Gentlemen:

It has come to our attention that the existing agreement between the City and your sewer district provides that the district is responsible for repair and replacement of the collection system. The new rate structure that the City passed on November 21, 1979, includes \$0.40 per month for each Equivalent Residential Unit (EQU) for replacements needed in the collection system. Since this service is not provided to your district, a refund will be made to your district in an amount equal to \$0.40 for each EQU per month. This means that the amount to be retained by the City for a monthly service charge for each EQU will be \$3.80 rather than the \$4.20 with the difference refunded to your district. If you have any problems with this or any questions please feel free to give me a call.

Yours truly,

James E. Patterson, Jr.  
Utilities Director
