state fiscal year spending that includes a percentage change in state population determined in accordance with subparagraph (II) of this paragraph (b) and the limitation on state fiscal year spending exceeds the actual amount of state fiscal year spending for that fiscal year, the percentage change in state population shall be reduced so that the limitation on state fiscal year spending for that fiscal year calculated with a percentage of allowable increase in state fiscal year spending that includes such reduced percentage change in state population equals the amount of state fiscal year spending for that fiscal year.

(B) The difference between the percentage change in state population determined in accordance with subparagraph (II) of this paragraph (b) and the reduced percentage change in state population used to calculate the limitation on state fiscal year spending pursuant to subparagraph (A) of this subparagraph (II.5) shall be carried forward as an adjustment of the percentage change in state population determined pursuant to subparagraph (I) of this paragraph (b) for a maximum period of nine fiscal years. If the amount of state fiscal year spending for the immediately subsequent fiscal year exceeds the limitation on state fiscal year spending for that fiscal year, the unused adjustment shall be added first to the percentage change in state population determined pursuant to subparagraph (I) of this paragraph (b) that is included in the percentage of the allowable increase in state fiscal year spending used in calculating the limitation on state fiscal year spending for that fiscal year to the greatest extent possible without causing the limitation on state fiscal year spending to exceed the actual amount of state fiscal year spending for that fiscal year.

(C) Any remaining portion of the unused adjustment shall continue to be added, to the greatest extent possible, to the percentage change in state population determined pursuant to subparagraph (I) of this paragraph (b) that is included in the percentage of allowable increase in state fiscal year spending used in calculating the limitation on state fiscal year spending for subsequent fiscal years without causing the limitation on state fiscal year spending for a given fiscal year to exceed the actual amount of state fiscal year spending for that fiscal year.

(D) Any portion of the unused adjustment that remains unused after the expiration of the maximum period of nine fiscal years shall not be included in the percentage of allowable increase in state fiscal year spending used in calculating the limitation on state fiscal year spending for any fiscal year subsequent to the expiration of such period.

(III) The department of local affairs shall notify the president of the senate, the speaker of the house of representatives, the governor, and the chairman of the joint budget committee of the general assembly of the percentage change in state population calculated pursuant to this paragraph (b) no later than January 15 following the calendar year for which such percentage is calculated. Such percentage shall not be subject to later modification based upon any subsequent

revision of census counts or population estimates issued by the United States bureau of the census.

(2.3) (a) The general assembly hereby finds and declares that section 20 of article X of the state constitution fails to provide guidance as to how the absorption of an existing local government district by the state is to be treated for purposes of compliance with said constitutional provision. The general assembly further finds and declares that it is not reasonable for state fiscal year spending to remain at the same level, with an accompanying reduction in revenues available to fund other state services, in order that the state may absorb local government districts that provide higher education services. The general assembly further finds and declares that the method of absorbing local government districts that provide higher education services by the state for purposes of compliance with section 20 of article X of the state constitution embodied in this subsection (2.3) reasonably restrains most the growth of government since government as a whole has not grown while preserving essential state services.

(b) For purposes of paragraph (b) of subsection (1) of this section, when any local government district that provides higher education services joins the state, the amount of state fiscal year spending allowable for the fiscal year in which such joinder takes effect shall be adjusted by the amount of fiscal year spending of such local government district that provides higher education services in accordance with section 20 of article X of the state constitution in the current fiscal year.

(3) The base for the calculation of state reserve increases for fiscal year 1992-93 shall be the state unrestricted year-end fund balances of the state general fund and of all state cash funds for fiscal year 1991-92. For purposes of this section, the amount of said state unrestricted year-end fund balances does not constitute and shall not be included in state fiscal year spending for fiscal year 1992-93.

(4) For purposes of complying with the limitation on state fiscal year spending set forth in subsection (1) of this section, the state may refuse to accept any moneys, in whole or in part, from any enterprise in any given fiscal year, notwithstanding any law to the contrary.

(5) For purposes of complying with the limitation on state fiscal year spending set forth in subsection (1) of this section, the state may refuse to accept any gift, including but not limited to real property, for which state expenditures would be required for the maintenance and operation of such gift and which does not include sufficient revenues for said purposes.

(6) (a) For purposes of complying with the limitation on state fiscal year spending set forth in subsection (1) of this section, any moneys continuously appropriated by a permanent statute or constitutional provision shall be included in the general appropriation bill for informational purposes.

(b) The authority to expend such moneys shall be modified only by duly enacted amendment to the permanent statute or constitutional provision which continuously appropriates such moneys.

(c) Except as otherwise provided in this paragraph (c), any moneys continuously appropriated by a permanent statute or constitutional provision shall be subject to revenue and

expenditure limits established annually by the general assembly as provided by law for the purpose of complying with the limitation on state fiscal year spending set forth in subsection (1) of this section. The provisions of this paragraph (c) shall not apply to moneys continuously appropriated to the limited gaming control commission pursuant to section 9 of article XVIII of the state constitution.

(7) For purposes of complying with the limitation on state fiscal year spending set forth in subsection (1) of this section, and notwithstanding section 24-1-136 (11)(a)(I), each state institution of higher education shall prepare a written report for each quarter of the fiscal year, which shall include the total amount of net revenues generated during such period from any facility, activity, or operation managed by such state institution of higher education that is an enterprise and the total amount of such net revenues and any other thing of value received by such state institution of higher education from such enterprises. The report shall be filed with the president of the senate, the speaker of the house of representatives, and the chair of the joint budget committee no later than thirty days after the close of such period.

**24-77-103.5. Legislative declaration - correction of errors - authority of the controller and auditor.** (1) The general assembly finds and declares that ascertaining compliance with the provisions of section 20 of article X of the state constitution requires that accurate calculations be made of state fiscal year spending. The general assembly further finds and declares that it is reasonable to account for any errors in calculating state fiscal year spending by authorizing the controller to make equivalent adjustments in state fiscal year spending for the fiscal year in which such errors are discovered in accordance with the provisions of this subsection (1).

(2) For purposes of section 24-77-103, for any given fiscal year, if the controller discovers an error involving a prior fiscal year by whatever means available affecting the calculation of state fiscal year spending, the controller may correct such error by increasing or decreasing in an appropriate amount the allowable state fiscal year spending for the fiscal year in which such error is discovered, subject to a review of such adjustment by the state auditor.

### Limitations on Sources of Revenue

**24-79-101. Legislative declaration.** (1) The general assembly finds, determines, and declares that:

(a) Free and unfettered access by Colorado's citizens to national and global communications media, including, without limitation, the internet, is essential to citizen participation in state and national affairs through the exchange of information and the continued vitality of commerce at the state, national, and international levels;

(b) Colorado's long-term economic health and competitiveness vis-à-vis the economies of other states and nations, including the benefits of full employment and the attraction of new businesses that may wish to locate here, depend on creating a business environment that is conducive to the continued growth of commerce via the internet and online services;

(c) A patchwork of local fees and taxes, or the addition of state fees and taxes to those already imposed on business activity, will tend to discourage new investment, reduce the number of jobs available in the state, and dissuade consumers and employers from enjoying the economic, social, and environmental benefits offered by use of the internet, including but not limited to telecommuting, just-in-time inventory control, and advance reservation of goods and services;

(d) The cost of forgoing these benefits, even partially and even at a local level, will be borne by all citizens of the state in the form of increased traffic congestion, air pollution, a lower quality of life, and lost time and productivity. Therefore, this act addresses a matter of statewide concern.

(e) Until pending federal legislation resolves issues involving electronic commerce, including whether, and to what extent, state and local taxation of internet access services will further the interests of all participants in the national economy, including the citizens of Colorado, a moratorium of at least three years is appropriate on the imposition of such charges, consistent with the pending national plan.

(a) The direct charges for provision of internet access services; or

(b) Any provider of internet access services as a means of collecting sales or use taxes from persons who purchase taxable property or services through use of the internet unless such provider acts as a vendor of taxable property or services.

(1.5) On and after April 30, 2001, the state shall not impose, assess, or collect any tax, regulation, fee, or charge upon:

(a) The direct charges for provision of internet access services, whether offered separately or as part of a package or bundle of services; or

(b) Any provider of internet access services as a means of collecting sales or use taxes from persons who purchase taxable property or services through use of the internet unless such provider acts as a vendor of taxable property or services.

(2) As used in this section:

(a) "Internet" means the international computer network consisting of federal and nonfederal, interoperable, packet-controlled, switched data networks.

**24-80-1302. Discovery of human remains.** (1) Except as provided in section 24-80-1303 with regard to anthropological investigations, any person who discovers on any land suspected human skeletal remains or who knowingly disturbs such remains shall immediately notify the coroner or medical examiner of the county wherein the remains are located and the sheriff, police chief, or land managing agency official.

(2) The coroner or medical examiner shall conduct an on-site inquiry within forty-eight hours after such notification to attempt to determine whether such skeletal remains are human remains and to determine their forensic value. If it is confirmed that the remains are human remains and of forensic value, the coroner or medical examiner shall take legal custody of the human remains pursuant to section 30-10-606 (1.2), C.R.S. If it is confirmed that the remains are human remains but of no forensic value, the coroner or medical examiner shall notify the state archaeologist of the discovery. The state archaeologist shall recommend security measures for the site.

(3) Prior to further disturbance, the state archaeologist shall cause the human remains to be examined by a qualified archaeologist to determine whether the remains are more than one hundred years old and to evaluate the integrity of their archaeological context. Complete documentation of the archaeological context of the human remains shall be accomplished in a timely manner.

(4) (a) If the on-site inquiry discloses that the human remains are Native American, the state archaeologist shall notify the commission.

(b) The remains shall be disinterred unless the landowner, the state archaeologist, and the chairman of the commission or his designee unanimously agree to leave the remains in situ.

(c) Disinterment shall be conducted carefully, respectfully, and in accordance with proper archaeological methods and by an archaeologist who holds a permit issued under sections 24-80-405 and 24-80-406. In the event the remains are left in situ, they shall be covered over.

(e) The archaeologist who conducts the disinterment will assume temporary custody of the human remains, for a period not to exceed one year from the date of disinterment, for the purpose of study and analysis. In the event that a period in excess of one year is required to complete such study and analysis, the commission shall hold a hearing and may, based upon its findings, grant an extension. During the period that the human remains are in the temporary custody of the archaeologist who conducted the disinterment, an archaeological analysis and report shall be prepared. At the same time, a physical anthropological study shall be conducted to include, but not be limited to, osteometric measurement, pathological analysis, and age, sex, and cause of death determinations. The cost of the disinterment, archaeological analysis, and physical anthropological study shall be borne by the state archaeologist except when the human remains are recovered from private lands. In the latter case, if no party can be identified who will bear the cost of such scientific study, the state archaeologist shall bear such costs.

Upon receipt of said permit by a qualified applicant, he shall notify the coroner and sheriff of the county in which the investigation shall be conducted.

(2) When skeletal remains are discovered during such an investigation, the anthropologists shall determine whether such skeletal remains are human remains, and, if such remains are determined to be human remains, the anthropologists shall determine, whenever possible, the age and cultural affiliation of the individual. Based on such determinations, the anthropologists shall proceed as follows:

(a) If it is determined that the human remains are of an individual who has been dead less than one hundred years, the anthropologists shall notify the coroner of the discovery and shall offer an opinion as to the forensic significance of the human remains. The coroner shall respond to such notification within twenty-four hours, during which time all activity which could disturb such human remains shall cease. If, on the basis of the anthropologists' opinion or on an independent on-site inquiry, the coroner determines that the human remains are of no forensic significance, the anthropologists shall notify either the state archaeologist, if the human remains are those of a Native American, or the Colorado state anatomical board, if the human remains are those of a human being who was not a Native American.

(b) If it is determined that the skeletal remains are human remains but of an individual who has been dead for more than one hundred years, notwithstanding the provisions of section 30-10-606 (1.2), C.R.S., the anthropologists need not notify the coroner but shall notify either the state archaeologist, if the human remains are those of a Native American, or the Colorado state anatomical board, if the remains are of a non-Native American.

(3) Upon notification by the anthropologists of the discovery of the human remains of a Native American, the state archaeologist shall notify the commission and shall thereafter proceed in accordance with the provisions of section 24-80-1302 (4).

**24-80.1-104. Effect of state register - exception - legislative declaration.** (1) Except as otherwise provided in subsection (3) of this section, properties included or nominated for inclusion in the state register are protected from any action initiated by a state agency until a final determination concerning the effect of the action on such properties is made pursuant to subsection (2) of this section.

(2) (a) At the earliest stage of planning or consideration of a proposed action or when it is anticipated that properties of historical significance may be adversely affected in the course of

an agency action and in all cases prior to an agency decision concerning an action that may have an effect on properties listed in the state register, the agency initiating the action shall identify such properties located within the area of the proposed action, notify the society of the proposed action, request a determination of effect on such properties, and afford the society a period of thirty days in which to review the proposed action. (II) For a nomination to include a water supply structure in the national register, the society shall not proceed with the nomination if objection is made in accordance with 36 CFR 60.6.

(2) (a) Prior to taking any action to request approval from the keeper of the national register of a multiple property documentation form in which any or all of the multiple property types or associated property types are water supply structures, the society shall procure the approval of the state engineer appointed pursuant to section 37-80-101, C.R.S.

The state engineer shall act solely at his or her discretion to consider and approve or disapprove the multiple property documentation form at a time he or she sees fit.

(II) The society shall enter into a programmatic agreement with the state engineer that requires, at a minimum, that any person having an interest in the water supply structure who objects to inclusion of the owners' water supply structure may have the water supply structure removed from the multiple property documentation form.

(3) Nothing in this section limits communications between the society and the keeper of the national register that are required under 16 U.S.C. sec. 470a (b)(3)(I). The state engineer shall not review any such communications in which water supply structures are only incidentally described.

**24-82-102.5. Unused state-owned real property - cash fund - legislative declaration - definitions.** (1) (a) The general assembly hereby finds and declares that:

(I) The state owns a surplus of real property that is not needed for state use that could provide benefits to Colorado, including for affordable housing, child care, public schools, residential mental and behavioral health care, and renewable energy;

(II) The department of personnel is already authorized in section 24-82-102 (2)(a) to rent or lease real property not presently needed for state use;

(III) The state has set ambitious goals to increase renewable energy production across Colorado;

(IV) Families throughout Colorado continue to experience a shortage of quality and affordable child care options;

(V) There is a continued need in Colorado for quality public school facilities;

(VI) There is a continued need in Colorado for quality residential mental and behavioral health care facilities;

(VII) Many senior citizens, veterans, and other hard-working Coloradans are unable to afford to live in or near the communities in which they work and far too many Coloradans pay in excess of half their monthly income on their basic needs;

(VIII) As the availability of finding land suitable for the development of affordable housing that can be obtained on an economic basis is often a significant barrier to the development of such housing, the identification of unused state-owned real property, with the ultimate objective of assessing such property for its sustainability and potential use for affordable housing, promises to be a critical tool available to the state and even local governments in meeting the state's housing needs for these segments of the population; and

(IX) Since real property owned by the state ultimately belongs to the people of Colorado, the state should maximize the use and value of its resources, including unused real property, to address the needs of the state's population.

(b) By enacting this section, the general assembly intends for the department to conduct a review of state-owned real property that is not presently used for state purposes and to transparently enter into agreements to construct affordable housing, child care facilities, public school facilities, residential mental and behavioral health care facilities, or renewable energy production facilities on suitable unused state-owned real property and to determine other beneficial uses of any such unused state-owned real property.

(2) As used in this section, unless the context otherwise requires:

(a) "Department" means the department of personnel.

(b) "Fund" means the unused state-owned real property fund created in subsection (5) of this section.

(c) "Unused state-owned real property" means state-owned real property owned by or under the control of a state agency, not including the division of parks and wildlife in the department of natural resources and not including the state board of land commissioners or any state institution of higher education as defined in section 24-30-1301 (18), that is not otherwise protected for or dedicated to another use such as an access or a conservation easement.

(3) (a) The department shall maintain an inventory of unused state-owned real property and shall post a list of the inventory on its website. The inventory must be updated annually.

(b) The department may request the list provided to the capital development committee under section 2-3-1304 (3) as a basis for the department's inventory, but the department shall independently ascertain the inventory for the department's purposes under this section.

(4) (a) The department shall determine whether the unused state-owned real property identified by the department under subsection (3) of this section is suitable for construction of affordable housing, child care facilities, public school facilities, residential mental and behavioral health care facilities, or placement of renewable energy facilities, or may recommend that such property should be sold or is suitable for other purposes.

(b) In determining the suitability of property under subsection (4)(a) of this section, the department may consult with and seek input from:

(I) The state architect, or their designee;

(II) The executive director of the department of local affairs, or their designee;

(III) The Colorado housing and finance authority created in section 29-4-704 (1);

(IV) Any relevant political subdivisions of the state;

(V) Any additional renewable energy facility experts;

(VI) Any additional child care, public school, and mental and behavioral health care experts; and

(VII) Any additional affordable housing experts.

(c) Notwithstanding any section to the contrary, the department may seek proposals from qualified developers to construct affordable housing, child care facilities, public school facilities, or residential mental and behavioral health care facilities, or to place renewable energy facilities

on unused state-owned real property that the department has deemed suitable under subsection (4)(a) of this section. Proposals must be sought in accordance with the "Procurement Code", articles 101 to 112 of this title 24.

(d) The department may enter into contracts with qualified developers for proposals to construct affordable housing, child care facilities, public school facilities, or residential mental and behavioral health care facilities, or to place renewable energy facilities on unused state-owned real property that the department has deemed suitable under subsection (4)(a) of this section, subject to available appropriations. Budget requests under this section must be made through the process established in section 24-37-304 (1)(c.3); except that budget requests under this section may not be made through a request for a supplemental appropriation. Notwithstanding section 24-82-102 (2)(a), contracts between the state and qualified developers may not require improvements constructed on state property for the purposes of this section to become the property of the state upon termination of a lease for such property.

(e) In the event the department plans to enter into a contract regarding any unused state-owned real property as authorized by this section, or in the event the department enters into a lease of unused state-owned real property as allowed under section 24-82-102 (2)(a), the department shall first submit a report to the capital development committee that outlines the anticipated use of the property. The capital development committee shall review the reports submitted by the department, make recommendations to the department concerning the anticipated use of the unused state-owned real property, and approve or disapprove the anticipated use of the unused state-owned real property. The department shall not enter into a contract regarding unused state-owned real property or lease unused state-owned real property without the approval of the capital development committee.

(5) (a) The unused state-owned real property fund is hereby created in the state treasury. Unless otherwise directed, the state treasurer shall credit all proceeds from the sale, rent, or lease, including any leases entered into under section 24-82-102 (2)(a), of unused state-owned real property to the fund. The fund also consists of any other money that the general assembly may appropriate or transfer to the fund.

(b) The state treasurer shall credit all interest and income derived from the deposit and investment of money in the unused state-owned real property fund to the fund. **24-82-108. State capitol building advisory committee - creation - repeal.** (1) It is the intent of the general assembly to ensure that the historic character and architectural integrity of the capitol building and grounds be preserved and promoted. Because the rose onyx, marble, granite, gold, oak woodwork, and brass fixtures and trim are deemed to be historic, it is the intent of the general assembly to provide for special procedures to be followed in any project affecting such items. In order to ensure that structural changes and innovations do not injure or dramatically change the state capitol building or the historic items contained within the building or other areas set forth in paragraph (a) of subsection (3) of this section, there is hereby created the state capitol building advisory committee, which shall review plans to restore, redecorate, or reconstruct space within the state capitol building and make recommendations to the capital development committee based on such plans.

(2) (a) (I) The state capitol building advisory committee shall be composed of the following twelve members: Three members appointed by the speaker of the house of representatives, at least one of whom shall be a member of the house of representatives who has served at least one year in the house of representatives; three members appointed by the president of the senate, at least one of whom shall be a member of the senate who has served at least one year in the senate; three members appointed by the governor; an architect, appointed by the governor, who is a person knowledgeable about the historic and architectural integrity of the state capitol building; and the following ex officio members: The president of the state historical society or a designee of the president; and the executive director of the department of personnel or a designee of the executive director. Of the members scheduled to be appointed by the speaker of the house of representatives on July 1, 2001, one shall serve a term of one year and two shall serve terms of two years. Except as provided in subparagraph (II) of this paragraph (a), all members appointed by the speaker of the house of representatives thereafter shall serve two-year terms. Of the members scheduled to be appointed by the president of the senate on July 1, 2001, one shall serve a term of one year and two shall serve terms of two years. Except as provided in subparagraph (II) of this paragraph (a), all members appointed by the president of the senate thereafter shall serve two-year terms. Of the members scheduled to be appointed by the governor on July 1, 2000, one member shall serve a term of one year, one member shall serve a term of two years, and two members shall serve terms of three years. All members appointed by the governor thereafter shall serve two-year terms.

(II) The terms of the members appointed by the speaker of the house of representatives and the president of the senate and who are serving on March 22, 2007, shall be extended to and expire on or shall terminate on the convening date of the first regular session of the sixty-seventh general assembly. As soon as practicable after such convening date, the speaker and the

president shall appoint or reappoint members in the same manner as provided in subparagraph (I) of this paragraph (a). Thereafter, the terms of members appointed or reappointed by the speaker and the president shall expire on the convening date of the first regular session of each general assembly, and all subsequent appointments and reappointments by the speaker and the president shall be made as soon as practicable after such convening date. The person making the original appointment or reappointment shall fill any vacancy by appointment for the remainder of an unexpired term. Members appointed or reappointed by the president and the speaker shall serve at the pleasure of the appointing authority and shall continue in office until the member's successor is appointed.

