Re: Sewer Rates

I spoke with the manager of the Orchard Mesa Sanitation District yesterday regarding the Big J Camper Court (letter attached). The manager indicates Larry Clever prepared an adjusted rate for this account.

I vaguely remember some discussion we had regarding this. I also recollect discussions of other commercial account adjustments and our decision to hold until the ARIX study and recommendations were available.

What is the current status of the ARIX recommendations? I do not think we can continue to delay remedying this issue. Please let me know as soon as possible where we stand and what our next step should be.
