Mr. James Patterson  
Director of Utilities  
250 N. 5th St.  
Grand Junction, Colorado 81501

Dear Mr. Patterson:

We the members of the Citizens Advisory Planning Group subcommittee on Sanitation support the City of Grand Junction Facilities Plan because it encourages city-county cooperation. It is a constructive step in the organization of an economical regional sanitation system.

We have the following suggestions to make. We feel strongly that there should be equal representation of all parties involved in the planning, construction, and operation of all joint facilities. We also feel that the implementation of the plan should require proper land use zoning in order to protect the integrity of the project.

Please call upon us if we can be of help.

Sincerely,

*Suzanne Younge*
