

October 24, 1990

Minutes  
City Services Committee

A meeting of the City Services Committee was held October 23, 1990.

Present: R.T. Mantlo, John Bennett, Conner Shepherd, Paul Nelson, Greg Trainor  
Meryl Goodwin, Chris Jouflas

The purpose of the meeting was to meet with Goodwin and Jouflas to discuss their proposal to sell to the City the Whiting water rights.

Mr. Goodwin presented a portion of a video tape: "Race to Save the Planet" on the Colorado River system.

Jouflas discussed the City's need for the water and the convenience of having the Whiting water within the City's watershed.

There was general discussion. The Council indicated that they wanted a couple of months to hash this around and could the Whittings wait? Jouflas indicated that the Whittings were anxious to sell the water and to get on with their lives. However, they felt that they could give the City some time to discuss this issue among themselves.
