|  | 37.                                      | Local landmark designation: Yes No _X Date of designation:                                  |  |
|  |  | Designating authority:  |  |
|  | 38.                                      | Applicable National Register Criteria:  |  |
|  |  | X A. Associated with events that have made a significant contribution to the broad          |  |
|  |  | pattern of our history;   |  |
|  |  | B. Associated with the lives of persons significant in our past;                            |  |
|  |  | X C. Embodies the distinctive characteristics of a type, period, or method of               |  |
|  |  | construction, or represents the work of a master, or that possess high artistic             |  |
|  |  | values, or represents a significant and distinguishable entity whose components             |  |
|  |  | may lack individual distinction; or   |  |
|  |  | D. Has yielded, or may be likely to yield, information important in history or              |  |
|  |  | prehistory.   |  |
|  |  | Qualifies under Criteria Considerations A through G (see Manual)                            |  |
|  |  | Does not meet any of the above National Register criteria                                   |  |
|  |  | Area(s) of significance: Architecture, Community Development and Planning                   |  |
|  |  | Period of significance: 1954; 1943 to 1957 Uranium Boom                                     |  |
|  |  | Level of significance: National State LocalX  |  |
|  | 42.                                      | Statement of significance: The development in this area is a direct result of the nation's  |  |
|  |  | involvement in WWII and the drive for the development of nuclear weapons. The               |  |
|  |  | discovery of significant sources of Uranium in the region initiated development in Grand    |  |
|  |  | Junction that supported both the mining of the materials and the administration of          |  |
|  |  | programs related to the development of weapons. The building types, materials and           |  |
|  |  | neighborhood layout are all indicative of the national trends which were driven by the      |  |
|  |  | proliferation of the automobile and the enormous demand for single family homes.            |  |
|  |  | House designs departed from the romantic and revival styles that were prevalent in the      |  |
|  |  | earlier part of the 20th century and took on a California inspired design that was          |  |
|  |  | characterized by simple horizontally proportioned forms. Houses were typically mass         |  |
