Denver, Colorado 80203

Gentlemen:

Re: Final and partial request for reimbursement  
for construction programs

Enclosed are the outlay report and request for reimbursement for construction programs with three projects which have been and are being accomplished by the City of Grand Junction under the Construction Grants program. The projects include No. C-080337-02, Step II for existing treatment plant improvements, No. C-080037-12, Step II for Paradise Hills Interceptor Sewer, and No. C-080337-13, Step III for Paradise Hills Interceptor.

The following table shows a listing of the expenditures made on project No. C-080337-02, existing plant improvements.

<u>Date of Invoice</u>	<u>Amount</u>	<u>Vendor</u>
Dec. 31, 1976	\$33,750.00	N.H.P.Q.
March 25, 1977	\$23,625.00	N.H.P.Q.
June 13, 1977	<u>\$10,125.00</u>	N.H.P.Q.
Total	\$67,500.00	

Seventy-five percent of the project is funded by E.P.A., therefore we request seventy-five percent of the project cost or \$50,625.00. The grant was made in that amount, therefore no change in grant amount is necessary. The above amounts represent 100 percent of the project cost for this project.
