RESPONSE TO ACTION/INFORMATION REQUEST

ATTENTION: TOM DATE: 2/10/84

We do not have delegated authority to approve pretreatment programs; you will, therefore, have to wait until we get approval from U. Fischer @ EPA before we can say whether or not the grant condition is being ^(has been) met. We will be in contact with EPA about this, but it is up to them. You may want to write the City a short note explaining this (again).
