TO: Jim Patterson, Public Works Director
FROM: *TD* Tom Douville, Environmental Health Director
SUBJECT: Septage and Sludge & Other

I have been asked to develop a picture of the current septage volume and where it is being brought for disposal. I would appreciate the receipt of volume data from the Persigo Plant which includes a time reference as well.

I have not yet received an accurate projection on sludge generation from the Persigo Plant itself. This data is necessary for landfill purposes and to allow me to increase my knowledge of the facility.

As a final request, please provide me with a staffing and budget summary for the facility.
Thank you.