(b) Ex officio members of the advisory committee shall serve as long as their office is held.

(c) The advisory committee shall meet at the state capitol no less than three times per year at the call of the chairman. One meeting shall be designated as the annual meeting.

(d) At the annual meeting, the advisory committee members shall elect a chairman from among its members to serve as chairman for one year of such member's term.

(e) All members of the advisory committee shall be volunteers and shall serve without per diem except as otherwise provided in section 2-2-326, C.R.S.; except that members of the advisory committee shall be reimbursed for necessary and actual expenses incurred in the performance of their duties.

(3) The advisory committee shall have the following duties:

(a) The advisory committee shall review, advise, and make recommendations to the capital development committee with respect to plans to restore, redecorate, and reconstruct space within the public and ceremonial areas of the state capitol buildings group, the legislative services building and the surrounding grounds of such building, and the surrounding grounds of the state capitol building bounded by Colfax avenue on the north, Grant street on the east, Fourteenth avenue on the south, and Broadway on the west, in the city and county of Denver. This shall include but not be limited to the corridors, rotundas, lobbies, entrance ways, stairways, restrooms, porticos, steps, and elevators. The committee shall not have responsibility for reviewing, advising, or making recommendations concerning the outer office of the executive suite and the areas used for office space, legislative chambers, and legislative committee meeting rooms, except as to structural modifications affecting the rose onyx, marble, granite, gold, oak woodwork, or brass fixtures and trim as provided for in paragraph (b) of this subsection (3).

(b) The advisory committee shall review all planned construction projects affecting the rose onyx, marble, granite, gold, oak woodwork, and brass fixtures and trim of the state capitol building, and shall submit a written report to the capital development committee containing the advisory committee's findings. No such project affecting the rose onyx, marble, granite, gold, oak woodwork, and brass fixtures and trim shall be made without review by said advisory committee and the consent of the capital development committee. No alteration to the above listed items shall be permitted in any area of the state capitol building until such project is reviewed by the advisory committee and approved by the capital development committee. Notwithstanding the provisions of this paragraph (b), the department of personnel shall have the

authority to perform emergency repairs where the safety of persons or the well-being of the building would be jeopardized by delay. Such emergency repairs shall be undertaken in a manner to prevent or minimize any damage to the rose onyx, marble, granite, gold, oak woodwork, or brass fixtures and trim of the state capitol building.

(b.5) Repealed.

(c) The advisory committee, in cooperation with the department of personnel and with the approval of the capital development committee, may engage in long-range planning for modifications and improvements to the state capitol building and its surrounding grounds.

(d) The advisory committee shall identify all furniture original to the state capitol building and create an inventory of such furniture. Any costs associated with identifying and inventorying furniture original to the state capitol building shall be paid with moneys raised through private sources and shall not be paid from the general fund. The department of personnel is hereby granted the authority to collect and use such moneys raised by private sources for the purpose of identifying and inventorying all furniture original to the state capitol building. The possession of all furniture original to the state capitol building shall be retained by the department of administration and shall be made available for use in the state capitol building. The furniture original to the state capitol building shall remain in the state capitol building at all times.

(e) The advisory committee shall determine which damaged pieces of furniture original to the state capitol building should be restored or renovated and shall make recommendations to the capital development committee regarding such furniture.

(f) (I) For the purpose of promoting historic interest in the state capitol building and for producing moneys to enhance preservation of original and historic elements of the state capitol building, the advisory committee shall formulate a plan for publishing publications on the history of the state capitol building and for developing other state capitol building memorabilia for sale to the public. This plan shall be presented to the capital development committee no later than October 1, 1991. All moneys received from the sale of such items shall be credited to a special account within the public buildings trust fund established by section 8 of the "Enabling Act of Colorado", which account is hereby established.

(II) The committee is authorized to accept gifts, grants, or donations of any kind from any private or public source to carry out the purposes of this paragraph (f). All such gifts, grants, or donations shall be transmitted to the state treasurer who shall credit the same to the special account created by this paragraph (f) within the public buildings trust fund.

(III) Moneys in the special account are hereby continuously appropriated to the advisory committee for republishing and reissuing publications on the history of the state capitol building and other state capitol building memorabilia, for restoring, repairing, and enhancing the state capitol building, the legislative services building, and the grounds of said buildings, and for such other purposes as are necessary or incidental to accomplish the purposes of this paragraph (f).

(g) The advisory committee shall evaluate proposals for uses of the state capitol driveways in addition to those authorized in section 24-82-104. The advisory committee shall evaluate any proposals which are received from the general assembly, the governor, or the city

and county of Denver. Such evaluation shall consider any potential threat to the safety of individuals who are in or around the state capitol building, any potential interference with the operations of the executive department which are posed by any proposed additional use, and the relevant provisions of any current master plan for the state capitol building and surrounding area. Notwithstanding the provisions of section 24-82-104 (2), if the advisory committee determines the proposed use to be reasonable, the proposal shall be directed to the capital development committee and the governor for approval. No additional use of the state capitol driveways shall be effective without the approval of the capital development committee and the governor.

(h) (I) Except as provided in subparagraph (II) of this paragraph (h), all proposals involving the gift or loan of objects of art and memorials to be placed on a permanent or temporary basis in the state capitol building or on its surrounding grounds and proposals for fund-raising efforts to place objects of art or memorials in the state capitol building or on its surrounding grounds shall be submitted to the advisory committee for evaluation. The advisory committee shall develop criteria and a procedure for such evaluations, which procedure shall include consulting with knowledgeable advisors to assist in evaluating each object of art or memorial individually. The advisory committee shall evaluate all such proposals and present recommendations resulting from such evaluations as follows:

(A) Proposals pertaining to all public areas of the state capitol building, including but not limited to the corridors, rotunda, lobbies, entrance ways, stairways, restrooms, porticos, steps, and elevators shall be submitted to the capital development committee for approval. (II) The provisions of this paragraph (h), shall not apply to proposals pertaining to the outer office of the executive suite and those areas of the first floor used as office space by the executive department.

(III) The advisory committee is authorized to direct the removal of any objects of art or memorials that are placed in the state capitol building or on its surrounding grounds that have not been submitted to the advisory committee for evaluation and approval pursuant to the criteria and procedure developed by the advisory committee pursuant to subparagraph (I) of this paragraph (h). This subparagraph (III) shall not apply to objects of art or memorials placed prior to the formation of the advisory committee.

(i) (I) The advisory committee shall be responsible for any remaining duties of the former fallen heroes memorial commission as it existed in section 24-80-1402 prior to its repeal. The advisory committee shall perform any remaining duties with the assistance of the department of personnel and a Colorado 501(c)(3) organization created for the purpose of raising funds for the construction of the fallen heroes memorial.

(II) This subsection (3)(i) is repealed, effective July 1 of the year following the receipt by the revisor of statutes of certification from the executive director of the department of personnel that the appropriate memorials have been constructed.

(4) The advisory committee may call upon the staff of the legislative council and the department of personnel to provide any necessary assistance in carrying out the committee's duties. Proposed plans to restore, redecorate, or reconstruct the building, or make alterations affecting the rose onyx, marble, granite, gold, oak woodwork, and brass fixtures or trim in the building shall be submitted in writing to the staff of the legislative council and the department of personnel at least thirty days before such work is scheduled to begin.

## PART 5

### SOLAR ENERGY RESEARCH INSTITUTE

**24-82-501. Short title.** This part 5 shall be known and may be cited as the "Solar Energy Research and Development Act of 1977".

**Source:** L. 77: Entire part added, p. 1255, § 1, effective February 1.

**24-82-502. Legislative declaration.** The general assembly hereby finds and declares that the enactment of this part 5 is in the interest of the people of the state of Colorado and of the United States and is for a public purpose; that the selection of a site within the state of Colorado for the construction and operation of a federal facility for the purpose of conducting solar energy research and development and other related forms of energy research is desirable and consistent with scientific, industrial, and commercial development of this state; and that the state should facilitate research which will protect and enhance the preservation of natural resources and the environment of the state, including its land, air, and water and the health and welfare of its citizens. It is the purpose of this part 5 to facilitate the acquisition and use of land or interests in land which may be needed or desirable for a permanent site suitable for a federal facility to conduct solar energy research and development. It is further declared that the development of renewable, fuel resource-conserving, and nonpolluting forms of energy is a matter of statewide concern and affected with the public interest and that the provisions of this part 5 are enacted in

the exercise of the police powers of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state.

**Source: L. 77:** Entire part added, p. 1255, § 1, effective February 1.

**24-82-503. Conveyance of state lands authorized - description.** (1) Any other provision of law to the contrary notwithstanding, including, but not limited to, section 28-3-106, C.R.S., the adjutant general and the governor, assisted by the attorney general, may enter into an option agreement, exercisable by the federal government at any time within a five-year period, to convey, and may convey within such period, to the federal government, without compensation, approximately three hundred acres of the real property interest of the state of Colorado in section thirty-six, township three south, range seventy west of the sixth principal meridian, located in Jefferson county, or so much thereof as the governor, in consultation with the appropriate federal agency, deems necessary for purposes of a solar energy research institute. The state's interest in this property shall not be conveyed in any other manner or for any other purpose.

(2) (a) A conveyance made pursuant to subsection (1) of this section shall be made only when the federal government is prepared to accept the conveyance according to a schedule for site preparation and construction of the facility as it deems appropriate. A conveyance made pursuant to subsection (1) of this section may be made by dividing the three hundred acres to be conveyed into two parcels. The first parcel, parcel A, may be of approximately one hundred forty-five acres, to be used for the main test site and for utility improvements. The title to parcel A shall revert to the state of Colorado after a period of five years from the date of the deed unless within such period the federal government commences construction of improvements to be made on parcel A, at which time the reversionary provision shall become null and void. The second parcel, parcel B, may be of approximately one hundred fifty-five acres, to be used for additional test sites and for office and laboratory facilities. The title to parcel B shall revert to the state of Colorado after a period of five years from the date of the deed unless within such period the federal government causes the reversionary provision concerning parcel A to become null and void.

(b) If the reversionary provision concerning parcel A becomes null and void, parcel B shall revert to the state of Colorado twenty years from the date of the deed unless either of the following occur, at which time the reversionary provision shall become null and void:

(I) The federal government has indicated that it has approved programs and appropriated funds and is prepared to commence construction of either an office building or laboratory building on either parcel A or parcel B; or

(II) The federal government commences construction of permanent improvements on said parcel B.

(3) The provisions of this section shall not apply to any interest in such property retained as state school land indemnity interest, but the state board of land commissioners, in a manner consistent with federal law and the constitution of the state, may subordinate such interest to facilitate the conveyance to the federal government pursuant to subsections (1) and (2) of this

section. The procedural requirements of article 1 of title 36, C.R.S., regarding leasing or sale of state lands shall not apply to such subordination. Any subordination of the state school land indemnity interest made pursuant to this subsection (3) may contain provisions for a termination of the subordination under the same terms and conditions as reversion of the land conveyed pursuant to subsections (1) and (2) of this section.

**24-82-504. Siting of institute.** Any other provision of law to the contrary notwithstanding, including, but not limited to, article 23 of title 31, article 28 of title 30, article 65.1 of this title, and part 3 of article 1 of title 34, C.R.S., use of the property described in section 24-82-503 (1) is authorized and approved for purpose of a solar energy research facility by the federal government, but, insofar as feasible, the facility shall conform to the substantive standards of any state or local building, fire, safety, health, and environmental control code or any other requirement which would otherwise be applicable.

## PART 8

### FINANCED PURCHASE OF AN ASSET OR CERTIFICATE OF PARTICIPATION AGREEMENTS FOR ACQUISITION OF

## REAL OR PERSONAL PROPERTY

**24-82-801. Financed purchase of an asset of certification of participation agreements for acquisition of real or personal property - definition.** (1) (a) (I) Except as provided in subsection (6) of this section, and subject to the requirement set forth in subsection (1)(a)(II) of this section, no financed purchase of an asset or certificate of participation agreement for real property that requires total payments exceeding five hundred thousand dollars over the term of the agreement shall be entered into unless such agreement is specifically authorized, prior to its execution, by a bill enacted by the general assembly, other than the annual general appropriation act or a supplemental appropriation act.

(II) (A) Each bill enacted by the general assembly on or after August 8, 2018, as required in subsection (1)(a)(I) of this section, must include a requirement that the state agency or state institution of higher education entering into the financed purchase of an asset or certificate of participation agreement present a plan to the capital development committee, no later than the December of the fourteenth calendar year or the January of the fifteenth calendar year after either the date of the substantial completion of the construction or after the date of acquisition, that details how the state agency or state institution of higher education is prepared to fund the controlled maintenance needs of the real property so that at least an amount equal to an estimation of the sum of one percent of the insured value of the real property for each year starting with the sixteenth year after either the date of the substantial completion of the construction or after the date of acquisition is available for a total period of twenty-five years for the real property's controlled maintenance needs. The plan presented by the state agency or state institution of higher education may include a request for an additional financed purchase of an asset or certificate of participation agreement for such controlled maintenance needs or may include a request for partial or complete state funding of such controlled maintenance needs. The capital development committee shall review the plan presented by the state agency or state institution of higher education. Any approved plan shall be authorized by bill enacted by the general assembly, other than the annual general appropriation act or a supplemental appropriation act; except that, if the approved plan is for a state institution of higher education to fund such controlled maintenance needs from cash funds then the plan may be approved by majority vote of the capital development committee.

(B) For purposes of this section, "controlled maintenance" has the same meaning as set forth in section 24-30-1301 (4); except that it may include any maintenance needs that would ordinarily be funded in a state agency's or state institution of higher education's operating budget. Also for purposes of this section, "insured value" means the insured value of the real property as determined through the risk management program established in part 15 of article 30 of this title 24.

(b) Except as provided in subsection (6) of this section, no financed purchase of an asset or certificate of participation agreement for personal property that requires total payments exceeding five hundred thousand dollars over the term of the agreement shall be entered into unless such agreement is specifically authorized, prior to its execution, by a bill enacted by the

general assembly, other than the annual general appropriation act or a supplemental appropriation act, or specifically authorized by appropriation in the annual general appropriation act or a supplemental appropriation act.

(c) Subsequent to the general assembly's authorization of a financed purchase of an asset or certificate of participation agreement as specified in subsections (1)(a) and (1)(b) of this section, rentals and other payments by the state under any such financed purchase of an asset or certificate of participation agreement may be made from money appropriated by the general assembly as a separate line item in the capital construction or operating section of an annual general appropriation act or a supplemental appropriation act.

(2) Except as provided in subsection (6) of this section, financed purchase of an asset or certificate of participation agreements that require total payments of five hundred thousand dollars or less over the term of the agreement shall require an appropriation by the general assembly in an annual general appropriation act or a supplemental appropriation act.

(3) A financed purchase of an asset or certificate of participation agreement that requires total payments in excess of five hundred thousand dollars over the term of the agreement shall require, prior to its execution, approval by the state controller as authorized by section 24-30-202.

(4) As used in this section:

(a) "Certificate of participation agreement" means any certificate evidencing a participation right of a proportionate interest in any financing agreement or the right to receive proportionate payments from the state or an agency due under any financing agreement.

(b) "Financed purchase of an asset agreement" means a financing agreement that includes the purchase of an asset.

(5) A financed purchase of an asset or certificate of participation agreement may further provide for the issuance, distribution, and sale of instruments evidencing rights to receive rentals and other payments made by the state, but only if the financed purchase of an asset or certificate of participation agreement includes a provision that payments made by the state are subject to annual appropriation. A financed purchase of an asset or certificate of participation agreement shall not include notes, bonds, or any other evidence of indebtedness of the state within the meaning of any provision of the constitution or laws of the state of Colorado concerning or limiting the creation of indebtedness by the state.

(6) (a) Notwithstanding any provision of this section to the contrary, the department of transportation, institutions of higher education, the Auraria higher education center established in article 70 of title 23, and the state treasurer may enter into financed purchase of an asset or certificate of participation agreements if the state controller as authorized by section 24-30-202 approves each financed purchase of an asset or certificate of participation agreement that requires total payments in excess of five hundred thousand dollars over the term of the agreement or as otherwise provided by law.

(b) Notwithstanding any provision of this section to the contrary, the legislative department may enter into financed purchase of an asset or certificate of participation agreements pursuant to section 2-2-320.

(7) Nothing in this section shall be construed to impair any contract or instrument in existence on July 1, 2009, if the contract was validly entered into or the instrument was validly issued under the law in effect at the time of entering into said contract or issuing said instrument.

(8) All financed purchase of an asset or certificate of participation agreements described in section 24-48.5-312 (3)(a)(II) shall include the terms specified in said section.

(3) The state treasurer shall enter into a financed purchase of an asset or certificate of participation agreement authorized pursuant to subsection (2) of this section on behalf of the state for the use and benefit of the department only if, at the time that the financed purchase of an asset or certificate of participation agreement is executed:

(f) The agreements for the financed purchase of an asset or certificate of participation transaction accurately reflect the plan approved by the office of state planning and budgeting and the capital development committee; and

(g) The state controller has approved all agreements pursuant to section 24-30-202.

(4) Prior to the state treasurer entering into any financed purchase of an asset or certificate of participation agreement pursuant to this section, the executive director shall submit the report required by section 24-82-102 (1) and the plan for the financed purchase of an asset or certificate of participation transaction to the office of state planning and budgeting. The capital development committee shall approve the plan or refer its recommendations regarding the plan, with written comments, to the executive director and the office of state planning and budgeting.

(5) Approval of the plan by the office of state planning and budgeting shall not authorize the department to expend any money on the annual financed purchase of an asset or certificate of participation payment in any fiscal year in an amount greater than the projected annual rent costs of the state agencies plus any rental payments projected to be received from nonstate lessees for such fiscal year, adjusted as appropriate to account for any differences in services provided to, or costs paid for the benefit of, the state under the related leases and financed purchase of an asset or certificate of participation agreements.

(6) The state of Colorado, acting by and through the state treasurer, for the use and benefit of the department may, at the state treasurer's sole discretion, enter into one or more financed purchase of an asset or certificate of participation agreements authorized by subsection (2) of this section with any for-profit or nonprofit corporation, trust, or commercial bank as a trustee, as seller.

(7) (a) A financed purchase of an asset or certificate of participation agreement authorized in subsection (2) of this section shall provide that all of the obligations of the state under the financed purchase of an asset or certificate of participation agreement shall be subject to the action of the general assembly in annually making money available for all payments thereunder. The financed purchase of an asset or certificate of participation agreement shall also provide that the obligations shall not be deemed or construed as creating an indebtedness of the state within the meaning of any provision of the state constitution or the laws of the state of Colorado concerning or limiting the creation of indebtedness by the state of Colorado and shall

not constitute a multiple fiscal-year direct or indirect debt or other financial obligation of the state within the meaning of section 20 (4) of article X of the state constitution. In the event the state of Colorado does not renew a financed purchase of an asset or certificate of participation agreement authorized in subsection (2) of this section, the sole security available to the seller shall be the property encumbered to secure the nonrenewed financed purchase of an asset or certificate of participation agreement or equivalent substitute collateral provided by the state.

(b) A financed purchase of an asset or certificate of participation agreement authorized in subsection (2) of this section may contain such terms, provisions, and conditions as the state treasurer, acting on behalf of the state of Colorado and for the use and benefit of the department, may deem appropriate, including all optional terms; except that a financed purchase of an asset or certificate of participation agreement:

(I) Shall not exceed in its term the shorter of the remaining useful life of the building or twenty-five years; and

(II) Shall specifically authorize the state of Colorado:

(B) To reduce the term of the agreement through prepayment of rental and other payments subject to the terms of the financed purchase of an asset or certificate of participation agreement and any ancillary agreement.

(c) A financed purchase of an asset or certificate of participation agreement authorized in subsection (2) of this section may provide for the issuance, distribution, and sale of instruments evidencing rights to receive rentals and other payments made and to be made under the financed purchase of an asset or certificate of participation agreement. The instruments shall not be notes, bonds, or any other evidence of indebtedness of the state within the meaning of any provision of the state constitution or the law of the state concerning or limiting the creation of indebtedness of the state and shall not constitute a multiple fiscal-year direct or indirect debt or other financial obligation of the state within the meaning of section 20 (4) of article X of the state constitution.

(d) Interest paid under a financed purchase of an asset or certificate of participation agreement authorized in subsection (2) of this section, including interest represented by the instruments, shall be exempt from Colorado income tax.

(e) The state of Colorado, acting through the state treasurer, for the use and benefit of the department, is authorized, if the executive director concurs, to enter into ancillary agreements and instruments as are deemed necessary or appropriate in connection with a financed purchase of an asset or certificate of participation agreement, including but not limited to ground leases, site leases, easements, or other instruments relating to the real property on which the facilities are located; except that no ancillary agreement is authorized that would cause the annual financed purchase of an asset or certificate of participation payment to exceed the annual rent costs appropriated to the state agencies prior to the financed purchase of an asset or certificate of participation agreement plus any rent projected to be received from nonstate lessees.

