

Purchasing Division

ADDENDUM NO. 1

DATE: March 16, 2015
FROM: City of Grand Junction Purchasing Division
TO: All Offerors
RE: IFB-4020-15-DH Mesa County Asphalt Crack Fill, Seal Coat & Stripe Project

Offerors responding to the above referenced solicitation are hereby instructed that the requirements have been clarified, modified, superseded and supplemented as to this date as hereinafter described.

Please make note of the following clarifications:

1. The following sections shall be removed from the solicitation documents and shall not apply to this project as follows:

Section 2.21 Bid Bond
Section 2.22 Performance & Payment Bonds
Section 2.23 Retention
2. Under Section 3.3 Scope of Work, the Section titled Crackfill Material Specifications shall be disregarded and shall not apply to this project. Contractor shall submit pricing and their proposed crack fill material product specifications with their bid submittal, for review and approval by the Owner.
3. Q. How would you like to do the weed control in the cracks prior to the crack seal? Weeds with live roots have the potential (if not killed completely) to break the surface of the asphalt and crack filling material and cause damage. In the long run, it pays off to kill the weeds with chemicals all the way down to the roots, 2 weeks minimum prior to starting the job.

A. Mesa County staff will perform chemical control on all weeds in cracks over the next couple weeks prior to contractors performing work.
4. Q. There are two types of asphalt sealer, coal tar base and Asphalt emulsion base. Most of us use coal tar sealer because the life of the sealer is doubled as opposed to the Asphalt emulsion base sealer. I was wondering if you had a preference of which material to use.

A. Mesa County will allow use of a coal tar sealer on lots. All products shall be review and approved by owner prior to award.

5. Q. If a Contractor is awarded multiple lots, would that Contractor be allowed to perform work on said lots simultaneously?

A. Yes. Contractor shall coordinate with Owner.

6. Q. I wanted to ask about the transition cracks (asphalt to concrete). Are we going to include these in the bids or not?

A. No.

7. See attached Pre-Bid Meeting Sign In Sheet.

The original solicitation for the project noted above is amended as noted.

All other conditions of subject remain the same.

Respectfully,

A handwritten signature in black ink, appearing to read "Duane Hoff Jr.", written over a horizontal line.

Duane Hoff Jr., Senior Buyer
City of Grand Junction, Colorado
