Mr. Jim Patterson  
City Utilities Director  
City Hall  
Grand Junction, Colo. 81501

Dear Mr. Patterson:

Re: 201 Grand Junction Facilities Plan:

I am opposed to any plan for the City of Grand Junction to treat sewage for Clifton Sanitation District #1, either by the City alone or jointly with the County.

Any jointly operated treatment plant should be only for joint use of county districts, controlled and operated by the County Commissioners and county residents of the sanitation districts involved, through their own board of directors, thus avoiding problems caused by pro-rating taxes, expenses, priorities etc.

Please include this letter in your report on the 201 Grand Junction Facilities Plan.

Sincerely yours,

*Margaret M. Crowley*  
Margaret M. Crowley

(resident of Clifton Sanitation District #1)