(f) A financed purchase of an asset or certificate of participation agreement authorized in subsection (2) of this section may require the state to provide insurance; except that no insurance is authorized that would cause the annual financed purchase of an asset or certificate of participation payment to exceed the annual rent costs of the state agencies prior to the financed purchase of an asset or certificate of participation agreement plus any rent projected to be received from nonstate lessees, adjusted as described in subsection (3)(b) of this section. The insurance may be provided through the self-insured property fund created pursuant to section 24-30-1510.5.

(9) If a financed purchase of an asset or certificate of participation agreement authorized pursuant to subsection (2) of this section is executed, during the term of the financed purchase of an asset or certificate of participation agreement, money that at the time of the execution is appropriated to a state agency for rental payments in an amount equal to the annual financed purchase of an asset or certificate of participation payment, less any payments projected to be received from nonstate lessees pursuant to subsection (10) of this section, shall be transferred to the financed purchase of an asset or certificate of participation servicing account of the capital construction fund, created in section 24-75-302 (3.5), and, subject to annual appropriation, shall be used to pay the annual financed purchase of an asset or certificate of participation payments for the property that is the subject of the financed purchase of an asset or certificate of participation agreement or for operating, maintenance, and controlled maintenance costs for the property subject to the financed purchase of an asset or certificate of participation agreement. Money held in the financed purchase of an asset or certificate of participation servicing account shall be for the benefit of the department.

(10) (a) If the executive director determines that, in a property subject to a financed purchase of an asset or certificate of participation agreement authorized pursuant to subsection (2) of this section, there is space that is not needed by a state agency, the executive director, separately or in conjunction with the state board of land commissioners or another person, may:

(I) Hire a building manager to manage the space; or

(II) Subject to the approval of the office of state planning and budgeting, lease the space to any person on commercially reasonable terms.

(b) (I) Any money received by the executive director on behalf of nonstate lessees pursuant to subsection (10)(a) of this section shall be transmitted to the state treasurer, who shall credit the same to the financed purchase of an asset or certificate of participation rental cash fund for the benefit of the department, which fund is hereby created and referred to in this section as the "fund". The money in the fund shall be subject to annual appropriation by the general assembly to the department of personnel and shall only be used for the annual financed purchase of an asset or certificate of participation payments for financed purchase of an asset or certificate of participation agreements authorized pursuant to subsection (2) of this section or for operating,

maintenance, and controlled maintenance costs for the buildings subject to the financed purchase of an asset or certificate of participation agreements.

(II) Any money in the fund not expended for the purpose of this subsection (10) may be invested by the state treasurer as provided by law. All interest and income derived from the investment and deposit of money in the fund shall be credited to the fund. Any unexpended and unencumbered money remaining in the fund at the end of a fiscal year shall remain in the fund and shall not be credited or transferred to the general fund or another fund.

**24-82-803. Financed purchase of an asset or certificate of participation agreements for certain capital construction projects - legislative declaration.** (1) (a) The general assembly hereby finds and declares that:

(I) Given the unprecedented economic situation in which the state finds itself because of the declared disaster emergency due to the COVID-19 pandemic, it is important for the general assembly to consider any option available to fund the continuations of certain previously funded capital construction projects;

(II) Funding the continuations of certain previously funded capital construction projects is particularly important because there are cost escalations due to construction inflation when a project is postponed, there are repair, maintenance, and upkeep costs to minimize damage to the ongoing project or existing infrastructure while funding is delayed, and there may be increased operational costs for any project continuation alternatives; and

(III) In addition, funding the continuations of certain previously funded capital construction projects in a time of economic downturn helps boost local economies with construction projects that can commence quickly when money is made available.

(b) The general assembly further finds and declares that:

(I) The deadline to issue the financed purchase of an asset or certificate of participation agreement in subsection (2)(a) of this section is meant to provide the state treasurer with as much flexibility as possible to ensure that the financed purchase of an asset or certificate of participation agreement is executed on behalf of the state with the most favorable terms that the market will allow. The general assembly agrees with the need for this deadline flexibility and at the same time declares that the financed purchase of an asset or certificate of participation agreement should be executed as soon as possible.

(II) If there is any excess money as a result of the issuance, it is the general assembly's intent that the remainder be credited to the emergency controlled maintenance account created in section 24-75-302 (3.2).

(2) (a) Notwithstanding the provisions of sections 24-82-102 (1)(b) and 24-82-801, and pursuant to section 24-36-121, no later than June 30, 2021, the state, acting by and through the state treasurer, shall execute a financed purchase of an asset or certificate of participation agreement for the purpose described in subsection (4) of this section in an amount up to sixty-five million five hundred thousand dollars plus reasonable and necessary administrative, monitoring, and closing costs and interest, including capitalized interest and credit enhancement costs such as a debt service reserve fund or bond insurance.

(b) The anticipated annual state-funded payments for the principal and interest components of the amount payable under the financed purchase of an asset or certificate of participation agreement entered into pursuant to subsection (2)(a) of this section shall not exceed five million five hundred thousand dollars, with principal amortization not occurring before July 1, 2022.

(c) The state, acting by and through the state treasurer, at the state treasurer's sole discretion, may enter into the financed purchase of an asset or certificate of participation agreement authorized by subsection (2)(a) of this section with any for-profit or nonprofit corporation, trust, or commercial bank as a trustee as the seller.

(d) The financed purchase of an asset or certificate of participation agreement executed as required by subsection (2)(a) of this section shall provide that all of the obligations of the state under the agreement are subject to the action of the general assembly in annually making money available for all payments thereunder. Payments under any financed purchase of an asset or certificate of participation agreement must be made subject to annual appropriation by the general assembly, as applicable, from the capital construction fund, from the general fund, or from any other legally available source of money.

(e) The agreement must also provide that the state's obligation does not create state debt within the meaning of any provision of the state constitution or state law concerning or limiting the creation of state debt and is not a multiple fiscal-year direct or indirect debt or other financial obligation of the state within the meaning of section 20 (4) of article X of the state constitution. If the state does not renew the financed purchase of an asset or certificate of participation agreement executed as required by subsection (2)(a) of this section, the sole security available to the seller is the property that is the subject of the nonrenewed financed purchase of an asset or certificate of participation agreement.

(f) (1) The financed purchase of an asset or certificate of participation agreement executed as required by subsection (2)(a) of this section may contain such terms, provisions, and conditions as the state treasurer, acting on behalf of the state, deems appropriate, including all optional terms; except that the financed purchase of an asset or certificate of participation agreement must specifically authorize the state or the governing board of the applicable state institution of higher education to receive fee title to all real and personal property that is the subject of the financed purchase of an asset or certificate of participation agreement on or before the expiration of the terms of the agreement.

(II) The state treasurer, acting on behalf of the state, has the authority as he or she deems appropriate to determine what collateral to use for the financed purchase of an asset or certificate of participation agreement.

(g) The financed purchase of an asset or certificate of participation agreement executed as required by subsection (2)(a) of this section may provide for the issuance, distribution, and sale of instruments evidencing rights to receive rentals and other payments made and to be made under the financed purchase of an asset or certificate of participation agreement. The instrument may be issued, distributed, or sold only by the seller or any person designated by the seller and not by the state. The instrument does not create a relationship between the purchasers of the instrument and the state or create any obligation on the part of the state to the purchasers. The instrument is not a note, bond, or any other evidence of state debt within the meaning of any provision of the state constitution or state law concerning or limiting the creation of state debt and is not a multiple fiscal-year direct or indirect debt or other financial obligation of the state within the meaning of section 20 (4) of article X of the state constitution.

(h) Interest paid under a financed purchase of an asset or certificate of participation agreement authorized pursuant to subsection (2)(a) of this section, including interest represented by the instruments, is exempt from Colorado income tax.

(i) The state, acting by and through the state treasurer and the governing boards of the institutions of higher education, is authorized to enter into ancillary agreements and instruments that are necessary or appropriate in connection with a financed purchase of an asset or certificate of participation agreement, including but not limited to deeds, ground leases, sub-leases, easements, or other instruments relating to the real property on which the facilities are located.

(j) The provisions of section 24-30-202 (5)(b) do not apply to a financed purchase of an asset or certificate of participation agreement executed as required by or to any ancillary agreement or instrument entered into pursuant to this subsection (2). The state controller or his or her designee shall waive any provision of the fiscal rules promulgated pursuant to section 24-30-202 (1) and (13) that the state controller finds incompatible or inapplicable with respect to a financed purchase of an asset or certificate of participation agreement or an ancillary agreement or instrument.

(3) (a) Before executing the financed purchase of an asset or certificate of participation agreement required by subsection (2)(a) of this section, in order to protect against future interest rate increases, the state, acting by and through the state treasurer and at the discretion of the state treasurer, may enter into an interest rate exchange agreement pursuant to article 59.3 of title 11. A financed purchase of an asset or certificate of participation agreement executed as required by subsection (2)(a) of this section is a proposed public security for the purposes of article 59.3 of title 11. Any payments made by the state under an agreement entered into pursuant to this subsection (3) must be made solely from money made available to the state treasurer from the execution of a financed purchase of an asset or certificate of participation agreement or from money described in subsection (2)(d) of this section.

## PART 10

### LEVERAGED LEASING

**24-82-1001. Legislative declaration - exclusion of proceeds of leveraged leasing agreements from fiscal year spending - voter approval not required.** (1) The general assembly hereby finds and declares that:

(a) Section 20 of article X of the state constitution limits state fiscal year spending.

(b) Section 20 (2)(e) of article X defines "fiscal year spending" to include all revenues and expenditures except those for refunds and those from certain sources, such as property sales.

(c) Monetary consideration paid to the state by a private person in connection with a leveraged leasing agreement constitutes revenues to the state from a property sale because the consideration is paid in exchange for a property interest in a qualified state asset and constitutes revenues from a property sale, and such revenues are therefore excluded from state fiscal year spending.

(2) The general assembly further finds and declares that:

(a) Section 20 of article X of the state constitution requires voter approval in advance for creation of any multiple-fiscal year financial obligation whatsoever without adequate present cash reserves pledged irrevocably and held for payments in all future fiscal years.

(b) The sublease of a qualified state capital asset from a private person to the state under a leveraged leasing agreement is a multiple-fiscal year financial obligation of the state under section 20 of article X of the state constitution, but the state may enter into a leveraged leasing agreement without voter approval in advance because a leveraged leasing agreement requires the state to deposit into a specified account adequate cash reserves pledged irrevocably for sublease payments in all future fiscal years.

**Source: L. 2003:** Entire part added, p. 1717, § 1, effective May 14.

**24-82-1002. Definitions.** As used in this part 10, unless the context otherwise requires:

(1) "Leveraged leasing agreement" means an agreement or a series of agreements between the state and a private person under which:

(a) In exchange for monetary consideration paid in a lump sum when the lease closes, the state leases a qualified state capital asset to a private person for a term of sufficient length to allow the private person to depreciate the asset for federal income tax purposes under the federal "Internal Revenue Code of 1986", as amended, or any successor provision thereto, and retains a right to cancel the lease in exchange for specified consideration;

(b) The private person subleases the qualified state capital asset back to the state pursuant to a sublease contract that:

(I) Is for a term shorter than the term of the lease;

(II) Gives the private person leasehold rights in the asset; and  
(III) Requires an amount of the monetary consideration paid in a lump sum to the state when the lease closes that is adequate to meet all lease payments to be made by the state under the terms of the sublease contract to be deposited into a specified account established pursuant to the sublease contract as adequate cash reserves pledged irrevocably for sublease payments in all future fiscal years; and

(c) The state retains the right to the use of the qualified state capital asset for the duration of the term of the sublease.

(2) "Qualified state capital asset" or "asset" means qualified technological equipment as defined by section 168 (i)(2)(A) of the federal "Internal Revenue Code of 1986", as amended, or any successor provision thereto.

(2) The executive director of the department of personnel may retain attorneys, consultants, or financial professionals to the extent necessary to protect the interests of the state and to ensure the proper execution of a leveraged leasing agreement. The executive director shall use a competitive selection process approved by the director of the office of state planning and budgeting to select any attorneys, consultants, or financial professionals to be retained, but execution of such retention agreements shall not be governed by the "Procurement Code", articles 101 to 112 of this title. Any fees charged by any persons retained shall be paid only from the lump sum paid to the state in connection with the leveraged leasing agreement and shall not be paid from any other source.

(3) The state treasurer shall credit all monetary consideration paid in a lump sum to the state under the terms of a leveraged leasing agreement when the agreement closes that is not required to be deposited into a specified account established pursuant to a sublease contract as adequate cash reserves pledged irrevocably for sublease payments in all future fiscal years to the controlled maintenance trust fund created in section 24-75-302.5.

(2) As part of a leveraged leasing agreement, the executive director of the department of personnel, with the approval of the director of the office of state planning and budgeting, may enter into an indemnity agreement with the private person to whom the qualified state capital asset is being leased.

The instruments are not notes, bonds, or any other evidence of state debt within the meaning of any provision of the state constitution or state law concerning or limiting the creation of state debt and are not a multiple fiscal-year direct or indirect debt or other financial obligation of the state within the meaning of section 20 (4) of article X of the state constitution.

(h) Interest paid under a financed purchase of an asset or certificate of participation agreement authorized pursuant to subsection (2)(a) of this section, including interest represented by the instruments, is exempt from Colorado income tax.

**24-90-105.5. Radio reading services.** (1) The general assembly hereby declares that there is a growing need for reading services in Colorado to serve the citizens of the state. The general assembly recognizes that the state has numerous citizens who are blind or visually impaired or who have physical impairments which make the use of printed materials difficult or impossible and further recognizes that the aging of the population of Colorado is increasing the number of such citizens. Because of the need for reading assistance to inform and inspire individuals who cannot use printed materials and because of the unique ability of radio reading services to reach individuals in every corner of the state who require reading services, the general assembly finds that radio reading services should be encouraged and should be made available throughout the state.

(2) In addition to any other powers granted to the state librarian under this article, the state librarian shall have the power with respect to the state library to contract with entities for the furnishing of radio reading services to individuals who are blind or visually impaired or who have physical disabilities which impair their use of printed materials.

(3) The furnishing of radio reading services shall include, but shall not be limited to, the production of reading service radio programs, the broadcast of reading services over a subcarrier frequency, and the provision of radio receivers to listeners for use in receiving reading service broadcasts.

(4) The reading materials for radio reading services shall include, but shall not be limited to, newspapers, periodicals, local calendars of events, consumer information, best seller books, and information concerning pending legislative matters.

(5) The general assembly hereby recognizes the importance of privately operated reading services to enable those persons who cannot effectively read newspapers or other printed documents to gain access to such otherwise inaccessible print materials. The state librarian shall have the authority to administer funds in the reading services for the blind cash fund, which is hereby created, for the support of said privately operated reading services. The fund shall consist of any public or private moneys transferred, appropriated, or otherwise credited thereto. All moneys credited to the fund and all interest earned on the investment of moneys in the fund shall be a part of the fund and shall not be transferred or credited to the general fund or to any other fund except as directed by the general assembly acting by bill. The general assembly shall make annual appropriations from the reading services for the blind cash fund to the state librarian to carry out the purposes of this subsection (5).

**24-90-106. Participation of existing libraries in the formation of new libraries.** (1) Any governmental unit of the state of Colorado has the power to establish and maintain a public library under the provisions of this part 1, either by itself or in cooperation with one or more other governmental units. Whenever a county library or library district is proposed to be formed, specific written notification of the proposed establishment shall be given at least ninety days prior to anticipated action on the proposed establishment to each governmental unit maintaining a public library in the legal service area of the proposed library and the board of trustees of each library. The legislative body of any governmental unit that maintains a public library within the territory to be served by a county library or a library district or the board of trustees of an established library district shall decide, by resolution or ordinance, whether or not to participate in the county library or library district. If participation in the county library or library district is to be funded by any amount of tax levy not previously established by resolution or ordinance nor previously approved by the electors, the resolution or ordinance shall state that the electors of the library district or governmental unit must approve that levy before participation can be effected. Written notice of a decision not to participate shall be filed with the board of county commissioners in the case of a proposed county library or with the boards of county commissioners of each county having territory within the library's legal service area in the case of a proposed library district. The notice shall be filed at least thirty days prior to action being

**24-90-106.3. Inclusion of a governmental unit into an existing library district - procedure.** (1) Any governmental unit sharing at least one common boundary with an existing library district may become part of the district upon a resolution executed by the board of trustees of the district and the adoption of an ordinance or resolution, as applicable, by the legislative body of the governmental unit approving the inclusion of the governmental unit into the district. If the tax levy imposed by the district pursuant to section 24-90-112 has not been previously approved by the registered electors of the governmental unit, the electors shall approve the levy before the governmental unit may be included in the district. Any such election shall be held in accordance with the requirements specified in section 20 of article X of the state constitution, articles 1 to 13 of title 1, C.R.S., and article 10 of title 31, C.R.S., as applicable, and the election shall be held on the date of the state biennial general election, the first Tuesday in November in odd-numbered years, or, if the governmental unit is a municipality, on the date of the regular election of the municipality.

(3) In the case of a governmental unit that has a portion included within a library district and a portion that is not included within the district, the governmental unit may follow the procedures specified in subsections (1) and (2) of this section to bring about the inclusion of the entire governmental unit into the district; except that, in such circumstances, only the registered electors residing within the portion of the governmental unit that is not included within the district at the time of the commencement of the inclusion proceedings shall be allowed to vote on the question of approval of the district tax levy.

**24-90-106.5. Establishment or removal of a municipal library in an existing county library or library district.** If a municipality is in the legal service area of an existing county library or library district, public library service shall not be refused or discontinued other than as provided in this article. The municipality may establish its own municipal library only by choosing to do so by means of financial support that does not affect the financial support previously established for the county library or library district; except that the municipality and the county library or library district may, by mutual written agreement, permit a financing method for a municipal library that does affect the financial support previously established for the county library or library district. If establishment of the municipal library is to be funded by any amount of tax levy not previously established by resolution or ordinance nor previously approved by the electors of the municipality, the electors must approve that levy before the municipality can establish the library.

**24-90-110.7. Regional library authorities.** (1) (a) In order to support and provide for public library service on a regional basis, particularly in any region of the state lacking sufficient public library resources to adequately serve the needs of the public, any combination of two or

more governmental units acting through their governing bodies, regardless of whether such unit currently maintains a public library, may, by contracting with or among each other, establish a separate governmental entity to be known as a regional library authority, referred to in this section as an "authority". Such authority may be used by such contracting member governmental units to effect the acquisition, construction, financing, operation, or maintenance of publicly supported library services on a regional basis within the jurisdiction of the authority. For purposes of this section, a governmental unit may include a library district within the meaning of section 24-90-103 (6).

(b) No such authority shall be formed pursuant to this section unless each of the contracting member governmental units forming such authority has passed a resolution or ordinance in accordance with the requirements of paragraph (d) of this subsection (1) and has entered into a contract pursuant to section 29-1-203, C.R.S., for the creation, operation, and administration of such authority.

(c) (I) In connection with the establishment of an authority, at least one public hearing shall be conducted by each of the contracting member governmental units that intend to enter into a contract for the purpose of forming the authority. Any such hearing shall be preceded by adequate and timely notice of the time and place of the hearing. The notice shall specify the matters to be included in the resolution or ordinance and shall fix a date for the hearing that shall be held not less than thirty nor more than sixty days after the date of first publication of such notice.

(II) Any public hearing conducted in accordance with the requirement of subparagraph (I) of this paragraph (c) shall address, without limitation, the purposes of the authority, and, where more than one governmental unit is involved in the formation of the authority, the powers, rights, obligations, and responsibilities, financial and otherwise, of each governmental unit that is forming the authority.

(d) The resolution or ordinance to be adopted by each of the contracting member governmental units forming the authority in accordance with the requirements of paragraph (b) of this subsection (1) shall:

(I) Describe the legal service area of the authority;

(II) Describe the proposed governance of the authority; and

(III) State that the registered electors residing within the territorial boundaries of such contracting member governmental units shall approve any amount of sales or use tax, or both, in accordance with the requirements of paragraph (f) of subsection (3) of this section or an ad valorem tax in accordance with the requirements of paragraph (h) of subsection (3) of this section not previously approved by the electors before the authority shall levy such taxes.

(2) Upon establishment of an authority satisfying the requirements of this section, a contract between the legislative bodies of the contracting member governmental units, shall be effected within ninety days. Any contract establishing such authority shall, without limitation, specify:

(a) The name and purpose of such authority and the functions or services to be provided by such authority;

(b) The boundaries of the authority, which boundaries may include less than the entire area of any separate county, but shall not be less than the entire area of any municipality and any other governmental unit forming the authority, and may be modified after the establishment of the authority as provided in the contract;

(c) The establishment and organization of a governing body of the authority, which shall be a board of directors, referred to in this section as the "board of the authority", in which all legislative power of the authority is vested, including:

(I) The number of directors, their manner of appointment, their terms of office, their compensation, if any, and the procedure for filling vacancies on the board of the authority;

(II) The officers of the authority, the manner of their selection, and their duties;

(III) The voting requirements for action by the board of the authority; except that, unless specifically provided otherwise, a majority of directors shall constitute a quorum, and a majority of the quorum shall be necessary for any action taken by the board of the authority; and

(IV) The duties of the board of the authority, which shall include the obligation to comply with the provisions of parts 1, 5, and 6 of article 1 of title 29, C.R.S.;

(d) Provisions for the disposition, division, or distribution of any property or assets of the authority;

(e) The term of the contract, which may be continued for a definite term or until rescinded or terminated, and the method, if any, by which it may be rescinded or terminated; except that such contract may not be rescinded or terminated so long as the authority has bonds, notes, or other obligations outstanding, unless provision for full payment of such obligations, by escrow or otherwise, has been made pursuant to the terms of such obligations; and

(f) The expected sources of revenue of the authority and any requirements that contracting member governmental units consent to the levying of any taxes within the jurisdiction of such member. If the authority levies any taxes, the contract shall further include requirements that:

(I) Prior to and as a condition of levying any such taxes or fees, the board of the authority shall adopt a resolution determining that the levying of the taxes or fees will fairly distribute the costs of the authority's activities among the persons or communities benefited thereby and will not impose an undue burden on any particular group of persons or communities;

(II) Each such tax shall conform with any requirements specified in subsection (3) of this section; and

(III) The authority shall designate a financial officer who shall coordinate with the department of revenue regarding the collection of a sales and use tax authorized pursuant to paragraph (f) of subsection (3) of this section. This coordination shall include but not be limited to the financial officer identifying those businesses eligible to collect the sales and use tax and any other administrative details identified by the department.

