

October 19, 1990

To: City Council
City Services Committee

From: Greg Trainor, Utility Manager

Re: City Services Committee:

The Committee met on Thursday October 11, 1990 at 7:00 AM.

Present: Mantlo, Nelson, Bennett, Shepherd, Achen, Trainor, Starr, Dixson, Thompson.

Guests: Tim Foster, Steve Foss, Valorie Briggs

1. The Committee met with the proponents of a curbside recycling program. Tim Foster, Steve Foss and Valorie Briggs discussed their proposal to develop a curbside recycling program. The committee, after discussion of the proposal and a review of what costs could be avoided by the City, determined that they wished to visit with the balance of the City Council on the issue of a curbside service and what they would be willing to charge the customer for the additional expense for the service. Steve Foss has provided additional information which is attached.

Darren Starr is developing financial projections and these will be discussed with the Committee/Council, probably, prior to the November 11th Budget Review.

2. Chief Thompson met with the Committee concerning a proposed hazardous material mutual aid agreement. After discussion, Mike agreed to develop additional data and return to the Committee at a later date. The Fire Department's review of the meeting was submitted to the Committee under separate cover.
