Announcements

There were no announcements

Old Business

Ken had a follow up on S. Broadway, S. Camp to Riggs Hill regarding bike path continuation. The Developer of the Rump property said there are some major technical problems - it appears there isn't enough room for off street path, will have on street bike lanes. There will also be a soft trail on the north side and they will complete the little trail already there.

Urban Trails Master Plan Revision: Diana passed around a MP Revision Worksheet for Region: West (19-26 North of Patterson up to "I"). Group discussed Diana's comments and made recommendations.

Group discussed bike routes and bike lanes. Shawn and Jody suggested stating would prefer bike lanes long term but will accept bike route in the interim. Shawn suggested deleting 1-70 from bike route on Master Plant (service roads will stay). Talked about

detached path between River Road and railroad tracks to Fruita.

Ken would like to add another session for the river corridor. Next month the area of discussion will be Airport (F Road North - 26 Road - 32 Road).

No update on canal banks.

New Business

Shawn showed the Redlands Mesa project to the group per Kathy Portner's request. Plan showed single track - Shawn then showed new proposal of what developers want to do, they want to use a cart trail onto the street and then back to off street.

Jody added that the Street Crews are repairing road out by G Road and Canyon View Park. Joint project by engineering and Parks & Rec. Department.

There was no further new business.