(3) The general powers of such authority shall include the following powers:

(a) To acquire, construct, finance, operate, or maintain public library services located within the territorial boundaries of the authority;

(b) To make and enter into contracts with any person, including, without limitation, contracts with state or federal agencies, private enterprises, and nonprofit organizations also involved in providing such public library services or the financing for the services, irrespective of whether the agencies are parties to the contract establishing the authority;

(c) To employ agents and employees;

(d) To cooperate with state and federal governments in all respects concerning the financing of such library services;

(e) To acquire, hold, lease, as lessor or lessee, sell, or otherwise dispose of any real or personal property, commodity, or service;

(f) (I) Subject to the provisions of subsection (9) of this section, to levy, in all of the area described in subparagraph (II) of this paragraph (f) within the boundaries of the authority, a sales or use tax, or both, at a rate not to exceed one percent, upon every transaction or other incident with respect to which a sales or use tax is levied by the state pursuant to the provisions of article 26 of title 39, C.R.S. The tax imposed pursuant to this paragraph (f) is in addition to any other sales or use tax imposed pursuant to law. The executive director of the department of revenue shall collect, administer, and enforce the sales or use tax, to the extent feasible, in the manner provided in section 29-2-106, C.R.S. However, the executive director shall not begin the collection, administration, and enforcement of a sales and use tax until such time as the financial officer of the authority and the executive director have agreed on all necessary matters pursuant to subparagraph (III) of paragraph (f) of subsection (2) of this section. The executive director shall begin the collection, administration, and enforcement of a sales and use tax on a date mutually agreeable to the department of revenue and the authority.

(II) The area in which the sales or use tax authorized by this paragraph (f) is levied shall not include less than the entire area of any municipality located within the area in which the tax will be levied. The area may also include portions of unincorporated areas located within a county.

(III) The executive director of the department of revenue shall make monthly distributions of the tax collections to the authority, which shall apply the proceeds solely to the acquisition, construction, financing, operation, or maintenance of public library services within the jurisdiction of the authority.

(IV) The department of revenue shall retain an amount not to exceed the cost of the collection, administration, and enforcement and shall transmit the amount retained to the state treasurer, who shall credit the same amount to the regional library authority sales tax fund, which fund is hereby created in the state treasury. The amounts so retained are hereby appropriated annually from the fund to the department to the extent necessary for the department's collection, administration, and enforcement of the provisions of this section. Any moneys remaining in the fund attributable to taxes collected in the prior fiscal year shall be transmitted to the authority; except that prior to the transmission to the authority of such moneys, any moneys appropriated from the general fund to the department for the collection, administration, and enforcement of the tax for the prior fiscal year shall be repaid.

(g) Notwithstanding any other provision of law, any sales tax authorized pursuant to subparagraph (I) of paragraph (f) of this subsection (3) shall not be levied on:

(I) The sale of tangible personal property delivered by a retailer or a retailer's agent or delivered to a common carrier for delivery to a destination outside the boundaries of the authority; and

(II) The sale of tangible personal property on which a specific ownership tax has been paid or is payable when such sale meets the following conditions:

(A) The purchaser does not reside within the boundaries of the authority or the purchaser's principal place of business is outside the boundaries of the authority; and

(B) The personal property is registered or required to be registered outside the boundaries of the authority under the laws of this state.

(h) Subject to the provisions of subsection (9) of this section, to levy, in all of the area within the boundaries of the authority, an ad valorem tax in accordance with the requirements of this section. The tax imposed pursuant to this paragraph (h) shall be in addition to any other ad valorem tax imposed pursuant to law. In accordance with the schedule prescribed by section 39-5-128, C.R.S., the board of the authority shall certify to the board of county commissioners of each county within the authority, or having a portion of its territory within the district, the levy of ad valorem property taxes in order that, at the time and in the manner required by law for the levying of taxes, such board of county commissioners shall levy such tax upon the valuation for assessment of all taxable property within the designated portion of the area within the boundaries of the authority. It is the duty of the body having authority to levy taxes within each county to levy the taxes provided by this subsection (3). It is the duty of all officials charged with the duty of collecting taxes to collect the taxes at the time and in the form and manner and with like interest and penalties as other taxes are collected and when collected to pay the same to the authority ordering the levy and collection. The payment of such collections shall be made monthly to the authority or paid into the depository thereof to the credit of the authority. All taxes levied under this paragraph (h), together with interest thereon and penalties for default in payment thereof, and all costs of collecting the same shall constitute, until paid, a perpetual lien on and against the property taxed, and the lien shall be on a parity with the tax lien of other general taxes.

(i) To incur debts, liabilities, or obligations;

(j) To sue and be sued in its own name;

(k) To have and use a corporate seal;

(l) To fix, maintain, and revise fees, rents, security deposits, and charges for functions, services, or facilities provided by the authority;

(m) To adopt, by resolution, rules respecting the exercise of its powers and the carrying out of its purposes;

(n) To exercise any other powers that are essential to the provision of functions, services, or facilities by the authority and that are specified in the contract; and

(o) To do and perform any acts and things authorized by this section under, through, or by means of an agent or by contracts with any person, firm, or corporation.

(4) The authority established by such contracting member governmental units shall be a political subdivision and a public corporation of the state, separate from the parties to the contract, and shall be a validly created and existing political subdivision and public corporation of the state, irrespective of whether a contracting member governmental unit withdraws, whether voluntarily, by operation of law, or otherwise, from the authority subsequent to its creation under circumstances not resulting in the rescission or termination of the contract establishing such authority pursuant to its terms. It shall have the duties, privileges, immunities, rights, liabilities, and disabilities of a public body politic and corporate. The authority may deposit and invest its moneys in the manner provided in section 43-4-616, C.R.S.

(5) The bonds, notes, and other obligations of such authority shall not be the debts, liabilities, or obligations of the contracting member governmental units.

(6) The contracting member governmental units may provide in the contract for payment to the authority of funds from proprietary revenues for services rendered or facilities provided by the authority, from proprietary revenues or other public funds as contributions to defray the cost of any purpose set forth in the contract, and from proprietary revenues or other public funds as advances for any purpose subject to repayment by the authority.

(7) The authority may issue revenue or general obligation bonds, as the term "bond" is defined in section 43-4-602 (3), C.R.S., and may pledge its revenues and revenue-raising powers for the payment of the bonds. The bonds shall be issued on the terms and subject to the conditions set forth in section 43-4-609, C.R.S.

(8) The income or other revenues of the authority, all properties at any time owned by an authority, any bonds issued by an authority, and the transfer of and the income from any bonds issued by the authority are exempt from all taxation and assessments in the state.

(9) (a) No action by an authority to establish or increase any tax authorized by this section shall take effect unless first submitted to a vote of the registered electors residing within the boundaries of the authority in which the tax is proposed to be collected.

(b) No action by an authority creating a multiple-fiscal year debt or other financial obligation that is subject to section 20 (4)(b) of article X of the state constitution shall take effect unless first submitted to a vote of the registered electors residing within the boundaries of the authority.

(c) The questions proposed to the registered electors under paragraphs (a) and (b) of this subsection (9) shall be submitted at a general election or any election to be held on the first Tuesday in November of an odd-numbered year. The action shall not take effect unless a majority of the registered electors voting thereon at the election vote in favor thereof. The election shall be conducted in substantially the same manner as county elections and the county clerk and recorder of each county in which the election is conducted shall assist the authority in conducting the election. The cost of the election shall be incurred by the contracting member governmental units that have formed the authority in proportion to the percentage of the population of the governmental units within the territorial boundaries of the authority. No moneys of the authority may be used to urge or oppose passage of an election required under this section.

(10) (a) For the purpose of determining any authority's fiscal year spending limit under section 20 (7)(b) of article X of the state constitution, the initial spending base of the authority shall be the amount of revenues collected by the authority from sources not excluded from fiscal year spending pursuant to section 20 (2)(e) of article X of the state constitution during the first full fiscal year for which the authority collected revenues.

(b) For purposes of this subsection (10), "fiscal year" means any year-long period used by an authority for fiscal accounting purposes.

(11) An authority established by contracting member governmental units shall, if the contract so provides, be the successor to any nonprofit corporation, agency, or other entity theretofore organized by the contracting member governmental units to provide the same function, service, or facility, and the authority shall be entitled to all the rights and privileges and shall assume all the obligations and liabilities of such other entity under existing contracts to which such other entity is a party.

(12) (a) The authority granted pursuant to this section shall in no manner limit the powers of any governmental unit to cooperate on an intergovernmental basis, to enter into any contract with another governmental entity, or to establish a separate legal entity pursuant to the provisions of section 29-1-203, C.R.S., or any other applicable law, or otherwise to carry out their individual powers under applicable statutory or charter provisions, nor shall such authority limit the powers reserved to cities and towns pursuant to the state constitution.

(b) Notwithstanding any other provision of law, any governmental unit that has entered into a contract for the purpose of forming an authority may form such authority in accordance with the requirements of this section without any effect on the ability of the unit to own its own property, maintain a separate governing body or board of trustees, levy its own taxes for library purposes, or retain its own identity.

(c) Notwithstanding any other provision of law, nothing in this section shall be construed to authorize any one or more library districts to:

(I) Form an authority without entering into a contract with one or more governmental units to form such authority in accordance with the requirements of this section; or

(II) Exercise any of the powers of said authority, including, without limitation, the power to levy a sales or use tax, in the absence of entering into a contract with one or more governmental units for the purpose of forming such authority in accordance with the requirements of this section.

**24-90-112.5. Issuance of bonds.** (1) (a) Whenever the board of trustees of a library district determines that the interest of the library district and the public interest or necessity requires the creation of a general obligation indebtedness of the county on behalf of and in the name of the library district to finance the acquisition, construction, expansion, or remodeling of any real or personal property for library purposes of such district, including, without limitation, acquisition of books and equipment for such purposes, the board of trustees shall adopt a resolution requesting the board of county commissioners of the county in which the library district is located to submit the question of creating such indebtedness at the next general election or on the election held on the first Tuesday in November of odd-numbered years. The resolution of the board of trustees, in addition to the declaration of public interest or necessity, shall recite:

- (I) The objects and purposes for which the indebtedness is proposed to be incurred;
- (II) The amount of indebtedness to be incurred therefor;
- (III) The maximum net effective interest rate to be paid on such indebtedness; and
- (IV) The question to be submitted by the county to the registered electors.

(b) In the event that territory within a library district is located within more than one county, the resolution shall also specify the principal amount of indebtedness proposed to be incurred by each county in which territory within the district is located. Such principal amount of indebtedness for each county shall bear approximately the same ratio to the total principal amount of indebtedness proposed to be incurred as the valuation for assessment of that portion of the property within the library district which is located within such county bears to the valuation for assessment of all property located within the library district. The board of trustees shall deliver such resolution to the board of county commissioners of each county in which territory within the library district is located.

(2) Within twenty days after receipt of a resolution adopted pursuant to paragraph (a) of subsection (1) of this section, the board of county commissioners shall either adopt the resolution subject to mutually agreed upon changes in the resolution or reject the resolution. Where the board adopts the resolution, it shall order the question of incurring such indebtedness to be submitted, on the date specified in the resolution of the board of trustees, to the registered electors residing in territory within the county which is included in the library district. Such order shall be adopted and the election shall be held and conducted in accordance with section 30-26-301, C.R.S. In its order the board shall specify polling places and precincts for such election, which may be the same as or different than the polling places and precincts established pursuant to the provisions of section 1-5-101, C.R.S. If, upon canvassing the vote, it appears that a majority of the registered electors voting at such election vote in favor of the proposition to

contract said indebtedness, the board on behalf of and in the name of the library district is authorized to and shall contract for said indebtedness.

(2.5) (a) Whenever the board of trustees of a library district determines that the interest of such district and the public interest or necessity requires the creation of a general obligation indebtedness of such district to finance the acquisition, construction, expansion, or remodeling of any real or personal property for library purposes of such district, including, without limitation, acquisition of books and equipment for such purposes, the board of trustees shall adopt a resolution to submit the question of creating such indebtedness on their own authority at the next general election or on the election held on the first Tuesday in November of odd-numbered years. In addition, at such election the board of trustees may also submit such question to the electors in the event the board of county commissioners of a county rejects the resolution of the board of trustees under subsection (2) of this section. In addition to reciting the declaration of public interest or necessity, the resolution of the board of trustees shall also recite:

- (I) The objects and purposes for which the indebtedness is proposed to be incurred;
- (II) The amount of indebtedness to be incurred therefor;
- (III) The maximum net effective interest rate to be paid on such indebtedness; and
- (IV) The question to be submitted by the board to the electors.

(b) The board of trustees of the district shall deliver a copy of the resolution to the board of county commissioners of each county within which the district is located.

(c) Within twenty days after adoption of the resolution, the board of trustees shall order the question of whether the library district shall incur such indebtedness to be submitted, on the date specified in the resolution, to the registered electors residing in such district. The order shall be adopted, and the election shall be held and conducted as provided in articles 1 to 13 of title 1, C.R.S. In its resolution, the board of trustees shall specify polling places and precincts for such election, which may be the same as or different than polling places and precincts established pursuant to the provisions of section 1-5-101, C.R.S. If, upon canvassing the vote, it appears that a majority of the registered electors voting at such election vote in favor of the question, the library district is authorized to and shall contract for said indebtedness.

(3) (a) When authorized pursuant to subsection (2) of this section and upon the request of the board of trustees of the library district, the board of county commissioners shall issue bonds of the county in the manner provided in section 30-26-302, C.R.S., but such bonds may be redeemable prior to maturity at such time, in such manner, and upon payment of such premium as the board of county commissioners may determine. Such bonds shall not be subject to the limitation on county indebtedness set forth in section 30-26-301 (3) or 30-35-201 (6)(b), C.R.S. In the event that territory within a library district is located within more than one county, each board of county commissioners may issue its bonds for the authorized purposes of the library district regardless of whether any or all of the other counties in which the library district is located issue bonds for such purposes, but the bonds of a county issued pursuant to this section shall be payable from ad valorem taxes levied only on that property within such county that is located in the library district.

(b) When authorized pursuant to subsection (2.5) of this section, the library district shall issue its bonds in the manner provided in section 32-1-1101, C.R.S., but the bonds may be redeemable prior to maturity at such time, in such manner, and upon payment of such premium as the board of trustees may determine.

(4) The board of county commissioners acting pursuant to subsection (1) of this section, and the board of trustees of a library district acting pursuant to subsection (2.5) of this section, are authorized to levy an ad valorem tax on all taxable property either within such county that is located in the library district, or within such district where the boundaries of said district cover more than one county, as applicable, to pay the principal of, redemption premium, if any, and interest on county or district indebtedness incurred pursuant to this section. The board of county commissioners and board of trustees, in certifying annual levies, shall take into account the maturing indebtedness of such county or such district incurred pursuant to this section for the ensuing year and deficiencies and defaults of prior years and shall make ample provision for the payment thereof. If the moneys produced from such levies, together with other revenues of the county or district available therefor, are not sufficient to pay punctually the annual installments on its contracts or bonds, and interest thereon, and to pay defaults and deficiencies, the board of county commissioners or board of trustees, as applicable, shall make such additional levies of taxes as may be necessary for such purposes, and such taxes shall be made and continue to be levied until the indebtedness is fully paid.

(5) Moneys resulting from such indebtedness shall be deposited with and disbursed by the custodian of library district funds pursuant to section 24-90-112 (2). The real or personal property to be acquired, constructed, expanded, or remodeled with the proceeds of such indebtedness shall be held, operated, and maintained by the library district.

In the event of accruing defaults or deficiencies, additional levies may be made as provided in section 24-90-513. In accordance with the time schedule provided in section 39-5-128, C.R.S., the governing body shall certify to the board of county commissioners of each county in which the facilities district or a portion of the facilities district lies the rate so fixed in order that, at the time and in the manner required by law for the levying of taxes, such board of county commissioners shall levy such tax upon the valuation for assessment of all taxable property within the facilities district.

The form and terms of the bonds, including provisions for their sale, payment, and redemption, shall be determined by the governing body. If the bonds are payable from the general ad valorem taxes levied on property located within the facilities district, the bonds shall not be issued unless first approved at an election held for that purpose pursuant to section 24-90-507 (3). If the governing

body so determines, bonds issued pursuant to this section may be redeemable prior to maturity, with or without payment of a premium, but no premium shall exceed three percent of the principal thereof. ## PART 6

### INTERNET PROTECTION IN PUBLIC LIBRARIES

**24-90-601. Legislative declaration.** The general assembly hereby finds and declares that use of the internet in the public libraries of the state provides an extraordinary, unique, and unparalleled educational resource and source of knowledge and information. The general assembly further finds and declares that reasonable measures must be adopted and implemented to protect the children who use such internet services in public libraries from access to material that is harmful to their beneficial development as responsible adults and citizens. It is the intent of the general assembly by enacting this part 6 that public libraries be required to adopt and enforce reasonable policies of internet safety that are consistent with the federal "Children's Internet Protection Act", as amended, (Pub.L. 106-554), and that will protect children from access to harmful material without compromising responsible adult use of internet services in such libraries.

## CONSTRUCTION

### ARTICLE 91

#### Construction Contracts with Public Entities

**24-91-101. Legislative declaration.** (1) The general assembly hereby declares that retentions in and delays in the completion of construction contracts with public entities are a matter of statewide concern and are affected with the public interest and that the provisions of

this article are enacted in the exercise of the police power of this state for the purpose of protecting the health, peace, safety, and welfare of the people of this state.

(2) The general assembly hereby further finds and declares that the construction industry is a significant component of the state's economy; that there is a substantial statewide interest in fostering the growth and stability of the construction industry and ensuring that it remains economically viable; that the ability of construction and design enterprises to obtain and satisfactorily perform projects at all levels of government affects the construction industry as a whole; that clauses in public construction contracts which provide that public entities shall not be required to compensate contractors for delays in the completion of the work caused by the public entity are adhesive in nature and, if enforced, can have ruinous financial consequences on affected contractors due to risks over which the contractor may have no control; that public construction projects are subject to public appropriation laws which may be in direct conflict with commonly used construction contract clauses such as clauses which authorize additional payment to the contractor based on changed conditions; and that there is a substantial statewide interest in ensuring that the policy underlying the efficient expenditure of public moneys is balanced with the policy of fostering a healthy and viable construction industry.

**24-91-103. Public entity - contracts - partial payments.** (1) (a) A public entity awarding a contract exceeding one hundred fifty thousand dollars for the construction, alteration, or repair of any highway, public building, public work, or public improvement, structure, or system, including real property as defined in section 24-30-1301 (15), shall authorize partial payments of the amount due under such contract at the end of each calendar month, or as soon thereafter as practicable, to the contractor, if the contractor is satisfactorily performing the contract. The public entity shall pay at least ninety-five percent of the calculated value of completed work. The withheld percentage of the contract price of any contracted work, improvement, or construction may be retained until the contract is completed satisfactorily and finally accepted by the public entity.

(b) The public entity shall make a final settlement in accordance with section 38-26-107, C.R.S., within sixty days after the contract is completed satisfactorily and finally accepted by the public entity.

(c) If the public entity finds that satisfactory progress is being made in any phase of the contract, it may, upon written request by the contractor, authorize final payment from the withheld percentage to the contractor or subcontractors who have completed their work in a manner finally acceptable to the public entity. Before the payment is made, the public entity shall determine that satisfactory and substantial reasons exist for the payment and shall require written approval from any surety furnishing bonds for the contract work.

(2) Whenever a contractor receives payment pursuant to this section, the contractor shall make payments to each of his subcontractors of any amounts actually received which were included in the contractor's request for payment to the public entity for such subcontracts. The contractor shall make such payments within seven calendar days of receipt of payment from the public entity in the same manner as the public entity is required to pay the contractor under this section if the subcontractor is satisfactorily performing under his contract with the contractor. The subcontractor shall pay all suppliers, sub-subcontractors, laborers, and any other persons who provide goods, materials, labor, or equipment to the subcontractor any amounts actually received which were included in the subcontractor's request for payment to the contractor for such persons, in the same manner set forth in this subsection (2) regarding payments by the

contractor to the subcontractor. If the subcontractor fails to make such payments in the required manner, the subcontractor shall pay said suppliers, sub-subcontractors, and laborers interest in the same manner set forth in this subsection (2) regarding payments by the contractor to the subcontractor. At the time the subcontractor submits a request for payment to the contractor, the subcontractor shall also submit to the contractor a list of the subcontractor's suppliers, sub-subcontractors, and laborers. The contractor shall be relieved of the requirements of this subsection (2) regarding payment in seven days and interest payment until the subcontractor submits such list. If the contractor fails to make timely payments to the subcontractor as required by this section, the contractor shall pay the subcontractor interest as specified by contract or at the rate of fifteen percent per annum whichever is higher, on the amount of the payment which was not made in a timely manner. The interest shall accrue for the period from the required payment date to the date on which payment is made. Nothing in this subsection (2) shall be construed to affect the retention provisions of any contract.

