Re: Plans and Specifications Review for Sewer Line
Extension for 13 line extensions within the
District, Mesa County

Gentlemen:

This is to inform you that the plans and specifications for your sewer line extension have been reviewed by the Water Quality Control Commission at its meeting held on March 7, 1978. The plans and specifications conform to the Colorado Department of Health Criteria Used in the Review of Wastewater Treatment Facilities. This review is subject to the following conditions:

1. A certification from the engineer must be furnished prior to commencement of operation stating that the facilities were constructed as shown on the plans submitted or a justification by the engineer and/or operating entity of any changes that were made.

This review does not relieve the owner from compliance with all county regulations prior to construction nor from responsibility for proper engineering, construction, and operation of the facility.

Please retain this letter for your permanent records.

Very truly yours,

FOR DIRECTOR, WATER QUALITY CONTROL DIVISION

Richard H. Bowman
