Re: Grand Junction/Mesa County  
UC/ICR Consultation  
HDR #73-54-10

Dear Jim:

Enclosed please find six copies each of the following draft documents for your use:

1. Joint Ordinance and Resolution For Sewer Use
2. Surcharge Rate Structure For Above Normal Strength Wastes
3. Joint Ordinance and Resolution For Industrial Cost Recovery

These draft documents include comments received from Mr. Gerald J. Ashby, yourself, and the December 18, 1979 letter from Mr. William H. Hormberg of EPA.

I would like to emphasize that the contents of the draft documents should be agreed upon between the City, Mesa County, and the applicable sanitation districts prior to their submission to the State and EPA. This action should essentially eliminate any problems anticipated when the documents are required to be adopted.

We are also in receipt of five copies each of the wastewater treatment agreements between the City and the Orchard Mesa Sanitation District, Ridges Development Corporation, Central Grand Valley Sanitation District, and the Fruitvale Water and Sanitation District. We are

Architecture  
Engineering  
Planning  
Systems  
Ecosciences

Alexandria, Va.  
Atlanta  
Charlotte  
Chicago  
Dallas  
Denver  
Helena  
Minneapolis

planning to submit three copies each of these agreements along with the subject documents, when ready for submission in January of 1980, to the State and EPA.

Please advise if you require additional copies of the enclosed draft documents and on the status of your review.

Very truly yours,

HENNINGSON, DURHAM & RICHARDSON, INC.  
OF COLORADO