**24-91-103.5. Public entity - contracts - delay clauses - definition.** (1) (a) Any clause in a public works contract that purports to waive, release, or extinguish the rights of a contractor to recover costs or damages, or obtain an equitable adjustment, for delays in performing such contract, if such delay is caused in whole, or in part, by acts or omissions within the control of the contracting public entity or persons acting on behalf thereof, is against public policy and is void and unenforceable.

(b) As used in this subsection (1), "public works contract" means a contract of the state, county, city and county, city, town, school district, special district, or any other political subdivision of the state for the construction, alteration, repair, or maintenance of any building, structure, highway, bridge, viaduct, pipeline, public works, real property as defined in section 24-30-1301 (15), or any other work dealing with construction, which includes, but need not be limited to, moving, demolition, or excavation performed in conjunction with such work.

(2) Subsection (1) of this section is not intended to render void any contract provision of a public works contract that:

- (a) Precludes a contractor from recovering that portion of delay costs caused by the acts or omissions of the contractor or its agents;
- (b) Requires notice of any delay by the party responsible for such delay;
- (c) Provides for reasonable liquidated damages;
- (d) Provides for arbitration or any other procedure designed to settle contract disputes.

**24-91-103.6. Public entity - contracts - appropriations - contract modifications - severability - definition.** (1) No public entity shall contract with a designer, a contractor, or a designer and contractor for the construction, the design, or both the construction and design of a public works project unless a full and lawful appropriation when required by statute, charter, ordinance, resolution, or rule or regulation has been made for such project.

(2) Every public works contract, as defined in section 24-91-103.5 (1)(b), shall contain the following:

(a) A statement that the amount of money appropriated is equal to or in excess of the contract amount;

(b) A clause that prohibits the issuance of any contract modification, as defined in section 24-101-301 (10), or other form of modification or directive by the public entity requiring additional compensable work to be performed, which work causes the aggregate amount payable under the contract to exceed the amount appropriated for the original contract, unless the contractor is given written assurance by the public entity that lawful appropriations to cover the costs of the additional work have been made and the appropriations are available prior to performance of the additional work or unless such work is covered under a remedy-granting provision in the contract; and

(c) For any form of modification or directive by the public entity requiring additional compensable work to be performed, a clause that requires the public entity to reimburse the contractor for the contractor's costs on a periodic basis, as those terms are defined in the contract, for all additional directed work performed until a contract modification is finalized. In no instance shall the periodic reimbursement be required before the contractor has submitted an estimate of cost to the public entity for the additional compensable work to be performed. Notwithstanding the provisions of this subsection (2)(c), state public works contracts shall be subject to the provisions of section 24-30-202.

(3) If the requirements of subsection (1) or (2) of this section are not met, a civil action may be maintained against the public entity which has contracted for the public works project to recover sums due under the contract notwithstanding any appropriation statute, ordinance, resolution, or law to the contrary.

(4) In the event that a good faith dispute arises between a public entity and a contractor concerning the contractor's right to receive additional compensation under a remedy-granting provision of the public works contract, it shall not be a defense to a civil action for payment for such claim that no moneys have been appropriated for such claimed amounts, so long as the contractor has complied with all provisions of the contract applicable to the dispute, including but not limited to contract modification and additional work clauses, and has submitted to the public entity a statement sworn to under penalty of perjury which sets forth: The amount of additional compensation to which the contractor contends that it is entitled; that claim-supporting data which is accurate and complete to the best of the contractor's knowledge and belief have been submitted; and that the amount requested accurately reflects what is owed by the public entity. As used in this subsection (4), "remedy-granting provision" means any contract clause which permits additional compensation in the event that a specific contingency or event occurs. Such term shall include, but shall not be limited to, change clauses, differing site conditions clauses, variation in quantities clauses, and termination for convenience clauses.

(5) If a final judgment is entered pursuant to a civil action brought by a contractor for which adequate appropriations have not been made, the judgment debtor public entity shall promptly make payment pursuant to section 13-60-101, 24-10-113, 24-10-113.5, or 30-25-104, C.R.S., and any other statutory requirement on payment of judgments.

(6) Any provision of this section which is in conflict with the terms of any federal grant shall be inapplicable to a contract between a contractor and a public entity which is funded in whole or in part by that grant.

(7) Nothing in this section shall prohibit:

(a) The use of phased construction over a period of years where, if applicable, the public entity has informed the contractor of initial annual appropriations at the time the contract is signed, and subsequent annual appropriations as they occur, in statements issued pursuant to subsection (2) of this section; or

(b) The use of bond-financed construction where appropriations to service bond debt may occur subsequent to the commencement of construction, where this fact is clearly stated in disclosure statements made pursuant to subsection (2) of this section.

(8) The provisions of this section shall apply to any contract executed on or after July 1, 1992.

(9) If any provision of this section or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this section that can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

**24-91-104. Contract - completion by public entity - partial payments.** If it becomes necessary for a public entity to take over the completion of any contract, all of the amounts owing the contractor, including the withheld percentage, shall be applied: First, toward the cost of completion of the contract; second, toward performance of the public entity's withholding requirement set forth in section 38-26-107, C.R.S.; third, to the surety furnishing bonds for the contract work, to the extent such surety has incurred liability or expense in completing the contract work or made payments pursuant to section 38-26-106, C.R.S.; then, to the contractor. Such retained percentage as may be due any contractor shall be due and payable at the expiration of thirty days from the date of final acceptance by the public entity of the contract work.

**24-91-105. Withdrawal by contractor of sums withheld - security deposit required.** The contractor under any contract exceeding one hundred fifty thousand dollars made or awarded by any public entity, pursuant to which sums are withheld to assure satisfactory performance of the contract, may withdraw the whole or any portion of the said sums withheld if the contractor deposits acceptable securities with the public entity. The contractor shall take such actions as the public entity may require to transfer the securities or a limited interest in the securities, including a security interest, and to authorize the public entity to negotiate the acceptable securities and to receive the payments due the public entity pursuant to law or the terms of the contract, and, to the extent there are excess funds resulting from said negotiation, the balance shall be returned to the contractor. Such acceptable securities so deposited at all times shall have a market value at least equal in value to the amount so withdrawn. If at any time a public entity determines that the market value of the acceptable securities theretofore deposited has fallen below the amount so withdrawn, the public entity shall give notice thereof to the contractor, who forthwith shall deposit additional acceptable securities in an amount sufficient to reestablish a total deposit of securities equal in value to the amount so withdrawn.

**24-92-103. Construction of public projects - invitation for bids.** (1) All construction contracts for public projects that do not receive federal moneys may be solicited by invitation for bids pursuant to this section.

(2) An invitation for bids shall be issued and shall include a project description and all contractual terms and conditions applicable to the public project.

(3) Adequate public notice of the invitation for bids shall be given at least fourteen days prior to the date set forth therein for the opening of bids, pursuant to rules. Such notice may include publication by electronic online access pursuant to section 24-92-104.5 or in a newspaper of general circulation at least fourteen days prior to bid opening or in an electronic medium approved by the executive director of the department of personnel.

(4) Bids shall be opened publicly in the presence of one or more witnesses at the time and place designated in the invitation for bids. The amount of each bid and such other relevant information as may be specified by rules, together with the name of each bidder, shall be entered on a record, and the record shall be open to public inspection. After the time of the award, all bids and bid documents shall be open to public inspection in accordance with the provisions of sections 24-72-203 and 24-72-204.

(5) Bids shall be unconditionally accepted, except as authorized by subsection (7) of this section. Bids shall be evaluated based on the requirements set forth in the invitation for bids, which may include criteria to determine acceptability, such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose. Those criteria that will affect the bid price and be considered in the evaluation for award shall be objectively measurable, such as discounts, transportation costs, and total or life-cycle costs.

(6) Withdrawal of inadvertently erroneous bids before the award may be permitted pursuant to rules if the bidder submits proof of evidentiary value which clearly and convincingly demonstrates that an error was made. Except as otherwise provided by rules, all decisions to permit the withdrawal of bids based on such bid mistakes shall be supported by a written determination made by the responsible officer.

(7) The contract shall be awarded with reasonable promptness by written notice to the low responsible bidder whose bid meets the requirements and criteria set forth in the invitation for bids. In the event that all bids for a construction project exceed available funds, as certified by the appropriate fiscal officer, the responsible officer is authorized, in situations where time or economic considerations preclude resolicitation of work of a reduced scope, to negotiate an adjustment of the bid price with the low responsible bidder in order to bring the bid within the amount of available funds; except that the functional specifications integral to completion of the project may not be reduced in scope, taking into account the project plan, design, and specifications and quality of materials.

**24-92-103.5. Construction of public projects - invitation for best value bids.** (1) All construction contracts for public projects that do not receive federal moneys may be awarded through competitive sealed best value bidding pursuant to this section.

(2) An invitation for bids under competitive sealed best value bidding shall be made in the same manner as provided in section 24-92-103 (2), (3), and (4); except that adequate public notice of the invitation for bids shall be given at least thirty days prior to the date set forth therein for the opening of bids.

(3) The invitation for competitive sealed best value bids must identify the evaluation factors upon which the award will be made. When making the award determination, the responsible officer shall evaluate the factors specified in the invitation for bids and shall not evaluate any other factors other than those specified in the invitation for bids. The factors that must be included in the invitation for bids and that the responsible officer shall consider include, but need not be limited to:

- (a) The project price stated in the bid;
- (b) The bidder's design and technical approach to the public project;
- (c) The experience, past performance, and expertise of the bidder and the bidder's primary subcontractors in connection with prior construction contracts, including its performance in the areas of cost, quality, schedule, safety, compliance with plans and specifications, and adherence to applicable laws and regulations;
- (d) The bidder's project management plan for the construction contract that identifies the key management personnel that will be used for the project, the proposed project schedule, the bidder's quality control program and project safety program, financial resources, equipment, and any other information that demonstrates the bidder's competency to perform the contract, including technical qualifications and resources;
- (e) The bidder's staffing plan;
- (f) The bidder's safety plan and safety record;
- (g) The bidder's job standards, including the bidder's method of personnel procurement, employment of Colorado workers, workforce development and long-term career opportunities of workers, the availability of training programs, including apprenticeships approved by the United States department of labor, the benefits provided to workers, including health-care and defined benefit or defined contribution retirement benefits, and whether the bidder pays industry-standard wages; and
- (h) The availability and use of domestically produced iron, steel, and related manufactured goods to execute the contract.

(4) The contract shall be awarded with reasonable promptness by written notice to the bidder whose bid is determined in writing to be the most advantageous to the state and that represents the best overall value to the state, taking into consideration the price and other evaluation factors set forth in the invitation for bids in accordance with subsection (3) of this

section. The contract file maintained by the state must contain the basis on which the award determination was made.

(5) An invitation for best value bids issued pursuant to this section must otherwise comply with the requirements of section 24-103-203 concerning requests for proposals for nonconstruction contracts to the extent that such requirements do not conflict with this section. In the case of a conflict, the provisions of this section supersede.

(6) To ensure that the best value bidding process pursuant to this section is open and transparent to the greatest possible degree:

(a) After selection of most qualified participants, all statements of qualification shall be made available to the public; and

(b) After the contract has been awarded, all requests for proposals shall be made public with the score sheets used to make the bid selection, omitting any confidential corporate information.

(a) A public project for which the agency of government receives no bids or for which all bids have been rejected; or

(b) A situation for which the responsible officer determines it is necessary to make emergency procurements or contracts because there exists a threat to public health, welfare, or

An agency of government itself may not undertake a proposed project unless it shows the lowest cost estimate.

(2) In preparing such cost estimate, the agency of government shall preserve a full, true, and accurate record of the cost of such project. Such records shall be kept and maintained by the responsible officer on behalf of the agency of government. To the extent the agency of government contracts with any other state or local government agency in connection with a public project, such other agency shall provide all necessary data or information to enable the agency of government to document a full, true, and accurate record of the cost of such project, which data or information shall be kept in an orderly manner by the agency of government for a period of at least six years after completion of the project. All such records shall be considered public records and shall be made available for public inspection.

(3) State agencies shall not be required to be bonded when performing the work on a public project.

The legislative audit committee shall give notice to the agency, which has ten days to respond to the allegation. **24-92-115. Apprenticeship utilization requirements - mechanical, electrical, and plumbing contracts - public projects - definition.** (1) (a) Unless prohibited by applicable federal law, and except as otherwise provided in subsection (1)(b) of this section, the contract for any public works project that does not receive federal money, including a public project that will have an integrated project delivery contract pursuant to article 93 of this title 24, in the amount of one million dollars or more shall require the general contractor or other firm to which the contract is awarded to submit, at the time the mechanical, electrical, or plumbing subcontractor is put under contract, documentation to the agency of government that:

(I) Identifies the contractors or subcontractors that will be used for all mechanical, sheet metal, fire suppression, sprinkler fitting, electrical, and plumbing work required on the project;

(II) Certifies that all firms identified participate in apprenticeship programs registered with the United States department of labor's employment and training administration or state apprenticeship councils recognized by the United States department of labor and have a proven record of graduating apprentices as follows:

(A) Beginning July 1, 2021, through June 30, 2026, a minimum of fifteen percent of its apprentices for at least three of the past five years;

(B) Beginning July 1, 2026, through June 30, 2031, a minimum of twenty percent of apprentices for at least three of the past five years; and

(C) Beginning July 1, 2031, and each year thereafter, a minimum of thirty percent of apprentices for at least three of the past five years; and

(III) Supplies supporting documentation from the United States department of labor's office of apprenticeship verifying the information provided in the certification specified in subsection (1)(a)(II) of this section.

(b) The provisions of this section do not apply to the department of transportation, regardless of the amount or funding source of the public project. The provisions of this section also do not apply to any county, city and county, city, municipality, town, school district, special district, or any other political subdivision of the state.

(c) For the purposes of subsection (1)(a)(II) of this section, "graduating" means the completion of a multi-year program, including the requisite classroom course work and on-the-job training requirements and a certificate of completion issued by the United States department of labor's office of apprenticeship or awarded pursuant to article 15.7 of title 8.

(2) The documentation required pursuant to subsection (1) of this section shall be made publicly available by the contracting agency of government through its website within thirty days from when it is submitted.

(3) To ensure compliance with the requirements of subsection (1) of this section, the general contractor or other firm to which the contract is awarded shall agree to provide additional documentation to the contracting agency regarding affected apprenticeship training programs relating to the requirements of this section. If a contracting agency of government determines that a mechanical, electrical, or plumbing subcontractor has willfully falsified documentation or willfully misrepresented their qualifications required to comply with this section in the contract, the agency of government shall direct the contractor to terminate the subcontractor contract immediately and the subcontractor will be immediately removed from the public project. At the discretion of the director of the department of personnel, the state may initiate the process to debar the contractor pursuant to section 24-109-105, and may pursue any other remedy provided by law.

(4) Upon evaluation of the submitted bids, the contracting agency of government may waive the requirements of this section for a public project if the agency of government determines that there is substantial evidence that there were no responsive, eligible subcontractors available to fulfill the mechanical, electrical, or plumbing portions of the contract. Each agency of government that has contracts for public projects subject to the requirements of this section shall make public all waivers and the specific rationale for granting the waiver. The agency of government shall post notice of the waiver and a justification for the waiver on its website.

(5) Nothing in this section shall be construed to supersede the requirements for licensed plumbers, licensed electricians, or apprentices registered with the state pursuant to title 12, including sections 12-23-105, 12-23-110.5, 12-58-105, and 12-58-117.

To be allowed conditional approval, an apprenticeship program must demonstrate the following:

(I) The program has been registered with the United States department of labor's employment and training administration or a state apprenticeship council and has been providing training for at least six months; and

(II) The program is performing bona fide apprenticeship training as evidenced by information showing that it has the requisite facilities, personnel, and other resources needed to provide such training; and

(b) (I) If conditional approval is granted, the program will remain eligible for future covered projects, subject to annual reviews by the department of labor and employment for five years after conditional approval is granted or until it can satisfy the requirements of subsection (1)(a) of this section and can show a three-year graduation track record.

(II) To maintain conditional approval pursuant to this subsection (6), the apprenticeship program must demonstrate to the department of labor and employment that it has registered new apprentices into its program for every year it has been in operation and that it has advanced, at a minimum, ten percent of its apprentices in each year of operation. **Editor's note:** Section 5(2) of chapter 181 (HB 21-1056), Session Laws of Colorado 2021, provides that the act changing this section applies to any public project for which an invitation for bids is made on or after September 7, 2021.

**24-92-117. Maximum global warming potential for materials used in eligible projects - buildings - projects that are not roads, highways, or bridges - environmental product declaration - short title - report - definitions.** (1) The short title of this section and section 24-92-118 is the "Buy Clean Colorado Act".

(2) As used in this section, unless the context otherwise requires:

(a) "Eligible material" means materials used in the construction of a public project, including:

- (I) Asphalt and asphalt mixtures;
- (II) Cement and concrete mixtures;
- (III) Glass;
- (IV) Post-tension steel;
- (V) Reinforcing steel;
- (VI) Structural steel; and
- (VII) Wood structural elements.

(b) "Eligible project" means a public project as defined in section 24-92-102, for which an agency of government issues a solicitation on or after January 1, 2024; except that "eligible project" does not include any maintenance program for the upkeep of a public project or any road, highway, or bridge project.

(c) "Greenhouse gas" has the same meaning as set forth in section 25-7-140 (6).

(d) "Office of the state architect" means the office of the state architect in the department of personnel.

(3) (a) By January 1, 2024, the office of the state architect shall establish by policy a maximum acceptable global warming potential for each category of eligible materials used in an eligible project in accordance with the following requirements:

(I) The office of the state architect shall base the maximum acceptable global warming potential on the industry average of global warming potential emissions for that material. The office of the state architect shall determine the industry average by consulting nationally or internationally recognized databases of environmental product declarations and may include transportation-related emissions as part of the global warming potential emissions.

(II) The office of the state architect shall express the maximum acceptable global warming potential as a number that states the maximum acceptable global warming potential for

each category of eligible materials. The global warming potential shall be provided in a manner that is consistent with criteria in an environmental product declaration. The office of the state architect may establish additional subcategories within each eligible material with distinct maximum acceptable global warming potential limits. The policy may permit maximum acceptable global warming potential for each material category in the aggregate.

(b) In establishing a maximum acceptable global warming potential for each category of eligible materials used in an eligible project, the office of the state architect may consult with any other relevant department or division of state government.

(c) By January 1, 2026, and every four years thereafter, the office of the state architect shall review the maximum acceptable global warming potential for each category of eligible materials and may adjust the number for any eligible material to reflect industry conditions. The office of the state architect shall not adjust the number upward for any eligible material.

(4) (a) (I) For any solicitation for a contract for the design of an eligible project, an agency of government shall require the designer who is awarded the contract to include, in project specifications when final construction documents are released, a current environmental product declaration, type III, as defined by the international organization for standardization standard 14025:2006, or similarly robust life cycle assessment methods that have uniform standards in data collection, as set by policy by the office of the state architect for each eligible material proposed to be used in the eligible project that meet the maximum acceptable global warming potential for each category of eligible materials.

(II) If a product that meets the maximum acceptable global warming potential for a category of eligible materials is not reasonably priced or is not available on a reasonable basis at the time of design or construction, the office of the state architect may waive the requirements of this section for that product.

(b) For any solicitation for a contract for an eligible project, an agency of government shall specify the eligible materials that will be used in the project and reasonable minimum usage thresholds below which the requirements of this section shall not apply. An agency of government may include in a specification for solicitations for an eligible project a global warming potential for any eligible material that is lower than the maximum acceptable global warming potential for that material as determined pursuant to subsection (3) of this section.

(c) A contractor that is awarded a contract for an eligible project shall not install any eligible materials on the project until the contractor submits an environmental product declaration for that material pursuant to subsection (4)(a) of this section. The environmental product declaration shall be deemed approved if it complies with the original specification required by subsection (4)(a) of this section. If an environmental product declaration is not available for an eligible material, the contractor shall notify the agency of government and install an alternative eligible material with an environmental product declaration. If a product meeting the maximum acceptable global warming potential for a category of eligible materials is not reasonably priced or is not available to the contractor on a reasonable basis, the agency of government may waive the requirements of this section for that product. The agency of government shall report the waivers it awards to the office of the state architect.

(5) In administering this section, the office of the state architect shall strive to achieve a continuous reduction of greenhouse gas emissions over time. Reduction of greenhouse gas emissions achieved under this section shall be credited under the process created in section 25-7-105 (1)(e).

