Grand Junction, CO 81501

Dear Jim:

RE: Your letter of December 22.

I have gone over your letter with the Board of Directors and discussed with them at length our taking over the maintenance of the Sanitation District on a trial basis. They are in full accord with it.

At this point, we will figure no adjustment on the January billing, but somewhere down the road where we have a real problem and need to borrow your flushing machine, you might remember us at that time.

I do want to thank Ron Rish and Ralph for the time that you gave us on the 12th outlining some of the problems you see in our district. If any future problems occur, we would appreciate your continued kindness so that we can keep all systems up.

Sincerely,

Don Caraway
