City of Grand Junction and
the Valley Wide Sewer
Committee
250 North 5th Street
Grand Junction CO 81501

Attention: Mr. Duane R. Jensen, P.E.
City Engineer - Utilities

Gentlemen:

Reviewing our proposal/qualification records on your sewerage project, we note that an official notification of the Selection Committee's choice of an engineer for this project has not been received.

We do have the understanding, however, that the City of Grand Junction and the Valley Wide Sewer Committee have conducted and successfully consummated contractual negotiations for the completion of this work. It is also our understanding that these negotiations were with the firm of Henningson, Durham and Richardson, Inc.

Our interest in your project and the growth on the western slope is of great interest to our firm. We were pleased that our firm was considered as a short list choice for your project, and while we were not selected, we hope that in the future our firm may be of some engineering assistance or service.

Very truly yours,

K.D. Bielman
