

MINUTES OF REGULAR MEETING  
OF THE  
WALKER FIELD AIRPORT BOARD  
HELD FEBRUARY 29, 1968, GRAND JUNCTION, COLORADO

Chairman Ed Lamm called the meeting to order at 2:15 P. M.

Members present were as follows: Paul Heidel, Ed Lamm, Clyde Lowe,  
Ed McCormick, Gus Byrom, Dave Palo,  
Dick Grey, and Bill Anderies.

Item of business: Runway extension

As background information Gus Byrom explained the need for the extension of the present runway. The extension would be made necessary by Frontier and United using the new Boeing 737. He mentioned that the runway that they would need would be two times the normal take off length in case a take off would need to be aborted.

Gus Byrom also mentioned that Greg Isbell called and said that we needed an 11,000 foot runway. He also stated that Mr. Henry Kimball will be in for a meeting in the following week to discuss the needs at the airport.

Ed McCormick questioned what runway lengths Frontier and United would have to have or at least what their people think they have to have.

Paul Heidel questioned if we had to go through this each and every year.

The meeting was adjourned at 2:40 P. M.