(6) Beginning in 2026, and in each year thereafter, the office of the state architect shall prepare a report for the general assembly that includes the following information:

(a) For the report prepared in 2026 only, a description of the method that the office of the state architect used to develop the maximum acceptable global warming potential for each category of eligible materials;

(b) What the office of the state architect has learned about how to identify and quantify embodied carbon in building materials, including life cycle costs; and

(c) Any obstacles the office of the state architect as well as bidding contractors have encountered in identifying and quantifying embodied carbon in building materials.

(a) The contractor and any subcontractors shall pay all the employees employed directly on the site of the work, unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account, the full amounts accrued at time of payment computed at wage rates not less than those stated in the competitive solicitation, regardless of any contractual relationships that may be alleged to exist between the contractor or subcontractor and the employees;

(b) The contractor and any subcontractors shall prepare and submit payroll reports to the contracting agency of government on a monthly basis that disclose all relevant payroll information, including the name and address of any entities to which fringe benefits are paid, and that the contracting agency of government is required to review the certified payroll reports in a timely manner as required by the state contract;

(c) The contractor and any subcontractors shall maintain on the site where public projects are being constructed a daily log of employees employed each day on the public project. Any contractor or subcontractor may use the following procedure in order to satisfy the requirements of this section:

(I) The contractor or subcontractor may submit to the director, for each employee to whom such wages are due, a check as required by the director. Such check shall be payable to that employee or to the state so it is negotiable by either of those parties. Each such check shall be in an amount representing the difference between the accrued wages required to be paid to that employee by the contract and the wages actually paid by the contractor or subcontractor.

Nothing in this subsection (1) shall be construed to lessen the responsibility of the contractor or subcontractor to attempt to locate and pay any employee to whom wages are due.

(a) Contractors signatory to the applicable collective bargaining agreement shall be required to pay no more than the apprenticeship contribution rate of the agreement;

(b) Contractors that are not signatory to a collective bargaining agreement but that are members of a multi-employer trade association that sponsors an apprenticeship program registered with the United States department of labor's employment and training administration or recognized by the United States department of labor or directly sponsor such a program for their own employees, shall pay the determined apprenticeship contribution to that program or to a state apprenticeship council registered with the United States department of labor; or

(c) Except as otherwise provided in subsection (5) of this section, contractors that do not qualify for either option specified in subsection (2)(a) or (2)(b) of this section shall be required to pay the amount of the apprenticeship contribution to affected workers in cash payments in addition to the other components of the prevailing wage and fringe benefit package required pursuant to this part 2.

(3) The apprenticeship contribution rate shall be deducted from the prevailing wage rate package to avoid double payment by the contractor or subcontractor.

The governmental body shall provide information required in the report based on the information that vendors submitted to the governmental body pursuant to section 24-102-206 during the previous state fiscal year.

(b) The report must separate data by state contract type and provide information regarding the type and the percentage of the total services that were performed outside the United States or the state by each vendor or a vendor's subcontractor under each state contract.

(c) The report required by subsection (1) of this section must also include a description of any initiatives that the governmental body has taken to actively reduce the number of contracts in which a vendor or vendor's subcontractor perform services under the contract outside the United States or the state.

(d) A governmental body that is required to submit a report pursuant to subsection (1) of this section may include the report in its annual report to the general assembly required by the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act".

**24-102-207. Statewide procurement card agreement - definition.** (1) The department shall establish a statewide procurement card program. All governmental bodies that utilize a procurement card shall participate in the statewide program. For purposes of this section, "governmental body" has the same meaning as set forth in section 24-101-301 (18); except that, for purposes of this section, "governmental body" also includes elected officials.

(2) Governmental bodies that are not subject to the "Procurement Code", articles 101 to 112 of this title 24, or the fiscal rules are subject to this section; except that, on and after December 1, 2010, this section does not apply to an institution of higher education that has elected to be excluded from the meaning of "governmental body" pursuant to section 24-101-301 (18).

(3) The statewide procurement card shall be considered an alternate method of payment and shall not be considered a commitment voucher required by section 24-30-202 (1). Any revenues resulting from the procurement card program shall be deposited as cash revenue in the general fund and shall be subject to annual appropriation by the general assembly. Unless otherwise directed by the general assembly, the state controller shall make adjustments equivalent to such revenues in the form of a reduction of administrative costs allocated to governmental bodies on a basis proportional to each governmental body's contribution to statewide procurement card expenditures, as determined by the state controller, to ensure that the federal government receives its share of procurement card revenues as required by federal regulations and to ensure that the indirect obligations are funded. Institutions of higher education

that elect to be excluded from the meaning of "governmental body" pursuant to section 24-101-301 (18) shall transfer money to the department of higher education or the Colorado commission on higher education to the extent required to pay indirect cost assessments, as defined in section 24-75-112 (1)(f). For purposes of this subsection (3) the term "allocated" does not mean an appropriation or cash transfer to any governmental body, but refers to an internal process within the office of the state controller.

(2) If the executive director or his or her designee is of the opinion and so certifies in writing that the needs of any governmental body are of such specialized nature and sufficient volume to warrant a purchasing agency for such governmental body, he or she shall authorize the creation of the same. All such purchasing agencies shall operate under the provisions of this

code and the rules promulgated pursuant thereto and shall be subject to the supervision and control of the executive director. All such purchasing agencies shall operate under the provisions of section 17-24-111 requiring the purchase of goods and services from the division of correctional industries, and failure of any such purchasing agency to comply with such requirement shall be cause for the executive director to suspend for a period of up to one year at the discretion of the executive director the authority of a purchasing agency created pursuant to this subsection (2) to purchase goods and services. The authority of a purchasing agency to purchase goods and services may also be suspended at the discretion of the executive director. The financial and staff resources dedicated to the purchasing function in the affected agency shall be under the authority of the department of personnel during the period of suspension, and purchases made for the affected agency shall be in accordance with the requirements of section 17-24-111 (1).

**24-103-201.5. Market research - request for information.** (1) A procurement official may conduct market research prior to selecting a method of source selection pursuant to this part 2. The executive director may promulgate rules in accordance with the "State Administrative Procedure Act", article 4 of this title 24, to further define methods of conducting market research.

(2) A request for information may be used as a method to obtain preliminary information about a market or type of available service or product when there is not enough information readily available to write an adequate specification or statement of work. A request for information may ask for input from potential vendors to assist the state in preparing a specification or statement of work for a subsequent solicitation and may ask for pricing information only with the provision that such information would be submitted voluntarily. The request for information must clearly state that no award will result from the request.

(3) When market research has been conducted, the governmental body is not obligated to commit to a method of source selection and may determine that it will not pursue a procurement.

(4) All responses to requests for information are confidential until after an award based on a subsequent solicitation has been made or until the procurement official determines that the state will not pursue a solicitation based on the request for information. After such time, the responses to a request for information shall be open to public inspection in accordance with the provisions of the "Colorado Open Records Act", part 2 of article 72 of this title 24.

**Source:** **L. 2017:** Entire section added, (HB 17-1051), ch. 99, p. 312, § 15, effective August 9.

**24-103-202. Invitation for bids.** (1) Contracts shall be solicited by an invitation for bids except as otherwise provided in section 24-103-201.

(2) (a) An invitation for bids shall be issued and shall include a purchase description and all contractual terms and conditions applicable to the procurement.

(b) Repealed.

(3) Adequate public notice of the invitation for bids shall be given a reasonable time, but in the case of construction at least fourteen days, prior to the date set forth therein for the opening of bids, pursuant to rules. Such notice may include publication in a newspaper of general circulation.

(4) Bids shall be opened publicly in the presence of one or more witnesses at the time and place designated in the invitation for bids. The amount of each bid and such other relevant information as may be specified by rules, together with the name of each bidder, shall be entered on a record, and the record shall be open to public inspection. After the time of the award, all bids and bid documents shall be open to public inspection in accordance with the provisions of sections 24-72-203 and 24-72-204.

(5) Bids shall be unconditionally accepted, except as authorized by subsection (7) of this section. Bids shall be evaluated based on the requirements set forth in the invitation for bids, which may include criteria to determine acceptability, such as inspection, testing, quality, workmanship, delivery, and suitability for a particular purpose. Those criteria that will affect the bid price and be considered in the evaluation for award shall be objectively measurable, such as discounts, transportation costs, and total or life-cycle costs. No criteria may be used in the bid evaluation that are not set forth in the invitation for bids.

(6) Withdrawal of inadvertently erroneous bids before the award may be permitted pursuant to rules if the bidder submits proof of evidentiary value which clearly and convincingly demonstrates that an error was made. Except as otherwise provided by rules, all decisions to permit the withdrawal of bids based on such bid mistakes shall be supported by a written determination made by the chief procurement officer or the procurement official.

(7) The contract shall be awarded with reasonable promptness by written notice to the low responsible bidder whose bid meets the requirements and criteria set forth in the invitation for bids, except as otherwise provided for certain low tie bids under section 24-103-902. In the event that all bids for a construction project exceed available funds, as certified by the appropriate fiscal officer, the procurement official is authorized, in situations where time or economic considerations preclude resolicitation of work of a reduced scope, to negotiate an adjustment of the bid price with the low responsible bidder in order to bring the bid within the amount of available funds; except that the functional specifications integral to completion of the project may not be reduced in scope, taking into account the project plan, design, and specifications and quality of materials.

(8) When it is considered impractical to initially prepare a purchase description to support an award based on price, an invitation for bids may be issued requesting the submission of unpriced offers to be followed by an invitation for bids limited to those bidders whose offers have been qualified under the criteria set forth in the first solicitation.

(9) The provisions of subsections (4), (5), and (6) of this section shall also apply to construction and shall be in addition to any other requirements for an invitation for bids for construction as provided for in this title 24.

**24-103-202.3. Invitation for best value bids.** (1) When, pursuant to rules, the chief procurement officer or a procurement official determines in writing that the use of an invitation for best value bids is advantageous to the state, a contract may be solicited by invitation for best value bids.

(2) An invitation for best value bids shall be made in the same manner as provided in section 24-103-202 (2), (3), and (4).

(3) (a) The chief procurement officer or procurement official may allow a bidder to submit prices for enhancements, options, or alternatives to the base bid for a commodity or service that will result in a product or service to the state having the best value at the lowest cost. The invitation for best value bids must clearly state the purchase description of the commodity or service being solicited and the types of enhancements, options, or alternatives that may be bid; except that the functional specifications integral to the commodity or service may not be reduced.

(b) Prices for enhancements, options, or alternatives to the bid may be evaluated by the chief procurement officer or procurement official to determine whether the total of the bid price and the prices for enhancements, options, or alternatives provide a contract with the best value at the lowest cost to the state. This evaluation shall be made utilizing the rules of the executive director of the department of personnel promulgated pursuant to subsection (3)(d) of this section.

(c) A contract may be awarded to a bidder where the total amount of a bid price and the prices for enhancements, options, or alternatives of the bidder exceed the total amount of the bid price and the prices for enhancements, options, or alternatives of another bidder if it is determined pursuant to subsection (3)(b) of this section that the higher total amount provides a contract with the best value at the lowest cost to the state.

(d) The executive director of the department of personnel shall promulgate rules to be utilized by the chief procurement officer or procurement official in making the evaluation pursuant to subsection (3)(b) of this section. The rules shall provide:

(I) Criteria for objectively measuring prices for enhancements, options, or alternatives to a bid, including relevant formulas or guidelines;

(II) Criteria for objectively determining whether the prices for enhancements, options, or alternatives provide the best value at the lowest cost to the state.

(4) The contract shall be awarded with reasonable promptness by written notice to the bidder whose bid provides for a contract with the best value at the lowest cost to the state.

**24-103-203. Requests for proposals.** (1) A contract may be entered into by requests for proposals. Requests for proposals may be used for the procurement of professional services. The executive director may provide by rule that it is neither practicable nor advantageous to the state to procure specified types of supplies, services, or construction by an invitation for bids.

(2) Proposals shall be solicited through a request for proposals.

(3) Adequate public notice of the request for proposals shall be given in the same manner as provided in section 24-103-202 (3).

(4) Repealed.

(5) The request for proposals shall state evaluation factors.

(6) As provided in the request for proposals and pursuant to rules, discussions may be conducted with responsible offerors who submit proposals determined to be reasonably susceptible of being selected for an award for the purpose of clarification to assure full understanding of, and responsiveness to, the solicitation requirements. Offerors shall be accorded fair and equal treatment with respect to any opportunity for discussion and revision of proposals, and such revisions may be permitted after submissions and prior to award for the purpose of obtaining best and final offers. In conducting discussions, there shall be no disclosure of any information derived from proposals submitted by competing offerors.

(7) The award shall be made to the responsible offeror whose proposal is determined in writing to be the most advantageous to the state, taking into consideration the price and the evaluation factors set forth in the request for proposals. No other factors or criteria shall be used in the evaluation. The contract file shall contain the basis on which the award is made. No property interest of any nature shall accrue until the contract is awarded and signed by both parties.

(8) The procurement official, or his or her designee, shall negotiate, in the case of procurement of professional services, with the highest qualified offerors and in that negotiation shall take into account, in the following order of importance, the professional competence of the offerors, the technical merits of the offers, and the price for which the services are to be rendered.

## PART 8

### SET ASIDES IN STATE PROCUREMENT FOR ALL PERSONS WITH SEVERE DISABILITIES

**24-103-801. Legislative declaration.** (1) The general assembly hereby finds and declares that:

(a) It is in the best interest of the state to enhance the dignity and capacity for self-support of all persons with severe disabilities and to minimize their dependence on government programs for their basic needs; and

(b) It benefits the state as well as all persons with severe disabilities to encourage and assist all persons with severe disabilities to achieve maximum personal independence through useful and productive gainful employment by identifying a market for the services that they can offer.

(2) The general assembly further finds and declares that the purpose of this part 8 is to create a set aside program for nonprofit agencies that employ any persons with severe disabilities and to allow nonprofit agencies to bid on certain types of services solicitations. In furtherance of this purpose, the general assembly recognizes that it is in the best interests of all persons with severe disabilities that the employment options created pursuant to this part 8 expand the opportunities for all persons with severe disabilities to work in integrated employment settings.

**Source: L. 2008:** Entire part added, p. 2190, § 1, effective August 5.

**24-103-802. Definitions.** As used in this part 8, unless the context otherwise requires:

(1) "Bundling" means a state agency consolidating two or more solicitations for services previously provided or performed under separate smaller contracts into a single solicitation that is likely to be unsuitable for award to a nonprofit agency due to any of the following:

(a) The diversity, size, or specialized nature of the elements of the required services;

(b) The aggregate dollar value of the anticipated award; or

(c) The geographical dispersion of the contract performance sites.

(2) "Department" means the department of human services.

(3) "Nonprofit agency" means a private nonprofit organization established under the laws of the United States or this state that is operated in this state in the interest of persons with severe disabilities or that specializes in services for persons with severe disabilities, the net income of which does not benefit in whole or in part any shareholder or officer.

(4) "Self-certified vendor" means a nonprofit agency that has applied and been approved by the department to bid on certain services solicitations pursuant to this part 8.

(5) "Services solicitation" means a solicitation by a state agency for the furnishing of labor, time, or effort by a contractor not involving the delivery of a specific end product other than products that are merely incidental to the required performance.

(6) "Severe disability" means one or more physical or mental disabilities that constitute a substantial impairment to employment and that are of such a nature as to require multiple vocational rehabilitation services over an extended period.

(7) "State agency" means any state office, department, commission, institution, or bureau, or any agency, division, or unit within a department or office. Notwithstanding the provisions of section 24-101-105, "state agency" shall include each institution of higher education and the Colorado commission on higher education. "State agency" shall not include any municipality, county, school district, special district, or any other local government in the state.

**24-103-803. Nonprofit agencies - self-certified vendor list - creation.** (1) Any nonprofit agency that is interested in performing state services and that would like to bid on solicitations for such services through the set aside program created in this part 8 shall first apply to the department, in a manner to be determined by the department, to become a self-certified vendor pursuant to this section.

(2) The department shall accept applications from any nonprofit agency that seeks to become a self-certified vendor to bid on certain services solicitations. In order for a nonprofit agency to become a self-certified vendor, the nonprofit agency shall certify that:

(a) The nonprofit agency is an independent tax-exempt charitable or social welfare organization operating under section 501 (c)(3) of the federal "Internal Revenue Code of 1986", as amended, and is operating in Colorado;

(b) Repealed.

(c) The nonprofit agency satisfies the statutory requirements to be eligible to bid on a state services solicitation pursuant to section 24-103-401 and any rules promulgated by the department of personnel in furtherance of said section;

(d) The nonprofit agency would be capable of hiring and would employ people to perform any service for which the nonprofit agency bids, and that of those people employed a total of seventy-five percent would be persons with severe disabilities and a minimum of twenty

percent would be persons with severe disabilities who have developmental disabilities as defined in section 25.5-10-202, C.R.S.; and

(e) Any other criteria consistent with the purposes of this part 8 that are deemed necessary by the department.

(3) The department shall create and maintain a list of all nonprofit agencies that have attained self-certified vendor status and shall make the list available to the department of personnel pursuant to rules promulgated by the executive director.

(4) A nonprofit agency's self-certified vendor status is valid for up to five years after the date that the nonprofit agency's self-certification application was approved. A nonprofit agency is required to reapply to the department, at a time and in a manner determined by the department, for self-certified vendor status to be eligible to respond to a set aside solicitation pursuant to this part 8.

(5) (a) Nothing in this part 8 shall be construed to require a nonprofit agency that seeks to respond to services solicitations to become a self-certified vendor; except that a nonprofit agency shall not be eligible to bid for a set aside solicitation pursuant to this part 8 unless the nonprofit agency is self-certified pursuant to this section.

(b) Nothing in this part 8 shall be construed to prevent a nonprofit agency from bidding on any state agency solicitation that is not a set aside solicitation pursuant to this part 8.

The executive director shall promulgate rules regarding the process for review, determinations, and publication of a list that shall be referred to as the services set aside list.

**24-103-805. Contract set asides - bid process created by department of personnel - obligation of state agencies - rules.** (1) (a) Any state agency that intends to solicit bids for a service that is included on the services set aside list created pursuant to section 24-103-804 shall first solicit bids from self-certified vendors for such service and shall follow the procedures specified in rules promulgated by the executive director.

(b) If two or more self-certified vendors bid on the solicitation for the services, the procurement official shall award a contract to one of the self-certified vendors based on which acceptable response is most advantageous to the state taking into consideration factors other than price alone.

(c) If one self-certified vendor bids on the solicitation for the services, the procurement official shall award a contract to the self-certified vendor and shall ensure that the contract is awarded at a fair and reasonable price of up to fifteen percent above the fair market value of the services, subject to available appropriations.

(d) If the state agency does not receive a bid from any self-certified vendor for the services, the state agency is permitted to procure the services through other approved procurement methods and shall not be subject to the requirements of this part 8 for that specific solicitation.

(2) The department of personnel shall, within one hundred eighty days after August 5, 2008, establish a process whereby any state agency that intends to solicit bids for a service that is included on the services set aside list created pursuant to section 24-103-804 may solicit bids solely from self-certified vendors.

(3) Any state agency that has awarded a solicitation for services to a self-certified vendor pursuant to paragraph (a) or (b) of subsection (1) of this section shall, before the expiration of the term of the contract, renegotiate a fair and reasonable price for the services with the self-certified vendor that has performed the services for the state agency. The state agency is not permitted to solicit new bids for the services performed by the self-certified vendor unless one of the following occurs:

(a) The nonprofit agency that is the self-certified vendor no longer wishes to perform the services for the state agency;

(b) The state agency decides to perform the services internally and hires employees who will be employees of the state to perform the services;

(c) The state agency no longer needs the service that was provided by the self-certified vendor; or

(d) The self-certified vendor has not met the requirements for the services offered.

(4) Any state agency that is required to solicit bids for a service that is included on the services set aside list is prohibited from bundling the service with one or more other services not included on the services set aside list before soliciting bids from self-certified vendors pursuant to this section. If the state agency has not received a bid from any self-certified vendor and is therefore authorized to procure the services through other approved procurement methods, the bundling prohibition shall no longer apply to the state agency for that specific solicitation for services.

(5) The department of personnel may promulgate rules to implement the requirements of this section pursuant to section 24-102-101. Such rules shall be promulgated in accordance with the provisions of article 4 of this title 24.

(6) Any self-certified vendor that has been awarded a solicitation for services by a state agency pursuant to this part 8 shall report to the chief procurement officer regarding the progress

of the award and the contract in a manner and frequency to be determined by the chief procurement officer. The vendor shall include in the report the percentage of the total contract price that it will spend on the salary or wages of the employees hired to perform the services solicitation, not including the salary or wages for administrative staff or employees.

(7) Any self-certified vendor pursuant to this part 8 must maintain the requirements to be a self-certified vendor pursuant to section 24-103-803 (2) for the duration of the services set aside list and for the entire term of any contract resulting from the services set aside list.

### PROCUREMENT PREFERENCES AND GOALS

**24-103-901. Procurement preferences and goals.** The procurement preferences and goals specified in this part 9 apply to the award of contracts under this code.

**Source: L. 2017:** Entire part added with relocated provisions, (HB 17-1051), ch. 99, p. 319, § 28, effective August 9.

