250 North Fifth St.

January 5, 1983

Mr. Wayne Pinkerton
Grand Valley Rural Power Lines, Inc.
2727 Grand Avenue
Grand Junction, CO 81501

Dear Mr. Pinkerton:

~~This letter is to request that you order the special equipment necessary to~~
provide the 13.2 KV, three phase electrical service for the new Persigo Waste-
water Treatment Plant at 2145 River Road. I understand that your estimate of
the cost of this equipment is about \$86,000.00. The City of Grand Junction
will be responsible for the payment of this special equipment. I will be
happy to provide you with any information necessary to prepare a contract for
this service.

Mesa County is the owner of the new wastewater treatment plant and has con-
tracted with the City of Grand Junction to administer the construction and
operation of the plant. The Mesa County Board of Commissioners passed a reso-
lution authorizing me to act as their agent for administering the federal
grants relating to this project. My position as Utilities Director for the
City gives me the authority to request the ordering of the special equipment.

The service contract should be with the City of Grand Junction since the City
is the fiscal agent responsible for the construction and operation of the
plant. If you need additional information I will be happy to provide it to
you.

Sincerely,

James E. Patterson, Jr.
Utilities Director
