April 12, 1976

The Honorable Lawrence L. Kozisek, Mayor
City of Grand Junction
250 N. 5th Street
Grand Junction, Colorado 81501

Dear Mayor Kozisek:

The large number of city and county approved sewer extensions and the large number of anticipated developments in the Grand Junction area were recently brought to the attention of the Water Quality Control Commission. Also, at the meeting on April 6, 1976, the Commission tabled the requests for site approval of nine (9) sewer extensions for the Grand Junction area.

Before taking further action on these, it was the expressed desire of the Commission that the city and any other appropriate governmental agency be requested to attend the next Commission meeting on May 4, 1976, and the Executive Committee meeting on April 23, 1976. The purpose of attending the Executive Committee meeting is to determine the status of your current planning so that it can be presented to the full Commission on May 4.

If, for any reason, these dates are not convenient, please let me know so other arrangements for attendance at a subsequent commission meeting can be arranged.

Sincerely yours,

Evan D. Dildine, P.E.
Technical Secretary
Water Quality Control Commission