**24-103-902. Low tie bids - award procedure and determination - bid preference.** (1) If low tie bids are received in response to an invitation for bids for a supply contract, the following procedures are required:

- (a) If the low tie bids are from a resident bidder and a nonresident bidder, the resident bidder shall be given preference over the nonresident bidder;
- (b) If the low tie bids are from resident bidders, the procurement agent shall:

(I) Use a fair and reasonable procedure for determining which bidder receives the contract award that at a minimum provides for the presence, at the time and place the determination is made, of the bidders or the bidders' representatives and an impartial witness designated by the procurement agent who is not an employee of that procurement agent's agency; and

(II) Give the bidders at least five business days' written notice by certified mail of the date the determination will be made, of the procedure for making the determination, and that the bidders or the bidders' representatives may be present when the determination is made;

(c) If the low tie bids are only from nonresident bidders, the procurement agent shall follow the procedures in subsections (1)(b)(I) and (1)(b)(II) of this section;

(d) All other applicable provisions of the code that are not inconsistent with this section shall be followed.

(2) If the procurement agent determines that compliance with this section will cause denial of federal moneys that would otherwise be available or would otherwise be inconsistent with federal law, this section shall be suspended, but only to the extent necessary to prevent denial of the moneys or to eliminate the inconsistency with federal law.

**24-103-903. State purchases of recycled paper and recycled products - definitions.**

(1) When purchasing paper and paper products, any procurement agent shall, whenever the price is competitive and the quality adequate for the purpose intended, purchase recycled paper, as defined in section 13-1-133 (4)(d).

(2) For the fiscal year 1990-91, the executive director shall establish as a goal that at least ten percent of the total volume of paper and paper products purchased by the state shall contain recycled paper. The goal shall increase to twenty percent for the fiscal year 1991-92, to thirty percent for the fiscal year 1992-93, to forty percent for the fiscal year 1993-94, and to fifty percent for the fiscal year 1994-95, and for each fiscal year thereafter.

(3) Each agency using recycled paper may print the notation "printed on recycled stock" on any paper or paper product which has been certified by the division as recycled paper.

(4) For purposes of this section, "paper and paper products" means paper items, including but not limited to paper napkins, towels, corrugated and other cardboard, toilet tissue, high-grade office paper, newsprint, offset paper, bond paper, xerographic bond paper, mimeo paper, and duplicator paper.

(5) When purchasing any product with public funds, any procurement agent shall be authorized to purchase products or materials with recycled content, that have been source-

reduced, that are reusable, or that have been composted, unless one or more of the following conditions exist:

- (a) The product is not available within a reasonable period of time;
  - (b) The product fails to meet existing purchasing rules, including specifications; or
  - (c) The product fails to meet federal or state health or safety standards, as set forth in the code of federal regulations or the Colorado code of regulations.
- (6) In addition to the requirements set forth in subsections (1), (2), and (5) of this section, the procurement agent shall be authorized to purchase, when cost-efficient and economically feasible, equipment that results in the reduction of paper usage.

**24-103-904. Purchasing preference for environmentally preferable products - definitions.** (1) As used in this section, unless the context otherwise requires, "environmentally preferable products" means products that have a lesser or reduced adverse effect on human health and the environment when compared with competing products that serve the same purpose. The product comparison may consider such factors as the availability of any raw materials used in the product being purchased and the availability, use, production, safe operation, maintenance, packaging, distribution, disposal, or recyclability of the product being purchased.

(2) All invitations for bids for products shall include language that describes the availability of the purchasing preference for environmental products. In connection with the purchase of products, a governmental body shall award the contract to a bidder who offers environmentally preferable products subject to the conditions specified in subsection (3) of this section unless the specifications used in the solicitation contain environmentally preferable product criteria. This preference does not apply to the purchase of services, including construction services.

(3) The preference specified in subsection (2) of this section shall apply only if all of the following conditions are met and selecting an environmentally preferable product would not otherwise be disadvantageous to the state upon consideration of these conditions, singly or in combination:

- (a) The quality of the environmentally preferable products meets the specification of the bid.
- (b) The environmentally preferable products are suitable for the use required by the purchasing entity.

(c) Any bidder able to offer environmentally preferable products is able to supply such products in sufficient quantity, as indicated in the invitation for bids.

(d) The bid price for environmentally preferable products does not exceed the lowest bid price for products that are not environmentally preferable by more than five percent.

(e) The head of the governmental body or other official charged by law with the duty to purchase products has made a determination that the governmental body is able to purchase the environmentally preferable products out of the governmental body's existing budget without any further supplemental or additional appropriation.

(4) If the bid price for environmentally preferable products exceeds the bid price for products that are not environmentally preferable by more than five percent, a governmental body may award the contract to a bidder who offers environmentally preferable products where the governmental body demonstrates, on the basis of assessments such as the costs of ownership and a life-cycle analysis, that long-term savings to the state will result from environmentally preferable purchasing in accordance with the requirements of this section. Nothing in this section shall require that a governmental body perform an analysis of the costs of ownership or a life-cycle analysis in connection with the purchase of any products.

(5) (a) Any bidder that seeks to qualify for the preference created by subsection (2) of this section shall provide documentation to the governmental body inviting the bid that the products offered by the bidder are environmentally preferable. This requirement may be satisfied by submission of any of the following:

(I) A life-cycle analysis conducted on the applicable product that has been conducted in accordance with applicable standards as determined by the purchasing governmental body or by the international organization for standardization or any successor organization;

(II) A reference to an existing environmentally preferable product list maintained by a state or the federal government that contains the product; or

(III) A reference to a nationally recognized third-party certification entity that has certified the product as environmentally preferable on the basis of a valid life-cycle analysis. The governor's energy office or successor office shall maintain a list of certification entities.

(b) The governmental body may rely in good faith on any form of documentation that satisfies the requirement of subsection (5)(a) of this section.

(c) Notwithstanding any other provision of this section, if none of the forms of documentation specified in subsection (5)(a) of this section apply to the product being purchased, the requirements of this section shall not apply to the purchase of the product.

(6) In connection with any cost of ownership analysis or life-cycle analysis undertaken in connection with any purchase under this section of a product that involves the replacement of existing electrical, natural gas, or steam service, the cost analysis shall consider any stranded utility costs.

**24-103-905. Service-disabled veteran-owned small businesses - state procurement preference - definitions.** (1) As used in this section, unless the context otherwise requires:

(a) "Service-disabled veteran-owned small business" means a business that is:

(I) Incorporated or organized in the state or that is maintaining a place of business or office in the state; and

(II) Officially registered and verified as a service-disabled veteran-owned small business by the center for verification and evaluation within the United States department of veterans affairs.

(b) "State agency" means a principal department of the executive branch of state government as specified in section 24-1-110, including any division, office, agency, or other unit created within a principal department, including institutions of higher education and the Colorado commission on higher education; except that "state agency" does not include those entities that have elected to be exempt from the code pursuant to section 24-101-105 (1)(b).

(2) In awarding all contracts that are subject to this code, the state shall have the goal of awarding at least three percent of all such contracts, by dollar value, to service-disabled veteran-owned small businesses. To satisfy this goal, a state agency may grant a preference for service-disabled veteran-owned small businesses.

(3) When a state agency intends to award a contract to a business in furtherance of the three percent goal specified in subsection (2) of this section, the state agency shall, prior to awarding the contract, require the business to submit to the agency documentation from the United States department of veterans affairs that verifies that the business is a service-disabled veteran-owned small business.

(4) On or before September 30, 2015, and on or before September 30 each year thereafter, the executive director shall submit a report regarding the state's progress in satisfying the three percent goal established in this section to the department of military and veterans affairs, the members of the Colorado board of veterans affairs, and to the members of the committees of the house of representatives and the senate that have jurisdiction over state affairs and veterans affairs. The report shall include the following:

(a) The total number of contracts that all state agencies awarded to service-disabled veteran-owned small businesses in the prior fiscal year and the number of such contracts that each state agency awarded;

(b) The total dollar amount of contracts that all state agencies awarded to service-disabled veteran-owned small businesses in the prior fiscal year and the percentage that such dollar amount bears to the total dollar amount of contracts awarded by all state agencies in the prior fiscal year; and

(c) The total dollar amount of contracts that each state agency awarded to service-disabled veteran owned small businesses in the prior fiscal year and the percentage that such

dollar amount bears to the total dollar amount of contracts awarded by the state agency in the prior fiscal year.

**24-103-906. Bid preference - state contracts.** (1) (a) Except as provided in subsection (1)(b) of this section and in section 24-103-907, when a contract for commodities or services is to be awarded to a bidder, a resident bidder shall be allowed a preference against a nonresident bidder equal to the preference given or required by the state in which the nonresident bidder is a resident.

(b) Notwithstanding subsection (1)(a) of this section, when an invitation for bids for a contract for the purchase of commodities results in a low tie bid, the provisions of section 24-103-902 apply.

(c) For the purposes of this subsection (1), "commodities" includes supplies as defined in section 24-101-301 (47).

(2) If it is determined by the procurement agent responsible for awarding the bid that compliance with this section may cause denial of federal moneys which would otherwise be available or would otherwise be inconsistent with requirements of federal law, this section shall be suspended, but only to the extent necessary to prevent denial of the moneys or to eliminate the inconsistency with federal requirements.

**24-103-907. Preference for state agricultural products.** (1) When purchasing agricultural products, a governmental body shall award the contract to a resident bidder who produces products in the state, subject to the conditions in subsection (2) of this section.

(2) The preference in subsection (1) of this section shall apply only if the following conditions are met:

(a) The quality of available products produced in the state is equal to the quality of products produced outside the state;

(b) Available products produced in the state are suitable for the use required by the purchasing entity;

(c) The resident bidder is able to supply products produced in the state in sufficient quantity, as indicated in the invitation for bids; and

(d) (I) The resident bidder's bid or quoted price for products produced in the state does not exceed the lowest bid or price quoted for products produced outside the state or the resident bidder's bid or quoted price reasonably exceeds the lowest bid or price quoted for products produced outside the state.

(II) For purposes of this subsection (2)(d), "reasonably exceeds" shall occur when the head of the governmental body, or other public officer charged by law with the duty to purchase such products, at his or her sole discretion, determines such higher bid to be reasonable and capable of being paid out of that governmental body's existing budget, without any further supplemental or additional appropriation.

(3) (a) For purposes of this section, an agricultural product is produced in the state if it is grown, raised, or processed in the state.

(b) A resident bidder that seeks to qualify for the preference created by subsection (1) of this section shall certify to the governmental body inviting the bid and provide documentation confirming that the resident bidder's agricultural product was produced in the state. The governmental body may rely in good faith on such certification and documentation.

**24-103-908. Bid preferences - resident bidder - public projects - report - federal and state law - definitions.** (1) As used in this section, unless the context otherwise requires, "public project" means:

(a) Any public project as defined in section 24-92-102 (8), including any such project awarded by any county, including any home rule county, municipality, as defined in section 31-1-101 (6), school district, special district, or other political subdivision of the state;

(b) Any publicly funded contract for construction entered into by a governmental body of the executive branch of this state which is subject to this code; and

(c) Any highway or bridge construction, whether undertaken by the department of transportation or by any political subdivision of this state, in which the expenditure of funds may be reasonably expected to exceed fifty thousand dollars.

(2) (a) When a construction contract for a public project is to be awarded to a bidder, a resident bidder shall be allowed a preference against a nonresident bidder from a state or foreign country equal to the preference given or required by the state or foreign country in which the nonresident bidder is a resident.

(b) If it is determined by the procurement agent responsible for awarding the bid that compliance with this section may cause denial of federal moneys which would otherwise be

available or would otherwise be inconsistent with requirements of federal law, this section shall be suspended, but only to the extent necessary to prevent denial of the moneys or to eliminate the inconsistency with federal requirements.

(3) (a) The executive director of the department of personnel, or the executive director's designee, shall use a national registry of bidding preferences published by another state or national organization or shall conduct a survey and compile the results into a list of which states provide a bidding preference on public works contracts for their resident bidders. The list must include details on the type of preference provided by each state, the amount of the preference, and how the preference is applied. The executive director shall complete the initial list on or before July 1, 2014, shall update the list periodically as needed but at least on an annual basis, and shall make the list available to the public on the department's website.

(b) In any bidding process for public works in which a bid is received from a bidder who is not a resident bidder and who is from a state that provides a percentage bidding preference to resident bidders of that state, a comparable percentage disadvantage shall be applied to the bid of that bidder.

(c) Any request for proposals issued by a state agency or political subdivision of the state must include a notice to nonresident bidders that if the nonresident bidder is from a state that provides a bidding preference to bidders from that state, then a comparable percentage disadvantage will be applied to the bid of that nonresident bidder. The notice must also specify that the bidder may obtain additional information from the department of personnel's website.

(d) The executive director of the department of personnel may promulgate rules necessary for the implementation of this section. Such rules shall be promulgated in accordance with the "State Administrative Procedure Act", article 4 of this title 24.

(4) Nothing in this section applies to any project that receives federal moneys. In addition, nothing in this section contravenes any existing treaty, law, agreement, or regulation of the United States. Contracts entered into in accordance with any treaty, law, agreement, or regulation of the United States do not violate this section to the extent of that accordance. The requirements of this section are suspended if such requirement would contravene any treaty, law, agreement, or regulation of the United States, or would cause denial of federal moneys or preclude the ability to access federal moneys that would otherwise be available.

The contractor may rely on documents provided by third-party vendors when disclosing the country of origin of iron, steel, or related manufactured goods. In addition, the disclosure must state whether the public works project was subject to any existing domestic content preference, including 41 U.S.C. secs. 8301 to 8305, 23 U.S.C. sec. 313, 49 U.S.C. sec. 5323, 49 U.S.C. sec. 24305, 49 U.S.C. sec. 24405, and 49 U.S.C.

## PART 10

### PROCUREMENT DISPARITY STUDY

**24-103-1001. Legislative declaration.** (1) The general assembly hereby finds, determines, and declares that:

(a) It is imperative and the public policy of Colorado that the state procurement process be free from bias so that all qualified persons and entities may compete for state business;

(b) A fair procurement process not only ensures justice and fairness in state contracting but will broaden the procurement contractor pool, which will result in efficiencies statewide and, as warranted, promote the growth of historically underutilized businesses, thereby creating jobs and stimulating the state's economy;

(c) Although studies establishing discrimination in procurement for certain industries or in certain localities have been conducted, a comprehensive analysis of state contracts awarded to historically underutilized businesses has not yet been commissioned;

(d) The United States supreme court has recognized that disparity studies are tools that seek to qualify and quantify past discrimination and recommend certain corrective measures as may be warranted by the study's findings;

(e) If any disparities exist, such a study is essential to the ultimate achievement of a marketplace in which historically underutilized businesses are not subject to discrimination and can obtain a fair market share of contract expenditures; and

(f) Therefore, it is the intent of the general assembly, consistent with the code's stated policies of ensuring the fair and equitable treatment of persons who deal with the procurement system and fostering effective broad-based competition within the free enterprise system, that an independent study be commissioned to:

(I) Determine the frequency with which state contracts are awarded to historically underutilized businesses and the monetary amounts of such awards, compared to the frequency and size of contracts awarded to other businesses; and

(II) To the extent that the study establishes that disparities attributable to past or present discrimination exist or inhere in the state procurement process, to recommend remedial measures to address the effects of that discrimination.

**24-103-1003. Disparity study - report.** (1) (a) The executive director shall commission a state disparity study regarding the participation of historically underutilized businesses in state contracts entered into by all principal departments of the executive branch of state government as specified in section 24-1-110, including any division, office, agency, or other unit created within a principal department and including institutions of higher education and the Colorado commission on higher education; except that the study shall not include those entities that have elected to be exempt from the code pursuant to section 24-101-105 (1)(b). The study shall include state contracts entered into during the 2014-15, 2015-16, 2016-17, and 2017-18 state fiscal years.

(b) (I) The study must be conducted, and a final report prepared, by an entity independent of the department that is selected in response to a request for proposal issued in accordance with this code.

(II) The entities subject to the study pursuant to subsection (1)(a) of this section shall cooperate fully with the independent contractor engaged to conduct the study.

(c) The study and final report setting forth the study's methodologies, findings, and recommendations must be provided by December 1, 2020, to:

(I) The members of the general assembly; and

(II) The executive director, who shall transmit a copy of the disparity study final report produced pursuant to this section to the director of the minority business office created in section 24-49.5-102, which shall post the report on that office's official website.

(d) The executive director or the executive director's designee shall include the findings and recommendations from the final report required by subsection (1)(c) of this section in its report to the applicable house and senate committees of reference required by the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act", part 2 of article 7 of title 2.

(2) (a) The purposes of the disparity study undertaken pursuant to this section are:

(I) To determine whether there is a disparity between the number of qualified historically underutilized businesses that are ready, willing, and able to perform state contracts for goods and services, and the number of such contractors actually engaged to perform such contracts, which information must be ascertained by evaluating the prime contracts and subcontracts awarded in the following industries:

(A) Construction, including new construction, remodeling, renovation, maintenance, demolition and repair of any public structure or building, pipeline construction, and other public improvements;

(B) Architecture and engineering, including construction management, landscape architecture, planning, surveying, mapping services, and design, build, and construction services;

(C) Professional services, including legal services, accounting, information technology services, medical services, technical services, research planning, and consulting services;

(D) Brokerage and investment, including banking, asset management, state retirement, and pension services; and

(E) Goods and services that may be provided or performed without professional licensure or special education or training, including, but not limited to, goods and services relating to materials, supplies, equipment, maintenance, personnel, pharmaceuticals, and food;

(II) To determine whether, of the total amount spent on state contracts in a fiscal year, there is a disparity between the percentage of spending attributable to contracts awarded to qualified historically underutilized businesses and the percentage of state contracts that were awarded to historically underutilized businesses in that fiscal year; and

(III) To determine what changes, if any, should be made to state policies affecting historically underutilized businesses.

(b) The disparity study must specifically include the following analyses, both for the historically underutilized businesses as a group and for each subgroup, as set forth in section 24-103-1002 (3)(a)(II):

(I) A prime contractor utilization analysis that presents the distribution of prime contracts by industry;

(II) A subcontractor utilization analysis that presents the distribution of subcontracts by the industries described in subsection (2)(a)(I) of this section;

(III) A market area analysis that presents the legal basis for the geographical market area determination and defines the state's market area;

(IV) A prime contractor and subcontractor availability analysis that presents the distribution of available businesses in the state's market area;

(V) A prime contractor disparity analysis that presents prime contractor utilization compared to prime contractor availability by industry and determines whether the comparison is statistically significant;

(VI) A subcontractor disparity analysis that presents subcontractor utilization compared to subcontractor availability by industry and determines whether the comparison is statistically significant;

(VII) A qualitative analysis that presents the business community's experiences and perceptions of barriers encountered in contracting or attempting to contract with the state; and

(VIII) Recommendations regarding best management practices and ways to enhance Colorado's contracting and procurement activities with historically underutilized businesses.

(c) (I) Any conclusion that discrimination-related disparity exists between the availability and utilization of historically underutilized businesses must be supported by statistical evidence and may be supplemented or supported by anecdotal evidence.

(II) If the analysis supports a finding that such disparity exists, the report must include recommendations to address the disparity, including any statutory changes likely to cure, mitigate, or redress such disparity. Any proposed remedial measures must be tailored to address documented statistical disparities in procurement policies.

(3) The general assembly may annually appropriate to the department of personnel such amount as it deems appropriate for the purposes specified in this part 10. Any unexpended and unencumbered money from an appropriation made for the purposes of this part 10 remains available for expenditure by the department for the purposes of this part 10 in the next fiscal year without further appropriation.

created within a principle department, and including institutions of higher education and the Colorado commission on higher education; except that such requests may not be made of entities that have elected to be exempt from the code pursuant to section 24-101-105 (1)(b). These rules may set forth criteria to be used in determining which method of construction contracting management is to be used for a particular project, grant to the head of a division within the department or the procurement official who is responsible for carrying out the construction project the discretion to select the appropriate method of construction contracting management for a particular project, and require the procurement agent to execute and include in the contract file a written statement setting forth the facts which led to the selection of a particular method of construction contracting management for each project.

PART 2

BONDS

**24-105-201. Bid security.** (1) Bid security shall be required for all invitations for bids for construction contracts when the price is estimated by the procurement agent to exceed fifty thousand dollars. Bid security shall be a bond provided by a surety company authorized to do business in this state, the equivalent in cash, or otherwise supplied in a form satisfactory to the state. Nothing in this subsection (1) prevents the requirement of such bonds on construction contracts under fifty thousand dollars.

(2) Bid security shall be in an amount equal to at least five percent of the amount of the bid.

(3) When the invitation for bids requires security, noncompliance requires that the bid be rejected as nonresponsive.

(4) After the bids are opened, they shall be irrevocable for the period specified in the invitation for bids, except as provided in section 24-103-202 (6). If a bidder is permitted to withdraw his bid before award, no action shall be had against the bidder or the bid security.

Contract performance and payment bonds - applicability.** (1) When a construction contract is awarded in excess of one hundred fifty thousand dollars, the following bonds or security shall be delivered to the state and shall become binding on the parties upon the execution of the contract:

(b) A payment bond satisfactory to the state, executed by a surety company authorized to do business in this state or otherwise secured in a manner satisfactory to the state, for the protection of all persons supplying labor and material to the contractor or its subcontractors for

the performance of the work provided for in the contract. The bond shall be in an amount equal to fifty percent of the price specified in the contract.

(2) Nothing in this section shall be construed to limit the authority of the state to require a performance bond or other security in addition to those bonds or in circumstances other than those specified in subsection (1) of this section.

