Re: Mesa County Sanitation System

Dear Albin:

I find that I have been remiss in informing you of my attitude concerning the handling of the subject matter. I sometime ago informed several of the committee members that I did not feel I would be effective in helping as I had been asked to do.

When I first sat down and talked to you concerning this matter, I discussed with you the fact that I felt it was essential not to create a fight between the City and the County if the best interests of the valley were to be served, but rather that it would be necessary to do all things possible to insure the cooperation of all governmental entities.

As time progressed, it became obvious to me that this still did not meet with your approval and that you were unwilling to cooperate with the City or other personalities which might cause you a problem.

I am writing you this letter to be sure that we are of record with each other concerning this matter. I am owed no fees for any time that I have spent either by the committee or by you, and I wish to state that I feel that the successful culmination of the committee's efforts will be to the benefit of everyone in the Grand Valley. I wish you all great luck in your undertaking.

Yours truly,

WILLIAM E. FOSTER
