A few days ago we discussed my writing a report to Mesa County to your attention regarding the status of the joint City-County sewer system. I think this is a good idea and want very much to produce a good report. As I told you in our conversation, after January 11, which is my last day as Public Works Director, I will take two weeks vacation. I will then resume work at the sewer plant where I will be working on sewer system related projects. I will continue that work until April 5 or until I start working somewhere else, whichever comes first. At the present time I do not have a starting date on another job.

I think I can produce a better report if I wait until I am at the plant devoting my full time to those efforts. You gave me some ideas for the report content, and I have given some thought to it also. I have developed an outline for the report for your review. If you have any suggestions for additions or changes let me know and I will be happy to include them.

- I. Introduction
 - A. Purpose of report
 - B. Contents of report
- II. Status of construction projects
- III. Status of EPA grants
- IV. State, federal, and financial requirements
 - ✓ A. NPDES permit
 - ✓ B. Industrial pretreatment program
 - ✓ C. Sludge disposal program
- V. Status of studies
 - A. Rate study
 - B. I & I study
 - C. 201 update study
- VI. Current operation and maintenance
- VII. Status of sewer fund
- VIII. Recommendations

Starting January 28 I can be reached at the Persigo plant (244-1687). I will also be available to meet with you at your office if you like. I am looking forward to working with you on this project.