(2) (a) Adjustments in price shall be computed in one or more of the following ways:

(I) By agreement on a fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;

(b) A contractor shall be required to submit cost or pricing data if any adjustment in contract price is subject to the provisions of section 24-103-403.

Fiscal responsibility.** Every contract modification or contract price adjustment under a construction contract with the state in excess of an amount specified in the contract shall be subject to prior written certification by the controller or other official responsible for monitoring and reporting upon the status of the costs of the total project or contract budget as to the effect of the contract modification or adjustment in contract price on the total project or contract budget. In the event that the certification of the controller or other

responsible official discloses a resulting increase in the total project or contract budget, the procurement agent shall not execute or make such contract modification or adjustment in contract price unless sufficient funds are available therefor or the scope of the project or contract is adjusted so as to permit the degree of completion that is feasible within the total project or contract budget as it existed prior to the contract modification or adjustment in contract price under consideration; except that, with respect to the validity of any executed contract modification or adjustment in contract price which the contractor has reasonably relied upon, it shall be presumed that there has been compliance with the provisions of this section.

**24-106-103. Centralized contract management system - personal services contracts - legislative declaration - definitions.** (1) (a) The general assembly hereby finds and declares that by enacting this section the general assembly intends to centralize the location of information about personal services contracts and provide for legislative, executive, and public access to all personal services contracts entered into by any governmental body.

(b) For purposes of this section, "governmental body" shall have the same meaning as set forth in section 24-101-301 (18); except that, for purposes of this section, "governmental body" shall also include elected officials.

(2) This section shall apply to any personal services contract to which the state is a party the value of which exceeds one hundred thousand dollars with the exception of any contract to which the state is a party under medicare, the "Colorado Medical Assistance Act", articles 4 to 6

of title 25.5, the "Children's Basic Health Plan Act", article 8 of title 25.5, or the "Colorado Indigent Care Program", part 1 of article 3 of title 25.5.

(3) (a) On or before June 30, 2009, the department shall implement and maintain a centralized contract management system for the purpose of monitoring all personal services contracts entered into by a governmental body that are subject to the requirements of this section. With respect to each contract entered into by a governmental body, information contained in the system shall include, without limitation, the following:

(I) The governmental body that entered into the personal services contract;

(II) The persons or entities with which the governmental body is contracting;

(III) The purpose of the personal services contract;

(IV) The effective dates, expiration dates, and any renewal periods of the personal services contract;

(V) The vendor selection method upon which the personal services contract was awarded, whether competitively procured, awarded on a sole-source basis, or otherwise. Where the contract has been awarded on a sole-source basis, the governmental body shall certify that the governmental body has followed the requirements of subsection (5) of this section.

(VI) The total amount of the personal services contract and any amendments to the contract;

(VII) Whether any services under the personal services contract, or any subcontracts to the contract that directly relate to the services provided under the contract, are anticipated to be performed outside the United States or the state as disclosed in the statement of work pursuant to section 24-102-206 and the vendor's justification for obtaining services outside the United States or the state in accordance with the requirements of section 24-102-206; and

(VIII) Upon completion of the personal services contract, the extent as disclosed by the vendor to which any services under the contract, or any subcontracts to the contract that directly relate to the services provided under the contract, were performed outside the United States or the state.

(b) Each governmental body shall be responsible for gathering relevant information for inclusion in the centralized contract management system in accordance with the requirements of subsection (3)(a) of this section.

(c) The centralized contract management system required to be maintained by the department pursuant to subsection (3)(a) of this section shall be a publicly available database of all personal services contracts entered into by any governmental body, accessible from the website maintained by the state. Information concerning contracts contained in the database and accessible on the website shall be searchable by criteria enumerated in subparagraphs (I) to (VIII) of subsection (3)(a) of this section. Information in the database shall be either presented in plain and nontechnical language or by means of key terms that are clearly and easily defined.

(d) Any new personal services contracts subject to the requirements of this section shall be added to the centralized contract management system maintained by the department pursuant to subsection (3)(a) of this section not more than thirty days after the execution of the contract.

The types of services that may be designated shall include, without limitation, professional technical, nonprofessional support, purchased services, architectural, engineering and construction trades, and professional equipment repair.

(5) Prior to entering into a sole-source personal services contract, the governmental body shall attempt to identify competing vendors by placing a notice on the state's electronic procurement system for not less than three business days. If the governmental body receives any responses to the notice from qualified and responsible vendors that are able to meet the specifications identified in the notice and that are not otherwise prohibited from bidding on the contract, the sole-source selection method shall not be used.

Types of contracts.** Subject to the limitations of this section, any type of contract which will promote the best interests of the state may be used; except that the use of a cost-plus-a-percentage-of-cost contract is prohibited. A contingency-based contract may be used only upon approval by the governor's office of state planning and budgeting pursuant to section 24-17-204. A cost-reimbursement contract may be used only when a determination is made in writing that such contract is likely to be less costly to the state than any other type of contract or that it is impracticable to obtain the supplies, services, or construction required unless the cost-reimbursement contract is used.

**24-106-105. Multiyear contracts.** (1) Unless otherwise provided by law, a contract for supplies or services may be entered into for any period of time deemed to be in the best interests of the state if the term of the contract and conditions of renewal or extension, if any, are included in the solicitation and if funds are available for the first year at the time of contracting. If the chief procurement officer determines that extenuating circumstances exist and an extension of

the contract beyond the term included in the solicitation is in the best interest of the governmental body, then the chief procurement officer may approve a longer term for a reasonable time based on what is practicable and necessary given the circumstances. The state shall initiate the renewal or extension of a contract for supplies or services. Payment and performance obligations for succeeding fiscal years shall be subject to the availability and appropriation of funds therefor.

(2) Prior to the utilization of a multiyear contract, it shall be determined in writing:

(a) That estimated requirements cover the period of the contract and are reasonably firm and continuing; and

(b) That such a contract will serve the best interests of the state by encouraging effective competition or otherwise promoting economies in state procurement.

(3) When funds are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year, the contract shall be canceled, and the contractor may be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the contract.

**24-106-106. Right to audit records.** The state shall be entitled to audit the books and records of any contractor or subcontractor under any negotiated contract or subcontract to the extent that the books and records relate to the performance of a state contract or subcontract, if the state is able, in conducting any such audit, to maintain the confidentiality of any information contained in the books and records that is deemed proprietary as determined by the state. Such books and records shall be maintained by the contractor for a period of six years after the date of final payment under the prime contract and by the subcontractor for a period of six years after the date of final payment under the subcontract, unless a shorter period is otherwise authorized in writing.

**24-106-107. Monitoring of vendor performance - definitions.** (1) For purposes of this section, "governmental body" has the same meaning as set forth in section 24-101-301 (18); except that, for purposes of this section, "governmental body" shall also include elected officials.

(2) Each personal services contract entered into pursuant to this code with a value of one hundred thousand dollars or more shall contain:

(a) Performance measures and standards developed specifically for the contract by the governmental body administering the contract. The performance measures and standards shall be negotiated by the governmental body and the vendor prior to execution of the contract and shall be incorporated into the contract. The measures and standards shall be used by the governmental body to evaluate the performance of the vendor under the contract.

(b) An accountability section that requires the vendor to report regularly on achievement of the performance measures and standards specified in the contract and that allows the governmental body to withhold payment until successful completion of all or part of the contract and the achievement of established performance standards. The accountability section shall include a requirement that payment by the governmental body to the vendor shall be made without delay upon successful completion of all or any part of the contract in accordance with the payment schedule specified in the contract or as otherwise agreed upon by the parties.

(c) Monitoring requirements that specify how the governmental body will evaluate the vendor's performance, including progress reports, site visits, inspections, and reviews of performance data. The governmental body shall use one or more monitoring processes to ensure that the results, objectives, and obligations of the contract are met.

(d) Methods and mechanisms to resolve any situation in which the governmental body's monitoring assessment determines noncompliance, including termination of the contract.

(3) Each governmental body administering the personal services contract shall, within existing resources of the governmental body, designate a contract manager with subject matter expertise within the governmental body responsible for day-to-day management of the contract, including performance monitoring.

(4) If the governmental body determines that the vendor has not complied with the contract terms, including but not limited to performance standards and measurable outcomes, the state may pursue remedies in accordance with article 109 of this title 24 and shall be entitled to any remedy available under law in the case of contract nonperformance, including but not limited to termination of the contract and the return of any and all payments made to the vendor by the state under the contract; except that the recovery of any moneys by the state shall be reduced by the value of any contractual benefits realized by the state from partial performance by the vendor under the contract. If a vendor is deemed to be in default under any one particular contract with the state, the state may, upon a showing of good cause, declare any or all other contracts it has entered into with the vendor to be in default.

(5) Notwithstanding any other provision of this section, nothing in this section shall be construed to apply to any contract to which the state is a party under medicare, the "Colorado Medical Assistance Act", articles 4 to 6 of title 25.5, the "Children's Basic Health Plan Act", article 8 of title 25.5, or the "Colorado Indigent Care Program", part 1 of article 3 of title 25.5.

For purposes of contract controversies, an aggrieved party may also be the contractor.

(2) "Material issue" means a nontrivial defect in the solicitation or award that would prejudice the outcome of the procurement. (2) Any decision of the procurement official or his or her designee with respect to a material issue raised in a protest is subject to appeal pursuant to part 2 of this article 109.

The protest of a small purchase solicitation or award of contract shall be submitted in writing to the procurement official or his or her designee within three business days, unless the procurement official otherwise extends the time period to ten business days, after such aggrieved party knows or should have known of the facts giving rise thereto.

(2) The procurement official or his or her designee shall have the authority to settle and resolve a protest of an aggrieved party concerning the solicitation or award of a contract. A written decision regarding the protest shall be rendered within ten business days after the protest is filed. The decision shall be based on and limited to a review of the material issues raised by

## GOVERNMENT COMPETITION WITH PRIVATE ENTERPRISE

### ARTICLE 113

#### State Government Competition with Private Enterprise

To that end, it is the intent of the general assembly that neither the faculty nor administration of such institutions use research equipment or facilities purchased or provided with state funds to provide goods or services to the public for a fee when such action is in direct competition with private companies that provide similar goods or services.

**24-115-110. Critical needs notes - issuance schedule - distribution of note proceeds.**

(1) (a) Except as otherwise provided in paragraphs (b) and (c) of this subsection (1), if the general assembly passes and the governor signs a joint resolution that requires the submission of a ballot issue to voters statewide that seeks authorization for the state to incur multiple-fiscal year financial obligations by issuing critical needs notes and the voters approve the ballot issue an issuing authority may issue, on one or more occasions, notes, which shall have a maximum maturity of no more than twenty-five years. The board or the executive director, as applicable, shall determine the specific dates on which the issuing authority issues notes, the principal amount of notes to be issued on any date, and the redemption and other terms of notes.

(b) An issuing authority shall issue notes only for the purposes, under the terms, and up to the maximum amounts approved by voters through the approval of a statewide ballot issue.

(c) If the amount of excess state revenues that is retained by the state as authorized by voters statewide through their approval of House Bill 05-1194, enacted at the first regular session of the sixty-fifth general assembly, at the November 2005 statewide election for any state

fiscal year that immediately precedes a state fiscal year in which an issuing authority may issue notes is less than the maximum amount of annual payments of principal and interest on notes authorized by voters statewide for the state fiscal year in which the issuing authority may issue notes or any subsequent state fiscal year, the general assembly, by passage of a joint resolution, may, but shall not be required to, limit the maximum amount of scheduled annual payments of principal and interest on notes issued after the effective date of the joint resolution to any amount that is greater than or equal to the difference between the amount of excess state revenues retained and the amount of scheduled annual payments of principal and interest on notes issued prior to the effective date of the joint resolution. The passage of a joint resolution limiting the maximum amount of scheduled annual payments of principal and interest on notes shall not affect the voter authorization of notes, including, but not limited to, any restriction on the scheduled annual payments of principal and interest on notes or any other terms specified in the voter-approved ballot issue that authorized the issuance of the notes. The general assembly, by passage of a subsequent joint resolution, may remove or modify any limit imposed by joint resolution on the maximum amount of scheduled annual payments of principal or interest on notes, subject to any limits set forth in the voter-approved ballot issue that authorized the issuance of the notes.

(2) (a) An issuing authority shall issue notes pursuant to a certificate executed by the board or the executive director, a trust indenture between the issuing authority and any commercial bank or trust company having full trust powers, or any other instrument issued or executed by the issuing authority.

(b) As the board or the executive director deems appropriate, the certificate, trust indenture, or other instrument authorizing notes may contain provisions setting forth the rights and remedies of the owners or holders of the notes, provisions for protecting and enforcing the rights and remedies of the owners or holders of the notes, and any other provisions for the security of the owners or holders of the notes. The provisions may include, but shall not be limited to, provisions regarding letters of credit, insurance, stand-by credit agreements, or other forms of credit ensuring timely payment of the notes, including the redemption price or the purchase price, and provisions regarding the reimbursement of providers of the credit from moneys available for the payment of principal of and interest on the notes for any amounts paid by the providers with respect to the notes.

(3) (a) A certificate, trust indenture, or other instrument authorizing the issuance of notes in accordance with the provisions of this article may pledge to the payment of notes all or any portion of the proceeds from the issuance of such notes and the moneys appropriated to the critical needs fund pursuant to section 24-115-111 to pay the principal or interest on notes. Proceeds and moneys pledged shall be used only for the purpose or purposes for which they are pledged. Any pledge of the proceeds of notes shall be valid and binding from the date of issuance of the notes. Any pledge of moneys appropriated to the fund shall be valid and binding from the time the moneys were appropriated to the fund pursuant to section 24-115-111. A pledge shall create a valid security interest, proceeds and moneys pledged shall immediately be subject to the lien of the pledge and security interest without any physical delivery or further act,

and the lien of the pledge and security interest shall be valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the pledging party irrespective of whether the claiming party has notice of the lien. The instrument by which the pledge and security interest is created need not be recorded or filed in order to perfect the pledge and security interest.

(b) An issuing authority shall apply the gross proceeds of notes issued pursuant to subsection (1) of this section that are not pledged to the payment of the notes or allocated to the payment of costs associated with the issuance and administration of the notes for the purposes specified in the ballot issue approved by voters of the state that authorized the issuance of the notes.

(4) Subject to the provisions of subsection (1) of this section, notes may be issued in any aggregate principal amount, may be issued in one or more series by the corporation or in three or more series by the department, may bear any dates, may be in any denomination or denominations, may mature on any date or dates, may mature in any amount or amounts, may be in any form, may be payable at any place or places, may be subject to any terms of redemption with or without a premium, may contain any provisions that the board or the executive director deems appropriate regarding insurance to ensure the timely payment of the notes, and may contain any other provisions not inconsistent with the provisions of this article as the board or the executive director may determine; except that the maximum amount of notes that the department may issue before January 1, 2007, is six hundred million dollars.

(5) The rate or rates of interest borne by notes may be fixed, adjustable, or variable, or any combination thereof, without regard to any interest rate limitation appearing in any other law of this state. If any rate or rates are adjustable or variable, the standard, index, method, or formula shall be determined by the board or the executive director.

(6) Notes may be sold at public or private sale and may be sold at, above, or below the principal amounts thereof. The sale of notes shall not be subject to the "Procurement Code", articles 101 to 112 of this title, but when contracting for necessary and advisable services connected to the issuance of notes, the board or the executive director, whichever is applicable, shall use an open and transparent competitive selection process determined by the board or the executive director that provides the public sufficient information to evaluate the process.

(7) Notes shall be signed on behalf of the state by the members of the board, or by the executive officer of the board if authorized by the board, or by the executive director. Pursuant to article 55 of title 11, C.R.S., the applicable signature or signatures may be one or more facsimile signatures imprinted, engraved, stamped, or otherwise placed on the notes. If all of the signatures on notes are facsimile signatures, provision shall be made for a manual authenticating signature on the notes by or on behalf of a designated authenticating agent.

(8) Subject to the provisions of subsection (1) of this section, the power to fix the date of sale of notes, to receive bids or proposals, to award and sell notes, to fix interest rates, and to take all other action necessary to sell and deliver notes may be delegated to an agent of the board or the executive director.

(9) Any outstanding notes may be refunded by the board or the executive director pursuant to article 56 of title 11, C.R.S.

(10) The board or the executive director is authorized to engage the services of any investment bankers, consultants, financial advisors, underwriters, note insurers, letter of credit banks, rating agencies, agents, note counsel or other legal counsel, or other persons whose services may be required or deemed advantageous by the board or the executive director in connection with notes. The board or the executive director shall not be subject to the "Procurement Code", articles 101 to 112 of this title, when engaging services but shall use an open and transparent competitive selection process determined by the board or the executive director that provides the public sufficient information to evaluate the process.

(11) The board or the executive director may, with respect to notes that have been issued or proposed, enter into interest rate exchange agreements in accordance with article 59.3 of title 11, C.R.S.

(12) The executive director and any member or employee of the board are immune from personal liability for any action taken within the scope of their authority under this article.

**24-115-111. Critical needs fund - creation - appropriations to fund - repayment of notes from fund.** (1) The critical needs fund is hereby created in the state treasury. The fund shall consist of moneys appropriated to the fund by the general assembly and all interest and income earned on the deposit and investment of moneys in the fund. The board or the executive director may expend moneys in the fund only to make payments of principal and interest on notes issued pursuant to section 24-115-110, to make transfers to any fund or account established for the payment of the principal or interest on any of the notes by the certificate, trust indenture, or other instrument authorizing the notes on the dates and in the amounts required by the certificate, trust indenture, or other instrument, to pay the reasonable administrative and issuance costs incurred by the issuing authority in connection with the notes, to pay the principal and interest on and any costs incurred by the corporation in connection with a borrowing pursuant to section 24-115-107 (1)(f) or note anticipation notes issued pursuant to section 24-115-107 (1)(g), to pay necessary expenses of the board as authorized by section 24-115-106 (3), and, to the extent that the amount of moneys in the fund or to be credited to the fund in any state fiscal year exceeds the amount needed for those purposes during the state fiscal year only, to directly pay the costs of transportation projects. Moneys in the fund at the end of any state fiscal year shall not be transferred to the general fund of the state. It is the intent of the general assembly to

appropriate moneys from the general fund or other legally available sources to the fund in amounts sufficient to allow the issuing authorities to make all payments of principal and interest on notes issued pursuant to section 24-115-110, to pay the reasonable administrative and issuance costs incurred by the issuing authorities in connection with the notes, to pay the principal and interest on and any costs incurred by the corporation in connection with a borrowing pursuant to section 24-115-107 (1)(f) or note anticipation notes issued pursuant to section 24-115-107 (1)(g), to pay necessary expenses of the board as authorized by section 24-115-106 (3), and to ensure that the total amount of moneys in the fund available for expenditure by the department for all purposes for which the department may expend moneys from the fund is thirty million dollars in state fiscal year 2005-06, seventy million dollars in state fiscal year 2006-07, and one hundred million dollars in each subsequent state fiscal year.

(2) The intention of the general assembly to make appropriations to the critical needs fund as specified in subsection (1) of this section shall not be construed to be binding on any future general assembly, and such appropriations are subject to annual appropriation by the general assembly. Every contract entered into by an issuing authority that relates to the issuance or administration of notes issued pursuant to section 24-115-110 and imposes an obligation that is to be paid from the fund shall state that the financial obligations of the issuing authority or the state under the contract are subject to annual appropriations to the fund by the general assembly, in its sole discretion, in accordance with this section and that the contract shall not be deemed to create any indebtedness of the state within the meaning of the state constitution or the laws of the state concerning or limiting the creation of indebtedness by the state. A decision by the general assembly not to appropriate moneys to the fund shall not be construed as an action impairing any such contract.

(3) General fund appropriations made pursuant to this section are not subject to the limitation on state general fund appropriations set forth in section 24-75-201.1 because approval of a ballot issue that authorizes the issuance of notes and provides for the payment of notes by voters of the state constitutes voter approval for the exemption of those appropriations from that limitation.

(2) An issuing authority, in consultation with the state treasurer, may direct a corporate trustee that holds any proceeds from the issuance of notes or any other moneys paid to the trustee in connection with the notes or any other moneys relating to the notes or moneys in the fund to invest or deposit the proceeds or other moneys in investments or deposits other than those in which public moneys generally may be invested or deposited pursuant to section 24-75-601.1 or any other applicable law if the board or the executive director, in consultation with the state treasurer, determines that the investment or deposit meets the standard established in section 15-1-304, C.R.S., the income is at least comparable to income available on investments or deposits of moneys in the state highway supplementary fund, and the investment will assist the department in the financing of the projects or purposes for which the notes were issued.

SUBJECT: Colorado Open Records Act Maximum Hourly Research and Retrieval Fee

### Summary

Pursuant to Section 24-72-205 (6) (b), C.R.S., the maximum hourly fee for the research and retrieval of public documents in response to a Colorado Open Records Act request will increase from \$30.00 to \$33.58 as of July 1, 2019.

### Methodology

The \$3.58 increase resulted from inflating \$30 by the percentage change in the Denver-Aurora-Lakewood consumer price index for all items and all urban consumers, published by the U.S. Bureau of Labor Statistics, between the first half of calendar year 2014 and the first half of calendar year 2019. Because the U.S. Bureau of Labor Statistics has not yet released the index for the first half of 2019, the index used for the first half of 2019 represents the average of indices published for January, March, and May 2019.
