Re: Grand Junction and Mesa County, Colorado
Step 3 Grant Application - River Road Interceptor Sewer
and Paradise Hills Interceptor - Phase II
Grant CO80337

Dear Ron:

As consulting engineers for the City of Grand Junction and Mesa County, Colorado for the subject project, we are herewith resubmitting three copies of the following documents for your review and approval:

- a. Final Plans and Specifications.
- b. EPA Step 3 Grant Application (EPA Form 5700-32).
- c. Engineering Services Agreement.
- d. EPA Form 5700-41 with Cost Summary Breakdown and Supporting Information.
- e. Anticipated Payment Schedule.
- f. EPA Checklist.
- g. Engineering Design Calculations.
- h. Site Application.

This project and supporting grant request documents were previously submitted in September 1977 and we would like at this time to reactivate this Step 3 grant request in the amount of \$3,146,250.

Page 2

We request this Step 3 grant application be placed on the September 1979 WQCC Agenda in anticipation of Step 3 bidding and construction on this project later this fall and extending into the calendar year 1980. This sewer is necessary for both the permanent 12.5 mgd WWTP presently under design and can be effectively utilized in conjunction with a 1.0 mgd temporary plant (flow equalization basins utilized as aerated lagoons until the permanent plant is completed) now being evaluated in conjunction with your staff and EPA.

Very truly yours,

HENNINSON, DURHAM & RICHARDSON, INC.
OF COLORADO
