1. Darla Jean/Airport Annexation Update

Dan Rosenthal reported the outcome of the April 5 Airport Board meeting regarding the annexation of Airport lands. Dan Wilson will prepare a memorandum identifying all the services that the City has and does provide to the airport. Dave Thornton reported on the development status in the County of several new subdivisions to the east and southeast of the Darla Jean area.

Following discussion, the Committee gave staff direction to identify a few annexation alternatives which, in addition to airport land and the Darla Jean area, also include key vacant or developing parcels further to the east and southeast. These alternatives are to be brought back to the Growth Committee for discussion as soon as possible.
